

**(Fact Sheet Begins Next)**

## **Act Now to Continue Receiving Information About This Site!**

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites electronically by email.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

**You must sign up for the DER email listserv:**

<https://dec.ny.gov/environmental-protection/site-cleanup/regional-remediation-project-information/environmental-cleanup-email-newsletters>

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

### **Why You Should Go “Paperless”:**

- ☒ Get site information faster and share it easily;
- ☒ Receive information about all sites in a chosen county - read what you want, delete the rest;
- ☒ It helps the environment and stretches your tax dollars.

**If “paperless” is not an option for you**, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

Conservation

## Where to Find Information

Access project documents through the DECinfo Locator and at these location(s):  
<https://extapps.dec.ny.gov/data/DecDocs/C241146H/>

**Queens Public Library – Central Library**  
89-11 Merrick Boulevard  
Jamaica, NY 11432  
(718) 990-0700

**Queens Community Board 7**  
30-50 Whitestone Expressway, Suite 205  
Flushing, NY 11354  
(718) 359-2800  
[qn07@cb.nyc.gov](mailto:qn07@cb.nyc.gov)

## Who to Contact

Comments and questions are welcome and should be directed as follows:

**Project-Related Questions**  
Wendi Zheng, Project Manager  
NYSDEC  
47-40 21<sup>st</sup> Street  
Long Island City, NY 11101  
(718) 482-7541  
[Wendi.Zheng@dec.ny.gov](mailto:Wendi.Zheng@dec.ny.gov)

**Project-Related Health Questions**  
Harolyn Hood  
NYSDOH  
Empire State Plaza  
Corning Tower, Rm. 1787  
Albany, NY 12237  
(518) 473-4780  
[beei@health.ny.gov](mailto:beei@health.ny.gov)

# FACT SHEET

Brownfield Cleanup Program

November 2024

Willets Point Development  
L-Parcel  
38-25 126<sup>th</sup> Lane  
Queens, NY 11368

**SITE No. C241146H**  
**NYSDEC REGION 2**

## Cleanup Action Completed at Brownfield Site

Action has been completed to address the contamination related to the Willets Point Development L-Parcel site ("site") located at 38-25 126<sup>th</sup> Lane, Queens, NY under New York State's Brownfield Cleanup Program (BCP). Please see the map for the site location.

Cleanup activities were performed by Queens Development Group, LLC, QDG Hotel Partners, LLC, QDG 126th Street Partners, LLC, QDG Parking Partners, LLC, and QDG Retail Partners, LLC (collectively, the "applicants") with oversight provided by the New York State Department of Environmental Conservation (NYSDEC). The applicant(s) has submitted a proposed Final Engineering Report (FER) for NYSDEC review which states that cleanup requirements have been or will be achieved to fully protect public health and the environment for the proposed site use.

- Access project documents online through the DECinfo Locator:  
<https://extapps.dec.ny.gov/data/DecDocs/C241146H/>
- The documents also are available at the location(s) identified at left under "Where to Find Information."

**Highlights of the Site Cleanup:** The following activities have been or will shortly be completed to achieve the remedial action objectives:

- Remedial excavation and off-site disposal of about 6,300 tons of fill and soil exceeding the Protection of Groundwater Soil Cleanup Objectives (SCOs) and Restricted Residential SCOs, the site-specific cleanup criteria.
- Enhanced in-situ (i.e. in place) groundwater bioremediation through the use of carbon and other material to break down site contaminants.
- Capping of excavated areas with a site cover system consisting of at least two feet of certified-clean fill.
- The potential for vapor intrusion must be evaluated for any buildings developed within the site and any potential impacts that are identified must be monitored or mitigated.
- Establishment of an NYSDEC-approved Site Management Plan (SMP) to provide for long-term management of Engineering Controls (ECs) and Institutional Controls (ICs), including the performance of periodic inspections and certification that the controls are performing as they were intended. Inclusion of a requirement in the SMP to evaluate future proposed structures for soil vapor intrusion;
- Recording of an Environmental Easement to ensure implementation of the SMP and mandate the future owners continue to maintain ECs and ICs.

# BROWNFIELD CLEANUP PROGRAM

**Next Steps:** When NYSDEC approves the FER, it will be made available to the public (see "Where to Find Information"). NYSDEC then will issue a Certificate of Completion (COC) that will be announced in a fact sheet. The applicant(s) would be able to redevelop the site after receiving a COC. In addition, the applicant(s) will be eligible for tax credits to offset a portion of the costs of performing cleanup activities and for redevelopment of the site.

**Site Description:** The Willets Point Development L-Parcel Brownfield Cleanup Program (BCP) site is located in a former industrial zone in the Borough of Queens and has a total area of 1.120 acres. The site is comprised of Queens Borough Tax Block 1833, Lot 158 and 172. The site is bound by automotive repair and wrecking facilities to the north; by Evergreen Recycling of Corona (EROC) to the east; the Willets Point Development SCA School BCP site (BCP Site No. C241146D) to the south; and automotive repair and wrecking facilities and Willets Point Boulevard to the west.

Prior to the 1900s, the Willets Point area was a tidally influenced salt marsh. From the early 1900s to the early 1930s, the Willets Point area was used as a dumping ground for coal ash from residential and municipal heating operations in greater New York City. In the late 1930s, Willets Point and nearby Flushing Corona Park were graded and developed primarily with automotive repair shops, filling stations, and scrapyards.

The site was remediated as a part of Operable Unit 2 of the former Willets Point Development BCP site. The former Willets Point Development BCP site, inclusive of Operable Unit 1 and 2, was subdivided into eight sites to correlate with future development. Remediation is complete or nearing completion within the area comprising the entire former Willets Point Development BCP site. BCP Site No. C241146 received a COC on December 28, 2023, BCP Site No. C241146C received a COC on May 1, 2024, BCP Site No. C241146B received a COC on July 18, 2024, BCP Site No. C24116E received a COC on September 10, 2024, and approval FERs documenting remediation of the other newly subdivided BCP Sites is pending. Currently there are no redevelopment plans for this site.

Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C241146H) at:

<https://extapps.dec.ny.gov/cfm/extapps/derexternal/index.cfm?pag eid=3>

**Brownfield Cleanup Program:** New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by NYSDEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit:

<https://dec.ny.gov/environmental-protection/site-cleanup/brownfield-and-state-superfund-programs/brownfield>

***We encourage you to share this fact sheet with neighbors and tenants, and/or post this fact sheet in a prominent area of your building for others to see.***
