

Monthly Progress Report No. 76
ABC Block 26
5-25 46th Avenue
Long Island City, New York
Brownfield Cleanup Program Site #: C241174
Reporting Period: February 2024

1. Introduction

In accordance with Article XI – Progress Reports of the 03 February 2016 Brownfield Cleanup Agreement (BCA) for the above-referenced site, Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) prepared this monthly progress report on behalf of PLAX B26, LLC (Participant) to summarize the work performed at 5-25 46th Avenue, Long Island City, New York (the site) during February 2024.

The site (Block 26, Lots 17 and 21) is located in the Long Island City neighborhood of Queens, New York and encompasses an area of about 92,940 square-feet (± 2.13 -acre) lot. The site is located on the city block bordered by Anable Basin to the north, Vernon Boulevard on the east, 46th Avenue to the south, and 5th Street to the west. The site is currently occupied by single- and multi-story manufacturing and residential buildings and a parking lot. Elevations at the site range from elevation (el.) 9 feet in the southeast part of the site near 46th Avenue to about el. 5.5 feet in the northwest part of the site near Anable Basin. All elevations presented herein are measured in feet and referenced to the North American Vertical Datum of 1988 (NAVD88). A site location map is attached to this progress report as Figure 1.

2. Remedial Actions Relative to the Site Completed during this Reporting Period

Langan completed the work included in the Pilot Study Work Plan on February 10 and 17, 2024. The results of the pilot study will refine the scope of a forthcoming Interim Remedial Measures Work Plan (IRMWP) to be submitted for the site.

On February 14, 2024, a pre-construction meeting between the Participant, Langan, New York State Department of Conservation (NYSDEC), waterfront engineer (McLaren), and waterfront contractor (Trevcon) was held to discuss the implementation of the Soil/Material Management Plan (SMMP) during bulkhead stabilization work that is anticipated to be completed in 2024.

3. Actions Relative to the Site Anticipated for the Next Reporting Period

Langan will begin to prepare a Pilot Study Report that summarizes the findings of the pilot study. The Participant will continue to prepare for the implementation of the SMMP during bulkhead stabilization work.

4. Approved Activity Modifications (changes of work scope and/or schedule)

None.

5. Results of Sampling, Testing and Other Relevant Data

Validated indoor air and ambient air sampling results from the pilot study will be tabulated and included in the pilot study report and submitted to the NYSDEC as an electronic data deliverable (EDD). The EDDs will be submitted as soon as the data is validated.

6. Deliverables Submitted during this Reporting Period

None.

7. Information Regarding Percentage of Completion

Site remediation is about 20 percent complete.

8. Unresolved Delays Encountered or Anticipated That May Affect the Schedule and Mitigation Efforts

None.

9. Community Participation (CP) Plan Activities during this Reporting Period

None.

10. Activities Anticipated in Support of the CP Plan for the Next Reporting Period:

None.

11. Miscellaneous Information

None.
