CERTIFICATIONS

I, Ronald D Boyer, am currently a registered professional engineer licensed by the State of New York, I had primary direct responsibility for implementation of the remedial program activities, and I certify that the Remedial Action Work Plan was implemented and that all construction activities were completed in substantial conformance with the Department-approved Remedial Action Work Plan dated 18 December 2023.

I certify that the data submitted to the Department with this Final Engineering Report demonstrates that the remediation requirements set forth in the Remedial Action Work Plan and in all applicable statutes and regulations have been or will be achieved in accordance with the time frames, if any, established for the remedy.

I certify that all use restrictions, Institutional Controls, Engineering Controls, and/or any operation and maintenance requirements applicable to the Site are contained in an environmental easement created and recorded pursuant ECL 71-3605 and that all affected local governments, as defined in ECL 71-3603, have been notified that such easement has been recorded.

I certify that a Site Management Plan has been submitted for the implementation of Institutional Controls required for the Site and that such plan has been approved by the Department.

I certify that all documents generated in support of this report have been submitted in accordance with the DER's electronic submission protocols and have been accepted by the Department.

I certify that all data generated in support of this report have been submitted in accordance with the Department's electronic data deliverable and have been accepted by the Department.

I certify that all information and statements in this certification form are true. I understand that a false statement made herein is punishable as a Class "A" misdemeanor, pursuant to Section 210.45 of the Penal Law. I, Ronald D. Boyer, of Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C., am certifying as Owner's Designated Site Representative and I have been authorized and designated by all site owners to sign this certification for the site.

NYS Professional Engineer # 085831	6/16/25 Date	Ronald D. Boyer Signature

FINAL ENGINEERING REPORT

1.0 BACKGROUND AND SITE DESCRIPTION

Innovative Urban Living, LLC entered into a Brownfield Cleanup Agreement (BCA) with the New York State Department of Environmental Conservation (NYSDEC) on 31 May 2019 to investigate and remediate the property located at 30 Inspiration Lane (formerly known as [f/k/a] 12096 Flatlands Avenue), Brooklyn, New York (Block 4434, Lot 10) (hereinafter the "Site"; see **Figure 1**), under the Brownfield Cleanup Program (BCP). The following BCA amendments were executed for the Site:

- Amendment 1: An initial BCA amendment was executed on 20 December 2023 to add additional Requestor - IUV Phase I Owner, LLC (as the beneficial owner) and to notice the Department that the current owner at this time - Christian Cultural Center, Inc. - on or before the date of the Construction Loan Closing, will transfer title of the Site to Urban Living Alternatives, LLC, which entity will then immediately transferred the Site to IUV Phase 1A Housing Development Fund Corporation. Urban Living Alternatives, LLC and IUV Phase 1A Housing Development Fund Corporation were not added to the BCA at this time.
- Amendment 2: A second BCA Amendment executed on 20 February 2024 to add IUV Phase 1 LIHTC Owner LLC as a new second prospective beneficial owner was added to the BCA as another BCP party.
- Amendment 3: A third BCA Amendment dated 21 June 2024 advised the NYSDEC that volunteer IUV Phase I Owner, LLC revised its name to IUV Phase 1 Owner, LLC and to advise that title transfer from Christian Cultural Center, Inc. occurred on 27 March 2024 to Urban Living Alternatives, LLC, which entity then immediately transferred the Site to IUV Phase 1A Housing Development Fund Corporation as the nominee title owner and to advise that IUV Phase 1 Owner, LLC and IUV Phase 1 LIHTC Owner LLC are the beneficial owners. Innovative Urban Living, LLC, IUV Phase 1 Owner, LLC, and IUV Phase 1 LIHTC Owner, LLC are collectively the "Volunteer." This third BCA amendment also identified the official revised Site address as 30 Inspiration Lane (f/k/a 12096 Flatlands Avenue).

The BCA and the amendments are included in **Appendix B**. The Site was remediated to a Track 2 Restricted-Residential Use.

After construction, the development will consist of two mixed-use commercial/residential buildings in the northern and southern portions of the Site with a single cellar level.

The Site is located in the East New York neighborhood of Brooklyn, New York and is identified as Block 4434 and Lot 10 on the Kings County Tax Map. The Site is situated on an approximately 1.572-acre area bounded by Flatlands Avenue followed by a gasoline filling station, automotive repair facility, carwash, and Sheffield Avenue to the north, a 12-story multi-family residential building to the south, Pennsylvania Avenue followed by a vacant landscaped lot and the northern courtyard of a 20-story residential building (part of the Starrett City Complex) to the east, and BCP Site No. C224353 (12074 Flatlands Avenue) to the west. A Site Location Map is provided as **Figure 1**.

According to the Boundary and Topographic Survey prepared by Control Point Associates Inc. signed 14 October 2021, pre-construction elevations around the Site sloped gently downward from the southwest (elevation [el] 20) to the northeast (el 13.5). All elevations are North American Vertical Datum of 1988 (NAVD 88). The BCP Site layout is provided as **Figure 2**. The boundaries of the Site are fully described in the environmental easement provided in **Appendix A**.

According to a Phase I Environmental Site Assessment (ESA) completed by Langan in August 2018, the Site originally consisted of marshlands and was filled in during the early 1900's with ash and waste from the city solid waste incinerator. Historical site operations include a gasoline filling and service station (between 1949 and 1965) and automotive wrecking and dismantling (between 1967 and 1987). The Former On-Site Gasoline Filling Station, Former On-Site Automotive Dismantling/Wrecking and Presence of Historic Fill as recognized environmental conditions (RECs) and the potential presence of undocumented underground storage tanks (USTs) and potential for subsurface impacts from surrounding sites as business environmental risks (BERs). Langan performed a Limited Due Diligence Phase II Environmental Investigation in 2018, a Remedial Investigation in 2021, and a Supplemental Remedial Investigation in 2023, which identified elevated concentrations of semi-volatile organic compounds (SVOCs), metals, pesticides, polychlorinated biphenyls (PCBs), and per- and polyfluoroalkyl substances (PFAS) in soil; SVOCs, metals, and PFAS in groundwater; and low-levels of petroleum-related volatile organic compounds (VOCs) and chlorinated VOCs in one sample in soil vapor.

Remediation was performed concurrently with commencement of Site development activities. The remediation incorporated all Site preparation activities including the installation of a support of excavation (SOE) system and Site-wide soil excavation to approximately 15 feet below ground surface (bgs). The redevelopment project includes the construction of two mixed-use commercial/residential buildings in the northern and southern portions of the Site with a single cellar level with an approximate area of 58,396 square feet across the majority of the Site

footprint. A publicly accessible private roadway will be constructed at street level on the western portion of the Site.

This Final Engineering Report (FER) documents the remedial actions implemented in accordance with the NYSDEC-approved Remedial Action Work Plan (RAWP) for Track 2 Restricted-Residential Use.

An electronic copy of this FER with all supporting documentation is included as **Appendix S**.

2.0 SUMMARY OF SITE REMEDY

2.1 Remedial Action Objectives

Based on the results of the Remedial Investigation, the following Remedial Action Objectives (RAOs) were identified for this site.

- **Groundwater**

  RAOs for Public Health Protection

  - Prevent ingestion of groundwater with contaminant levels exceeding drinking water standards.

  RAOs for Environmental Protection

  - Remove the source of ground or surface water contamination.

- **Soil**

  RAOs for Public Health Protection

  - Prevent ingestion/direct contact with contaminated soil.

- **Soil Vapor**

  RAOs for Public Health Protection

  - Mitigate impacts to public health resulting from existing, or the potential for, soil vapor intrusion into buildings at a site.

2.2 Implementation of the Selected Remedy

The Site was remediated in accordance with the RAWP dated 18 December 2023 and the Decision Document (DD) dated January 2024. The RAWP evaluated several remedial alternatives and selected a Track 1 Unrestricted Use remedy to address impacted soil, groundwater, and soil vapor; however, the results of the endpoint soil sampling revealed the presence of contamination at concentrations exceeding the Unrestricted Use Soil Cleanup Objectives (SCOs). As such, a Track 2 Restricted-Residential remediation was completed in accordance with the contingent Track 2 alternative presented in the RAWP.

The factors considered during the selection of the remedy are those listed in 6 New York Codes Rules and Regulations (NYCRR) § 375-1.8. As required in the DD, the remedy was evaluated with respect to green and sustainable remediation principles. A summary of Best Management Practices related to green remediation is presented in Section 4.2.6.

The following activities were completed during implementation of the remedy:

2.2.1 Remedial Design

A remedial design program was implemented to provide the details necessary for the construction, operation, optimization, maintenance, and monitoring of the remedial program.

Green remediation principles and techniques were implemented to the extent feasible in the design, implementation, and site management of the remedy as per DER-31. The major green remediation components listed in the Decision Document are as follows:

- Considering the environmental impacts of treatment technologies and remedy stewardship over the long term;
- Reducing direct and indirect greenhouse gases and other emissions;
- Increasing energy efficiency and minimizing use of non-renewable energy;
- Conserving and efficiently managing resources and materials;
- Reducing waste, increasing recycling and increasing reuse of materials which would otherwise be considered a waste;
- Maximizing habitat value and creating habitat when possible;
- Fostering green and healthy communities and working landscapes which balance ecological, economic and social goals;

- Integrating the remedy with the end use where possible and encouraging green and sustainable re-development; and
- Additionally, to incorporate green remediation principles and techniques to the extent feasible in the future development at this site, any future on-site buildings shall be constructed, at a minimum, to meet the 2020 Energy Conservation Construction Code of New York (or most recent edition) to improve energy efficiency as an element of construction.

As part of the remedial design program, to evaluate the remedy with respect to green and sustainable remediation principles, an environmental footprint analysis was completed using SiteWise™, an accepted environmental footprint analysis calculator. Water consumption, greenhouse gas emissions, renewable and non- renewable energy use, waste reduction and material use were estimated, and goals for the project related to these green and sustainable remediation metrics, as well as for minimizing community impacts, protecting habitats and natural and cultural resources, and promoting environmental justice, were incorporated into the remedial design program, as appropriate. The SiteWise™ footprint analysis summary is provided in Section 3.11.1.

Additionally, the remedial design program included a Climate Screening Checklist, to evaluate the impact of climate change on the Site and the proposed remedy. Climate resiliency is discussed in Section 3.11.2.

2.2.2 Excavation

Excavation and off-site disposal of contaminant source areas, including:

- any underground storage tanks (USTs), fuel dispensers, underground piping or other structures associated with a source of contamination; and
- grossly contaminated soil, as defined in 6 NYCRR Part 375-1.2(u).

Contaminated materials removal is discussed in detail in Section 3.3. Approximately 60,598.96 tons of non-hazardous contaminated material were removed from 0 to 15 feet bgs across the entire Site footprint. Approximately 569.26 tons of hazardous materials were removed from between 4 and 22 feet bgs. The extents of the remedial excavation are included on **Figure 3A**.

A pre-design investigation (PDI) was completed in February 2024 to evaluate the potential final excavation extents that would be required for the hotspots identified in the RAWP to meet a Track 1 cleanup. However, the initial remedial excavation endpoint sample analytical results revealed the presence of contamination at concentrations exceeding the Track 1 Unrestricted

Use SCOs. As required by the Decision Document, Langan transmitted the analytical results of the PDI samples collected in February 2024 and the initial endpoint samples collected in August 2024 to the Department via email on 4 September 2024. During a call on 4 September 2024, a Track 2 Restricted-Residential remediation was proposed to be completed in accordance with the Track 2 alternative presented in the RAWP instead of the Track 1 Unrestricted Use remedy that had originally been selected. Based on the revised remediation approach, excavation of the six hotspots identified the RAWP located deeper than the Track 2 remedial excavation depth of 15-feet bgs would not be required for the remedial action. In an email dated 5 September 2024, the Department confirmed the revised remediation approach. The PDI analytical results are discussed in detail in Section 3.3.2. Post-excavation endpoint analytical results are discussed in detail in Section 3.5.1.

Eleven USTs were discovered during the implementation of the remedial action in the northern portion of the Site and beneath the sidewalk adjacent to Pennsylvania Avenue. The removal and decommissioning of the USTs are discussed in Section 3.3.5.

2.2.3 Backfill

Clean fill meeting the requirements of 6 NYCRR Part 375-6.7(d) was imported to replace the excavated soil and establish the designed grades at the Site. On-site soil which did not exceed the excavation criteria was also used to backfill excavation areas to establish the designed grades.

On-Site soil reuse is discussed in detail in Section 3.4. Imported materials is discussed in detail in Section 3.9. Approximately 11,130.5 tons of quarry stone, DGA, clean sand, and clean fill were imported to the Site for backfilling purposes. Soil reuse source areas and placement and imported backfill placement are presented on **Figures 6 and 7**, respectively.

2.2.4 Groundwater Extraction & Treatment

Dewatering activities were conducted under a NYCDEP-approved Groundwater Discharge permit and a NYSDEC-approved Long Island Well permit when the excavation area extended beyond the groundwater table. Dewatering activities are summarized in Section 3.2.6.

2.2.5 Vapor Intrusion Evaluation

The soil vapor intrusion evaluation is summarized in Section 3.10.

2.2.6 Institutional Control

Imposition of an institutional control in the form of an environmental easement for the controlled property which:

- Requires the remedial party or site owner to complete and submit to the Department a periodic certification of institutional and engineering controls in accordance with Part 375-1.8 (h)(3);
- Allows the use and development of the controlled property for restricted residential use as defined by Part 375-1.8(g), although land use is subject to local zoning laws;
- Restricts the use of groundwater as a source of potable or process water, without necessary water quality treatment as determined by the NYSDOH or NYCDOHMH; and,
- Requires compliance with the Department approved Site Management Plan.

A copy of the easement and proof of filing is provided in **Appendix A**.

2.2.7 Site Management Plan

A Site Management Plan was prepared and submitted to the NYSDEC for approval, which includes the following:

- An Institutional and Engineering Control Plan that identifies all use restrictions and engineering controls for the site and details the steps and media-specific requirements necessary to ensure the following institutional and/or engineering controls remain in place and effective:
    - Institutional Controls: The Environmental Easement discussed in Section 3.9.

    This plan includes, but may not be limited to:

    - An Excavation Plan which details the provisions for management of future excavations in areas of remaining contamination;
    - Descriptions of the provisions of the environmental easement including any land use and groundwater use restrictions;
    - A provision for evaluation of the potential for soil vapor intrusion for any occupied buildings on the site, including provision for implementing actions recommended to address exposures related to soil vapor intrusion;

- Maintaining site access controls and Department notification; and
- The steps necessary for the periodic reviews and certification of the institutional and/or engineering controls.

- A Monitoring Plan to assess the performance and effectiveness of the remedy. The plan includes, but may not be limited to:
  - a schedule of monitoring and frequency of submittals to the Department;
  - monitoring for vapor intrusion for any buildings on the site, as may be required by the Institutional and Engineering Control Plan discussed above.

3.0 DESCRIPTION OF REMEDIAL ACTIONS PERFORMED

Remedial activities completed at the Site were conducted between 16 April and 20 November 2024 in accordance with the 18 December 2023 RAWP and the January 2024 Decision Document for the Site. Langan documented remedial activities in daily Site observation reports, which included a description of work activities, sampling, disposal and import logs, Site maps, and photographic documentation of remediation progress. Monthly progress reports were prepared that included a summary of the remediation progress, disposal and import quantities, and sampling results for each reporting period. Daily and monthly reports were provided to NYSDEC throughout remediation and are included in **Appendix C**.

3.1 Governing Documents

3.1.1 Site Specific Health & Safety Plan (HASP)

Remedial work documented in this FER was implemented in compliance with governmental requirements, including site and worker safety requirements mandated by Federal Occupational Safety and Health Administration (OSHA). All documented remedial and invasive work complied with the provisions of the site-specific CHASP, which met the requirements of 29 CFR 1910 and 29 CFR 1926 (which includes 29 CFR 1910.120 and 29 CFR 1926.65). The CHASP included, but was not limited to:

- Organization and identification of key personnel;
- Training requirements;
- Medical surveillance requirements;
- List of site hazards;
- Excavation safety;

- Work zone descriptions;
- Personal safety equipment and protective clothing requirements;
- Decontamination requirements;
- Standard operating procedures;
- Protective measure plan;
- CAMP; and,
- Safety Data Sheets.

3.1.2 Quality Assurance Project Plan

The Quality Assurance Project Plan (QAPP) was included in the RAWP as Appendix E. The QAPP describes the specific policies, objectives, organization, functional activities, and quality assurance/ quality control activities designed to achieve the project data quality objectives.

3.1.3 Soil/Materials Management Plan

The Soil/Materials Management Plan (SMMP) was included in Section 5.4 of the RAWP and provided detailed plans for managing soil/materials that were disturbed during implementation of the remedy, including excavation, handling, storage, transport and disposal, and nuisance mitigation measures. Remediation and construction were conducted using conventional hydraulic equipment and hand tools.

3.1.3.1 Soil Screening

Excavated material was screened for visual, olfactory, and instrumental evidence of a chemical or petroleum release by a field engineer, geologist, or scientist under the direction of the Remedial Engineer. Instrumental soil screening was performed with a photoionization detector (PID) equipped with a 10.6 electron volt (eV) lamp.

3.1.3.2 Soil Stockpiles

Where possible, excavated materials designated for off-site disposal were directly loaded into trucks for transport. When used, soil stockpiles were constructed for staging soil, pending loading for off-site disposal. Separate stockpile areas were constructed to avoid co-mingling materials of differing waste streams as needed. Stockpile areas met the following minimum requirements:

- Where material types were different (e.g., grossly petroleum-impacted material), excavated soil was placed onto a minimum thickness of 6-mil (thousandths of an inch)

low-permeability liner of sufficient strength and thickness to prevent puncture during use prior to disposal with like non-hazardous soil.

- Equipment and procedures were used to place and remove the soil such that the potential to jeopardize the integrity of the liner was minimized.
- Stockpiles located at or above sidewalk grade were covered at the end of each workday with minimum 6-mil plastic sheeting or tarps, which were securely anchored to the ground.
- Stockpile areas were inspected daily, and noted deficiencies were promptly addressed.
- Individual stockpiles did not exceed approximately 1,000 cubic yards.

3.1.3.3 Load Out, Transport, and Off-Site Disposal Plan

The waste types and quantities of waste removed are described in Section 3.3. Non-hazardous contaminated material and contaminated fill impacted with hazardous concentrations of lead were removed and transported off-site for disposal. All excavated material was handled, transported, and disposed of in accordance with applicable Part 360 and Part 364 regulations and other applicable local, state, and federal regulations. The waste removal contractor provided the appropriate permits, certifications, and written commitments from disposal facilities accepting the material.

The RE reviewed the contractor's proposed disposal facilities to document permit compliance to accept the material. Non-hazardous contaminated soil was disposed of at facilities licensed to handle this material. Approval letters were provided on the facility's letterhead, and included the Site as the originating location, referenced the analytical data provided to and reviewed by the facility, and noted any restrictions on delivery schedules or other non-analytical conditions that may have caused rejection of transported materials. Hazardous contaminated soil was also generated during the remedial action, and the proposed disposal facilities were subject to the same review.

A Langan field engineer, geologist, or scientist observed the load-out of excavated material. Loaded vehicles leaving the Site were securely covered, manifested, and placarded in accordance with appropriate federal, state, and local requirements. Non-hazardous and hazardous materials were transported by waste removal contractors who possessed a valid New York State Part 364 Waste Transporter Permit, where applicable. A manifest system was used to document and track off-site movement of non-hazardous wastes and contaminated soil. A federal manifesting system was used for tracking and auditing hazardous wastes in accordance with federal (including 40 CFR Part 260), state (including 6 NYCRR Part 372) and local regulations.

3.1.3.4 Truck Traffic Control

Truck routes were selected by considering the following:

- Limiting transport through residential areas and past sensitive sites;
- Use of city-mapped truck routes;
- Minimizing to the extent possible off-site queuing of trucks entering the facility;
- Limiting the total distance to major highways;
- Safety in access to highways; and,
- Overall safety in transport.

Soil was removed from the exterior of outbound trucks before leaving the Site. Locations where vehicles entered or exited the Site were inspected daily for evidence of off-site sediment tracking. Truck tires were washed on the FODS Trackout Control System prior to exiting the Site.

Egress points for truck and equipment transport from the Site were routinely cleaned of excess Site materials. Cleaning of the adjacent street was performed as needed to maintain a clean condition with respect to Site-derived materials.

Truck traffic control and egress points are discussed in further detail in Section 3.2.2.

3.1.4 Storm-Water Pollution Prevention Plan

The erosion and sediment controls for all remedial construction were performed in conformance with requirements presented in the New York State Guidelines for Urban Erosion and Sediment Control and the Site-specific Storm Water Pollution Prevention Plan (SWPPP), which was accepted by the New York City Department of Environmental Protection (NYCDEP) on 24 April 2024. The SWPPP acceptance form is included in Appendix D.

3.1.5 Community Air Monitoring Plan (CAMP)

The CAMP was developed in accordance with the requirements of NYSDEC DER-10 – Technical Guidance for Site Investigation and Remediation and with the provisions of the NYSDOH Generic CAMP to prevent off-site receptors, including residences and businesses, from exposure to potential airborne contaminant releases during intrusive field activities.

Continuous real-time monitoring for particulates and VOCs was performed during ground intrusive activities at the upwind and downwind perimeters of the work zone. The monitoring station locations were adjusted daily to reflect the dominant wind direction. The monitoring

stations included an Aeroqual AQS 1 Air Quality Monitor which utilizes a built-in dust and VOC monitor. A portable PID and ThermoFisher Scientific personal DataRam (pDR) were used to monitor particulate generation and VOCs in the work zone. The work zone and Site perimeters were visually monitored for fugitive dust emissions.

Action levels used for PM10 and VOCs were established in the CAMP included in Section 5.4.12 of the RAWP and the CHASP (Appendix D of the RAWP). Per the CAMP, the action level for particulates was set at 100 µg/m3 above background for a 15-minute average. The alert level (to assess perimeter Site conditions and apply dust suppression as necessary) for particulates was set at 100 µg/m3 above background for a 15-minute average. Action level for VOCs was set at 25 parts per million (ppm) for instantaneous readings above background and 5 ppm above background for a 15-minute average.

Field personnel observed ambient air conditions to check for visible dust emissions and/or odors. Visible dust, nuisance odors, and/or vapors were not observed during the remedial action. CAMP results are discussed in Section 3.2.5.

3.1.6 Contractors Site Operations Plans (SOPs)

Site Operations Plans (SOP) for this remedial project consisted of construction specifications, including safety, health and emergency response, excavation, storage, handling, transport, and disposal specifications. The Remediation Engineer reviewed plans and submittals directly related to the remediation to verify compliance with the RAWP.

3.1.7 Community Participation Plan

The Citizen Participation Plan (CPP) lends transparency to remediation projects by providing the public with information on the proposed plans and an outlet to voice concerns to limit the impact a remediation project may have on the surrounding community. The CPP established a protocol for citizen participation, including creating a document repository to contain a copy of all applicable project documents. A certification of mailing was sent to the NYSDEC project manager following the distribution of all Fact Sheets and notices that included: (1) certification that the Fact Sheets were mailed; (2) the date they were mailed; (3) a copy of the Fact Sheets; (4) and a list of recipients (contact list). Furthermore, no changes were made to Fact Sheets authorized for release by NYSDEC without written consent of the NYSDEC.

Document repositories were established at the following locations for the duration of the project and contain all applicable project documents:

Brooklyn Community Board No. 5

Melinda Perkins, District Manager
127 Pennsylvania Avenue, 2nd Floor
Brooklyn, New York 11207

Email: mperkins@cb.nyc.gov
Website:
https://www.brooklyncb5.org/

Spring Creek Library

12143 Flatlands Avenue
Brooklyn, NY 11207

Phone: (718) 257-6571
Hours (Call to verify):
Monday, Wednesday, Friday 10:00 a.m. to 6:00 p.m.
Tuesday 1:00 p.m. to 8:00 p.m.
Thursday 10:00 a.m. to 8:00 p.m.
Saturday 10:00 a.m. to 5:00 p.m.
Sunday - Closed

Documents were also posted on the NYSDEC DECinfo Locator website (https://www.dec.ny.gov/data/DecDocs/C224290/).

Following approval of the FER, a final Fact Sheet will be issued to notify the public that the Certificate of Completion (COC) has been issued.

3.2 Remedial Program Elements

3.2.1 Contractors and Consultants

Monadnock Construction, Inc. was the construction manager coordinating the remediation. Langan documented the remediation for compliance with the RAWP as the RE. The following entities were involved with the implementation of the remedial action:

Responsibility	Organization	Name	Contact Information
Volunteer/Owner	Innovative Urban Living, LLC IUV Phase 1 Owner, LLC IUV Phase 1 LIHTC Owner, LLC c/o Gotham Organization, LLC	Bryan Kelly	(212) 599-0520 bkelly@gothamorg.com
Construction Manager / General Contractor	Monadnock Construction, Inc	Jeremy Kyrkostas	(718) 875-8160 jkyrkostas@moncon.com
Foundation Contractor	United Concrete, LLC	Aldo Culber-Malomo	(212) 571-5555 Aldo@unitedconcretellc.com
Soil Broker	Clean Earth, Inc.	Kaila Ilyes	(866) 303-7344 kilyes@cleanearthinc.com
UST Decommissioning and Removal Contractor	Brookside Environmental, Inc	Richard Taylor	(561) 377-6300 rtaylor@brooksideweb.com
Dewatering Contractor	American Dewatering Grouting	Matthew Cichetti, PE	(845) 598-5018 Matt@americandewatering.com
Dewatering Designer and PE	Cicchetti Engineering	Matthew Cichetti, PE	(845) 598-5018 Matt@cichettiengineering.com

Responsibility	Organization	Name	Contact Information
Environmental Consultant (Project Manager)	Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C.	Amanda Forsburg, CHMM	(973) 560-4900 aforsburg@langan.com

Analytical Laboratory	York Analytical Laboratories, Inc.	Allison Bennett	(203) 598-1371 abennett@yorklab.com

3.2.2 Site Preparation

A NYSDEC BCP pre-construction kickoff meeting was held with the Volunteer, NYSDEC, Langan, Monadnock, and United Concrete on 2 April 2024. This meeting was used to introduce the remediation team, discuss NYSDEC expectations, and identify the expected construction schedule for the BCP project.

The construction team mobilized to the Site during the week of 8 April 2024. Descriptions of mobilization and Site preparation activities are provided below.

- Identified the location of all aboveground and underground utilities (e.g., power, gas, water, sewer, telephone), equipment, and structures as necessary to implement the remedy.
- Mobilized necessary remediation personnel, equipment, and materials.
- Established a logistical zone on the property adjacent to the west on the 12074 Flatlands Avenue Site, BCP Site. No. 224353, to facilitate the remediation and construction of the Site. Establishment of the logistical zone was approved by NYSDEC on 4 April 2024.
- Established stabilized construction entrances as follows:
    - On the western border of the Site prior to entering the logistical zone, consisting of a FODS Trackout Control System, which was underlain by clean imported 1.5-inch virgin stone and a wastewater containment tank, in accordance with the 4 April 2024 Site Logistics Letter for the adjacent 12074 Flatlands Avenue (BCP Site No. C224353).

- On the northern border of the logistical zone to provide access from Flatlands Avenue and consisting of a FODS Trackout Control System, which was underlain by clean imported 1.5-inch virgin stone and a wastewater containment tank, in accordance with the RAWP for the 12074 Flatlands Avenue Site (BCP Site No. C224353).
- On the eastern border of the Site prior to exiting the Site to Pennsylvania Avenue consisting of a FODS Trackout Control System, which was underlain by clean imported 1.5-inch virgin stone and a wastewater containment tank, in accordance with the 4 April 2024 Site Logistics Letter for the adjacent 12074 Flatlands Avenue (BCP Site No. C224353).

- Installed erosion and sedimentation control measures in as necessary and in accordance with the SWPPP.
- Installed temporary construction fencing around the perimeter of the Site, including locked gates to limit unauthorized access to areas where remediation was being conducted.
- Obtained any required agency approvals and permits to implement remediation. Documentation of agency approvals is included in **Appendix D**.

3.2.3 General Site Controls

3.2.3.1 Site Security

The Site was secured during remedial activities as follows:

- Perimeter security fencing and access gates with locks were installed at the boundary of the Site to prevent access by unauthorized persons.
- No unauthorized personnel were permitted to access the work areas.
- Safe work practices were implemented, which included:
- Maintaining an organized work area, including the proper storage of tools, equipment, materials, and fuels;
- Warning tape and/or barricades placed around open excavations; and,
- Maintaining and covering stockpiles (see Section 3.1.3.2)

No problems were encountered with regards to Site security.

3.2.4 Nuisance Controls

3.2.4.1 Nuisances

Nuisances related to the remediation may include odors, dust, and truck traffic. No odors were observed to be generated by the remedial excavation. Dust suppression was conducted by spraying water on exposed soil and concrete prior to and during excavation and covering previously excavated and inactive portions of the Site in imported stone. Individual stockpiles did not exceed approximately 1,000 cubic yards and were inspected daily. Trucks stopped at a dedicated truck wash station consisting of a FODS Trackout Control System, which was underlain by clean imported 1.5-inch virgin stone and a wastewater containment, when entering and exiting the Site. During soil transport for off-site disposal, truck tires were washed with a hose prior to leaving the Site and runoff was containerized and discharged in accordance with the NYCDEP sewer discharge permit (Approval No. 24-C-8187-1). Sidewalks and roadways surrounding the Site were cleaned as necessary. Equipment decontamination was performed prior to handling new waste streams (i.e., hazardous and non-hazardous), in accordance with the RAWP and CHASP.

No problems or upsets were recorded with regards to odors, dust, stockpile management, and truck traffic during implementation of the Site remediation.

3.2.4.2 Complaints

No known complaints related to odors, dust, or waste transport were filed during Site remediation.

3.2.5 CAMP results

Air monitoring for particulates and VOCs was performed for ground-intrusive activities during the remedial action between 16 April 2024 and 20 November 2024. The CAMP was performed at upwind and downwind air monitoring stations using an Aeroqual AQS 1 Air Quality Monitor. Fifteen-minute running averages were calculated from the data recorded at each station. Averages from the downwind station were compared to the averages at the upwind station and reviewed for exceedances of the action levels established in the CAMP. Water was frequently applied throughout the implementation of the RAWP and stone cover over excavated areas was utilized to prevent the generation of dust.

The CAMP action levels were triggered on 3 days during the remedial action between 16 April 2024 and 20 November 2024; incident details, including reasons for the exceeding concentrations and corrective measures implemented are summarized in **Table 2**. Copies of all

CAMP data are provided in **Appendix E**; daily summaries of the CAMP data are provided in the daily reports in **Appendix C**.

3.2.6 Best Management Practices

Green remediation principles and techniques were implemented to the extent feasible in the implementation of the remedy as per DER-31. The major green and sustainable remediation (GSR) components are as follows:

- Installation of a vapor barrier membrane below the slab of the new building and along sidewalls of subgrade foundation elements beneath occupied spaces as a green remediation component. The GCP Applied Technologies vapor barrier system consists of PreProfe 300R Plus 46-mil grade membrane installed below the concrete slab and foundation elements, PreProfe 160R Plus along the southern and southwestern exteriors of the subsurface foundation walls, and a Bituthene 4000 membrane installed along the northern, northwestern, and eastern exteriors of the subsurface foundation walls to the first-floor grade. The vapor barrier membrane system specifications are included in **Appendix P**.
- Considering the environmental impacts of treatment technologies and remedy stewardship over the long term.
- Reducing direct and indirect greenhouse gases and other emissions.
- Increasing energy efficiency and minimizing use of non-renewable energy.
- Conserving and efficiently managing resources and materials.
- Reducing waste, increasing recycling, and increasing reuse of materials that would otherwise be considered a waste.
- Fostering green and healthy communities and working landscapes which balance ecological, economic and social goals.
- Integrating the remedy with the end use where possible and encouraging green and sustainable re-development.
- Additionally, to incorporate the GSR principles and techniques to the extent feasible in the future development at this Site, any future on-Site buildings shall be constructed, at a minimum, to meet the 2020 Energy Conservation Construction Code of New York (or most recent edition) to improve energy efficiency as an element of construction.

The remedy included the implementation of several Best Management Practices (BMPs) related to these green remediation components, including but not limited to the following:

- Waste Generation
- Electrical Use
- Emissions
- Water Usage
- Land and/or Ecosystem

Waste Generation

Waste generation considers the management of waste associated with remedial activities and any waste reduction projects including, but not limited to, material reuse and recycling. Efforts made to minimize consumption of waste included use of a tablet for data collection rather than paper and segregating metallic debris and tanks identified within the fill material to be recycled. The metallic debris, including the cleaned USTs, were recycled at a local scrap metal facility in Brooklyn. Additionally, disposed material was beneficially reused as construction material and/or at landfills as alternative daily cover material in accordance with specifical facility and/or permit requirements.

Dewatering activities were conducted under a NYCDEP-approved Groundwater Discharge permit and a NYSDEC-approved Long Island Well permit when the excavation area extended beyond the groundwater table. The groundwater was removed from the ground via submersible pumps installed within dewatering wells, treated through three 18,000-gallon settling tanks, and then discharged to the NYC sewer system where the water was treated and returned to the freshwater system. The results of the daily gauging and the quarterly groundwater monitoring were transmitted to the Department in compliance with the permit requirements. The permits for dewatering are provided in **Appendix D**. The results of the daily gauging and quarterly groundwater monitoring are provided in **Appendix R**.

Additionally, rather than importing additional soil, virgin stone, or sand for the backfilling of foundation elements, soil that met the lower of the Track 2 Restricted-Residential Use Restricted Use Soil Cleanup Objectives (RUSCOs) and the Protection of Groundwater SCOs was reused under a NYSDEC-approved *Request to Import/Reuse Fill or Soil Form*, which is provided in **Appendix O**.

Electrical Energy Use

Energy usage considers the electricity usage needed for remediation activities. The job trailer for the Site was connected to public utilities. Rechargeable batteries for equipment used for perimeter and workzone air monitoring were turned off when not in use and charged within the job trailer.

Emissions

Emissions tracking considers fuel usage for transportation of personnel to and from the site, trucks used for export of contaminated material or import of backfill material, equipment and laboratory sample couriers, and construction equipment. Heavy machinery operations were encouraged to shut down to reduce idling time; machines were serviced regularly to maintain optimal performance. Public transportation was easily accessible to the Site. Equipment/sample deliveries and pickups will be consolidated to reduce transport needs at York Analytical Laboratories, Inc.'s Queens lab prior to being transported to the main Connecticut lab for analysis.

Water Usage

Water usage considers sources of water for tasks such as decontamination, irrigation, etc. Water was consumed at the truck wash station and was used as necessary for dust suppression. Additionally, stone was imported which decreased the need for water usage as dust suppression. Water was only consumed when necessary, and consumption was in accordance with local regulations.

Land and/or Ecosystems

Land and/or ecosystems consider any disturbances and restoration of land and/or ecosystems as part of the implementation/operation of the remedy. The Site was previously used as a parking lot. During implementation of the remedy, the Site cover was restored following remedial excavation and will require minimal to no maintenance. No ecosystems were disturbed during construction.

Further, progress with respect to GSR metrics were tracked during implementation of the remedial action and are summarized in Section 4.9 below.

3.2.7 Reporting

Field staff recorded personnel on-Site, a summary of work completed, a CAMP data summary, and the anticipated schedule of upcoming work in field books and daily reports. These data were used to track remediation progress, compliance with the RAWP, and summarize completed

remedial actions in monthly BCP reports for submission to the NYSDEC. All daily and monthly reports are included in **Appendix C**. The remediation photograph log is included in **Appendix F**.

3.3 Contaminated Materials Removal

Site-wide remedial excavation was performed to 15 feet bgs for the removal of material exceeding the Unrestricted Use SCOs and Restricted-Residential Use RUSCOs across the Site footprint and to 22 feet bgs for the removal of seven hazardous lead areas identified during the waste characterization investigation. Additional excavation for foundation construction was performed to between 15 and 22 feet bgs. Deeper localized excavation from 22 to about 28.5 feet bgs occurred for deeper construction foundation elements.

Remedial excavation was completed to 15 feet bgs to remove contaminated material to achieve the Track 2 Restricted-Residential Use cleanup. The Part 375 Restricted-Residential SCOs are summarized in **Table 1**. Confirmation elevation measurements and survey points were completed throughout all excavated areas of the Site to confirm achievement of the final grades and were communicated to the Langan field engineer on a routine basis.

Approximately 60,598.96 tons of non-hazardous contaminated material were removed from 0 to 15 feet bgs across the entire Site footprint. Approximately 569.26 tons of hazardous materials were removed from between 4 and 22 feet bgs. **Figure 3A** shows the extent of remedial excavation. **Figure 3B** shows a cross section of the 15-foot remedial excavation and the development depth of the Site.

The following wastes were removed during the remedial action:

- Non-hazardous contaminated material from 0 to 15 feet bgs;
- Hazardous lead-contaminated fill from 4 to 22 feet bgs;
- Eleven (11) USTs and associated contents; and,
- Non-hazardous contaminated material to the development depth with Unrestricted Use SCO and Track 2 Restricted-Residential Use RUSCO exceedances.

Limited material, generated during localized excavations for pile cap construction, was returned to the same area from where it was excavated, as indicated in the NYSDEC-approved *Request to Import/Reuse Fill or Soil Form*, which is provided in **Appendix O**. Site material was not reused as general backfill.

3.3.1 Waste Characterization Soil Sampling

All excavated material was handled, at a minimum, as a solid waste per 6 NYCRR Part 360. For soil requiring off-site disposal, the RE performed waste characterization sampling in accordance with both typical and specific requirements of disposal facilities serving the New York City area and those ultimately chosen to accept the material disposed of from the Site, respectively. Samples were collected to be representative of the material to be excavated.

Waste pre-characterization samples were collected in 2023 and 2024 and prior to the start of Site excavation. On 27 October through 16 November 2023, 8 through 28 February 2024, and 11 and 12 March 2024, Langan collected a total of 82 composite soil samples and 192 discrete soil samples for delineation from 155 soil borings to characterize the anticipated excavation depths at the Site. Analytical parameters included one or more of the following:

- Total VOCs by Method 8260;
- Total SVOCs by Method 8270;
- Total polychlorinated biphenyls (PCB) by Method 8082;
- Total herbicides by Method 8151;
- Total pesticides by Method 8081;
- Total metals (14) by Method 6010B;
- Total cyanide;
- Hexavalent Chromium;
- RCRA Characteristics - Ignitability, corrosivity, and reactivity;
- Toxicity Characteristic Leachate Procedure (TCLP) VOCs, SVOCs, pesticides, herbicides, and metals; and
- New Jersey Department of Environmental Protection (NJDEP) Extractable Petroleum Hydrocarbons (EPH).

Historic fill was visually identified throughout the Site ranging from 12.5 to at least 30 feet thick.

Analytical results identified fill material with SVOC and metal concentrations above the Restricted-Residential RUSCOs. Additionally, seven hazardous lead areas were identified. The horizontal and vertical extents of these areas were based on delineation sampling completed for disposal facility acceptance purposes.

Additional waste characterization soil sample collection was required for disposal facility acceptance purposes. Representatives from Clean Earth, Inc., the soil broker and selected disposal facility managers, mobilized to the Site between 17 and 19 April 2024 to collect additional soil samples to meet facility-specific acceptance protocols.

Characterization results were transmitted to disposal facilities for acceptance purposes. Disposal facility approval letters and the associated laboratory packages were transmitted to the NYSDEC project manager as facility approvals were received. The disposal facility approvals and disposal quantities are discussed in Section 3.3.5 below. The laboratory analytical reports for the waste characterization and delineation of the hazardous concentrations of lead are included as **Appendix G**.

3.3.2 Pre-Design Investigation Soil Sampling

Between 16 and 27 February 2024 Langan completed a pre-design investigation (PDI), which included the collection of soil samples to determine the potential sidewall and bottom sample locations for each hotspot area identified in the RAWP (LSB-16, LSB-18, LSB-19, LSB-20, LSB-22, and LSB-26) in advance of the remediation. A total of 54 soil borings were advanced and 34 soil samples were collected. The borings to collect the sidewall samples for horizontal delineation of each hotspot area were advanced approximately 7.5 feet from each original hotspot boring location to construct an approximate 15- by 15-foot area. Contingency horizontal delineation samples were collected from approximately 15 feet from each original hotspot boring location. Vertical delineation samples were collected at the 2-foot interval beyond the proposed excavation depth as defined in Section 4.5 of the RAWP, with contingent samples collected at two 2-foot intervals beyond the original vertical delineation sample. Sample analysis for the sidewall and bottom samples collected were limited to the contaminant of concern for each hotspot respectively, as indicated in the table below:

RAWP Hotspot	Contaminants of Concern	Proposed Depth (feet bgs)
LSB-16	4,4'-DDT, PCBs, Lead	22.5
LSB-18	Barium, Copper, Lead, Zinc	19.5
LSB-19	PCBs, Barium, Cadmium, Copper, Lead, Mercury, Zinc	21
LSB-20	Cadmium, Nickel, Zinc	18
LSB-22	Barium, Copper, Lead, Mercury, Zinc	16
LSB-26	4,4'-DDD, Copper, Lead, Zinc	23.5

Analytical results identified metal concentrations above the Unrestricted Use SCOs and/or the Restricted-Residential RUSCOs in seventeen of the samples from five hotspot areas (LSB-16, LSB-18, LSB-19, LSB-22, and LSB-26). One hotspot area, LSB-20, was horizontally and vertically delineated for the contaminants of concern identified above. The analytical results of the PDI are presented in **Table 3**. A figure with the analytical results of the PDI was previously transmitted and discussed with the Department on the 4 September 2024 call. The laboratory analytical reports PDI are included as **Appendix H**.

As discussed in Section 2.2, excavation of the hotspot areas was not completed due to the revision of the remedy to a Track 2 Restricted-Residential remediation, with the exception of hotpot area LSB-22 in the northwestern portion of the Site. The LSB-22 hotspot area was excavated in an approximately 15- by 15-foot area prior to the 4 September call with the NYSDEC, which concluded that the hotspot excavations were not required for remedial action. As such, confirmation excavation samples were not collected.

3.3.3 Non-Hazardous Contaminated Material

The majority of material removed from the Site for remediation consisted of non-hazardous contaminated material impacted by VOCs, SVOCs, pesticides, PCBs, and metals. As part of the remedial action, contaminated fill material was excavated across the Site footprint to a depth of 15 feet bgs. **Figures 3A and 3B** shows the extent of remedial excavation.

The contractor transported a total of 60,598.96 tons of non-hazardous contaminated material as part of the site remediation as part of the Site redevelopment to Clean Earth of Carteret in Carteret, NJ, Bethlehem Earth, LP in Bethlehem, PA, Clean Earth of Philadelphia in Philadelphia, PA, Clean Earth New Castle in New Castle, Delaware, and/or KTC Fairless in Fairless Hills, Pennsylvania.

3.3.4 Hazardous Lead-Contaminated Areas

Soil areas containing hazardous concentrations of lead were identified during the 2023 and 2024 environmental pre-characterization sampling up to 22 feet bgs. A total of 569.26 tons of hazardous lead-contaminated fill were transported for disposal at Clean Earth of North Jersey, Inc. – Kearny NJ.

3.3.5 Underground Storage Tanks (UST)

A total of eleven (11) USTs were discovered during implementation of the RAWP: one UST in the northwestern portion of the Site, one UST in the northern portion of the Site, one UST beneath the sidewalk adjacent to Pennsylvania Avenue, and eight USTs in the northeastern portion of the Site in the footprint of the former filling station. The approximate locations where the USTs were discovered are shown on **Figure 4**. Below is a summary of the UST discovery and decommissioning processes:

UST-1 through UST-3

- On 19 April 2024, United Concrete encountered UST-1 while excavating within the northwestern portion of the Site. The UST measured approximately 6 feet long by 2 feet in diameter. The bottom of the UST was located approximately 6 feet bgs. No staining, odors or elevated PID measurements were identified in the surrounding soils and groundwater was not encountered within the excavation extents.
- On 23 April 2024, United Concrete encountered UST-2 and UST-3 while excavating within the sidewalk adjacent to Pennsylvania Avenue and in the northern portion of the Site, respectively.
    - UST-2 appeared to be located within a concrete vault and measured approximately 7 feet long by 4 feet in diameter. The bottom of the UST was located approximately 7 feet bgs. No elevated PID readings above background or evidence of petroleum impacts were observed in the surrounding soil.
    - UST-3 appeared to be partially crushed. No liquid or product was observed within the UST; however, the tank was about 10% filled with sediment/sludge. The UST measured approximately 5 feet long, 3 feet wide and 3.5 feet deep. The bottom of the UST was located approximately 6 feet bgs. A PID reading of 2.3 ppm was detected in the surrounding soil. A small amount of sludge was observed on the soil adjacent to the tank.
- On 24 April 2024, Brookside Environmental, a FDNY-licensed tank contractor, was retained to decommission tanks UST-1 through UST-3. Brookside removed approximately 93-gallons of oil/water mixture from UST-2 via vacuum truck for offsite disposal at Advanced Waste and Water Technology in Farmingdale, NY.

  - United Concrete removed and placed UST-1 through UST-3 on polyethylene sheeting for future cleaning and disposal.
  - United Concrete removed sludge observed on the soil and stockpiled the material on polyethylene sheeting within the southern portion of the site for future off-Site disposal.

- On 29 April 2024, Brookside removed five drums of sediment/sludge generated from the tank cleaning for off-site disposal to Clean Water of New York in Staten Island NY.
- On 1 May 2024, cleaned tanks UST-1, UST-2, and UST-3 were removed from the site for disposal as scrap metal to TNT Scrap in Brooklyn, NY.

<u>UST-4 through UST-11</u>

- On 8 May 2024, United Concrete encountered UST-4 through UST-11 while excavating within the northeastern portion of the Site. The USTs measured approximately 7.5 feet long by 4 feet in diameter. The bottom of each UST was located approximately 10 feet bgs. Each UST was observed to be filled with an oil/water mixture. No elevated PID readings above background or evidence of petroleum impacts were observed in the surrounding soil.
- Between 8 and 10 May 2024, Brookside Environmental was retained to decommission tanks UST-4 through UST-11. Brookside removed approximately 4,215 gallons of oil/water mixture from UST-4 through UST-11 via vacuum trucks for offsite disposal at Advanced Waste and Water Technology in Farmingdale, NY.
- On 10 May 2024, United Concrete removed and placed UST-4 through UST-11 on polyethylene sheeting for future cleaning and disposal.
- On 13 May 2024, Brookside Environmental cleaned UST-4 through UST-11. Brookside Environmental removed two drums of sediment/sludge generated from the tank cleaning for off-site disposal to Clean Water of New York in Staten Island NY.
- On 17 May 2024, cleaned tanks UST-4 through UST-11 were removed from the site for disposal as scrap metal to TNT Scrap in Brooklyn, NY.

The final remedial excavation extended beyond the excavation extents necessary for the removal of all USTs encountered at the Site and no confirmation soil samples were collected from the tank excavations in accordance with the RAWP. A documentation soil sample collected from the base of the mass excavation was collected directly beneath the former location of the tanks. The PBS Registration form and updated Facility Information Report for the tanks discovered during the Site remediation activities was submitted to the Department on 23 December 2024, and the tanks were registered as closed-removed on 30 December 2024. Documentation of the closed status and closure documentation including tank removal affidavits and disposal manifests are included in **Appendix I**.

3.3.6 Soil Disposal Quantities

The remedial excavation to achieve a Track 2 remediation included the removal of contaminated material to 15 feet bgs across the Site footprint. A total of approximately 61,168.22 tons of hazardous and non-hazardous contaminated material were removed as part of the remedial action.

The horizontal and vertical remedial excavation extents are shown on **Figures 3A** and **3B**. The depth of the remaining mass excavation for foundation construction beyond the depths of the remedial excavation extended to depths between 15 and 22 feet bgs across the Site with localized excavations to a depth of 28.5 feet bgs for deeper foundation elements.

Waste types, removed quantities, and disposal locations are summarized in the following table.

Soil Disposal Quantities For Remediation				
Type of Material	**Disposal Facility Name**	**Facility Location**	**No. of Loads**	**Quantity Removed (tons)**
Non-Hazardous Contaminated Material	Clean Earth of Carteret	24 Middlesex Avenue, Carteret, New Jersey	421	12,405.80
Hazardous Waste (Lead) (USEPA ID: NYR000266791)	Clean Earth of North Jersey (USEPA ID: NJD991291105)	115 Jacobus Avenue, Kearny, New Jersey	25	569.26
Non-Hazardous Contaminated Material	Bethlehem Earth, LP	3000 Commercial Center Blvd. Bethlehem, Pennsylvania	1,095	31,913.57
Non-Hazardous Contaminated Material	Clean Earth of Philadelphia, LLC	3201 South 61st Street Philadelphia, Pennsylvania	161	4,138.13

Soil Disposal Quantities For Remediation				
Type of Material	**Disposal Facility Name**	**Facility Location**	**No. of Loads**	**Quantity Removed (tons)**
Non-Hazardous Contaminated Material	Clean Earth New Castle, LLC	94 J Caldwell Lane New Castle, Delaware	397	10,936.66
Non-Hazardous Contaminated Material	KTC Fairless	400 Middle Drive Fairless Hills, Pennsylvania	45	1,204.8
		Total for Remediation	**2,144**	**61,168.22**

Each regulated waste stream was transported for off-site disposal using NYCRR Part 364-permitted transporters and was in accordance with federal, state, and local regulations. All regulated waste removed for disposal was tracked using a manifesting system. Waste types, quantities, transport date, and the disposal facility location for each load are presented on **Table 4**.

The laboratory analytical reports for the waste pre-characterization sampling and additional delineation and facility-specific sampling between October 2023 and March 2024 are included as **Appendix G**. Waste disposal facility approval documentation is included as **Appendix J**. Disposal manifests and scale tickets are included in **Appendix K**.

3.4 On-Site Soil Reuse

Soil was reused throughout the Site footprint in accordance with the Soil Reuse Requests dated 11 September, 27 September, 7 October, and 17 October 2024. Site soils meeting the lower of the Track 2 Restricted-Residential RUSCOs and the Protection to Groundwater SCOs were used to the extent possible to backfill excavations for pile cap construction throughout the Site footprint. Soil that was eligible for reuse were used at or below the depth of the 15-foot remedial excavation. Excess non-hazardous contaminated fill resulting from localized excavations for construction of pile caps and deeper foundation elements that could not otherwise be reused within the Site footprint was loaded for off-site disposal as detailed in Section 3.3. **Figure 6** shows areas of on-site soil reuse. The Department approved requests are included in **Appendix O**.

3.5 Remedial Performance Sampling

3.5.1 Site-Wide Excavation Base Endpoint Samples

Endpoint soil samples were collected at a frequency of one sample for every 900 square feet of excavation base to document the remaining contamination beneath the building. Seventy-seven (77) documentation soil samples and the required quality assurance/quality control (QA/QC) samples were collected and analyzed. Endpoint sample locations and results are presented on **Figure 5**.

Endpoint soil samples collected from the mass excavation base were analyzed for NYSDEC Part 375 VOCs, SVOCs, PCBs, herbicides, pesticides, target analyte list (TAL) metals (including trivalent and hexavalent chromium), total cyanide, 1,4-dioxane, and per- and polyfluoroalkyl substances (PFAS) by an NYSDOH Environmental Laboratory Approval Program (ELAP)-certified laboratory. Results were compared to 6 NYCRR Part 375 Restricted-Residential SCOs and the Restricted-Residential Guidance Values for PFAS.

No VOCs, SVOCs, pesticides, herbicides, PCBs, or PFAS were detected above the Restricted-Residential RUSCOs or the Restricted-Residential Guidance Values.

Metals were identified above the Restricted-Residential RUSCOs in 17 samples and included arsenic (18.1 mg/kg – 29.4 mg/kg), barium (403 mg/kg – 4,050 mg/kg), copper (313 mg/kg), lead (416 mg/kg – 2,140 mg/kg), and mercury (0.944 mg/kg – 1.01 mg/kg).

All endpoint samples were collected at the base of the development excavation across the Site footprint, which is deeper than the required 15 feet required to implement a Track 2 remedial action in accordance with 6 NYCRR Part 375-3.8(e)(2)(iii)(a-d), and do not represent a source of groundwater contamination. An endpoint soil sample location plan is included as **Figure 5** and the analytical results are presented in **Table 5**. Analytical laboratory reports are included in **Appendix L**.

3.5.2 Data Usability Summary Reports

Data Usability Summary Reports (DUSRs) were prepared for documentation soil samples (and related QA/QC samples) collected during the remedy. The data usability review confirmed that the data presented in these reports is of an appropriate quality for its intended usage. These DUSRs are included in **Appendix M**.

A DUSR was not completed for the PDI discussed in Section 3.3.2 because the analytical results were not ultimately used to define the remedial excavation extents.

3.6 Imported Backfill

Backfill was imported to be used for construction of the truck wash, crane pad and other miscellaneous pads, and temporary roads as well as staging of the detention tanks in the northwestern portion of the Site, backfilling to raise the grade in the northwestern portion of the site that was over-excavated to achieve the remedial excavation depth, establishment of a drilling platform for foundation pile drilling, as a construction ramp, and as general backfill. Additionally, the base of the excavations for foundation pile caps were lined with imported backfill.

The following table summarizes the quantities of each imported material and source facilities. Tonnages per load are variable and are generally referenced on each truck scale ticket. **Table 6** includes an account of each import load and the associated quantity of material for that load.

Source Name	Source Location	Type of Material	Location Backfilled on the Site	No. of Loads	Quantity Imported	Met Restricted-Residential RUSCOs
Braen Stone of Sparta	217 Limecrest Rd, Lafayette, NJ	1.5-inch Stone	Site-wide	159	3,700.69 tons	Exempt Virgin Stone
Braen Stone of Sparta	217 Limecrest Rd, Lafayette, NJ	0.75-inch Stone	Site-wide	107	2,641.4 tons	Exempt Virgin Stone
Tilcon Mount Hope	65 Mount Hope Road, Warton, NJ 07885	1.5-inch Stone	N/A	0	0 tons	Exempt Virgin Stone
Tilcon Mount Hope	65 Mount Hope Road, Warton, NJ 07885	0.75-inch Stone	N/A	0	0 tons	Exempt Virgin Stone
Braen Stone of Sparta	217 Limecrest Rd, Lafayette, NJ	DGA	Site-wide	177	4,400.42 tons	Yes
Evergreen Recycling of Corona	12708 Willets Point Blvd, Flushing, NY 11368	Sand	Northwestern Portion of the Site	6	108 tons	Yes
PPark NJ	100 Planten Avenue, Prospect Park, NJ 07508	Sand	N/A	0	0 tons	Yes

Source Name	Source Location	Type of Material	Location Backfilled on the Site	No. of Loads	Quantity Imported	Met Restricted-Residential RUSCOs
Evergreen Recycling of Corona	12708 Willets Point Blvd, Flushing, NY 11368	Clean Fill	Central and Southern Portions of the Site	14	280 tons	Yes

The 1.5- and 0.75-inch virgin stone was imported from a Part 360-registered facility with less than 10 percent by weight of fines passing a #100 sieve. The 1.5- and 0.75-inch virgin stone met the requirements for material other than soil as specified in Section 5.4(e)5 of DER-10.

Imported backfill documentation, including weight tickets, is provided in **Appendix N**. Imported backfill facility documentation is provided in **Appendix O** and approval documentation is provided in **Appendix D**. Imported backfill types, dates, quantities, and source facility for each load is summarized in **Table 6**.

3.7 Contamination Remaining at the Site

3.7.1 Soil

A Track 2 Restricted-Residential Use remedy was achieved for the Site. Remaining impacts in soil were documented in endpoint samples collected from beneath the remedial excavations and are located beneath the base of the remedial excavations between 15 and 22 feet bgs.

Eighty-one documentation samples, including four duplicate samples, were taken throughout the Site extents upon reaching the final development or remedial excavation depths. Laboratory analytical results identified that the remaining contamination consists of metals above the Restricted-Residential RUSCOs. The Part 375 Restricted-Residential SCOs are summarized in **Table 1**. **Table 2** and **Figures 5A through 5C** summarize the results of all soil samples collected that exceed the Restricted-Residential RUSCOs at the site after completion of remedial action. The following table summarizes the laboratory analytical results of the remaining contamination:

Analyte	Minimum Detected Concentration above RRSCOs (mg/kg)		Maximum Detected Concentration above RRSCOs (mg/kg)	
Metals				
Arsenic	18.1	PE25_15	29.4	PE53_19.0
Barium	403	PE61_19	4,050	PE25_15
Copper	313	PE24_15	313	PE24_15

Analyte	Minimum Detected Concentration above RRSCOs (mg/kg)		Maximum Detected Concentration above RRSCOs (mg/kg)	
Lead	416	PE17_15	2,140	PE49_22
Mercury	0.944	PE26_15	1.01	PE69_19.5

3.7.2 Groundwater

Groundwater analytical results collected between 2018 and 2021 identified exceedances of the SGVs for metals and PFAS throughout the Site. SVOCs were not detected above the NYSDEC SGVs in any groundwater samples collected in 2021; however, they were detected at concentrations exceeding the SGVs in 2018. The elevated concentrations of PAHs detected in groundwater in 2018 are attributed to sediment entrainment of fill material of unknown origin in the sample and are not indicative of any discrete releases to the subsurface. PAHs in soil are not considered to be an ongoing source of groundwater contamination.

Total lead was detected in one sample in 2018 and was not identified in samples collected during the 2021 RI. Dissolved lead was not detected above the SGVs in 2018 and, as such, the detection of total lead is attributed to sediment entrainment in the sample. Elevated concentrations of barium in soil are present throughout the Site footprint; however, total and dissolved barium were detected above the SGV in only one well in 2021. The detection of barium in groundwater is attributed to a combination of sediment entrainment in the sample and the quality of fill in contact with groundwater at that location. Based on the isolation detection of total and dissolved barium in groundwater, barium concentrations in soil are not considered to be an ongoing source of groundwater contamination. Other metals detected in exceedance of NYSDEC SGVs were identified throughout the Site footprint and are attributed to a combination of sediment entrainment in the sample and naturally occurring background concentrations.

Groundwater and Site use restrictions to prevent exposure to remaining groundwater contamination are included in the Environmental Easement.

3.7.3 Soil Vapor

Soil vapor samples collected in 2021 contained the CVOCs cis-1,2 DCE and vinyl chloride at concentrations, which are above the monitoring and/or mitigation sub-slab threshold according to NYSDOH Soil Vapor Intrusion Guidance Matrix A and C, in one sample collected from the central portion of the site. Soil vapor sample analytical results also identified low concentrations of petroleum-related VOCs at all sample locations throughout the Site footprint.

Petroleum-related VOCs were not detected at concentrations exceeding NYSDEC threshold values in soil or groundwater at the Site, but concentrations in soil vapor may be attributable to releases associated with historical Site operations or an unknown source. As CVOCs were not detected at concentrations exceeding NYSDEC SVGs for soil or groundwater at the Site, the presence of elevated concentrations of these compounds in one soil vapor sample is attributed to an isolated unknown source.

The proposed building cellar will be constructed within the groundwater elevation range measured during the RI (generally between el -2 and el 2 NAVD88).

3.8 Engineering Controls

No Engineering Controls were required as part of the remedy.

3.9 Institutional Controls

The Track 2 Restricted-Residential remedy requires that an environmental easement be placed on the property to: (1) prevent future exposure to remaining contamination by controlling disturbances of the subsurface contamination and (2) limiting the use and development of the Site to Restricted-Residential Restricted, Commercial and Industrial Uses only. A series of ICs are required by the Environmental Easement to:

- The Controlled Property may be used for: Restricted-Residential as described in 6 NYCC Part 375-1.8(g)(2)(ii), Commercial as described in 6 NYCC Part 375 1.8(g)(2)(iii) and Industrial as described in 6 NYCRR Part 375-1.8(g)(2)(iv);
- The use of groundwater underlying the property is prohibited without necessary water quality treatment as determined by the NYSDOH or New York City Department of Health and Mental Hygiene to render it safe for use as drinking water or industrial purposes, and the user must first notify and obtain written approval to do so from the Department;
- Data and information pertinent to the Site Management of the Controlled Property must be reported at the frequency and in a manner defined in the SMP;
- All future activities on the property that will disturb the remaining contaminated material must be conducted in accordance with the SMP;
- Monitoring to assess the performance and effectiveness of the remedy must be performed as defined in the SMP;
- Operation, maintenance, monitoring, inspection, and reporting of any mechanical or physical components of the remedy shall be performed as defined in the SMP;

- Access to the Site must be provided to agents, employees or other representatives of the State of New York with reasonable prior notice to the property owner to assure compliance with the restrictions identified by the Environmental Easement;
- Vegetable gardens and farming on the Site are prohibited; and,
- If any of the newly planned structures that are part of the current BCP project are demolished in the future, an evaluation shall be performed to determine the need for further investigation and remediation should new future large scale redevelopment occur, or if the subsurface is otherwise made accessible in the areas of remaining contamination.

Adherence to these ICs is required by the Environmental Easement and will be implemented under the SMP, which is included in Appendix S. The environmental easement for the Site was executed by the Department on 10 October 2024 and recorded with the NYC Office of the City Register on 30 October 2024. The County Recording Identifier number for the filing is 2024102301004001. A copy of the easement and proof of filing is provided in **Appendix A**.

3.10 Soil Vapor Intrusion Evaluation

As required in the decision document, a soil vapor intrusion (SVI) evaluation is presented below.

Chlorinated VOCs were not detected above the SGVs in groundwater or above the Unrestricted Use SCOs and Protection of Groundwater SCOs in soil at the Site. Eight soil vapor samples were collected during the 2021 RI. Analytical results from one sample collected from the central portion of the Site revealed the chlorinated VOCs cis-1,2 DCE and vinyl chloride at concentrations above the monitoring and/or mitigation sub-slab screening threshold according to NYSDOH Soil Vapor Intrusion Guidance Matrix A and B.

As chlorinated VOCs were not detected at concentrations exceeding NYSDEC threshold values in soil or groundwater at the Site, the presence of elevated concentrations of these compounds in one soil vapor sample is attributed to an isolated unknown source. Based on the soil and groundwater analytical results, there is no known on-Site source of contamination that would result in a soil vapor intrusion condition into either of the two new buildings at the Site.

Contaminated fill/soil was excavated to depths ranging from 15 and 22 feet bgs across the Site. Groundwater is present above the cellar slab elevation, as shown in the drawings included in Appendix B of the RAWP. As such, there is limited to no potential for the production of soil vapor above the water table and below the cellar slab at the Site.

3.11 Green and Sustainable Remediation

3.11.1 Footprint Analysis

An environmental footprint analysis for the remedial action was completed using SiteWise™ (available in the SURF library), which is a NYSDEC-accepted environmental footprint analysis calculator. This analysis was completed to track the energy consumption and emissions generated as part of the implementation of the remedy. The following components of the remedy were evaluated using the SiteWise™ model:

- Export of approximately 61,168.22 tons of soil from the Site to six different facilities,
- 160 personnel roundtrips to oversee implementation the remedy and 123 personnel roundtrips to oversee the installation of the SOE;
- Import of approximately 11,130.5 tons of material to the Site from two different facilities;
- Import of approximately 906,000 pounds of steel for the SOE on the eastern, western, and southern boundaries of the Site;
- Approximately 17,496 cubic yards of concrete for the construction of the soil-mix SOE on the northern boundary of the Site;
- Approximately 60,000 square feet of continuous vapor barrier system which was installed as a green remediation construction measure for the Site.

The following emissions and energy usage during the remedy were estimated using the SiteWise™ model:

SiteWise™ Model Outputs	Track 2 Restricted-Residential Remedy
Greenhouse Gas (GHG) Emissions (metric ton)	2,590.35
Total energy Used (MMBTU)	29,961.72
Total NOx Emissions (metric ton)	6.83
Total SOx Emissions (metric ton)	8.02
Total PM10 Emissions (metric ton)	1.54

Details regarding the inputs and outputs of the SiteWise™ model are provided in **Appendix Q**.

3.11.2 Climate Resiliency

A Climate Screening Checklist was completed for the Site as part of this remedial design. The Climate Screening did not indicate that a Climate Change Vulnerability Assessment was necessary. The Climate Screening Checklist is included in **Appendix Q**.

3.12 Deviations from the Remedial Action Work Plan

The RAWP proposed a Track 1 Unrestricted Use remedy for the Site, which included remedial excavation to a depth between 15 and 20 feet bgs across the Site footprint and over-excavation at six hotspot locations identified in the RAWP. However, based on the results of the endpoint soil sampling, a Track 2 Restricted-Residential remediation was completed based on a 15-foot remedial excavation, in accordance with 6 NYCRR Part 375-3.8(e)(2)(iii)(a-d). The Volunteer initiated conversations regarding the anticipated remedy modification during a call on 4 September 2024.

Additional non-hazardous contaminated soil/fill was excavated and transported off-Site for disposal from 15 to 22 feet bgs across the entire Site footprint. Overall, a total of approximately 60,598.96 tons of non-hazardous contaminated fill and 569.26 tons of hazardous lead-contaminated fill were removed from the Site for off-Site disposal for remediation–related excavation.

The Track 2 Restricted-Residential Restricted Use remedy proposed in the RAWP included the import of 2,200 cubic yards of material to backfill the remedial excavations and to raise Site grades to the development elevation in the northwestern portion of the site area that over-excavated to achieve a minimum 15-foot remedial excavation. Additional fill material was needed for construction of the truck wash, crane pad and other miscellaneous pads, and temporary roads as well as, staging of the detention tanks in the northwestern portion of the Site, establishment of a drilling platform for foundation pile drilling, and as general backfill. A total of approximately 10,742.51 tons of quarry stone and DGA, approximately 108 tons of sand, and approximately 280 tons of clean fill were imported to the Site.

Final Engineering Report
Pre-Design Investigation Soil Sample Analytical Results Summary

12096 Flatlands Avenue
Brooklyn, New York
NYSDEC BCP Site No.: C224290
Langan Project No.: 100688802

Notes:

CAS - Chemical Abstract Service
NS - No standard
mg/kg - milligram per kilogram
NA - Not analyzed
RL - Reporting limit
<RL - Not detected
Soil sample analytical results are compared to the New York State Department of Environmental Conservation (NYSDEC) Title 6 of the Official Compilation of New York Codes, Rules, and Regulations (NYCRR) Part 375 Unrestricted Use, Protection of Groundwater, and Restricted Use Restricted-Residential Soil Cleanup Objectives (SCO).

Qualifiers:

D - The concentration reported is a result of a diluted sample.
B - The analyte was found in the associated analysis batch blank.
J - The analyte was positively identified and the associated numerical value is the approximate concentration of the analyte in the sample.
UJ - The analyte was not detected at a level greater than or equal to the RL; however, the reported RL is approximate and may be inaccurate or imprecise.
U - The analyte was analyzed for, but was not detected at a level greater than or equal to the level of the RL or the sample concentration for results impacted by blank contamination.

Exceedance Summary:

10 - Result exceeds Unrestricted Use SCOs
10 - Result exceeds Protection of Groundwater SCOs
10 - Result exceeds Restricted Use Restricted-Residential SCOs

Table 5
Final Engineering Report
Documentation Endpoint Soil Sample Analytical Results Summary

12096 Flatlands Avenue
Brooklyn, New York
NYSDEC BCP Site No.: C224290
Langan Project No.: 100688802

Notes:

CAS - Chemical Abstract Service
NS - No standard
mg/kg - milligram per kilogram
NA - Not analyzed
RL - Reporting limit
<RL - Not detected

Soil sample analytical results are compared to the New York State Department of Environmental Conservation (NYSDEC) Title 6 of the Official Compilation of New York Codes, Rules, and Regulations (NYCRR) Part 375 Unrestricted Use, Protection of Groundwater, and Restricted Use Restricted-Residential Soil Cleanup Objectives (SCO).

Soil sample analytical results are compared to the New York State Department of Environmental Conservation (NYSDEC) Part 375 Remedial Programs Guidelines for Sampling and Analysis of Per- and Polyfluoroalkyl Substances (PFAS) Unrestricted Use, Restricted Use Restricted-Residential, and Protection of Groundwater Guidance Values (April 2023).

Criterion comparisons for 3- & 4-methylphenol (m&p cresol) are provided for reference. Promulgated SCOs are for 3-methylphenol (m-cresol) and 4-methylphenol (p-cresol).

Qualifiers:

D - The concentration reported is a result of a diluted sample.
B - The analyte was found in the associated analysis batch blank.
J - The analyte was positively identified and the associated numerical value is the approximate concentration of the analyte in the sample.
UJ - The analyte was not detected at a level greater than or equal to the RL; however, the reported RL is approximate and may be inaccurate or imprecise.
U - The analyte was analyzed for, but was not detected at a level greater than or equal to the level of the RL or the sample concentration for results impacted by blank contamination.

Exceedance Summary:

10 - Result exceeds Unrestricted Use SCOs
10 - Result exceeds Protection of Groundwater SCOs
10 - Result exceeds Restricted Use Restricted-Residential SCOs

Legend

- Site Boundary and Extents of Institutional Controls
- BCP Boundary
- Tax Parcel
- Tax Block
- AOC-1: Former Gasoline Filling Station
- AOC-2: Former Automotive Dismantling/Wrecking
- 2018 Phase II Soil Boring Location
- 2018 Phase II Test Pit Location
- 2018 Phase II Soil Boring/Monitoring Well Location
- 2021 RI Monitoring Well / Soil Boring Location
- 2021 RI Soil Vapor Point Location
- 2023 SRI Soil Boring Location

Notes:
1. Aerial imagery provided by Nearmap ltd., collected March 10, 2021.
2. Parcel information from MapPLUTO 21v1 copyrighted by the New York City Department of Planning.
3. AOC-1 and AOC-2 locations are based on a Sanborn Fire Insurance Map dated 1950.
4. 2018 Phase II EI Sample and Test Pit Locations obtained from Phase II EI Report conducted by Langan Engineering, Environmental, Surveying, Landscape Architecture, and Geology, D.P.C. dated 8/24/2018.
5. Sample locations for the RI were collected for soil borings and monitoring wells using classic survey techniques and for soil vapor points using the ArcGIS Collector application on a tablet utilizing the GPS location.
6. AOC-3: Presence of Historic Fill is identified as site-wide.

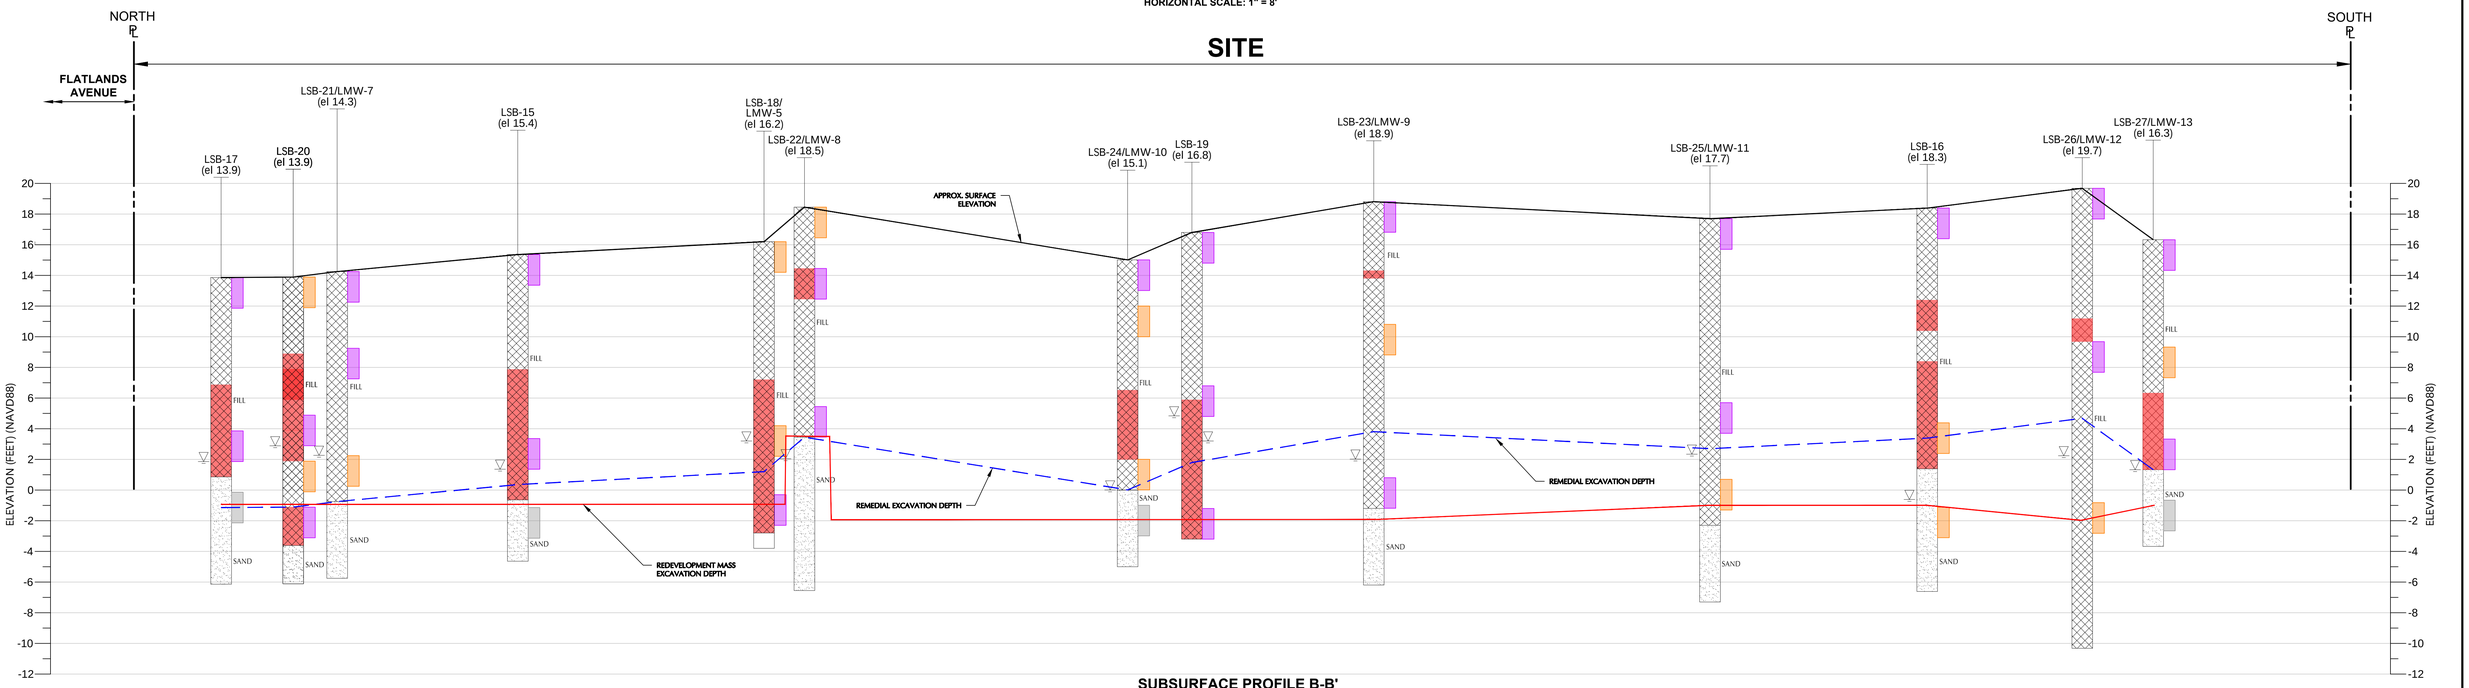
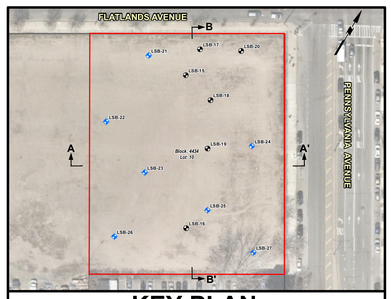
SUBSURFACE PROFILE A-A'

VERTICAL SCALE: 1" = 4'
HORIZONTAL SCALE: 1" = 8'



SUBSURFACE PROFILE B-B'

VERTICAL SCALE: 1" = 4'
HORIZONTAL SCALE: 1" = 8'



KEY PLAN

N.T.S.

NOTES:

1. THIS PROFILE SHOWS GENERALIZED SUBSURFACE CONDITIONS AT THE RESPECTIVE BORING LOCATIONS PRIOR TO THE REMEDIAL EXCAVATION. VARIATIONS IN SUBSURFACE CONDITIONS SHOULD BE EXPECTED BETWEEN BORINGS. FOR A DETAILED DESCRIPTION OF CONDITIONS ENCOUNTERED, SEE BORING LOGS INCLUDED IN APPENDIX B AND APPENDIX H OF THE RIR.
2. SOIL BORING LOCATIONS ARE APPROXIMATE. FORMER GROUND SURFACE ELEVATIONS FOR LSB-15 THROUGH LSB-20, WITH THE EXCEPTION OF LSB-18, ARE INFERRED FROM LIDAR FILES. FORMER GROUND SURFACE ELEVATIONS OF SOIL BORINGS COLLOCATED WITH MONITORING WELLS (LSB-18 AND LSB-21 THROUGH LSB-27) WERE SURVEYED USING GPS LOCATING TECHNIQUES.
3. ELEVATIONS ARE REFERENCED TO THE NORTH AMERICAN VERTICAL DATUM OF 1988, NAVD88.
4. SOIL BORINGS LSB-15 THROUGH LSB-20 WERE COMPLETED ON 18 MAY 2018 AS PART OF THE 2018 PHASE II INVESTIGATION. LSB-21 THROUGH LSB-27 WERE COMPLETED BETWEEN 13 AND 15 APRIL 2021 AS PART OF THE 2021 REMEDIAL INVESTIGATION.
5. THE REDEVELOPMENT MASS EXCAVATION DEPTH IS BASED ON THE "SEGMENT 1 & 2 - FOUNDATION OVERALL PLAN" PREPARED BY DISIMONE CONSULTING ENGINEERS LAST REVISED 4/5/2024.

ENVIRONMENTAL EASEMENT GRANTED PURSUANT TO ARTICLE 71, TITLE 36 OF THE NEW YORK STATE ENVIRONMENTAL CONSERVATION LAW

THIS INDENTURE made as of this 10th day of October, 2024, between Owner(s), IUV Phase 1A Housing Development Fund Corporation (Grantor Fee Owner), with an address of 12020 Flatlands Avenue, Brooklyn, New York, IUV Phase 1 Owner, LLC (Grantor Beneficial Owner), having an office at 432 Park Avenue South, Second Floor, New York, New York, and IUV Phase 1 LIHTC Owner, LLC (Grantor Leaseholder, and together with Grantor Fee Owner and Grantor Beneficial Owner, collectively, the "Grantor"), with an address of 432 Park Avenue South, Second Floor, New York, New York, and The People of the State of New York (the "Grantee"), acting through their Commissioner of the Department of Environmental Conservation (the "Commissioner", or "NYSDEC" or "Department" as the context requires) with its headquarters located at 625 Broadway, Albany, New York 12233,

WHEREAS, the Legislature of the State of New York has declared that it is in the public interest to encourage the remediation of abandoned and likely contaminated properties ("sites") that threaten the health and vitality of the communities they burden while at the same time ensuring the protection of public health and the environment; and

WHEREAS, the Legislature of the State of New York has declared that it is in the public interest to establish within the Department a statutory environmental remediation program that includes the use of Environmental Easements as an enforceable means of ensuring the performance of operation, maintenance, and/or monitoring requirements and the restriction of future uses of the land, when an environmental remediation project leaves residual contamination at levels that have been determined to be safe for a specific use, but not all uses, or which includes engineered structures that must be maintained or protected against damage to perform properly and be effective, or which requires groundwater use or soil management restrictions; and

WHEREAS, the Legislature of the State of New York has declared that Environmental Easement shall mean an interest in real property, created under and subject to the provisions of Article 71, Title 36 of the New York State Environmental Conservation Law ("ECL") which contains a use restriction and/or a prohibition on the use of land in a manner inconsistent with engineering controls which are intended to ensure the long term effectiveness of a site remedial program or eliminate potential exposure pathways to hazardous waste or petroleum; and

WHEREAS, Grantor Fee Owner, is the owner of real property located at the address of 30 Inspiration Lane (a/k/a 12906 Flatlands Avenue) in the City of Brooklyn, County of Kings and State of New York, known and designated on the tax map of the County Clerk of Kings as tax map parcel number: Block 4434 Lot 10, being the same as that property conveyed to Grantor Fee Owner by deed dated March 27, 2024 and recorded in the City Register of the City of New York in CRFN: 2024000081339. The property subject to this Environmental Easement (the "Controlled Property") comprises approximately 1.572 +/- acres and is hereinafter more fully described in the Land Title Survey dated October 31, 2023, prepared by William Theodore Whimple, which will be attached to the Site Management Plan. The Controlled Property description is set forth in and attached hereto as Schedule A;

WHEREAS, Grantor Beneficial Owner, is the owner of the beneficial interest in the Controlled Property being the same as a portion of that beneficial interest conveyed to Grantor Beneficial Owner by means of a Declaration of Interest and Nominee Agreement between Grantor Fee Owner and Grantor Beneficial Owner dated as of March 27, 2024 and recorded in City Register of the City of New York on April 1, 2024 as CRFN # 2024000081340;

WHEREAS, Grantor Leaseholder, is the holder of a 65-year Lessee interest in the Controlled Property, as memorialized in a Memorandum of Master Lease dated March 27, 2024 and recorded in the City Register of the City of New York on April 1, 2024 as CRFN # 2024000081341; and

WHEREAS, the Department accepts this Environmental Easement in order to ensure the protection of public health and the environment and to achieve the requirements for remediation established for the Controlled Property until such time as this Environmental Easement is extinguished pursuant to ECL Article 71, Title 36; and

NOW THEREFORE, in consideration of the mutual covenants contained herein and the terms and conditions of Brownfield Cleanup Agreement Index Number: C224290-04-19, Grantor conveys to Grantee a permanent Environmental Easement pursuant to ECL Article 71, Title 36 in, on, over, under, and upon the Controlled Property as more fully described herein ("Environmental Easement").

1. Purposes. Grantor and Grantee acknowledge that the Purposes of this Environmental Easement are: to convey to Grantee real property rights and interests that will run with the land in perpetuity in order to provide an effective and enforceable means of encouraging the reuse and redevelopment of this Controlled Property at a level that has been determined to be safe for a specific use while ensuring the performance of operation, maintenance, and/or monitoring requirements; and to ensure the restriction of future uses of the land that are inconsistent with the above-stated purpose.

2. Institutional and Engineering Controls. The controls and requirements listed in the Department approved Site Management Plan ("SMP") including any and all Department approved amendments to the SMP are incorporated into and made part of this Environmental Easement. These controls and requirements apply to the use of the Controlled Property, run with the land, are binding on the Grantor and the Grantor's successors and assigns, and are enforceable in law or equity against any owner of the Controlled Property, any lessees and any person using the Controlled Property.

A. (1) The Controlled Property may be used for:

Restricted Residential as described in 6 NYCRR Part 375-1.8(g)(2)(ii), Commercial as described in 6 NYCRR Part 375-1.8(g)(2)(iii) and Industrial as described in 6 NYCRR Part 375-1.8(g)(2)(iv)

(2) All Engineering Controls must be operated and maintained as specified in the Site Management Plan (SMP);

(3) All Engineering Controls must be inspected at a frequency and in a

https://a836-acris.nyc.gov/DS/DocumentSearch/DocumentImageView?doc_id=2024102801004001

manner defined in the SMP;

(4) The use of groundwater underlying the property is prohibited without necessary water quality treatment as determined by the NYSDOH or the Kings County Department of Health to render it safe for use as drinking water or for industrial purposes, and the user must first notify and obtain written approval to do so from the Department;

(5) Groundwater and other environmental or public health monitoring must be performed as defined in the SMP;

(6) Data and information pertinent to Site Management of the Controlled Property must be reported at the frequency and in a manner defined in the SMP;

(7) All future activities on the property that will disturb remaining contaminated material must be conducted in accordance with the SMP;

(8) Monitoring to assess the performance and effectiveness of the remedy must be performed as defined in the SMP;

(9) Operation, maintenance, monitoring, inspection, and reporting of any mechanical or physical components of the remedy shall be performed as defined in the SMP;

(10) Access to the site must be provided to agents, employees or other representatives of the State of New York with reasonable prior notice to the property owner to assure compliance with the restrictions identified by this Environmental Easement.

B. The Controlled Property shall not be used for Residential purposes as defined in 6NYCRR 375-1.8(g)(2)(i), and the above-stated engineering controls may not be discontinued without an amendment or extinguishment of this Environmental Easement.

C. The SMP describes obligations that the Grantor assumes on behalf of Grantor, its successors and assigns. The Grantor's assumption of the obligations contained in the SMP which may include sampling, monitoring, and/or operating a treatment system, and providing certified reports to the NYSDEC, is and remains a fundamental element of the Department's determination that the Controlled Property is safe for a specific use, but not all uses. The SMP may be modified in accordance with the Department's statutory and regulatory authority. The Grantor and all successors and assigns, assume the burden of complying with the SMP and obtaining an up-to-date version of the SMP from:

Site Control Section
Division of Environmental Remediation
NYSDEC
625 Broadway
Albany, New York 12233
Phone: (518) 402-9553

D. Grantor must provide all persons who acquire any interest in the Controlled Property a true and complete copy of the SMP that the Department approves for the Controlled

https://a836-acris.nyc.gov/DS/DocumentSearch/DocumentImageView?doc_id=2024102801004001

Property and all Department-approved amendments to that SMP.

E. Grantor covenants and agrees that until such time as the Environmental Easement is extinguished in accordance with the requirements of ECL Article 71, Title 36 of the ECL, the property deed and all subsequent instruments of conveyance relating to the Controlled Property shall state in at least fifteen-point bold-faced type:

This property is subject to an Environmental Easement held by the New York State Department of Environmental Conservation pursuant to Title 36 of Article 71 of the Environmental Conservation Law.

F. Grantor covenants and agrees that this Environmental Easement shall be incorporated in full or by reference in any leases, licenses, or other instruments granting a right to use the Controlled Property.

G. Grantor covenants and agrees that it shall, at such time as NYSDEC may require, submit to NYSDEC a written statement by an expert the NYSDEC may find acceptable certifying under penalty of perjury, in such form and manner as the Department may require, that:

(1) the inspection of the site to confirm the effectiveness of the institutional and engineering controls required by the remedial program was performed under the direction of the individual set forth at 6 NYCRR Part 375-1.8(h)(3).

(2) the institutional controls and/or engineering controls employed at such site:

(i) are in-place;

(ii) are unchanged from the previous certification, or that any identified changes to the controls employed were approved by the NYSDEC and that all controls are in the Department-approved format; and

(iii) that nothing has occurred that would impair the ability of such control to protect the public health and environment;

(3) the owner will continue to allow access to such real property to evaluate the continued maintenance of such controls;

(4) nothing has occurred that would constitute a violation or failure to comply with any site management plan for such controls;

(5) the report and all attachments were prepared under the direction of, and reviewed by, the party making the certification;

(6) to the best of his/her knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program, and generally accepted engineering practices; and

(7) the information presented is accurate and complete.

3. Right to Enter and Inspect. Grantee, its agents, employees, or other representatives of the State may enter and inspect the Controlled Property in a reasonable manner and at reasonable times to assure compliance with the above-stated restrictions.

https://a836-acris.nyc.gov/DS/DocumentSearch/DocumentImageView?doc_id=2024102801004001

4. Reserved Grantor's Rights. Grantor reserves for itself, its assigns, representatives, and successors in interest with respect to the Property, all rights as fee owner of the Property, including:

A. Use of the Controlled Property for all purposes not inconsistent with, or limited by the terms of this Environmental Easement;

B. The right to give, sell, assign, or otherwise transfer part or all of the underlying fee interest to the Controlled Property, subject and subordinate to this Environmental Easement;

5. Enforcement

A. This Environmental Easement is enforceable in law or equity in perpetuity by Grantor, Grantee, or any affected local government, as defined in ECL Section 71-3603, against the owner of the Property, any lessees, and any person using the land. Enforcement shall not be defeated because of any subsequent adverse possession, laches, estoppel, or waiver. It is not a defense in any action to enforce this Environmental Easement that: it is not appurtenant to an interest in real property; it is not of a character that has been recognized traditionally at common law; it imposes a negative burden; it imposes affirmative obligations upon the owner of any interest in the burdened property; the benefit does not touch or concern real property; there is no privity of estate or of contract; or it imposes an unreasonable restraint on alienation.

B. If any person violates this Environmental Easement, the Grantee may revoke the Certificate of Completion with respect to the Controlled Property.

C. Grantee shall notify Grantor of a breach or suspected breach of any of the terms of this Environmental Easement. Such notice shall set forth how Grantor can cure such breach or suspected breach and give Grantor a reasonable amount of time from the date of receipt of notice in which to cure. At the expiration of such period of time to cure, or any extensions granted by Grantee, the Grantee shall notify Grantor of any failure to adequately cure the breach or suspected breach, and Grantee may take any other appropriate action reasonably necessary to remedy any breach of this Environmental Easement, including the commencement of any proceedings in accordance with applicable law.

D. The failure of Grantee to enforce any of the terms contained herein shall not be deemed a waiver of any such term nor bar any enforcement rights.

6. Notice. Whenever notice to the Grantee (other than the annual certification) or approval from the Grantee is required, the Party providing such notice or seeking such approval shall identify the Controlled Property by referencing the following information:

County, NYSDEC Site Number, NYSDEC Brownfield Cleanup Agreement, State Assistance Contract or Order Number, and the County tax map number or the Liber and Page or computerized system identification number.

Parties shall address correspondence to: Site Number: C224290
Office of General Counsel

With a copy to:

Site Control Section
Division of Environmental Remediation
NYSDEC
625 Broadway
Albany, NY 12233

All notices and correspondence shall be delivered by hand, by registered mail or by Certified mail and return receipt requested. The Parties may provide for other means of receiving and communicating notices and responses to requests for approval.

7. Recordation. Grantor shall record this instrument, within thirty (30) days of execution of this instrument by the Commissioner or her/his authorized representative in the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

8. Amendment. Any amendment to this Environmental Easement may only be executed by the Commissioner of the New York State Department of Environmental Conservation or the Commissioner's Designee and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

9. Extinguishment. This Environmental Easement may be extinguished only by a release by the Commissioner of the New York State Department of Environmental Conservation, or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

10. Joint Obligation. If there are two or more parties identified as Grantor herein, the obligations imposed by this instrument upon them shall be joint and several.

11. Consistency with the SMP. To the extent there is any conflict or inconsistency between the terms of this Environmental Easement and the SMP, regarding matters specifically addressed by the SMP, the terms of the SMP will control.

In the Matter of a Remedial Program for

BROWNFIELD SITE CLEANUP AGREEMENT
Index No. C224290-04-19

12096 Flatlands Avenue
DEC Site No:C224290
Located at: 12096 Flatlands Avenue
Kings County
Brooklyn, NY 11207

Hereinafter referred to as "Site"

by:

Innovative Urban Living, LLC
c/o Gotham Organization, LLC, New York, NY 10016

Hereinafter referred to as "Applicant"

WHEREAS, the Department of Environmental Conservation ("Department") is authorized to administer the Brownfield Cleanup Program ("BCP") set forth in Article 27, Title 14 of the Environmental Conservation Law ("ECL"); and

WHEREAS, the Applicant submitted an application received by the Department on December 17, 2018; and

WHEREAS, the Department has determined that the Site and Applicant are eligible to participate in the BCP.

NOW, THEREFORE, IN CONSIDERATION OF AND IN EXCHANGE FOR THE MUTUAL COVENANTS AND PROMISES, THE PARTIES AGREE TO THE FOLLOWING:

I. Applicant Status

The Applicant, Innovative Urban Living, LLC, is participating in the BCP as a Volunteer as defined in ECL 27-1405(1)(b).

II. Tangible Property Tax Credit Status

. The Department has determined that the Site is eligible for tangible property tax credits pursuant to ECL § 27-1407(1-a) because the Site is located in a City having a population of one million or more and at least half of the site area is located in an environmental zone as defined in section twenty-one of the tax law. The Applicant acknowledges that the Department made this determination in reliance on information submitted to the Department by the Applicant.

III. Real Property

The Site subject to this Brownfield Cleanup Agreement (the "BCA" or "Agreement") consists of approximately 1.572 acres, a Map of which is attached as Exhibit "A", and is described as follows:

Tax Map/Parcel No.: 4434-10
Street Number: 12096 Flatlands Avenue, Brooklyn
Owner: Christian Cultural Center, Inc.

IV. Communications

A. All written communications required by this Agreement shall be transmitted by United States Postal Service, by private courier service, by hand delivery, or by electronic mail.

1. Communication from Applicant shall be sent to:

B. The Department and Applicant reserve the right to designate additional or different addressees for communication on written notice to the other. Additionally, the Department reserves the right to request that the Applicant provide more than one paper copy of any work plan or report.

C. Each party shall notify the other within ninety (90) days after any change in the addresses listed in this paragraph or in Paragraph III.

V. Miscellaneous

A. Applicant acknowledges that it has read, understands, and agrees to abide by all the terms set forth in Appendix A - "Standard Clauses for All New York State Brownfield Site Cleanup Agreements" which is attached to and hereby made a part of this Agreement as if set forth fully herein.

B. In the event of a conflict between the terms of this BCA (including any and all attachments thereto and amendments thereof) and the terms of Appendix A, the terms of this BCA shall control.

C. The effective date of this Agreement is the date it is signed by the Commissioner or the Commissioner's designee.

APPENDIX A

STANDARD CLAUSES FOR ALL NEW YORK STATE BROWNFIELD SITE CLEANUP AGREEMENTS

The parties to the Brownfield Site Cleanup Agreement (hereinafter "BCA" or "Agreement") agree to be bound by the following clauses which are hereby made a part of the BCA. The word "Applicant" herein refers to any party to the Agreement, other than the New York State Department of Environmental Conservation (herein after "Department").

I. Citizen Participation Plan

Within twenty (20) days after the effective date of this Agreement, Applicant shall submit for review and approval a written citizen participation plan prepared in accordance with the requirements of Environmental Conservation Law (ECL) § 27-1417 and 6 NYCRR §§ 375-1.10 and 375-3.10. Upon approval, the Citizen Participation Plan shall be deemed to be incorporated into and made a part of this Agreement.

II. Development, Performance, and Reporting of Work Plans

A. Work Plan Requirements

The work plans ("Work Plan" or "Work Plans") under this Agreement shall be prepared and implemented in accordance with the requirements of ECL Article 27, Title 14, 6 NYCRR §§ 375-1.6(a) and 375-3.6, and all applicable laws, rules, regulations, and guidance documents. The Work Plans shall be captioned as follows:

1. "Remedial Investigation Work Plan" if the Work Plan provides for the investigation of the nature and extent of contamination within the boundaries of the Site and, if the Applicant is a "Participant", the extent of contamination emanating from such Site. If the Applicant is a "Volunteer" it shall perform a qualitative exposure assessment of the contamination emanating from the Site in accordance with ECL § 27-1415(2)(b) and Department guidance;

2. "Remedial Work Plan" if the Work Plan provides for the development and implementation of a Remedial Program for contamination within the boundaries of the Site and, if the Applicant is a "Participant", the contamination that has emanated from such Site;

3. "IRM Work Plan" if the Work Plan provides for an interim remedial measure; or

4. "Site Management Plan" if the Work Plan provides for the identification and implementation of institutional and/or engineering controls as well as any necessary monitoring and/or operation and maintenance of the remedy.

5. "Supplemental" if additional work plans other than those set forth in II.A.1-4 are required to be prepared and implemented.

B. Submission/Implementation of Work Plans

1. The first proposed Work Plan to be submitted under this Agreement shall be submitted no later than thirty (30) days after the effective date of this Agreement. Thereafter, the Applicant shall submit such other and additional work plans as determined in a schedule to be approved by the Department.

2. Any proposed Work Plan shall be submitted for the Department's review and approval and shall include, at a minimum, a chronological description of the anticipated activities to be conducted in accordance with current guidance, a schedule for performance of those activities, and sufficient detail to allow the Department to evaluate that Work Plan. The Department shall use best efforts in accordance with 6 NYCRR § 375-3.6(b) to approve, modify, or reject a proposed Work Plan within forty-five (45) days from its receipt or within fifteen (15) days from the close of the comment period, if applicable, whichever is later.

i. Upon the Department's written approval of a Work Plan, such Department-approved Work Plan shall be deemed to be incorporated into and made a part of this Agreement and shall be implemented in accordance with the schedule contained therein. All work undertaken as part of a remedial program for a Site must be detailed in a department-approved Work Plan or a submittal approved in form and content by the Department.

ii. If the Department requires modification of a Work Plan, the reason for such modification shall be provided in writing and the

provisions of 6 NYCRR § 375-1.6(d)(3) shall apply.

iii. If the Department disapproves a Work Plan, the reason for such disapproval shall be provided in writing and the provisions of 6 NYCRR § 375-1.6(d)(4) shall apply.

3. A Site Management Plan, if necessary, shall be submitted in accordance with the schedule set forth in the IRM Work Plan or Remedial Work Plan.

C. Submission of Final Reports

1. In accordance with the schedule contained in an approved Work Plan, Applicant shall submit a Final Report for an Investigation Work Plan prepared in accordance with ECL § 27-1411(1) and 6 NYCRR § 375-1.6. If such Final Report concludes that no remediation is necessary, and the Site does not meet the requirements for Track 1, Applicant shall submit an Alternatives Analysis prepared in accordance with ECL § 27-1413 and 6 NYCRR § 375-3.8(f) that supports such determination.

2. In accordance with the schedule contained in an approved Work Plan, Applicant shall submit a Final Engineering Report certifying that remediation of the Site has been performed in accordance with the requirements of ECL §§ 27-1419(1) and (2) and 6 NYCRR § 375-1.6. The Department shall review such Report, the submittals made pursuant to this Agreement, and any other relevant information regarding the Site and make a determination as to whether the goals of the remedial program have been or will be achieved in accordance with established timeframes; if so, a written Certificate of Completion will be issued in accordance with ECL § 27-1419, 6 NYCRR §§ 375-1.9 and 375-3.9.

3. Within sixty (60) days of the Department's approval of a Final Report, Applicant shall submit such additional Work Plans as it proposes to implement. In addition, Applicant shall include with every report submitted to the Department a schedule for the submission of any subsequent work plan required to meet the requirements of ECL Article 27 Title 14. Failure to submit any additional Work Plans within such period shall, unless other Work Plans are under review by the Department or being implemented by Applicant, result in the termination of this Agreement pursuant to Paragraph XII.

D. Review of Submittals other than Work Plans

1. The Department shall timely notify Applicant in writing of its approval or disapproval of each submittal other than a Work Plan in accordance with 6 NYCRR § 375-1.6. All Department-approved submittals shall be incorporated into and become an enforceable part of this Agreement.

2. If the Department disapproves a submittal covered by this Subparagraph, it shall specify the reason for its disapproval and may request Applicant to modify or expand the submittal. Within fifteen (15) days after receiving written notice that Applicant's submittal has been disapproved, Applicant shall elect in writing to either (i) modify or expand it within thirty (30) days of receipt of the written notice of disapproval; (ii) complete any other Department-approved Work Plan(s); (iii) invoke dispute resolution pursuant to Paragraph XIII; or (iv) terminate this Agreement pursuant to Paragraph XII. If Applicant submits a revised submittal and it is disapproved, the Department and Applicant may pursue whatever remedies may be available under this Agreement or under law. All work undertaken as part of a remedial program, including work undertaken pursuant to submittals other than Work Plans, must be approved by the department prior to implementation by the Applicant.

E. Department's Determination of Need for Remediation

The Department shall determine upon its approval of each Final Report dealing with the investigation of the Site whether remediation, or additional remediation as the case may be, is needed for protection of public health and the environment.

1. If the Department makes a preliminary determination that remediation, or additional remediation, is not needed for protection of public health and the environment, the Department shall notify the public of such determination and seek public comment in accordance with ECL § 27-1417(3)(f). The Department shall provide timely notification to the Applicant of its final determination following the close of the public comment period.

2. If the Department determines that additional remediation is not needed and such determination is based upon use restrictions, Applicant shall cause to be recorded an Environmental Easement in accordance with 6 NYCRR § 375-1.8(h).

3. If the Department determines that remediation, or additional remediation, is needed, Applicant may elect to submit for review and approval a proposed Remedial Work Plan (or modify an existing Work Plan for the Site) for a remedy selected upon due consideration of the factors set forth in ECL § 27-1415(3) and 6 NYCRR § 375-1.8(f). A proposed Remedial Work Plan addressing the Site's remediation will be noticed for public comment in accordance with ECL § 27-1417(3)(f) and the Citizen Participation Plan developed pursuant to this Agreement. If the Department determines following the close of the public comment period that modifications to the proposed Remedial Work Plan are needed, Applicant agrees to negotiate appropriate modifications to such Work Plan. If Applicant elects not to develop a Work Plan under this Subparagraph then this Agreement shall terminate in accordance with Paragraph XII. If the Applicant elects to develop a Work Plan, then it will be reviewed in accordance with Paragraph II.D above.

F. Institutional/Engineering Control Certification

In the event that the remedy for the Site, if any, or any Work Plan for the Site, requires institutional or engineering controls, Applicant shall submit a written certification in accordance with 6 NYCRR §§ 375-1.8(h)(3) and 375-3.8(h)(2).

III. Enforcement

Except as provided in Paragraph V, this Agreement shall be enforceable as a contractual agreement under the laws of the State of New York. Applicant shall not suffer any penalty except as provided in Paragraph V, or be subject to any proceeding or action if it cannot comply with any requirement of this Agreement as a result of a Force Majeure Event as described at 6 NYCRR § 375-1.5(b)(4) provided Applicant complies with the requirements set forth therein.

IV. Entry upon Site

A. Applicant hereby agrees to provide access to the Site and to all relevant information regarding activities at the Site in accordance with the provisions of ECL § 27-1431. Applicant agrees to provide the Department upon request with proof of access if it is not the owner of the Site.

B. The Department shall have the right to periodically inspect the Site to ensure that the use of the property complies with the terms and conditions of this Agreement. The Department will generally conduct such inspections during business hours, but retains the right to inspect at any time.

C. Failure to provide access as provided for under this Paragraph may result in termination of this Agreement pursuant to Paragraph XII.

V. Payment of State Costs (Applicable only to Applicants with Participant Status)

A. Within forty-five (45) days after receipt of an itemized invoice from the Department, Applicant shall pay to the Department a sum of money which shall represent reimbursement for State Costs as provided by 6 NYCRR § 375-1.5 (b)(3)(i).

B. Costs shall be documented as provided by 6 NYCRR § 375-1.5(b)(3)(ii). The Department shall not be required to provide any other documentation of costs, provided however, that the Department's records shall be available consistent with, and in accordance with, Article 6 of the Public Officers Law.

C. Each such payment shall be made payable to the "Commissioner of NYSDEC" and shall be sent to:

Director, Bureau of Program Management
Division of Environmental Remediation
New York State
Department of Environmental Conservation
625 Broadway
Albany, New York 12233-7012

D. Each party shall provide written notification to the other within ninety (90) days of any change in the foregoing addresses.

E. If Applicant objects to any invoiced costs under this Agreement, the provisions of 6 NYCRR §§ 375-1.5 (b)(3)(v) and (vi) shall apply.

Objections shall be sent to the Department as provided under subparagraph V.C above.

F. In the event of non-payment of any invoice within the 45 days provided herein, the Department may seek enforcement of this provision pursuant to Paragraph III or the Department may commence an enforcement action for non-compliance with ECL § 27-1409(2) and ECL § 71-4003.

VI. Liability Limitation

Subsequent to the issuance of a Certificate of Completion pursuant to this Agreement, Applicant shall be entitled to the Liability Limitation set forth at ECL § 27-1421, subject to the terms and conditions stated therein and to the provisions of 6 NYCRR §§ 375-1.9 and 375-3.9.

VII. Reservation of Rights

A. Except as provided in Subparagraph VII.B, Applicant reserves all rights and defenses under applicable law to contest, defend against, dispute, or disprove any action, proceeding, allegation, assertion, determination, or order of the Department, including any assertion of remedial liability by the Department against Applicant, and further reserves all rights including the rights to notice, to be heard, to appeal, and to any other due process respecting any action or proceeding by the Department, including the enforcement of this Agreement. The existence of this Agreement or Applicant's compliance with it shall not be construed as an admission of any liability, fault, wrongdoing, or violation of law by Applicant, and shall not give rise to any presumption of law or finding of fact which shall inure to the benefit of any third party.

B. Notwithstanding the foregoing, Applicant hereby waives any right it may have to make a claim pursuant to Article 12 of the Navigation Law with respect to the Site and releases the State and the New York Environmental Protection and Spill Compensation Fund from any and all legal or equitable claims, suits, causes of action, or demands whatsoever with respect to the Site that Applicant may have as a result of Applicant's entering into or fulfilling the terms of this Agreement.

VIII. Indemnification

Applicant shall indemnify and hold the Department, the State of New York, and their representatives and employees harmless from any claim, suit, action, and cost of every name and description arising out of or resulting from the fulfillment or attempted fulfillment of this Agreement by Applicant prior to the Termination Date except for those claims, suits, actions, and costs arising from the State's gross negligence or willful or intentional misconduct by the Department, the State of New York, and/or their representatives and employees during the course of any activities conducted pursuant to this Agreement. In the event that the Applicant is a Participant, this provision shall also include the Trustee of the State's Natural Resources. The Department shall provide Applicant with written notice no less than thirty (30) days prior to commencing a lawsuit seeking indemnification pursuant to this Paragraph.

IX. Change of Use

Applicant shall notify the Department at least sixty (60) days in advance of any change of use, as defined in ECL § 27-1425, which is proposed for the Site, in accordance with the provisions of 6 NYCRR § 375-1.11(d). In the event the Department determines that the proposed change of use is prohibited, the Department shall notify Applicant of such determination within forty-five (45) days of receipt of such notice.

X. Environmental Easement

A. Within thirty (30) days after the Department's approval of a Remedial Work Plan which relies upon one or more institutional and/or engineering controls, or within sixty (60) days after the Department's determination pursuant to Subparagraph II.E.2 that additional remediation is not needed based upon use restrictions, Applicant shall submit to the Department for approval an Environmental Easement to run with the land in favor of the State which complies with the requirements of ECL Article 71, Title 36 and 6 NYCRR § 375-1.8(h)(2). Applicant shall cause such instrument to be recorded with the recording officer for the county in which the Site is located within thirty (30) days after the Department's approval of such instrument. Applicant shall provide the Department with a copy of such instrument certified by the recording officer to be a true and faithful copy within thirty (30) days of such recording (or such longer period of time as may be required to obtain a certified copy

provided Applicant advises the Department of the status of its efforts to obtain same within such thirty (30) day period), which shall be deemed to be incorporated into this Agreement.

B. Applicant or the owner of the Site may petition the Department to modify or extinguish the Environmental Easement filed pursuant to this Agreement at such time as it can certify that the Site is protective of public health and the environment without reliance upon the restrictions set forth in such instrument. Such certification shall be made by a Professional Engineer or Qualified Environmental Professional as defined at 6 NYCRR § 375-1.2(ak) approved by the Department. The Department will not unreasonably withhold its consent.

XI. Progress Reports

Applicant shall submit a written progress report of its actions under this Agreement to the parties identified in Subparagraph III.A.1 of the Agreement by the 10th day of each month commencing with the month subsequent to the approval of the first Work Plan and ending with the Termination Date, unless a different frequency is set forth in a Work Plan. Such reports shall, at a minimum, include: all actions relative to the Site during the previous reporting period and those anticipated for the next reporting period; all approved activity modifications (changes of work scope and/or schedule); all results of sampling and tests and all other data received or generated by or on behalf of Applicant in connection with this Site, whether under this Agreement or otherwise, in the previous reporting period, including quality assurance/quality control information; information regarding percentage of completion; unresolved delays encountered or anticipated that may affect the future schedule and efforts made to mitigate such delays; and information regarding activities undertaken in support of the Citizen Participation Plan during the previous reporting period and those anticipated for the next reporting period.

XII. Termination of Agreement

Applicant or the Department may terminate this Agreement consistent with the provisions of 6 NYCRR §§ 375-3.5(b), (c), and (d) by providing written notification to the parties listed in Paragraph IV of the Agreement.

XIII. Dispute Resolution

A. In the event disputes arise under this Agreement, Applicant may, within fifteen (15) days after Applicant knew or should have known of the facts which are the basis of the dispute, initiate dispute resolution in accordance with the provisions of 6 NYCRR § 375-1.5(b)(2).

B. All cost incurred by the Department associated with dispute resolution are State costs subject to reimbursement pursuant to Paragraph V of Appendix A of this Agreement, if applicable.

C. Notwithstanding any other rights otherwise authorized in law or equity, any disputes pursuant to this Agreement shall be limited to Departmental decisions on remedial activities. In no event shall such dispute authorize a challenge to the applicable statute or regulation.

XIV. Miscellaneous

A. If the information provided and any certifications made by Applicant are not materially accurate and complete, this Agreement, except with respect to Applicant's obligations pursuant to Paragraphs V, if applicable, and VII.B, and VIII, shall be null and void ab initio fifteen (15) days after the Department's notification of such inaccuracy or incompleteness or fifteen (15) days after issuance of a final decision resolving a dispute pursuant to Paragraph XIII, whichever is later, unless Applicant submits information within that fifteen (15) day time period indicating that the information provided and the certifications made were materially accurate and complete. In the event this Agreement is rendered null and void, any Certificate of Completion and/or Liability Limitation that may have been issued or may have arisen under this Agreement shall also be null and void ab initio, and the Department shall reserve all rights that it may have under law.

B. By entering into this Agreement, Applicant agrees to comply with and be bound by the provisions of 6 NYCRR §§ 375-1, 375-3 and 375-6; the provisions of such subparts that are referenced herein are referenced for clarity and convenience only and the failure of this Agreement to specifically reference any particular regulatory provision is not intended to imply that such provision is not applicable to activities performed under this Agreement.

C. The Department may exempt Applicant from the requirement to obtain any state or local

permit or other authorization for any activity conducted pursuant to this Agreement in accordance with 6 NYCRR §§ 375-1.12(b), (c), and (d).

D. 1. Applicant shall use "best efforts" to obtain all Site access, permits, easements, approvals, institutional controls, and/or authorizations necessary to perform Applicant's obligations under this Agreement, including all Department-approved Work Plans and the schedules contained therein. If, despite Applicant's best efforts, any access, permits, easements, approvals, institutional controls, or authorizations cannot be obtained, Applicant shall promptly notify the Department and include a summary of the steps taken. The Department may, as it deems appropriate and within its authority, assist Applicant in obtaining same.

2. If an interest in property is needed to implement an institutional control required by a Work Plan and such interest cannot be obtained, the Department may require Applicant to modify the Work Plan pursuant to 6 NYCRR § 375-1.6(d)(3) to reflect changes necessitated by Applicant's inability to obtain such interest.

E. The paragraph headings set forth in this Agreement are included for convenience of reference only and shall be disregarded in the construction and interpretation of any provisions of this Agreement.

F. 1. The terms of this Agreement shall constitute the complete and entire agreement between the Department and Applicant concerning the implementation of the activities required by this Agreement. No term, condition, understanding, or agreement purporting to modify or vary any term of this Agreement shall be binding unless made in writing and subscribed by the party to be bound. No informal advice, guidance, suggestion, or comment by the Department shall be construed as relieving Applicant of its obligation to obtain such formal approvals as may be required by this Agreement. In the event of a conflict between the terms of this Agreement and any Work Plan submitted pursuant to this Agreement, the terms of this Agreement shall control over the terms of the Work Plan(s). Applicant consents to and agrees not to contest the authority and jurisdiction of the Department to enter into or enforce this Agreement.

2. i. Except as set forth herein, if Applicant desires that any provision of this Agreement be changed, Applicant shall make timely written application to the Commissioner with copies to the parties in Subparagraph IV.A.1 of the Agreement.

ii. If Applicant seeks to modify an approved Work Plan, a written request shall be made to the Department's project manager, with copies to the parties listed in Subparagraph IV.A.1 of the Agreement.

iii. Requests for a change to a time frame set forth in this Agreement shall be made in writing to the Department's project attorney and project manager; such requests shall not be unreasonably denied and a written response to such requests shall be sent to Applicant promptly.

G. 1. If there are multiple parties signing this Agreement, the term "Applicant" shall be read in the plural, the obligations of each such party under this Agreement are joint and several, and the insolvency of or failure by any Applicant to implement any obligations under this Agreement shall not affect the obligations of the remaining Applicant(s) under this Agreement.

2. If Applicant is a partnership, the obligations of all general partners (including limited partners who act as general partners) under this Agreement are joint and several and the insolvency or failure of any general partner to implement any obligations under this Agreement shall not affect the obligations of the remaining partner(s) under this Agreement.

3. Notwithstanding the foregoing Subparagraphs XIV.G.1 and 2, if multiple parties sign this Agreement as Applicants but not all of the signing parties elect to implement a Work Plan, all Applicants are jointly and severally liable for each and every obligation under this Agreement through the completion of activities in such Work Plan that all such parties consented to; thereafter, only those Applicants electing to perform additional work shall be jointly and severally liable under this Agreement for the obligations and activities under such additional Work Plan(s). The parties electing not to implement the additional Work Plan(s) shall have no obligations under this Agreement relative to the activities set forth in such Work Plan(s). Further, only those Applicants electing to implement such additional Work Plan(s) shall be

eligible to receive the Liability Limitation referenced in Paragraph VI.

4. Any change to parties pursuant to this Agreement, including successors and assigns through acquisition of title, is subject to approval by the Department, after submittal of an application acceptable to the Department.

H. Applicant shall be entitled to receive contribution protection and/or to seek contribution to the extent authorized by ECL § 27-1421(6) and 6 NYCRR § 375-1.5(b)(5).

I. Applicant shall not be considered an operator of the Site solely by virtue of having executed and/or implemented this Agreement.

J. Applicant and Applicant's agents, grantees, lessees, sublessees, successors, and assigns shall be bound by this Agreement. Any change in ownership of Applicant including, but not limited to, any transfer of assets or real or personal property, shall in no way alter Applicant's responsibilities under this Agreement.

K. Unless otherwise expressly provided herein, terms used in this Agreement which are defined in ECL Article 27 or in regulations promulgated thereunder shall have the meaning assigned to them under said statute or regulations.

L. Applicant's obligations under this Agreement shall not be deemed to constitute any type of fine or penalty.

M. In accordance with 6 NYCRR § 375-1.6(a)(4), the Department shall be notified at least 7 days in advance of, and be allowed to attend, any field activities to be conducted under a Department approved work plan, as well as any pre-bid meetings, job progress meetings, substantial completion meeting and inspection, and final inspection and meeting; provided, however that the Department may be excluded from portions of meetings where privileged matters are discussed.

N. In accordance with 6 NYCRR § 375-1.11(a), all work plans; reports, including all attachments and appendices, and certifications, submitted by a remedial party shall be submitted in print, as well as in an electronic format acceptable to the Department.

O. This Agreement may be executed for the convenience of the parties hereto, individually or in combination, in one or more counterparts, each of which shall be deemed to have the status of an executed original and all of which shall together constitute one and the same.

RECEIVED
MAY 21 2019
Division of
Environmental Remediation

WRITTEN CONSENT

The undersigned, GO UCL LLC, the Managing Member of Innovative Urban Living, LLC, does hereby certify as follows:

1. Innovative Urban Living, LLC is the prospective volunteer for the Brownfield Cleanup Program ("Volunteer"), which entity intends to perform investigation and remediation work on a portion of 12120 Flatlands Avenue, Brooklyn, New York 11207, Brooklyn Block 4434 Lot 1 (the "Site"). Final subdivision approval is pending, which will result in the Site being known as Block 4434 Lot 10.

2. The following person, David L. Picket, the Authorized Representative of GO UCL LLC, which is the Managing Member of the Volunteer, has been authorized to execute any documents required by the New York State Department of Environmental Conservation on behalf of the Volunteer, including but not limited to the BCP Application, the Brownfield Cleanup Agreement ("BCA"), Applications to Amend the BCA, Change of Use Notifications, Certificate of Completion, and if required, an Environmental Easement.

IN WITNESS WHEREOF, the undersigned has executed this Certificate on this 19th day of November, 2018.

GO UCL LLC

BROWNFIELD CLEANUP PROGRAM (BCP) APPLICATION TO AMEND BROWNFIELD CLEANUP AGREEMENT AND AMENDMENT

Please refer to the attached instructions for guidance on completing this application.

Submission of a full BCP application will be required should this application be determined to be a major amendment. If the amendment seeks to add or subtract more than an insignificant acreage of property to the BCA, applicants are encouraged to consult with the DEC project team prior to submitting this application.

PART I. BROWNFIELD CLEANUP AGREEMENT AMENDMENT APPLICATION

1. Check the appropriate box(es) below based on the nature of the amendment modification(s) requested:

- [x] Amendment to modify the existing BCA (check one or more boxes below):
  - [x] Add applicant(s)
  - [ ] Substitute applicant(s)
  - [ ] Remove applicant(s)
  - [ ] Change in name of applicant(s)
- [ ] Amendment to reflect a transfer of title to all or part of the brownfield site:
  - a. A copy of the recorded deed must be provided. Is this attached? Yes ◯ No ◯
  - b. [ ] Change in ownership [ ] Additional owner (such as a beneficial owner)
  - c. Pursuant to 6 NYCRR Part 375-1.11(d), a Change of Use form should have been submitted prior to a transfer of ownership. If this has not yet been submitted, include the form with this application. Is this form attached? Yes ◯ No ◯ Submitted on: _____
- [ ] Amendment to modify description of the property(ies) listed in the existing BCA
- [ ] Amendment to expand or reduce property boundaries of the property(ies) listed in the existing BCA
- [x] Sites in Bronx, Kings, New York, Queens or Richmond Counties ONLY: amendment to request determination that the site is eligible for tangible property credit component of the brownfield redevelopment tax credit.
- [ ] Other (explain in detail below)

2. REQUIRED: Please provide a brief narrative describing the specific requests included in this amendment:

IUV Phase I Owner, LLC, the prospective beneficial owner of the BCA Site, is being added to the BCA. IUV Phase I Owner, LLC has no prior relationship with any current or past owners or operators at the Site. IUV Phase I Owner, LLC did not cause any of the contamination of the Site, therefore, IUV Phase I Owner, LLC is a Volunteer. Current Volunteer Innovative Urban Living, LLC will remain a party on the BCA. Please see Ex. A DOS Entity Filing, Ex. B the Corporate Consents and Ex. C the Certification Statement. Christian Cultural Center, Inc. remains the title owner of the BCP Site, however, on or before the date of the Construction Loan Closing, title of the Site will be transferred to Urban Living Alternatives, LLC and then will be immediately transfered to IUV Phase 1A Housing Development Fund Corporation. Urban Living Alternatives, LLC and IUV Phase 1A Housing Development Fund Corporation are not being added to the BCA at this time. Please see Ex. D Site Access Agreement. In addition, proof is also being provided that the Site will be developed into an affordable housing project in support of the additional tangible property tax credit bump up of 5%. See Exhibit E November 22, 2022 Mandatory Inclusionary Housing Resolution passed by the New York City Council.

SECTION IV: NEW REQUESTOR ELIGIBILITY INFORMATION
Complete this section only if adding new requestor(s). Attach additional pages if necessary.

If answering "yes" to any of the following questions, please provide additional information as an attachment. Please refer to ECL § 27-1407 for details.

	Y	N
1. Are any enforcement actions pending against the requestor regarding this site?	○	◉
2. Is the requestor presently subject to an existing order for the investigation, removal or remediation relating to contamination at the site?	○	◉
3. Is the requestor subject to an outstanding claim by the Spill Fund for the site? Any questions regarding whether a party is subject to a spill claim should be discussed with the Spill Fund Administrator.	○	◉
4. Has the requestor been determined in an administrative, civil or criminal proceeding to be in violation of (i) any provision of the subject law; (ii) any order or determination; (iii) any regulation implementing ECL Article 27 Title 14; or (iv) any similar statute or regulation of the state or federal government? If so, provide additional information as an attachment.	○	◉
5. Has the requestor previously been denied entry to the BCP? If so, include information relative to the application, such as site name, address, DEC site number, reason for denial, and any other relevant information.	○	◉
6. Has the requestor been found in a civil proceeding to have committed a negligent or intentionally tortious act involving the handling, storing, treating, disposing or transporting or contaminants?	○	◉
7. Has the requestor been convicted of a criminal offense (i) involving the handling, storing, treating, disposing or transporting of contaminants; or (ii) that involves a violent felony, fraud, bribery, perjury, theft, or offense against public administration (as that term is used in Article 195 of the Penal Law) under federal law or the laws of any state?	○	◉
8. Has the requestor knowingly falsified statements or concealed material facts in any matter within the jurisdiction of the Department, or submitted a false statement or made use of or made a false statement in connection with any document or application submitted to the Department?	○	◉

SECTION IV: NEW REQUESTOR ELIGIBILITY INFORMATION (continued)	Y	N
9. Is the requestor an individual or entity of the type set forth in ECL 27-1407.9(f) that committed an act or failed to act, and such act or failure to act could be the basis for denial of a BCP application?	○	◉
10. Was the requestor's participation in any remedial program under DEC's oversight terminated by DEC or by a court for failure to substantially comply with an agreement or order?	○	◉
11. Are there any unregistered bulk storage tanks on-site which require registration?	○	◉

12. THE NEW REQUESTOR MUST CERTIFY THAT IT IS EITHER A PARTICIPANT OR VOLUNTEER IN ACCORDANCE WITH ECL § 27-1405(1) BY CHECKING ONE OF THE BOXES BELOW:

☐ PARTICIPANT	☑ VOLUNTEER
A requestor who either (1) was the owner of the site at the time of the disposal of contamination or (2) is otherwise a person responsible for the contamination, unless the liability arises solely as a result of ownership, operation of or involvement with the site subsequent to the disposal of contamination.	A requestor other than a participant, including a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site subsequent to the disposal of a hazardous waste or discharge of petroleum. NOTE: By checking this box, a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site certifies that they have exercised appropriate care with respect to the hazardous waste found at the facility by taking reasonable steps to: (i) stop any continuing discharge; (ii) prevent any threatened future release; (iii) prevent or limit human, environmental or natural resource exposure to any previously released hazardous waste. **If a requestor's liability arises solely as a result of ownership, operation of or involvement with the site, they must submit a statement describing why they should be considered a volunteer – be specific as to the appropriate care taken.**

	N/A	Y	N
13. If the requestor is a volunteer, is a statement describing why the requestor should be considered a volunteer attached?	○	◉	○

14. Requestor's relationship to the property (check all that apply):

☐ Prior Owner ☐ Current Owner ☐ Potential/Future Purchaser ☑ Other: Prospective Beneficial Owner

	N/A	Y	N
15. If the requestor is not the current site owner, proof of site access sufficient to complete the remediation must be submitted. Proof must show that the requestor will have access to the property before being added to the BCA and throughout the BCP project, including the ability to place an easement on the site. Is this proof attached?	○	◉	○

Site Code: C224290

SECTION V: PROPERTY DESCRIPTION AND REQUESTED CHANGES

Complete this section only if property is being added to or removed from the site, a lot merger or other change to site SBL(s) has occurred, or if modifying the site address for any reason.

1. Property information on current agreement (as modified by any previous amendments, if applicable):

3. TOTAL REVISED SITE ACREAGE: _____

4. For all changes requested in this section, documentation must be provided. Required attachments are listed in the application instructions. Is the required documentation attached?	Y ◯	N ◯

APPLICATION TO AMEND BROWNFIELD CLEANUP AGREEMENT AND AMENDMENT SUPPLEMENT QUESTIONS FOR SITE SEEKING TANGIBLE PROPERTY CREDITS IN NEW YORK CITY ONLY

Complete this section only if the site is located within the five counties comprising New York City and the requestor is seeking a determination of eligibility for tangible property credits. Provide supporting documentation as required. Refer to the application instructions for additional information.

	Y	N
1. Is the site located in Bronx, Kings, New York, Queens or Richmond County?	◉	○
2. Is the requestor seeking a determination that the site is eligible for the tangible property credit component of the brownfield redevelopment tax credit?	◉	○
3. Is at least 50% of the site area located within an environmental zone pursuant to Tax Law 21(6)? Please see DEC's website for more information.	◉	○
4. Is the property upside down as defined below? **From ECL 27-1405(31):** "Upside down" shall mean a property where the projected and incurred cost of the investigation and remediation which is protective for the anticipated use of the property equals or exceeds seventy-five percent of its independent appraised value, as of the date of submission of the application for participation in the brownfield cleanup program, developed under the hypothetical condition that the property is not contaminated.	○	◉
5. Is the project and affordable housing project as defined below? **From 6 NYCRR 375-3.2(a) as of August 12, 2016:** (a) "Affordable housing project" means, for purposes of this part, title fourteen of article twenty-seven of the environmental conservation law and section twenty-one of the tax law only, a project that is developed for residential use or mixed residential use that must include affordable residential rental units and/or affordable home ownership units. (1) Affordable residential rental projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which defines (i) a percentage of the residential rental units in the affordable housing project to be dedicated to (ii) tenants at a defined maximum percentage of the area median income based on the occupants' household's annual gross income. (2) Affordable home ownership projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which sets affordable units aside for homeowners at a defined maximum percentage of the area median income. (3) "Area median income" means, for purposes of this subdivision, the area median income for the primary metropolitan statistical area, or for the county if located outside a metropolitan statistical area, as determined by the United States Department of Housing and Urban Development, or its successor, for a family of four, as adjusted for family size.	◉	○

APPLICATION SUPPLEMENT FOR NYC SITES (continued)	Y	N
6. Is the project a planned renewable energy facility site as defined below? **From ECL 27-1405(33) as of April 9, 2022:** "Renewable energy facility site" shall mean real property (a) this is used for a renewable energy system, as defined in section sixty-six-p of the public service law; or (b) any co-located system storing energy generated from such a renewable energy system prior to delivering it to the bulk transmission, sub-transmission, or distribution system. **From Public Service Law Article 4 Section 66-p as of April 23, 2021:** (b) "renewable energy systems" means systems that generate electricity or thermal energy through use of the following technologies: solar thermal, photovoltaics, on land and offshore wind, hydroelectric, geothermal electric, geothermal ground source heat, tidal energy, wave energy, ocean thermal, and fuel cells which do not utilize a fossil fuel resource in the process of generating electricity.	○	◉
7. Is the site located within a disadvantaged community, within a designated Brownfield Opportunity Area, and meets the conformance determinations pursuant to subdivision ten of section nine-hundred-seventy-r of the general municipal law? **From ECL 75-0111 as of April 9, 2022:** (5) "Disadvantaged communities" means communities that bear the burdens of negative public health effects, environmental pollution, impacts of climate change, and possess certain socioeconomic criteria, or comprise high-concentrations of low- and moderate-income households, as identified pursuant to section 75-0111 of this article.	◉	○

PART II. BROWNFIELD CLEANUP PROGRAM AMENDMENT	
EXISTING AGREEMENT INFORMATION	
BCP SITE NAME: 12096 Flatlands Avenue	BCP SITE CODE: C224290
NAME OF CURRENT APPLICANT(S): Innovative Urban Living, LLC	
INDEX NUMBER OF AGREEMENT: C224290-04-19	DATE OF ORIGINAL AGREEMENT 05/31/2019

Declaration of Amendment:

By the requestor(s) and/or applicant(s) signature(s) below, and subsequent signature by the Department, the above application to amend the Brownfield Cleanup Agreement described above is hereby approved. This Amendment is made in accordance with and subject to all of the BCA and all applicable guidance, regulations and state laws applicable thereto. All other substantive and procedural terms of the Agreement will remain unchanged and in full force and effect regarding the parties to the Agreement.

Nothing contained herein constitutes a waiver by the Department or the State of New York of any rights held in accordance with the Agreement or any applicable state and/or federal law or a release for any party from obligations held under the Agreement or those same laws.

STATEMENT OF CERTIFICATION AND SIGNATURES: NEW REQUESTOR

Complete the appropriate section (individual or entity) below only if this Amendment adds a new requestor. Attach additional pages as needed.

(Individual)

I hereby affirm that the information provided on this form and its attachments is true and complete to the best of my knowledge and belief. I am aware that any false statement made herein is punishable as a Class A misdemeanor pursuant to section 210.45 of the Penal Law. My signature below constitutes the requisite approval for the amendment to the BCA Application, which will be effective upon signature by the Department.

Re: Site Access to Perform Brownfield Cleanup Program Work
12096 Flatlands Avenue
Brooklyn Block 4434 Lot 10

Dear A.R. Bernard Sr.:

Innovative Urban Living, LLC submitted a Brownfield Cleanup Program ("BCP") Application to the New York State Department of Environmental Conservation to voluntarily investigate and remediate the following property: 12096 Flatlands Avenue, Brooklyn, New York 11207 (1.572 acres) Brooklyn Block 4434, Lot 10. The BCP Site is known as 12096 Flatlands Avenue, Site Code C224290 (the "BCP Site"). As you know, Christian Cultural Center, Inc. owns the BCP Site. IUV Phase I Owner, LLC is being added to the Brownfield Cleanup Agreement ("BCA") as a volunteer.

IUV Phase I Owner, LLC needs your written permission below to access your property for the purpose of performing environmental investigation and remediation work to be added to the BCA for this BCP Site.

If you agree to sign below, you are granting IUV Phase 1 Owner, LLC a "temporary license" to allow an appropriate contractor hired to enter the property to perform investigation and remediation work. They promise to provide you with copies of any information generated about the property, and if they do accidentally damage your property in any way, they agree to repair the damages to restore the property to the way it was before entered. Their contractor will also maintain insurance that would cover any accidents on the job. They promise to minimize any and all inconvenience to you in connection with this work and will give you one week notice before the work begins.

In addition, in the unlikely circumstance that you still own the BCP Site when the remediation is complete and the Certificate of Completion is about to be obtained, and a Track 1 remediation level is not achieved, you are hereby also agreeing to impose an environmental easement on the BCP Site if required by the New York State Department of Environmental Conservation. If you have any questions, please do not hesitate to call Stephen Strateman, our Project Manager at (212)599-0520. Otherwise, please sign below so that this work can proceed.

Thank you for your cooperation.

Sincerely,

GO UCL, LLC

EXHIBIT E

THE COUNCIL OF THE CITY OF NEW YORK
RESOLUTION NO. 401

Resolution approving the decision of the City Planning Commission on ULURP No. C 220312 ZMK, a Zoning Map amendment (Preconsidered L.U. No. 141).

By Council Members Salamanca and Riley

WHEREAS, Innovative Urban Living, LLC, filed an application pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 17d, changing from an R5 District to an R7-2 District, establishing within the proposed R7-2 District a C2-4 District, which in conjunction with the related actions would facilitate the construction of an approximately 1.93 million-square-foot mixed-use large-scale general development (LSGD) containing approximately 2,050 residential units, 98,000 square feet of community facility uses, 108,000 square feet of commercial space, four acres of public open space, and a public parking garage located in the East New York neighborhood of Brooklyn, Community District 5 (ULURP No. C 220312 ZMX) (the "Application");

WHEREAS, the City Planning Commission filed with the Council on October 17, 2022 its decision dated October 11, 2022 (the "Decision") on the Application;

WHEREAS, the Application is related to application N 220313 ZRK (L.U. No. 142), a zoning text amendment to designate a Mandatory Inclusionary Housing (MIH) area and to Appendix I to expand the boundary of Transit Zone 12 to include the project area; C 220311 ZSK (L.U. No. 145), a special permit to establish a LSGD and modify bulk regulations; C 220314 ZSK (L.U. No. 146), a special permit to allow a parking garage at the development site;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on October 25, 2022;

WHEREAS, the Council has considered the land use and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues, including the Positive Declaration issued January 31, 2020 (CEQR No. 20DCP057K) and a Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on September 30, 2022, in which potential significant adverse impacts related to hazardous materials, air quality, and noise would be avoided through the placement of (E) designations (E-679) on project site as specified in Chapter 10, Chapter 14, and Chapter 16, respectively, of the FEIS. The FEIS determined that the proposed actions could have significant adverse significant adverse impacts with respect to community facilities (early childhood programs and libraries), open space (temporary), transportation (traffic, subway, bus, pedestrian), noise and construction (traffic, noise); and the

identified significant adverse impacts and proposed mitigation measures are summarized in Chapter 20, "Mitigation" of the FEIS, and are included in the Restrictive Declaration.

RESOLVED:

Having considered the FEIS and Technical Memorandum with respect to the Decision and Application, the Council finds that:

1. The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

2. The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the actions that are set forth in this report; and

3. Consistent with social, economic and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and

4. The adverse environmental impacts disclosed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating, as conditions to the approval, pursuant to the restrictive declaration dated October 11, 2022, those project components related to environment and mitigation measures that were identified as practicable.

The Decision, together with the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in the report, C 220312 ZMK incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission.

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended by changing the Zoning Map, Section 17d:

1. changing from an R5 District to an R7-2 District property bounded by Flatlands Avenue, Pennsylvania Avenue, a line 295 feet southeasterly of Flatlands Avenue, a line 235 feet southwesterly of Pennsylvania Avenue, a line 370 feet southeasterly of Flatlands Avenue, a line 535 feet southwesterly of Pennsylvania Avenue, a line 550 feet southeasterly of

Flatlands Avenue, a line 245 feet northwesterly of Vandalia Avenue, and Louisiana Avenue; and

2. establishing within the proposed R7-2 District a C2-4 District bounded by Flatlands Avenue, Pennsylvania Avenue, a line 295 feet southeasterly of Flatlands Avenue, a line 235 feet southwesterly of Pennsylvania Avenue, a line 370 feet southeasterly of Flatlands Avenue, a line 535 feet southwesterly of Pennsylvania Avenue, a line 550 feet southeasterly of Flatlands Avenue, a line 245 feet northwesterly of Vandalia Avenue, and Louisiana Avenue;

as shown on a diagram (for illustrative purposes only) dated May 9, 2022, and subject to the conditions of CEQR Declaration E-679, Borough of Brooklyn, Community District 5.

Adopted.

Office of the City Clerk, }
The City of New York, } ss.:

I hereby certify that the foregoing is a true copy of a Resolution passed by The Council of The City of New York on November 22, 2022, on file in this office.

City Clerk, Clerk of The Council

THE COUNCIL OF THE CITY OF NEW YORK
RESOLUTION NO. 402

Resolution approving the decision of the City Planning Commission on Application No. N 220313 ZRK, for an amendment of the text of the Zoning Resolution (Preconsidered L.U. No. 142).

By Council Members Salamanca and Riley

WHEREAS, Innovative Urban Living, LLC, filed an application pursuant to Section 201 of the New York City Charter, for an amendment of the text of the Zoning Resolution of the City of New York, modifying APPENDIX F for the purpose of establishing a Mandatory Inclusionary Housing area and modifying APPENDIX I for the purpose of expanding the Transit Zone, which in conjunction with the related actions would facilitate the construction of an approximately 1.93 million-square-foot mixed-use large-scale general development (LSGD) containing approximately 2,050 residential units, 98,000 square feet of community facility uses, 108,000 square feet of commercial space, four acres of public open space, and a public parking garage located in the East New York neighborhood of Brooklyn, Community District 5 (ULURP No. N 220313 ZRK) (the "Application");

WHEREAS, the City Planning Commission filed with the Council on October 17, 2022, its decision dated October 11, 2022 (the "Decision"), on the Application;

WHEREAS, the Application is related to application C 2200312 ZMK (L.U. No. 141), a zoning map amendment to rezone an R5 zoning district to an R7-2/C2-4 zoning district; C 220311 ZSK (L.U. No. 145), a special permit to establish a LSGD and modify bulk regulations; C 220314 ZSK (L.U. No. 146), a special permit to allow a parking garage at the development site;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on October 25, 2022;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues, including the Positive Declaration issued January 31, 2020 (CEQR No. 20DCP057K) and a Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on September 30, 2022, in which potential significant adverse impacts related to hazardous materials, air quality, and noise would be avoided through the placement of (E) designations (E-679) on project site as specified in Chapter 10, Chapter 14, and Chapter 16, respectively, of the FEIS. The FEIS determined that the proposed actions could have significant adverse significant adverse impacts with respect to community facilities (early childhood programs and libraries), open space (temporary),

transportation (traffic, subway, bus, pedestrian), noise and construction (traffic, noise); and the identified significant adverse impacts and proposed mitigation measures are summarized in Chapter 20, "Mitigation" of the FEIS, and are included in the Restrictive Declaration.

RESOLVED:

Having considered the FEIS and Technical Memorandum with respect to the Decision and Application, the Council finds that:

1. The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

2. The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the actions that are set forth in this report; and

3. Consistent with social, economic and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and

4. The adverse environmental impacts disclosed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating, as conditions to the approval, pursuant to the restrictive declaration dated October 11, 2022, those project components related to environment and mitigation measures that were identified as practicable.

The Decision, together with the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in the report, N 220313 ZRK, incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission.

I hereby certify that the foregoing is a true copy of a Resolution passed by The Council of The City of New York on November 22, 2022, on file in this office.

.....
City Clerk, Clerk of The Council

THE COUNCIL OF THE CITY OF NEW YORK
RESOLUTION NO. 403

Resolution approving the decision of the City Planning Commission on ULURP No. C 220311 ZSK, for the grant of a special permit (L.U. No. 145).

By Council Members Salamanca and Riley

WHEREAS, Innovative Urban Living, LLC, filed an application pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to the following Sections of the Zoning Resolution Section 74-743(a)(2) of Zoning Resolution to modify: the side and rear yard regulations of Section 23-40 (YARD REGULATIONS), Section 23-50 (Additional Yard Regulations), Section 33-30 (OTHER SPECIAL PROVISIONS FOR REAR YARDS), and 35-50 (MODIFICATION OF YARD REGULATIONS); the height and setback requirements of Sections 23-66 (Height and Setback Requirements for Quality Housing Buildings), 23-69 (Special Height Limitations), and 35-65 (Height and Setback Requirements for Quality Housing Buildings); and the minimum distance between buildings regulations of Section 23-711 (Standard minimum distance between buildings); in connection with a proposed mixed-use development, within a Large-scale General Development generally bounded by Flatlands Avenue, Pennsylvania Avenue, a line 295 feet southeasterly of Flatlands Avenue, a line 235 feet southwesterly of Pennsylvania Avenue, a line 370 feet southeasterly of Flatlands Avenue, a line 535 feet southwesterly of Pennsylvania Avenue, a line 550 feet southeasterly of Flatlands Avenue, a line 245 feet northwesterly of Vandalia Avenue, and Louisiana Avenue (Block 4430, Lot 1, and Block 4434, Lots 1 & 10), in an R7-2/C2-4 District, which in conjunction with the related actions would facilitate the construction of an approximately 1.93 million-square-foot mixed-use large-scale general development (LSGD) containing approximately 2,050 residential units, 98,000 square feet of community facility uses, 108,000 square feet of commercial space, four acres of public open space, and a public parking garage located in the East New York neighborhood of Brooklyn, Community District 5 (ULURP No. C 220311 ZSK) (the "Application");

WHEREAS, the City Planning Commission filed with the Council on October 17, 2022, its decision dated October 11, 2022 (the "Decision") on the Application;

WHEREAS, the Application is related to application C 2200312 ZMK (L.U. No. 141), a zoning map amendment to rezone an R5 zoning district to an R7-2/C2-4 zoning district; N 220313 ZRK (L.U. No. 142), a zoning text amendment to designate a Mandatory Inclusionary Housing (MIH) area and to Appendix I to expand the boundary of Transit Zone 12 to include the project area; C 220314 ZSK (L.U. No. 146), a special permit to allow a parking garage at the development site;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d of the City Charter;

WHEREAS, the City Planning Commission has made the findings required pursuant to Section 74-743 of the Zoning Resolution of the City of New York;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on October 25, 2022;

WHEREAS, the Council has considered the land use and environmental implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues, including the Positive Declaration issued January 31, 2020 (CEQR No. 20DCP057K) and a Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on September 30, 2022, in which potential significant adverse impacts related to hazardous materials, air quality, and noise would be avoided through the placement of (E) designations (E-679) on project site as specified in Chapter 10, Chapter 14, and Chapter 16, respectively, of the FEIS. The FEIS determined that the proposed actions could have significant adverse significant adverse impacts with respect to community facilities (early childhood programs and libraries), open space (temporary), transportation (traffic, subway, bus, pedestrian), noise and construction (traffic, noise); and the identified significant adverse impacts and proposed mitigation measures are summarized in Chapter 20, "Mitigation" of the FEIS, and are included in the Restrictive Declaration.

RESOLVED:

Having considered the FEIS and Technical Memorandum with respect to the Decision and Application, the Council finds that:

1. The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

2. The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the actions that are set forth in this report; and

3. Consistent with social, economic and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and

4. The adverse environmental impacts disclosed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating, as conditions to the approval, pursuant to the restrictive declaration dated October 11, 2022, those project components related to environment and mitigation measures that were identified as practicable.

The Decision, together with the FEIS constitute the written statement of facts, and of

social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 201 of the City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in the report, C 220311 ZSK, incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission for the grant of a special permit pursuant to the following Sections of the Zoning Resolution, Section 74-743(a)(2), to modify:

1. the side and rear yard regulations of Section 23-40 (YARD REGULATIONS), Section 23-50 (Additional Yard Regulations), Section 33-30 (OTHER SPECIAL PPROVISIONS FOR REAR YARDS), and 35-50 (MODIFICATION OF YARD REGULATIONS);

2. the height and setback requirements of Sections 23-66 (Height and Setback Requirements for Quality Housing Buildings), 23-69 (Special Height Limitations), and 35-65 (Height and Setback Requirements for Quality Housing Buildings); and

3. the minimum distance between buildings regulations of Section 23-711 (Standard minimum distance between buildings);

in connection with a proposed mixed-use development, within a Large-scale General Development generally bounded by Flatlands Avenue, Pennsylvania Avenue, a line 295 feet southeasterly of Flatlands Avenue, a line 235 feet southwesterly of Pennsylvania Avenue, a line 370 feet southeasterly of Flatlands Avenue, a line 535 feet southwesterly of Pennsylvania Avenue, a line 550 feet southeasterly of Flatlands Avenue, a line 245 feet northwesterly of Vandalia Avenue, and Louisiana Avenue (Block 4430, Lot 1, and Block 4434, Lots 1 & 10), in an R7-2/C2-4 District, Borough of Brooklyn, Community District 5, as modified, is approved, subject to the following terms and conditions:

1. The property that is the subject of this application (C 220311 ZSK) shall be developed in size and arrangement substantially in accordance with the dimensions, specifications and zoning computations indicated on the following approved plans, prepared by Practice for Architecture Urbanism DPC and MPFP PLLC, filed with this application and incorporated in this Resolution:

2. Such development shall conform to all applicable provisions of the Zoning Resolution, except for the modifications specifically granted in this resolution and shown on the plans listed above which have been filed with this application. All zoning computations are subject to verification and approval by the New York City Department of Buildings.

3. Such development shall conform to all applicable laws and regulations relating to its construction, operation and maintenance

4. No development pursuant to this resolution shall be permitted until the Restrictive Declaration dated October 11, 2022 and executed by Innovative Urban Living, LLC, as a condition of the special permit, is recorded and filed in the Office of the Register of the City of New York, County of Kings. Such restrictive declaration shall be deemed incorporated herein.

5. The development shall include those project components related to the environment and mitigation measures identified in the Final Environmental Impact Statement (CEQR No. 20DCP057K) issued on September 30, 2022, and in accordance with the restrictive declaration attached hereto as Exhibit A.

6. In the event the property that is the subject of the application is developed as, sold as, or converted to condominium units, a homeowners' association, or cooperative ownership, a copy of this report and resolution and any subsequent modifications shall be provided to the Attorney General of the State of New York at the time of application for any such condominium, homeowners' or cooperative offering plan and, if the Attorney General so directs, shall be incorporated in full in any offering documents relating to the property.

7. All leases, subleases, or other agreements for use or occupancy of space at the subject property shall give actual notice of this special permit to the lessee, sub-lessee or occupant.

8. Upon the failure of any party having any right, title or interest in the property that is the subject of this application, or the failure of any heir, successor, assign, or legal representative of such party, to observe any of the covenants, restrictions, agreements, terms or conditions of this resolution and the restrictive declaration whose provisions shall constitute conditions of the special permit hereby granted, the City Planning Commission may, without the consent of any other party, revoke any portion of or all of said special permit. Such power of revocation shall be in addition to and not limited to any other powers of the City Planning Commission, or of any other agency of government, or any private person or entity. Any such failure as stated above, or any alteration in the development that is the subject of this application that departs from any of the conditions listed above, is grounds for the City Planning Commission or the City Council, as applicable, to disapprove any application for modification, cancellation or amendment of the special permit hereby granted or of the restrictive declaration.

9. Neither the City of New York nor its employees or agents shall have any liability for money damages by reason of the city or such employees or agents failure to act in accordance with the provisions of this special permit.

I hereby certify that the foregoing is a true copy of a Resolution passed by The Council of The City of New York on November 22, 2022, on file in this office.

.....
City Clerk, Clerk of The Council

THE COUNCIL OF THE CITY OF NEW YORK
RESOLUTION NO. 404

Resolution approving the decision of the City Planning Commission on ULURP No. C 220314 ZSK, for the grant of a special permit (L.U. No. 146).

By Council Members Salamanca and Riley

WHEREAS, Innovative Urban Living, LLC, filed an application pursuant to Sections 197-c and 201 of the New York City Charter for the special permit pursuant to Section 74-512 of the Zoning Resolution to allow an unattended public parking garage with a maximum capacity of 500 spaces within a proposed 7-story garage building, and to permit some of such spaces to be located on the roof of such public parking garage, in connection with a proposed mixed-use development, on property located at 12020 Flatlands Avenue (Block 4430, Lot 1, and Block 4434, Lots 1 & 10), in an R7-2/C2-4 District, which in conjunction with the related actions would facilitate the construction of an approximately 1.93 million-square-foot mixed-use large-scale general development (LSGD) containing approximately 2,050 residential units, 98,000 square feet of community facility uses, 108,000 square feet of commercial space, four acres of public open space, and a public parking garage located in the East New York neighborhood of Brooklyn, Community District 5 (ULURP No. C 220314 ZSK) (the "Application");

WHEREAS, the City Planning Commission filed with the Council on October 17, 2022, its decision dated October 11, 2022 (the "Decision") on the Application;

WHEREAS, the Application is related to application C 220312 ZMK (L.U. No. 141), a zoning map amendment to rezone an R5 zoning district to an R7-2/C2-4 zoning district; N 220313 ZRK (L.U. No. 142), a zoning text amendment to designate a Mandatory Inclusionary Housing (MIH) area and to Appendix I to expand the boundary of Transit Zone 12 to include the project area; and C 220311 ZSK (L.U. No. 145), a special permit to establish a LSGD and modify bulk regulations;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d of the City Charter;

WHEREAS, the City Planning Commission has made the findings required pursuant to Section 74-745(a) of the Zoning Resolution of the City of New York;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on October 25, 2022;

WHEREAS, the Council has considered the land use and environmental implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues, including the

Positive Declaration issued January 31, 2020 (CEQR No. 20DCP057K) and a Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on September 30, 2022, in which potential significant adverse impacts related to hazardous materials, air quality, and noise would be avoided through the placement of (E) designations (E-679) on project site as specified in Chapter 10, Chapter 14, and Chapter 16, respectively, of the FEIS. The FEIS determined that the proposed actions could have significant adverse significant adverse impacts with respect to community facilities (early childhood programs and libraries), open space (temporary), transportation (traffic, subway, bus, pedestrian), noise and construction (traffic, noise); and the identified significant adverse impacts and proposed mitigation measures are summarized in Chapter 20, "Mitigation" of the FEIS, and are included in the Restrictive Declaration.

RESOLVED:

Having considered the FEIS and Technical Memorandum with respect to the Decision and Application, the Council finds that:

1. The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

2. The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the actions that are set forth in this report; and

3. Consistent with social, economic and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and

4. The adverse environmental impacts disclosed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating, as conditions to the approval, pursuant to the restrictive declaration dated October 11, 2022, those project components related to environment and mitigation measures that were identified as practicable.

The Decision, together with the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in the report, C 220314 ZSK, incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission.

1. The property that is the subject of this application (C 220314 ZSK) shall be developed in size and arrangement substantially in accordance with the dimensions, specifications and zoning computations indicated on the following approved plans, prepared by Practice for Architecture Urbanism DPC & VHB, filed with this application and incorporated in this Resolution:

Drawing No.	Title	Last Date Revised
P-000	Public Parking Garage Plan - Zoning Lot	5/09/2022
P-100	Enlarged Public Parking Garage Plan	5/09/2022
P-101	Enlarged Public Parking Garage Plan - Level 1	5/09/2022
P-102	Enlarged Public Parking Garage Plan - Level 2 & 3	5/09/2022
P-103	Enlarged Public Parking Garage Plan - Level 4 & 5	5/09/2022
P-104	Enlarged Public Parking Garage Plan - Level 6 & 7	5/09/2022
P-105	Enlarged Public Parking Garage Plan - Roof	5/09/2022

2. Such development shall conform to all applicable provisions of the Zoning Resolution, except for the modifications specifically granted in this resolution and shown on the plans listed above which have been filed with this application. All zoning computations are subject to verification and approval by the New York City Department of Buildings.

3. Such development shall conform to all applicable laws and regulations relating to its construction, operation and maintenance

4. No development pursuant to this resolution shall be permitted until the Restrictive Declaration dated October 11, 2022 and executed by Innovative Urban Living, LLC, as a condition of the special permit, is recorded and filed in the Office of the Register of the City of New York, County of Kings. Such restrictive declaration shall be deemed

incorporated herein.

5. The development shall include those project components related to the environment and mitigation measures identified in the Final Environmental Impact Statement (CEQR No. 20DCP057K) issued on September 30, 2022, and in accordance with the restrictive declaration attached hereto as Exhibit A.

6. In the event the property that is the subject of the application is developed as, sold as, or converted to condominium units, a homeowners' association, or cooperative ownership, a copy of this report and resolution and any subsequent modifications shall be provided to the Attorney General of the State of New York at the time of application for any such condominium, homeowners' or cooperative offering plan and, if the Attorney General so directs, shall be incorporated in full in any offering documents relating to the property.

7. All leases, subleases, or other agreements for use or occupancy of space at the subject property shall give actual notice of this special permit to the lessee, sub-lessee or occupant.

8. Upon the failure of any party having any right, title or interest in the property that is the subject of this application, or the failure of any heir, successor, assign, or legal representative of such party, to observe any of the covenants, restrictions, agreements, terms or conditions of this resolution and the restrictive declaration whose provisions shall constitute conditions of the special permit hereby granted, the City Planning Commission may, without the consent of any other party, revoke any portion of or all of said special permit. Such power of revocation shall be in addition to and not limited to any other powers of the City Planning Commission, or of any other agency of government, or any private person or entity. Any such failure as stated above, or any alteration in the development that is the subject of this application that departs from any

of the conditions listed above, is grounds for the City Planning Commission or the City Council, as applicable, to disapprove any application for modification, cancellation or amendment of the special permit hereby granted or of the restrictive declaration.

9. Neither the City of New York nor its employees or agents shall have any liability for money damages by reason of the city or such employees or agents failure to act in accordance with the provisions of this special permit.

BROWNFIELD CLEANUP PROGRAM (BCP) APPLICATION TO AMEND BROWNFIELD CLEANUP AGREEMENT AND AMENDMENT

Please refer to the attached instructions for guidance on completing this application.

Submission of a full BCP application will be required should this application be determined to be a major amendment. If the amendment seeks to add or subtract more than an insignificant acreage of property to the BCA, applicants are encouraged to consult with the DEC project team prior to submitting this application.

PART I. BROWNFIELD CLEANUP AGREEMENT AMENDMENT APPLICATION

1. Check the appropriate box(es) below based on the nature of the amendment modification(s) requested:

☑ Amendment to modify the existing BCA (check one or more boxes below):

- ☑ Add applicant(s)
- ☐ Substitute applicant(s)
- ☐ Remove applicant(s)
- ☐ Change in name of applicant(s)

☐ Amendment to reflect a transfer of title to all or part of the brownfield site:

a. A copy of the recorded deed must be provided. Is this attached? Yes ◯ No ◯

b. ☐ Change in ownership ☐ Additional owner (such as a beneficial owner)

c. Pursuant to 6 NYCRR Part 375-1.11(d), a Change of Use form should have been submitted prior to a transfer of ownership. If this has not yet been submitted, include the form with this application. Is this form attached? Yes ◯ No ◯ Submitted on: _____

☐ Amendment to modify description of the property(ies) listed in the existing BCA

☐ Amendment to expand or reduce property boundaries of the property(ies) listed in the existing BCA

☐ Sites in Bronx, Kings, New York, Queens or Richmond Counties ONLY: amendment to request determination that the site is eligible for tangible property credit component of the brownfield redevelopment tax credit.

☐ Other (explain in detail below)

2. REQUIRED: Please provide a brief narrative describing the specific requests included in this amendment:

IUV Phase 1 LIHTC Owner LLC, the prospective beneficial owner of the BCA Site, is being added to the BCA. IUV Phase 1 LIHTC Owner LLC has no prior relationship with any current or past owners or operators of the Site. IUV Phase 1 LIHTC Owner LLC did not cause any of the contamination of the Site, therefore, IUV Phase 1 LIHTC Owner LLC is a Volunteer. Current Volunteers Innovative Urban Living, LLC and IUV Phase I Owner, LLC will remain parties on the BCA. Please see Ex. A DOS Entity Filing, Ex. B the LLC Organizational Chart and Ex. C the Certification Statement. Christian Cultural Center, Inc. remains the title owner of the BCP Site, however, on or before the date of the Construction Loan Closing, title of the Site will be transferred to Urban Living Alternatives, LLC and then will be immediately transfered to IUV Phase 1A Housing Development Fund Corporation. Urban Living Alternatives, LLC and IUV Phase 1A Housing Development Fund Corporation are not being added to the BCA at this time. Please see Ex. D Site Access Agreement and Ex. E for the Written Consents.

SECTION IV: NEW REQUESTOR ELIGIBILITY INFORMATION
Complete this section only if adding new requestor(s). Attach additional pages if necessary.

If answering "yes" to any of the following questions, please provide additional information as an attachment. Please refer to ECL § 27-1407 for details.

	Y	N
1. Are any enforcement actions pending against the requestor regarding this site?	○	◉
2. Is the requestor presently subject to an existing order for the investigation, removal or remediation relating to contamination at the site?	○	◉
3. Is the requestor subject to an outstanding claim by the Spill Fund for the site? Any questions regarding whether a party is subject to a spill claim should be discussed with the Spill Fund Administrator.	○	◉
4. Has the requestor been determined in an administrative, civil or criminal proceeding to be in violation of (i) any provision of the subject law; (ii) any order or determination; (iii) any regulation implementing ECL Article 27 Title 14; or (iv) any similar statute or regulation of the state or federal government? If so, provide additional information as an attachment.	○	◉
5. Has the requestor previously been denied entry to the BCP? If so, include information relative to the application, such as site name, address, DEC site number, reason for denial, and any other relevant information.	○	◉
6. Has the requestor been found in a civil proceeding to have committed a negligent or intentionally tortious act involving the handling, storing, treating, disposing or transporting or contaminants?	○	◉
7. Has the requestor been convicted of a criminal offense (i) involving the handling, storing, treating, disposing or transporting of contaminants; or (ii) that involves a violent felony, fraud, bribery, perjury, theft, or offense against public administration (as that term is used in Article 195 of the Penal Law) under federal law or the laws of any state?	○	◉
8. Has the requestor knowingly falsified statements or concealed material facts in any matter within the jurisdiction of the Department, or submitted a false statement or made use of or made a false statement in connection with any document or application submitted to the Department?	○	◉

SECTION IV: NEW REQUESTOR ELIGIBILITY INFORMATION (continued)	Y	N
9. Is the requestor an individual or entity of the type set forth in ECL 27-1407.9(f) that committed an act or failed to act, and such act or failure to act could be the basis for denial of a BCP application?	○	◉
10. Was the requestor's participation in any remedial program under DEC's oversight terminated by DEC or by a court for failure to substantially comply with an agreement or order?	○	◉
11. Are there any unregistered bulk storage tanks on-site which require registration?	○	◉

12. THE NEW REQUESTOR MUST CERTIFY THAT IT IS EITHER A PARTICIPANT OR VOLUNTEER IN ACCORDANCE WITH ECL § 27-1405(1) BY CHECKING ONE OF THE BOXES BELOW:

☐ PARTICIPANT	☑ VOLUNTEER
A requestor who either (1) was the owner of the site at the time of the disposal of contamination or (2) is otherwise a person responsible for the contamination, unless the liability arises solely as a result of ownership, operation of or involvement with the site subsequent to the disposal of contamination.	A requestor other than a participant, including a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site subsequent to the disposal of a hazardous waste or discharge of petroleum. NOTE: By checking this box, a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site certifies that they have exercised appropriate care with respect to the hazardous waste found at the facility by taking reasonable steps to: (i) stop any continuing discharge; (ii) prevent any threatened future release; (iii) prevent or limit human, environmental or natural resource exposure to any previously released hazardous waste. **If a requestor's liability arises solely as a result of ownership, operation of or involvement with the site, they must submit a statement describing why they should be considered a volunteer – be specific as to the appropriate care taken.**

	N/A	Y	N
13. If the requestor is a volunteer, is a statement describing why the requestor should be considered a volunteer attached?	○	◉	○

14. Requestor's relationship to the property (check all that apply):

☐ Prior Owner ☐ Current Owner ☐ Potential/Future Purchaser ☑ Other: Prospective Beneficial Owner

	N/A	Y	N
15. If the requestor is not the current site owner, proof of site access sufficient to complete the remediation must be submitted. Proof must show that the requestor will have access to the property before being added to the BCA and throughout the BCP project, including the ability to place an easement on the site. Is this proof attached?	○	◉	○

Site Code: C224290

SECTION V: PROPERTY DESCRIPTION AND REQUESTED CHANGES

Complete this section only if property is being added to or removed from the site, a lot merger or other change to site SBL(s) has occurred, or if modifying the site address for any reason.

3. TOTAL REVISED SITE ACREAGE: _____

4. For all changes requested in this section, documentation must be provided. Required attachments are listed in the application instructions. Is the required documentation attached?	Y ◯	N ◯

APPLICATION TO AMEND BROWNFIELD CLEANUP AGREEMENT AND AMENDMENT SUPPLEMENT QUESTIONS FOR SITE SEEKING TANGIBLE PROPERTY CREDITS IN NEW YORK CITY ONLY

Complete this section only if the site is located within the five counties comprising New York City and the requestor is seeking a determination of eligibility for tangible property credits. Provide supporting documentation as required. Refer to the application instructions for additional information.

	Y	N
1. Is the site located in Bronx, Kings, New York, Queens or Richmond County?	○	○
2. Is the requestor seeking a determination that the site is eligible for the tangible property credit component of the brownfield redevelopment tax credit?	○	○
3. Is at least 50% of the site area located within an environmental zone pursuant to Tax Law 21(6)? Please see DEC's website for more information.	○	○
4. Is the property upside down as defined below? **From ECL 27-1405(31):** "Upside down" shall mean a property where the projected and incurred cost of the investigation and remediation which is protective for the anticipated use of the property equals or exceeds seventy-five percent of its independent appraised value, as of the date of submission of the application for participation in the brownfield cleanup program, developed under the hypothetical condition that the property is not contaminated.	○	○
5. Is the project and affordable housing project as defined below? **From 6 NYCRR 375-3.2(a) as of August 12, 2016:** (a) "Affordable housing project" means, for purposes of this part, title fourteen of article twenty-seven of the environmental conservation law and section twenty-one of the tax law only, a project that is developed for residential use or mixed residential use that must include affordable residential rental units and/or affordable home ownership units. (1) Affordable residential rental projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which defines (i) a percentage of the residential rental units in the affordable housing project to be dedicated to (ii) tenants at a defined maximum percentage of the area median income based on the occupants' household's annual gross income. (2) Affordable home ownership projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which sets affordable units aside for homeowners at a defined maximum percentage of the area median income. (3) "Area median income" means, for purposes of this subdivision, the area median income for the primary metropolitan statistical area, or for the county if located outside a metropolitan statistical area, as determined by the United States Department of Housing and Urban Development, or its successor, for a family of four, as adjusted for family size.	○	○

APPLICATION SUPPLEMENT FOR NYC SITES (continued)	Y	N
6. Is the project a planned renewable energy facility site as defined below? **From ECL 27-1405(33) as of April 9, 2022:** "Renewable energy facility site" shall mean real property (a) this is used for a renewable energy system, as defined in section sixty-six-p of the public service law; or (b) any co-located system storing energy generated from such a renewable energy system prior to delivering it to the bulk transmission, sub-transmission, or distribution system. **From Public Service Law Article 4 Section 66-p as of April 23, 2021:** (b) "renewable energy systems" means systems that generate electricity or thermal energy through use of the following technologies: solar thermal, photovoltaics, on land and offshore wind, hydroelectric, geothermal electric, geothermal ground source heat, tidal energy, wave energy, ocean thermal, and fuel cells which do not utilize a fossil fuel resource in the process of generating electricity.	○	○
7. Is the site located within a disadvantaged community, within a designated Brownfield Opportunity Area, and meets the conformance determinations pursuant to subdivision ten of section nine-hundred-seventy-r of the general municipal law? **From ECL 75-0111 as of April 9, 2022:** (5) "Disadvantaged communities" means communities that bear the burdens of negative public health effects, environmental pollution, impacts of climate change, and possess certain socioeconomic criteria, or comprise high-concentrations of low- and moderate-income households, as identified pursuant to section 75-0111 of this article.	○	○

REQUESTOR CERTIFICATION

The Requestor, IUV Phase 1 LIHTC Owner LLC, certifies it is a Volunteer, since it does not own the Site, and does not have nor has ever had a relationship with any of the past owners or operators of the Site that caused the contamination of the Brownfield Cleanup Program ("BCP") 12096 Flatlands Avenue BCP Site No. C224290 with an address of 12096 Flatlands Avenue, Brooklyn, New York ("BCP Site"). Requestor did not have involvement with the Site at the time of disposal.

Re: Site Access to Perform Brownfield Cleanup Program Work
12096 Flatlands Avenue
Brooklyn Block 4434 Lot 10

Dear A.R. Bernard, Sr.:

Innovative Urban Living, LLC submitted a Brownfield Cleanup Program ("BCP") Application to the New York State Department of Environmental Conservation to voluntarily investigate and remediate the following property: 12096 Flatlands Avenue, Brooklyn, New York 11207 (1.572 acres) Brooklyn Block 4434, Lot 10. The BCP Site is known as 12096 Flatlands Avenue, Site Code C224290 (the "BCP Site"). As you know, Christian Cultural Center, Inc. owns the BCP Site. IUV Phase 1 LIHTC Owner LLC is being added to the Brownfield Cleanup Agreement ("BCA") as a volunteer.

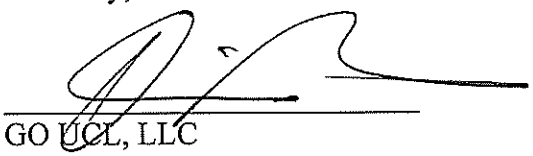
IUV Phase 1 LIHTC Owner LLC needs your written permission below to access your property for the purpose of performing environmental investigation and remediation work to be added to the BCA for this BCP Site.

If you agree to sign below, you are granting IUV Phase 1 LIHTC Owner LLC a "temporary license" to allow an appropriate contractor hired to enter the property to perform investigation and remediation work. They promise to provide you with copies of any information generated about the property, and if they do accidentally damage your property in any way, they agree to repair the damages and to restore the property to the way it was before entered. Their contractor will also maintain insurance that would cover any accidents on the job. They promise to minimize any and all inconvenience to you in connection with this work and will give you one week's notice before the work begins.

In addition, in the unlikely circumstance that you still own the BCP Site when the remediation is complete and the Certificate of Completion is about to be obtained, and a Track 1 remediation level is not achieved, you are hereby also agreeing to impose an environmental easement on the BCP Site if required by the New York State Department of Environmental Conservation. If you have any questions, please do not hesitate to call Stephen Strateman, our Project Manager, at (212)599-0520. Otherwise, please sign below so that this work can proceed.

Thank you for your cooperation.

Sincerely,



GO UCL, LLC
Managing Member of Innovative Urban Living, LLC

BROWNFIELD CLEANUP PROGRAM (BCP) APPLICATION TO AMEND BROWNFIELD CLEANUP AGREEMENT AND AMENDMENT

Please refer to the attached instructions for guidance on completing this application.

Submission of a full BCP application will be required should this application be determined to be a major amendment. If the amendment seeks to add or subtract more than an insignificant acreage of property to the BCA, applicants are encouraged to consult with the DEC project team prior to submitting this application.

PART I. BROWNFIELD CLEANUP AGREEMENT AMENDMENT APPLICATION

1. Check the appropriate box(es) below based on the nature of the amendment modification(s) requested:

☐ Amendment to modify the existing BCA (check one or more boxes below):

- ☐ Add applicant(s)
- ☐ Substitute applicant(s)
- ☐ Remove applicant(s)
- ☐ Change in name of applicant(s)

☑ Amendment to reflect a transfer of title to all or part of the brownfield site:

a. A copy of the recorded deed must be provided. Is this attached? Yes ◉ No ○

b. ☑ Change in ownership ☐ Additional owner (such as a beneficial owner)

c. Pursuant to 6 NYCRR Part 375-1.11(d), a Change of Use form should have been submitted prior to a transfer of ownership. If this has not yet been submitted, include the form with this application. Is this form attached? Yes ◉ No ○ Submitted on: _____

☐ Amendment to modify description of the property(ies) listed in the existing BCA

☐ Amendment to expand or reduce property boundaries of the property(ies) listed in the existing BCA

☐ Sites in Bronx, Kings, New York, Queens or Richmond Counties ONLY: amendment to request determination that the site is eligible for tangible property credit component of the brownfield redevelopment tax credit.

☐ Other (explain in detail below)

2. REQUIRED: Please provide a brief narrative describing the specific requests included in this amendment:

Current volunteer IUV Phase I Owner, LLC has an amended name of IUV Phase 1 Owner, LLC. See the Delaware and New York Certificates of Amendment attached as Exhibit A. Current volunteer IUV Phase 1 LIHTC Owner LLC has an amended name of IUV Phase 1 LIHTC Owner, LLC. See the Certificate of Amendment attached as Exhibit B. On 3/27/2024, Christian Cultural Center, Inc. transfered fee title of the BCP Site to Urban Living Alternatives, LLC, by deed recorded 4/1/2024. See Deed attached as Exhibit C. Immediately, thereafter, Urban Living Alternatives, LLC transfered title of the BCP Site to IUV Phase 1A Housing Development Fund Corporation as nominee for renamed volunteers IUV Phase 1 Owner, LLC and IUV Phase 1 LIHTC Owner, LLC. See the Deed attached as Exhibit D. Also on 4/1/2024, a Declaration of Interest and Nominee Agreement between IUV Phase 1A Housing Development Fund Corporation, IUV Phase 1 Owner, LLC and IUV Phase 1 LIHTC Owner, LLC was recorded. See the Agreement attached as Exhibit E. Therefore, IUV Phase 1A Housing Development Fund Corporation is the title owner of the Site and current renamed Volunteers, IUV Phase 1 Owner, LLC and IUV Phase 1 LIHTC Owner, LLC are the beneficial owners of the Site. In addition, an Application has been submitted to the City of New York to apply approximately 22 new addresses to the various planned structures on the site. However, the the overall property has been provided by the City Department of Buildings an address of 30 Inspiration Lane. See the Application for Street Numbers Attached as Exhibit F. Therefore, the Site address should now be known as 30 Inspiration Lane (f/k/a 12096 Flatlands Avenue and N/A Flatlands Avenue).

APPLICATION TO AMEND BROWNFIELD CLEANUP AGREEMENT AND AMENDMENT SUPPLEMENT QUESTIONS FOR SITE SEEKING TANGIBLE PROPERTY CREDITS IN NEW YORK CITY ONLY

Complete this section only if the site is located within the five counties comprising New York City and the requestor is seeking a determination of eligibility for tangible property credits. Provide supporting documentation as required. Refer to the application instructions for additional information.

	Y	N
1. Is the site located in Bronx, Kings, New York, Queens or Richmond County?	○	○
2. Is the requestor seeking a determination that the site is eligible for the tangible property credit component of the brownfield redevelopment tax credit?	○	○
3. Is at least 50% of the site area located within an environmental zone pursuant to Tax Law 21(6)? Please see DEC's website for more information.	○	○
4. Is the property upside down as defined below? **From ECL 27-1405(31):** "Upside down" shall mean a property where the projected and incurred cost of the investigation and remediation which is protective for the anticipated use of the property equals or exceeds seventy-five percent of its independent appraised value, as of the date of submission of the application for participation in the brownfield cleanup program, developed under the hypothetical condition that the property is not contaminated.	○	○
5. Is the project and affordable housing project as defined below? **From 6 NYCRR 375-3.2(a) as of August 12, 2016:** (a) "Affordable housing project" means, for purposes of this part, title fourteen of article twenty-seven of the environmental conservation law and section twenty-one of the tax law only, a project that is developed for residential use or mixed residential use that must include affordable residential rental units and/or affordable home ownership units. (1) Affordable residential rental projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which defines (i) a percentage of the residential rental units in the affordable housing project to be dedicated to (ii) tenants at a defined maximum percentage of the area median income based on the occupants' household's annual gross income. (2) Affordable home ownership projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which sets affordable units aside for homeowners at a defined maximum percentage of the area median income. (3) "Area median income" means, for purposes of this subdivision, the area median income for the primary metropolitan statistical area, or for the county if located outside a metropolitan statistical area, as determined by the United States Department of Housing and Urban Development, or its successor, for a family of four, as adjusted for family size.	○	○

APPLICATION SUPPLEMENT FOR NYC SITES (continued)	Y	N
6. Is the project a planned renewable energy facility site as defined below? **From ECL 27-1405(33) as of April 9, 2022:** "Renewable energy facility site" shall mean real property (a) this is used for a renewable energy system, as defined in section sixty-six-p of the public service law; or (b) any co-located system storing energy generated from such a renewable energy system prior to delivering it to the bulk transmission, sub-transmission, or distribution system. **From Public Service Law Article 4 Section 66-p as of April 23, 2021:** (b) "renewable energy systems" means systems that generate electricity or thermal energy through use of the following technologies: solar thermal, photovoltaics, on land and offshore wind, hydroelectric, geothermal electric, geothermal ground source heat, tidal energy, wave energy, ocean thermal, and fuel cells which do not utilize a fossil fuel resource in the process of generating electricity.	○	○
7. Is the site located within a disadvantaged community, within a designated Brownfield Opportunity Area, and meets the conformance determinations pursuant to subdivision ten of section nine-hundred-seventy-r of the general municipal law? **From ECL 75-0111 as of April 9, 2022:** (5) "Disadvantaged communities" means communities that bear the burdens of negative public health effects, environmental pollution, impacts of climate change, and possess certain socioeconomic criteria, or comprise high-concentrations of low- and moderate-income households, as identified pursuant to section 75-0111 of this article.	○	○

PART II. BROWNFIELD CLEANUP PROGRAM AMENDMENT	
EXISTING AGREEMENT INFORMATION	
BCP SITE NAME: 12096 Flatlands Avenue	BCP SITE CODE: C224290
NAME OF CURRENT APPLICANT(S): Innovative Urban Living, LLC, & renamed IUV Phase 1 Owner, LLC and IUV Phase 1 LIHTC Owner, LLC	
INDEX NUMBER OF AGREEMENT: C224290-04-19	DATE OF ORIGINAL AGREEMENT 05/31/2019

Declaration of Amendment:

By the requestor(s) and/or applicant(s) signature(s) below, and subsequent signature by the Department, the above application to amend the Brownfield Cleanup Agreement described above is hereby approved. This Amendment is made in accordance with and subject to all of the BCA and all applicable guidance, regulations and state laws applicable thereto. All other substantive and procedural terms of the Agreement will remain unchanged and in full force and effect regarding the parties to the Agreement.

Nothing contained herein constitutes a waiver by the Department or the State of New York of any rights held in accordance with the Agreement or any applicable state and/or federal law or a release for any party from obligations held under the Agreement or those same laws.

STATEMENT OF CERTIFICATION AND SIGNATURES: NEW REQUESTOR

Complete the appropriate section (individual or entity) below only if this Amendment adds a new requestor. Attach additional pages as needed.

BARGAIN AND SALE DEED WITHOUT COVENANT AGAINST GRANTOR'S ACTS THIS INDENTURE, made as of this 27th day of March, 2024

AMONG CHRISTIAN CULTURAL CENTER, INC. a New York not-for-profit corporation, with offices at 12020 Flatlands Avenue, Brooklyn, New York 11207, (the "**Grantor**"), and **URBAN LIVING ALTERNATIVES, LLC**, a New York limited liability company, with offices c/o Christian Cultural Center, Inc., with offices at 12020 Flatlands Avenue, Brooklyn, New York 11207, party of the second part ("**Grantee**"),

WITNESSETH, that the Grantor, in consideration of ten dollars and other valuable consideration paid by the Grantee, does hereby grant and release unto the Grantee, the heirs or successors and assigns of the Grantee forever,

ALL that certain plot, piece or parcel of land, with the buildings and improvements thereon erected, situate, lying and being in the City, County and State of New York, more commonly known as 30 Inspiration Lane, Brooklyn, New York and more particularly described on Exhibit A attached hereto and hereby made part hereof.

BEING part of the premises conveyed to Grantor by (i) that certain Indenture recorded on 07/03/2003, as CRFN 2003000210219; and (ii) that certain Indenture recorded 05/09/2007, as CRFN 2007000243812; and (iii) that certain confirmatory deed recorded 05/09/2007 as CRFN 2007000243813;

TOGETHER with all right, title and interest, if any, of the Grantor in and to any streets and roads abutting the above described premises to the center lines thereof;

TOGETHER with the appurtenances and all the estate and rights of the Grantor in and to said premises;

TO HAVE AND TO HOLD the premises herein granted unto the Grantee, the heirs or successors and assigns of the Grantee forever.

AND the Grantor, in compliance with Section 13 of the Lien Law, covenants that the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the total of the same for any other purpose. The word "party" shall be construed as if it read "parties" whenever the sense of this indenture so requires.

IN WITNESS WHEREOF, the Grantor has duly executed this deed the day and year first above written.

BARGAIN AND SALE DEED WITHOUT COVENANT AGAINST GRANTOR'S ACTS THIS INDENTURE, made as of this 27th day of March, 2024

AMONG URBAN LIVING ALTERNATIVES, LLC, a New York limited liability company, with offices at 12020 Flatlands Avenue, Brooklyn, New York 11207 ("**Grantor**"), and **IUV PHASE 1A HOUSING DEVELOPMENT FUND CORPORATION** a New York not-for-profit corporation, with offices c/o Christian Cultural Center, Inc., with offices at 12020 Flatlands Avenue, Brooklyn, New York 11207, ("**Grantee**"), as nominee for (i) **IUV PHASE 1 OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016, and (ii) **IUV PHASE 1 LIHTC OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016.

WITNESSETH, that the Grantor, in consideration of ten dollars and other valuable consideration paid by the Grantee, does hereby grant and release unto the Grantee, the heirs, beneficiaries or successors and assigns of the Grantee forever;

ALL that certain plot, piece or parcel of land, with the buildings and improvements thereon erected, situate, lying and being in the City, County and State of New York, more commonly known as 30 Inspiration Lane, Brooklyn, New York and more particularly described on Exhibit A attached hereto and hereby made part hereof;

BEING part of the premises conveyed to Christian Cultural Center, Inc., as predecessor-in-interest by (i) that certain Indenture recorded on 07/03/2003, as CRFN 2003000210219; and (ii) that certain Indenture recorded 05/09/2007, as CRFN 2007000243812; and (iii) that certain confirmatory deed recorded 05/09/2007 as CRFN 2007000243813;

BEING the same premises conveyed to Grantor by that certain Bargain and Sale Deed Without Covenants Against Grantor's Acts, dated as of the date hereof, and to be recorded immediately prior hereto in the Office of the Register of the City of New York, Kings County;

TOGETHER with all right, title and interest, if any, of the Grantor in and to any streets and roads abutting the above described premises to the center lines thereof;

TOGETHER with the appurtenances and all the estate and rights of the Grantor in and to said premises;

TO HAVE AND TO HOLD the premises herein granted unto the Grantee, the heirs or successors and assigns of the Grantee forever;

AND the Grantor, in compliance with Section 13 of the Lien Law, covenants that the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the total of the same for any other purpose. The

word "party" shall be construed as if it read "parties" whenever the sense of this indenture so requires.

IN WITNESS WHEREOF, the Grantor has duly executed this deed the day and year first above written.

DECLARATION OF INTEREST AND NOMINEE AGREEMENT

THIS DECLARATION OF INTEREST AND NOMINEE AGREEMENT (this "**Agreement**") by and among **IUV PHASE 1A HOUSING DEVELOPMENT FUND CORPORATION**, a New York not-for-profit corporation organized pursuant to Article XI of the Private Housing Finance Law of the State of New York ("**Article XI**") and Section 402 of the Not-for-Profit Corporation Law of the State of New York with an office at c/o Christian Cultural Center, Inc., 12020 Flatlands Avenue, Brooklyn, New York 11207 (the "**HDFC**"), and **IUV PHASE 1 OWNER, LLC**, a Delaware limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "**Retail Company**") and **IUV PHASE 1 LIHTC OWNER, LLC**, a Delaware limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "**Residential Company**", and together with the Retail Company, the "**Company**"), dated as of March 27, 2024 (the "**Agreement**").

WHEREAS, a fee interest in those certain plots, pieces or parcels of real property, lying and being in the County of Kings, New York, Block 4434 Lot 10 on the Tax Map of the City of New York, Kings County, as more particularly described within a metes and bounds description on Exhibit A, attached hereto and made a part hereof (the "**Property**") is being acquired this day the HDFC solely as legal and record title holder on behalf of the Retail Company, as equitable and beneficial owner of the Property; and

WHEREAS, the HDFC, the Retail Company, and the Residential Company desire to construct, develop, own, operate and manage a project consisting of a mixed-use building (the "**Building**"), and file a condominium declaration (the "**Declaration**") under Article 9-B of the New York Real Property Law establishing a two (2) unit condominium (each, a "**Condominium Unit**" or "**Unit**") to be comprised of (i) one condominium unit containing approximately 17,174 gross square feet of retail space and ancillary space thereto (the "**Retail Condo Unit**"); (ii) one condominium unit consisting of three hundred eight-five (385) rental apartments available to low- and moderate-income households and one (1) superintendent's apartment, eighty-two (82) parking spaces and ancillary space thereto (the "**Residential Condo Unit**") (collectively, all of the foregoing Condominium Units, together with common elements and limited common elements, are referred to as the "**Condominium**" and together with the Property, Building and other improvements, easements and development rights, the "**Project**"); and

WHEREAS, as of the date hereof, the Retail Company shall lease the space corresponding to the to-be-formed Residential Condo Unit to the Residential Company pursuant to that certain master lease by and between the HDFC, the Retail Company, and the Residential Company (the "**Master Lease**"), and pursuant to which a memorandum thereof is being recorded against the Property, which Master Lease will terminate upon the earlier of (i) the formation of the Condominium by recordation of the Declaration together with a written termination of the LIHTC Master Lease and (ii) 65 years from the date hereof; and

WHEREAS, in connection with the Loans and to ensure the rental of the apartment units in the Project to low-income and moderate-income individuals and families, the HDFC and Residential Company and Retail Company shall enter into (i) a regulatory agreement with the New

York State Housing Finance Agency ("HFA"), dated as of the date hereof (the "**LIHTC Regulatory Agreement**"), (ii) that certain Affordable Housing Regulatory Agreement with the City of New York, acting by and through the Department of Housing Preservation and Development ("**HPD**") dated as of the date hereof (the "**Affordable Housing Regulatory Agreement**"), and (iii) that certain Mandatory Inclusionary Housing Restrictive Declaration ("**MIH Restrictive Declaration**") by and among the Residential Company, as beneficial owner, and the HDFC, as record owner in connection with certain permanently affordable rental apartments located in the Project pursuant to the New York City Zoning Resolution ("**MIH Restrictive Declaration**", and together with LIHTC Regulatory Agreement, and the Affordable Housing Regulatory Agreement, collectively, the "**Regulatory Documents**"); and

WHEREAS, the Company and the HDFC desire that all beneficial and equitable interest in, to and with respect to fee interest in the Project be transferred to and held by the Retail Company, and that all beneficial and equitable interest in, to and with respect to leasehold estate in the Project created by the Master Lease be transferred to and held by the Residential Company, with the legal fee interest to the Project remaining in the HDFC in accordance with the terms of this Agreement and all other documents executed in connection with the construction financing and permanent financing for the Project and/or the Condominium Units (collectively, the "**Loan Documents**"); and

WHEREAS, the Retail Company, the Residential Company, and the HDFC desire to allocate rights, benefits, and obligations as to portions of the Project based on certain events in connection with the formation of the Condominium, as more specifically set forth in Paragraph 9.

WHEREAS, the HDFC, the Retail Company, and the Residential Company desire that notwithstanding the allocation of all equitable and beneficial interest in, to and with respect to the Project, the legal and record title to the Project, whether as to fee estate or leasehold estate, shall remain held by the HDFC; and

WHEREAS, the HDFC, the Retail Company, and Residential Company agree that the HDFC will hold legal and record titles to the Project solely as nominee on behalf of the Company in accordance with the terms of this Agreement; and

NOW, THEREFORE, in consideration of the premises, covenants and agreements herein contained, the adequacy of which are hereby acknowledged, the parties hereto jointly and severally covenant and agree as follows:

1. The Recitals and defined terms above are integrated herein as if set forth at length. Until such time as the Company shall elect to have record title transferred pursuant to Paragraph 6(e) hereof, record title to the Project shall be held by the HDFC, as the nominee, for and on behalf of the Company, it being understood that the beneficial ownership of the Project from the date hereof and at all times in the future, shall be vested in the Company, and its successors and assigns, and the HDFC does not, and shall not have, any personal or beneficial interest of any kind in the Project. The Company shall, at all times, have all the benefits, rights, approval, burdens and immunities accruing with respect to the Project. The HDFC

further acknowledges that the Company has furnished all of the consideration for acquiring and developing the Project, including financing obligations, and all of the rents, issues and profits of the Project, or any portion thereof shall at all times be the property of the Company.

2. The HDFC shall hold itself out to all third parties, whether by notice or other affirmative action pursuant to this Agreement, that the HDFC is acting solely as nominee of the Company with respect to the Project. The HDFC shall provide the Company with evidence of such notification reasonably satisfactory to the Company. The HDFC shall also obtain any written acknowledgments which are necessary and advisable from all interested third parties with respect to the HDFC holding title to the Project as nominee of the Company.

3. The beneficial and equitable interest in the Project shall accrue to the Company in a manner satisfactory to the Company, as may be provided by the terms of this Agreement, and such equitable and beneficial interest in the Project shall include, but is not limited, to the Company having an:

   a. unconditional obligation to bear all economic risk and benefit of depreciation and diminution in value of the Project due to obsolescence or exhaustion, and shall bear the risk of loss if the Project is destroyed or damaged;

   b. unconditional right to receive all economic benefits associated with the Project (i.e., appreciation and increase in value), including the right to retain all of the net proceeds from any sale or refinancing of the Project;

   c. unconditional obligation to keep the Project in good condition and repair;

   d. unconditional and exclusive right to the possession of the Project, inclusive of any subsequent air rights and/or transferrable development rights as may be benefit the Project from time to time pursuant to the Zoning Resolution of the City of New York (as amended) and as may be allocated pursuant to any zoning lot development agreement, zoning lot merger, large scale residential development plans, or other instruments and agreements;

   e. unconditional obligation to maintain insurance coverage on, and such reserves with respect to, the Project as may be required by the members of Company and/or any Lenders (as defined in Paragraph 6(f)) with respect to the Project, which coverage shall include the Lenders and CCC, each as additional insured, and the HDFC, as additional named insured (but if not available for any particular policy shall be an additional insured) ;

   f. unconditional and exclusive right to receive rent (including any rents paid on behalf of tenants by government program or subsidy) and any other income or profits, distributions, capital proceeds, liquidation

revenue, and economic rights from the operation and/or ownership of the Project;

g. unconditional obligation to pay for all of the capital investment in the Project;

h. unconditional obligation to pay for all development, financing, maintenance, repair, replacement and operating costs in connection with the Project;

i. unconditional right to develop residential units in the Project and to operate and manage the Project in accordance with this Agreement and any and all documents executed in connection with the financing, development, operation, regulation and management of the Project applicable to the Project, as such documents may be amended from time to time (the "**Project Documents**");

j. unconditional and exclusive right to enter into, with HDFC's full cooperation, conveyance documents, easement agreements, maintenance agreements, and to grant any and all easements in connection with the development and operation of the Project, provided that such documents do not violate the Project Documents;

k. unconditional obligation to bear all economic burdens of the Project, including, but not limited to, costs of insurance, condominium common charges, real estate and any other taxes, costs of capital, extraordinary and ordinary repairs and replacements, principal, interest and other costs of any indebtedness incurred in connection with the Project; and

l. unconditional and exclusive right to include all income earned from the operation of all or a portion the Project and claim all depreciation deductions and tax credits generated with respect to the Project on its annual federal, state and local tax returns, including but not limited to the right to claim the low-income housing tax credit described in Section 42 of the Internal Revenue Code of 1986, as amended, and the New York State low income housing tax credits under Article-A of the New York State Public Housing Law ("**LIHTCs**"), New York State brownfield tax credits ("**BTCs**") and amortize capital costs and to claim any other federal or state tax benefits attributable to the Project (and for the avoidance of doubt, such rights in this subparagraph (l) related to LIHTCs inure to and allocated to Residential Company as a present beneficial lessee of the LIHTC Master Lease and upon acquisition of beneficial interest in the Residential Condo Unit as provided for in Paragraph 21).

4. The HDFC shall not do any act with respect to the Project without the prior written consent of the Company.

5. So long as the HDFC shall hold record title to the Project:

a. any and all notices, statements and communications received by the HDFC, as holder of record title with respect to the Project, shall be promptly delivered to the Company;

b. all benefits, including any proceeds of title insurance received pursuant to the Title Policy or any other insurance proceeds under any other policy accruing with respect to the Project shall belong to the Company, and if received by the HDFC, shall be turned over to the Company promptly upon receipt;

c. the HDFC shall not do or suffer to be done, any act or omission with respect to the Project, or the record title thereto, or convey or encumber the same, in any way, except as directed by the Company, its successors and assigns; and

d. the HDFC shall comply with all directions which may be given to it by the Company with respect to the Project; provided, however, that the HDFC shall not be required to take any action as provided in this Agreement unless furnished with sufficient funds by the Company therefor.

e. the COMPANY shall be deemed an insured for the purposes of any owner's policy, if any, and the COMPANY shall be entitled to all proceeds of title insurance recoverable pursuant to same.

6. The Company and the HDFC on behalf of themselves, and their respective successors and assigns, who are recognized as "third party beneficiaries" hereunder, hereby jointly and severally represent, warrant, acknowledge, covenant and agree as follows:

a. So long as the HDFC holds record title in the Project, the Company shall have complete and exclusive possession and control of the Project and the HDFC shall not have any exclusive right to possess or control the Project.

b. The Company is the "owner", as that term is defined in Section 2 of the New York Lien Law, of the Project and the HDFC is not in any respects an "owner" of the Project for federal tax purposes under the New York Lien Law and the Company is the "owner" of the Project for federal tax purposes.

c. The HDFC has received and reviewed the Loan Documents, and acknowledges that any and all rights, title, interests and/or benefits the HDFC has under this Agreement are absolutely and completely subject and subordinate to any and all rights, benefits, terms, conditions and provisions contained in and/or created by the Loan Documents.

d. The HDFC shall have no power, right and/or authority to transfer, encumber, lien, and/or create or grant any rights and/or interests in or to all

or any portion of the Project, and/or any part or parts thereof without the written consent of the Company and any transfer, encumbrance, lien, right and/or interest purported to be created, granted, permitted and/or resulting from any action or inaction of the HDFC in connection with the Project, and/or any part or parts thereof, without said consent, shall be void, unenforceable and of no effect whatsoever and shall not be binding in any manner upon the Company.

Upon the written demand of the Company, the HDFC shall immediately execute and deliver to (i) the Company a deed or other conveyance, lease or assignment instrument transferring all or a portion of the Project, in proper recordable form transferring and conveying to the Company all of the HDFC's right, title and interest in and to the Project, and (ii) a termination of LIHTC Master Lease, in the event the LIHTC Master Lease is terminated, provided, however, that any consents required pursuant to any Project Documents shall have been obtained. The HDFC hereby unconditionally and unequivocally constitutes and appoints the Company to be its lawful and true agent and attorney-in-fact coupled with an interest, with full power of substitution to execute and record any such deed and any other documents or instruments required to convey the Project on behalf of the HDFC, in the name, place and stead of the HDFC with the same force and effect as if such deed was executed and recorded by the HDFC, provided, however, that any consents required pursuant to any and all city, state or federal loan documents or legal requirements, including but not limited to mortgages, regulatory agreements and financing commitments (collectively, the "**Government Financing Documents**"). The HDFC authorizes any third party to rely on the aforesaid power of attorney granted in the previous sentence and hereby waives and releases any claim or claims the HDFC may have against such third party in so relying on such power of attorney. The parties agree that the HDFC's failure to comply with the provisions of this Paragraph 6(e) shall cause irreparable harm to Company for which no adequate remedy at law will be available and, in addition to any other available remedies, Company shall be entitled to the right of specific performance in the event of a breach by the HDFC of the provisions of this Paragraph 6(e). Notwithstanding anything to the contrary herein, the HDFC shall be under no obligation to execute and/or deliver any deed, lease or other documents which violate Article XI of the Private Housing Finance Law of the State of New York or the Not-for-Profit Corporation Law of the State of New York.

HDFC hereby agrees at the direction of Company to promptly execute any and all documents necessary to grant any financial institution making loans pursuant to the Loan Documents, or the permanent conversion of such loans, or any other refinancing (as set forth below) to Company and/or the owner of the Residential Condo Unit (as allocated under this Agreement) (each such financial institution, being a "**Lender**") a mortgage or mortgages and any similar security interests on the fee and leasehold interests in the

Project, as well as any documents required to be executed by HDFC in connection with the financing, development, operation and management of the Project, provided that HDFC shall execute such documents for the sole purpose of encumbering its interest in the Project, provided further that HDFC shall not be obligated to execute any such documents that would violate the provisions of Article XI of the Private Housing Finance Law of the State of New York or the Not-for-Profit Corporation Law of the State of New York and provided further that all such mortgages and all notes secured by such mortgages shall be non-recourse to HDFC in its capacity as the bare legal or record title owner of the Project. HDFC hereby constitutes and appoints the Company to be its lawful and true agent and attorney-in-fact coupled with an interest, with full power of substitution to execute any documents or instruments deemed to be required to be executed by the Company, in connection with all aspects of the (i) construction financing, (ii) conversion of financing for the Property and/or Project from construction to permanent, and (iii) all refinancings of any such permanent financing, on the following conditions: (a) Company shall advise HDFC of the need to execute any such conversion documents or instruments on not less than ten (10) business days' notice; (b) should HDFC fail to comply with Company's request based upon a failure to respond, Company shall then have the right to execute all such documents or instruments in the name and on behalf of HDFC as if HDFC were the party executing the same, provided that the execution and delivery of such documents or instruments complies with the Project Documents, the Not-for-Profit Corporation Law of the State of New York, and HDFC's Certificate of Incorporation and by-laws. The Company recognizes the LIHTC Master Lease and the non-merger provision therein, and further restates that nothing in this Agreement shall cause or give rise to a merger of the Company's leasehold interests in the Project created by the LIHTC Master Lease by reason of fact that the Company or the same person, firm, corporation or other entity may acquire or own or hold, directly or indirectly the LIHTC Master Lease, or the record or equitable and beneficial sub-leasehold estate, created by the LIHTC Master Lease, this Agreement or any instrument creating or in furtherance of such record leasehold estate, and no such merger shall occur unless and until all persons, corporations, firms and other entities having an interest (including a security interest) in the LIHTC Master Lease, this Agreement or any other instrument that grants such record, leasehold estate, shall join in a written instrument effecting such merger.

e. The HDFC, in its capacity as nominal record owner, shall have no rights, powers and/or authority over, with respect to and/or in connection with the Project and/or any part or parts thereof in any bankruptcy or other proceeding in which the Company may hereafter be a party, and no shareholder, officer, trustee, receiver, administrator, legal representative, regulator or creditor of the HDFC shall have any right, power and/or authority over, with respect to and/or in connection with the Project, and/or any part or parts thereof.

f. The Company and the HDFC each have full power and authority to enter into this Agreement and to comply with all of the terms, provisions and conditions contained in this Agreement.

g. Neither the execution, delivery or recording of this Agreement, nor the fulfillment of or compliance with the terms, conditions or provisions of this Agreement conflicts with, violates or results in a breach of the terms, conditions or provisions of any agreement, instrument, law, rule or regulation of which the Company and/or the HDFC is now a party or by which either or both may be bound or affected or results in the creation of any lien, charge or encumbrance upon the Project and/or any part or parts thereof.

h. Any and all notices, demands and other communication made by either the Company or the HDFC to the other party shall be in writing and sent to the addresses as set forth above, and to Bank, HPD, HFA and Investor Member at the addresses below, by hand, by mail (registered, certified, return receipt requested) or by nationally recognized overnight courier:

7. The Company shall have the beneficial ownership of the Project for all purposes (including, federal income tax purposes) and shall have all rights related thereto including, but not limited to, the right to claim depreciation deductions with respect

to any depreciable property comprising a part of the Project, the right to amortize capital costs and to claim any other federal or state tax benefits attributable to the Project, the right to receive all proceeds from the Project, including from rents and other moneys from mortgages, pledges, sales, or other dispositions of the Project, and to all tax benefits, including depreciation and the LIHTCs (as set forth in Paragraph 3(l)). In addition thereto, it shall be in the sole and absolute discretion of the Company to develop, operate, manage, assign, encumber, transfer or sell the Project or any portion thereof or interest therein or any right or indicia of ownership in connection therewith, and at the request of the Company, the HDFC shall cooperate with the Company and execute any and all documents required by the Company in connection with the development, operation, management, assignment, encumbrance, transfer or sale of the Project or any portion thereof or interest therein, or any right or indicia of ownership in connection therewith. In furtherance of the foregoing, and without limitation, the HDFC shall transfer and convey the Project (or any portion thereof after formation of the Condominium), by deed or other conveyance, lease or assignment instrument, in connection with the transfer or sale of the Project or any portion thereof or any interest therein to any party designated by the Company.

8. The Company shall have all management authority and control over the Project, with respect to, but not by way of limitation, construction and development of the Project, performance and enforcement of all leases, agreements with regard to the sale of the Project or otherwise, and any covenants concerning the Project. The HDFC covenants and agrees to perform all acts reasonably requested by the Company in regard to or arising from the ownership, management and operation of the Project. The HDFC covenants and agrees to perform all acts reasonably requested by the Company in regard to or arising from the ownership, management and operation of the Project.

9. Indemnification of HDFC and CCC.

a. The Company shall fully protect, defend, indemnify, and hold the HDFC and Christian Cultural Center, Inc. ("**CCC**") harmless from and against any and all liabilities, obligations, claims, causes of action, judgments, damages, penalties, costs and expenses (including without limitation attorneys' fees and expenses) whether incurred in disputes, both litigated and non-litigated, with the Company or third parties arising out of or in any way relating to (a) ownership of the Project from and after the date of transfer of title to the Project to the HDFC, (b) the Project and/or the Project Documents, (c) the use or occupancy of the Project or (d) the enforcement of any obligation under any policy of insurance or indemnity provision provided in the Project Documents, except if arising from the willful misconduct or the gross negligence of the HDFC and/or CCC, or the HDFC's failure to perform its material obligations under this Agreement, (collectively, "**Claims**"). The foregoing indemnification shall include, but shall not be limited to Company's primary obligation to defend all Claims, whether or not groundless, on its own behalf and on behalf of all additional insureds, and

indemnification for Claims resulting from any (i) accident, injury to or death of persons or loss of or damage to property occurring in, on or about the Project or any part thereof or on the adjoining sidewalks, curb or any land for which COMPANY has a contractual obligation to indemnify; (ii) use, nonuse or condition in, on or about the Project or any part thereof; (iii) failure on the part of Company to perform or comply with any of the terms of the Project Documents or any applicable law, rule or regulation; (iv) performance of any labor or services or the furnishing of any materials or other property in respect of the Project or any part thereof; and/or (v) defect in the construction or condition or characteristics of the Project, whoever and whatever the cause. The Company shall include the HDFC and CCC as additional insured on any insurance policies secured by the Company with respect to its fee interest in the Project and insurance policies secured by the Company and/or Condominium board with respect to the Condominium.

b. The Company shall, to the fullest extent permitted by law, protect, defend, indemnify and save HDFC harmless from all liabilities, obligations, judgments, claims, damages, penalties, causes of action, costs and expenses (including without limitation reasonable attorneys' fees and expenses, whether incurred in litigation with the Company or with any third party), imposed upon or incurred by or asserted against HDFC by reason of (i) the presence, disposal, escape, seepage, leakage, spillage, discharge, emission, release or threatened release of any Hazardous Materials on, from or affecting the Project, (ii) any personal injury (including wrongful death) or property damage (real or personal) arising out of or relating to such Hazardous Materials, (iii) any lawsuit brought or threatened, settlement reached or government order relating to such Hazardous Materials or (iv) any violation of laws, orders, rules or regulations, requirements or demands of governmental authorities, or any policies or requirements of the HDFC that are based upon or in any way related to such Hazardous Materials including, without limitation, reasonable attorney or consultant fees, investigation and laboratory fees, court costs and litigation expenses, except if arising from the willful misconduct or the gross negligence of the HDFC, or the HDFC's failure to perform its obligations under this Agreement. Except to the extent such obligations and liabilities are terminated pursuant to the terms of the Loan documents, Company's obligations and liabilities under this section shall survive (x) completion of the Project and (y) any foreclosure involving the Project, or any part thereof, or HDFC's delivery of a deed in lieu of foreclosure. Hazardous Materials means, including by example but without limitation, any explosives, radioactive materials, hazardous materials, hazardous wastes, hazardous or toxic substances (or related or similar materials), asbestos or any material containing asbestos, lead paint or any other hazardous substance or material as defined by any Federal, state or local environmental law, ordinance, rule or regulation, including the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (42 U.S.C. Section 9601 et seq.), the

Hazardous Materials Transportation Act, as amended (49 U.S.C. Section 1801 et seq.), the Resource Conservation and Recovery Act, as amended (42 U.S.C. Paragraph 6901 et seq.) and the rules and regulations promulgated pursuant thereto.

c. In the event that any action or proceeding is brought against the HDFC and/or CCC, or each of their members, directors, and officers with respect to which indemnity may be sought under this Section, the Company shall assume the investigation and defense of such action or proceeding, including the employment of counsel selected by the Company, and shall assume the payment of all commercially reasonable attorney and legal expenses related thereto. The HDFC shall have the right, if it shall conclude in good faith that a conflict of interest exists, to employ separate counsel in any such action or proceeding and participate in the investigation and defense thereof, and the Company shall pay all actual and commercially reasonable fees and expenses of such separate counsel.

This Paragraph 9 shall survive the termination of this Agreement.

10. Laws. This Agreement shall be construed in accordance with the laws of the State of New York.

11. Binding on Successors and/or Assigns. This Agreement shall be binding upon and shall inure to the benefit of the parties hereto, and their respective successors and assigns. If any term or provision of this Agreement or the application thereof to any person or circumstance shall, to any extent, be invalid or unenforceable, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby, and each term and provision of this Agreement shall be valid and shall be enforced to the fullest extent permitted by law.

12. Communications. All formal notices given pursuant to this Agreement shall be in writing and sent by hand or by certified or registered mail, return receipt requested, or by reputable overnight courier, and addressed to the parties at their addresses set forth above.

13. Counterparts. This Agreement may be executed in one or more counterparts, and by different signatories hereto in separate counterparts, each of which when so executed shall be deemed to be an original, but all of which taken together shall constitute one and the same agreement.

14. Amendment. This Agreement may not be amended or revoked except by written instrument duly executed by each of the parties hereto and provided that, for long as GSB LIHTC Investor LLC or a controlled affiliate of Goldman Sachs Bank USA (the "Investor Member") is a member of the RESIDENTIAL COMPANY, this Agreement may not be modified, amended, terminated or revoked without the prior written consent of the Investor Member.

15. Venue; Jurisdiction. The Company and the HDFC hereby irrevocably submit to the non-exclusive jurisdiction of any New York State or Federal court sitting in The City of New York over any suit, action or proceeding arising out of or relating to this Agreement and/or the Loan Documents, and the Company and the HDFC hereby agree and consent that, in addition to any methods of service of process provided for under applicable law, all of service of process in any such suit, action or proceeding in any New York State or Federal court sitting in the City of New York may be made by certified or registered mail, return receipt requested, directed to the Company and the HDFC at the address indicated in the captioned agreement, and service so made shall become complete ten (10) days after the same shall have been so mailed.

16. Waiver of Jury Trial. Both the Company and the HDFC both hereby, knowingly, voluntarily, intentionally, expressly and unconditionally waive, in connection with any suit, action or proceeding, arising out of, under or in connection with this Agreement, any and every right either or both of them may have to **A TRIAL BY JURY**.

17. Severability. If any provision or part-provision of this Agreement is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this clause shall not affect the validity and enforceability of the rest of this Agreement.

18. HDFC Cure Right. Notwithstanding anything contained herein to the contrary, if there is an event of default under any Government Financing Document, the HDFC shall have the right to enter the Premises to cure the default as agent for and on behalf of the Company, provided that Company is not diligently acting to cure such default after notification to the Company.

19. Confirmatory Addendum. Upon formation of the Condominium, the parties hereto may, merely for purposes of clarification, record a confirmatory memorandum or addendum to this Agreement, confirming that the record fee title to the Condominium Units is held by the HDFC, the equitable and beneficial interest in the Retail Condo Unit is held by the Retail Company, and the equitable and beneficial interest in the Residential Condo Unit is held by the Residential Company.

20. The Company shall consult with the HDFC on any issues which significantly adversely impacts on the lifestyle or quality of life of the residents of the rental apartments within the Project (as determined by the Company in its reasonable discretion), provided such issues are not subject to and therefore determined by applicable laws or regulations, regulatory or other agreements with governmental agencies. Consultation shall mean providing the HDFC with written notice of the

issue, setting forth the Company's position on such issue and an opportunity for the HDFC to express its views on such issues in writing within a reasonable time, however the ultimate decision shall be made by the Company. For the avoidance of doubt, the Company's failure to consult with the HDFC on such decisions shall not be an event of default under any Project Document and the HDFC shall waive all rights it may have to bring litigation in law or equity, including, but not limited to, actions for injunctive relief in connection with the Company's failure to comply with this Section 19.

21. Allocation of Certain Equitable and Beneficial Interests after Condominium Formation; Springing Beneficial Interest.

(a) For the avoidance doubt, as of the date hereof and through the day prior to the date of recordation of the Declaration:

i. with respect to allocation of Project's interests (1) the Retail Company possesses the fee equitable and beneficial interests held by the Retail Company with respect to the entire Project (after giving effect to subparagraph 20(a)(iii) below), (2) the Residential Company possesses the leasehold equitable and beneficial interest in the to-be-formed Residential Condo Unit pursuant to the LIHTC Master Lease and pursuant to its terms shall be recognized as having all the benefits, rights and obligations hereunder granted to a "Company" and "Project", as provided in subparagraph 9(a)(ii)-(iii) below, and (3) the HDFC shall remain (y) the record fee owner of the Project, and (z) shall remain the record lessee owner of the Residential Condo Unit pursuant to the LIHTC Master Lease;

ii. the term "**Company**" used in the Agreement shall refer to (1) the Retail Company with respect to the fee equitable and beneficial interest in the Project, and (2) the Residential Company, which is a party to the LIHTC Master Lease and has received leasehold equitable and beneficial interest in the Residential Condo Unit, and for so long as the LIHTC Master Lease is in effect shall be recognized as having all the benefits, rights and obligations hereunder, as to its leasehold interest;

iii. the term "**Project**" shall mean (i) as to the HDFC and Retail Company's respective record and equitable and beneficial fee interests in the Project, and (ii) as to the HDFC and Residential Company's respective record and equitable and beneficial leasehold interests in the Residential Condo Unit or any portion of the Project that qualifies for and/or receives federal or state LIHTCs, BTCs and any other federal or state tax credits. It is further provided that the undersigned parties to this Agreement, being the same parties under the LIHTC Master Lease, recognize the grant of certain rights and benefits under the LIHTC Master Lease in the equitable and beneficial interests of certain portions of the Project from HDFC and Retail Company to HDFC and Residential Company.

(b) On and after the formation of the Condominium, as evidenced by recording of the Condominium Declaration:

i. with respect to allocation of Project's interests (1) the fee equitable and beneficial interests held by the Retail Company with respect to the Residential Condo Unit shall transfer, vest and be owned by the Residential Company, which shall be the fee equitable and beneficial owner for the Residential Condo Unit, and accordingly, the Retail Company shall no longer possess the fee equitable and beneficial interest in the Residential Condo Unit; the terms of this Agreement as between the HDFC and the Retail Company with respect to the Residential Condo Unit shall terminate as of the Condominium's recordation date, (2) the Retail Company shall remain the owner of the fee equitable and beneficial interests of the Retail Condo Unit, and (3) the HDFC shall remain (y) the record fee owner of the Residential Condo Unit, as nominee for Residential Company, and (z) shall remain the record fee owner of the Retail Condo Unit, as nominee for Retail Company; and

ii. the term "**Company**" used in the Agreement shall refer to (1) to the Residential Company, with respect to its fee equitable and beneficial interest in the Residential Condo Unit, and (2) to the Retail Company, with respect to its fee equitable and beneficial interest in the Retail Condo Unit;

iii. the term "**Project**" used in the Agreement shall refer (1) to the Retail Condo Unit and its appurtenant interests in the general common elements, limited common elements, improvements, easements and development rights, as to the HDFC and Retail Company's respective record and equitable and beneficial fee interests therein and (2) to the Residential Condo Unit and their appurtenant interests in the general common elements, limited common elements, improvements, easements and development rights, together with or any portion of the Project that qualifies and/or receives federal or state LIHTCs, each as to the HDFC and Residential Company's respective record and equitable and beneficial fee interests therein.

(c) After formation of the Condominium, the parties hereto may record a confirmatory memorandum or addendum ("**Confirmatory Addendum**") against the Project's Condominium Units, provided that no such instrument shall be necessary to execute or record in order to cause the preceding transfer of interests set forth in this Paragraph 20. The form of Confirmatory Addendum is attached hereto as **Exhibit 1**.

(d) After formation of the Condominium, the HDFC and the Residential Company may record a confirmatory deed ("**Confirmatory Deed**") evidencing the Residential Company's interest in the Residential Condo Unit.

22. Partial Termination as to Retail Condo Unit.

(a) The undersigned recognize that on the conversion of the construction financing to permanent financing for Residential Condo Unit, the Retail Condo Unit shall no longer be governed pursuant to this Agreement and the allocation of interests herein with respect thereto, and therefore (i) in connection with the rights under Paragraph 6(e) of this Agreement the HDFC shall execute a bargain and sale deed without covenants that conveys HDFC's bare record title interest to the Retail Condo Unit to Retail Company, substantially in the form as provided in **Exhibit 2**, and (ii) thereafter, the undersigned shall execute a partial termination of nominee agreement, substantially in the form as provided in **Exhibit 3**, where by the Retail Company shall no longer be party under this Agreement and the HDFC shall clarify it no longer holds any rights, benefits or obligations, except as those that may survive such partial termination.

EXHIBIT 1

FORM OF ADDENDUM TO
DECLARATION OF INTEREST AND NOMINEE AGREEMENT

This Addendum to Declaration of Interest and Nominee Agreement (the "**Addendum**") by and among **IUV PHASE 1A HOUSING DEVELOPMENT FUND CORPORATION**, a New York not-for-profit corporation organized pursuant to Article XI of the Private Housing Finance Law of the State of New York ("**Article XI**") and Section 402 of the Not-for-Profit Corporation Law of the State of New York with an office at [ ] (the "**HDFC**"), and **IUV PHASE 1 OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "Retail Company") and **IUV PHASE 1 LIHTC OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "**Residential Company**", and together with the Retail Company, the "**Company**"), dated as of _____ __, 202_ and effective as of the Effective Date (as such term is defined below).

WHEREAS, the HDFC, the Residential Company and the Retail Company entered into that certain Declaration of Interest and Nominee Agreement, dated as of [ ], 2024 and recorded in the Office of the City Register, Kings County on [ ], at CRFN 2024[xxx] (the "**Nominee Agreement**"), pursuant to which, as of the Effective Date, the HDFC is the nominal owner and the Retail Company is the beneficial and equitable owner of certain real property located at Block 4434, Lots [ ] on the Tax Map of the City of New York, Kings County ("**Tax Map**"), more commonly known by the street address 30 Inspiration Lane, Brooklyn, New York. Capitalized terms not defined herein shall have the meaning stated in the Nominee Agreement.

WHEREAS, as contemplated in the Nominee Agreement and Project Documents, a Condominium Declaration was recorded to establish the Condominium Units, and was submitted by the HDFC and Retail Company, recorded on _____ __, 202[_] in the Office of the City Register, Kings County in CRFN[_____] (the "**Condominium Declaration**"), and establishing a condominium known as [IUV PHASE 1A] Condominium and containing the following Condominium Units:

[*NOTE TO FORM: UPDATE TO FINAL CONDO SF*]

(i) one (1) condominium unit comprised of approximately 17,174 square feet of retail space and appurtenant common elements and limited common elements (the "**Retail Condo Unit**");

(ii) one (1) condominium unit consisting of three hundred eighty-five (385) rental apartments available to low- and moderate-income households, one (1) superintendent's unit, eighty-two (82) parking spaces and appurtenant common elements and limited common elements thereto (the "**Residential Condo Unit**")

(collectively, all of the foregoing units, (the "**Condominium Units**"), together with common elements and limited common elements, are referred to as the "**Condominium**"

SAMPLE

and together with the Property, Building, and other improvements, easements, and development rights, the "**Project**").

WHEREAS, as described in the Nominee Agreement, upon the recordation of the Condominium Declaration, (i) Residential Company is the sole fee beneficial and equitable owner of the Residential Condo Unit, (ii) Retail Company is the sole fee beneficial and equitable owner of the Retail Condo Unit, and (iii) HDFC remains as the fee owner of the Condominium Units in accordance with the terms of the Nominee Agreement.

NOW, THEREFORE, in consideration of the premises, covenants and agreements herein contained, the adequacy of which are hereby acknowledged, the parties hereto jointly and severally covenant and agree as follows:

1. Capitalized terms used herein and not defined shall be given the meaning provided to them in the Nominee Agreement. In the event of a conflict between terms defined herein and any similar terms defined in the Nominee Agreement, the defined term in this Addendum shall control.

The effective date of this Addendum shall be the date of recordation of the Condominium Declaration, which occurred on _____ __, 202_ (the "**Effective Date**").

2. With respect to the Residential Condo Unit and the Residential Company, from the Effective Date:

a. Sole fee equitable and beneficial ownership to the Residential Condo Unit (i.e. Lot 100[]), shall be held by the Residential Company, and the Retail Company shall have no interest with respect to the preceding Condominium Units;

b. references to the term "Project" shall mean the Residential Condo Unit, together with their appurtenant general common elements and limited common elements, including other improvements, easements and development rights;

c. references to the term "Company" shall mean the Residential Company;

d. references to the term "Property" shall mean the metes and bounds legal descriptions for the Residential Condo Unit, as provided in the applicable Appendices to this Addendum; and

e. the HDFC shall be the fee record interest owner in the Residential Condo Unit, as nominee for the Residential Company.

3. With respect to the Retail Condo Unit and the Retail Company, from the Effective Date:

SAMPLE

a. Sole fee equitable and beneficial ownership to the Retail Condo Unit shall be held by the Retail Company, and the Residential Company shall have no interest with respect to the Retail Condo Unit.

b. references to the term "Project" shall mean the Retail Condo Unit, together with their appurtenant general common elements and limited common elements, including other improvements, easements and development rights;

c. references to the term "Company" shall mean the Retail Company; and

d. references to the term "Property" shall mean the metes and bounds legal descriptions for the Retail Condo Unit, as provided in the applicable Appendices to this Addendum; and

e. the HDFC shall be the fee record interest owner in the Retail Condo Unit, as nominee for the Retail Company.

4. This Addendum may be executed in counterparts, each of which shall be deemed to be an original copy and all of which together shall constitute one agreement binding on all parties hereto, notwithstanding that all the parties shall not have signed the same counterpart.

[*signature page follows*]

IN WITNESS WHEREOF, the parties have caused this Addendum to be duly executed as of the date first written above.

BARGAIN AND SALE
DEED WITHOUT COVENANT
AGAINST GRANTOR'S ACTS

SAMPLE

THIS INDENTURE, made the [#] day of [MONTH] 202[ ],

IUV PHASE 1A HOUSING DEVELOPMENT FUND CORPORATION, a New York not-for-profit corporation organized pursuant to Article XI of the Private Housing Finance Law of the State of New York ("**Article XI**") and Section 402 of the Not-for-Profit Corporation Law of the State of New York with an office at 12020 Flatlands Avenue, Brooklyn, New York 11207 (the "**GRANTOR**"), and **IUV PHASE 1 OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "**GRANTEE**")

WITNESSETH, that the Grantor, in consideration of Ten and 00/100 Dollars and other valuable consideration paid by the Grantee, does hereby grant and release unto the Grantee, the heirs and successors and assigns of the Grantee forever, its bare record title interests to:

The unit in the premises designated and described as Unit [X] (hereinafter called the "Unit") in the Declaration (hereinafter called "**Declaration**") establishing the "[CONDO NAME] Condominium" pursuant to a plan for condominium ownership of said premises under Article 9-B of the Real Property Law of the State of New York (the "**Condominium Act**") made by [DECLARANT PARTIES] dated [MONTH] [#], 202[#] and recorded in the Kings County Office of the Register of the City of New York on [MONTH] [#], 202[#] as CRFN 202[XXXXXX], and also designated as Tax Lot [XXXX] in Block 4434 of the Borough of Manhattan on the Tax Map of the Real Property Assessment Department of the City of New York, and on the floor plans of said building certified by [ARCHITECT AS SIGNED ON PLANS], Registered Architect on [MONTH] [#], 202[#] and filed in said Real Property Assessment Department of the City of New York as Condominium Plan No. [####] and also filed on [MONTH] [#], 202[#] as CRFN 202[XXXXXX] in the aforesaid Register's Office. The premises within which the Unit is located are more particularly described in Schedule A attached hereto and made a part hereof. All capitalized terms herein which are not separately defined herein shall have the meanings given to those terms in the Declaration or in the By-Laws of the Condominium. (Said By-Laws, as the same may be amended from time to time, are hereinafter referred to as the "**By-Laws**".)

TOGETHER with an undivided [X.XX]% interest in the General Common Elements, as

described in the Declaration recorded as CRFN 202[XXXXXX].

TOGETHER with, and subject to, the rights, obligations, easements, restrictions and other provisions set forth in the Declaration and the By-Laws, all of which shall constitute covenants running with the Land and shall bind any person having at any time any interest or estate in (any of) the Unit, as though recited and stipulated at length herein. The Unit is to be used in accordance with the Declaration and By-Laws, for use in compliance with the Declaration and By-Laws. The Grantee accepts the provisions of the Declaration and the By-Laws (and any Rules and Regulations adopted under the By-Laws) and agrees to comply with all the terms and provisions thereof

TOGETHER with all right, title and interest, if any, of the Grantor in and to any streets and roads abutting the above described premises to the center lines thereof;

TOGETHER with the appurtenances, and all the estate and rights of the Grantor in and to said premises;

TO HAVE AND TO HOLD the premises herein granted unto Grantee, the heirs or successors and assigns of the Grantee forever.

AND, Grantor, in compliance with Section 13 of the Lien Law, covenants that the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the total of the same for any other purpose.

PARTIAL TERMINATION OF DECLARATION OF INTEREST AND NOMINEE AGREEMENT

THIS PARTIAL TERMINATION OF DECLARATION OF INTEREST AND NOMINEE AGREEMENT (the "**Partial Termination**"), made as of the _ day of November 2023 ("**Effective Date**"), by and among **IUV PHASE 1A HOUSING DEVELOPMENT FUND CORPORATION**, a New York not-for-profit corporation organized pursuant to Article XI of the Private Housing Finance Law of the State of New York ("**Article XI**") and Section 402 of the Not-for-Profit Corporation Law of the State of New York with an office at 12020 Flatlands Avenue, Brooklyn, New York 11207 (the "**HDFC**"), and **IUV PHASE 1 OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "**Retail Company**") and **IUV PHASE 1 LIHTC OWNER, LLC**, a New York limited liability company with an office at c/o Gotham Organization, Inc., 432 Park Avenue South, Second Floor, New York, NY 10016 (the "**Residential Company**", and together with the Retail Company, the "**Company**"), dated as of [MONTH] [#], 202[]. [NOTE TO FORM: ON OR BEFORE CONVERSION DATE]

WITNESSETH

WHEREAS, Residential Company, Retail Company and HDFC entered into that certain Declaration of Interest and Nominee Agreement dated as of [March 27, 2024] and recorded on [MONTH] [#], 202[#] as CRFN 201[XXXXXXXXX] in the Office of the New York City Register, Kings County (the "**Existing Nominee Agreement**"), in connection with the property previously known as Block 4434, Lot 10 (n/k/a Lots [XXXX]; [XXXX]; and [XXXX]) in the Tax Map of the City of New York, Kings County, as further described in Appendix A (the "**Property**"). Capitalized terms not defined herein shall have the definition as set forth in the Existing Nominee Agreement.

WHEREAS, Residential Company, Retail Company and HDFC (A) have substantially completed the construction of the mixed-use building at the Property, and (B) established a plan for a condominium ownership known as the Tremont Avenue Condominium ("**Condominium**"), under Article 9-B of the Real Property Law of the State of New York (the "Condominium Act") made by [DECLARANT PARTIES] dated [MONTH] [#], 202[#] and recorded in the Kings County Office of the Register of the City of New York on [MONTH] [#], 202[#] as CRFN 202[XXXXXX], and also designated as Tax Lot [XXXX] in Block 4434 of the Borough of Manhattan on the Tax Map of the Real Property Assessment Department of the City of New York, and on the floor plans of said building certified by [ARCHITECT AS SIGNED ON PLANS], Registered Architect on [MONTH] [#], 202[#] and filed in said Real Property Assessment Department of the City of New York as Condominium Plan No. [####] and also filed on [MONTH] [#], 202[#] as CRFN 202[XXXXXX] in the aforesaid Register's Office ("**Floor Plans**" and together with the Declaration, inclusive of all exhibits and schedules, the "**Condominium Documents**").

WHEREAS, as set forth in Paragraph 21 of the Existing Nominee Agreement upon the date of conveyance of Block 4434, Lot 1002 (aka the "**Retail Condo Unit**") to Retail Company,

DRAFT

its successor and/or assigns, together with Paragraph 6(e) of the Existing Nominee Agreement, as of the date of this Partial Termination, the HDFC is conveying by that certain Bargain and Sale Deed all of the bar record title, right, title and interests in Retail Condo Unit to Retail Company.

WHEREAS, on and after the Effective Date of this Partial Termination, (1) the Retail Condo Unit (as set forth in **Appendix B**) shall be released from encumbrance, rights and obligations of the Existing Nominee Agreement and shall terminate as to all references, rights, obligations with respect to the Retail Condo Unit, and further (2) the defined term "Project" in the Existing Nominee shall hereinafter solely refer to the Residential Condo Unit (i.e. Block 4434, Lots [XXXX] and [XXXX]) and its appurtenant interests (as set forth in **Appendix C**).

NOW, THEREFORE, for good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the parties agree as follows as of the Effective Date:

1. The Existing Nominee Agreement, solely with respect to the Retail Condo Unit and all of its appurtenant interests as set forth in the Condominium Documents is hereby canceled and terminate, provided however that the indemnification rights and obligations as set forth in Paragraph 11 of the Existing Nominee Agreement (in favor of HDFC), shall expressly survive this Partial Termination as an obligation on Retail Company.

2. This Partial Termination is governed by the internal laws of the State of New York without regard to conflicts of law principles.

3. This Partial Termination may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed to be an original and all of which taken together shall constitute but one and the same instrument.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

60-Day Advance Notification of Site Change of Use, Transfer of Certificate of Completion, and/or Ownership

Required by 6NYCRR Part 375-1.11(d) and 375-1.9(f)

To be submitted at least 60 days prior to change of use to:

Chief, Site Control Section
New York State Department of Environmental Conservation
Division of Environmental Remediation, 625 Broadway
Albany NY 12233-7020

I. Site Name: 12096 Flatlands Avenue **DEC Site ID No.** C224290

II. Contact Information of Person Submitting Notification:

Name: Linda R. Shaw, Esq., Knauf Shaw LLP

Address1: 2600 Innovation Square, 100 S. Clinton Ave

Address2: Rochester, New York 14604

Phone: (585) 546-8430 E-mail: lshaw@nyenvlaw.com

III. Type of Change and Date: Indicate the Type of Change(s) (check all that apply):

- [x] Change in Ownership or Change in Remedial Party(ies)
- [ ] Transfer of Certificate of Completion (CoC)
- [ ] Other (e.g., any physical alteration or other change of use)

Proposed Date of Change (mm/dd/yyyy): 3/27/2024

IV. Description: Describe proposed change(s) indicated above and attach maps, drawings, and/or parcel information.

On 3/27/2024, Christian Cultural Center, Inc. transfered fee title of the BCP Site to Urban Living ~~Alternatives, LLC, by deed recorded 4/1/2024. Immediately, thereafter, Urban Living Alternatives, LLC~~ transfered the title of the BCP Site to IUV Phase 1A Housing Development Fund Corporation as nominee ~~for Volunteers IUV Phase I Owner, LLC (renamed IUV Phase 1 Owner, LLC) and UV Phase 1 LIHTC~~ Owner LLC (renamed IUV Phase 1 LIHTC Owner, LLC). Also on 4/1/2024, a Declaration of Interest and

If "Other," the description must explain and advise the Department how such change may or may not affect the site's proposed, ongoing, or completed remedial program (attach additional sheets if needed).

Nominee Agreement between IUV Phase 1A Housing Development Fund Corporation, IUV Phase 1 Owner, LLC and IUV Phase 1 LIHTC Owner, LLC was recorded. Therefore, IUV Phase 1A Housing Development ~~Fund Corporation is the title owner of the Site and current renamed Volunteers, IUV Phase 1 Owner, LLC~~ and IUV Phase 1 LIHTC Owner, LLC are the beneficial owners of the Site. Please note that a BCA ~~Amendment Application was submitted to the DEC 2/21/2024~~, giving the DEC notice of the change in owner.

V. **Certification Statement:** Where the change of use results in a change in ownership or in responsibility for the proposed, ongoing, or completed remedial program for the site, the following certification must be completed (by owner or designated representative; see §375-1.11(d)(3)(i)):

I hereby certify that the prospective purchaser and/or remedial party has been provided a copy of any order, agreement, Site Management Plan, or State Assistance Contract regarding the Site's remedial program as well as a copy of all approved remedial work plans and reports.

Name: _____ (Signature) 5/22/2024 (Date)

David L. Picket, Authorized Signatory
(Print Name)

Address1: Innovative Urban Living, LLC, IUV Phase 1 LIHTC Owner, LLC and IUV Phase 1 Owner, LLC

Address2: 432 Park Avenue South, 2nd Floor, New York, New York 10016

Phone: (212) 599-0520 E-mail: smaleh@gothamorg.com

VI. **Contact Information for New Owner, Remedial Party, or CoC Holder:** If the site will be sold or there will be a new remedial party, identify the prospective owner(s) or party(ies) along with contact information. If the site is subject to an Environmental Easement, Deed Restriction, or Site Management Plan requiring periodic certification of institutional controls/engineering controls (IC/ECs), indicate who will be the certifying party (attach additional sheets if needed).

☑ Prospective Owner ☐ Prospective Remedial Party ☐ Prospective Owner Representative

Name: IUV Phase 1A Housing Development Fund Corporation (Title Owner), Jim Halek

Address1: c/o Christian Cultural Center, Inc. 12020 Flatlands Avenue

Address2: Brooklyn, New York 11207

Phone: (718) 306-1000 E-mail: jhalek@integritydevelopment.com

Certifying Party Name: David L. Picket

Address1: Innovative Urban Living, LLC, IUV Phase 1 LIHTC Owner, LLC and IUV Phase 1 Owner, LLC

Address2: 432 Park Avenue South, 2nd Floor, New York, New York 10016

Phone: (212) 599-0520 E-mail: smaleh@gothamorg.com

VII. **Agreement to Notify DEC after Transfer:** If Section VI applies, and all or part of the site will be sold, a letter to notify the DEC of the completion of the transfer must be provided. If the current owner is also the holder of the CoC for the site, the CoC should be transferred to the new owner using DEC's form found at http://www.dec.ny.gov/chemical/54736.html. This form has its own filing requirements (see 6NYCRR Part 375-1.9(f)).

Signing below indicates that these notices will be provided to the DEC within the specified time frames. If the sale of the site also includes the transfer of a CoC, the DEC agrees to accept the notice given in VII.3 below in satisfaction of the notice required by VII.1 below (which normally must be submitted within 15 days of the sale of the site).

Within 30 days of the sale of the site, I agree to submit to the DEC:

1. the name and contact information for the new owner(s) (see §375-1.11(d)(3)(ii));
2. the name and contact information for any owner representative; and
3. a notice of transfer using the DEC's form found at http://www.dec.ny.gov/chemical/54736.html (see §375-1.9(f)).

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Good morning, Steven, Andre, and Jane,

Thank you again for the call yesterday afternoon.

I wanted to follow up with you document a few of the discussion points. Can you kindly confirm if I have presented everything accurately?

- Based on the analytical results of the endpoint samples collected to date, the remedial action for the Site will change from a Track 1 Unrestricted remedy to a Track 2 Restricted Residential remedy.
- The entire site will be cut to a minimum of 15 feet below original ground surface.

- Over-excavation that would otherwise be required to achieve the originally-proposed Track 1 remedial excavation depth presented in the RAWP will not be completed.
- Six hotspots deeper than 15 feet that were identified in the RAWP in an effort to achieve a Track 1 remedy will not require remediation and will not be excavated.
- Endpoint sample collection will be completed at the base of the excavation for foundation construction.
- The FER must include a survey documenting the elevation of the 15-foot remedial excavation.
- The first draft of the FER will include all available endpoint sampling analytical results.
- Backfill below 15 feet must meet the lower of the Restricted Residential Restricted Use SCOs or the PGW SCOs.
- Department review of the environmental easement and IC-only SMP will proceed.

During the call, you mentioned a memo to file regarding the revision to the remedy. Would it be possible for the Volunteer to be copied on that memo for their records?

Thank you,

Amanda

Hi Steven,

I appreciate you getting back to us. I did see that Jane is out of the office in reply to my email.

Let's book the 9/4 3:30 pm slot.

Please let me know if you would like me to send a Teams invite.

NOTICE OF PERMIT ISSUANCE

Dear David Picket,

Enclosed is your Long Island Well permit for the above referenced project. It is effective beginning August 5, 2024, and expires on December 31, 2028.

Please read all permit conditions carefully. All permit documents must be available at the site upon request by Department staff and must be distributed to and understood by personnel responsible for the proper operation of the facility and compliance with the permit requirements. Any violation of these permit conditions constitutes a violation of the Environmental Conservation Law.

Please note that the maximum withdrawal rate authorized by this permit is 3,168,000 gallons per day.

If you have any administrative questions regarding this permit, please contact me via email (Caitlyn.nichols@dec.ny.gov). Technical questions should be directed to Atiqur Rahman in the Division of Water (atiqur.rahman@dec.ny.gov). Please refer to the above referenced number when you are corresponding with this office or when you are applying to renew or modify this permit.

Sincerely,

Caitlyn P. Nichols

LONG ISLAND WELL TEMPORARY DEWATERING PERMIT CONDITIONS

GENERAL CONDITIONS, APPLY TO ALL AUTHORIZED PERMITS

NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

LONG ISLAND WELL TEMPORARY DEWATERING PERMIT CONDITIONS

1. **Conformance With Plans** All activities authorized by this permit must be in strict conformance with the approved plans submitted by the applicant or applicant's agent as part of the permit application. Such approved plans were prepared by Cichetti Engineering PLLC, and the entities cited in Condition 2.

2. **Conformance with Plans- Addenda** In addition to any plans referenced in the Condition titled, "Conformance with Plans," the activities authorized by this permit must be in strict conformance with the following approved plans and/or submissions made as part of the permit application:

A. Drawing titled, "PE Sealed Plan," undated 3, signed and stamped by Matthew Cichetti, P.E., received by NYSDEC on November 8, 2022.

B. Project plans prepared by Matthew Cichetti, titled "1UV Phase 1A (AKA 12096 Flatlands Ave)," Drawing No. 2, signed and stamped by Matthew Cichetti, dated December 15, 2023, and received by NYSDEC on June 5, 2024.

C. Project plans prepared by Cichetti Engineering PLLC, titled "Dewatering Plan," stamped by Matthew Cichetti, P.E., Drawing No. DEW-100.00, Sheet 1 of 1, dated April 9, 2024, and received by NYSDEC on June 5, 2024.

D. Region 2 Long Island Well Dewatering System Detail Sheet, signed by Matthew Cichetti, P.E., dated June 4, 2024, and received by NYSDEC on June 5, 2024.

E. Revised application package received by NYSDEC on June 5, 2024, and addenda, received by NYSDEC on June 11, 2024, June 18, 2024, and June 19, 2024.

3. **Dewatering Wells, Pumps, Pump Capacities and Maximum Withdrawal** This permit authorizes the following:

- **Dewatering Method** – Deep well system
- **Dewatering Wells –** 34 (8" dia. & 60' deep)
- **Installed Pumps –** 34
- **Pump Capacity –** 7.5 HP
- **Maximum Withdrawal** – 3,168,000 Gallons Per Day (GPD) (total pumping for the project cannot exceed 2,200 Gallons Per Minute (GPM))

Any increase in the number of wells/wellpoints, pumps and/or pump capacity must be authorized, in writing, by the Division of Water. Depending on site conditions, a reduction in the number of wells or pumps does not require authorization. An increase to the maximum withdrawal rate authorized requires a permit modification.

4. **Notice of Intent to Commence Work** At least five (5) days prior to commencement of the permitted activity, Permittee must complete and submit the attached "Notice of Intent to Commence Work" via email to Atiq Rahman, NYSDEC Region 2 Division of Water (Atiqur.Rahman@dec.ny.gov).

5. **Notice of Completion of Work** Within ten (10) days of the completion of work, Permittee must complete and submit the attached "Notice of Completion of Work" form via email to Atiq Rahman, NYSDEC Region 2 Division of Water (Atiqur.Rahman@dec.ny.gov).

6. **Posting of NYSDEC Permit Sign** The attached NYSDEC permit sign shall be posted, protected from the weather, in a conspicuous outdoor location at the project site. This sign is to be posted for the duration of work authorized by this permit.

7. **Daily Pump Log** A daily pump log must be kept at the project site at all times. The pump log must be made available to authorized representatives of the Department during pumping operations.

8. **Installation of Piezometers and Groundwater Elevation Monitoring** Prior to dewatering, Permittee must install a total of 6 off-site piezometers outside the Support of Excavation (SOE) on the west, north, and eastern sides of the Site. The purpose of the piezometers is to measure changes in water table levels outside the SOE. Permittee must conduct groundwater elevation monitoring during system start-up until groundwater elevations have stabilized within the monitoring well network.

9. **Installation of Monitoring Wells** Based on water table elevation determined from piezometers, Permittee must install a total of 6 off-site groundwater monitoring wells outside of the SOE on the west, north and eastern sides of the site. The purpose of the monitoring wells is to determine if dewatering operations are pulling any groundwater contamination towards the Site. The monitoring wells must be installed in accordance with DER Monitoring Well Guidance and sampled on a quarterly basis for Target Compound List VOCs via USEPA Method 8260, USEPA SVOCS Method 8270, 1, 4-dioxane via EPA method 8270 SIM, and USEPA PFAS Method 537.1.

The Permittee must submit a copy of the analytical results once received to:

- Andre Obligado, NYSDEC Division of Environmental Remediation (andre.obligado@dec.ny.gov)
- Steven Wu, NYSDEC Division of Environmental Remediation (steven.wu@dec.ny.gov)

10. **Handling of Contaminated Groundwater** The permittee is fully responsible for proper handling and all costs associated with the proper sampling, treatment and disposal of any contaminated groundwater.

11. **Well Driller Registration** The dewatering operation shall be performed by Well Drillers duly registered in accordance with Section 15-1525 of the Environmental Conservation Law of the State of New York.

GENERAL CONDITIONS - Apply to ALL Authorized Permits:

1. Facility Inspection by The Department The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71- 0301 and SAPA 401(3).

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

2. Relationship of this Permit to Other Department Orders and Determinations Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

3. Applications For Permit Renewals, Modifications or Transfers The permittee must submit a separate written application to the Department for permit renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing. Submission of applications for permit renewal, modification or transfer are to be submitted to:

Regional Permit Administrator
NYSDEC Region 2 Headquarters
47-40 21st St
Long Island City, NY11101 -5401

4. Submission of Renewal Application The permittee must submit a renewal application at least 180 days before permit expiration for the following permit authorizations: Long Island Well Temporary Dewatering.

5. **Permit Modifications, Suspensions and Revocations by the Department** The Department reserves the right to exercise all available authority to modify, suspend or revoke this permit. The grounds for modification, suspension or revocation include:

a. materially false or inaccurate statements in the permit application or supporting papers;

b. failure by the permittee to comply with any terms or conditions of the permit;

c. exceeding the scope of the project as described in the permit application;

d. newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;

e. noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

6. **Permit Transfer** Permits are transferrable unless specifically prohibited by statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification
The permittee, excepting state or federal agencies, expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under Article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit
The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits
The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

TEMPORARY CONSTRUCTION DEWATERING
1UV Phase 1A Development
12096 Flatlands Ave
Brooklyn, NY 11207

Dear Mr. Rahman:

In accordance with Long Island Well Condition 4 of the referenced permit, I hereby serve notice to commence work on _____, 20____.

This is also to certify that, having read this entire permit, I am fully aware of and understand the general and Long Island Well conditions therein, and agree to comply with all such conditions. Further, I understand that prior to undertaking any modification to the permitted work, I must seek and receive written approval of the NYSDEC Regional Permit Administrator.

Brooklyn, NY 11231
Attn: Alphonse Lembo

Re: Groundwater Discharge, 1UV Phase 1A, 12096 Flatlands Avenue, Brooklyn, Letter of Approval No. 24-C-8187-1

Dear Alphonse Lembo:

This is in response to the December 28, 2023 and January 30 and February 5, 15, and 17, 2024 submissions requesting permission to discharge up to **4,320,000 gallons per day (gpd)** of groundwater generated during the construction of a new multi-story building located at 12096 Flatlands Avenue, Brooklyn, NY 11236 (New York State Department of Environmental Conservation Brownfield Cleanup Program Site Code C224290). The groundwater will be treated through three 18,000 gallon settling tanks, per provided schematic and information, before discharging to a new proposed underground pipe. The pipe leads to the existing 96" x 96" combined sewer located under Flatlands Avenue between Georgia and Sheffield Avenues in Brooklyn, NY.

Based upon the information, schematic and analytical data submitted, the property owner Christian Cultural Center Inc. and agents of the property owner who are authorized to act on the property owner's behalf in this matter (hereinafter referred to as "the owner and its authorized agents") are hereby conditionally authorized, to discharge up to 4,320,000 gpd of the groundwater, treated through the above system, per provided schematic and information, as specified in your submissions, **for a period of one year**, to the combined sewer at the above mentioned location. **This Letter of Approval shall expire at midnight on February 28, 2025.**

The owner and its authorized agents are prohibited from discharging any groundwater during wet weather events.

This conditional approval, however, is subject to your obtaining a groundwater discharge Approval, specifying allowable flow rates, from the Chief of Permitting and Compliance, Bureau of Water and Sewer Operations. The owner and its authorized agents are required to follow manufacturer specifications for the operation and maintenance of the selected equipment. **This Letter of Approval is contingent upon compliance on the part of the owner and its authorized agents with any federal, state, or local requirements applicable to the permitted activity.**

DocuSign Envelope ID: 34C4D633-E45F-46EB-A67F-A3CD2E10AB3C

Under no circumstances shall muddy water be discharged into the public sewer.

Payment shall be made to and permit obtained from the Bureau of Customer Service for groundwater discharge into the New York City Wastewater System in accordance with the Water and Wastewater Rate Schedule established by the New York City Water Board.

The owner or its authorized agents must install a flow meter to measure the flow of groundwater to the combined sewer.

The owner or its authorized agents must maintain a logbook of the groundwater discharge flow meter for each day of discharge. The logbook must include at a minimum: the date, time, flow meter reading (units in either cubic feet or gallons), difference from previous day's reading (units in either cubic feet or gallons), and employee's signature or initials. The logbook must be available to DEP personnel for review upon request.

The owner or its authorized agents must notify this section in writing prior to the commencement of discharge. Please refer to file No. C-8187 in any correspondence to this office.

The owner or its authorized agents must collect samples of the groundwater after the pretreatment system *in each quarter of the calendar year.* **The samples must be analyzed for the parameter(s) included in the attached chart by a New York State Department of Health certified laboratory. The results must be submitted to this office within 21 days after each sampling date. If the sampling results, or any other sampling results, exceed the DEP limits, the discharge must cease and the Bureau of Wastewater Treatment must be notified immediately by phone at (718) 595-4715 and by email at shulbert@dep.nyc.gov.**

The owner and its authorized agents are prohibited from discharging any groundwater that exceeds the attached discharge limit(s), as well as those contained in Title 15 Rules of the City of New York Chapter 19.

This Letter of Approval is an Order of the Commissioner of the Department of Environmental Protection, and applies to the owner and its authorized agents. Please be advised that failure to comply with this Letter of Approval by the owner and its authorized agents may result in the issuance of summonses to either the owner or its authorized agents, or both (returnable to the New York City Office of Administrative Trials and Hearings) and/or revocation of the Letter of Approval. Summonses carry penalties of up to $10,000 a day, per violation.

DocuSign Envelope ID: 34C4D633-E45F-46EB-A67F-A3CD2E10AB3C

If you have any questions concerning this matter, please contact me at (718) 595-4715 or shulbert@dep.nyc.gov.

Sincerely,

Sean Hulbert

Sean H. Hulbert, P.E., Acting Chief, Industrial Resource Management and Permitting Section

Total Solids	---	---	Instantaneous	---
Other				

1 All handling and preservation of collected samples and laboratory analyses of samples shall be performed in accordance with 40 C.F.R. pt. 136. If 40 C.F.R. pt. 136 does not cover the pollutant in question, the handling, preservation, and analysis must be performed in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater." All analyses shall be performed using a detection level less than the lowest applicable regulatory discharge limit. If a parameter does not have a limit, then the detection level is defined as the method detection limit (MDL) and limit of quantitation (LOQ) required by the analytical method that is used to analyze the parameter. If the method does not contain an MDL or LOQ, the lab must use an approved method that does contain an MDL or LOQ. If none of the approved methods contain an MDL or LOQ for that parameter then the lab must develop its own LOQ, and report it with the analytical results.

2 Non-Polar Material shall mean that portion of the oil and grease that is not eliminated from a solution containing N–Hexane, or any other extraction solvent the EPA shall prescribe, by silica gel absorption.

3 Analysis for PCB's must be done by EPA method 608 with MDL=<65 ppt. PCB's (total) is the sum of PCB-1242 (Aroclor 1242), PCB-1254 (Aroclor 1254), PCB-1221 (Aroclor 1221), PCB-1232 (Aroclor 1232), PCB-1248 (Aroclor 1248), PCB-1260 (Aroclor 1260) and PCB-1016 (Aroclor 1016).

4 Total Nitrogen = Total Kjeldahl Nitrogen (TKN) + Nitrite (NO_2) + Nitrate (NO_3).

VI. Conditions of Acceptance/Approval and Additional Information

The amended approval is to change the owner and developer listed in the application.

The Developer's Certification in the SWPPP is signed by the previous Developer, Simeon Maleh, Ensure that Developer's Certification is signed by the current developer, David Picket, and is present in the site log book.

All other conditions and notations remain the same.

The Permit Initiation must be completed and a New Construction Permit Pulled

This project is in the combined sewer service area, do not file for coverage with New York State Department of Environmental Conservation.

This project requires a Certified Site Connection Proposal prior to issuance of the Stormwater Construction Permit. A copy of the Certified site connection proposal must be uploaded by the owner or developer with the permit initiation. The Certified Site connection will be checked for consistency with the approved plan, any changers must be filed as an amendment in the SWPTS.

A copy of the recorded Stormwater Maintenance Easement including the signed and sealed Recording and Endorsement Cover Page, must be uploaded by the owner or developer with the Permit Initiation form.

Dewatering Plan/Permit by Contractor prior to construction permit being issued.
Signed and Sealed Remedial Action Work Plan (RAWP) must be uploaded at Permit Initiation.

Projects in the MS4 area must submit a copy of this SWPPP Acceptance with a Notice of Intent for coverage under the NY SPDES General Permit for Stormwater Discharges from Construction Activity to: NYS Department of Environmental Conservation, Division of Water; 625 Broadway, 4th Floor; Albany, New York 12233-3505.

Photographic Log
12096 Flatlands Avenue Site
Brooklyn, New York

Photo 1: United excavating material in the northern portion of the Site, facing northwest. 18 April 2024.

Photo 2: United excavating material in the northern portion of the Site, facing north. 18 April 2024.

Photo 3: United excavating material in the northern portion of the Site, facing north. 18 April 2024.

Photo 4: United excavating material in the northern portion of the Site, facing northeast. 18 April 2024.

Photo 5: Truck wash station in the eastern portion of the Site at the Pennsylvania Avenue exit, facing southeast. 19 April 2024

Photo 6: Excavated material in the northern portion of the Site, facing northeast. 19 April 2024

Photo 7: United excavating material within the northeastern portion of the Site, facing south. 19 April 2024

Photo 8: United excavating material from the northwestern portion of the Site, facing north. 24 April 2024.

Photo 9: United excavating in the southern portion of the Site, facing west. 5 June 2024.

Photo 10: United loading material from ST-11 for off-Site disposal to Clean Earth Philadelphia, facing north. 14 May 2024.

Photo 11: United excavating in the northern portion of the Site, facing south. 17 May 2024.

Photo 12: United excavating in the southern portion of the Site, facing south. 3 June 2024.

Photo 13: United excavating in the western portion of the Site, facing south. 10 June 2024.

Photo 14: UST-1 encountered in the northern portion of the Site, facing southeast. 19 April 2024.

Photo 15: UST-2 encountered in the northern portion of the Site. 23 April 2024.

Photo 16: Sludge observed near UST-3 encountered beneath the former sidewalk along the southeastern portion of the Site. 23 April 2024.

Photo 17: UST-3 encountered beneath the former sidewalk along the southeastern portion of the Site, facing east. 23 April 2024.

Photo 18: Brookside removing oil/water mixture from UST-2, facing east. 24 April 2024.

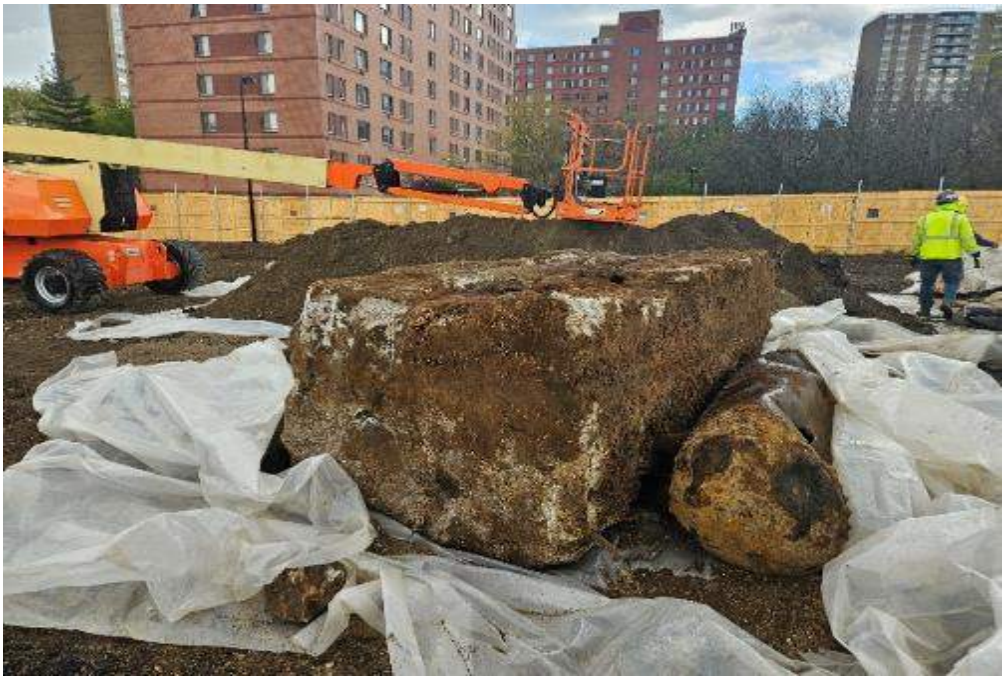

Photo 19: UST-1, UST-2 and UST-3 placed on polyethylene sheeting within the southern portion of the Site, facing south. 24 April 2024.

Photo 20: Brookside cleaning UST-1, facing southwest. 29 April 2024.

Photo 21: UST-4 through UST-11 encountered in in the northeastern portion of the Site, facing east. 8 May 2024.

Photo 22: Brookside using a vacuum truck to remove oil/water mixture from UST-10, facing south. 9 May 2024.

Photo 23: United excavating in the northeastern portion of the Site near UST-4 through UST-11, facing south. 9 May 2024.

Photo 24: United removing UST-4 through UST-11 for future cleaning, facing southeast. 10 May 2024.

Photo 25: View of UST-4 through UST-11 and the surrounding soil stockpiled on and covered with polyethylene sheeting, facing east. 10 May 2024.

Photo 26: Brookside cleaning UST-4 through UST-11, facing northwest. 13 May 2024.

Photo 27: Brookside cleaning UST-4 through UST-11, facing north. 13 May 2024.

Photo 28: Brookside cleaning USTs, facing north. 13 May 2024.

Photo 29: Brookside cleaning USTs, facing northwest. 13 May 2024.

Photo 30: United installing soil mix wall along the northeastern boundary of the Site, facing northwest. 25 April 2024.

Photo 31: United installing soil mix wall along the eastern boundary of the Site. 25 April 2024.

Photo 32: United installing the soil mix wall in the northern boundary of the Site, facing east. 6 May 2024.

Photo 33: United pouring concrete over the completed soil mix wall, facing southwest. 20 May 2024.

Photo 34: United installing sheet piles along the southern boundary of the Site, facing southwest. 6 May 2024.

Photo 35: Sheet pile installation, facing southeast. 10 May 2024.

Photo 36: United driving sheet piles in the western portion of the Site, facing south. 13 May 2024.

Photo 37: United installing sheet piles in the northeastern portion of the Site, facing east. 22 May 2024.

Photo 38: United installing walers in the southeastern portion of the Site, facing southeast. 12 July 2024.

Photo 39: United installing walers in the northeastern portion of the Site, facing east. 8 August 2024.

Photo 40: United placing imported 1.5-inch stone in the eastern portion of the Site, facing east. 14 May 2024.

Photo 41: Morris-Shea installing test piles in the northern portion of the Site, facing northeast. 11 June 2024.

Photo 42: Morris-Shea setting up for pile installation in the northern portion of the Site, facing east. 19 June 2024.

Photo 43: Morris-Shea installing deep foundation piles in the northeastern portion of the Site, facing west. 11 July 2024.

Photo 44: Morris-Shea installing deep foundation piles in the central portion of the Site, facing north. 22 July 2024.

Photo 45: Morris-Shea drilling deep foundation piles in the eastern portion of the site, facing northeast. 26 July 2024.

Photo 46: United excavating to facilitate the cutting of test piles in the eastern portion of the Site, facing northeast. 7 August 2024.

Photo 47: Morris-Shea installing deep foundation piles in the southern portion of the Site, facing west. 8 August 2024.

Photo 48: Morris-Shea installing deep foundation piles in the southern portion of the Site, facing east. 22 August 2024.

Photo 49: ADG installing a dewatering well in the northern portion of the Site, facing northeast. 20 June 2024.

Photo 50: ADG installing a dewatering well in the southern portion of the Site, facing north. 17 July 2024.

Photo 51: Dewatering PVC header pipes connected to the previously installed combined sewer connection, facing west. 26 July 2024.

Photo 52: Network of PVC piping across the northern portion of the Site for the dewatering system, facing south. 14 August 2024

Photo 53: ADG installing submersible pumps, facing north. 4 September 2024.

Photo 54: United excavating in the northwestern portion of the Site, facing southwest. 30 July 2024

Photo 55: United excavating in the northeastern portion of the Site, facing south. 13 August 2024.

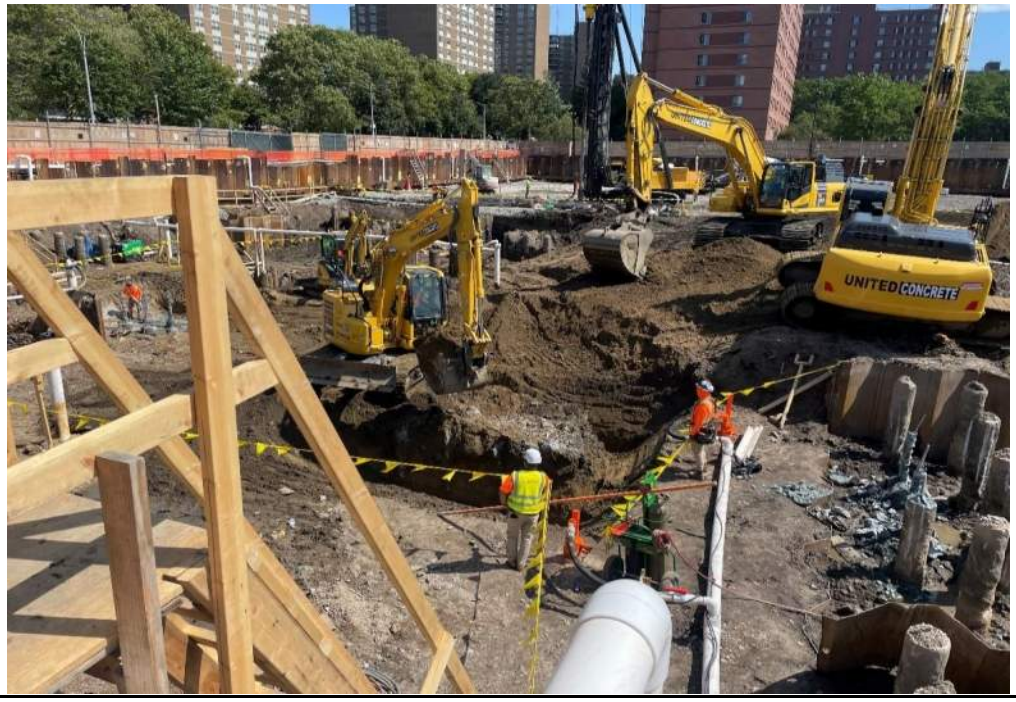

Photo 56: United excavating in the northeastern portion of the Site, facing south. 20 August 2024.

Photo 57: United excavating in the southwestern portion of the Site, facing north. 5 September 2024.

Photo 58: United excavating in the eastern portion of the Site, facing south. 12 September 2024.

Photo 59: United excavating in the western portion of the Site, facing south. 14 September 2024

Photo 60: United excavating in the eastern portion of the Site, facing north. 2 October 2024.

Photo 61: United excavating around pile caps in the eastern portion of the Site, facing south. 11 October 2024.

Photo 62: United excavating in the southeastern portion of the Site, facing northwest. 11 November 2024.

Photo 63: United excavating in the southern portion of the Site, facing northwest. 18 November 2024.

Photo 64: United installing Preprufe waterproofing / vapor barrier in the northern portion of the Site, facing north. 6 September 2024.

Photo 65: United installing Preprufe waterproofing / vapor barrier in the northeastern portion of the Site, facing northeast. 18 September 2024.

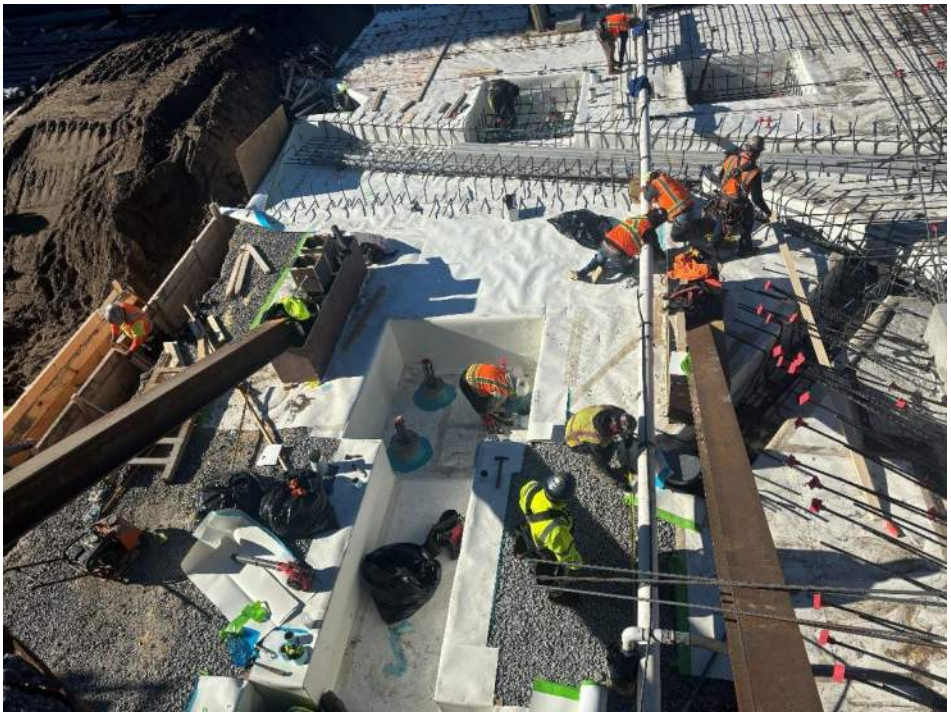

Photo 66: United installing Preprufe waterproofing / vapor barrier in the central portion of the Site, facing northeast. 25 October 2024.

Photo 67: United installing waterproofing / vapor barrier in the southwestern portion of the Site, facing southwest. 12 November 2024.

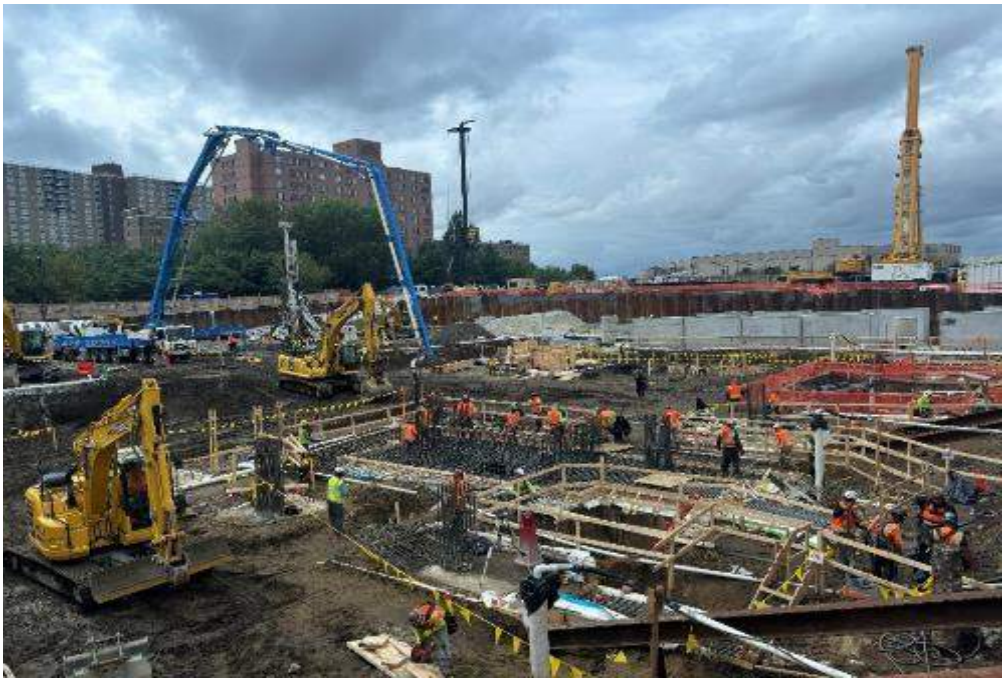

Photo 68: United pouring concrete in the northeastern portion of the Site, facing southwest. 30 August 2024

Photo 69: United pouring concrete in the north central portion of the Site, facing southwest. 30 August 2024

Photo 70: United pouring concrete in the central portion of the Site, facing west. 18 October 2024.

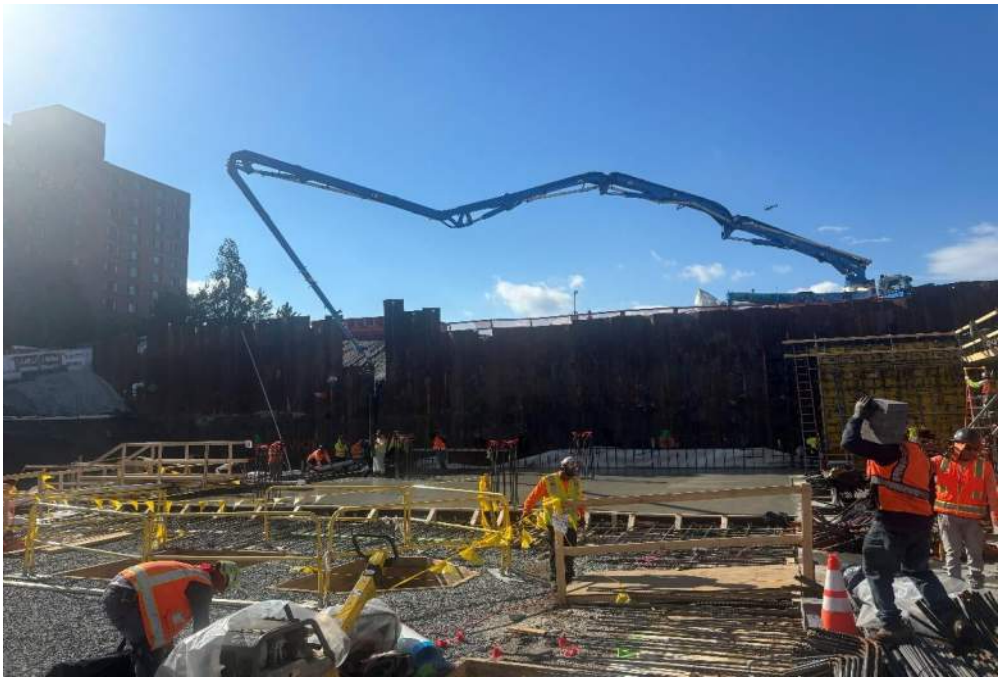

Photo 71: United pouring concrete in the southwestern portion of the Site, facing west. 18 October 2024.

Photo 72: United backfilling in the northwestern portion of the Site, facing east. 10 September 2024.

Photo 73: United importing DGA for use as the construction ramp in the southwestern portion of the Site, facing west. 25 October 2024.

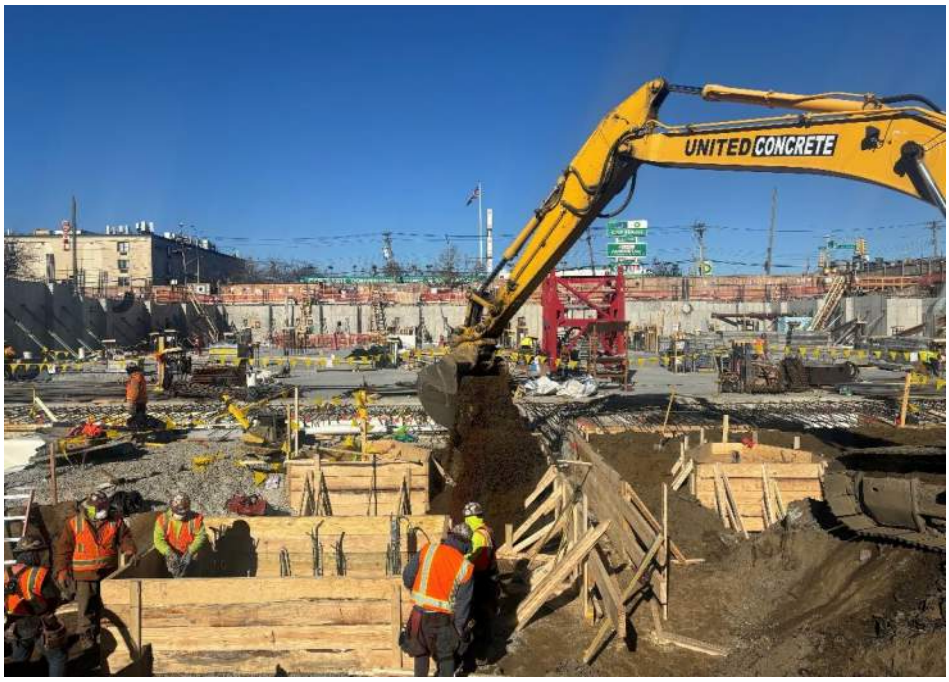

Photo 74: United backfilling with imported clean fill in the central portion of the Site, facing north. 13 November 2024.

Photo 75: United backfilling the slab with 0.75-inch stone in the eastern portion of the Site, facing northwest. 18 November 2024.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 16, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

York Sample ID	Client Sample ID	Matrix	Date Collected	Date Received
24B0968-01	LSB19_3_21-23	Soil	02/16/2024	02/16/2024
24B0968-04	LSB19_3_E7.5_18-20	Soil	02/16/2024	02/16/2024

General Notes for York Project (SDG) No.: 24B0968

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Sample and Data Qualifiers Relating to This Work Order

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 19, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24B1034

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 03/14/2024

Sample and Data Qualifiers Relating to This Work Order

WTCLP_AM	Due to sample amount submitted, TCLP preparation was set up with less than the EPA method guidline.
EXT-Temp	Extraction temperture slightly exceeded acceptance range.
EXT-COMP	Completed

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Revision Description: This report has been revised to include Total Lead for sample 09.

Langan Engineering & Environmental Services (NJ)
300 Kimball Drive, 4th Floor
Parsipanny NJ, 07054-2172
Attention: Lauren Kott

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 20, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24B1125

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 02/28/2024

Cassie L. Mosher
Laboratory Manager

Duplicate (BB41607-DUP1) Duplicate	*Source sample: 24B1190-01 (Duplicate)							Prepared & Analyzed: 02/26/2024			
% Solids	75.9	0.100	%		75.7				0.281	20	

Sample and Data Qualifiers Relating to This Work Order

M-SPKM The spike recovery is not within acceptance windows due to sample non-homogeneity, or matrix interference.

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 21, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24B1202

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 02/29/2024

Cassie L. Mosher
Laboratory Manager

Sample and Data Qualifiers Relating to This Work Order

S-GC	Two surrogates are used for this analysis. One surrogate recovered within control limits therefore the analysis is acceptable.
S-08	The recovery of this surrogate was outside of QC limits.
QR-03	The RPD value for the sample duplicate or MS/MSD was outside of QC acceptance limits due to matrix interference. QC batch accepted based on LCS and/or LCSD recovery and/or RPD values.
QM-05	The spike recovery was outside acceptance limits for the MS and/or MSD due to matrix interference. The LCS and/or LCSD were within acceptance limits showing that the laboratory is in control and the data are acceptable.
M-SPKM	The spike recovery is not within acceptance windows due to sample non-homogeneity, or matrix interference.

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Langan Engineering & Environmental Services (NJ)
300 Kimball Drive, 4th Floor
Parsipanny NJ, 07054-2172
Attention: Lauren Kott

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 22, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24B1304

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 03/01/2024

Cassie L. Mosher
Laboratory Manager

Sample and Data Qualifiers Relating to This Work Order

QR-03	The RPD value for the sample duplicate or MS/MSD was outside of QC acceptance limits due to matrix interference. QC batch accepted based on LCS and/or LCSD recovery and/or RPD values.
QM-05	The spike recovery was outside acceptance limits for the MS and/or MSD due to matrix interference. The LCS and/or LCSD were within acceptance limits showing that the laboratory is in control and the data are acceptable.
M-CCV1	The recovery for this element in the Continuing Calibration Verification (CCV) was outside the 90-110% recovery criteria.

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Attention: Lauren Kott

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 23, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24B1398

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 03/04/2024

Sample and Data Qualifiers Relating to This Work Order

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 26, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24B1462

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 03/05/2024

Sample and Data Qualifiers Relating to This Work Order

B Analyte is found in the associated analysis batch blank. For volatiles, methylene chloride and acetone are common lab contaminants.

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on February 27, 2024 and listed below. The project was identified as your project: **100688802**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

York Sample ID	Client Sample ID	Matrix	Date Collected	Date Received
24B1549-05	LSB26_3_W7.5_20.5-22.5	Soil	02/27/2024	02/27/2024
24B1549-13	LSB26_3_N7.5_20.5-22.5	Soil	02/27/2024	02/27/2024

General Notes for York Project (SDG) No.: 24B1549

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 03/06/2024

Sample and Data Qualifiers Relating to This Work Order

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
Non-Dir.	Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Re: 12096 Flatlands Avenue
Brooklyn, New York

AFFIDAVIT

Brian Gaudreault being duly sworn says that on April 24 and 29, 2024, Brookside Environmental completed the cleaning and removal of three 550 gallon gasoline and oil tanks in accordance with the provisions of the New York City Fire Code, Chapter 34, Section FC3404.2.13 and FC3404.2.14.

During the removal of the tanks, Brookside:

- Vacuumed and removed 93 gallons of oil/water mixture.
- Removed and disposed of 5 drums of tank sludge.
- Cleaned and removed the tanks.
- Disposed of the tanks as scrap metal.
- Removed and disposed of all piping associated with the tanks.
- Post-excavation sampling and a site assessment were completed by Langan.

This affidavit is issued to attest to the proper tank cleaning and removal procedures by a FDNY Licensed Underground Storage Tank Installer/Remover.

Re: 12096 Flatlands Avenue
Brooklyn, New York

AFFIDAVIT

Brian Gaudreault being duly sworn says that on May 13, 2024, Brookside Environmental completed the cleaning and removal of eight 550 gallon gasoline tanks in accordance with the provisions of the New York City Fire Code, Chapter 34, Section FC3404.2.13 and FC3404.2.14.

During the removal of the tanks, Brookside:

- Vacuumed and removed 4,215 gallons of gas/water mixture.
- Removed and disposed of 2 drums of tank sludge.
- Cleaned and removed the tanks.
- Disposed of the tanks as scrap metal.
- Removed and disposed of all piping associated with the tanks.
- Post-excavation sampling and a site assessment are being completed by Langan.

This affidavit is issued to attest to the proper tank cleaning and removal procedures by a FDNY Licensed Underground Storage Tank Installer/Remover.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on August 02, 2024 and listed below. The project was identified as your project: **100688801**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24H0169

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 09/10/2024

Sample and Data Qualifiers Relating to This Work Order

S-08	The recovery of this surrogate was outside of QC limits.
QL-02	This LCS analyte is outside Laboratory Recovery limits due the analyte behavior using the referenced method. The reference method has certain limitations with respect to analytes of this nature.
QC-LCS	LCS/LCS Dup recovery was above laboratory control limits. Sample does not contain any target compounds; therefore sample results are acceptable.
PFSu-L	The isotopically labeled surrogate recovered below lab control limits due to a matrix effect. Isotope Dilution was applied.
PFSu-H	The isotopically labeled surrogate recovered above lab control limits due to a matrix effect. Isotope Dilution was applied.
PF-LCS-L	The LCS recovery for this PFAS compound was below control limits.
PF-CCV-L	The CCV recovery for this PFAS compound was below control limits.
J	Detected below the Reporting Limit but greater than or equal to the Method Detection Limit (MDL/LOD) or in the case of a TIC, the result is an estimated concentration.
ICVE	The value reported is ESTIMATED. The value is estimated due to its behavior during initial calibration verification (recovery exceeded 30% of expected value).
CCVE	The value reported is ESTIMATED. The value is estimated due to its behavior during continuing calibration verification (>20% Difference for average Rf or >20% Drift for quadratic fit).
CAL-E	The value reported is ESTIMATED. The value is estimated due to its behavior during initial calibration (average Rf>20%)

Definitions and Other Explanations

*	Analyte is not certified or the state of the samples origination does not offer certification for the Analyte.
ND	NOT DETECTED - the analyte is not detected at the Reported to level (LOQ/RL or LOD/MDL)
RL	REPORTING LIMIT - the minimum reportable value based upon the lowest point in the analyte calibration curve.
LOQ	LIMIT OF QUANTITATION - the minimum concentration of a target analyte that can be reported within a specified degree of confidence. This is the lowest point in an analyte calibration curve that has been subjected to all steps of the processing/analysis and verified to meet defined criteria. This is based upon NELAC 2009 Standards and applies to all analyses.
LOD	LIMIT OF DETECTION - a verified estimate of the minimum concentration of a substance in a given matrix that an analytical process can reliably detect. This is based upon NELAC 2009 Standards and applies to all analyses conducted under the auspices of EPA SW-846.
MDL	METHOD DETECTION LIMIT - a statistically derived estimate of the minimum amount of a substance an analytical system can reliably detect with a 99% confidence that the concentration of the substance is greater than zero. This is based upon 40 CFR Part 136 Appendix B and applies only to EPA 600 and 200 series methods.
Reported to	This indicates that the data for a particular analysis is reported to either the LOD/MDL, or the LOQ/RL. In cases where the "Reported to" is located above the LOD/MDL, any value between this and the LOQ represents an estimated value which is "J" flagged accordingly. This applies to volatile and semi-volatile target compounds only.
NR	Not reported
RPD	Relative Percent Difference
Wet	The data has been reported on an as-received (wet weight) basis
Low Bias	Low Bias flag indicates that the recovery of the flagged analyte is below the laboratory or regulatory lower control limit. The data user should take note that this analyte may be biased low but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.
High Bias	High Bias flag indicates that the recovery of the flagged analyte is above the laboratory or regulatory upper control limit. The data user should take note that this analyte may be biased high but should evaluate multiple lines of evidence including the LCS and site-specific MS/MSD data to draw bias conclusions. In cases where no site-specific MS/MSD was requested, only the LCS data can be used to evaluate such bias.

Non-Dir. Non-dir. flag (Non-Directional Bias) indicates that the Relative Percent Difference (RPD) (a measure of precision) among the MS and MSD data is outside the laboratory or regulatory control limit. This alerts the data user where the MS and MSD are from site-specific samples that the RPD is high due to either non-homogeneous distribution of target analyte between the MS/MSD or indicates poor reproducibility for other reasons.

If EPA SW-846 method 8270 is included herein it is noted that the target compound N-nitrosodiphenylamine (NDPA) decomposes in the gas chromatographic inlet and cannot be separated from diphenylamine (DPA). These results could actually represent 100% DPA, 100% NDPA or some combination of the two. For this reason, York reports the combined result for n-nitrosodiphenylamine and diphenylamine for either of these compounds as a combined concentration as Diphenylamine.

If Total PCBs are detected and the target aroclors reported are "Not detected", the Total PCB value is reported due to the presence of either or both Aroclors 1262 and 1268 which are non-target aroclors for some regulatory lists.

2-chloroethylvinyl ether readily breaks down under acidic conditions. Samples that are acid preserved, including standards will exhibit breakdown. The data user should take note.

Certification for pH is no longer offered by NYDOH ELAP.

Semi-Volatile and Volatile analyses are reported down to the LOD/MDL, with values between the LOD/MDL and the LOQ being "J" flagged as estimated results.

For analyses by EPA SW-846-8270D, the Limit of Quantitation (LOQ) reported for benzidine is based upon the lowest standard used for calibration and is not a verified LOQ due to this compound's propensity for oxidative losses during extraction/concentration procedures and non-reproducible chromatographic performance.

Revision Description: This report has been revised to include SVOA QC data.

Purpose and Results

This report contains the analytical data for the sample(s) identified on the attached chain-of-custody received in our laboratory on August 12, 2024 and listed below. The project was identified as your project: **100688801**.

The analyses were conducted utilizing appropriate EPA, Standard Methods, and ASTM methods as detailed in the data summary tables.

All samples were received in proper condition meeting the customary acceptance requirements for environmental samples except those indicated under the Sample and Analysis Qualifiers section of this report.

All analyses met the method and laboratory standard operating procedure requirements except as indicated by any data flags, the meaning of which are explained in the Sample and Data Qualifiers Relating to This Work Order section of this report and case narrative if applicable.

The results of the analyses, which are all reported on dry weight basis (soils) unless otherwise noted, are detailed in the following pages.

Please contact Client Services at 203.325.1371 with any questions regarding this report.

General Notes for York Project (SDG) No.: 24H0729

1. The RLs and MDLs (Reporting Limit and Method Detection Limit respectively) reported are adjusted for any dilution necessary due to the levels of target and/or non-target analytes and matrix interference. The RL(REPORTING LIMIT) is based upon the lowest standard utilized for the calibration where applicable.
2. Samples are retained for a period of thirty days after submittal of report, unless other arrangements are made.
3. York's liability for the above data is limited to the dollar value paid to York for the referenced project.
4. This report shall not be reproduced without the written approval of York Analytical Laboratories, Inc.
5. All analyses conducted met method or Laboratory SOP requirements. See the Sample and Data Qualifiers Section for further information.
6. It is noted that no analyses reported herein were subcontracted to another laboratory, unless noted in the report.
7. This report reflects results that relate only to the samples submitted on the attached chain-of-custody form(s) received by York.
8. Analyses conducted at York Analytical Laboratories, Inc. Stratford, CT are indicated by NY Cert. No. 10854; those conducted at York Analytical Laboratories, Inc., Richmond Hill, NY are indicated by NY Cert. No. 12058.

Approved By **Date:** 09/09/2024
