Is the requestor authorized to conduct business in New York State (NYS)?

☒ Yes ☐ No

- If the requestor is a Corporation, LLC, LLP or other entity requiring authorization from the NYS Department of State to conduct business in NYS, the requestor's name must appear, exactly as given above, in the [NYS Department of State's Corporation & Business Entity Database](#). A print-out of entity information from the database must be submitted to the New York State Department of Environmental Conservation (DEC) with the application, to document that the requestor is authorized to do business in NYS.

Do all individuals that will be certifying documents meet the requirements detailed below? ☒ Yes ☐ No

- Individuals that will be certifying BCP documents, as well as their employers, meet the requirements of Section 1.5 of [DER-10: Technical Guidance for Site Investigation and Remediation](#) and Article 145 of New York State Education Law. **Documents that are not properly certified will be not approved under the BCP.**

Section II. Project Description

1. What stage is the project starting at?

☒ Investigation

☐ Remediation

2. If the project is starting at the remediation stage, a Remedial Investigation Report (RIR), Alternatives Analysis, and Remedial Work Plan must be attached (see [DER-10 / Technical Guidance for Site Investigation and Remediation](#) for further guidance).

3. If a final RIR is included, please verify it meets the requirements of Environmental Conservation Law (ECL) Article 27-1415(2): ☐ Yes ☐ No

4. Please attach a short description of the overall development project, including:

- the date that the remedial program is to start; and
- the date the Certificate of Completion is anticipated.

Section III. Property's Environmental History

All applications **must include** an Investigation Report (per ECL 27-1407(1)). The report must be sufficient to establish contamination of environmental media on the site above applicable Standards, Criteria and Guidance (SCGs) based on the reasonably anticipated use of the property.

To the extent that existing information/studies/reports are available to the requestor, please attach the following (**please submit the information requested in this section in electronic format only**):

1. Reports: an example of an Investigation Report is a Phase II Environmental Site Assessment report prepared in accordance with the latest American Society for Testing and Materials standard (ASTM E1903).

2. SAMPLING DATA: INDICATE KNOWN CONTAMINANTS AND THE MEDIA WHICH ARE KNOWN TO HAVE BEEN AFFECTED. LABORATORY REPORTS SHOULD BE REFERENCED AND COPIES INCLUDED.

Supplemental Questions for Sites Seeking Tangible Property Credits in New York City ONLY. Sufficient information to demonstrate that the site meets one or more of the criteria identified in ECL 27 1407(1-a) must be submitted if requestor is seeking this determination.

BCP App Rev 9

Property is in Bronx, Kings, New York, Queens, or Richmond counties.	Yes	No
Requestor seeks a determination that the site is eligible for the tangible property credit component of the brownfield redevelopment tax credit.	Yes	No
Please answer questions below and provide documentation necessary to support answers.		
1. Is at least 50% of the site area located within an environmental zone pursuant to NYS Tax Law 21(b)(6)? Please see DEC's website for more information.	Yes	No
2. Is the property upside down or underutilized as defined below?	Upside Down?	Yes No
	Underutilized?	Yes No
<p>From ECL 27-1405(31):</p> <p>"Upside down" shall mean a property where the projected and incurred cost of the investigation and remediation which is protective for the anticipated use of the property equals or exceeds seventy-five percent of its independent appraised value, as of the date of submission of the application for participation in the brownfield cleanup program, developed under the hypothetical condition that the property is not contaminated.</p> <p>From 6 NYCRR 375-3.2(I) as of August 12, 2016: (Please note: Eligibility determination for the underutilized category can only be made at the time of application)</p> <p>375-3.2:</p> <p>(I) "Underutilized" means, as of the date of application, real property on which no more than fifty percent of the permissible floor area of the building or buildings is certified by the applicant to have been used under the applicable base zoning for at least three years prior to the application, which zoning has been in effect for at least three years; and</p> <p>(1) the proposed use is at least 75 percent for industrial uses; or</p> <p>(2) at which:</p> <p>(i) the proposed use is at least 75 percent for commercial or commercial and industrial uses;</p> <p>(ii) the proposed development could not take place without substantial government assistance, as certified by the municipality in which the site is located; and</p> <p>(iii) one or more of the following conditions exists, as certified by the applicant:</p> <p>(a) property tax payments have been in arrears for at least five years immediately prior to the application;</p> <p>(b) a building is presently condemned, or presently exhibits documented structural deficiencies, as certified by a professional engineer, which present a public health or safety hazard; or</p> <p>(c) there are no structures.</p> <p>"Substantial government assistance" shall mean a substantial loan, grant, land purchase subsidy, land purchase cost exemption or waiver, or tax credit, or some combination thereof, from a governmental entity.</p>		

Supplemental Questions for Sites Seeking Tangible Property Credits in New York City (continued)

3. If you are seeking a formal determination as to whether your project is eligible for Tangible Property Tax Credits based in whole or in part on its status as an affordable housing project (defined below), you must attach the regulatory agreement with the appropriate housing agency (typically, these would be with the *New York City Department of Housing, Preservation and Development*; the *New York State Housing Trust Fund Corporation*; the *New York State Department of Housing and Community Renewal*; or the *New York State Housing Finance Agency*, though other entities may be acceptable pending Department review). **Check appropriate box, below:**

Project is an Affordable Housing Project - Regulatory Agreement Attached;

Project is Planned as Affordable Housing, But Agreement is Not Yet Available*
(*Checking this box will result in a “pending” status. The Regulatory Agreement will need to be provided to the Department and the Brownfield Cleanup Agreement will need to be amended prior to issuance of the CoC in order for a positive determination to be made.);

This is Not an Affordable Housing Project.

From 6 NYCRR 375- 3.2(a) as of August 12, 2016:

(a) “Affordable housing project” means, for purposes of this part, title fourteen of article twenty seven of the environmental conservation law and section twenty-one of the tax law only, a project that is developed for residential use or mixed residential use that must include affordable residential rental units and/or affordable home ownership units.

(1) Affordable residential rental projects under this subdivision must be subject to a federal, state, or local government housing agency’s affordable housing program, or a local government’s regulatory agreement or legally binding restriction, which defines (i) a percentage of the residential rental units in the affordable housing project to be dedicated to (ii) tenants at a defined maximum percentage of the area median income based on the occupants’ households annual gross income.

(2) Affordable home ownership projects under this subdivision must be subject to a federal, state, or local government housing agency’s affordable housing program, or a local government’s regulatory agreement or legally binding restriction, which sets affordable units aside for home owners at a defined maximum percentage of the area median income.

(3) “Area median income” means, for purposes of this subdivision, the area median income for the primary metropolitan statistical area, or for the county if located outside a metropolitan statistical area, as determined by the United States department of housing and urban development, or its successor, for a family of four, as adjusted for family size.

Attachment to Section II – Project Description

- Description of Development Project

Attachment to Section II – Project Description

4. *Please attach a short description of the overall development project, including: the date that the remedial program is to start; and the date the Certificate of Completion is anticipated.*

The proposed development project consists of a new energy facility, which will support adjacent properties within the Hunts Point section of the Bronx.

The investigatory and remedial program is expected to begin upon approval of this BCP Application and finish by December of 2017. Remedial Action implementation is anticipated to begin in June of 2018 and finish by December of 2019. Redevelopment plans for the site include building a new energy facility to support the food distribution center and surrounding communities in Hunts Point. A Certificate of Completion is anticipated to be issued by December of 2020.

- Metes and Bounds Description

Attachment to Section IV - Property Information

1. *A metes and bounds description of the property is required if the proposed site boundaries do not correspond to tax map metes and bounds.*

The Site boundary occupies less than its respective tax lot. A metes and bounds description of the property is included in the survey provided below. Note that the eastern Site boundary will follow the coastline as shown in Figures 1-6, and does not extend into the Bronx River as depicted on the survey. A revised survey will be provided upon acceptance into the BCP.

2. *Is the required property map attached to the application?*

A County Tax Map (with adjacent property owners) is included as Figure 3.

10. Property Description and Environmental Assessment

Location

The Site is located in a commercial and industrial area of the Hunts Point section of the Borough of the Bronx. The Site is an approximate 7.1 acre lot within a larger tax lot containing multiple parcels of land and is identified on New York City tax maps as Block 2781, Lot 500. The Site is bound to the north by a produce distribution warehouse, to the east by the Bronx River, to the south by a food distribution warehouse, and to the west by Food Center Drive and a railroad spur. A USGS Topographic Map is included as Figure 1. A Site plan showing the Site property boundaries is included as Figure 2.

Site Features

The Site is currently vacant with the investigative area being mostly level terrain. The Site is covered in vegetation with some areas being wooded, although a large area of land devoid of vegetation is located on the western side of the Site where purifier waste is exposed at the surface. The Site is surrounded by a 10-ft chain link fence with barbed wire with one gate opening on the northern side of the parcel. A 40' by 50' pump house enclosed in a fence is also present in the northeastern corner of the Site.

Current Zoning and Land Use

The Site is currently vacant and zoned M3-1 (Manufacturing). Surrounding properties include Krasdale to the south, mixed commercial and industrial to the north, and Baldor to the west. A map showing surrounding property use is included as Figure 5.

Past Use of the Site

Historically, the Site was part of the Consolidated Edison Company of New York, Inc. (Con Ed) manufactured gas plant (MGP) that operated from 1926 until the early 1960s. Gas operations included a coke/oven gas plant, a carbureted water gas plant, a light oil plant, and a liquid petroleum production area. In total, approximately 46 buildings or structures existed on the former Con Ed MGP facility that were actively involved in gas production.

Site Geology and Hydrogeology

The Site incorporates approximately 7.1 acres of fairly level land situated in Bronx County of New York City. The Site is mapped on the *Central Park, NY and Flushing, NY* Quadrangles of the 7.5 Minute Topographic Map, published by the United States Geological Survey (USGS). Review of the topographic map indicates that the Site is located approximately 13 feet above sea level (NAVD 88).

The soil stratigraphy of Site typically contains a 1-2 ft thick layer of silty sand underlain by fill material including sand, coal ash, incinerator ash, coal, cinders and material significantly impacted by MGP-related waste (coal tar and purifier waste). The fill material generally ranges from 5-10 ft thick and is underlain by a native clay layer. In the parcel of land devoid of vegetation on the western side of the Site, purifier waste makes up the first 10-15 ft of the soil stratigraphy.

Groundwater is encountered approximately 5 ft below grade on Site, with groundwater appearing at higher elevations as you move east towards the Bronx River. Based on the proximity to the Bronx River groundwater is expected to flow to the east. A FEMA Floodplain Map is included as Figure 6.

Environmental Assessment

Historic investigations as performed by Lawler, Matusky & Skelly Engineers (LMS) indicate the presence of MGP-related waste (coal tar and purifier waste) within the subsurface of Site. Exceedances of VOCs (BTEX compounds, acetone, and carbon disulfide) SVOCs (polycyclic aromatic hydrocarbons (PAHs) and naphthalene) and Metals (aluminum, arsenic, beryllium, chromium, cobalt, copper, iron, lead, magnesium, manganese, mercury, nickel, selenium, sodium, thallium, and cyanide) were detected in soil and groundwater samples across Site (refer to *Investigative Report for the Operable Portion of Parcel D, Bronx, NY*, LMS, 2005).

Based upon the results of the most recent supplemental investigation performed by LMS (2005), elevated concentrations of PAHs were present, particularly in samples with visible purifier waste and coal tar impacts. In GP-2 [0'-10'], naphthalene was detected at its greatest concentration of 2,200 mg/kg, well in exceedance of its commercial SCO of 500 mg/kg. All 10 samples tested exhibited exceedances of the commercial SCO of cyanide. Cyanide levels ranged from 170 mg/kg to 2,950 mg/kg, many magnitudes higher than the commercial SCO of 27 mg/kg (Figure 7). All 8 groundwater samples analyzed for iron showed exceedances of the AWQS of 300 µg/L, with the highest concentration occurring in PZ-7 at 1,700,000 µg/L. Exceedances of naphthalene were also noted in 6 out of the 8

groundwater samples tested. The elevated levels ranged from 34 µg/L to 1100 µg/L, well above the AWQS of 10 µg/L (Figure 8).

Subject: **Bronx Community Board #2 Repository for Hunts Point Brownfield Cleanup Program Documentation**

Dear Ms. Bell,

This letter will serve as the approval for Bronx Community Board This letter will serve as the approval for the Bronx Community Board (CB) #2 to act as the document repository for Hunts Point Brownfield Cleanup Program Sites. We understand that documents will be sent to the CB by either NYCEDC or directly by your consultant. The CB will hold the documents and allow the public to review them for information and also during public comment periods to allow comments to be provided. Documents can be provided in paper copy, as a CD or both depending on our space for storage. The CB are under no legal obligation to hold these documents and are performing this as a voluntary public service. NYCEDC will notify the CB when each individual site receives a Certificate of Completion (COC) and at that time the CB may discard all documents for that specific Site.

Should you have any questions or need further information, please feel free to contact District Manager Ralph Acevedo at (718) 328 9125 or at ralacevedo@cb.nyc.gov

Sincerely,

Roberto Crespo

Attachment to Section X – Land Use Factors

2. *Attach a summary of current business operations or uses, with an emphasis on identifying possible contaminant source areas. If operations or uses have ceased, provide the date.*

The Site is currently vacant and improved with only one 40' by 50' pump house in the northeast corner of the Site. The Site was historically part of the Consolidated Edison Company of New York (Con Ed) manufactured gas plant (MGP) that operated from 1926 until the early 1960s. Previous onsite investigations indicate the presence of the two major byproducts of MGP operations within the subsurface: coal tar and purifier waste.

3. *Attach a statement detailing the specific proposed use.*

The proposed development project consists of an energy facility that will provide energy to the food distribution center and surrounding community.
