The February 2, 2012 Decision Document for the Former Teutonia Hall site (Site No. C360085) makes the following statement in error on pages 2 and 9:

“If clean confirmatory samples cannot establish that the unrestricted SCOs have been achieved, the Volunteer will achieve a Track 2 residential cleanup, which will require institutional and engineering controls to manage potential exposures, as well as a site management plan.”

The Decision Document will be changed to say (to be consistent with the remedy included in the approved Remedial Work Plan, dated September 2011):

“If clean confirmatory samples cannot establish that the unrestricted SCOs have been achieved, the Volunteer will achieve a Track 2 restricted residential cleanup, which will require institutional and engineering controls to manage potential exposures, as well as a site management plan.”

This correction is a minor change in scope, performance and cost to the project.
