VISITORS OF NOTE

Time	NAME	Representing	Remarks
------	------	--------------	---------

WORK ACTIVITIES PERFORMED (Since Last Report):

Discussed/planned boring/well locations for El Peunte with drillers due to the very narrow sidewalks and several trees on the block that make it very difficult to get equipment on the boring locations. The plan is for 3 MWs to be installed on the north side of 4th St and the alternate location on the south side of 4th St.

Began hand clearing locations to 5 ft bgs (only was able to do 1 today)

Spoke with Johnny Concepcion, owner of a small driveway/parking lot near 96 S. 4th Street.

He asked what we were doing and we briefly discussed the drilling near his property and if his driveway will be blocked.

Public Complaints or Problems Encountered:

Note: Any public complaints should be recorded and include the names, contact numbers, and summary of the complaint.

SAMPLES COLLECTED (Since Last Report)

N/A

AIR MONITORING (Since Last Report)

CAMP ran from 0940 am - 1255 pm by the marked location in front of 101 South 4th St. It was noted there was some visible dust during concrete breaking and backfilling, during which AARCO was asked to add water.

Action Levels Exceeded?? - Indicate Time of Day And Any Mitigation Measures or N/A:

Not for the 15 minute average readings, but at 1001 and 1003 readings on the downwind dustrak read 0.1-0.12 mg/m³, this occurred during jackhammering of the concrete. Upwind levels remained low, 0.002-0.004, water was added and levels returned to baseline shortly after.

PLANNED DAILY ACTIVITIES FOR NEXT DAY/WEEK

Continue hand clear boring/well locations.

First well location set up.

Fully excavated hole, down to 5ft bgs (first location)

Upwind CAMP unit outside 101 S 4th St.

Downwind CAMP unit outside 101 S 4th St.

Photo showing dust from breaking concrete pre-hand clear.
