AFFIDAVIT

Brian Gaudreault being duly sworn says that on February 9th, 15th, and 16th, 2006, Brookside Environmental, Inc., supervised the removal of two (2) 800 gallon, one (1) 1,500 gallon petroleum UST's, at the above referenced property in accordance with the provision of 3 RCNY @ 21-02 Section (d) of such rule.

- Pumped out 520 gallons of gasoline and 1,300 gallons of oil and properly disposed.
- Properly purged each tank.
- Cleaned tanks.
- Removed or capped all associated piping.
- Properly disposed of each tank.

This affidavit is issued to attest the proper removal procedure by a Certified New York City Fire Department tank install in accordance with Title 3 R.C.N.Y. Section 21-02

Attn: Charles Stretz

To Whom It May Concern,

Please allow this letter to serve as certification that disposed of 3 underground storage tanks total from Creamer Environmental 3/8/06 at **Metal Management NE, Inc.**, in Newark NJ. It was delivered to Metal Management for scrapping purposes only. It has subsequently been cut to mill specification sizes and will be sold domestically or exported to a steel mill for melting purposes.

Metal Management only accepts tanks that are clean and dry and have a minimum 2 ft. x 2 ft. inspection hole. Metal Management thanks you for the opportunity to provide this service.

Thank you,

Frederic J. Pires

Re: **Underground Storage Tank #6 AvalonBay Communities, Inc.**
Avalon Riverview III. LLC

On February 8, 2006, Creamer Environmental, Inc. uncovered an Underground Storage Tank at the Avalon Riverview III, LLC site during soil excavation for our Queens West Remediation project in Long Island City, NY. This was an approximately 2000 gallon UST measuring 6 feet in diameter and 8 feet long and was located approximately 170 feet west of the east property line along 5th Street and 60 feet south of the north property line along 47th Road as shown on the attached sketch. Liquids were removed from this UST on February 9, 2006 and the UST was removed and cleaned. Copies of the liquid waste disposal manifests from Enviro Waste are attached. The cut UST shell was loaded out on March 8, 2006 and disposed of off site to Metal Management NE, Inc. a scrap metal recycler. Copy of letter of destruction of the UST metals is attached.

Re: **Underground Storage Tank #7 AvalonBay Communities, Inc.**
Avalon Riverview III. LLC

On February 13, 2006, Creamer Environmental, Inc. uncovered an Underground Storage Tank at the Avalon Riverview III, LLC site during soil excavation for our Queens West Remediation project in Long Island City, NY. This tank is believed to have been an old water heater found in a basement type concrete enclosure and measured 2 feet in diameter and 5 feet long and was located approximately 30 feet east of the property line at the north-west corner, at Center Blvd. and 47th Road and 12 feet south of the north property line along 47th Road as shown on the attached sketch. **This tank was deemed not to be an Underground Storage Tank.** No liquids were present in the tank and the soil in the tank was removed and shipped out with hydrocarbon contaminated soil disposed of off site to Clean Earth of Philadelphia. The tank was removed and cleaned and the crushed shell was shipped out on March 8, 2006 to Metal Management, a scrap metal recycler, and disposed of off site.

Re: **Underground Storage Tanks #13 at AvalonBay Communities, Inc.**
Avalon Riverview III. LLC

On February 21, 2006, Creamer Environmental, Inc. uncovered an Underground Storage Tank at the Avalon Riverview III, LLC site during soil excavation for our Queens West Remediation project in Long Island City, NY. The tank was approximately 2000 gallons in size and was 6 feet in diameter and 10 feet tall vertical tank located approximately 64 feet east of the corner property line at Center Blvd. and 47th Road and 48 feet south of the north property line along 47th Road as shown on the attached sketch. Liquids were removed from the tanks on February 22, 2006. The tank was removed on February 22 and cleaned and the cut shell was shipped off site for disposal to scrap metal recycler Metal Management NE, Inc. on March 8, 2006. Copy of letter for metal recycle disposal is attached. Copy of the manifest for waste water disposal is also attached.

Re: **Underground Storage Tanks #14 at AvalonBay Communities, Inc.**
Avalon Riverview III. LLC

On February 23, 2006, Creamer Environmental, Inc. uncovered an Underground Storage Tank at the Avalon Riverview III, LLC site during soil excavation for our Queens West Remediation project in Long Island City, NY. The tank was approximately 100 gallons in size and was 4 feet in diameter and 4 feet tall vertical tank located approximately 65 feet south of the north property line at 47th Road and 236 feet west of the east property line along 5th Street as shown on the attached sketch. This tank did not contain any liquids and the tank was removed on February 24 and cleaned and the cut shell was loaded out to be disposed of off site to a scrap metal recycler on February 24, 2006 to Metal Management NE, Inc.. Copy of the disposal letter for the scrap metal of the tank is attached.

Creamer Environmental Inc.
Union Ave
Hackensack, New Jersey

Metal Management NE, Inc picked up three underground tanks at the facility located at 4-75 48th Ave. in Long Island City, New York. All material was handled within all federal, state and local guidelines. The tanks were processed into smaller pieces and then shipped to various mills around the work for melting purposes. If you have any questions please don"t hesitate to contact me at (973)344-4570 Ext 228.

Sincerely,

Thomas Schaad

Long Island City, New York

AFFIDAVIT

Brian Gaudreault being duly sworn says that on May 22nd through May 25th, 2006, Brookside Environmental, Inc., supervised the removal of two (2) 3,000 gallon, one (1) 4,000 gallon, one (1) 5,000 gallon and two (2) 550 gallon petroleum UST's, at the above referenced property in accordance with the provision of 3 RCNY @ 21-02 Section (d) of such rule.

- Pumped out 9,300 gallons of petroleum/water mixture and properly disposed.
- Properly purged each tank.
- Cleaned tanks.
- Removed or capped all associated piping.
- Properly disposed of tanks.

This affidavit is issued to attest the proper removal procedure by a Certified New York City Fire Department tank installer/remover in accordance with Title 3 R.C.N.Y. Section 21-02
