Construction Manager: Consigli Construction Co., Inc. (Consigli)

Foundation Contractor: Urban Foundation/Engineering (Urban)

Langan Field Personnel:
 Caitlyn Dempsey (Environmental)

Work Activities Performed:

- Urban graded an about 50-foot-long by 50-foot-wide area of soil/fill in the northwestern part of waste characterization grid WC02 and an about 100-foot-long by 100-foot-wide area of soil/fill in the central part of waste characterization grids WC02 and WC03 to prepare for equipment mobilization.
- Graded soil/fill consisted of non-native soil; odors, staining, elevated photoionization detector (PID) readings, or other evidence of a petroleum or chemical release were not observed.
- Urban drilled one rock socket and advanced one rock socket for one caisson using a Bauer BG33H Drill Rig and a Bauer BG28H Drill Rig in the central part of the site.
- Urban installed reinforcement and placed grout in two caissons for completion.

Material Tracking:

- No soil/fill was exported from the site.
- No material was imported to the site.
