to procure new subcontractors. Clean Globe Envt'l (CGE) was successful bidder for system O&M at this site. We held a meeting at site on Jan. 19, 2022 to coordinate hand-off of O&M responsibilities from Envirotrac to CGE. CGE s scope of work includes replacement of down-hole pumps/transducers, system flow meters & transfer pumps, including P-301. CGE will expedite ordering & replacing equipment, especially transfer pump P-301 so system can be brought back on-line. Let me know if you have any questions. - J. Kolleeny 02/04/22: Reviewed System Performance Monitoring Rpt for July 29 thru Oct. 28, 2021 by AECOM dated 1/11/22. PID screening of system vapor discharge from air stripper gave ND readings throughout rpt period; a vapor sample collected for lab analysis on 11/10/21 showed benzene in compliance with DEC air discharge std. Extraction wells GEW-1 and GEW-4 operated during this rpt period. NYCDEP flow meter indicated GWET system discharged 42,356 gals of GW during rpt period. Sampling of influent from extraction wells indicated total VOCs ranged from 103 to 146 ug/L in GEW-1, from 85 to 250 ug/L in GEW-3, and from 423 to 545 ug/L in GEW-4. GW samples taken on 10/14/21 from extraction wells themselves showed GEW-2 was ND, GEW-3 had 1.5 ug/L tVOCs, and GEW-4 had 3,562 ug/L tVOCs; GEW-1 had product (0.05 ft) so wasn't sampled (GEW-1 had 0.09 ft of LNAPL on 9/30/21). An absorbent sock was put in GEW-1 on 9/16/21; sock was replaced on 10/13 and 10/29/21. Quarterly GW sampling on 10/13 & 10/14/21 showed well MW-6R had 10 ug/L tVOCs (down from 52 ug/L in July 2021), well MW-7R had 475 ug/L tVOCs (down from 865 ug/L in July 2021), well MW-10 had 142 ug/L tVOCs (down from 1,023 ug/L in July 2021), well MW-11 had 12 ug/L tVOCs (down from 1,614 ug/L in July 2021), well MW-15 had 19,315 ug/L tVOCs (down from 24,082 ug/L in July 2021), well GEW-4 had 3,562 ug/L tVOCs (up from 1,746 ug/L in July 2021). AECOM concludes that operation of the GWET system at site continues to be effective in reducing dissolved VOC levels, and LNAPL is only present in one small area of site (well GEW-1). Upcoming actions include continuing quarterly GW monitoring; working with subcontractor to optimize recovery of LNAPL from GEW-1 and optimize system operation for more continuous pumping to increase capture zone; performing scheduled quarterly & semi-annual O&M tasks; replacing extraction pumps, flow meters, transfer pumps, and GAC in liquid-phase treatment units under new system operating contract; removing inactive SVE part of system and restoring site; and evaluating need for surfactant injections or other remedial actions to residual product and saturated zone impacts, with submission of a work plan to DEC for approval prior to implementing any supplemental remedial actions. - J. Kolleeny"

DEC Memo:	"05/23/07-Vought-Duty desk officer. Vought spoke to Bob Laga(Fax 718-359-7865) and SVE and three groundwater wells onsite with SpillBusters installed and Franklin geologist performing weekly inspections of well and system. Franklin was contacted by NYPD that sump of UST was full of product and alarm for Veeder Root was going off. Franklin performed site visit and approximately 20-50 gallons of gasoline present in sump. Vacuum truck estimated time of arrival in two hours to recover gasoline. As per Franklin field geologist level of product in sump has remained constant (may indicate no loss to subsurface). No product in groundwater monitoring well immmediately adjacent to tank with product in sump. Vought discussed site with DEC Krimgold and tightness test letter prepared by Vought and submitted to DEC Falvey for signature. Letter sent with one month due date to owner on PBS and cc to Franklin: NYCPD Building Maintenance Section 59-06 Brooklyn Queens Expressway Queens, NY 11377 05/29/07-Vought-See also new closed spill #0702402 for spill caused by delivery to broken fill despite instructions by Franklin to not deliver until fill was repaired. Vought called Franklin and spoke to Bill. Franklin reiterated requirement for no more deliveries. Klein still seeking bids for work. 07/08/08: This spill case transferred from J. Vought to J. Kolleeny. Problems with fill port and fuel deliveries have been rectified, any product released to environment will be addressed by remedial system on-site, as there is ongoing remediation under DDC consent order spill 9512583. This spill is closed, see also remarks for spill 0705553. - J. Kolleeny "

DEC Memo:	"This site is already an active longterm remediation site - Spill #9512583 As part of this remediation effort, there are exisiting monitoring wells on the site that are tested periodically. Today, the geologist found 4 ft of gasoline product floating on the water table in a well that previously had nothing. The manway was checked and found to be full of gasoline as well. This was clearly an overfill from a recent delivery. Franklin and/or URS is working the long term cleanup of the site and has arranged for a vac truck to clear out whatever is possible right now. On a long term basis, the existing remediation system will be used to skim the free product from the water table and remove it from the site. This problem will now be addressed by the contractor through the existing long term spill

DEC Memo: "Part of a long term recovery operation at the site. See also spill nos. 0702185 and 0702402. 08/16/07: Notified of this spill by Ryan Piper of spill response staff on 8/15/07; sent email to Jane Staten and Harvey Roberts of URS (DDC consultant handling long-term remediation of this site under DDC consent order), with cc to Afsar Samani of DDC, stating: I've been informed by our Spill Response

MIDTOWN SOUTH PRECINCT NYPD -DDC (Continued) **S105054624**

staff that spills are continuing to occur related to damaged fill line to gasoline UST at Midtown South. Intitial spill (0613411) occurred in March '07 when gasoline was found in tank sump and nearby monitoring well. According to URS's system performance reports, Franklin Co. determined that tank's fill line was damaged, and they installed direct fill to tank to bypass damaged line. Do you know if Franklin plugged up old fill port when they installed direct fill? It appears that fuel deliveries continue to be made to old fill line, and product keeps showing up in tank sump and monitoring wells. On May 23rd, spill 0702185 was reported by NYPD because sump was filled with gasoline and Veeder Root alarm was going off. Today, another spill was called in (0705553) because of product in sump. Please take necessary steps to have old fill port blocked so it cannot be used anymore (or repaired so it won't leak) as soon as possible, and please also check out entire tank system to make certain it is damaged fill line that's problem, and that there are no other leaks in system. Please get back to me on this and let me know what actions have been taken to address this situation. Afterwards, spoke again with Ryan Piper, who suggested tank be taken out of service and emptied until problem is solved. Sent email to Afsar Samani of DDC, cc's to Jane Staten & Harvey Roberts of URS: In light of ongoing problems with gasoline UST at Midtown South Precinct, I strongly suggest that tank be taken out of service and emptied until problem(s) with tank and piping has/have been addressed. If this is not practical because police have no alternative location to fuel their vehicles, then please take whatever steps are necessary to immediately rectify problem(s) with tank system. NYCDDC is conducting remediation at this site using SVE and groundwater extraction & treatment systems, and these ongoing spills of fresh gasoline to subsurface will set back remedial efforts for months, or more likely, years, so it is in DDC's interest to resolve this situation promptly. In addition, these releases are a violation of Environmental Conservation Law, as you are aware, and if they continue to occur, our spill responders may be inclined to call Environmental Conservation Officers to site to issue summons. On 8/16/07, received email from Afsar Samani of DDC: Harvey informed me that vac-truck is scheduled to remove product from sump today. Also, NYPD subcontractor is going to be scheduled to repair fill line. URS is looking into this and will make all necessary action to make sure tank and fill port is tight. Then, received email from Jane Staten of URS: I just spoke with Lt. Pete Polanco for an update on problems with gasoline tank at Midtown South Precinct. According to Lt. Polanco, NYPD tank contractor inspected fuel fill line this morning and found no problems with integrity of line. Therefore, Lt. Polanco believes that product in tank sump was caused by fuel delivery vendor. NYPD are expecting fuel delivery vendor at site this afternoon to discuss problem and also to remove gasoline currently in sump. I will keep you posted. I then sent email to Afsar Samani, with cc's to Jane Staten & Harvey Roberts of URS, Jerry Aliberti of DDC and Lt. Peter Polanco of NYPD: Thank you for your response. Please be advised that no fuel deliveries should be made to gasoline tank at Midtown South until tank system has been tested to insure integrity of all elements of system. Documentation of tightness test results, and of any repairs made to fill line since problem was discovered in March 2007, must be submitted to NYSDEC before fuel deliveries can resume. This situation is high priority and NYPD should arrange for tightness testing immediately. Then, received phone call from Lt. Polanco of

MIDTOWN SOUTH PRECINCT NYPD -DDC (Continued) **S105054624**

NYPD, who said repairs to damaged fill line were done in June and fill line was tightness tested and passed, and he believes current problem is due to fuel delivery vendor not hooking up vapor recovery line (truck is parked in street long distance from fill port, so there's long length of delivery hose). He said product will be removed from sump and fill line will be tested again. I asked him to submit documentation of repair work and tightness testing, and sent him email with my address. Then, I was cc'd on email from Afsar Samani of DDC to Lt. Polanco of NYPD: We were informed by following correspondence from NYSDEC that gasoline tank over at Midtown South Police Precinct should not receive any more deliveries until a tightness test has been scheduled. Please let DDC know when you can arrange for your subcontractor to perform a tightness test on this tank. This is very crucial to remedial effort that URS is performing to clean up site on behalf of DDC. - J. Kolleeny 08/21/07: Received fax on 8/20/07 from Lt. Polanco of NYPD fuel control unit, with letter from Energy Tank & Environmental Services dated 7/16/07 describing repairs to and pressure testing of fill line to gasoline UST (in eDocs). Sent same-day email response to Lt. Polanco, cc's to Afsar Samani & Jerry Aliberti (DDC), Jane Staten & Harvey Roberts (URS): Thank you for faxed description of repair work to fill line of gasoline UST at Midtown South and diagram of site, tank and fill port, provided by Energy Tank & Environmental Services, Inc. However, these items do not completely satisfy my request for documentation of tank repairs and testing of fill line, and they raise additional questions. Page that describes repairs and subsequent pressure testing of line is dated 7/16/07. Is that date when repairs were done? I would like to see dated invoice for repair work in addition to this description. Description states that problem was with primary fill line, and that secondary line was intact, which allowed product to go into containment sump and not into ground. However, in March when this problem was first discovered, URS field personnel reported 5 feet of fresh gasoline in groundwater extraction well that had never had gasoline in it before, so somehow product did get into ground. If repairs were done on 7/16/07, why was gasoline again reported in containment sump on top of tank on August 15th (spill number 0705553)? You mentioned that this was caused by delivery person not hooking up vapor recovery line, yet our Petroleum Bulk Storage staff say this would not result in product appearing in sump. I would greatly appreciate it if you could provide additional documentation of repair work, and if NYPD would schedule a tightness test of all lines going into and out of tank, as well as a hydrostatic test of tank's containment sump. I would like to be informed in advance when these tests have been scheduled, so that I can attend. - J. Kolleeny 09/14/07: Visited site 9/10/07 to observe hydrostatic test of tank sump and tightness test of fill line. Mike Suppe of Fenley & Nichol on hand, said sump held water, more or less (slight drip along electric conduit extending from this sump to next sump at end of tank), for over 2 hours. He said no way to test fill line (it's about 2-3 feet long from remote fill port) without physically removing it, but he will test entire tank system. In discussions of how product could turn up in sump, I mentioned that Lt. Polanco said it had to do with delivery person not hooking up vapor recovery line. Mike wasn't clear on how that would cause product to appear in sump. I called Lt. Polanco, who said by not hooking up vapor recovery during delivery, excessive back pressure was created, so when delivery hose was disconnected, product would

MIDTOWN SOUTH PRECINCT NYPD -DDC (Continued) **S105054624**

back up and spill into overfill bucket, then drain to sump. Mike Suppe said this isn't possible, since any fuel spilled into spill bucket would drain back into fill line, then into tank (not sump). Mike suggested that temporary fill, which was used while remote fill line was awaiting repair, had not been properly capped once NYPD switched back to using remote fill, and poor threading on top of direct fill extension cylinder and improperly screwed-on cap for this extension, may have resulted in product spilling out capped off temporary fill, again related to back pressure from not hooking up vapor recovery (see photos in eDocs image folder). NYPD now has on-site a long hose to be used for vapor recovery, and reportedly there have not been any more problems with product appearing in sump after deliveries. Spoke with Mike Suppe on 9/11/07, who said tank system passed test. I discussed whole situation with Jane Staten of URS, who forwarded to me email from Harvey Roberts of URS (in eDocs) indicating temporary direct fill was installed by NYPD, not Franklin Co. as stated in URS's system performance reports for site. While this may explain why product was appearing in sump, none of this adequately explains how product escaped into ground and turned up in groundwater extraction wells and monitoring wells (for site cleanup under spill no. 9512583). Mike Suppe indicated if damaged fill line was unknown for a long time, sump could've filled up with gas during deliveries and overtopped inner rim of sump, and from there it could seep into ground. URS will continue to gauge nearby wells for product levels, and see if they continue to decrease. Harvey Roberts email also calls into question when exactly NYPD had repairs done to fill line. I contact Lt. Polanco again and asked for more detailed documentation of repair work, indicating date(s) and nature of work done. He said he would work on getting me that info. - J. Kolleeny 09/17/07: Received fax from Lt. Polanco, a revised version of earlier fax with statement by Energy Tank & Environmental Services regarding repair work on fuel fill line. Statement is still dated 7/16/07; it now states that they uncovered line on 7/5/07, reconnected and tested line on 7/6/07, reporting that line held pressure during backfilling, they then witnessed a fuel delivery on 7/9/07 with no leaks observed, so they re-surfaced area. - J. Kolleeny 01/04/08: On 12/19/07, sent email to Jane Staten of URS: I recently asked you to ask your field personnel to check if gasoline is still showing up in tank-top sump after fuel deliveries at this site. Do you know if they've checked on this? On 12/26/07, received email reply from Jane: Our field technician checked tank sumps at Midtown South on 11/29/07. One sump was dry and other contained a little water. There was no evidence of gasoline. Based on no new reports of gasoline appearing in tank top sump, it appears problem(s) that caused this and related spills has (have) been addressed; OK to close spill. - J. Kolleeny "

DEC Memo:	"02/19/08: This spill case transferred from V. Zhune of Spill Response staff to J. Kolleeny. On Feb. 13, URS (Franklin?) personnel at site noted 10 ft. of fresh free product in a groundwater extraction well (GEW-1), and several ft. of product in nearby monitoring wells. Product was bailed down to less than a foot. On Feb. 15th, URS returned to site and measured 5 ft. of product in GEW-1, and noted that spill buster in well was not operating. Nearby well MW-6 had 3 ft. of product. I instructed Jane Staten of URS to call in a new spill. Contacted Lt. Pete Polanco of NYPD who said they had arranged for Fenley & Nicol to perform a tank system tightness test on saturday, Feb. 16th. I asked that the results be faxed to me when available. On tuesday Feb. 19th, received test results by fax from Lt. Polanco, tank system tested tight (results in eDocs). Contacted Jane Staten of URS, who said their field staff visited site on monday Feb. 18th, found no product in GEW-1, 3 ft. of product in MW-6, and 0.02 ft. in MW-7. She suggested I ask NYPD to look into their inventory records, especially delivery versus tank volume records, for deliveries between Feb. 6 and Feb. 13. I sent email to Lt. Polanco asking him to look into these records and let me know. - J. Kolleeny 02/21/08: Received email reply from Lt. Polanco of NYPD:

MIDTOWN SOUTH PRECINCT NYPD -DDC (Continued) **S105054624**

We did an analysis with the last few deliveries. We determined that during the period of Feb 6 through Feb 13, 3167 gallons was used and we were able to account for 3146 gallons. Therefore we have an unaccounted loss of less than 1%. We passed the tank tightness test. So the question still remains where is this product coming from? Obviously it is not from my fuel site. As of today MTS Precinct is empty and will not be having a delivery for 1 week. Can URS check their wells tomorrow and see if any product appears in the next 7 days? Let me know what you want us to do. I also received email from Jane Staten of URS with detailed timeline of events, in response to my request: Following is a timeline of events concerning the new spill at Midtown South: Feb 13 (Wednesday) Franklin visits site to perform weekly O&M and verbally reports that there is 10 feet of product in well GEW-01; there was a reported kink in the GEW-01 Spill Buster discharge line and when it was fixed, the pump evacuated the product in the well URS visits site to perform monthly product recovery using a vacuum truck and records free product in MW-06 (3 ft), MW-07 (2 ft), and IW-15 (couple of inches); all product evacuated from wells Feb 15 (Friday) URS visits site to gauge wells and finds product in GEW-01 (4.2 ft), MW-06 (2.6 ft), and MW-07 (0.3 ft) URS calls in spill to NYSDEC Spill Hotline; assigned #0712091 Received email from Franklin that product storage tank in GW treatment shed is full and that they scheduled a vacuum truck to remove product Feb 16 (Saturday) NYPD performs tightness test on tank system Feb 18 (Monday) URS visits site with vacuum truck and measures product in MW-06 (3 ft) and MW-07 (0.02 ft); no product detected in GEW wells; all product evacuated from wells; 35 gal product removed from product storage drum in GW treatment shed I do not understand what happened to the 4 feet of product in GEW-01 between Friday and Monday. I asked Franklin if they sent a vacuum truck to the site during that time to remove product from the product storage drum and the answer was 'no.' So that means that the Spill Buster pump in GEW-01 would have remained idle over the weekend. While that is a mystery, the bigger mystery is the source of the gasoline since the tank system tested tight and NYPD records indicate less than a 1% discrepancy in fuel inventory records. - J. Kolleeny 03/20/08: On 2/26/08, sent email to Jane Staten of URS, asking if their field personnel have been back to site and gauged wells for product levels? Jane wrote back: We were at site on Monday with vacuum truck and there was 2.4 feet of product in MW-06, 0.3 feet in MW-07, 0.03 feet in MW-08, and 3.18 feet in GEW-01. Spill buster pump in GEW-01 did not appear to be working so we contacted Franklin. Franklin's regular O&M day for Midtown South is Wednesday, so I'll probably receive their report tomorrow or Thursday. URS will continue to bring vacuum truck to site to remove product until it appears that situation is under control. I'll keep you posted. On 3/20/08, I sent email to Jane Staten asking for updated info on product in wells and status of spill buster pump in GEW-01. - J. Kolleeny 03/28/08: Received email from Jane Staten of URS on 3/27/08, with attached table showing well gauging data from 1/17/08 to 3/14/08 (in eDocs). Data show product in GEW-01 has decreased, from 3.18 ft. on 2/25/08 to 0.0 ft. on 3/3/08, to 0/15 ft. on 3/14/08; however, product in MW-6 seems not to be going away, with 3.75 ft. on 3/14/08; MW-7 went from 0.30 ft. on 2/25/08 to 0.07 ft. on 3/3/08 to 0.44 ft. on 3/14/08. Jane also reported that spill buster pump in GEW-01 is operating and URS has instructed contractor to restart GW extraction pumps. - J. Kolleeny 06/11/08: At direction of my supervisor, Vadim Brevdo, I closed this

MIDTOWN SOUTH PRECINCT NYPD -DDC (Continued) **S105054624**

spill to consolidate with open spill no. 9512583, under which remediation of subsurface petroleum contamination at this site is being tracked. - J. Kolleeny "

Remarks: "unknown amount spilled; released from an underground tank; released into the ground; it is an on going remediating site"

DEC Memo:	"Prior to Sept, 2004 data translation this spill Lead_DEC Field was VOUGHT 8/2001-Tank closure report prepared by Franklin Company Contractors. 6/29/2001-Franklin implemented bioremediation by mixing 240lbs of ORC with surrounding soils and filling in excavation. 500 gallons of Waste stream technologies W-4 bio-blend mixture also injected.. Site was bakcfilled with 3 to 6 feet of clean fill, 6 inches of crushed stone and an 8-mil polyethylene vapor barrier. Area was then covered with 6 inch reinforced concrete slab. Soil VOC pass TAGM, soil SVOC exceed TAGM but are due to fill composition. Site visit by Jacob Krimgold showed no visual evidence of contamination. Groundwater VOC and SVOC also pass TAGM. 12/13/2001 Spill closed as per Mark Tibbe, Jacob Krimgold and myself (all NYSDEC personnel). "
Remarks:	"SOIL SAMPLE RESULTS FROM REMOVAL OF 3 TANKS AT LOCATION. NO VISABLE SIGNS OF CONTAMINATION."

Point of Reference:	-
Highlights:	Former Use: The High Line is an elevated 1.5-mile long freight rail line on the West side of Manhattan that has not been used since 1980. It was constructed between 1929 and 1934 as part of the West Side Improvement Project. During the period from 1934 to 1982, the High Line was an active railroad servicing the warehouses and terminals adjacent to the active waterfront industries in this section of Manhattan. Since 1980, when the last train utilized the structure, it has been unused. In June 2005, the Federal Surface Transportation Board granted a Certificate of Interim Trail Use (CITU) to allow the High Line to be used as public open space in the Rails-to-Trails Program. The City of New York took title to the High Line from CSX Transportation, Inc. in November 2005.

During the period from 1934 to 1982, the High Line was an active railroad servicing the warehouses and terminals adjacent to the active waterfront industries in this section of Manhattan. Since 1980, when the last train utilized the structure, it has been unused. In June 2005, the Federal Surface Transportation Board granted a Certificate of Interim Trail Use (CITU) to allow the High Line to be used as public open space in the Rails-to-Trails Program. The City of New York took title to the High Line from CSX Transportation, Inc. in November 2005.

Property Description:	The High Line is an elevated 1.5-mile long freight rail line on the West side of Manhattan that has not been used since 1980. It was constructed between 1929 and 1934 as part of the West Side Improvement Project. During the period from 1934 to 1982, the High Line was an active railroad servicing the warehouses and terminals adjacent to the active waterfront industries in this section of Manhattan. Since 1980, when the last train utilized the structure, it has been unused. In June 2005, the Federal Surface Transportation Board granted a Certificate of Interim Trail Use (CITU) to allow the High Line to be used as public open space in the Rails-to-Trails Program. The City of New York took title to the High Line from CSX Transportation, Inc. in November 2005.

DER Facility ID:	275891
DEC Memo:	"Prior to Sept, 2004 data translation this spill Lead_DEC Field was SANGESLAND Sangesland responded to the site of a reported contaminated soil location. Owner of the site is excavating what was a parking lot in order to install footings for a new building. Upon excavation, the southwest corner of the property at 160 west 22nd St was found to have petroleum contaminated soil. After contacting DEC rep Mark Tibbe, it was determined that the property directly to the south (161 west 21st st) was a taxi company with an ongoing state PIN cleanup project. Mr. Tibbe stated that the parking lot at 160 west 22nd st did have 3 monitoring wells associated with the ongoing clean up. AKRF rep Mimi Sotiriou (212-340-9790) stated that all contaminated soil would be dug out, sorted, and shipped out with manifest for proper disposal. Since the contamination was only in the extreme southwest corner of 160 west 22nd st, directly adjacent to the property line of the taxi company and within 15 feet of the remediation equipment, it was clear where the source of the contamination was from. 11/1/2000 AKRF sent a letter to DEC stating that 228.75 tons of contaminated soil was removed from the site. AKRF stated that Petroleum contaminated soil was removed from along the southwest border of the property until no petroleum-like odors were observed.... ...Soil was transported to Mt. Hope Recycling of Wharton, New Jersey Since all contaminated soil was removed from this site, this spill number was closed out. IT SHOULD BE NOTED THAT EXISTING CONTAMINATION FROM THE PROPERTY AT 161 WEST 21ST STREET MAY HAVE AN IMPACT ON THE NEW BASEMENT WALL INSTALLED ON THE SOUTHWEST CORNER OF 160 WEST 22ND STREET. Spill closed 1/2/2001 "

DEC Memo:	"10/10/95: This is additional information about material spilled from the translation of the old spill file: GASOLINE ODOR. see also 8701176, 8701597 (SP97155), 9400302, 9403442, 0006798. (also addresses 160 W 22nd St, 166 W 22nd St) 3/18/04 Received phonecall from Kevin Kleaka, Impact Environmental. Excavation is planned for next Tuesday, 3/23. RAP was previously approved by M. Tibbe. DEC had requested 5day notification. Requested project manager return phonecall (631-269-8800 or cell 516-805-8892) when reassigned.(KMF) 3/22/04 Transferred from Tibbe to Foley. Rommel 3/23/04 Spoke to K. Kleaka, Impact Env. Excavation to begin tomorrow. Tanks have been out since approx 1992-1994. 3/31/05 Spoke to Scott Underhill, URS (518-378-8766). He was hired by Bank of NY to conduct a third party peer review. The bank is putting up funding for the development of the property. 4/5/05 Received update from K. Kleaka, Impact Env. In 3/04, they excavated 340tons of gasoline impacted soil. On 2/14/05, endpoint sampling from 8 locations was conducted and analyzed by 8021. On 3/15/05, additional endpoints were collected from 3 locations and analyzed by 8021. Additional excavation to mitigate residual soil contamination on the northwestern portion of the site will be conducted in 4/05. Construction of building is now to include a second sub-level which will require removing 3-5 feet of bedrock (bedrock is at 17'bgs). GW is at 11-14'bgs. 4/13/05 Spoke to K. Kleaka, Impact Env. They have excavated down to bedrock across most

ANN'S SERVICE CORP (Continued) **S102148346**

of the site. Not much water is accumulating and have not had to dewater. Will schedule site visit and discuss possible modifications to the RAP. 5/17/05 Site visit conducted with owner, Impact, URS and Bank of America. Currently chipping away at bedrock which is about 17'bgs. All soil removed. Almost no groundwater inflitration which is surprising since perched GW was detected at 11-14'bgs. Requested a water sample from the puddle in the NW corner of property. They are contemplating an ORC application. I recommended that if the GW was clean from the bedrock surface, that they not go ahead with ORC. If it is contaminated, they will do ORC pour and will need to monitor effectiveness. Well locations possible along W 21st. Inspected backyard of 166 W 22nd St which is about 8'bgs. Access for equipment, especially for bedrock drilling, would be very difficult but may be able to obtain perched gw samples. 6/6/05 Received results for three grab samples taken from the standing water on site, collected on 5/18/05. BTEX ranged from ND to 2005ppb and MTBE from 128ppb to 1080ppb. Owner requested that the ORC application be eliminated from the RAP. 6/8/05 Email to K. Kleaka and K. Lalezarian. Required that the ORC application be completed along with effectiveness monitoring. Impact to submit revised RAP. 9/9/05 Received revised RAP via email. During the period from 3/24/05 to 5/20/05, 3983 tons of petroleum impacted soil was excavated. It is expected that removal of all source materials will reduce the concentrations found on the perched watertable. However, to address the residual impacts, Impact Env. proposed ORC for bio-enhancement. It will be spread as a dry mixture and the natural formation will provide the water to activate the release. A 6mil vapor barrier and passive vent system will be installed. A MW will be installed along W 21st St. GW samples will be collected before and after the application, analyzed for VOCs and taking field measurements for DTW, pH and DO. Due to physical constraints, no wells are to be installed at 166 W 22nd St. 9/9/05 Approved revised RAP. As discussed with K. Kleaka, the ORC will be applied in a slurry in dry areas and directly mixed with accumulated water in the wet areas. 5/18/06 K. Kleaka, Impact Env, indicates a closure report will be submitted next week. 5/25/06 Reviewed site closure report. The remediation activities completed on the site included the removal and disposal of 3,982.92 tons of petroleum impacted soil and construction fill, confirmatory endpoint soil sampling, certified laboratory analysis, bio-remediation of perched groundwater, and the installation of a vapor barrier in conjunction with a passive subslab ventilation system. After detecting contaminants in soil, all soils were removed to the bedrock surface. 450lbs of ORC was introduced following the detection of VOCs on the perched groundwater. Concentrations of total VOCs in perched water ranged from 165ppb to 3556ppb. MW-1 was installed in order to monitor the effectiveness of the bio-remediation. However, the well did not produce any water and therefore could not be sampled. It appears that the actions taken are protective of human health and the environment."

Site Description: "Location: The LIRR West Side Yard Site (site) is located at the southeast corner of 12th Ave and W 33rd St in midtown Manhattan. This is the northwest corner of the Long Island Railroad's West Side Yard (WSY), where commuter trains which have discharged at Penn Station are stored for their next outbound trip. The West Side Highway lies immediately to the west. The northern end of the High Line Park traverses part of the site. Site Features: The site is largely flat, and is almost completely filled with railroad tracks. Small maintenance buildings are present along the western ends of the storage tracks. Current Zoning and Land Use: The WSY is currently used for the storage of passenger trains. Periodic and routine cleaning and washing of the interior of the passenger train cars is performed. The site is zoned for commercial use. Past Use of the Site: The WSY has been utilized for railroad operations for over 100 years. Location: The LIRR West Side Yard Site (site) is located at the southeast corner of 12th Ave and W 33rd St in midtown Manhattan. This is the northwest corner of the Long Island Railroad's West Side Yard (WSY), where commuter trains which have discharged at Penn Station are stored for their next outbound trip. The West Side Highway lies immediately to the west. The northern end of the High Line Park traverses part of the site. Site Features: The site is largely flat and is almost completely filled with railroad tracks. Small maintenance buildings are present along the western ends of the storage tracks. Current Zoning and Land Use: The WSY is currently used for the storage of passenger trains. Periodic and routine cleaning and washing of the interior of the passenger train cars is performed. The site is zoned for commercial use. Past Use of the Site: The WSY has been utilized for railroad operations for over 100 years. Currently and historically, the LIRR has not stored any petroleum products in tanks or bulk containers in the western portion of the WSY, nor has maintenance activities involved the use of petroleum products. This site was previously reported to and investigated under the Spills program as spill no. 0407411, beginning late 2004. Contamination was discovered in a soil boring on the site during a Phase II Environmental Site Investigation of the WSY for the NY Jets organization, which was then reported to the DEC. Site Geology and Hydrogeology: The northwest corner of the WSY is immediately underlain by a layer of historic fill, approximately 20 to 30 feet thick. Site contamination appears to have been co-deposited with this fill, which was used to extend the Hudson River shoreline westward circa 1900. Below the historic fill exists a native low permeable silty clay to clay unit. Groundwater is present beneath the WSY within the urban fill at a depth of approximately 5 to 7 ft bgs (below ground surface), flowing in a northwesterly direction. "
Env Problem: "Nature and Extent of Contamination: Prior to Completion of Remediation Based upon investigations conducted to date, the primary contaminant of concern is coal tar. Soil- The most significant visual evidence of contamination, including staining, hydrocarbon and naphthalene-like odors and elevated PID readings, was observed within the fill deposits in soil borings SB-05 through SB-08, between 15 and 40 feet below grade, and starting at least 10 to 20 feet below the water table. Seventeen of the 20 subsurface soil samples exhibited

LIRR WEST SIDE YARD (Continued) **S113916804**

detectable concentrations of PAHs, with total PAH concentrations ranging from 0.3 ppm in SB-03 (20.5 - 22.5 feet) to a maximum of 1,818 ppm in SB-05 (25 - 27 feet), adjacent to the West Side Yard along the east side of 12th Avenue in the vicinity of the historic observed area of contamination. This sample had visual evidence of contamination, which also exhibited the highest BTEX concentration, but were below the Industrial Use SCOs. Soil samples from SB-06 (21 - 23 feet) and SB-08 (30 - 33 feet) were sent for forensic fingerprint analysis. The analysis suggests that the sample contained pyrogenic material derived from coal and not petroleum, and the PAH distribution was very similar to tars formed from MGPs utilizing carbureted water gas processes. Groundwater- NAPL was not identified in any of the groundwater monitoring wells. However, six of the 17 groundwater samples identified BTEX and PAH compounds at concentrations above Class GA standards. These samples were collected at or in the vicinity of soil borings which exhibited soil contamination and were screened at a depth intercepting the zone of soil contamination observed at 15 to 40 feet below grade. Off-site wells demonstrate that this contamination is not migrated farther off-site. Soil Vapor and Indoor Air- Soil vapor and indoor air have not been evaluated."

Health Problem: "Since the site is fenced and covered by asphalt or concrete, people will not come into contact with site related soil and groundwater contamination unless they dig below the surface. People are not drinking the contaminated groundwater because the area is served by a public water supply that is not affected by this contamination. Volatile organic compounds in the groundwater may move into the soil vapor (air spaces within the soil), which in turn may move into overlying buildings and affect the indoor air quality. This process, which is similar to the movement of radon gas from the subsurface into the indoor air of buildings, is referred to as soil vapor intrusion. Currently there are no occupied buildings on the site. The potential for soil vapor intrusion on- and offsite areas should be evaluated if a change of use is proposed. "

DEC Memo:	"Prior to Sept, 2004 data translation this spill Lead_DEC Field was VOUGHT 01/05/90: (6) MONITORING WELLS INSTALLED,OIL TANKS BEING TESTED BY CONTRACTORS(TRINITY & FENLEY & NICOL), ALL TANKS PUMPED & CLEANED, REPAIRING WATER MAIN. 10/10/2003-Vought-Spoke with LaJuana Smith (works for Clinton Housing-212-967-1644) and she is looking to resolve spill). In Nov 1996 DEC required further work from DEC. Ms Smith will call back on Wed for current site status and will possibly submit FOIL request upon her discussion with bank. 10/17/2003-Vought-File review by Vought: Community Board 4 Meeting Notice-2/21/90-Meeting held with DEC, NYFD, NYPD, DCA and NYCDEP to

BP AMOCO (Continued) **S100167794**

discuss current status and plans of site. Fax to DEC from Gaseteria-2/22/90-Pedneault Associates (516-467-8477)-Groundwater analyticals from six monitoring wells and two soil disposal piles (no site plan in file). Groundwater analyticals show 275ppb benzene(W1), 341ppb benzene(W2), 327ppb benzene(W3), 448ppb benzene(W4), 158ppb benzene(W5) and 128ppb benzene(w6). Disposal samples show 1433ppb benzene(east pile) and 188ppb benzene(west pile). Groundwater analyticals-5/21/90-Pedneault Associates-Groundwater analyticals from six monitoring wells (no site plan in file). Groundwater analyticals show 2308ppb benzene(W1), 1091ppb benzene(W2), 680ppb benzene(W3), 385ppb benzene(W4), 736ppb benzene(W5) and 810ppb benzene(w6). Subsurface Investigation-7/90-Environmental Management Services. In Jan 1990 a subsurface water line broke beneath 10th avenue near the northwest side of the site. Water entered the basement of the adjoining building along with some gasoline. DEC required installation of six monitoring wells on Gaseteria property. Gasoline vapors detected in sewers in building across 10th Avenue. This subsurface investigation consisted of eight soil borings and installation of two additional monitoring wells. Three pump islands serviced by 12 (550-gallon) gasoline USTs and one (2000-gallon) diesel UST. Local topography slopes to the north. Groundwater at depth of 7-9' below grade. Bedrock is 7-11' below grade and slopes downward toward the northwest and southwest corners of site. Groundwater suspected to flow northward . All wells onsite were set firmly on bedrock and there is not sufficient information available to determine specific groundwater flow . No free product detected in wells. Groundwater appears to flow from 10th Ave towards the USTs. Report recommends groundwater monitoring with possible additional delineation. No soil samples submitted for analysis nor were screened via PID. Letter from DEC to Gaseteria-7/12/90. Letter from DEC (Sigona) to Gaseteria (Oscar Porcelli) requesting subsurface investigation work plan to be apporoved by the DEC to investigate the presence of gasoline vapors. Plan must be received by the DEC by 7/17/90. Odor complaints in January 1990 and again in July 1990. Sigona performed site visit on 7/13/90. Fax to DEC-7/17/90. Letter from Environmental Management Services to DEC (Sigona) proposing: 1)investigation of subsurface utilities as potential pathways 2)determination of groundwater flow direction 3)groundwater monitoring 4)installation of six soil borings along western margin of station and installation of two additional monitoring wells. Letter from DEC to Gaseteria-1/5/95. Letter from DEC (Sigona) to Gaseteria (Angel Chang) requiring cleanup and removal of discharge . Letter also required immediate steps to abate seepage into basement of 403 W 40th Street. Response from Gaseteria required to DEC by 1/15/95. Letter from Gaseteria to DEC-1/20/95. Letter from Gaseteria (Chang) to DEC (Sigona) stating that Gaseteria will: 1) divert the flow of surface water away from the south wall of the building 2)install a SVE system in the basement alonside of the south wall between the concrete floor and the building foundation. Gaseteria does not believe there is a need to install new groundwater monitoring wells or to further develop existing wells.....since the problem appears to be surface related . Sample analyticals from basement of 480 10th Ave-8/96. Soil analyticals show 20664ppb ethylbenzene(sample 48334), 59164ppb xylene(sample 48334), 11000ppb napthalene(sample 48334). Letter from DEC to Gaseteria-9/10/96. Letter from DEC(Rommel) to Gaseteria(George Esayan). DEC in possession of analyticals from Clinton Housing(403 W. 40th Street) . Gasteria required to sample two

BP AMOCO (Continued) **S100167794**

of the onsite monitoring wells for 8021/8270/lead. Letter from Clinton Housing Development Company-9/11/96. Letter from Clinton(Joseph Tuana) to DEC(Rommel) with copies of analyticals discussed above. Letter from Carl Sulfaro (attorney for Gaseteria) to DEC (Rommel)-9/20/96. Letter stating that Sulfaro authorized EMS Environmental Services to take two samples of the onsite monitoring wells . Samples will be taken 9/27/96. Groundwater analyticals-10/10/96. Analyticals from MW5 by EMS showing 42.56ppb methylene chloride, 5549ppb benzene, 107.33ppb toluene, 1024.75ppb ethylbenzene, 393.15ppb xylene and 0ppb MTBE. Letter from Clinton(Kathy Prioleau) to DEC(Rommel)-11/11/96. On 10/27/96 strong fumes entered basement of 480 10th Ave . NYFD onsite. Letter requests that DEC relay information on testing done at Gaseteria and UST inspection of Gaseteria . Letter from DEC(Rommel) to Gaseteria(Sulfaro)-11/25/96. Letter stating that requirements of fax dated 9/10/96 were not met because only one well was sampled and 8270/Lead analyses were not performed. Letter requires:1)submittal of an investigation plan to delienate soil and groundwater contamination 2)source determination 3)installation of three additional monitoring wells 4)installation of an air sampling port on the exhaust line of the venting system and monthly sampling for benzene and THC. Letter states that action must be taken within 45 days . Letter from DEC(Rommel) to Prioleau(Clinton)-11/26/96. Letter stated that DEC was never notified of odor complaints as 11/11/96 letter stated. Also attached to letter was copy of 11/25/96 letter from DEC to Gaseteria. Letter from Gaseteria(Sulfaro) to DEC(Rommel)-1/15/97. Letter stating that Gaseteria would prefer to perform site investigation, soil removal and/or remediation as needed concurrent with excavation anticipated as part of Federal EPA UST upgrade mandate and the work is expected to take place in Spring 1997 . Letter from DEC(Rommel) to Gaseteria(Roberto Porcelli)-7/29/98. Letter serving as final notification of obligations regarding petroleum contamination and vapor incidents . On 6/28/03 petroleum contaminated groundwater infiltrated basement of 480 10th Ave due to heavy rains. This is the seventh vapor complaint associated with Gaseteria since Jan 1990 . Letter states that the Department is alotting 30 days for Gaseteria to statisfy all requirements in DEC letter dated 11/25/96 . Deadline of 8/31/98 given by DEC. Letter from Gaseteria(Seth Friedland) to DEC(Rommel)-8/13/98. Letter stating that the June 1998 episode was caused by heavy rains and appears to be an isolated event and that Gaseteria does not agree with Departments conclusions . Letter stated that the station will be taken out of service on 9/15/98,permanently close the USTs and reinstall upgraded USTs on the northern boundary of the site. Letter from DEC(Rommel) to Gaseteria(Roberto Porcelli)-8/28/98. Letter serving as a reminder of 8/31/98 deadline . Letter from Gaseteria(Oscar Porcelli) to DEC(Rommel)-8/28/98. Letter stating that new USTs were ordered and that work will start the second week of September. Gaseteria intends to install four monitoring wells to replace those destroyed by station upgrade and will retain Environmental Management services to develop remedial plan. Letter from DEC(Rommel) to Gaseteria(Oscar Porcelli)-8/31/98. Letter confirming phone conversation where an agreement was reached that Gaseteria will comply with following requirements and complete the tank upgrade prior to 9/30/98. Letter also required that a workplan be submitted prior to 9/4/03 which included 1)complete delineation 2)soil and groundwater sampling plan for use during excavation activities 3)sampling of SVE emmissions 4)installation of

BP AMOCO (Continued) **S100167794**

three monitoring wells into bedrock and 5)cleaning and proper disposal of oil in the building floor drains and all associated discharge points. Letter from Camin Cargo Control(Gaseteria's Enviro consultant) to Gaseteria-10/5/98. Letter from Camin(Patricia Badding) stating that a site investigation and report shall be prepared. Investigation with Geoprobe and subsquent insallation of monitoring wells scheduled for 10/16/98. Soil samples will also be collected during excavation for new USTs. Venting system emissions will also be sampled. Cleaning and proper disposal of any oil in the building floor drains and all associated discharge points is the responsibility of Gaseteria . Letter from DEC(Rommel) to Gaseteria(Oscar Porcelli)-10/8/03. Letter acknowledging receipt of Camin 10/5/98 proposal and requiring the following by 10/13/98: 1)Site plan with proposed boring locations 2)discussion of locations 3)discussion of endpoint sampling locations from UST excavation 4)discussion of delineation procedure 5)include MTBE with analyticals 6)collect groundwater samples from Geoprobe locations. Letter from Camin(Badding) to DEC(Rommel)-10/13/03. Submission of 1)site plan with ten boring locations 2)Collection of six endpoint soil samples from UST excavation 3)excavation and disposal of contaminated soil encountered during tank installation 4)Inclusion of MTBE analyticals 5)collection of groundwater samples(if encountered). Investigation Results from Camin(Badding) to DEC(Rommel)-11/6/98. Results of eight soil borings peformed. Soil analyticals show 2149ppb MTBE(SB1), 526ppb benzene(SB2), 188ppb benzene(SB4), 212ppb benzene(SB5), 4576ppb MTBE(SB6), 1458ppb benzene(SB7), 29114ppb napthalene(SB7), 187ppb benzene(SB8). Groundwater analyticals show 1239ppb benzene(SB4), 1975ppb benzene(SB5), 5360ppb benzene(SB6). Subsurface Investigation Report Camin Badding 908-523-0616 10/16/98). Investigation report including results above of eight soil borings performed. There is approximately 2-4 inches of contaminated soil at the soil/bedrock interface in soil boring locations SB2, SB4, SB5, SB7 and SB8. Bedrock at depths of 6-11.5' below grade . A sheen was detected on all samples (groundwater). Venting system was samples on 12/11/98 via a vacuum canister attachment to vent. Removed dispenser island is the proposed location of new USTs. See analyticals above. Venting analyticals show 264ppm TPH and no other volatiles. Baseline Acquisition Assessment Report-10/10/02 Delta Environmental (Brad Fisher). Purpose was to establish baseline conditions prior to proposed lease and raze and rebuild of site by BP. One soil borings peformed in 4/02 to depth of 11.5'. Two borings drilled to 24.5 via air rotary and converted to temporary monitoring wells (MW1 and MW2). Delta recommends 1)gaseteria install permanent monitoring wells to delineate contamination. It is Delta's understanding that Gaseteria will retain the environmental liability of the subject site until spill closure has been obtained . At time of assessment three USTs on site (two 6000-gallon gasoline USTs and one 6000-gallon diesel UST) and four pump islands with six dispensers. Surrounding area is multiple story apartment buildings. Groundwater is located within bedrock fractures at depths between approximately 12.5 and 13.5 ft bgs . Former USTS onsite which were CLOSED IN PLACE include two (6000-gallon) gasoline USTs in 1998 , one 6000-gallon diesel in 1999, ten 550-gallon gasoline USTs in 1998, one 550-gallon waste oil in 1998 and one 550-gallon fuel oil in 1996. Soil analyticals show 4570ppb xylenes(SB1) and 3970ppb isopropylbenzene(SB1) from depths of 10-11.5'. Groundwater analyticals show 148ppb benzene(MW1), 24800ppb MTBE(MW1) and 30.7ppb benzene(MW2). 10/21/2003-Vought-Reviewed site

BP AMOCO (Continued) **S100167794**

with DEC(Rommel). Sent Stipulation Agreeement with the following requirements: 1)Groundwater delineation via installation of bedrock monitoring wells at former boring locations SB1, SB4, SB5, SB6, SB7 2)Monitoring of vapors and groundwater intrusion 480 10th Ave 3)current status of SVE system and submittal of historic and current SVE effluent samples for benzene analysis or collection of indoor air samples from 480 10th Ave. 10/24/2003-Vought-Called LuJuana Smith (212-967-1644) and left message and explained requirements of 10/21/03 letter. 10/27/2003-Vought-Received message from Steve Muller will be taking indoor air samples from 480 10th Avenue. Vought returned call to Muller (516-395-5957). 10/28/2003-Vought-returned call to Steve Muller to discuss indoor air samples. Left message to return call to DEC. Left message for LuJuana Smith to call DEC. Vought spoke with Muller and okayed PID and stated that SUMA sample as per NYSDOH guidance was not necessary until 1)closure of SVE system or 2)PID indications of petroleum vapors followed by subsequent remediation. Vought also instructed Muller to check sumps. Vought spoke to LuJuana Smith who will be sending in FOIL Request for continuous updates on site. Vought also called Muller and gave him LuJuana's phone (212-967-1644) for access arrangements. 11/6/2003-Vought-Spoke with Steve Muller who was onsite. No PID readings and no olfactory evidence of petroleum and no groundwater infiltration into basement and no product in sump. Muller will produce summary letter and send to DEC. 11/7/2003-Vought-Received Summary Letter from Applied Geosolutions(Muller). Site visit performed on 11/6/03 and inspection of basement at 480 10th Ave. AGS observed no olfactory detection of odors or vapors consistent with hydrocarbons related to gasoline . PID readings of 4.8ppm were attributed to moisture in basement. Small amount of standing water present near leaking hose. No signs of product in sump. Vapor abatement system unoperational during site visit. Photos of basement submitted with report show no free product or petroleum impact. 11/24/2003-Vought-Received signed STIP from Adam Good(Gaseteria) with revised Corrective Action Plan. 11/26/2003-Vought-Spill transferred from Rommel to Vought. Vought received call from LuJuana Smith and she requested update. Vought faxed her copy of 11/7/03 report and letter sent to Gaseteria on 10/21/03. Vought submitted STIP for implementation to DEC Kunkel. 12/2/03-Vought-STIP implemented by Kunkel. Copy sent and faxed to Good and Muller. 12/17/2003-Vought-See closed spill 0301220 at same location. 9/14/04-Vought-New file review by Vought: Letter from Applied Geosolutions (Steven Muller 516-395-5957). On November 6, 2003 Applied Geosolutions inspected the basement of 480 10th Avenue to perform vapor monitoring and to identify the presence of groundwater . During the inspection AGS observed no olfactory detection of odors or vapors consistent with hydrocarbons related to gasoline. The air space was monitored with a portable PID indicating a measurement of 4.8 ppm... This detection is likely the result of low atmosheric pressure followed from periods of rain causing the basement to be damp. The basement floor did not indicate the presence of groundwater... . Line and Dispenser Upgrade Report (Delta Environmental Brad Fisher 914-765-8180). This Line and Dispenser Report summarizes the results of pump island and product piping upgrade assessment activities conducted by Delta Environmental and Gasoline Installations on behalf of BP Products North America . Work performed included the removing and installing new spill containment boxes beneath each dispenser, removal and replacement of propduct piping and installation of electronic line leak detection

BP AMOCO (Continued) **S100167794**

systems. Soil analyticals onlly show minor TAGM 4046 SVOC exceedences attributable to fill. Subusurface Investigation Workplan (Applied Geosolutions)-July 2004. Bedrock at depth of 10' below grade and groundwater at depth of 12.5-13.5' below grade. Report proposes installation of four wells via air rotary followed by groundwater sampling. Groundwater flow direction not determined as of yet. 9/14/04-Vought-Sent letter to Gaseteria approving of Subsurface Investigation Workplan. Vought received message from Lujuanna Smith (212-967-1644) and returned call. Vought spoke to Smith and no indication of vapors was noted. Ms. Smith requested info on the applicability of the BCP program for 480 10th Avenue and Vought replied that was only available if HPD was willing to take responsiblity of the spill and that she should call Albany for futher information. Vought also suggested that she return the call to DEC on 11/14/04 which is when the workplan results are due to DEC. 9/17/04-Vought-Received fax from Applied Geosolutions (Muller). 466 10th Avenue-AGS is currently getting drilling quotes and will complete the Workplan within the 60 day time frame . 1/6/05-Vought-Reviewed Subsurface Investigation Summary Report (Applied Geosolutions) dated December 2004 and received on 1/3/05. Location north of USTs not possible due to concrete with rebar. Installation of three monitoring wells. Groundwater from 7-11' bgs and flow to the west. Groundwater analyticals show 48ppb xylene(MW1), 13ppb 1,2,4-trimethylbenzene(MW1), 17ppb 1,3,5-trimethylbenzene(MW1), 26ppb napthalene(MW1), 1400ppb MTBE(MW1), 23ppb MTBE(MW2), and 20ppb MTBE(MW3). The existing groundwater monitoring wells should be monitored on a monthly schedule and sampled on a quarterly schedule to document changes in groundwater elevation and contaminate concentration trends in order to develop and appropriate remedial strategy . DEC requires: 1)installation of monitoring wells on West 37th Street north northeast of site and downgradient from abandoned tankfield along 10th Avenue. 1/19/05-Vought-Meeting at DEC with ASR Tomasello. Will examine possibility of borings across 10th Avenue (may not be possible due to utilities) and also onsite adjacent to 480 10th Avenue. If onsite boring adjacent to 480 10th Avenue is not possible then boring will be installed on 37th Street. 2/17/05-Vought-Spoke to Muller and site visit scheduled for 2/24 at 10am to discuss possible well installation locations. 2/24/05-Vought-Site meeting with ASR Tomasello and no borings possible across 10th Avenue. Well will be installed onsite under canopy downgradient of abandoned tankfield. Well will also be installe on West 37th Street north northeast of site. Obligado- SITE TRANSFERRED FROM VOUGHT TO OBLIGADO 10/12/05 - Spoke with Tomasello ASR, requests to talk about closure for sp0206783. 10/17/05- Obligado - File Review: Final Subsurface Investigation Report, dated June 2005. 4 monitoring wells installed at the site. Wells were installed into Bedrock down to 25 ft bgs. 3 wells installed in December 2004, one additional well installed in March 2005. Groundwater encountered at approximately 7 to 11 feet. No product encountered. Initial gw samples in Dec. 2004 show ND for Benzene in all wells, 1400 ppb MTBE (MW-1), 23 ppb MTBE (MW@), 20 ppb MTBE (MW-3), 48 ppb Xylene (MW-1). March 2005 gw results show 140 ppb benzene (MW1), 2100 ppb MTBE (MW-1), 26 ppb benzene (MW-3), 16 ppb MTBE (MW-3). June 2005 results show 45 ppb benzene (MW-1), 11 ppb Ethylbenene (MW-1), 750 ppb MTBE (MW-1), 52 ppb benzene (MW4), 10 ppb toluene (MW-4), 170 ppb Napthalene (MW4), 55 ppb MTBE (MW4), 193 ppb xylenes (MW-4). 4Q05 Monitoring Report, dated 10/15/05. Ground water analyticals at show

BP AMOCO (Continued) **S100167794**

20 ppb benzene (MW-1), 580 ppb MTBE (MW1), 23 ppb MTBE (MW-2), 21 ppb benzene (MW-3), 15 ppb MTBE (MW-3), 16 ppb benzene (MW-4), 52 ppb ethylbenzene (MW-4), 140 ppb MTBE (MW-4). 11/14/05 - Obligado - Site visit with ASR Tomasello. Request to see at least 2 more quarters of monitoring at a minimum. 12/8/05 - Obligado - Will do a sensitive receptor survey. Continue monitoring. Only 2 quarters of data at MW4. 3/1/06 - Obligado - PHone call with Chris/STeve, ask that site be monitored quarterly not monthly. 4/12/06 - Obligado - review 1Q06 monitoring report. BTEX ND to 33 ppb, MTBE ND to 800 ppb. 11/21/06 - Obligado - Reviewed Closure Petition/Sensitive Receptor Survey. Sent email to ASR denying NFA stating the following: Due to historical vapor issues in the adjacent apartment, and the presence of benzene above guidance levels in ground water, the Department requires laboratory analyzed vapor samples from either the slub slab system (if operational) or indoor air samples to confirm no vapor intrusion. The Department also requires an additional round of ground water monitoring to confirm benzene and MTBE levels are still decreasing. NYSDOH Vapor Intrusion Guidance should be followed when collecting air samples available at http://www.health.state.ny.us/environmental/investigations/soil_gas/svi_guidance/index.html. Please submit the results of the additional investigation by January 21, 2007. 12/1/06 - Obligado - Steve Muller will be onsite today to collect addtional data. 5/19/09 - Obligado - Meeting with DEC, ASR, GAseteria. They conducted a groundwater monitoring event and a vapor intrusion investigation in the adjacent residential building. According to report no Vapor intrusion was occuring. Ground water results found low levels of BTEX in GW, max 23 ppb and MTBE is continuing to decrease from 1400 ppb in 2004 to 250 ppb in 1Q09. They will submit a workplan for a confirmatory soil boring investigation by 7/31/09. 11/20/09 - Obligado - Reviewed a revised Investigation Work Plan. The plan proposes to install 3 montioring wells at the site. 2 wells are proposed in the area of the former abandoned 550 USTs and one is downgradient of the dispenser island. I sent a letter to Gaseteria approving the plan. 3/22/10 - Obligado - Review the 4th quarter 2009 monitoring report. Max BTEX is 8 ug/L. Max MTBE is 140 ug/L. No LNAPl present. 6/14/10 - Obligado - I reviewed the Remedial Investigation Report. 2 Additional soil boring/monitoring wells were installed. 1 soil boring/well location was not completed due utilities in that area. Soil samples were collected from one of the 2 locations, but the other location had shallow bed rock so no soil sample was collected. No soil impacts were detected at the one location where soil was collected. Ground water results showed 13 ppb total BTEX at newly installed MW5. MW6 had no exceedences of TOGs The existing monitoring wells were sampled as well. MW4 had max MTBE at 150 ppb, and BTEX at 14 ppb, and total VOCs were 174 ppb. MW2 had 15.3 ppb BTEX and 11 ppb MTBE. This site has minimal ground water impacts the 6 wells on the site, and lack of evidence of contaminated source soils. Also a VI investigation was previously performed at the adjacent apartment building and no vapor intrusion was determined to be occuring. After discussion with DEC Tibbe, this spill has been closed. "

DEC Memo:	"8/31/06 - ttf letter sent. bf. 10/16/06 received a letter from Anthony Lara of Petroleum Tank. tank was encased in concrete (#6 fuel oil). tank was pumped out and cleaned. fill line was cemented tank was removed from site. bf 11/8/06 spoke to Anthony Lara. needs to send disposal manifests. bf 1/31/07 spoke with A. Lara. He will fax manifest for waste tomorrow morning. According to him, there was one drum of material. bf 3/14/07 Spoke with A. Lara. He said it was two drums of material. Sent me a copy of invoice to show this. No closure application received. This case can not proceed without closure of the tank. Called A. Lara back and told him this. Faxed PBS closure application to him. fax: (718)858-4268. bf 3/26/07 On 3/21/07, received letter and closure application for tank. NFA. bf"

DEC Memo:	"Prior to Sept, 2004 data translation this spill Lead_DEC Field was TIBBE 11/18/94: REASSIGNED FROM SIGONA TO ZHITOMIRSKY ON 11/18/94. transfered from Hale to Tibbe. see also 94-05274 & 98-05205. Piping repaired, spill investigation, investigation/remediation ongoing. 11/12/10 - spill re-assigned from Tibbe to Joe O'Connell 5/19/2011 The spill was reassigned from Joe O'Connell to Linda Ross 3/2/12 - Raphael Ketani. During February 2012, the spill case was reassigned to me. I reviewed the Work Plan for Monitored Natural Attenuation Program. The USTs in question failed their tightness tests during 1993. Subsequent to this, 430 gal. of diesel were collected from the water table. The subsurface is tidally influenced with a smear zone from 4 feet to 15 feet below grade. During 2002, bioremediation was conducted. The soil results from 3/18/03 showed very high concentrations for specific VOC analytes in the tens of thousands of parts per billions for the samples from SB-01 from 9 to 11 feet bgs, and from SB-02 from 5 to 9 feet bgs. The groundwater results were from non-detect to just slightly above standards. TCLP results were from non-detect to very low hits. No product has been seen on the water table since 2004. Groundwater sampling had been taking place quarterly at W-5, W-20, W-21, W-23 and W-24. From the review of the data, it appears that a new round of soil sampling should take place in order to confirm subsurface conditions. Later, John Lysiak of URS (the consultant for the MTA bus depot program) sent me tables of soil and groundwater analytical data from samples that were taken after 2003. I reviewed the data. The first sets of tables listed the total VOCs in parts per billion for each interval sampled for each boring (i.e. SSP-6: 5'-7'; 9,565 ppb total VOCs; 7'-9'; 35,318 ppb total VOCs; etc.) and then the total SVOCs (see the e-doc title DEC Hand Tabulation of Totals). These tables were followed by others listing the individual VOC analytes and the individual SVOC analytes for each interval sampled for each boring. I looked at only the latest sets of data for each boring. These were usually sets of data for samples collected during 2010 or 2011. While there sometimes were exceedences of particular VOC analytes that were double the standard or more, there were usually only one or two exceedences per sample. Sometimes the exceedence(s) was accompanied by analyte hits that were well below standards. So, even though the VOC totals looked very high, the total value was mostly one analyte (i.e. 61,000 ppb of n-propylbenzene with a total of 61,636 ppb). Also, the exceeding analyte(s) was usually a degradation product of benzene. In short, the VOC contamination was low. However, the 10' to 11' sample from

NYCT HUDSON DEPOT (Continued) **S100177042**

SSP-2 taken on 7/17/08 had 12,000 ppb of n-propylbenzene. The 5' to 7' sample from SSP-4 taken on 1/12/09 had 61,000 ppb of p-isopropyltoluene. The 9' to 11' sample from SSP-5 taken on 8/26/09 had 48,000 ppb of p-isopropyltoluene. The 7' to 9' sample taken from SSP-6 on 6/2/10 had 10,000 ppb of n-propylbenzene. The 11' to 13' sample from SSP-7 taken on 11/13/09 had 12,000 ppb of n-propylbenzene. The individual SVOC exceedences were almost exclusively those of the benzo series and the associated combustion products (chrysene, dibenzo(a)anthracene, indeno(1,2,3-cd)pyrene). While the exceedences may have been ten times the standard or more, they were not above several thousand parts per billion. Anthracene, acenaphthene, acenaphthalene, naphthalene, phenanthrene and pyrene were typically low throughout all of the soil samples. In total, the analytical results were very similar to those of historical fill, and not an oil spill. Recent groundwater samples were also taken from 2009 to 2011. The results were almost entirely non-detect for all of the samples. In some samples there were estimated values, but these were typically only slightly above the standards or below the standards. The groundwater didn't seem to be affected by the spill. This was probably due to the years of tidal flushing. I was informed that letters to the NYCT should go to: GREGORY MATHELIER CONSTRUCTION ADMINISTRATOR UST & ENVIRONMENTAL REMEDIATION PROGRAM ON-CALL PROJECTS/ CAPITAL PROGRAM MANAGEMENT MTA NEW YORK CITY TRANSIT 2 BROADWAY, D2.91, NY 10004 PHONE: 646-252-3470 FAX: 646-252-3140 E-MAIL: GREGORY.MATHELIER@NYCT.COM 3/12/12 - Raphael Ketani. A search of the PBS database did not reveal a registration for the two side by side tanks, nor the other two tanks to the north. I sent an e-mail to Toni Watts of the Safety Division of the NYCT (646) 252-5939/Toni.Watts@NYCT.com requesting that the tanks be investigated and that a PBS registration be established. I added that the lack of a registration was a violation of 6NYCRR Part 612. Ms. Watts found the PBS registration. It is #2-190284. However, it lists 6 above ground tanks. Not the two USTs that were of concern. The document doesn't list what type of fuels were in the tanks. 3/13/12 - Raphael Ketani. Gregory Mathelier of NYCT (646) 252-3470 called. He said that he is the point of contact for all correspondences regarding NYCT sites which are under the Consent Order. We discussed the tank registration for the site. I commented that there used to be a 550 gal. UST north of the twin large tanks and also a 5,000 gal. heating oil UST. These tanks were removed some time ago. I also stated that the twin 7,100 gal. tanks are not indicated as being either USTs or ASTs. Mr. Mathelier said that the 7,100 gal. tanks are USTs. I responded by saying that all four tanks had to be added to the PBS registration for the site as they were not on there. I added that this was a violation and that the spill would not be closed without a proper PBS registration. Mr. Mathelier said that he will take care of this. Later, Mr. Mathelier sent me an e-mail containing a map showing the 4 USTs in question and a PBS registration form indicating that the twin 7,100 gal. USTs are registered. As Mr. Mathelier explained and as the map shows, the 550 gal. UST and the 5,000 gal. UST are on NYC DOS property, not the NYCT property. 3/15/12 - Raphael Ketani. A case review meeting took place today. In attendance were Hassan Hussein, EE 3 and head of the Hazardous Materials Unit, myself and the other members of the unit. The soil and groundwater analytical data were presented. Staff at the meeting stated that more information was needed in order to understand the case. Kevin Connare of URS (716) 856-5636 (the NYCT consultant) was

NYCT HUDSON DEPOT (Continued) **S100177042**

contacted by phone and a teleconference ensued. Mr. Connare explained that the tanks were closed by cleaning them and then pumping in concrete slurry. The oil was first addressed by pumping and treating. About 430 gallons of product were collected from 1994 to 1997. A sheen hasn't been seen since at least a year ago. During April 4 to 7, 2002, RegenOx was pumped into 5 existing wells. Each well received 100 gal. of a mixture. There were 7 injection events. This work was done by Fenley & Nicol. RegenOx was pumped quarterly into the wells during 2007. Monitored natural attenuation was allowed to reduce the soil analyte concentrations since 2007. This involved taking confirmatory samples quarterly since 2007 and up until last fall. Since 1999, groundwater samples have been taken bi-annually. I asked Mr. Connare about the boring locations that were marked on one of the site maps which extend well north of the site. He stated that these were done in 1994 and 1995 by ADT and he knew nothing about them. 3/29/12 - Raphael Ketani. A case review meeting took place today. In attendance were Hassan Hussein, EE 3 and head of the Hazardous Materials Unit, myself and the other members of the unit. The soil and groundwater analytical data were presented. Kevin Connare of URS (716) 856-5636 lead the meeting. Mr. Connare stated that a comprehensive report will be submitted to the DEC regarding the site in the near future. 4/26/12 - Raphael Ketani. During this monthly meeting, the consultant, URS, stated that there was no remediation or monitoring activity at the site. Previous soil sampling via monitored natural attenuation was being allowed to reduce the analyte concentrations. Staff at the Department expressed concerns that no soil samples had been taken on the east side of the twin tanks and that the last set of soil results showed up to 60,000 ppb and 70,000 ppb of particular analytes in the soil on the west sides of the tanks. Staff from the NYCT stated that a petition for closure will be submitted. 1/31/2013 - Raphael Ketani. I received the URS Petition for Spill Closure Report dated January 2013 and began my review. 2/5/13 - Raphael Ketani. I finished my review of the Petition for Spill Closure Report. In summation from the report: Groundwater is present below the site from 4 to 8 feet below grade with a 4 foot tidal fluctuation. The ground below the site contains a thick layer of artificial/anthropogenic fill - from the soil analytical chemistry and the boring logs, the fill appears to be ash and cinder with wood, concrete, brick and other manmade materail. The twin 7100 gal. UST systems were integrity tested during September and October 1991 and each system failed its respective test. According to the closure report, the failed portion of the systems was the piping. A subsurface investigation took place during 1993 and 1994 and a plume of oil was discovered on the water table. Wells W-1 to W-3 were installed during July and August 1993 and up to 4.26 feet of oil was found on the water table. The plume turned out to be diesel fuel from the twin 7100 gal. UST systems and fuel oil from a UST under the adjacent NYC DOT site to the north. An estimated 550 to 1100 gals. of product was lost from the NYCT UST systems. From April to June 1994, wells W-5 to W-7 were installed. A sheen was present in W-5. In 1994, wells W-8, W-11, W-13 to W-17 were installed. A product recovery system was installed and operated from June 1994 to December 1997 when recoverable product was no longer present. About 430 gals. of product was recovered. During December 1998, the USTs were cleaned out and abandoned in place with sand. During January 1999, borings GP-1 to GP-4: GP-1 to GP-3 were installed around the tanks and GP-4 was installed in the vicinity of the pump house. All of the borings

NYCT HUDSON DEPOT (Continued) **S100177042**

had odors and product. During February 2000, wells W-19 to W-23 were installed west, north and south fo the USTs. No wells were installed east of the USTs due to the bike path. During September 2000, borings GP-5 to GP-10 were installed to the south, north, east and west of the USTs. During 2002, the bioremediation program was started. Monitored natural atttenuation was started during May 2007. From May 2007 to June 2011, quarterly soil and groundwater sampling took place. Residual VOCs and SVOCs were found in the soil and the absence or minor presence of VOCs in the groundwater. Wells W-25 and W-26 were installed northeast and southeast of the USTs during July 2007 and had a few soil VOCs above CP-51 standards, but few SVOCs. Confirmatory soil borings SSP-1 to SSP-3 were installed on the west side of the USTs in order to minimize disruptions to the bike path. Soil borings up to SSP-10 were sampled from 5 to 15 feet below grade between June 2007 and July 2011 at consecutive 2 foot intervals. On June 2, 2010, the NYCT did in-situ chemical oxidation by injecting RegenOx into some wells. No product has been seen on the groundwater since 2010. The last soil sampling event took place during June 2011 and showed VOCs in only one of the three borings and SVOCs in two of the three borings. Only one groundwater sample had VOCs above standards. Quarterly sampling stopped as agreed upon by the NYCT, DEC and URS as it was agreed that the site was a candidate for closure. As part of the decommissioning of the wells, ORC solution will be mixed into the backfill for the wells before plugging and abandoning them. However, historical soil hot spots had been identified at locations SB-01 and SB-02, GP-06 and GP-07, SSP-01, SSP-02, SSP-04 to SSP-07 and SSP-09. Many of these moderate to very high VOC exceedences were from soil samples taken during 2009 to 2011. So, it is not clear whether the analytes would have been reduced by natural weathering during the past several years to the present. Confirmatory soil sampling needs to be performed. Though, no product has been seen during 2012 and the groundwater results do not show more than low exceedences of the TOGS 1.1.1 standards. Additionally, no borings or wells were ever installed on the east side of the east UST. Despite the bike path, there is a need to find out what is below the surface under this area. The soil results for GP-06 and GP-07 suggest that elevated concentrations of the analytes may be present. Because of the VOC exceedences in the soil samples from the recent past and the lack of information regarding subsurface conditions east of the twin USTs I could not close the spill case. I drafted a letter to the NYCT requesting a work plan for conducting confirmatory soil borings to the west of the USTs and new soil borings and new wells east of the USTs. The letter was submitted to Hassan Hussein, supervisor of Unit C Region 2 DER, for his approval. Mr. Hussein approved the letter and it was sent out with a due date of March 22, 2013 for submission of the work plan for doing the requested borings and wells. 3/22/13 - Raphael Ketani. Mr. Mathelier sent me a request by e-mail asking that the DEC obtain permission from the Hudson River Park Trust for the NYCT so that they may install more borings next to the two USTs. The area above the USTs is presently crossed by bike paths and walkways. The draft letter was forwarded to Hassan Hussein for his approval. 3/29/13 - Raphael Ketani. Mr. Hussein approved the letter to Ms. Silberfeld, General Counsel of the Hudson River Park Trust, in which her cooperation was requested for the soil investigation at the USTs. The letter was sent out. 5/31/13 - Raphael Ketani. I reviewed the May 2013 Site Specific Investigation Work Plan. Historical hot spots were identified as SB-01, 2, 6 and 7, SSP-01, 2, 4 to 7 and 9. The soil

NYCT HUDSON DEPOT (Continued) **S100177042**

MNA and groundwater sampling program had continued until June 2011. Product had not been seen in the wells until 8/20/10 when 0.01' of product appeared in W-21. Five borings will be installed. These will be HDSB-1 to 3, HDMW-01 and HDMW-02. Two of the borings will be converted into wells. The wells will be installed to 15 feet below grade with 12 feet of screen. The borings will be installed east of the east tank, west of the west tank, north of both tanks and in the vicinities of the historical hot spots. I looked at Figure 3-1 which showed the proposed boring locations and determined that there were not enough borings or wells to delineate the extent of any undiscovered contamination. I revised the figure to show where the DEC wanted more borings and wells. I indicated that borings should be installed midway on the east side of the east tank, between SSP-01 and SSP-07, between SB-01 and SSP-09, between SSP-02 and SSP-06, and between SSP-05 and SSP-04. Wells should be installed at the southern and northern ends of each tank and closer to GP-06 and GP-07. In total, I asked for 2 additional borings and 4 additional wells. An e-mail was sent with the revised Figure 3-1. A deadline was set for June 28 for submission of the revised SSIWP. 6/26/13 - Raphael Ketani. I reviewed the Hudson Depot Site Specific Investigation Work Plan dated May 2013 and revised June 2013. The work plan contained a revised Figure 3-1 with the boring and well locations as requested by the DEC in its 5/31/13 e-mail. I approved the revised work plan. I sent Mr. Hussein a draft letter approving the revised SSIWP. 6/27/13 - Raphael Ketani. Mr. Hussein approved the letter and it was sent out. 8/1/13 - Raphael Ketani. I reviewed a set of task orders that Ms. Cadecia Josephs had sent to Ms. Silberfeld of the Hudson River Park Trust. These task order were: CPM-23 dated 5/23/13 and regarding the writing and submission of the SSIWP (which was previously approved in its revised version); CPM-24 dated 7/17/13 and regarding the addition of 2 soil borings and 4 wells to the SSIWP (the document as approved); and CPM-25 dated 7/31/13 and regarding the abandonment of well W-05. 4/3/14 - Raphael Ketani. I sent an e-mail to Noreen Doyle, General Counsel, Hudson River Park Trust (212) 627-2020/ndoyle@hrpt.ny.gov. In the e-mail, I requested her help in getting the NYCT's plan approved for doing the site investigation. I added that this step was necessary before the NYCT could apply for a permit to the NYC DOT for doing the work. 12/31/15 - Raphael Ketani. I reviewed the NYCT December 2015 Soil and Groundwater Investigation/Petition for Spill Closure Report. A historical review of the site was contained in the beginning of the report. The consultants estimated from the product thicknesses in the wells that 550 to 1100 gallons of product was released. A recovery pump was installed and operated from June 1994 to December 1997. The pump was shut down after this as no product was seen. Two 7100 gallon USTs were located below grade and had been closed in place during December 1998. Several investigations took place and some remedial actions from 1999 to 2011. Bioremediation of the soil took place during 2002. The sheens and product thicknesses were reduced after this action. The DEC allowed monitored natural attenuation (MNA) to drive the remediation. The first soil and groundwater sampling took place during 2007. Chemical oxidation took place during 2010 to enhance the MNA. Groundwater monitoring has continued to the present time. The soil and groundwater investigation work east of the USTs was completed from December 4 to 30, 2014. Sixteen (16) borings and 6 wells were installed. The borings were HDSB-1 to HDSB-10. The wells were HDMW-01 to HDMW-06. Groundwater was found to be at from 4' to 9'

NYCT HUDSON DEPOT (Continued) **S100177042**

bgs and tidally influenced. Thirty (30) soil samples and 6 groundwater samples were collected. The soil results were compared to the CP-51 standards and the groundwater results were compared to the TOGS 1.1.1 standards. The soil samples were taken on 12/5, 8, 11, 12/2014. The upper portion of each boring had brown to dark brown fine to medium sub-angular sand with varying amounts of gravel and silt and fill. The PID readings varied. Oil stains and odors were present in several borings and generally only within the 5' to 15' interval. The most significant stains, PID readings (to 175 ppm) and odors were at borings to the northwest of the USTs (HDSB-01 and HDSB-04). Sheen and oil blebs appeared in some borings west of the USTs at 6' to 12' bgs. SB-1 (7'-9') was taken on 12/5/14 and had 4 analytes from 14,800 ppb to 36,400 ppb (benzene species analytes), but no benzene. The rest of the results were non-detect. The results for SB-1 (16'-18'), SB-2 to 7 and SB-10 were either all non-detect or mostly non-detect with 1 high exceedence. SB-6 (10'-12') was taken on 12/8/14 and had 6 exceedences from 180 ppb to 1400 ppb. The soil sample results for HDMW-01 (15'-16'), HDMW-03 (10'-11'), HDMW-04 (17'-19'), HDMW-05 (16'-18') and HDMW-06 (15'-16') were all non-detect or had 3 to 4 low hits with the rest non-detect. HDMW-01 (10'-12'), HDMW-02 (5.5'-7.5'), HDMW-04 (5'-7'), HDMW-05 (10'-12') and HDMW-06 (10'-12') each had 2 to 4 high hits and/or exceedences from 1500 ppb to 12,300 ppb with the rest of the results non-detect. Groundwater samples were taken from HDMW-01 to HDMW-06 on 12/30/14. The samples had from 4 to 11 very low to moderate (highest 21.5 ppb) hits and exceedences. The rest of the results were non-detect. The consultants recommended closure based upon the fact that the VOC results for the soil were either mostly non-detect or below standards. They also stated that the groundwater VOCs were either non-detect or mostly below standards with no free phase product. The NYCT believes that monitoring should be discontinued based upon the results. Also, the area is a paved bike path, which is part of the Hudson River Linear Park. So contact with any residual contamination is not possible. I approved the report and agreed with the recommendations of NYCT and their consultants that the spill case should be closed. This was also based upon the generally very low soil analytical results and the very low groundwater results. It was also based upon the fact that the USTs had been closed in place, bioremediation had been attempted and chemical oxidation had also been attempted in order to remediate the contamination. As the site could not be dug up due to the disruption this would cause to activities in the area, there was not anything else that could be done to reduce the contaminant concentrations. Also, the subsurface is subject to tidal action twice a day and so the soil and materials below grade will continue to be washed - thereby removing more contamination or oxidizing it. However, as the tidal waters can enter below grade, so can spills that originate on the river from boat and shipping activity. So, the subsurface will never be pristine and will maintain itself in equilibrium with the Hudson River water chemistry. 1/4/2016 - Raphael Ketani. I closed the spill case effective today and issued a Spill Closure Letter to NYCT for the site. 4/7/16 - Raphael Ketani. A progress update meeting took place on 3/31/16 for all of the NYCT depot sites. During the meeting, Mr. Mathelier asked that I contact the administrative staff at the Hudson River Linear Park in order to find out what construction activities are taking place so that the NYCT can plan for closing the wells. I contacted Ms. Doyle by email (General Counsel, Hudson River Park Trust (212)

NYCT HUDSON DEPOT (Continued) **S100177042**

627-2020/ndoyle@hrpt.ny.gov) and asked her for a construction update and whether well abandonment can proceed. Ms. Doyle sent the following response email: The short answer is that no Trust-sponsored construction has occurred on the site as of yet. However, our Board of Directors approved a lease last week that will allow construction at and in the vicinity of Pier 57. I was just speaking with Rachel Seebacher of DEC this morning about this. She was going to contact the DEC staff involved with the NYCT spill to get a better understanding of the status of this spill and clean-up and any continuing obligations that may exist. I think it makes sense for that conversation to occur. I ve looped her in above. She will be back in touch with HRPT after getting an update so that we can figure out next steps. Later, I sent Ms. Doyle an air photo of the site, along with maps and a pdf of the extracted pages concerning the site from the December 2015 Monthly Progress Report. 4/26/16 - Raphael Ketani. Mr. Mathelier (Gregory.Mathelier@nyct.com) copied me in an email to David Boyle regarding future development of the site. Mr. Mathelier stated that the NYCT CPM would provide some assistance to RXR (the developer) concerning the removal of oil contaminated soil, should this be encountered. The possibility of encountering contaminated soil would arise from the installation of new utilities which are associated with the reconstruction of the Pier 57 facility. 6/22/16 - Raphael Ketani. Late today, I received an email from Yasin Rahman, Assistant Environmental Engineer in the NYCT CPM/UST and Environmental Remediation Program (718) 613-0294/yasin.rahman@nyct.com. The email was addressed to representatives of the owner of Pier 57, RXR Realty, and HRCG and EIC Associates. Excavation drawings dated and revised on 10/19/15 were attached to the email. The email stated that NYCT would assist RXR is the hauling and disposal of the contaminated soil. The excavating would be for the installation of various utilities and would extend down to as much as 13 feet below grade. About 94.8 cu. yds. of soil and fill are expected to be removed. I archived the documentation and had no comments. The contact information for RXR Realty is 1330 Avenue of the Americas, Ste. 500, NY, NY, 10019, (212) 797-1330. Another address for RXR Realty is: 230 Park Avenue, Ste. 1500, NY, NY, 10169, (516) 874-2966, Attn: Michael Rem, PE, Senior Project Manager, Development. 7/27/16 - Raphael Ketani. Mr. Rem copied me in an email that was sent to Mr. Yasin. The first paragraph of the email stated that the wells had been decommissioned and removed. Shortly after this email, Mr. Yasin sent an email to Mr. Rem regarding the contaminated soil excavation plan. 3/29/18 - Raphael Ketani. Yesterday, I received the Dvirka & Bartilucci Monitoring Well Decommissioning/Abandonment Report dated 3/28/18. The work was performed in accordance with CP-43 Groundwater Monitoring Well Decommissioning Policy. The work was performed on 6/6/16, 6/7/16 and 12/19/16. For each well, the concrete well head box was broken up and the casing with its screen was pulled out. Then the wells were filled with grout and an asphalt patch placed on top of the depression where the well used to be. Boring locations were also covered with an asphalt patch. "

Site Code:	507382
Acres:	0.876
HW Code:	C231095
SWIS:	3101
Town:	New York City
Record Added Date:	05/04/2015
Record Updated Date:	08/03/2021
Update By:	SMQUANDT
Site Description:	"Location: The site is located in the Hell's Kitchen neighborhood of Manhattan and is bounded on the west by 11th Avenue, on the south by West 36th Street and on the north by West 37th Street. The eastern boundary of the site is defined by an Amtrak railroad easement. Site Features: The 0.876-acre site consists of two tax lots with considerably different surface elevations. Lot 1 is an L-shaped parcel that lies approximately 18 feet below street grade with areas of exposed bedrock. The second lot (Lot 62) contains a vacant one-story building at street grade. A 100 square-foot portion of Lot 62 along West 37th Street and the Amtrak easement on Lot 1 are excluded from the BCP site. Current Zoning and Land Use: The site is zoned C6-4 (commercial and mixed uses) and is currently unoccupied. Past Use of the Site: Circa 1930s, Lot 1 was excavated to its current depth for construction of a railyard and a railroad spur that went westward beneath 11th Avenue. Lot 1 also contained a loading platform and a motor freight station. By 1996 the rail tracks and railyard structures were removed, and the property has since been used as a staging area for railroad construction and repair materials and equipment. Since its construction in 1919, the building currently occupying Lot 62 had been utilized as an automotive repair garage, sanitation company garage, and warehouse. The building has been vacant since 2013. Site Geology and Hydrogeology: Site soils were observed as historic fill material to a depth of approximately 5 feet below the surface, underlain with brown fine sand with silt which may or may not be native material. Where not exposed, bedrock is present directly below the fine sand/silt approximately 6 to 9 feet below the surface. The bedrock is a high-grade metamorphic rock consisting of a sequence of Cambrian and Ordovician age gneiss, schistose-gneiss, and marble. The bedrock is characterized by numerous faults and fractures, many of which contain groundwater. The groundwater table is in bedrock across much of the site. Groundwater at the site is approximately two feet below grade in the lowest area of Lot 1 and flows west toward the Hudson River, located approximately a quarter mile away."
Env Problem:	"Nature and Extent of Contamination: Soil and groundwater were analyzed for volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), metals, polychlorinated biphenyls (PCBs), pesticides, and per- and polyfluoroalkyl substances (PFAS). Soil vapor was analyzed for VOCs. The primary contaminants of concern are VOCs, SVOCs and metals in soil and groundwater and chlorinated VOCs

438 11TH AVENUE (Continued) **S117851122**

in soil vapor. Soil Lot 1: The soil contamination on Lot 1 is indicative of historic fill. Several SVOCs were detected to a depth of 8 feet below ground surface (bgs) at levels above unrestricted use soil cleanup objectives (UUSCOs) and/or restricted residential soil cleanup objectives (RRSCOs) including: benzo(a)anthracene up to 64.1 parts per million (ppm) (UUSCO and RRSCO of 1 ppm), benzo(a)pyrene up to 12.1 ppm (UUSCO and RRSCO of 1 ppm), benzo(b)fluoranthene up to 12.6 ppm (UUSCO and RRSCO of 1 ppm), benzo(k)fluoranthene up to 10.3 ppm (UUSCO of 0.8 ppm, RRSCO of 3.9 ppm), chrysene up to 54.4 ppm (UUSCO of 1 ppm, RRSCO of 3.9 ppm), dibenzo(a,h)anthracene up to 4.73 ppm (UUSCO and RRSCO of 0.33 ppm), indeno(1,2,3-cd)pyrene up to 8.05 ppm (UUSCO and RRSCO of 0.5), phenanthrene up to 119 ppm (UUSCO and RRSCO of 100 ppm), and pyrene up to 108 ppm (UUSCO and RRSCO of 100 ppm). The following metals were detected to a depth of 8 feet bgs at levels exceeding UUSCOs and/or RRSCOs: cadmium up to 3.55 ppm (UUSCO of 2.5 ppm), copper up to 225 ppm (UUSCO of 50 ppm), lead up to 1,030 ppm (UUSCO of 63 ppm, RRSCO of 400 ppm), mercury up to 8.76 ppm (UUSCO of 0.18 ppm, RRSCO of 0.81 ppm), selenium up to 7.11 ppm (UUSCO of 3.9 ppm), silver up to 138 ppm (UUSCO of 2 ppm), zinc up to 615 ppm (UUSCO of 109 ppm). The following pesticides were detected to depth of 2 feet bgs at levels exceeding UUSCOs: 4,4 -DDD up to 0.0057 ppm and 4,4 -DDT up to 0.0087 ppm, both with UUSCOs of 0.0033.Total PCBs were detected above the UUSCO in two locations (maximum 0.641 ppm compared to UUSCO of 0.1 ppm). No VOCs were detected above their respective UUSCOs. All pesticides, PCBs and VOC detections were below their respective RRSCOs. Lot 62: The following petroleum-related VOCs were detected to a depth of 8 feet bgs at levels exceeding UUSCOs and/or RRSCOs: 1,2,4-trimethylbenzene up to 54 ppm (UUSCO of 3.6 ppm, RRSCO of 52 ppm), 1,3,5-trimethylbenzene up to 23 ppm (UUSCO of 8.4 ppm), , chlorobenzene up to 1.6 ppm (UUSCO of 1.1 ppm), ethylbenzene up to 5.4 ppm (UUSCO is 1 ppm), n-propylbenzene up to 9.1 ppm (UUSCO of 3.9 ppm) and total xylenes up to 20 ppm (UUSCO of 0.26 ppm). All of the VOC exceedances were limited to one boring location in the center of the lot. SVOCs were detected at levels exceeding UUSCOs and/or RRSCOs at one location, to a depth of 2 feet bgs, in the southwestern portion of the lot as follows: benzo(a)anthracene at 1.75 ppm (UUSCO and RRSCO of 1 ppm), benzo(a)pyrene at 1.31 ppm (UUSCO and RRSCO of 1 ppm), benzo(b)fluoranthene at 2.15 ppm (UUSCO and RRSCO of 1 ppm), benzo(k)fluoranthene at 1.66 ppm (UUSCO of 0.08 ppm), . The following metals were detected to a depth of 8 feet bgs at levels exceeding UUSCOs and/or RRSCOs: arsenic up to 15.6 ppm (UUSCO of 13 ppm), barium up to 607 ppm (UUSCO of 350 ppm, RRSCO of 400 ppm), cadmium up to 2.74 ppm (UUSCO of 2.5 ppm), copper up to 151 ppm (UUSCO of 50 ppm), lead up to 611 (UUSCO of 63 ppm, RRSCO of 400 ppm), mercury up to 2.94 ppm (UUSCO of 0.18 ppm, RRSCO of 0.81 ppm), and zinc up to 362 (UUSCO of 109 ppm). Pesticides and PCBs were not detected above their respective UUSCOs. The data do not indicate any off-site impacts in soil related to this site. Groundwater Lot 1: Two VOCs, benzene at 1.2 parts per billion (ppb) and cis-1,2-dichloroethene at 53 ppb, were detected above their Class GA Ambient Water Quality Standard (AWQS) of 1 ppb and 5 ppb, respectively. The dissolved metals manganese and sodium were detected in groundwater above AWQS but are considered naturally occurring. No PCBs, pesticides or SVOCs were detected above standards. Lot 62: Several VOCs were detected at levels exceeding AWQS as follows: 1,2,4-trimethylbenzene up to 59 ppb (5 ppb standard), 1,2-dichlorobenzene up to 3.9 ppb (3 ppb standard),

438 11TH AVENUE (Continued) **S117851122**

1,3,5-trimethylbenzene up to 35 ppb (5 ppb standard), 1,4-dichlorobenzene up to 3.3 ppb (3 ppb standard), benzene up to 250 ppb (1 ppb standard), chlorobenzene up to 56 ppb (5 ppb standard), ethylbenzene up to 94 ppb (5 ppb standard), isopropylbenzene up to 58 ppb (5 ppb standard), n-butylbenzene up to 30 ppb (5 ppb standard), n-propylbenzene up to 120 ppb (5 ppb standard), p-isopropyltoluene up to 13 ppb (5 ppb standard), sec-butylbenzene up to 19 ppb (5 ppb standard), toluene up to 18 ppb (5 ppb standard), mixed xylenes up to 65 ppb (5 ppb standard),and total xylenes up to 69 ppb (5 ppb standard). The SVOC naphthalene was detected up to 51.8 ppb (10 ppb standard). Selenium was detected as a dissolved metal above AWQS in one well (14 ppb compared to 10 ppb standard). The dissolved metals magnesium, manganese and sodium were also detected in one well above AWQS but are considered naturally occurring. No PCBs or pesticides were detected above standards. Sitewide: For PFAS, perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS) were reported at concentrations up to 99 parts per trillion (ppt) and 110 ppt, respectively, exceeding the Maximum Contaminant Level (MCL) (drinking water standard) of 10 ppt each in groundwater. There are no public water supply wells within a half a mile and there is a municipal prohibition for use of groundwater at the site. The data do not indicate any off-site impacts in groundwater related to this site.
Soil Vapor Lot 1: Ten soil vapor samples were collected and analyzed on Lot 1. Chlorinated VOC detections include: tetrachloroethene (PCE) up to 60 micrograms per cubic meter (g/m3), cis-1,2-dichloroethene in one location at 26 g/m3, and vinyl chloride in one location at 550 g/m3. The cis-1,2-dichloroethene and vinyl chloride detections were at the same location near the northern boundary of the site. Methylene chloride was detected in one location at 18 g/m3 and trichlorofluoromethane (Freon 11) was detected in six locations up to 400 g/m3. Lot 62: Five soil vapor samples were collected and analyzed on Lot 62. PCE was detected at four locations up to 120 g/m3 and methylene chloride was detected at 72 g/m3 at one location. Several petroleum-related VOCs were detected throughout the site on both lots. The data do not indicate any off-site impacts in soil vapor related to this site."

Health Problem: "The site is enclosed by fencing, concrete walls, and adjoining structures, which restricts public access. Persons who enter the site could contact contaminants in the soil by walking on the site, digging or otherwise disturbing the soil. People are not drinking the contaminated groundwater because the area is served by a public water supply that is not affected by this contamination. Volatile organic compounds in soil vapor (air spaces within the soil) may move into buildings and affect the indoor air quality. This process, which is similar to the movement of radon gas from the subsurface into the indoor air of buildings, is referred to as soil vapor intrusion. Currently, there are no occupied buildings on-site. The potential exists for indoor air impacts via the soil vapor intrusion pathway on-site should the site building be re-occupied and/or if new construction and occupancy occurs. Environmental sampling indicates soil vapor intrusion is not a concern for off-site structures."

DEC Memo:	"sharif sent a ttf ltr 0n 2/24/05. 06/21/05-SR: Spoke with Stuart Smoller of Andrews Building Corp. who is the managing agent now for the building. They are going to convert the oil heating system to gas burn heating system. So, tank will be abandoned and documentation will be sent to DEC. 10.06.05 //Sharif- rec'd tank test failure report from Eastmond and Sons Boiler. The fillline and the return line failed. Apparently, oil leaked through the pipeline and contaminated the surrounding environment. Needs subsurface investigation around the tank. Tried to contact Mr. John Wellmann of Andrews Corp.212-529-5688* 276. He is on vacation. 12/21/05 Sharif//I spoke with Rene Lewis of EastMond. He said they pumped out the tank, cleaned it and later on they found oil water mix coming into the tank. So they installed a monitoring well to identify if any oil has escaped from the tank to the surrounding environment. They checked the well again and found only water coming into the well, a sample was taken from the well. Contaminated soil around the return line was removed and manifest will be sent to DEC along with closure report. 03/15/06 Sharif Rahman- Rec'd waste disposal manifest, analytical result for the water sample from the well.VOC/SVOC non detect. Spill is closed."

under spill 9808374. Rommel
---------- From
Property Shark, Owner of the Property Stephen J Swain Early Lear President 400 East 52ND Street New York, NY 10022 and notice address: Joel S Berman 1140 6TH Ave Fl 17 New York NY 10036-5803 From Reverse phone directory phone number for Stephen is (212) 308-1062. this number is not working number. Spoke with Mr. Gomez, super at building. as per him building owner is Mr. Joel Berman. Right now owner is in California for two weeks. Super will give my number to owner as he denied giving owner's number. Phone number on report for Mr. Berman is out of service. 03/03/06-Hiralkumar Patel. Got Mr. Berman's number (212-583-0005) from super. Left message for Mr. Berman. Received call from Mr. Berman. as per him, they don't have any records on oil spill. and he doesn't know anything. he told me that the building is on solid concrete. as he is from law firm he was talking legal langauge. he is blaming DEC for harassment. 03/08/06-Hiralkumar Patel. spoke with super and property has 3000 gal of tank. they have permit from fire department. got pbs registration certificate from super. PBS# 2-603898. as per PBS certificate, this tank was installed on Nov. 1st 1998 and spill happened on Oct. 7 1998. from PBS registration, mailing address for owner is: General Partner of 115 W 27th Street Co 1140 Ave of the Americas 17th Floor New York, NY 10036 From Revese PHone Directory, the address for phone number 212-583-0005 is as follow which was confirmed by Mr. Berman also. send letter at this address: 780 Third Ave New York, NY 10017-2024 Berman's FAX no.: 212-583-0072 03/09/06-Hiralkumar Patel. CSL sent out to Berman by mail and by fax. (forgot to send pbs registration form and instruction) 03/14/06-Hiralkumar Patel. Received fax from Mr. Berman. ...The company has no record of the petroleum release which we believe was no more than a minor ordinary oil delivery spill which occurred when our supplier/delivery company inadvertently overfilled the tank. the fill port is outside the building and whatever minor amount spilled would have been on the sidewalk. we have no notice of any violation. if you could please supply me with a copy of the violation, including the name of the delivery/supplier company, it may be halpful in resolving this matter expeditiously Discuss with Jeff. he is suggesting to take site visit. Left message for Mr. Berman. visited site. spoke with Mr. Gomez, super at site. there is no odor in boiler room as well as in tank vault. tank is partially buried in concrete and tank is enclosed in concrete vault. but concrete vault is opened at one side. water was flowing out from tank vault. few oil stains on concrete floor in boiler room, but very little. poor concrete floor in boiler room. water was standing all over floor. little shine on top of water in sump. no leaking from boiler. suggested following to Mr. Berman afterwards: - repairing of floor in boiler room. - keeping area clean and dry - replacing old corroded pipings to/from tank. - closing tank vault as it is being used as secondary containment. they can keep small window at elevated level to get access to tank. and as this tank in concrete vault, tank test every five years. - updating PBS records with current address, phone number and product information, as PBS records shows #2 oil in use. but as per super they are using #4 oil all the time. - submitting tank test results and copy of invoices for every work done. as i discussed with Mr. Berman, he is agree to all above suggestions. the company who did tank test will replace those pipings. he will submit tank test results and copy of invoices for any work done. i asked him to call me with contractor's

115 W 27TH ST CO (Continued) **S103557942**

name and number who will work to close tank access and repairing of floor. Got copy of work proposal from Petroleum to Owner. Spoke with Joe Ostrowski (718-624-4842) and he told me that the whole system failed in tank test. now they are waiting to get permission from owner for isolation test. Mr. Joe doesn't know how bad the leak was as the person, who did tank test, was not there. Left message for Mr. Berman. Spoke with Mr. Berman. i told him about tank test failure as i spoke with Joe at Petroleum. Mr. Berman was upset as contractor gave test results directly to me without concerning hiring person. i have asked Mr. Berman to work out on further testing of individual parts to find out leaking portion of system. asked him to call back with date on which they plan for isolation test. 03/21/06-Hiralkumar Patel. Left message for Mr. Berman. Received call from Mr. Berman. he was blaming me for harrasing him. he told me that Petroleum has done individual test and found problem at vent pipe. i have asked him to send me copy of report. he will call back tomorrow.
03/24/06-Hiralkumar Patel. REceived certified mail receipt.
04/06/06-Hiralkumar Patel. Received letter from Mr. Berman. received contract copies which was signed by Joe Ostrowski from Petroleum and by Mr. Berman. as per contract copies, petroleum has proposed following work: - will open manhole cover on one 3000 gal fuel oil storage tank - pump out all existing fuel, water and sludge from bottom and sides of tank. - pressure test all lines-suction, return, vent and fill to make sure they are not leaking. - men will enter tank and squeegee clan all remaining sludge and residue - examine tank shell for signs of deterioration and make a full report to person in charge. - if a line fails test, we will then plug up bad lines and perform tank only tank test to make sure tank is good. - all sludge will be disposed of to a legal facility - seal tank making a watertight closure. - excavate concrete, remove old fill line and vent line - install 40 ft of new 3 fill line from tank top to outside the building wall. - install 50 ft of new 2 vent line with vent alarm - re-cement area. 04/07/06-Hiralkumar Patel. Received letter from Mr. Berman. this includes copy of tank test results. result shows tank only passed in test. 04/18/06-Hiralkumar Patel. Spoke with Mr. Berman. he has got bill from Petroleum. once he pay it, he will get final report and will forward it to Deparment. Mr. Berman will be out of office for this whole week now. 05/02/06-Hiralkumar Patel. REceived tank test results which shows whole system passed the test. based on site visit and tank test result, case closed."

DER Facility ID:	272857
DEC Memo:	"See duplicate spill #0412147. 2/14/2005 - Sangesland spoke to Quilvio who manages the Chelsea Car Wash/Gas Station. Station is only about 5 years old - all new equipment & alarms - Also the site is right next to the West Side Hwy and the water table is quite high. A water sump pump under the station runs constantly at a very high rate. Any groundwater which may have been under the station around the time of the spill is long gone at this point. Quilvio said he got a gasoline delivery about 3 or 4 weeks ago from Island Transportation. Island overfilled the tanks and the alarms went off. The Island delivery man left without doing any remediation. Quilvio says there was gasoline in 3 manholes around on the site. He called American Resource Technology (Chelsea's regular test & repair company). They came and cleaned the overfill buckets and checked the system. ExxonMobil is somehow involved as a distributer??? Exxon environmental people came to the site to test the air in 2 nearby basements. There continues to be a problem with gasoline smell in the basement next door. Quilvio is now going to hire a contractor to run a couple of test borings in the area to determine if any of the gasoline went into the ground, or if it was all contained in the overfill buckets. 2/14/05 Spoke to Frank Messina, ExxonMobil Global Remediation (908-730-2055). ExxonMobil only supplies the station with fuel. He stated that ExxonMobil may have initially sent someone to test the air if they did not realize the station was independent. Filed spill report #1016151 with DEP. (KMF) 2/15/05 Changed address from 62-76 10th Ave to 450 W 15th St. Spoke to Quilvio Monoz, operator of Tenth Avenue Car Wash (PBS 2-604379). Quilvio called ExxonMobil territory manager, Mike Romano. ExxonMobil sent Geologic Services Corp., Michael Meyerhofer, with PID. He tested basements which returned negative. Q. Monoz hired American Resource Technology (Bob Arcaro, 718-234-0024) to test the lines. They will also be doing borings around the tanks. Q. Monoz stated he will be taking

CHELSEA CAR WASH (Continued) **S106868684**

responsibility for now but feels Island Transportation is responsible for the overfill. (KMF) 2/15/05 Spoke to Bob Arcaro, American Resource Technology. Will be testing fill lines since Q. Monoz stated there was product in the sumps during delivery. The drain plugs in the spill containment boxes would not open. They will probably change these first and then test fill lines. He stated he wasn't sure that there was product lost to the subsurface or that borings were necessary. I requested he do the line tests and speak further with the operator to determine how much product was lost. If borings are necessary, Bill Klein from Franklin will probably do the work. (KMF) 07/28/05 A limited subsurface investigation report by Fenley & Nicol dated 4-13-05 (See File) was reveiwed. Report recommends an extended subsurface investigation to determine the extent of hydrocarbon impact. Attempted to contact Fenley & Nicol- unsuccessful. 2:00pm Called Bob Arcaro (718-234-0024). No answer. LNK. 08/19/05 Bob Arcaro never returned call. Next step- recontact either Fenley & Nicol or Bob Arcaro to determine if a subsurface investigation was completed and if there is a report available. LNK. 04/12/06 - Hough - Received additional documents from Fenley & Nicol concerning limited subsurface investigation. Report concludes that there was no significant impact from the overfill event. Spill should be closed. However there is another open spill on the site 01-03052. Next Step: Regional follow-up on older open spill and verification of finding of report from the most recent spill. Activities may include site visit and obtaining documentation of other remedial activities related to residual impacts from older spill. 02/22/10-Hiralkumar Patel. while investigating spill #: 0911962, came across this spill number. this spill was reported as 500 gal gasoline spilled during delivery at the gas station which is located at 70 10th Avenue. Mr. Shternlicht owned two properties during spill event: 450 W 15th STreet (address in spill report) and 70 10th AVenue (where gas tanks located and actual spill occured). then Mr. Shternlicht sold property at 450 W 15th Street and new owner Mr. Randberg baught it in late 2006. Mulnick LLC. **owner of car wash/gas station property** c/o Milk Studios 450 W 15th Street, 8th Floor New York, NY 10011 Attn.: Erez Shternlicht PH. (212) 645-2797 email: erez@milkstudios.com base on available information, spill was happened on 70 10th AVenue (aka 461-469 W 14th STreet and 58-76 10th Ave). refer to spill #: 0911962 for further details."

Remarks: "The delivery guy pumped 72 inches of material into the tank. The alarms went off and the delivery man just drove off. 200 gallons have been recovered and lost 200-300 gallons into the ground. (OFF TEH WESTSIDE HIGHWAY)"

DEC Memo:	"Prior to Sept, 2004 data translation this spill Lead_DEC Field was ROMMEL This spill case was reassigned from DEC (Sigona) to Rommel on 01/07/2004. On December 22, 2000, DEC (Sigona) observed the excavation and removal of 4 x 550 gallon USTs. The contents of 3 x 550 gallon USTs was found to contain a mixture of gasoline and water. 1 x 550 gallon UST contained water only. The excavation was being performed by Fenely & Nicol for Public Parking, Inc. The project was also supervised by DEC contractor EAR under PIN project for New York Auto Service which was impacting the Jacob Javits Center. Does not appear to be related to New York Auto Service spill or have an impact on the Javits Center. 2/24/05-Vought-Spoke with Phillip Rizzuto (973-470-25510) who is agent for property owners. Rizutto asked for status of Tank Closure Report review and Vought required that a copy be sent to DEC for review. Spill transferred from Rommel to Vought. 3/16/05-Vought-Reviewed Tank Closure Report(Fenley & Nicol - Angel Ramirez) dated 1/18/01 and received on 3/2/05. Project was prepared for: Mr. Phil Rizzuto Classic Sanitation Corporation 99 Route 3 Clifton, NJ 07014 Removal and closure of one (275-gallon) fuel oil

GAS STATION (Continued) **S106702998**

AST and four (550-gallon) gasoline USTs. Subject site is used as a public parking garage. Three (550-gallon) gasoline USTs were removed from the north-east front of the interior of the building(Tank Area 1) and one (550-gallon) gasoline UST was removed from southwest of Tank Area 1. Depth to groundwater at site estimated to be 20 feet below grade and flow to the west. Inspector Anthony Sigona of the NYSDEC was present at the time of the excavcation to inspect the tanks and excavated area . The bottom and sidewalls of the excavation consisted of Manhattan Schist and bedrock . ...it was discovered that soil above the tanks exhibited evidence of gasoline contamination . All product lines were removed and disposed. Soil were analyzed for 8260/8270 TCLP as per Sigona. Soil analyticals only showed on minor exceedence of napthalene at 11ug/L (Guidance value is 10ug/L). No PID readings were detected. Report recommends No Further Action. Spill closed by Vought due to one minor TAGM 4046 Soil Cleanup Objective exceedence."

Remarks: "DURING TANK REMOVAL SOIL CONTAMINATION HAS BEEN DISCOVERED. CONTAMINATION IS ON TOP OF TANKS. AREA TO BE EXCAVATED AND FURTHER SAMPLING/TESTING TO BE DONE. NO CALL BACK REQUESTED. CALLER HAS BEEN IN CONTACT WITH REGION 2 OFFICE."

Updated By:	JHOCONNE

Site Description: "Location: The site is located at 27-35 West 24th Street in the Borough of New York, New York. It is located on the northern side of West 24th Street. The site is designated as Block 826, Lot 19. Site

FORMER GUARDIAN CLEANERS (Continued) **S113916768**

Features: The site is a rectangular shaped parcel of land measuring approximately 9,000 square feet and is improved with an one 11-story building with a basement. Current Zoning and Land Use: The building on site is used for office space and a restaurant/bar on the first floor and part of the basement. The site is zoned M1-6, which allows industrial and manufacturing. The current use of the site complies with the zoning code. Past Use of the Site: A dry cleaning facility formerly occupied the restaurant/bar space until approximately 1990. The former dry cleaning operations are believed to have contributed to the known contamination found in groundwater and soil vapor on the site. Site Geology and Hydrogeology: The subsurface lithology was homogenous throughout the site. The subsurface soil was noted to consist of urban fill material and brown coarse grain sand. Based upon boring logs from various site investigations, groundwater is encountered 8-10 feet beneath the basement slab except along the western property boundary where the water table is shallower, resulting in the need to actively pump out water entering the service elevator pit. "

Env Problem: "Nature and Extent of Contamination: Remediation at the site is complete. Prior to remediation, the primary contaminants of concern were chlorinated volatile organic compounds (VOCs) such as tetrachloroethene (PCE), trichloroethene (TCE), and cis-1,2-dichloroethene (DCE) which were detected in soil, groundwater and soil vapor. Remedial actions have successfully achieved soil cleanup objectives for commercial use. Residual contamination in the soil and groundwater is being managed under a Site Management Plan."

Health Problem: "Direct contact with contaminants in the soil or groundwater is unlikely because the site is entirely covered with a building. Contaminated groundwater at the site is not used for drinking or other purposes and the site is served by a public water supply that obtains water from a different source not affected by this contamination. Volatile organic compounds in the groundwater may move into the soil vapor (air spaces within the soil), which in turn may move into overlying buildings and affect the indoor air quality. This process, which is similar to movement of radon gas from the subsurface into the indoor air of buildings, is referred to as soil vapor intrusion. A sub-slab depressurization system was installed beneath the on-site building to prevent vapors beneath the slab from entering the building. Sampling at an adjacent structure indicates soil vapor intrusion is not a concern. Access to the other adjacent building was denied and soil vapor intrusion may be a potential exposure pathway at that structure. "

"
Env Problem:	"Nature and Extent of Contamination: Remediation at the site is complete. Prior to remediation, the primary contaminants of concern were chlorinated volatile organic compounds (VOCs) such as tetrachloroethene (PCE), trichloroethene (TCE), and cis-1,2-dichloroethene (DCE) which were detected in soil, groundwater and soil vapor. Remedial actions have successfully achieved soil cleanup objectives for commercial use. Residual contamination in the soil and groundwater is being managed under a Site Management Plan."
Health Problem:	"Direct contact with contaminants in the soil or groundwater is

FORMER GUARDIAN CLEANERS (Continued) **S113916768**

unlikely because the site is entirely covered with a building. Contaminated groundwater at the site is not used for drinking or other purposes and the site is served by a public water supply that obtains water from a different source not affected by this contamination. Volatile organic compounds in the groundwater may move into the soil vapor (air spaces within the soil), which in turn may move into overlying buildings and affect the indoor air quality. This process, which is similar to movement of radon gas from the subsurface into the indoor air of buildings, is referred to as soil vapor intrusion. A sub-slab depressurization system was installed beneath the on-site building to prevent vapors beneath the slab from entering the building. Sampling at an adjacent structure indicates soil vapor intrusion is not a concern. Access to the other adjacent building was denied and soil vapor intrusion may be a potential exposure pathway at that structure. "

Site Description: "Location: The site is located at 27-35 West 24th Street in the Borough of New York, New York. It is located on the northern side of West 24th Street. The site is designated as Block 826, Lot 19. Site Features: The site is a rectangular shaped parcel of land measuring approximately 9,000 square feet and is improved with an one 11-story building with a basement. Current Zoning and Land Use: The building on site is used for office space and a restaurant/bar on the first floor and part of the basement. The site is zoned M1-6, which allows industrial and manufacturing. The current use of the site complies with the zoning code. Past Use of the Site: A dry cleaning facility formerly occupied the restaurant/bar space until approximately 1990. The former dry cleaning operations are believed to have contributed to the known contamination found in groundwater and soil vapor on the site. Site Geology and Hydrogeology: The subsurface lithology was homogenous throughout the site. The subsurface soil was noted to consist of urban fill material and brown coarse grain sand. Based upon boring logs from various site investigations, groundwater is encountered 8-10 feet beneath the basement slab except along the western property boundary where the water table is shallower, resulting in the need to actively pump out water entering the service elevator pit. "

Remedial actions have successfully achieved soil cleanup objectives for commercial use. Residual contamination in the soil and groundwater is being managed under a Site Management Plan."
Health Problem: "Direct contact with contaminants in the soil or groundwater is unlikely because the site is entirely covered with a building. Contaminated groundwater at the site is not used for drinking or other purposes and the site is served by a public water supply that obtains water from a different source not affected by this contamination. Volatile organic compounds in the groundwater may move into the soil vapor (air spaces within the soil), which in turn may move into overlying buildings and affect the indoor air quality. This process, which is similar to movement of radon gas from the subsurface into the indoor air of buildings, is referred to as soil vapor intrusion. A sub-slab depressurization system was installed beneath the on-site building to prevent vapors beneath the slab from entering the building. Sampling at an adjacent structure indicates soil vapor intrusion is not a concern. Access to the other adjacent building was denied and soil vapor intrusion may be a potential exposure pathway at that structure. "

Site Description: "Location: The site is located at 27-35 West 24th Street in the

FORMER GUARDIAN CLEANERS (Continued) **S113916768**

Borough of New York, New York. It is located on the northern side of West 24th Street. The site is designated as Block 826, Lot 19. Site Features: The site is a rectangular shaped parcel of land measuring approximately 9,000 square feet and is improved with an one 11-story building with a basement. Current Zoning and Land Use: The building on site is used for office space and a restaurant/bar on the first floor and part of the basement. The site is zoned M1-6, which allows industrial and manufacturing. The current use of the site complies with the zoning code. Past Use of the Site: A dry cleaning facility formerly occupied the restaurant/bar space until approximately 1990. The former dry cleaning operations are believed to have contributed to the known contamination found in groundwater and soil vapor on the site. Site Geology and Hydrogeology: The subsurface lithology was homogenous throughout the site. The subsurface soil was noted to consist of urban fill material and brown coarse grain sand. Based upon boring logs from various site investigations, groundwater is encountered 8-10 feet beneath the basement slab except along the western property boundary where the water table is shallower, resulting in the need to actively pump out water entering the service elevator pit. "

Env Problem: "Nature and Extent of Contamination: Remediation at the site is complete. Prior to remediation, the primary contaminants of concern were chlorinated volatile organic compounds (VOCs) such as tetrachloroethene (PCE), trichloroethene (TCE), and cis-1,2-dichloroethene (DCE) which were detected in soil, groundwater and soil vapor. Remedial actions have successfully achieved soil cleanup objectives for commercial use. Residual contamination in the soil and groundwater is being managed under a Site Management Plan."

Site Description: "Location: The site is located in a mixed commercial and residential area. The property address is 674 Ninth Avenue, New York, NY 10036. The property is one tax parcel identified by the New York City Department of Finance as Block 1037, Lot 63. The site is located along the east side of Ninth Avenue, north of West 46th Street, south of West 47th Street, and west of Eighth Avenue. The approximate site area is 2,325 square feet (0.05 acres). Site Features: The site is improved with a two (2) story building that is currently vacant. The building is comprised of two (2) units totaling 3,988 square feet. The building was constructed prior to 1890 and originally consisted of a four-story building with a one-story addition off the rear. In 1936, the building consisted of a two-story building with a basement and a one-story addition. Current Zoning and Land Use: The site is zoned R-8 residential with a C1-5 commercial overlay. The site is additionally part of the Clinton Special zoning district. R-8 residence districts can range from mid-rise, eight- to ten-story buildings to much taller buildings set back from the street on large zoning lots. The C1-5 commercial overlays within residence districts are mapped on streets that serve the retail needs of local residents. In mixed buildings such as the site, commercial uses are limited to one or two floors and must always be located below residential use. The surrounding area consists of mixed commercial and residential buildings. Past Use of the Site: The site was developed prior to 1890 and was historically occupied by the following businesses: Herman Kellerman Painters and Supplies from 1920 through 1934, Harold Alpert Linoleum and Carpets from 1938 through 1983, Empire Tailors & Cleaners from at least 1988 through 2018, Teknokool in 1998, Marlen Gallery in 2000, New York Tae Kwon Do Academy in 2006, and JMC Custom Framing, Inc. from 2010 through at least 2014. The former dry-cleaning operations have impacted the site. Site Geology and

674 NINTH AVENUE (Continued) **S109527357**

Hydrogeology: Subsurface soils at the site consist of silty sands underlain by clay soils. Drilling refusal below the clay was due to bedrock. A review of the Bedrock and Engineering Geologic Maps of New York County revealed bedrock is located at approximately 15 feet bgs in the vicinity of the site. During the investigation, bedrock was encountered at a shallower depth of 10 feet or less bgs. Groundwater is expected to flow to the west towards the Hudson River or to the south based on bedrock geology. Groundwater was not encountered in any of the borings advanced as part of the limited site investigation. "

Env Problem: "Soil was analyzed for volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), metals, polychlorinated biphenyls (PCBs), and pesticides. Soil Vapor and Indoor air were sampled for VOCs. Based upon investigations conducted to date, the primary contaminants of concern for OU 1 include trichloroethene (TCE) and Terachloroethene (PCE). Soil - PCE was found near the southeast portion of the property at a depth of about 5 feet below the soil surface, at a concentration slightly exceeding the soil cleanup objective (SCO) for restricted residential (19 ppm). Additionally, a soil pile found in the property s basement was analyzed and various SVOCs, as well as TCE were found at concentrations exceeding their respective restricted residential SCOs. Soil Vapor and Indoor Air TCE and PCE were detected in soil vapor at elevated concentrations up to 3 and 1,200 micrograms per cubic meter, respectively. TCE and PCE were also detected in the indoor air at elevated concentrations up to 2.6 and 180 micrograms per cubic meter, respectively. "

Health Problem: "The site is covered with buildings and pavement; however, people may come into contact with contaminated soil if they dig below the surface. The area is served by a public water supply that is not affected by this contamination. Volatile organic compounds in the soil vapor (air between soil particles) may move into buildings and affect the indoor air quality. This process, which is similar to the movement of radon gas from the subsurface into the indoor air of buildings, is referred to as soil vapor intrusion. Environmental sampling indicates that the potential exists for the inhalation of site contaminants due to soil vapor intrusion for the on-site building and off-site structures."

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

NJ SHWS: Known Contaminated Sites in New Jersey

The Known Contaminated Sites in New Jersey includes sites under the purview of the Site Remediation Program which have contamination present at levels greater than the applicable cleanup criteria for soil and/or groundwater standards. The sites appearing in Known Contaminated Sites in New Jersey are classified as either active, where the site is assigned to a specific remedial program area, or pending, where the site is awaiting assignment to a specific remedial program area. Sites where no further action (NFA) designation has been given are not included in this report unless there are other areas of identified contamination which have not been remediated. This report includes sites being remediated under all of the various regulatory programs administered by the Site Remediation Program such as: Federal Superfund Program, Federal Resource Conservation and Recovery Act (RCRA), New Jersey's Industrial Site Recovery Act (ISRA), New Jersey's Underground Storage of Hazardous Substances Act, New Jersey's Spill Compensation and Control Act, New Jersey's Solid Waste Management Act, New Jersey's Water Pollution Control Act.

NY VCP: Voluntary Cleanup Agreements

New York established its Voluntary Cleanup Program (VCP) to address the environmental, legal and financial barriers that often hinder the redevelopment and reuse of contaminated properties. The Voluntary Cleanup Program was developed to enhance private sector cleanup of brownfields by enabling parties to remediate sites using private rather than public funds and to reduce the development pressures on "greenfield" sites.

NY ERP: Environmental Restoration Program Listing

In an effort to spur the cleanup and redevelopment of brownfields, New Yorkers approved a $200 million Environmental Restoration or Brownfields Fund as part of the $1.75 billion Clean Water/Clean Air Bond Act of 1996 (1996 Bond Act). Enhancements to the program were enacted on October 7, 2003. Under the Environmental Restoration Program, the State provides grants to municipalities to reimburse up to 90 percent of on-site eligible costs and 100% of off-site eligible costs for site investigation and remediation activities. Once remediated, the property may then be reused for commercial, industrial, residential or public use.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

NJ LIENS: Environmental LIENS

A listing of properties with environmental liens. The listing includes sites from the Site Remediation & Waste Management Program Sites where the Department has placed either a 1st Priority or Regular Spill Fund Lien against. 1st Priority Type Lien - a lien placed against the property where the discharged occurred providing that the owners of the property have some responsibility towards the discharge. First Priority Lien is superior to other types of liens. Non-Priority (Regular) Type Lien - a lien placed against the Responsible Party & their revenues and all real and personal property, other than the real property comprising the location of the discharge.

NY HIST SPILLS: SPILLS Database

This database contains records of chemical and petroleum spill incidents. Under State law, petroleum and hazardous chemical spills that can impact the waters of the state must be reported by the spiller (and, in some cases, by anyone who has knowledge of the spills). In 2002, the Department of Environmental Conservation stopped providing updates to its original Spills Information Database. This database includes fields that are no longer available from the NYDEC as of January 1, 2002. Current information may be found in the NY SPILLS database. Department of Environmental Conservation.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

NY E DESIGNATION: E DESIGNATION SITE LISTING
The (E (Environmental)) designation would ensure that sampling and remediation take place on the subject properties, and would avoid any significant impacts related to hazardous materials at these locations. The (E) designations would require that the fee owner of the sites conduct a testing and sampling protocol, and remediation where appropriate, to the satisfaction of the NYCDEP before the issuance of a building permit by the Department of Buildings pursuant to the provisions of Section 11-15 of the Zoning Resolution (Environmental Requirements). The (E) designations also include a mandatory construction-related health and safety plan which must be approved by NYCDEP.

NY HSWDS: Hazardous Substance Waste Disposal Site Inventory
The list includes any known or suspected hazardous substance waste disposal sites. Also included are sites delisted from the Registry of Inactive Hazardous Waste Disposal Sites and non-Registry sites that U.S. EPA Preliminary Assessment (PA) reports or Site Investigation (SI) reports were prepared. Hazardous Substance Waste Disposal Sites are eligible to be Superfund sites now that the New York State Superfund has been refinanced and changed. This means that the study inventory has served its purpose and will no longer be maintained as a separate entity. The last version of the study inventory is frozen in time. The sites on the study will not automatically be made Superfund sites, rather each site will be further evaluated for listing on the Registry. So overtime they will be added to the registry or not.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/11/2021

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.
Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

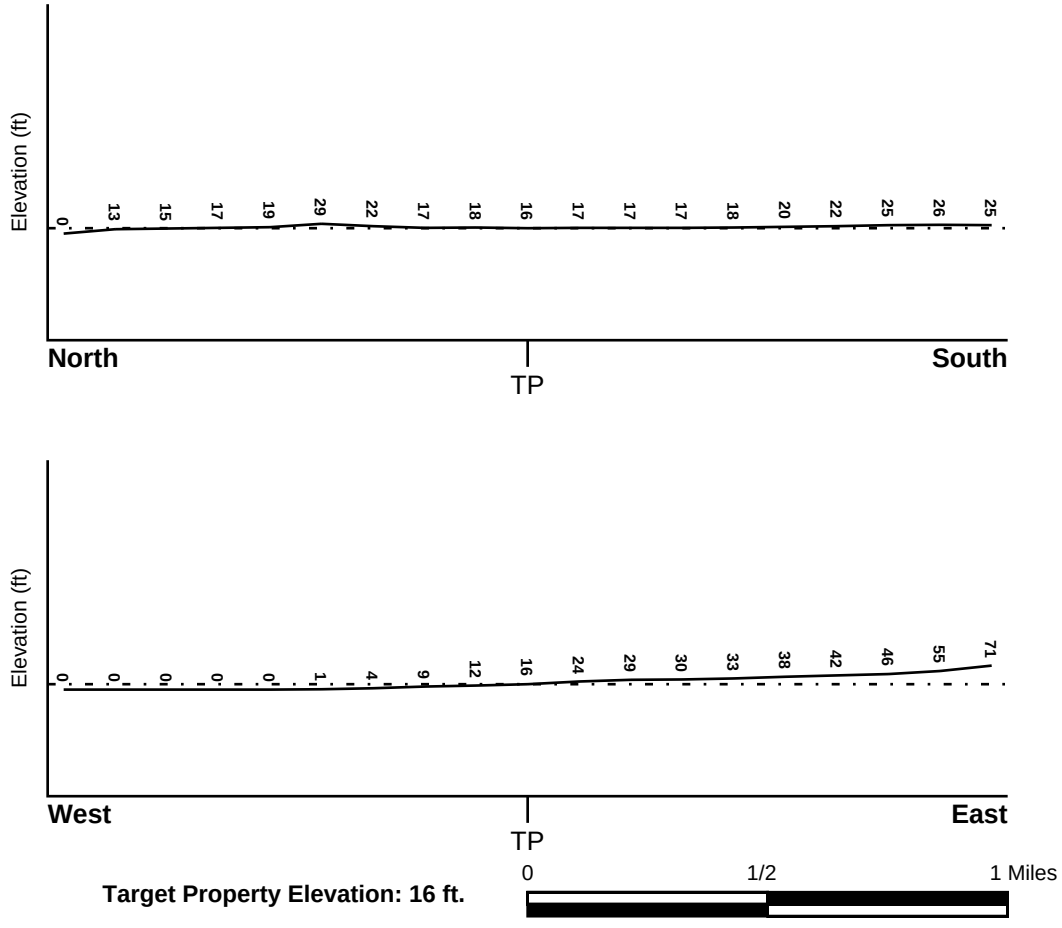
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Target Property Elevation: 16 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
3604970182F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
3604970069F	FEMA FIRM Flood data
3604970088F	FEMA FIRM Flood data
3604970201F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
JERSEY CITY	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/8 - 1/4 Mile East
Site Name:	MANHATTAN GENERAL MAIL FACILITY
Site EPA ID Number:	NY6180000352
Groundwater Flow Direction:	NOT AVAILABLE.
Inferred Depth to Water:	not available. Saturated layers impacted by salt water intrusion are present in the overburden. It is generally inferred that the depth to the uppermost 'aquifer' is greater than 70 feet at the surface of the bedrock/sediment interface.
Hydraulic Connection:	Detailed hydraulic connection information is not available. Glacial till and outwash deposit sediments overlie the Manhattan Schist, the uppermost bedrock unit at the site. The surface elevation of bedrock decreases to the southwest of the site.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

* ©1996 Site--specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT **GEOLOGIC AGE IDENTIFICATION**

Era:	Paleozoic	Category:	Stratified Sequence
System:	Ordovicias		
Series:	Lower Ordovician and Cambrian carbonate rocks		
Code:	OC *(decoded above as Era, System & Series)*		

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: silt loam
loamy sand
sandy loam
fine sandy loam

Surficial Soil Types: silt loam
loamy sand
sandy loam
fine sandy loam

Shallow Soil Types: sandy loam

Deeper Soil Types: unweathered bedrock
very gravelly - loamy sand
stratified
sandy loam

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Freshwater Wetlands
Source: Department of Environmental Conservation
Telephone: 518-402-8961

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

Subject: FOIL Request :: W098707-032822

Dear Joanne:

Thank you for your Freedom of Information Law (FOIL) request. Your request has been received and is being processed. Your request was received in this office on 3/28/2022 and given the reference number FOIL #W098707-032822 for tracking purposes. You may expect the Department's response to your request no later than **4/26/2022**.

Record Requested: **Records regarding above and underground storage tanks, permits and/or violations, spills, hazardous material and any other information of environmental concern as we are conducting a Phase I Environmental Site Assessment. (My ref#: Z3-4898), Time frame: 01/01/1940 - 03/28/2022 - Elliott-Chelsea - Various addresses (see attached address listing), Manhattan, NY 10001**

You can monitor the progress of your request at the link below and you'll receive an email when your request has been completed. Again, thank you for using the FOIL Center.

Request a Record

Please make your request specific so you receive the fastest service. After you submit a FOIL request you will receive a confirmation number so you can track the status of the response. The agency will notify you about how much time is required to respond to your request.

Category (optional)

Selecting a category helps clarify which agency will receive the request by listing agencies grouped by categories.

Environment

Agency (required)

Select the agency that will handle your request.

Department of Environmental Protection (DEP)

Request Title (required)

FOIL Request

Request Type: Freedom of Information Law Request

Description: A FOIL request is a request for any "record" under NY's Freedom of Information Law (Article 6 of the Public Officers Law). Section 86 defines a "record" as: "any information kept, held, filed, produced or reproduced by, with or for an agency or the state legislature, in any physical form whatsoever including, but not limited to, reports, statements, examinations, memoranda, opinions, folders, files, books, manuals, pamphlets, forms, papers, designs, drawings, maps, photos, letters, microfilms, computer tapes or discs, rules, regulations or codes. NYSDEC maintains records in a variety of forms, or media, such as in hard copy (on paper), as recordings, as photographs, in electronic form, etc.

Portable Fire-Fighting appliances approved by Fire Dept. January 13, 1949.

This is a TEMPORARY Certificate of Occupancy issued for a period of two (2) years commencing November 9, 1948.

Borough Superintendent.

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Housing and Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

Borough Superintendent.

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Housing and Buildings at this time; that Section 646I of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

HOUSING AND

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC **CERTIFICATE OF OCCUPANCY No. 28255 193**

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York January 3, 1938.

THIS CERTIFIES that the building located on Block 723, Lot 51

known as 420 West 28th Street
25' front

under a permit, Application No. 2482 Alt of 1937, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the build ng code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of nonfireproof construction within the meaning of the building code and may be used and occupied as a residence building as hereinafter qualified, in a residence district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED			USE
		MALE	FEMALE	TOTAL	
					Multiple Dwelling Class A
Cellar					Boiler room
1st to 5th Story	40 on each				Four (4) Apartments on each floor

This certificate is issued to David S. Lang, architect
200 Broadway, City. , for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined.

Housing and

Commissioner of Buildings, [illegible]

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

CERTIFICATE WILL BE NULL AND VOID IF ALTERED IN ANY MANNER OR ADDITIONS ARE MADE THERETO.

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

Sec. 6.1.2.3 sub-4 Building Code, C26-273.0 Adm. Code

"Prior to the occupancy of a structure erected or altered after January 1, 1968, the authorized occupancy of each floor of said structure as stated in the certificate of occupancy shall be permanently posted under glass and maintained in the main entrance hall of such structures."

NOTE: This is a TEMPORARY Certificate of Occupancy, issued to expire on December 14, 1964.					Standpipe System approved by Fire Department - August 5, 1963.

[illegible]

Borough Superintendent

CERTIFICATE WILL BE NULL AND VOID IF ALTERED IN ANY MANNER OR ADDITIONS ARE MADE THERETO.

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

Borough Superintendent

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Housing and Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

THIS CERTIFICATE SHALL ALSO BE CONSIDERED A CERTIFICATE OF COMPLIANCE OR OCCUPANCY UNDER SECTION 301 OF THE MULTIPLE DWELLING LAW.

Sec. 6.122 sub-4 Building Code, C26-273.0 Adm. Code

"Fire in the ... projects erected or altered after January 1, 1938, the ... of said structure as ... shall be permanently posted under ... glass and maintained in the main entrance hall of such structures."

Borough Superintendent

CERTIFICATE WILL BE NULL AND VOID IF ALTERED IN ANY MANNER OR ADDITIONS ARE MADE THERETO.

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED	USE

Borough Superintendent

Form—244-1927 Certificate of Occupancy. SA-2087-27-L

BUREAU OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC CERTIFICATE OF OCCUPANCY No. 13745 1928

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York Feb. 27 1928

THIS CERTIFIES that the building located on Block 723, Lot 57-58,

known as 435-38 East 26th Street
74' front

under a permit, Application No. 1070 Alt of 1927, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of fireproof construction within the meaning of the building code and may be used and occupied as a business building as hereinafter qualified, in a n unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations, and conditions prescribed by law or as hereinafter specified:

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED			USE
		MALE	FEMALE	TOTAL	
Cellar					Storage
1st Story	120			10	Shipping and garage for more than 5 autos
2nd to 9th Story	120 on each			on 3 each	Storage warehouse

This certificate is issued to White Construction Co.Inc., 98 Madison Avenue, City.

, for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the superintendent of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department, in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined

Superintendent of Buildings, Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form—244-1935 Certificate of Occupancy. HOUSING AND 8A-2087-35-Bu

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

CERTIFICATE OF OCCUPANCY No. 23772 193[illegible]

RBC

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York June 30, 1938

THIS CERTIFIES that the building located on Block 724, Lot 7-8-9-10

known as 175 ft. front

under a permit, Application No. H. B. 69 1938, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of metal construction within the meaning of the building code and may be used and occupied as a parking space building as hereinafter qualified, in a unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED			USE
		MALE	FEMALE	TOTAL	
1st story	on ground				Storing and public parking space for more than 5 cars and gasoline service station.

This certificate is issued to Ben C. Bloch, Arch., 18 East 41st St., New York, N. Y., for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined. A.H.M

Edward J. Geeroy

Borough Superintendent of Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form 54-C (Rev. 4/62)—42M-701190(63) 114

BOROUGH OF MANHATTAN, CITY OF NEW YORK

CERTIFICATE OF OCCUPANCY No. 23772 193[8]

RBC

Supersedes Certificate of Occupancy No.

To the owner or owners of the building:

New York June 30, 19 38.

THIS CERTIFIES that the building located on Block 724, Lot 7-8-9-10

known as 175 ft. front [redacted] 20th St.

under a permit, Application No. N. B. 69 19 38, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of metal construction within the meaning of the building code and may be used and occupied as a parking space building as hereinafter qualified, in a n unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED			USE
		MALE	FEMALE	TOTAL	
1st story	on ground				Storing and public parking space for more than 6 cars and gasoline service station.

This certificate is issued to Ben C. Bloch, Arch., 18 East 41st St., New York, N. Y., for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined. A.H.M

Thomas J. Geeroy

Borough Superintendent, Borough of Manhattan.

Borough Superintendent

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form—244-1935 Certificate of Occupancy. HOUSING AND BA-2087-35-Bu[redacted]

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

CERTIFICATE OF OCCUPANCY No. 23772 193[illegible]

RBC

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York June 30, 1938

THIS CERTIFIES that the building located on Block 724, Lot 7-8-9-10

known as 175 ft. front

under a permit, Application No. B. B. 69 1938, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of metal construction within the meaning of the building code and may be used and occupied as a parking space building as hereinafter qualified, in a unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED			USE
		MALE	FEMALE	TOTAL	
1st story	on ground				Storing and public parking space for more than 5 cars and gasoline service station.

This certificate is issued to Ben C. Bloch, Arch., 18 East 41st St., New York, N. Y., for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined. A.H.M

Borough Superintendent

Commissioner of Buildings, Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form—344-1922 Certificate of Occupancy

BUREAU OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC **CERTIFICATE OF OCCUPANCY No.** 192 2

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York Dec. 27 1922.

THIS CERTIFIES that the building located on Block 724, Lots 8 & 9

known as 455-457 West 28th Street 50' front

under a permit, Application No. 1878 Alt. of 1921 conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of non-fireproof construction within the meaning of the building code and may be used and occupied as a business building as hereinafter qualified, in a n unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations, and conditions prescribed by law or as hereinafter specified.

Story	Live Loads Lbs. per Sq. Ft.	Persons Accommodated			Use

					STANDPIPE SYSTEM- approved by Fire Department-October 10,1963.
				NOTE:	This is a TEMPORARY Certificate of Occupancy, issued for the period of ninety (90) days, commencing October 14,1963.

THIS CERTIFICATE SHALL ALSO BE CONSIDERED A CERTIFICATE OF COMPLIANCE OR OCCUPANCY UNDER SECTION 301 OF THE MULTIPLE DWELLING LAW.

Thomas F. Pascale

Borough Superintendent

CERTIFICATE WILL BE NULL AND VOID IF ALTERED IN ANY MANNER OR ADDITIONS ARE MADE THERETO.

...6123 sub-4 5... Code, C26-273.0 Adm. Code
...or to the occupancy of ... ...special or altered after January ...
..., 1938, the authorized ... ...such floor of said structure as
stated in the certificate ... ...shall be permanently posted under
glass and maintained in the main entrance hall of such structure."

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

Form 54 C (Rev. 4/62) 80M 6818(62) -114

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN , THE CITY OF NEW YORK

Date March 25, 1965 No. 61194

Form—244-1929 Certificate of Occupancy. BA-2927-29-I.S.

BUREAU OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

M/A **CERTIFICATE OF OCCUPANCY No. 16653** 19 30

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York July 29 19 30

THIS CERTIFIES that the building located on Block 724, Lot 66-65-1/2

known as 458-460 West 27th Street - 292 Tenth Avenue S.E.C. 24'8-1/4" front

under a permit, Application No. 1375 Alt. of 19 29, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of nonfireproof construction within the meaning of the building code and may be used and occupied as a business building as hereinafter qualified, in a n unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED MALE	PERSONS ACCOMMODATED FEMALE	PERSONS ACCOMMODATED TOTAL	USE
Cellar					Storage
1st Story	120			13 in bldg.	Office & Storage
2nd "	120			1	Storage
3rd "	120			1	Storage
4th "	120			1	Storage

This certificate is issued to Florence M. Commons, 4010 Norman Avenue, Bronx, N.Y., for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the superintendent of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department, in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined.

Superintendent of Buildings, Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form—244-1935 Certificate of Occupancy. HOUSING AND 8A-2087-35-Bu

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

CERTIFICATE OF OCCUPANCY No. 23772 193[8]

RBC

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York June 30, 19 38

THIS CERTIFIES that the building located on Block 724, Lot 7-8-9-10

known as 175 ft. front

under a permit, Application No. H. B. 69 19 38, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of metal construction within the meaning of the building code and may be used and occupied as a parking space building as hereinafter qualified, in a n unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED			USE
		MALE	FEMALE	TOTAL	
1st story	on ground				Storing and public parking space for more than 5 cars and gasoline service station.

This certificate is issued to Ben C. Bloch, Arch., 18 East 41st St., New York, N. Y., for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined. A.H.M

Edward J. Sweeney

Commissioner of Buildings, Borough of Manhattan.
Borough Superintendent

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

				NOTE:	This is a TEMPORARY Certificate of Occupancy, issued for the period of ninety (90) days, commencing October 14,1963.

THIS CERTIFICATE SHALL ALSO BE CONSIDERED A CERTIFICATE OF COMPLIANCE OR OCCUPANCY UNDER SECTION 301 OF THE MULTIPLE DWELLING LAW.

Borough Superintendent

CERTIFICATE WILL BE NULL AND VOID IF ALTERED IN ANY MANNER OR ADDITIONS ARE MADE THERETO.

... 6.123 sub-4 ... Code, C26-273.0 Adm. Code ...
... or in the occupancy of ... erected or altered after January ...
..., 1938, the authorized ... floor of said structure as ...
stated in the certificate ... shall be permanently posted under ...
glass and maintained in the main entrance hall of such structure."

NO CHANGES OF USE OR OCCUPANCY NOT CONSISTENT WITH THIS CERTIFICATE SHALL BE MADE UNLESS FIRST APPROVED BY THE BOROUGH SUPERINTENDENT

Unless an approval for the same has been obtained from the Borough Superintendent, no change or rearrangement in the structural parts of the building, or affecting the light and ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

The superimposed, uniformly distributed loads, or concentrated loads producing the same stresses in the construction in any story shall not exceed the live loads specified on reverse side; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

This certificate does not in any way relieve the owner or owners or any other person or persons in possession or control of the building, or any part thereof from obtaining such other permits, licenses or approvals as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from obtaining the special certificates required for the use and operation of elevators; nor from the installation of fire alarm systems where required by law; nor from complying with any lawful order for additional fire extinguishing appliances under the discretionary powers of the fire commissioner; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

If this certificate is marked "Temporary", it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to any building under the jurisdiction of the Housing Division unless it is also approved and endorsed by them, and it must be replaced by a full certificate at the date of expiration.

If this certificate is for an existing building, erected prior to March 14, 1916, it has been duly inspected and it has been found to have been occupied or arranged to be occupied prior to March 14, 1916, as noted on the reverse side, and that on information and belief, since that date there has been no alteration or conversion to a use that changed its classification as defined in the Building Code, or that would necessitate compliance with some special requirement or with the State Labor Law or any other law or ordinance; that there are no notices of violations or orders pending in the Department of Buildings at this time; that Section 646F of the New York City Charter has been complied with as certified by a report of the Fire Commissioner to the Borough Superintendent, and that, so long as the building is not altered, except by permission of the Borough Superintendent, the existing use and occupancy may be continued.

"§ 646 F. No certificate of occupancy shall be issued for any building, structure, enclosure, place or premises wherein containers for combustibles, chemicals, explosives, inflammables and other dangerous substances, articles, compounds or mixtures are stored, or wherein automatic or other fire alarm systems or fire extinguishing equipment are required by law to be or are installed, until the fire commissioner has tested and inspected and has certified his approval in writing of the installation of such containers, systems or equipment to the Borough Superintendent of the borough in which the installation has been made. Such approval shall be recorded on the certificate of occupancy."

Additional copies of this certificate will be furnished to persons having an interest in the building or premises, upon payment of a fee of fifty cents per copy.

Form—244-1935 Certificate of Occupancy. 8A-2087-35-Bu

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC **CERTIFICATE OF OCCUPANCY No.** 22218 **193**7

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York, March 9, 1937

THIS CERTIFIES that the building located on Block 723, Lot 62

known as 446 West 26th Street, 25' front

under a permit, Application No. 2031 Alt of 1936, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of nonfireproof construction within the meaning of the building code and may be used and occupied as a business building as hereinafter qualified, in an unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED MALE	FEMALE	TOTAL	USE
Cellar		2		2	Boiler room and Light Manufacturing
1st Story	300	2		2	Shipping
2nd "	50	2	2	2	Offices

This certificate is issued to John L. Collins, 446 West 26th Street, City, owner only.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot, in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined.

Commissioner of Buildings, Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form 444-1923 Certificate of Occupancy

Revised March 21-11

BUREAU OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC **CERTIFICATE OF OCCUPANCY No.** 6000 **192** 3

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York March 13, 19 23

THIS CERTIFIES that the building located on Block 723 , Lot 5

known as 453 West 25th Street (rear) ,
29'11" front

under a permit, Application No. 521 M.B. of 19 22 conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of fireproof construction within the meaning of the building code and may be used and occupied as a business building as hereinafter qualified, in a n unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations, and conditions prescribed by law or as hereinafter specified.

Story	Live Loads Lbs. per Sq. Ft.	Persons Accommodated			Use
		Male	Female	Total	
1st Floor		2		2	Boiler room extension

This certificate is issued to Clausen-Flanagan Corp., 441 West 25th Street, City , for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket; but, if approved as a factory building for less than twenty-five persons, it shall not be used for any other purpose.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the superintendent of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined.

Superintendent of Buildings, Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

Form—244-1923 Certificate of Occupancy. 8A-2087-23-L

BUREAU OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC **CERTIFICATE OF OCCUPANCY No.** 192 4

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: New York May 20 19 24

THIS CERTIFIES that the building located on Block 723 , Lot 9 & 10

known as 443-445 West 25th Street
50' front

under a permit, Application No. 2575 Alt of 1922, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of non-fireproof construction within the meaning of the building code and may be used and occupied as a business building as hereinafter qualified, in an unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations, and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED MALE	FEMALE	TOTAL	USE
Cellar					Storage
1st Floor				5	Storage, garage and boiler room
2nd "				5	Storage
3rd "				5	Storage
4th "				5	Storage

This certificate is issued to Clausen-Flanagan Storage Company
448-460 W.26th Street, City , for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket; but if approved as a factory building for less than twenty-five persons, it shall not be used for any other purpose.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the superintendent of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined. CL

Superintendent of Buildings, Borough of Manhattan.

Form—244-1935 Certificate of Occupancy. 8A-2087-35-Bu-[redacted]-40

DEPARTMENT OF BUILDINGS

BOROUGH OF MANHATTAN, CITY OF NEW YORK

HVC **CERTIFICATE OF OCCUPANCY No.** [redacted] **193** 6

Supersedes Certificate of Occupancy No.

To the owner or owners of the building: Nov. 27, 1936

THIS CERTIFIES that the building located on Block 724 New York, Lot 18

known as 429 West 26th Street 27'11" front

under a permit, Application No. 1935 Alt of 1936, conforms to the approved plans and specifications accompanying said permit and any approved amendments thereto, and to the requirements of the building code and all other laws and ordinances and to the rules and regulations of the board of standards and appeals, applicable to a building of its class and kind, except that in the case of a building heretofore existing and for which no previous certificate of occupancy has been issued and which has not been altered or converted since March 14, 1916, to a use that changed its classification as defined in the building code, this certificate confirms and continues the existing uses to which the building has been put; and

CERTIFIES FURTHER that the building is of nonfireproof construction within the meaning of the building code and may be used and occupied as a business and ~~residence~~ building as hereinafter qualified, in an unrestricted district under the building zone resolution, subject to all the privileges, requirements, limitations and conditions prescribed by law or as hereinafter specified.

STORY	LIVE LOADS Lbs. per Sq. Ft.	PERSONS ACCOMMODATED MALE	PERSONS ACCOMMODATED FEMALE	PERSONS ACCOMMODATED TOTAL	USE
					Multiple Dwelling Class A
Cellar					Boiler room and Storage
1st Story	100			5	Store
2nd to 5th Story	40 on each				Three (3) Apartments on each floor

This certificate is issued to Samuel Pelton, architect 50 West 47th Street, City. , for the owner or owners.

The superimposed, uniformly distributed loads, or their equivalent concentrated loads in any story shall not exceed the live loads specified above; the number of persons of either sex in any story shall not exceed that specified when sex is indicated, nor shall the aggregate number of persons in any story exceed the specified total; and the use to which any story may be put shall be restricted to that fixed by this certificate except as specifically stated.

The building or any part thereof shall not be used for any purpose other than that for which it is certified.

Unless specifically stated above, the building or any part thereof, if certified as a public building, shall not be used as a building in which persons are harbored to receive medical, charitable or other care or treatment, such as a hospital, asylum, etc., or in which persons are held or detained under legal restraint, such as a police station, jail, etc.; nor shall it be used as a motion picture theatre as defined in section 30, chapter 3, Code of Ordinances; nor as a theatre or opera house or other building intended to be used for theatrical or operatic purposes, or for public entertainment of any kind, for the accommodation of more than 300 persons.

Unless specifically stated above, the building or any part thereof, if certified as a residence building, shall not be used as a tenement house as defined in the tenement house law; nor shall it be used as any form of residence building having more than 15 sleeping rooms; nor shall it be used as a lodging house within the meaning of Sec. 1305 of the Greater New York Charter.

Unless specifically stated above, the building or any part thereof, if certified as a business building, shall not be used as a garage, motor vehicle repair shop or oil selling station as defined in section 1, chapter 10, Code of Ordinances; nor shall it be used for the generation or compression of acetylene; nor as a factory building as defined in the labor law; nor as a grain elevator; nor as a coal pocket.

Except as otherwise noted above, the building, or any part thereof, if located elsewhere than in an unrestricted district, shall not be used for any of the purposes enumerated in paragraph (a) of section 4 of the building zone resolution; nor for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise; nor for any kind of manufacturing not already prohibited, except that, if located in a business district, not more than twenty-five per cent. of the total floor space may be so used, or space equal to the area of the lot in any case.

Except as otherwise noted above, the building, if certified as a garage, may not be used for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school, or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the the nearest exit from or entrance to a public school; nor within two hundred feet of any hospital maintained as a charitable institution.

If the building has, at any time previous to the issuance of this certificate, been the subject of an appeal to the board of appeals or of a petition to the board of standards and appeals resulting in modification or variation of law or any lawful requirement, the construction and arrangement of the building as specified in the resolution granting such modification or variation, must be maintained, and all conditions imposed by either board must be observed.

No change or re-arrangement in the structural parts of the building, or affecting the lighting or ventilation of any part thereof, or in the exit facilities, shall be made; no enlargement, whether by extending on any side or by increasing in height shall be made; nor shall the building be moved from one location or position to another; nor shall there be any reduction or diminution of the area of the lot or plot on which the building is located, until an approval of the same has been obtained from the commissioner of buildings.

This certificate supersedes each and every previously issued certificate of occupancy for this building or any part thereof, and each and every such previously issued certificate shall be null and void; and this certificate in turn becomes null and void upon the issuance of any new lawful certificate.

This certificate does not in any way relieve the owner or owners, or any other person or persons in possession or control of the building, or any part thereof, from obtaining such other permits or licenses as may be prescribed by law for the uses or purposes for which the building is designed or intended; nor from complying with any lawful order issued with the object of maintaining the building in a safe or lawful condition; nor from complying with any authorized direction to remove encroachments into a public highway or other public place, whether attached to or part of the building or not.

This certificate does not authorize the use or operation of any elevator in the building without the special certificate required by section 563 of the building code.

If the building is or is required to be equipped with standpipes or other fire extinguishing or gas shut off appliances, this certificate is not complete until such standpipes or other appliances have been inspected by the fire department (or by the Tenement House Department in the case of a gas shut off in a tenement house) and approved in writing, either in a separate certificate or by endorsement upon this certificate. (Space for such endorsement is provided on page 4 of this certificate.)

If this certificate is marked "Temporary," it is applicable only to those parts of the building indicated on its face, and certifies to the legal use and occupancy of only such parts of the building; it is subject to all the provisions and conditions applying to a final or permanent certificate; it is not applicable to a tenement house unless also approved by the tenement house commissioner; and it must be replaced by a full certificate as soon as the entire building is completed according to law and ready for occupancy.

The word "class" as used in this certificate refers to the classification of buildings in the building code (section 70).

This certificate is issued in accordance with the provisions of section 411-a of the Greater New York Charter and of section 5 of chapter 5 (Building Code) of the Code of Ordinances of the City of New York.

Examined.

Commissioner of Buildings, Borough of Manhattan.

Additional copies of this certificate will be issued, upon written request, to persons having a proprietary interest in the building.

YEARS OF EXPERIENCE:

With Hillmann: 12

Total: 14

PROFESSIONAL EXPERIENCE:

Mr. Hirschmann is currently the Director, Site Investigation & Remediation Services at Hillmann Consulting, LLC. As such, he is responsible for managing and implementing soil, groundwater, and soil vapor subsurface investigations and remediation; regulatory compliance; storage tank closure and install; and third party document review.

Mr. Hirschmann has extensive experience in evaluating and investigating sites for subsurface contamination and instituting remedial activities for commercial and industrial properties (including City & State regulatory & brownfield programs). He also performs SPCC plan preparation and hazardous materials management; and performs Phase I environmental site assessments to meet due diligence requirements under CERCLA, including the quality assurance of technical reports.

Representative experience includes:

The Doe Fund, Bronx, NY:

Identified as a spill case with confirmed soil, groundwater and soil/vapor contamination with the New York State Department of Environmental Conservation (NYSDEC) and brownfield and e-designation site with New York State Office of Environmental Remediation (NYCOER). Mr. Hirschmann functioned as the project director for Hillmann and prepared the remedial investigation work plan (RIWP), conducted remedial investigation activities and prepared a Remedial Investigation Report (RIR). Based on the RIR Hillmann prepared a Remedial Action Work Plan (RAWP) that was subsequently approved by the NYSDEC and NYCOER. Under the direction of Mr. Hirschmann, Hillmann provided oversight and direction of remedial activities, including implementation of a Community Air Monitoring Plan, during site redevelopment activities.

Women in Need, Brooklyn, NY:

Identified as an e-designation and brownfield case with soil and soil/vapor contamination with NYCOER. Mr. Hirschmann functioned as the project director for Hillmann and prepared the remedial investigation work plan (RIWP), conducted remedial investigation activities and prepared a Remedial Investigation Report (RIR). Based on the RIR Hillmann designed and prepared a Remedial Action Work Plan (RAWP) that was subsequently approved by the NYCOER. Under the direction of Mr. Hirschmann, Hillmann provided oversight and direction of remedial activities during site redevelopment activities.

TLK Manor, Bronx, NY:

Identified as a contaminated property under the purview of NYCDEP, Hillmann provided investigation and remediation services related to redevelopment activities. Mr. Hirschmann functioned as the project director and conducted the remedial investigation and prepared a Remedial Action Work Plan based on the results of the soil, groundwater and soil/vapor investigation. During redevelopment

HILLMANN CONSULTING

activities, under the direction of Mr. Hirschmann, Hillmann provided oversight and direction of remedial activities including implementation of a Community Air Monitoring Plan.

BP Real Estate Fund, Queens, NY

Hillmann was retained to address the e-designation on the property for hazardous materials prior to redevelopment activities. Mr. Hirschmann functioned as the project director and prepared a Remedial Investigation Workplan, conducted the Remedial Investigation soil, groundwater and soil vapor sampling activities and issued the Remedial Investigation Report to the NYCOER. The NYCOER subsequently removed the e-designation from the property after review and approval of project documents.

AIG, Bernardsville, NJ:

The Property had a leaking underground storage tank (UST) identified as a spill case with the New Jersey Department of Environmental Protection (NJDEP) and contained widespread soil and groundwater contamination. Hillmann provided investigation and remedial activities at the site including: delineation of soil and groundwater contamination, preparation of remedial action plans for the NJDEP, enhanced fluid recovery for groundwater remediation, injection remediation of groundwater including chemical oxidation material and microbe material to break down and remediate the elevated contaminants found in the groundwater. Mr. Hirschmann was the project manager and NJDEP certified Subsurface Evaluator for the remedial activities.

City of Newark, New Jersey:

Hillmann provided investigation and remediation activities for five City owned brownfield properties. Mr. Hirschmann functioned as the project manager for oversight, design, implementation and management of soil and groundwater remedial investigations at the properties.

Unique People Services, Bronx, New York

Identified as a contaminated property under the purview of NYCDEP, Hillmann provided investigation and remediation services related to redevelopment activities. Mr. Hirschmann functioned as the project director and conducted the remedial investigation and prepared a Remedial Action Work Plan based on the results of the soil, groundwater and soil/vapor investigation. During redevelopment activities, under the direction of Mr. Hirschmann, Hillmann provided oversight and direction of remedial activities including implementation of a Community Air Monitoring Plan.

Notias Construction, NY, NY:

Hillmann provided environmental investigation activities for 5 separate sites in Manhattan, NY. Mr. Hirschmann functioned as the project manager and prepared Phase II Investigation workplans for soil and soil-vapor sampling, directed site investigation activities and prepared Remedial Investigation Reports for each site. Where

HILLMANN CONSULTING

contamination was identified, Mr. Hirschmann prepared Remedial Action Work Plans for slated redevelopment activities.

AIG: Northeastern States: Hillmann provides ongoing environmental consulting for this client including decommissioning of fuel oil storage tanks, investigation and remediation of fuel oil contaminated soil and groundwater. Mr. Hirschmann provides third-party oversight on behalf of this client to ensure the contractors/consultants onsite are performing project activities in accordance with industry and regulatory protocol. When applicable on certain projects, Mr. Hirschmann will also direct full remedial investigation and remedial activities as the project manager.

NJDEP GIS Training

Environmental Audit and Site Assessments (Rutgers NJAES)

40-hr OSHA Hazardous Waste Operations and Emergency Response (HAZWOPER) Training

8-hr OSHA HAZWOPER Refresher Training

YEARS OF EXPERIENCE:

With Hillmann: 1 year

Total: 11 years

PROFESSIONAL EXPERIENCE:

As a Senior Project and Account Manager, Mr. Etan Hindin advises private and public sector clients on a broad range of environmental projects including due diligence (Phase I and II), regulatory compliance, HSE audits, soil and groundwater remediation, and mold investigations and asbestos surveys. Mr. Hindin is responsible for proposing project services, bidding, managing projects, and meeting with clients.

Mr. Hindin has conducted Phase I's of commercial and industrial sites throughout the country and has provided EH&S consulting to Fortune 500 companies. He is particularly well versed in environmental, health and safety regulations and he strives to provide creative, effective, and efficient solutions to complex environmental problems.

Representative experience includes:

Enviro-Sciences (of Delaware), Inc.: From 2011 to 2018, Mr. Hindin served as a Project Manager at Enviro-Sciences (of Delaware), Inc. where he designed sampling programs, oversaw abatement projects, and performed clearance sampling for mold and asbestos. He also managed environmental due diligence projects of commercial and industrial sites, throughout the US. Mr. Hindin often trained entry-level consultants in database review, report writing, and assessment protocols while working to improve report templates to comply with changing regulations and ASTM standards.

NJDEP Watershed Ambassadors Program: From 2010 to 2011, Mr. Hindin worked as a New Jersey Watershed Ambassador for the NJDEP where he monitored water quality utilizing NJDEP protocols and online reporting software, utilized GIS, NJGeoWeb, and DataMiner to research assigned water bodies and surrounding areas. Mr. Hindin also presented on watershed management, resource conservation, sustainability, and environmental regulations.
