Re : #V00611
Final Interim Remedial Measure 2004/2005
Former Hangar B Septic Field Site WCAP
White Plains, New York

Dear Mr. Parletta,

After reviewing the confirmation results collected on 06/01/05, the New York State Department of Environmental Conservation (NYSDEC) and the New York State Department of Health (NYSDOH), are in complete agreement that we are satisfied with the excavation work carried out at the site to remove the presence of Benzo(a)pyrene in the soil.

The excavated pit can be closed with clean fill as soon as you have made appropriate arrangements to close the pit. I would like to be informed when you are ready to commence this operation.

Please contact me if you need further clarification.

Sincerely,

S. E. Mahamooth / Endra P.E.
NYSDEC/Remediation

RE: #V00611: Final Interim Remedial Measure
Backfilling of the Former Hangar B Septic Field Site
Westchester County Airport

Dear Endra,

You had a question regarding the new clean fill that would be used to backfill the remaining portion of the above noted IRM site. The material that will be used was material excavated during the construction of the Taxiway C Run-Up Pad completed last summer by the Department of Public Works. This material was taken and stockpiled from a structure free site where historically no spills have occurred or contamination was ever present. This site was essentially an undisturbed infield area of grass and virgin soil.

On Monday, July 18th, John Benvegna of Leggette, Brashears, & Graham, Inc. (LBG), arrived to inspect the soil stockpile to be used. He found the material to be clean, free of debris, and suitable for the above task.

Operating Agent
Maquarie Aviation North America Inc.

Westchester County Airport (HPN)
240 Airport Road, Suite 202
White Plains, New York 10604

Telephone: (914) 995-4850 Fax: (914) 995-3980 Website: westchestergov.com

I will see you on Wednesday, July 20th at 10:00 am, to observe the backfilling operation.

Sincerely,

Michael Parletta, Environmental Officer

Westchester County Airport,
Environmental Department
