## MONTHLY STATUS REPORT-JANUARY 2023

Prepared By: Diana Posten

WEATHER	Snow	Rain	Overcast	Partly Cloudy	Bright Sun
TEMP.	< 32	32-50	50-70	70-85	>85

IEC Project No:	13928	NYSDEC BCP Site No:	C224367	Date:	01/26/23
Project:	251 Douglass Street, Brooklyn, NY				

<b>Consultant:</b> Impact Environmental Engineering and Geology, PLLC (IEEG)	<b>Personnel On Site:</b>
---	---------------------------

### Scope of Work:

- RIWP implementation: IEEG acknowledged the NYSDEC's comments regarding the RIWP on 11/2/22, and on 11/3/22 the NYSDEC acknowledged satisfaction of the requirements, and that the RI work could be implemented.

### Site Activities:

- There has not been any Site activity since 12/13/2022 when the work and sampling outlined in the RIWP was completed.

\*It should be noted that the constriction fencing is surrounding the Site and the entrance gate is padlocked.

### Samples Collected:

N/A

### Community Air Monitoring Program (CAMP)

CAMP has not been implemented since 12/13/2022 as there has not been any Site activity since that day.

### Problem Encountered:

N/A

### Planned Future Activities:

- A Supplemental Remedial Investigation Work Plan was requested by the NYSDEC on 12/22/22, for the delineation of off-Site MGP waste identified on-Site. IEEG submitted a Supplemental Remedial Investigation Work Plan on 12/30/2022, the NYSDEC issued a comment letter for this plan on 1/5/2023. IEEG addressed the comments and resubmitted the Supplemental Remedial Investigation Work Plan on 1/18/2023. IEEG will be implementing the supplemental work following the NYSDEC's approval of the plan.
