

(Fact Sheet Begins Next)

## Act Now to Continue Receiving Information About This Site!

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites *electronically by email*.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

**You must sign up for the DER email listserv:**

[www.dec.ny.gov/chemical/61092.html](http://www.dec.ny.gov/chemical/61092.html)

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

### Why You Should Go “Paperless”:

- Get site information faster and share it easily;
- Receive information about all sites in a chosen county - read what you want, delete the rest;
- It helps the environment and stretches your tax dollars.

**If “paperless” is not an option for you**, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

## Where to Find Information

Access project documents through the DECinfo Locator  
<https://www.dec.ny.gov/data/DecDocs/C241243/>  
and at these location(s):

### Queens Public Library-Central

89-11 Merrick Blvd  
Jamaica, NY 11432  
(718) 990-0700

### Queens Community Board 12

90-28 161st Street  
Jamaica, NY 11432  
(718) 658-3308  
[Qn12@cb.nyc.gov](mailto:Qn12@cb.nyc.gov)

## Who to Contact

Comments and questions are welcome and should be directed as follows:

### Project-Related Questions

Chris Allan, Project Manager  
NYSDEC Region 2  
41-40 21st Street  
Long Island City, NY 11101  
(718) 482-4065  
[christopher.allan@dec.ny.gov](mailto:christopher.allan@dec.ny.gov)

### Project-Related Health Questions

Anthony Perretta  
NYSDOH  
Empire State Plaza  
Corning Tower Room 1787  
Albany, NY 12237  
(518) 486-7860  
[beci@health.ny.gov](mailto:beci@health.ny.gov)

# FACT SHEET

## Brownfield Cleanup Program

90-02 168<sup>th</sup> Street Site  
90-02 168<sup>th</sup> Street  
Jamaica, New York 11432

**SITE No. C241243**

**NYSDEC REGION 2**

**December 2022**

## Cleanup Action Completed at Brownfield Site

Action has been completed to address the contamination related to the 90-02 168<sup>th</sup> Street site ("site") located at 90-02 168<sup>th</sup> Street, Queens County under New York State's Brownfield Cleanup Program (BCP). Please see the map for the site location.

Cleanup activities were performed by 90Ninety LLC ("applicant") with oversight provided by the New York State Department of Environmental Conservation (NYSDEC). The applicant has submitted a proposed Final Engineering Report (FER) for NYSDEC review which states that cleanup requirements have been or will be achieved to fully protect public health and the environment for the proposed site residential use.

- Access project documents online through the DECinfo Locator: <https://www.dec.ny.gov/data/DecDocs/C241243/>
- The documents also are available at the location(s) identified at left under "Where to Find Information."

**Highlights of the Site Cleanup:** The following activities have been or will shortly be completed to achieve the remedial action objectives:

- Excavation and off-site disposal of all site soils exceeding the unrestricted use soil cleanup objectives (USCOs) beneath the proposed building (the Track 1 area of the site) and the upper 2 feet of soils in the Track 4 area of the site. A total of approximately 40,000 cubic yards of contaminated soil and historic fill material was removed from the site;
- Re-use of clean fill meeting the requirements of 6 NYCRR Part 375-6.7(d) to complete backfilling of the excavation and establish the designed grades at the site;
- Installation and maintenance of a site cover system in the Track 4 area, which consists of at least 2 feet of clean soil overlain by a paved surface and landscaping;
- Performance of a soil vapor intrusion evaluation prior to occupancy of the new building, including a provision for implementing actions recommended to address exposures related to potential soil vapor intrusion;
- Implementation of a Site Management Plan (SMP) for long-term maintenance of the remedial systems on the Track 4 portion of the site, including plans for Institutional and Engineering Controls, and reporting;
- Recording of an Environmental Easement on the Track 4 portion of the site to ensure proper future use of the site.

# BROWNFIELD CLEANUP PROGRAM

**Next Steps:** When NYSDEC approves the FER, it will be made available to the public (see "Where to Find Information"). NYSDEC then will issue a Certificate of Completion (COC) that will be announced in a fact sheet. The applicant(s) would be able to redevelop the site after receiving a COC. In addition, the applicant(s) will be eligible for tax credits to offset a portion of the costs of performing cleanup activities and for redevelopment of the site.

**Site Description:** The site consists of a 2.28-acre property located at 90-02 168<sup>th</sup> Street in Jamaica, NY. The property is bounded to the north by 90<sup>th</sup> Avenue, to the east by 168<sup>th</sup> Street, to the west by a church complex, a religious bookstore, and residential buildings, and to the south by commercial retail buildings. Records indicate that the site was developed prior to 1886 with residential dwellings and stables. Commercial properties were present on the site by 1925 including a plumbing shop and paint storage shed. An auto repair shop and church were present on the northern portion of the property in the 1940s and 1950s. By 1963 all on-site structures were demolished, and the property has since been utilized for parking. Planned redevelopment includes a mixed-use commercial and residential building with underground parking.

Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C241243) at:

<https://www.dec.ny.gov/cfm/xtapps/derexternal/index.cfm?pageid=3>

**Brownfield Cleanup Program:** New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of

contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by NYSDEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit:

<https://www.dec.ny.gov/chemical/8450.html>
