
PROGRESS REPORT #11

**HPS Parcel G
57-28 2nd Street, Long Island City, New York
Brownfield Cleanup Program #C241226**

Reporting Period: June 2020

Introduction

In accordance with the Brownfield Cleanup Agreement (Index #C241226), dated December 3, 2018, this Progress Report was prepared by Roux Environmental Engineering and Geology, D.P.C. (Roux) to describe the Brownfield Cleanup Program (BCP) activities at the HPS Parcel G, located at 57-28 2nd Street, Long Island City, New York (Site) for the month of June 2020. GO HPS LLC is the BCP Volunteer.

I. BCP Activities Completed during the Reporting Period

The remedial work completed during this period was done in accordance with the certified Remedial Action Work Plan (RAWP) by Roux dated November 2019.

Roux provided oversight of subcontractors and implemented the RAWP Site-specific community air monitoring plan (CAMP) during intrusive activities. CAMP monitoring was performed during each day, weather permitting. Support of excavation (SOE) and foundation slab portions continued to be installed and construction of the subgrade foundation walls commenced across the Site. Soil excavation continued to install the SOE and foundation elements, with waste disposal occurring as necessary, and all soil was contained in its respective waste characterization grids. Concrete was poured into foundation walls and slabs across the Site followed by post-pour installation of waterproofing on the backside of the walls. Electrical and plumbing work continued across the Site and a crane continues to be erected in WCG-1. 3/4" RCA Blend material was imported to the Site from an approved source and then backfilled and compacted along the northwest and southwest foundation walls.

Soil disposal activities continued during this period, with 36 loads of non-hazardous soil exported to the Earth Efficient Greenview facility in Stroudsburg, Pennsylvania, and 20 loads of non-haz soil to Pure Soil Technologies in Jackson, New Jersey. Roux was present on all days when soil disturbance/excavation occurred. Daily reports were submitted to NYSDEC.

II. BCP Activities Planned for the Next Reporting Period (July 2020)

A draft Site Management Plan will be prepared for NYSDEC review. Remedial activities will continue. Soil disposal is complete however foundation installation, waterproofing, and backfilling around the foundation with imported material will continue. All work will be completed in accordance with the RAWP dated November 2019.

III. Schedule and Changes to Scope of Work or Schedule

No changes to the scope of work or schedule occurred during the reporting period.

IV. Sampling and Other Data Received or Generated during the Reporting Period

No sampling was conducted during the reporting period.

V. Deliverables Submitted during the Reporting Period

No deliverables were submitted during the reporting period.

VI. Percentage of Work Completion and Any Delays

Soil excavation and disposal is complete. Remedial activities will continue, including foundation installation, waterproofing, and import of materials for backfill. Roux will continue to track and report ongoing soil disposal and other remedial activities to NYSDEC.

VII. Citizen's Participation Plan Actions Taken during the Reporting Period

No Citizen Participation Actions occurred during the reporting period.

VIII. Citizen's Participation Plan Actions Planned for the Next Reporting Period

No Citizen Participation Actions planned for the next reporting period.
