

Monthly Progress Report No. 86
ABC Block 25
4-40 44th Drive
Long Island City, New York
Brownfield Cleanup Program Site #: C241173
Reporting Period: December 2024

1. Introduction

In accordance with Article XI – Progress Reports of the 03 February 2016 Brownfield Cleanup Agreement (BCA) for the above-referenced site, Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) prepared this monthly progress report (MPR) on behalf of PLAX B25, LLC (Participant) to summarize the work performed at 4-40 44th Drive, Long Island City, New York (the site) during December 2024.

The site (Block 25, Lot 15) is located in the Long Island City neighborhood of Queens, New York and consists of an irregularly-shaped, 202,500-square-foot (\pm 4.65-acre) lot. The site is located on the city block bordered by 44th Drive and 45th Avenue to the north, 5th Street and Vernon Boulevard on the east, Anable Basin to the south, and the East River to the west. The site is currently occupied by single- and multi-story industrial and manufacturing buildings and a parking lot. Elevations at the site range from elevation (el) 9 feet in the northeast part of the site near 45th Avenue to about el 6.5 feet in the southern and western part of the site near the East River and Anable Basin. All elevations presented herein are measured in feet and referenced to the North American Vertical Datum of 1988 (NAVD88).

2. Remedial Actions Relative to the Site Completed during this Reporting Period

The Participant continued the implementation of the Soil/Material Management Plan (SMMP) for the bulkhead stabilization work at the northern side of Anable Basin. SMMP activities were detailed in daily field reports provided to the New York State Department of Environmental Conservation (NYSDEC).

3. Actions Relative to the Site Anticipated for the Next Reporting Period

The NYSDEC requested a brief report in late October 2024 summarizing the results of the pilot study completed at the ABC Block 26 Brownfield Cleanup Program (BCP) site for NYSDEC review and approval. Langan, on behalf of the Participant, expects to submit the pilot study report in January 2025.

The Participant will continue to implement the SMMP for the bulkhead stabilization work on the northern side of Anable Basin.

4. Approved Activity Modifications (changes of work scope and/or schedule)

None.

5. Results of Sampling, Testing and Other Relevant Data

Results of the pilot study will be provided in the forthcoming pilot study report.

6. Deliverables Submitted during this Reporting Period

None.

7. Information Regarding Percentage of Completion

Site remediation is about 20 percent complete.

8. Unresolved Delays Encountered or Anticipated That May Affect the Schedule and Mitigation Efforts

None.

9. Community Participation (CP) Plan Activities during this Reporting Period

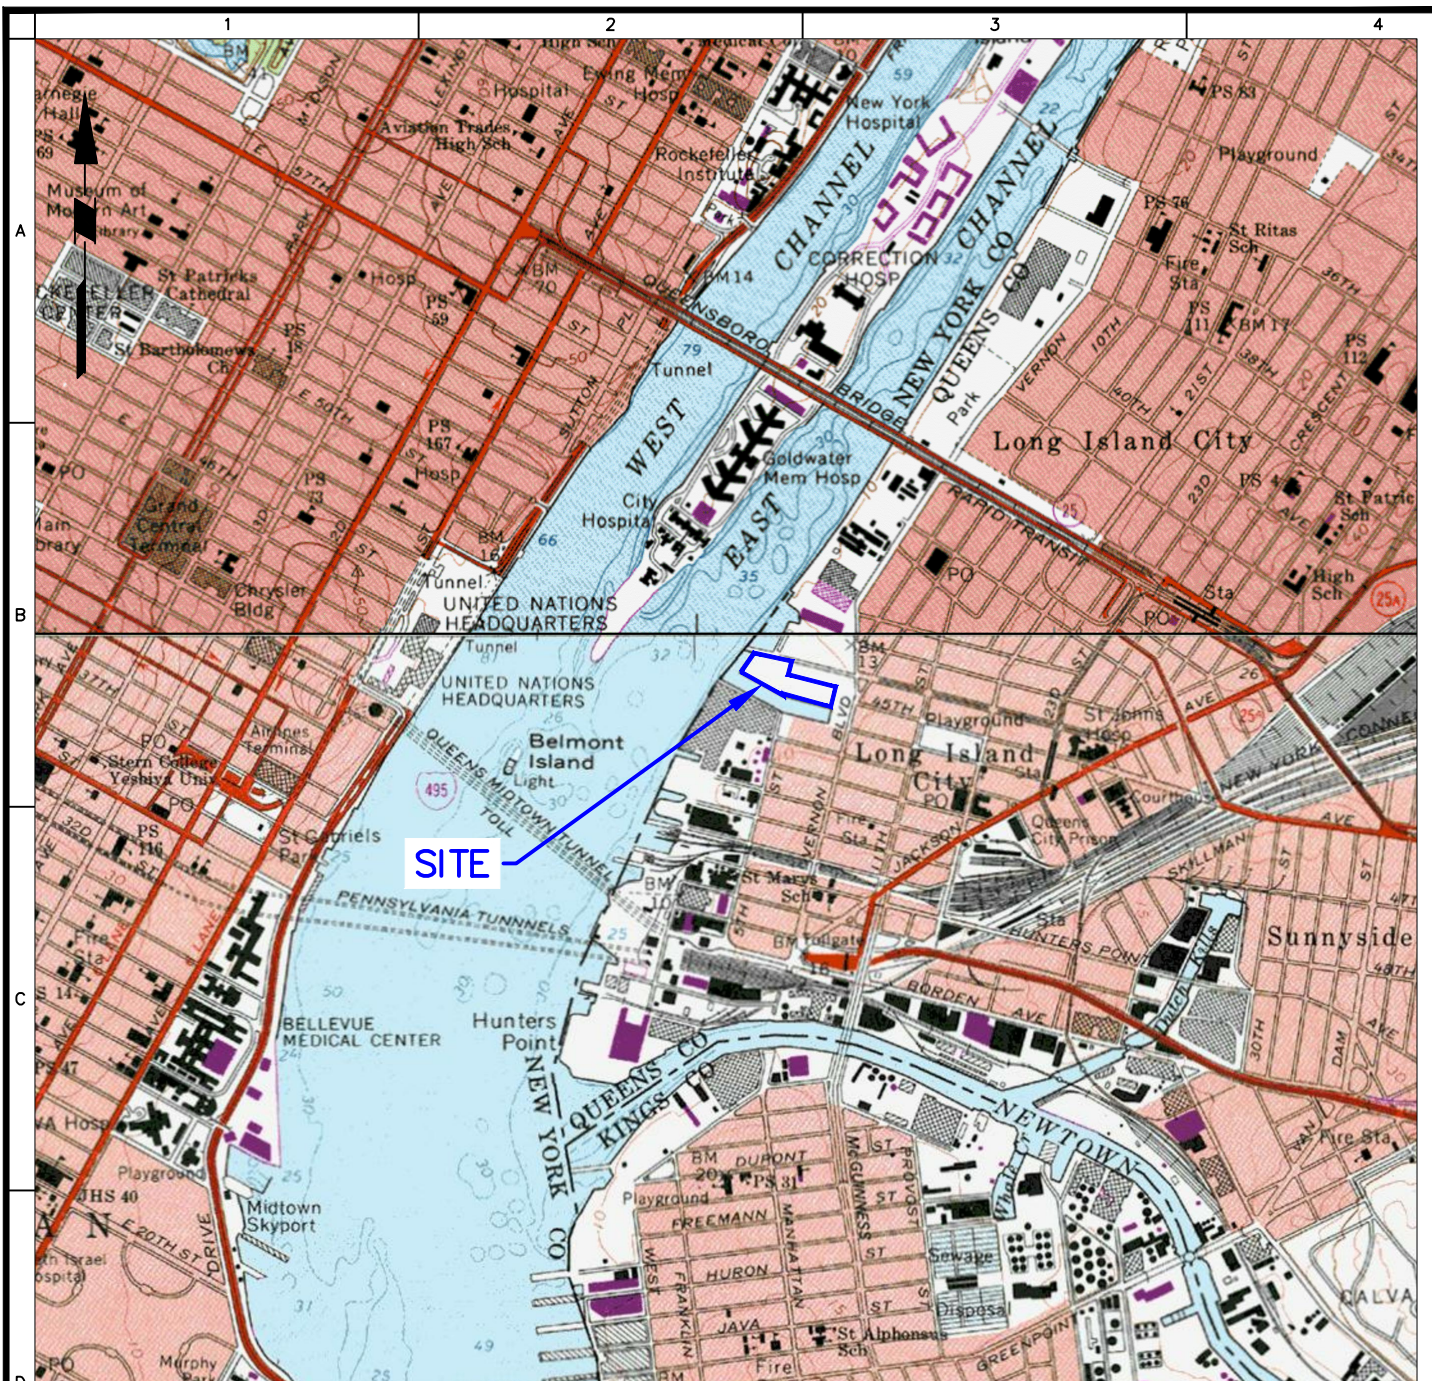

None.

10. Activities Anticipated in Support of the CP Plan for the Next Reporting Period:

None.

11. Miscellaneous Information

None.
