

Monthly Progress Report No. 21
990-1026 Rossville Avenue
Staten Island, NY 10309
Brownfield Cleanup Program Site No. C243043
Reporting Period: November 2022

1. Introduction

Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) is submitting this monthly progress report on behalf of Allied Rossville LLC and in accordance with the 10 August 2020 Brownfield Cleanup Agreement (BCA). This monthly progress report summarizes work performed at 990-1026 Rossville Avenue (the "Site") for the month of November 2022.

The ±66,700-square-foot site is located at 990-1026 Rossville Avenue in Staten Island, New York and is identified as Block 7054, Lot 518 on the New York City Tax Map. The Site is bound to the north by three two-story residential buildings, to the east by Rossville Avenue followed by a two-story mixed-use residential/commercial building and a two-story residential building, to the south by Grafe Street followed by three two-story townhouse buildings associated with the Woodbrooke Estates residential community, and to the west by asphalt-paved tennis courts that are part of the Woodbrooke Estates residential community. The Site consists of a one-story shopping center that was constructed in 1990 and is currently occupied by a dry cleaner, liquor store, beauty salon, karate studio, ice cream parlor, grocery store, restaurant, bagel shop, laundromat, pizzeria, and a vacant former restaurant. A site location map is attached as Figure 1.

2. Remedial Actions Relative to the Site during this Reporting Period

Langan mobilized to the site to perform the Supplemental Remedial Investigation (SRI) to delineate chlorinated volatile organic compound (CVOC) impacts in the alley to the west of the former dry cleaner on 21 to 23 November.

Langan continued drafting the Construction Completion Report (CCR) for the sub-slab depressurization system (SSDS).

3. Actions Relative to the Site Anticipated for the Next Reporting Period

The SRI analytical results will be reviewed, validated, and incorporated into a revised draft of the Remedial Action Work Plan (RAWP).

Langan will submit the draft CCR to NYSDEC. Quarterly SSDS operation, maintenance, and monitoring (OM&M) inspections will resume in January 2023.

Langan will address NYSDEC comments to the draft Remedial Investigation Report (RIR) when received.

4. Approved Activity Modifications (changes of work scope and/or schedule)

None

5. Results of Sampling, Testing and Other Relevant Data

None. SRI results will be received in December 2022.

6. Deliverables Submitted During This Reporting Period

None

7. Information Regarding Percentage of Completion

The BCP project is about 50% complete.

8. Unresolved Delays Encountered or Anticipated That May Affect the Schedule and Mitigation Efforts

None

9. Citizen Participation Plan Activities during This Reporting Period

The final SRIWP was provided to the repositories on 2 November 2022.

10. Activities Anticipated in Support of the CPP for the Next Reporting Period:

None

11. Miscellaneous Information

None

Notes:
1. USGS Topographic basemap is provided through Langan's Esri ArcGIS software licensing and ArcGIS Online.
2. Parcel information from MapPLUTO 18v2 copyrighted by the New York City Department of Planning, last updated 2018.
