WEEKLY INSPECTION REPORT

Prepared By: Tyler Bistline

IEEG Project No:	13928	NYSDEC BCP Site No:	C224367	Date: 08/14/25
Project:	251 Douglass Street, Brooklyn, NY			

Consultant:	Personnel On Site:		
Impact Environmental Engineering and	IEEG (Environmental) – Victor Barraza		
Geology, PLLC (IEEG)	Broadway Construction Group – Shannon Dowling/Tom Caporale		
	Greystone (Concrete)		
	Skyline		

Scope of Work: Weekly Site Inspection

Site Activities:

- Greystone continued working on construction of roof access and stairs within staircases;
- Greystone placing rebar for concrete features on the 15th and 16th floor;
- Continued utility, window, plumbing, electrical, sheetrock, and framing work inside of the northern and eastern portions of the Site (Phase I, 2, and 3);

Community Air Monitoring Program (CAMP):

• CAMP was not deployed as the purpose of the Site visit was for a weekly inspection.

Notable Site Conditions:

None.

Planned for the Next Day/Week:

- Concrete Courses will continue roof work;
- Greystone to continue working on roof access stairs within staircases; and
- Continued utility, window, plumbing and framing work inside of the building.
