BCP Site #C224300
January 2026

Activities Completed during the Reporting Period

Soil samples collected on December 23 in support of the ISS Treatability Study are being analyzed. Tenen conducted CAMP and remedial oversight during installation of dry wells adjacent to Building C and export of soil generated during installation on January 20 and 22.

Modifications to Work Plan and/or Schedule

None.

Issues Encountered

Delayed reporting of ISS Treatability Study sample analytical results due to snow emergencies across Tennessee following Winter Storm Fern. The lab analyzing the samples is located in Jefferson County, Tennessee.

Data Collected/Received during the Reporting Period

Soil samples in support of the ISS Treatability Study are being analyzed.

Activities Undertaken in Support of Citizen Participation Plan

None.

Activities Planned for Next Reporting Period:

Tenen will revise and resubmit the ISS Treatability Study Report to NYSDEC.
