#### **GENERAL COMMENTS:**

As part of the of the NYSDEC-approved Remedial Action Work Plan and modifications, Roux Environmental Engineering and Geology D.P.C. (Roux) performed environmental oversight and operated air monitoring equipment in compliance with the Community Air Monitoring Plan (CAMP) during foundation installation activities.

#### **RAWP Activities Performed:**

- Kingdom continued grading soil in grid A1 to prepare for future utilities and slab installation.
- Kingdom continued placing rebar in grids B3-B2 and A3-A2 to prepare for future concrete slab pour.
- Maintenance of temporary outdoor stockpile performed after addition of soil for disposal. The stockpile was covered at the end of the day with sheeting to prevent erosion.
- Concrete contractor continued to place rebar and forms for nonstructural concrete on upper floors (2-5).

#### **CAMP Performed:**

CAMP was performed for the duration that Roux was onsite observing intrusive work. No exceedances of particulates of VOCs were recorded.

### Other Relevant Comments or Issues:

None.

#### Upcoming work activities:

- Kingdom will remain onsite through approximately June 2023 to complete vapor barrier and foundation slab installation.
- Soil disposal will be necessary to remove excess soil from the site. Disposal facility approval to Bayshore Soil Management has been obtained and soil export will continue.
- Roux will continue to perform full-time oversight and CAMP during intrusive construction activities and perform inspections during installation of engineering controls.

VOC - Volatile Organic Compound

PPM - parts per million

## Roux Environmental Engineering and Geology, D.P.C. Community Air Monitoring Program - Meter Locations

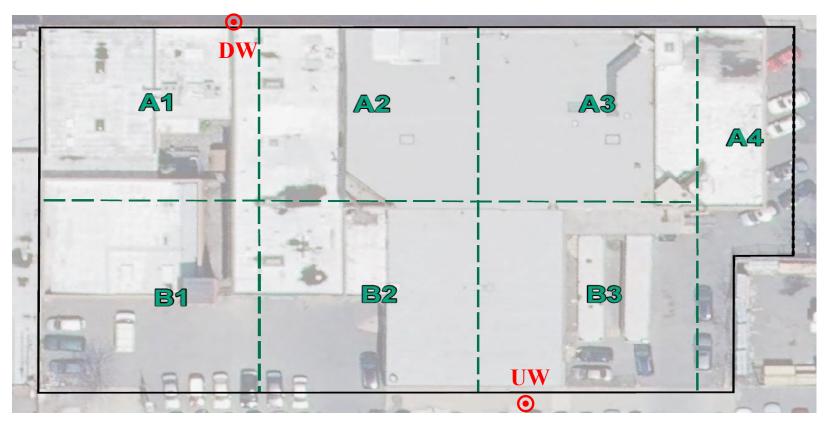

Project: Sunset Industrial Park
Project Number: 3165.0006R000
Project Manager: Levi Curnutte

Location: 74 20th Street, Brooklyn, NY

Date: 5/17/2023

Times: 7:00 AM to 3:30 PM

Notes: CAMP - Community Air Monitoring Program

UW - Upwind CAMP Station DW - Downwind CAMP Station
