Re: Potential Hazardous Waste Disposal Site

Dear Property Operator:

As mandated by subdivision 27-1305(2)(a) of the Environmental Conservation Law ("ECL," cited below), the New York State Department of Environmental Conservation (the Department) must investigate all suspected or known inactive hazardous waste disposal sites. We have received information which leads us to suspect that hazardous waste has been disposed of at the following location:

Site Name:	Former Adhesive Products Corporation
Site Address:	1660 Boone Ave
Tax Map No.:	Block 3015, Lot 1
NYSDEC Site No.:	203130

Therefore, this letter constitutes the Department's notification to you as the identified property operator that this property is considered a potential inactive hazardous waste disposal site. If the Department determines that hazardous waste has been disposed of on the property and that the hazardous waste poses a significant threat to public health or the environment, the property will be listed on the Registry of Inactive Hazardous Waste Disposal Sites (Registry).

If you have any information that may be relevant to our investigation and pending determination, please forward it to me as soon as possible. If you prefer to carry out this investigation yourself, you may do so under a legal agreement with the Department and in accordance with the Department's technical requirements. Please contact us within 10 business days if you want to discuss this option. Otherwise, the Department will carry out any needed field investigation. If the site is determined to be an inactive hazardous waste disposal site and the Department incurs costs to investigate or remediate the site, the Department will seek to recover all costs from any responsible person.

A brief summary of the information we presently have on the site is enclosed. This information will soon be available on our public website, and may be accessed by using our "Environmental Site Remediation Database Search" tool at:

<http://www.dec.ny.gov/cfmx/extapps/derexternal/index.cfm?pageid=3>.

If you have any questions or would like to discuss the possibility of undertaking the investigation of the site yourself, please contact the Department's project manager, Steven Wu, at steven.wu@dec.ny.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerard Burke".

Gerard Burke, P.E.
Director, Remedial Bureau B

Environmental Conservation Law

Section 27-1305(2)(a)

"The department shall conduct investigations of the sites listed in the registry and shall investigate areas or sites which it has reason to believe should be included in the registry. The purpose of these investigations shall be to develop the information required by subdivision one of this section to be included in the registry."
