| 1:11:30 PM  | 8                        | 1:11:06 PM  | 87                       | 79                                 |                                                                                                                                                                                                                 |
| 1:26:30 PM  | 8                        | 1:26:06 PM  | 184                      | 176                                | Dust exceedance do to proximity of contractor to CAMP station (less than 10 ft). Area continuously wetted down with hose to continously applied during concrete demolition. Not visible dust leaving the site.  |
| 1:41:30 PM  | 8                        | 1:41:06 PM  | 233                      | 225                                | Dust exceedance do to proximity of contractor to CAMP station (less than 10 ft). Area continuously wetted down with hose to continously applied during concrete demolition. Not visible dust leaving the site.  |

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

Notes:  
1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

Notes:

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

| 7:47:43  | 14                       | 7:51:14  | 236                      | 222                                | A truck associated with the disposal of SP-SHED was pumping his air brakes near downwind meter before leaving the site. Once the exceedance was noticed all trucks coming into and leaving the site we told to not pump their breaks. After that policy was implemented, there were no more dust exceedances throughout the day. Dust suppression (water) was applied during the movement of soil. |

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

### Community Air Monitoring Program - DUST (PM-10)

**Project:** Paragon Paint and Varnish Corp.

PM: Richard Maxwell

Location: 5-49 46th Avenue

Date: 12/10/2015

Upwind Serial Number 8533102002

Downwind Serial Number 8533102002

[illegible]

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

Notes:

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

[illegible]

Notes;

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Roux Associates, Inc.****Community Air Monitoring Program - VOC****Onsite: Rachel Henke**

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Roux Associates, Inc.**

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.

**Roux Associates, Inc.**

**Notes:**

1. Corrected downwind concentration is based on the difference of the upwind meter concentration and respective downwind meter location.
