New York State Department of Taxation and Finance

New York State and Local Sales and Use Tax
Certificate of Capital Improvement

To be completed by customer and given to, signed by and retained by contractor making capital improvement to the real property.

The contractor must collect the sales tax on the full amount charged under the contract unless the customer gives him a properly completed Certificate of Capital Improvement. When a properly completed Certificate of Capital Improvement has been furnished to the contractor, the burden of proving the job or transaction is not taxable rests solely upon the customer.

This certificate must be issued to a contractor by his customer as evidence that the work to be performed will result in a capital improvement to real property. THIS CERTIFICATE MAY NOT BE USED TO PURCHASE BUILDING MATERIALS OR OTHER TANGIBLE PERSONAL PROPERTY TAX FREE. Acceptance of this certificate by a contractor does not relieve the contractor of his liability for the payment of sales tax on his purchase of building materials or other tangible personal property incorporated into the real property as a capital improvement.

Read this form completely before making any entries

THIS CERTIFICATE IS NOT VALID UNLESS ALL ENTRIES ARE COMPLETED
