Compliance Status Determined By : PATRICK M DUNN
21 SOUTH PUTT CORNERS
NEW PALTZ, NY 12561-1696

Basis for Determination : Routine Inspection

Comments :

Visited site at request of owner to witness machine/perc removal. Machine removed was a 35 pound capacity "Union/Metro M135" installed in 1994. Serial #47-44-377. Machine removed and taken for offsite disposal by "Parkway Equipment" (138 Hope street, Brooklyn, phone # 718-387-4991). Project Manager; Mr. Stanley Kage. All perchloroethylene removed from machine prior to dismantling. No evidence of spilled or residual perc in facility after machine removal. Waste container on site contains all removed perc, filters and machine waste; Less than 15 gallons of material in container. Container and contents will be removed 10/24/06 by "N.W.C." waste handling company. Mr. Kim will notify DEC of this final removal of all perc from facility. Mr. Kim will also notify DEC and Westchester County Health Department of machine removal and business closure. Facility should be deleted from active source list.
