

(Fact Sheet Begins Next)

Act Now to Continue Receiving Information About This Site!

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites *electronically by email*.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

You must sign up for the DER email listserv:

www.dec.ny.gov/chemical/61092.html

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

Why You Should Go “Paperless”:

- Get site information faster and share it easily;
- Receive information about all sites in a chosen county - read what you want, delete the rest;
- It helps the environment and stretches your tax dollars.

If “paperless” is not an option for you, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

NEW YORK STATE DEPARTMENT OF

ENVIRONMENTAL CONSERVATION

Where to Find Information:

Project documents are available at the following location(s) to help the public stay informed.

Brooklyn Public Library

Mott Haven Branch
81 Devoe Street
Brooklyn, NY 11211
(718) 486-3365
Call for hours

NYSDEC, Region 2 Office

47-40 21st Street
Long Island City, NY 11101
Call in advance: (718) 482-4900
Hours: Mon. to Fri. 8AM to 4 PM

Who to Contact:

Comments and questions are always welcome and should be directed as follows:

Project Related Questions

Shaun Bollers, Project Manager
NYSDEC, Region 2 Office
47-40 21st Street
Long Island City, NY 11101
(718) 482-4096
shaun.bollers@dec.ny.gov

Public Health questions:

Bridget Boyd
NYSDOH
Empire State Plaza
Corning Tower Room 1787
Albany, NY 12237
(518) 402-7860
bee@health.ny.gov

FACT SHEET

Brownfield Cleanup Program

Former Domsey Fiber Corp Site
431 Kent Avenue
Brooklyn, NY 11205

SITE No. C224158
NYSDEC REGION 2

October 2014

Cleanup Action Completed at Brownfield Site

Action has been completed to address the contamination related to the Former Domsey Fiber Corp. Site (the "site") located at 431 Kent Avenue, Brooklyn, New York under New York State's Brownfield Cleanup Program. Please see the attached map for the site location.

Cleanup activities were performed by Wythe and Kent Realty, LLC ("Volunteer") with oversight provided by the New York State Department of Environmental Conservation (NYSDEC). The Volunteer has submitted a draft Final Engineering Report for NYSDEC review which states that cleanup requirements have been or will be achieved to fully protect public health and the environment for the proposed site use.

Site Description and Background: The Site consists of two parcels designated "A" and "B". Parcel A totals 60,448.96 sf (1.38 acres) and is bounded by S. 9th Street to the north, Wythe Avenue to the east, Kent Avenue to the west and S. 10th Street to the south. Parcel B totals 51,015.63 sf (1.17 acres) and is bounded by S. 10th Street to the north, Wythe Avenue to the east, Kent Avenue to the west and S. 11th Street to the south. Historic site use has included a used clothing recycling business, a brewery warehouse and most recently a paper goods wholesale supply company.

Highlights of the Site Cleanup: The following activities have been or will be completed to achieve the remedial action objectives:

- Excavation and removal of PCE- and petroleum-contaminated soil hot spots in the northwest area of the site;
- Excavation and off-site disposal of soil exceeding the Unrestricted Use Soil Cleanup Objectives (SCOs);
- Collection and analysis of post-excavation endpoint soil samples to confirm and document compliance with SCOs;
- Backfilling of excavated areas to the proposed development depth with imported clean fill;
- Installation of vapor barrier and subslab depressurization system to protect against soil vapor intrusion;
- Implementation of Engineering and Institutional Controls, including establishment of a Site Management Plan and recording of an Environmental Easement to prevent future exposure to any remaining residual contamination.

Next Steps: When NYSDEC approves the Final Engineering Report, it will be made available to the public (see "Where to Find Information" below). NYSDEC then will issue a Certificate of Completion which will be announced in a fact sheet that is sent to the site contact list. The Volunteer will be able to redevelop the site after receiving a Certificate of Completion. In addition, the Volunteer:

- will have no liability to the State for contamination at or coming from the site, subject to certain conditions; and
- will be eligible for tax credits to offset a portion of the costs of performing cleanup activities and for redevelopment of the site.

BROWNFIELD CLEANUP PROGRAM

A Certificate of Completion may be modified or revoked if, for example, a Volunteer does not comply with the terms of its Brownfield Cleanup Agreement with NYSDEC.

Brownfield Cleanup Program: New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield is any real property that is difficult to reuse or redevelop because of the presence or potential presence of contamination.

For more information about the BCP, visit:

<http://www.dec.ny.gov/chemical/8450.html>

We encourage you to share this fact sheet with neighbors and tenants, and/or post this fact sheet in a prominent area of your building for others to see.

Receive Site Fact Sheets by Email

Have site information such as this fact sheet sent right to your email inbox. NYSDEC invites you to sign up with one or more contaminated sites county email listservs available at the following web page:

www.dec.ny.gov/chemical/61092.html

It's quick, it's free, and it will help keep you better informed. As a listserv member, you will periodically receive site-related information/announcements for all contaminated sites in the county(ies) you select.

Note: Please disregard if you already have signed up and received this fact sheet electronically.
