

(Fact Sheet Begins Next)

## Act Now to Continue Receiving Information About This Site!

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites *electronically by email*.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

**You must sign up for the DER email listserv:**

[www.dec.ny.gov/chemical/61092.html](http://www.dec.ny.gov/chemical/61092.html)

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

### Why You Should Go “Paperless”:

- Get site information faster and share it easily;
- Receive information about all sites in a chosen county - read what you want, delete the rest;
- It helps the environment and stretches your tax dollars.

**If “paperless” is not an option for you, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.**

# FACT SHEET

## Brownfield Cleanup Program

33 Franklin  
33 Franklin Street  
Brooklyn, NY 11222

August 2020

SITE No. C224303  
NYSDEC REGION 2

### Where to Find Information

Access project documents through the DECinfo Locator and at these location(s):

#### Brooklyn Public Library – Leonard Branch

81 Devoe Street, Brooklyn, NY 11211  
(718) 486-6006

#### Brooklyn Community Board # 1

435 Graham Avenue  
Brooklyn, NY 11211  
(718) 389-0009

### Who to Contact

Comments and questions are welcome and should be directed as follows:

#### Project-Related Questions

Hasan Ahmed, Project Manager  
NYSDEC  
47-40 21<sup>st</sup> Street  
Long Island City, NY 11101  
(718) 482-6405  
[hasan.ahmed@dec.ny.gov](mailto:hasan.ahmed@dec.ny.gov)

#### Project-Related Health Questions

Sally Rushford  
NYSDOH  
Empire State Plaza, Corning Tower  
Rm 1787  
Albany, NY 12237  
(518) 402-5465  
[bee@health.ny.gov](mailto:bee@health.ny.gov)

## Draft Investigation Work Plan for Brownfield Site Available for Public Comment

The public is invited to comment on a draft work plan being reviewed by the New York State Department of Environmental Conservation (NYSDEC) to investigate the 33 Franklin Street site ("site") located at 33-41 Franklin Street, Brooklyn, NY. Please see the map for the site location.

**Draft Investigation Work Plan:** The draft investigation work plan, called a "Supplemental Remedial Investigation Work Plan," (SRIWP) was submitted to NYSDEC under New York's Brownfield Cleanup Program. The investigation will be performed by 33 Franklin LLC ("applicant(s)") with oversight by NYSDEC and the New York State Department of Health (NYSDOH).

**How to Comment:** NYSDEC is accepting written comments about the Draft SRIWP for 30 days, from **August 27 through September 27, 2020**.

- Access the SRIWP and other project documents online through the DECinfo Locator: <https://www.dec.ny.gov/data/DecDocs/C224303/>.
- Documents also are available at the location(s) identified at left under "Where to Find Information."
- Please submit comments to the NYSDEC project manager listed under Project-Related Questions in the "Who to Contact" area at left.

**Highlights of the Proposed Site Investigation:** The investigation will define the nature and extent of contamination in soil, surface water, groundwater and any other parts of the environment that may be affected.

Previous investigations have detected volatile and semi-volatile organic compounds (VOCs and SVOCs) and metals in soil, SVOCs, metals and pesticides in groundwater, and VOCs in soil vapor on site.

Key components of the investigation work include:

- Installing and sampling soil borings to identify possible on-site sources of contamination, including emerging contaminants; and
- Installing and sampling ground water wells to monitor impacts from areas of concern both on-site and off-site, including the presence of emerging contaminants, and to supplement groundwater quality data previously collected at the site.

**Next Steps:** NYSDEC will consider public comments, revise the plan as necessary, and approve the work plan. NYSDOH must concur with the plan. After the work plan is approved, the activities detailed in the work plan will be implemented.

# BROWNFIELD CLEANUP PROGRAM

When the investigation is completed, a report will be prepared and submitted to NYSDEC that summarizes the results. NYSDEC will review the report, make any necessary revisions and, if appropriate, approve the report.

After the investigation, a proposed cleanup plan, called a "Draft Remedial Work Plan" will be developed. The cleanup plan will include an evaluation of the proposed site remedy, or recommend a no action or no further action alternative. The goal of the cleanup plan is to ensure the protection of public health and the environment. NYSDEC will present the proposed cleanup plan to the public for its review and comment during a 45-day comment period.

NYSDEC will keep the public informed throughout the investigation and cleanup of the site.

**Site Description:** The site is an irregularly shaped, 0.43-acre lot located on the west side of Franklin Street, between Calyer Street to the north and Clay Street to the south. Residential buildings border the site to the northeast and southwest, with an industrial building to the west. The site is currently developed with a one-story warehouse building with a partial mezzanine level. The building is vacant but was most recently occupied by Marlborough Gallery, Inc., an art gallery and storage facility. Historically, the site was occupied by several metal foundries.

Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C224303) at:

<http://www.dec.ny.gov/cfmx/extapps/derexternal/index.cfm?pageid=3>

**Brownfield Cleanup Program:** New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by NYSDEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit:

<http://www.dec.ny.gov/chemical/8450.html>
