

(Fact Sheet Begins Next)

## Act Now to Continue Receiving Information About This Site!

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites *electronically by email*.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

**You must sign up for the DER email listserv:**

[www.dec.ny.gov/chemical/61092.html](http://www.dec.ny.gov/chemical/61092.html)

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

### Why You Should Go “Paperless”:

- Get site information faster and share it easily;
- Receive information about all sites in a chosen county - read what you want, delete the rest;
- It helps the environment and stretches your tax dollars.

**If “paperless” is not an option for you**, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

## Brownfield Cleanup Program

188 East 135<sup>th</sup> Street  
Redevelopment Site  
Bronx, New York 10451

April 2023

SITE No. C203156  
NYSDEC REGION 2

### Where to Find Information

Access project documents through the  
DECinfo Locator  
<https://www.dec.ny.gov/data/DecDocs/C203156/>  
and at these location(s):

**Bronx Public Library –  
Mott Haven Branch**  
321 East 140th Street  
Bronx, NY 10454  
(718) 665-4878  
[mothaven@nypl.org](mailto:mothaven@nypl.org)

**Bronx Community Board 1**  
3024 Third Avenue  
Bronx, NY 10455  
(718) 585-7117  
[brxcb1@optonline.net](mailto:brxcb1@optonline.net)

### Who to Contact

Comments and questions are welcome and  
should be directed as follows:

**Project-Related Questions**  
Michael Sollecito, Project Manager  
NYSDEC  
625 Broadway, 12<sup>th</sup> Floor  
Albany, NY  
12233-7016  
(518) 402-9817  
[michael.sollecito@dec.ny.gov](mailto:michael.sollecito@dec.ny.gov)

**Project-Related Health Questions**  
Jim Sullivan  
NYSDOH  
Bureau of Environmental Exposure  
Investigation  
Empire State Plaza, Corning Tower  
Albany, NY 12237  
(518) 402-7859

## Draft Investigation Work Plan for Brownfield Site Available for Public Comment

The public is invited to comment on a draft work plan being reviewed by the New York State Department of Environmental Conservation (NYSDEC) to investigate the 188 East 135<sup>th</sup> Street Redevelopment site ("site") located at 188 East 135<sup>th</sup> Street, Bronx, NY. Please see the map for the site location.

**Draft Investigation Work Plan:** The draft investigation work plan, called a "Remedial Investigation Work Plan," (RIWP) was submitted to NYSDEC under New York's Brownfield Cleanup Program. The investigation will be performed by Waterfront Living II LLC ("applicant") with oversight by NYSDEC and the New York State Department of Health (NYSDOH).

**How to Comment:** NYSDEC is accepting written comments about the Draft RIWP for 30 days, from **April 5 through May 5, 2023**.

- Access the RIWP and other project documents online through the DECinfo Locator: <https://www.dec.ny.gov/data/DecDocs/C203156/>.
- Documents also are available at the location(s) identified at left under "Where to Find Information."
- Please submit comments to the NYSDEC project manager listed under Project-Related Questions in the "Who to Contact" area at left.

**Highlights of the Proposed Site Investigation:** The investigation will define the nature and extent of contamination in soil, surface water, groundwater and any other parts of the environment that may be affected.

Previous investigations have detected semi-volatile organic compounds and metals in soil and groundwater on site and volatile organic compounds in soil vapor and sub-slab soil vapor.

Key components of the investigation work include:

- Drilling and sampling soil borings to identify possible on-site sources of contamination;
- Collecting soil vapor and sub-slab soil vapor samples; and
- Installing and sampling on-site groundwater wells to determine if on-site groundwater has been impacted.

# BROWNFIELD CLEANUP PROGRAM

**Next Steps:** NYSDEC will consider public comments, revise the plan as necessary, and approve the work plan. NYSDOH must concur with the plan. After the work plan is approved, the activities detailed in the work plan will be implemented.

When the investigation is completed, a report will be prepared and submitted to NYSDEC that summarizes the results. NYSDEC will review the report, make any necessary revisions and, if appropriate, approve the report.

After the investigation, a proposed cleanup plan, called a “Draft Remedial Action Work Plan” will be developed. The cleanup plan will include an evaluation of the proposed site remedy, or recommend a no action or no further action alternative. The goal of the cleanup plan is to ensure the protection of public health and the environment. NYSDEC will present the proposed cleanup plan to the public for its review and comment during a 45-day comment period.

NYSDEC will keep the public informed throughout the investigation and cleanup of the site.

**Site Description:** The 0.58-acre site is bordered to the north by a Metro North Railroad owned lot, to the north and east by East 135<sup>th</sup> Street, to the south by Park Avenue, and to the west by the Harlem River and a city-owned lot. The site is currently developed with a vacant one-story building located on the east-central portion of the parcel with the remainder consisting of an asphalt-paved parking lot and a small unpaved yard area. Historic uses of the site include a railroad yard, a coal yard, a contractor’s storage/supply yard, an auto wrecker, an iron and steel company and likely a dry cleaner. Surrounding properties had similar historic industrial uses. The proposed redevelopment consists of constructing a new 11-story mixed use (residential and commercial) building.

Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C203156) at:

<https://www.dec.ny.gov/cfm/xtapps/dereexternal/index.cfm?pageid=3>

**Brownfield Cleanup Program:** New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by NYSDEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit:

<https://www.dec.ny.gov/chemical/8450.html>
