

Monthly Progress Report No. 78
ABC Block 26
5-25 46th Avenue
Long Island City, New York
Brownfield Cleanup Program Site #: C241174
Reporting Period: April 2024

1. Introduction

In accordance with Article XI – Progress Reports of the 03 February 2016 Brownfield Cleanup Agreement (BCA) for the above-referenced site, Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) prepared this monthly progress report on behalf of PLAX B26, LLC (Participant) to summarize the work performed at 5-25 46th Avenue, Long Island City, New York (the site) during April 2024.

The site (Block 26, Lots 17 and 21) is located in the Long Island City neighborhood of Queens, New York and encompasses an area of about 92,940 square-feet (± 2.13 -acre) lot. The site is located on the city block bordered by Anable Basin to the north, Vernon Boulevard on the east, 46th Avenue to the south, and 5th Street to the west. The site is currently occupied by single- and multi-story manufacturing and residential buildings and a parking lot. Elevations at the site range from elevation (el.) 9 feet in the southeast part of the site near 46th Avenue to about el. 5.5 feet in the northwest part of the site near Anable Basin. All elevations presented herein are measured in feet and referenced to the North American Vertical Datum of 1988 (NAVD88). A site location map is attached to this progress report as Figure 1.

2. Remedial Actions Relative to the Site Completed during this Reporting Period

On April 4, 2024, the Participant began the implementation of the Soil/Material Management Plan (SMMP) for the bulkhead stabilization work at Anable Basin. SMMP activities were detailed in daily field reports provided to the New York State Department of Environmental Conservation (NYSDEC).

On April 22, 2024, the Participant, NYSDEC, and New York State Department of Health (NYSDOH) held a meeting to discuss the results of the pilot study. The NYSDEC and NYSDOH requested that Langan submit the indoor air sampling logs and completed NYSDOH indoor air questionnaires for review. On April 25, 2024, Langan submitted the indoor air sampling logs and NYSDOH indoor air questionnaires to the NYSDEC and NYSDOH for review.

3. Actions Relative to the Site Anticipated for the Next Reporting Period

The Participant will await feedback from the NYSDEC and the NYSDOH on the pilot study results.

The Participant will continue the implementation of the SMMP for the bulkhead stabilization work at the Anable Basin.

4. Approved Activity Modifications (changes of work scope and/or schedule)

None.

5. Results of Sampling, Testing and Other Relevant Data

The indoor air sampling logs and NYSDOH indoor air questionnaire from the pilot study were submitted to the NYSDEC and NYSDOH for review.

6. Deliverables Submitted during this Reporting Period

Validated indoor air and ambient air sampling results from the pilot study were submitted to the NYSDEC as an electronic data deliverable (EDD) on April 23, 2024.

7. Information Regarding Percentage of Completion

Site remediation is about 20 percent complete.

8. Unresolved Delays Encountered or Anticipated That May Affect the Schedule and Mitigation Efforts

None.

9. Community Participation (CP) Plan Activities during this Reporting Period

None.

10. Activities Anticipated in Support of the CP Plan for the Next Reporting Period:

None.

11. Miscellaneous Information

None.
