Eastern Environmental Solutions	Tyler Bieler and Mike Kinhead		Track mounted Geoprobe 8140LS (sonic drill rig)	
<b>Description and Location of Work Activities Performed</b>				
<p>The contractor used a track-mounted Geoprobe 8140LS to finish advancing soil borings for collection of soil waste classification samples for hazardous lead delineation in Grid WC-A2. AKRF collected 15 samples for laboratory analysis of total and TCLP lead. All excess drill cuttings (IDW) were transferred to a 55-gallon DOT-approved drum and labelled. A sample was also collected from the drummed materials for disposal purposes.</p> <p>Community Air Monitoring (CAMP) and work zone air monitoring was performed by AKRF.</p>
