Re: Monthly Progress Report (MPR) for January 2019-July 2019
Former Schmuclers Cleaners
358 - 364 North Avenue, New Rochelle, New York
Site No. C360088

The following is the January 2019-July 2019 Monthly Report of activities for the former Schmuclers Cleaners Site located at 358 - 364 North Avenue, New Rochelle, New York. This monthly progress report was prepared to describe the activities conducted during January 2019-July 2019.

I. Actions taken during the reporting period are as follows:

A sampling and reporting frequency reduction was approved by the Department for submission of bi-annual groundwater sampling Reports and bi-annual Progress Reports.

Operation, Monitoring and Maintenance (OMM) was performed on the SVE/SSD system on January 31st, 2019 and on April 22nd, 2019. Separate OMM Reports have been issued under a separate cover to the WCDOH and DEC.

The next OMM Report will be issued on November 11th, 2019 documenting the October 2019 OMM activities.

Bi-yearly groundwater sampling was performed on July 23rd, 2019 for which a Report will be issued under a separate cover to the Department. The next groundwater sampling event is scheduled for January 2020 with Reporting on February 10, 2019.

An Alternatives Analysis (AA)/Remedial Action Plan (RAP) was submitted to the Department during May of 2017. This document was revised and re-submitted during August 2017. A Site Management Plan (SMP) was drafted to discuss management of the remaining contamination at the site during August 2017 and also revised and resubmitted during September 2018. A Final Engineering Report (FER) and site cap/cover (ec) was also completed and submitted during January 2019.

*Note: Progress Reports (PRs) and Sampling Reports (SRs) documenting groundwater conditions will now be conducted bi-annually as approved by the New York State DEC.

This completes all actions during the Reporting period (January 2019-July 2019). The next Progress Report will be issued February 10, 2019.

Sincerely,

John V. Soderberg P.E.
