Re: Approval Code: **HBR041-21**
Hope Fire Engine Co. Site
50 Hamilton Ave & p/o 85 N Lexington Ave
White Plains, NY 10601
NYSDEC BCP Project #: C360219
62,000 cubic yards (93,000 tons)

Dear Mr. Rivera;

EarthEfficient Harmony Belvidere Road (HBR) has received and evaluated the source material that is being submitted for acceptance at our Facility located at 3189 Belvidere Road, Phillipsburg, New Jersey (Block 7 / Lots 1, 1.01, 2, 14, 14B). The HBR Facility operates under NJ Mine Registration (Certificate # 0048845) in accordance with New Jersey State Department of Environmental Protection (NJDEP) Residential Soil Remediation Standards as set forth at N.J.A.C. 7:26D and effective as of May 17, 2021 and New Jersey Soil Erosion and Sediment Control Act, Chapter 251, P.L.1975 as amended. In addition, the Facility is monitored under the auspices of the Warren County Soil Conservation District (Facility ID #: 20039).

EarthEfficient (EE) provides professional Third-Party Environmental Oversight on behalf of HBR to ensure compliance. EE reviews and evaluates all documentation that is provided and associated with the proposed donor source. HBR is permitted to accept only chemically clean soil and construction site fill material below the Residential Soil Remediation Standards for beneficial use pursuant to their approved Soil Erosion Control Plan and permitted Mine Reclamation activities.

EE has reviewed the following supporting documentation supplied by GS White Plains Owner, LLC, SESI Consulting Engineers, and LRC Construction, LLC;

- Phase I Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated June 2021
- Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 10th, 2019, revised June 3rd, 2021
- Proposed PFAS & Waste Classification (WC) Sampling Plan by SESI Consulting Engineers, dated June 10th, 2021
- Supplemental Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 2021
- Remedial Investigation (RI) / Interim Remedial Measures Work Plan (IRMWP) by SESI Consulting Engineers, dated August 2021
- Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD26724 dated June 28th, 2021
 - Report #JD26578 dated October 26th, 2021
- Supplemental Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD36809 dated December 29th, 2021
 - Report #JD36969 dated January 7th, 2022
 - Report #JD36974 dated January 7th, 2022
- Remedial Investigation (RI) Analytical Reports by SGS, as follows:
 - Report #JD36811 dated January 12th, 2022
 - Report #JD36983 dated January 11th, 2022
 - Report #JD36983R dated January 13th, 2022
 - Report #JD36984 dated January 12th, 2022
 - Report #JD36984R dated January 13th, 2022

HBR acknowledges that this project is being remediated under NYSDEC BCP #C360219.

Based on the review of the supporting documentation, the subject material represented by the following sixty-two (62) Composite Sample IDs and associated VOC grabs is suitable for acceptance:

#	Composite Sample IDs	VOC Grab Sample IDs
1	WC-A1 (0-7)	WC-A1 (3)
2	WC-A2 (0-7)	WC-A2 (2)

60	WC-F2 (14-21)	WC-F2 (18)
61	WC-F3 (14-21)	WC-F3 (18)
62	WC-F4 (14-21)	WC-F4 (18)

* Please note that cells WC-A3 (0-7), WC-B3 (0-7), WC-B4 (0-7), WC-D2 (0-7), WC-D3 (0-7), WC-E3 (0-7), WC-F2 (0-7), WC-F4 (0-7), WC-C2 (7-14), and WC-D2 (7-14) contain historical samples exhibiting PAH, PCB, and Lead concentrations above the applicable standards. This material is not approved to HBR and must be segregated and shipped elsewhere.

Samples of the imported fill material were collected in accordance with the NJDEP Regulations, including Technical Regulations (NJAC 7:26E-2) and NJDEP's Field Sampling Procedures Manual.

The material shall be accepted under HBR Approval Code: **HBR041-21**

Please note that any material received that does not meet the physical, visual or olfactory acceptance criteria and specifications will be rejected/reloaded and returned to the site of origin. Please note that any fill containing debris (asphalt, wood, metal, plastic, wire, wall board, roofing materials, insulations, carpets or padding, trash, etc.) above *de minimis* levels is considered solid waste. All associated transportation fees and facility handling cost that may be accrued due to non-acceptance of material will be the responsibility of the client. EE, on behalf of HBR, holds the generator and client responsible for providing accurate information in relation to the source material. Additional QA/QC analysis may be performed at our discretion.

The following non-analytical factors will apply:

Types of Acceptable Material	Photo-Ionization Detector Limit (PPM)	Material Size Limitation	Moisture Content Limitation	Treated & Untreated Wood Limitation	Coal/Ash/Slag/Cinder Limitation	Types of Unacceptable Material
Soil & Construction Fill Material Meeting the Facilities NJ Clean Fill Criteria	15	12"	No Free-Standing Liquid	<1%	0%	MSW, Deleterious Material, Industrial or Hazardous Waste

Based on the available information, the 62,000 cubic yards of clean soil and construction site fill represented by the material addressed in this letter is suitable for ongoing quarry reclamation of the HBR Facility.

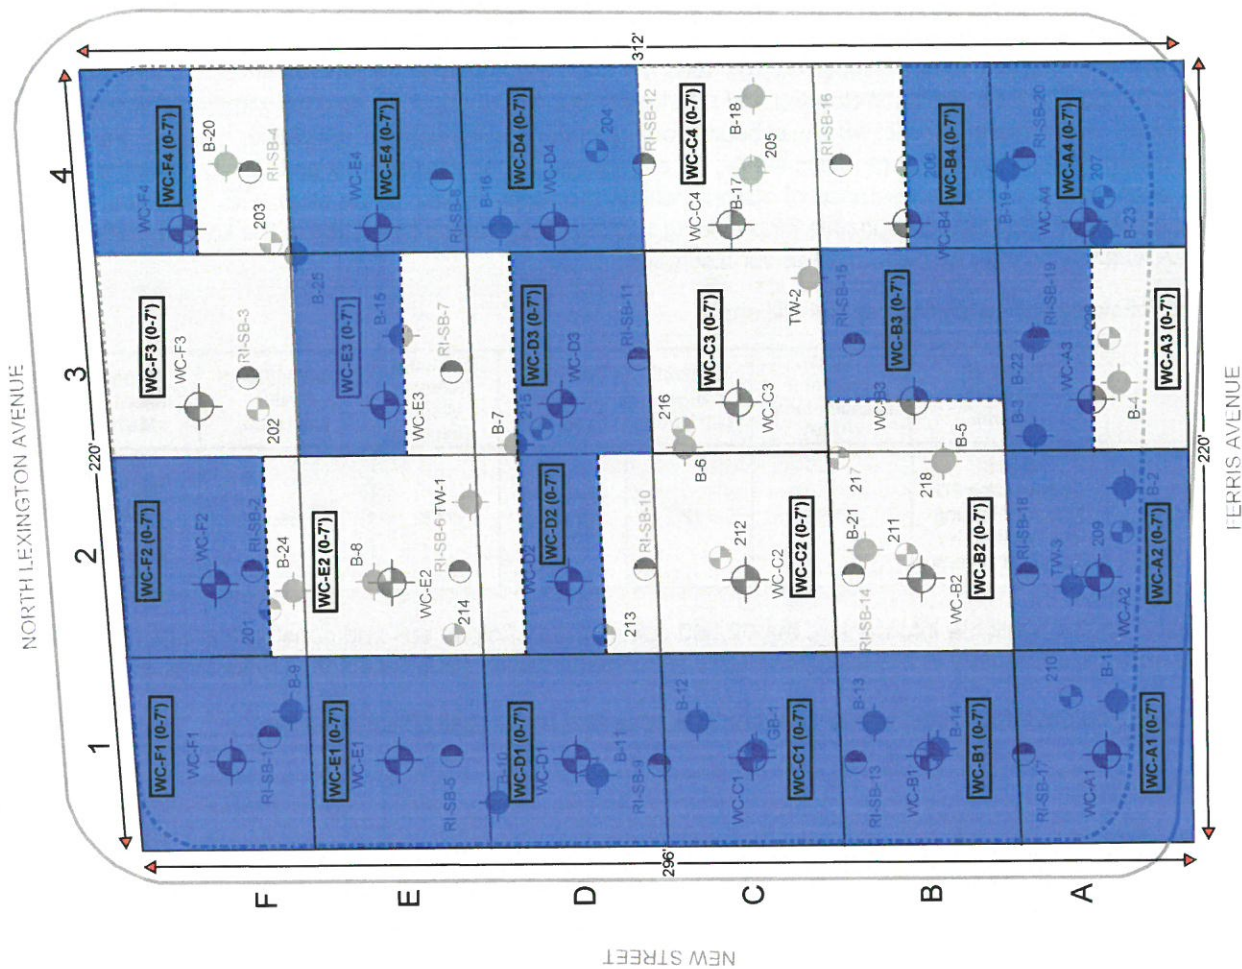

Should you have any questions or comments, please feel free to call 631.209.4245.

Sincerely,

Jamie M. Spero
Director of Environmental Compliance
EarthEfficient

NYSDEC BCP Project #: C360219
62,000 cubic yards (93,000 tons)

Dear Mr. Rivera;

EarthEfficient Harmony Foul Rift (HFR) has received and evaluated the source material that is being submitted for acceptance at our Facility located at 1 Foul Rift Road, Belvidere, New Jersey 07823 (Block 21 / Lot 9). The HFR Facility operates under NJ Mine Registration (Certificate # 0048846) in accordance with New Jersey State Department of Environmental Protection (NJDEP) Residential Soil Remediation Standards as set forth at N.J.A.C. 7:26D and effective as of May 17, 2021 and New Jersey Soil Erosion and Sediment Control Act, Chapter 251, P.L.1975 as amended. In addition, the Facility is monitored under the auspices of the Warren County Soil Conservation District (Facility ID #: 13035-16055-20012).

EarthEfficient (EE) provides professional Third-Party Environmental Oversight on behalf of HFR to ensure compliance. EE reviews and evaluates all documentation that is provided and associated with the proposed donor source. HFR is permitted to accept only chemically clean soil and construction site fill material below the Residential Soil Remediation Standards for beneficial use pursuant to their approved Soil Erosion Control Plan and permitted Mine Reclamation activities.

EE has reviewed the following supporting documentation supplied by GS White Plains Owner, LLC, SESI Consulting Engineers, and LRC Construction, LLC;

- Phase I Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated June 2021
- Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 10th, 2019, revised June 3rd, 2021
- Proposed PFAS & Waste Classification (WC) Sampling Plan by SESI Consulting Engineers, dated June 10th, 2021
- Supplemental Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 2021
- Remedial Investigation (RI) / Interim Remedial Measures Work Plan (IRMWP) by SESI Consulting Engineers, dated August 2021
- Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD26724 dated June 28th, 2021
 - Report #JD26578 dated October 26th, 2021
- Supplemental Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD36809 dated December 29th, 2021
 - Report #JD36969 dated January 7th, 2022
 - Report #JD36974 dated January 7th, 2022
- Remedial Investigation (RI) Analytical Reports by SGS, as follows:
 - Report #JD36811 dated January 12th, 2022
 - Report #JD36983 dated January 11th, 2022
 - Report #JD36983R dated January 13th, 2022
 - Report #JD36984 dated January 12th, 2022
 - Report #JD36984R dated January 13th, 2022

HFR acknowledges that this project is being remediated under NYSDEC BCP #C360219.

Based on the review of the supporting documentation, the subject material represented by the following sixty-two (62) Composite Sample IDs and associated VOC grabs is suitable for acceptance:

58	WC-E4 (14-21)	WC-E4 (18)
59	WC-F1 (14-18)	WC-F1 (17)
60	WC-F2 (14-21)	WC-F2 (18)
61	WC-F3 (14-21)	WC-F3 (18)
62	WC-F4 (14-21)	WC-F4 (18)

* Please note that cells WC-A3 (0-7), WC-B3 (0-7), WC-B4 (0-7), WC-D2 (0-7), WC-D3 (0-7), WC-E3 (0-7), WC-F2 (0-7), WC-F4 (0-7), WC-C2 (7-14), and WC-D2 (7-14) contain historical samples exhibiting PAH, PCB, and Lead concentrations above the applicable standards. This material is not approved to HFR and must be segregated and shipped elsewhere.

Samples of the imported fill material were collected in accordance with the NJDEP Regulations, including Technical Regulations (NJAC 7:26E-2) and NJDEP's Field Sampling Procedures Manual.

The material shall be accepted under HFR Approval Code: **HFR043-21**

Please note that any material received that does not meet the physical, visual or olfactory acceptance criteria and specifications will be rejected/reloaded and returned to the site of origin. Please note that any fill containing debris (asphalt, wood, metal, plastic, wire, wall board, roofing materials, insulations, carpets or padding, trash, etc.) above *de minimis* levels is considered solid waste. All associated transportation fees and facility handling costs that may be accrued due to non-acceptance of material will be the responsibility of the client. EE, on behalf of HFR, holds the generator and client responsible for providing accurate information in relation to the source material. Additional QA/QC analysis may be performed at our discretion.

The following non-analytical factors will apply:

Types of Acceptable Material	Photo-Ionization Detector Limit (PPM)	Material Size Limitation	Moisture Content Limitation	Treated & Untreated Wood Limitation	Coal/Ash/Slag/Cinder Limitation	Types of Unacceptable Material
Soil & Construction Fill Material Meeting the Facilities NJ Clean Fill Criteria	15	12"	No Free-Standing Liquid	<1%	0%	MSW, Deleterious Material, Industrial or Hazardous Waste

Based on the available information, the 62,000 cubic yards of clean soil and construction site fill represented by the material addressed in this letter is suitable for ongoing quarry reclamation of the HFR Facility.

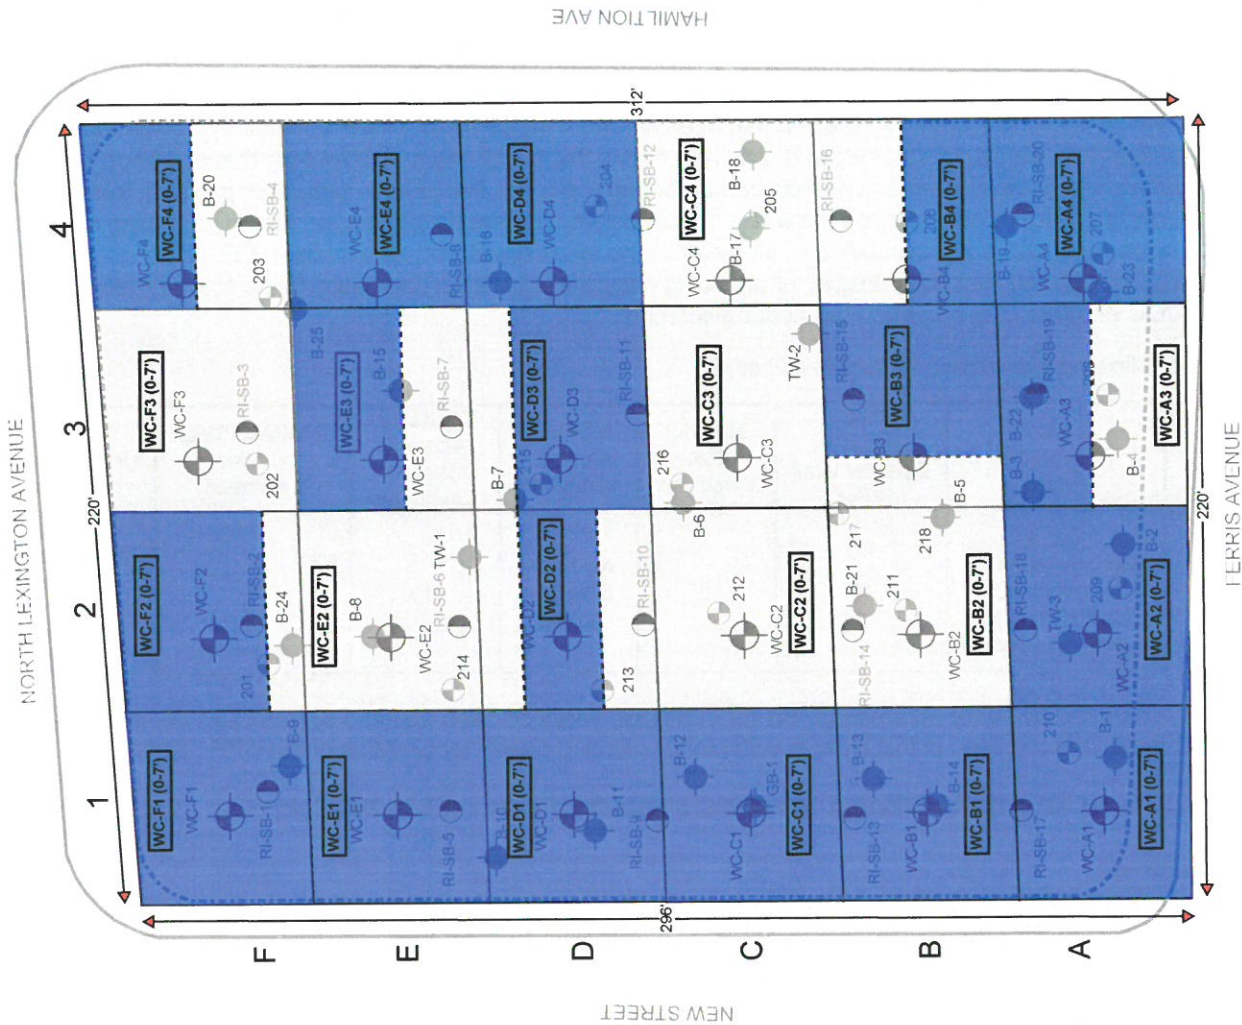

Should you have any questions or comments, please feel free to call 631.209.4245.

Sincerely,

Jamie M. Spero
Director of Environmental Compliance
EarthEfficient

Hope Fire Engine Co. Site
50 Hamilton Ave & p/o 85 N Lexington Ave
White Plains, NY 10601
NYSDEC BCP Project #: C360219
62,000 cubic yards (93,000 tons)

Dear Mr. Rivera;

XRDS has received and evaluated the source material that is being submitted for acceptance at our Facility located at 190 Pompton Plains Crossroads, Wayne, NJ 07470 (Block 3403 / Lot 1). The XRDS Facility operates under NJPDES General Permit No. NJG0309753 dated June 16, 2020, for Construction Activity Stormwater Discharge and a Soil Erosion & Sediment Control Plan (SESC) Permit ID # 220-P-5011 issued by the Hudson/Essex/Passaic County Soil Conservation District dated May 27, 2020.

Acceptable Import Material at XRDS is source separated fill and soil material that is not Solid Waste as defined by N.J.A.C. 7:26-1.6. Acceptable Imported Material may be non-water soluble, non-decomposable, inert solid, such as rock, soil, gravel, concrete, glass, and/or clay or ceramic products. Acceptable Import Material does not contain concentrations of one or more contaminants that exceed the NJDEP Residential or Non-Residential Soil Remediation Standards for the Ingestion-Dermal Exposure Pathway or the Inhalation Exposure Pathway, whichever is more stringent, as set forth at N.J.A.C. 7:26D and promulgated May 17, 2021.

XRDS has reviewed the following supporting documentation supplied by GS White Plains Owner, LLC, SESI Consulting Engineers, and LRC Construction, LLC;

- Phase I Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated June 2021
- Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 10th, 2019, revised June 3rd, 2021
- Proposed PFAS & Waste Classification (WC) Sampling Plan by SESI Consulting Engineers, dated June 10th, 2021
- Supplemental Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 2021
- Remedial Investigation (RI) / Interim Remedial Measures Work Plan (IRMWP) by SESI Consulting Engineers, dated August 2021
- Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD26724 dated June 28th, 2021
 - Report #JD26578 dated October 26th, 2021
- Supplemental Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD36809 dated December 29th, 2021
 - Report #JD36969 dated January 7th, 2022
 - Report #JD36974 dated January 7th, 2022
- Remedial Investigation (RI) Analytical Reports by SGS, as follows:
 - Report #JD36811 dated January 12th, 2022
 - Report #JD36983 dated January 11th, 2022
 - Report #JD36983R dated January 13th, 2022
 - Report #JD36984 dated January 12th, 2022
 - Report #JD36984R dated January 13th, 2022

XRDS acknowledges that this project is being remediated under NYSDEC BCP #C360219.

Based on the review of the supporting documentation, the subject material represented by the following sixty-two (62) Composite Sample IDs and associated VOC grabs is suitable for acceptance:

61	WC-F3 (14-21)	WC-F3 (18)
62	WC-F4 (14-21)	WC-F4 (18)

* Please note that cells WC-A3 (0-7), WC-B3 (0-7), WC-B4 (0-7), WC-D2 (0-7), WC-D3 (0-7), WC-E3 (0-7), WC-F2 (0-7), WC-F4 (0-7), WC-C2 (7-14), and WC-D2 (7-14) contain historical samples exhibiting PAH, PCB, and Lead concentrations above the applicable standards. This material is not approved to XRDS and must be segregated and shipped elsewhere.

Samples of the imported fill material were collected in accordance with the NJDEP Regulations, including Technical Regulations (NJAC 7:26E-2) and NJDEP's Field Sampling Procedures Manual.

The material shall be accepted under XRDS Approval Code: **XRDS001-22**

Please note that any material received that does not meet the physical, visual or olfactory acceptance criteria and specifications will be rejected and returned to the site of origin. All associated transportation fees and facility handling costs that may be accrued due to non-acceptance of material will be the responsibility of the client. XRDS holds the owner and client responsible for providing accurate information in relation to the source material. Additional QA/QC analysis may be performed at our discretion.

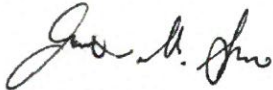

The following non-analytical factors will apply:

Types of Acceptable Material	Photo-Ionization Detector Limit (PPM)	Material Size Limitation	Moisture Content Limitation	Treated & Untreated Wood Limitation	Coal/Ash/Slag/Cinder Limitation	Types of Unacceptable Material
Soil & Construction Fill Material Meeting the Facilities NJ Clean Fill Criteria	15	12"	No Free-Standing Liquid	<1%	0%	MSW, Deleterious Material, Industrial or Hazardous Waste

Based on the available information, the 62,000 cubic yards of Acceptable Import Material is approved for ongoing recycling and remedial operations at the XRDS Facility.

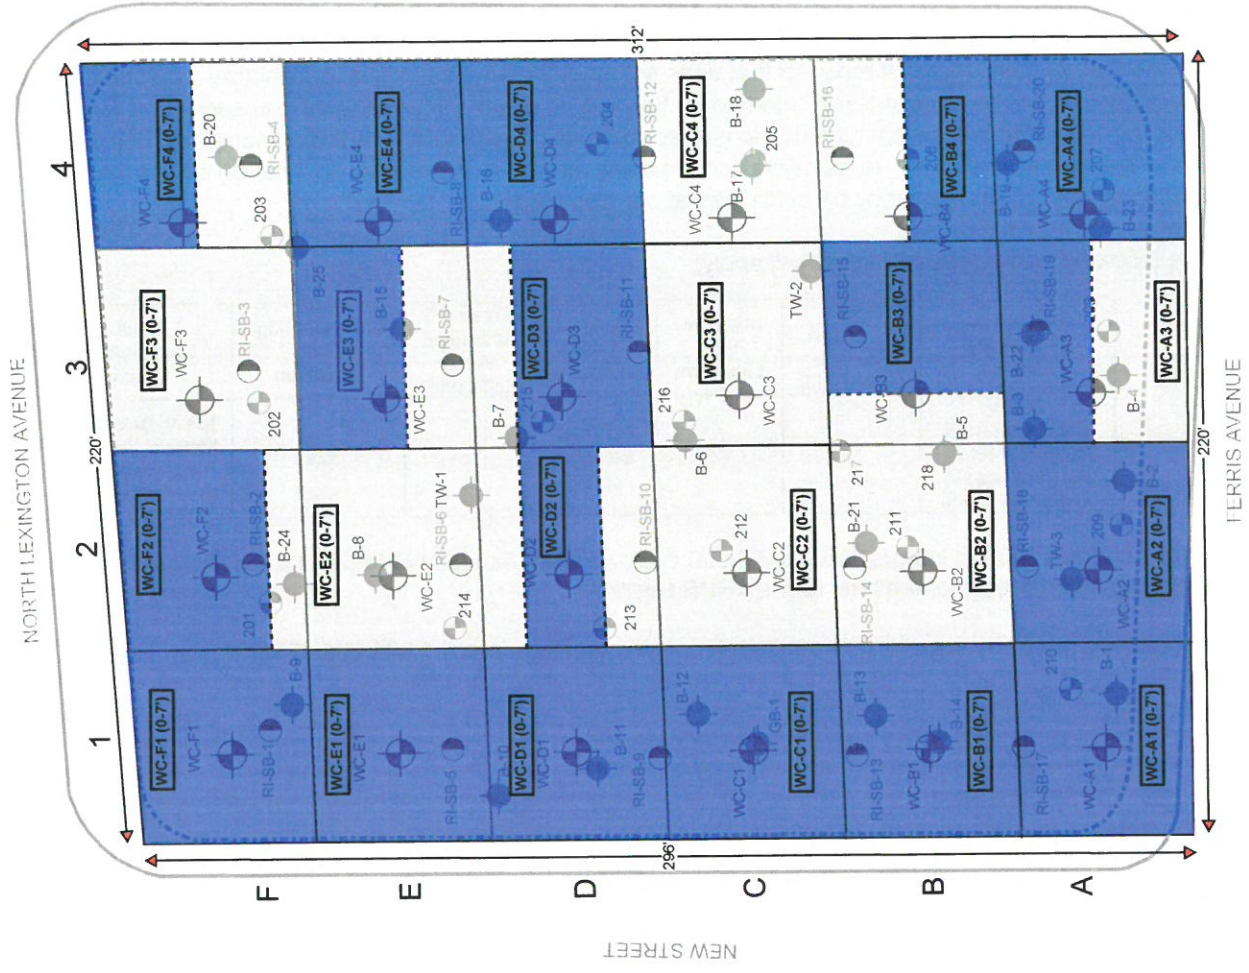

Should you have any questions or comments, please feel free to call 1.631.209.4245.

Sincerely,

Jamie M. Spero
Director of Environmental Compliance
XRDS

Dear Mr. Rivera;

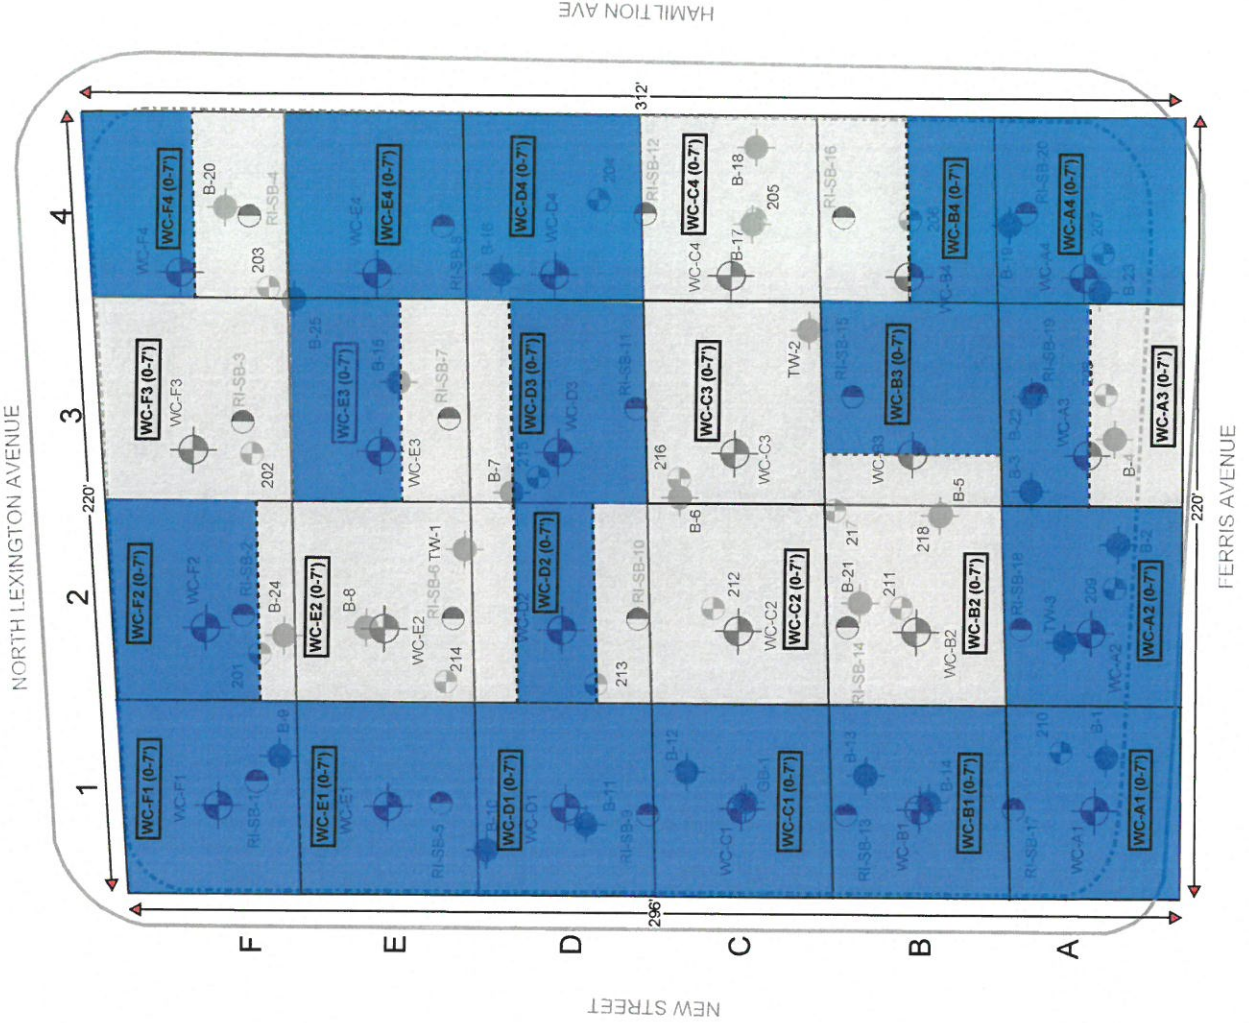

Brook Brothers has received and evaluated the source material that is being submitted for acceptance at the Brook Brothers / VL Contracting (Frattarelli) Facility, here forth referenced as "Brook Brothers" or the "Facility," located at 821 Washington Ave, Carlstadt NJ 07072 (Block 131.01, Lot 6).

Brook Brothers is a soil blending Facility that utilizes only clean material as a feedstock in the creation of various finished products, such as compost and topsoil. They operate under the auspices of the New Jersey State Department of Environmental Protection (NJDEP), New Jersey State Department of Agriculture (NJDA), and New Jersey Natural Resources Conservation Program (NJNRCS). The Facility accepts strictly uncontaminated material which meets the NJDEP's Clean Fill Guidance per the N.J.A.C. 7:26E Technical Requirements for Site Remediation (Aug 2018). The Facility also operates in general conformance with the NJDEP Fill Material Guidance for SRP Sites (April 2015) which follows the Residential Soil Remediation Standards, as set forth at N.J.A.C. 7:26D and effective as of May 17, 2021. In addition, the Facility is monitored by the Bergen County Soil Conservation District (Facility ID #: 17850) in accordance with the New Jersey Soil Erosion and Sediment Control Act, Chapter 251, P.L. 1975 as amended.

**Re: Acceptance of Sand (Cap Drainage Material)
at the Bergen County Overpeck Park Landfill – Area IV
Soil from Hope Fire Engine Co.
50 Hamilton Ave & 85 N. Lexington Ave
Block 125.66, Lots 5.2 & Portion of 5.1
White Plains, NY 10601
Final Approval # OPL140**

To Mr. Rivera:

CME Associates (CME), on behalf of Bergen County (County), has reviewed the request from Beneficial Soil Solutions, Inc., of Ellicott City, Maryland (BSSI). The request was submitted via email on February 7, 2022, seeking approval for disposal of 15,000 cy of material at the Bergen County Overpeck Park Landfill Area IV located in Leonia and Palisades Park, Bergen County, New Jersey (Landfill).

The soil proposed to be disposed of at the Landfill is associated with the Hope Fire Engine Co. site located at 50 Hamilton Ave and 85 N. Lexington Ave, Block 125.66, Lots 5.2 & Portion of 5.1, White Plains, NY 10601 (Site). Previously, the Site was used as a lumber and storage yard, freight house with railroad transport access, fire department, builder supply storage facility, wholesale feed supply and grinding company, and service stations. The Site is currently a parking lot and undergoing remediation under NYSDEC BCP Site No. C360219.

The Landfill is being redeveloped as a passive recreation park in accordance with a New Jersey Department of Environmental Protection's (NJDEP's) Closure and Post-Closure Plan Approval (Closure Plan Approval), dated April 23, 2014 and last revised June 18, 2020. The NJDEP Closure Plan Approval allows the County to import soil/PDM for the grading and capping of the Landfill in accordance with the NJDEP approved Material Acceptance Protocol (MAP), dated March 2014.

As the Third-Party Review Engineer (TPRE) for the Overpeck Park Landfill Closure and Redevelopment Project, CME has prepared this **final** approval letter for Clean Tested Soil (CTS) from the Site. In addition to the signed Application Form, dated February 7, 2022, CME reviewed the following information provided by BSSI on February 7 and 18, and March 4, 2022:

- Document List for review;
- Proposed Material Map, dated January 28, 2022, of sixty-seven (67) grids up to twenty-one (21) feet below ground surface (bgs) for acceptance;

- Proposed Samples List, of sixty-seven (67) composite and grab samples for acceptance;
- Phase I Environmental Site Assessment (ESA) Report, dated June 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Phase II ESA Report, dated June 3, 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Figure 1: Waste Classification Sampling Plan, dated June 10, 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Supplemental Phase II ESA Report, dated July 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ), associated with seventy-two (72) composite samples and seventy-two (72) grab samples collected on June 14 and 15, 2021. Composite samples were analyzed for a combination of TCL semi-volatile organics (SVOs), polychlorinated biphenyls (PCBs), pesticides, extractable petroleum hydrocarbons – category 1 (EPH – Cat1), TAL metals, TCLP barium, TCLP lead, RCRA characteristics, total cyanide, and percent solids. Grab samples were analyzed for TCL volatile organics (VOs) only. *Only sixty-seven (67) grids associated with this report (excluding WC-C3 (0-7'), WC-C4 (0-7'), WC-F3 (0-7'), WC-F3 (7-14'), and WC-D3 (14-21')) were reviewed for acceptance;*
 - The following laboratory analytical reports and excel analytical results summary tables prepared by SGS North America Inc. (of Dayton, NJ) were associated with seventy-two (72) composite samples and seventy-two (72) grab samples collected on June 14 and 15, 2021.
 - Project No. JD26724, dated June 28, 2021;
 - Project No. JD26578, dated October 26, 2021;
 - Project No. JD36809, dated December 29, 2021;
 - Project No. JD36969, dated January 7, 2022;
 - Project No. JD36974, dated January 7, 2022;
- Remedial Investigation/Interim Remedial Measures Work Plan, dated August 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Five (5) laboratory analytical reports (Project Nos. JD36811, JD36983, JD36983R, JD36984, and JD36984R) prepared by SGS North America Inc. (of Dayton, NJ) were associated with remedial investigation conducted in December 2021; and
- Particle Size Distribution Report & Compaction Test Report, dated February 7, 2022, prepared by Fairway Testing Co., Inc. (of Stony Point, NY).

Our review of this information indicates that

- All of the samples, with the exception of seven (7) samples, WC-A3 (0-7'), WC-B2 (0-7'), WC-C3 (7-14'), WC-E2 (0-7'), WC-E3 (0-7'), WC-F2 (0-7'), and WC-F4 (0-7'), associated with this application, meet the requirements of the MAP.

The total approved quantity that meets the Clean Tested Soil requirements (below Residential Ingestion-Dermal and Inhalation Soil Remediation Standards (RID/RI SRS), but not below the Migration to

Groundwater (MGW SRS)) of the MAP is 13,433 cy. This total approved quantity as indicated above is associated with sixty (60) composite samples and sixty (60) grab samples collected on June 14 and 15, 2021.

Please note that the Overpeck site does not accept any waste material, recycled masonry, asphalt millings or concrete materials. Should any loads arrive at the site containing restricted material and objectionable odors will be returned at the source owner's expense. Oversized stone is also prohibited; the site can only accept 1" minus stone within the soil matrix.

Should additional volume be required, additional sampling and testing results may be submitted for approval of additional volume.

Please contact me at 723-951-2101 X 103 with any other questions or concerns.

Very truly yours,

Behram Turan, P.E., LSRP

Section-Block-Lot: 125.66-5-2 & a portion of 125.66-5-1
50 Hamilton Ave & p/o 85 N Lexington Ave
White Plains, NY 10601
NYSDEC BCP #C360219
Approval Volume: **20,000 cubic yards (30,000 tons)**

Dear Mr. David Rivera;

Bethlehem Earth (BE) has reviewed sampling information and analytical data characterizing approximately **20,000 cubic yards** of material generated at the above referenced site for acceptance to our facility located at 3200 Commerce Center Blvd in Bethlehem, PA 18015 (Permit No.: WMGR096-NE004).

BE has reviewed the following documents provided:

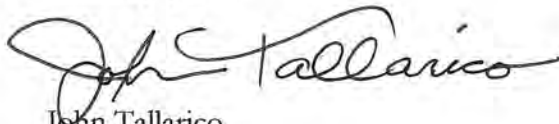

- Phase I Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated June 2021
- Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 10th, 2019, revised June 3rd, 2021
- Supplemental Phase II Environmental Site Assessment (ESA) Report by SESI Consulting Engineers, dated July 2021
- Remedial Investigation (RI) / Interim Remedial Measures Work Plan (IRMWP) by SESI Consulting Engineers, dated August 2021
- Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD26724 dated June 28th, 2021
 - Report #JD26578 dated October 26th, 2021
- Supplemental Waste Characterization (WC) Analytical Reports by SGS, as follows:
 - Report #JD36809 dated December 29th, 2021
 - Report #JD36969 dated January 7th, 2022
 - Report #JD36974 dated January 7th, 2022
- Remedial Investigation (RI) Analytical Reports by SGS, as follows:
 - Report #JD36811 dated January 12th, 2022
 - Report #JD36983 dated January 11th, 2022
 - Report #JD36983R dated January 13th, 2022
 - Report #JD36984 dated January 12th, 2022
 - Report #JD36984R dated January 13th, 2022

Based upon the review of the supporting documentation, BE has proposed and received approval of the attached list of 20 cells/samples for 20,000 CY of approval volume. Approved grids are highlighted as "Proposed Material" Grids.

There was no UCL required, as each sample meets BE permit limits on its own.

Should you have any questions or need additional information, please feel free to contact me at JTallarico35@gmail.com.

Sincerely yours,

A handwritten signature in black ink, appearing to read "John Tallarico". The signature is fluid and cursive, with the first name "John" written in a more compact, stylized manner and the last name "Tallarico" written in a more extended, flowing script.

Approval Volume: 12,000 Tons

Dear Mr. Forlini:

After review of the analytical data submitted for the above referenced project, we find the samples listed in Table 1 (see attached) suitable for use as cover material at the Middlesex County Landfill.

This material will be dry and free of debris and deposited in areas as directed by landfill personnel. Material will not be accepted when it is raining.

This material will be deposited in areas as directed by landfill personnel. Based upon the volume and the scheduling developed, this approval granted is non-transferable.

Failure to follow these instructions will result in the rejection of loads.

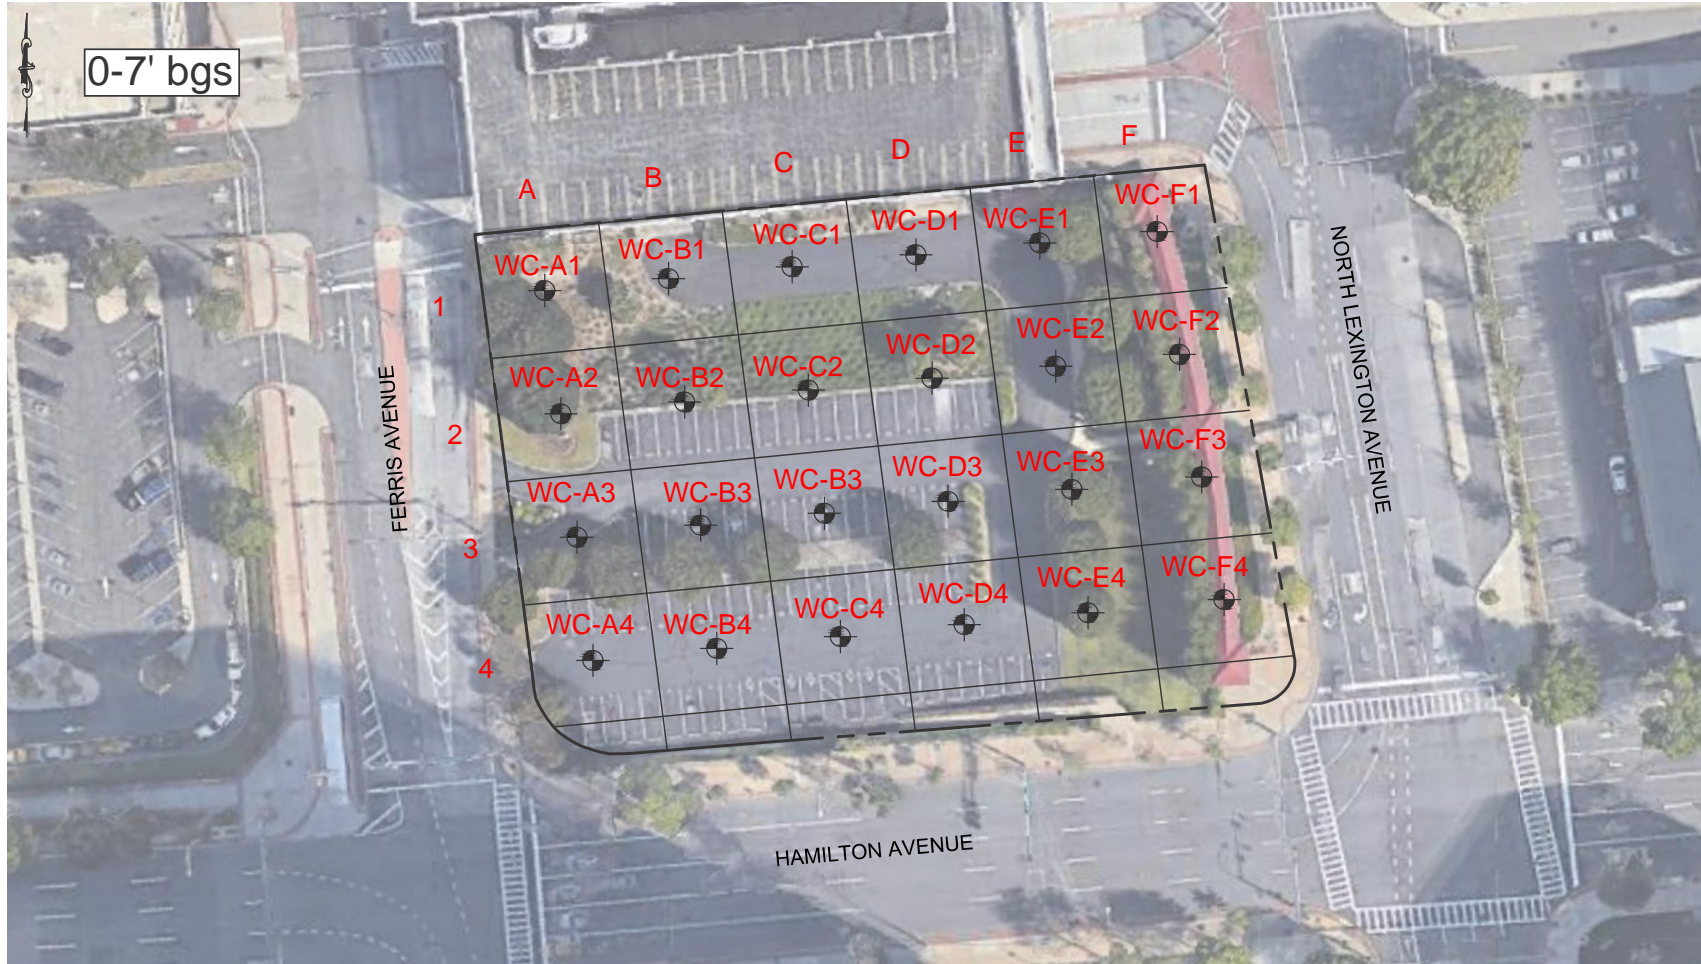

Please be advised that the MCUA reserves the right to terminate acceptance of this material.

Should you not concur with the terms set forth, please contact this office at the above number.

Sincerely,

Brian T. Murray
General Superintendent
Middlesex County Landfill

RE: Hope Fire Engine Co. Project
50 Hamilton Avenue & p/o 85 N Lexington Avenue
White Plains, NY 10601
BCP #C360219

Dear Mr. Rivera:

Bayshore Soil Management LLC (BSM) has reviewed the provided analytical results for soils being generated at the Hope Fire Engine Co. Project in White Plains, NY. Based on our review of SGS reports: JD26578, JD26724, JD36809 JD36969, JD36974, samples WC-B2(0-7), WC-C2(0-7), WC-C3(0-7), WC-C4(0-7), WC-E2(0-7), WC-F3(0-7), and associated grab samples for VOCs, BSM has identified materials that appear to meet our acceptance criteria for Petroleum Contaminated Soil/Urban Fill. Assessment of additional grids is contingent upon further review of representative site investigation and waste characterization data, and does not guarantee acceptance. Supplemental analyses may be requested by BSM for consideration of these grids. The review was based on the submitted generator waste profile, project information, analytical testing results stemming from site remedial investigation work, and the following documents:

- Phase I Environmental Site Assessment (ESA) Report for 50 Hamilton Avenue and p/o 85 North Lexington Avenue, White Plains, NY, prepared by SESI Consulting Engineers, dated June 2021
- Phase II ESA Report for Proposed Gateway II Development, White Plains, NY, prepared by SESI Consulting Engineers, date June 10, 2019/Revised June 3, 2021
- Supplemental Phase II ESA Report for 85 North Lexington Avenue, White Plains, NY, prepared by SESI Consulting Engineers, dated July 2021
- Remedial Investigation/Interim Remedial Measures Work Plan for 50 Hamilton Avenue and p/o 85 North Lexington Avenue, White Plains, NY, prepared by SESI Consulting Engineers, dated August 2021

Bayshore Soil Management, LLC can only accept non-hazardous soil. Based on the provided analytical data and site information, these non-regulated soils would be acceptable under the guidelines of our operating permits, with the above-noted conditions.

This project has been approved under BSM#2722-0151. The above-referenced acceptable dataset will support the estimated 7,200 tons, with BSM collection of one Paint Filter Test, and for materials beyond 3,600 tons, Total EPH samples as needed to satisfy the facility 1 per 600-ton requirement. Should you have any questions or require further information, please feel free to contact us at 732.738.6000.

Kind Regards,

Iryna Shybysta
Compliance Manager

**Re: Acceptance of Sand (Cap Drainage Material)
at the Bergen County Overpeck Park Landfill – Area IV
Soil from Hope Fire Engine Co.
50 Hamilton Ave & 85 N. Lexington Ave
Block 125.66, Lots 5.2 & Portion of 5.1
White Plains, NY 10601
Conditional Approval # OPL140**

To Mr. Rivera:

CME Associates (CME), on behalf of Bergen County (County), has reviewed the request from Beneficial Soil Solutions, Inc., of Ellicott City, Maryland (BSSI). The request was submitted via email on February 7, 2022, seeking approval for disposal of 15,000 cy of material at the Bergen County Overpeck Park Landfill Area IV located in Leonia and Palisades Park, Bergen County, New Jersey (Landfill).

The soil proposed to be disposed of at the Landfill is associated with the Hope Fire Engine Co. site located at 50 Hamilton Ave and 85 N. Lexington Ave, Block 125.66, Lots 5.2 & Portion of 5.1, White Plains, NY 10601 (Site). Previously, the Site was used as a lumber and storage yard, freight house with railroad transport access, fire department, builder supply storage facility, wholesale feed supply and grinding company, and service stations. The Site is currently a parking lot and undergoing remediation under NYSDEC BCP Site No. C360219.

The Landfill is being redeveloped as a passive recreation park in accordance with a New Jersey Department of Environmental Protection's (NJDEP's) Closure and Post-Closure Plan Approval (Closure Plan Approval), dated April 23, 2014 and last revised June 18, 2020. The NJDEP Closure Plan Approval allows the County to import soil/PDM for the grading and capping of the Landfill in accordance with the NJDEP approved Material Acceptance Protocol (MAP), dated March 2014.

As the Third-Party Review Engineer (TPRE) for the Overpeck Park Landfill Closure and Redevelopment Project, CME has prepared this **conditional** approval letter for Clean Tested Soil (CTS) from the Site. In addition to the Application Form, CME reviewed the following information provided by BSSI on February 7 and 18, 2022:

- Document List for review;
- Proposed Material Map, dated January 28, 2022, of sixty-seven (67) grids up to twenty-one (21) feet below ground surface (bgs) for acceptance;

David Rivera

CME File No. IBC00301.01
Page 2

- Proposed Samples List, of sixty-seven (67) composite and grab samples for acceptance;
- Phase I Environmental Site Assessment (ESA) Report, dated June 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Phase II ESA Report, dated June 3, 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Figure 1: Waste Classification Sampling Plan, dated June 10, 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Supplemental Phase II ESA Report, dated July 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ), associated with seventy-two (72) composite samples and seventy-two (72) grab samples collected on June 14 and 15, 2021. Composite samples were analyzed for a combination of TCL semi-volatile organics (SVOs), polychlorinated biphenyls (PCBs), pesticides, extractable petroleum hydrocarbons – category 1 (EPH – Cat1), TAL metals, TCLP barium, TCLP lead, RCRA characteristics, total cyanide, and percent solids. Grab samples were analyzed for TCL volatile organics (VOs) only. *Only sixty-seven (67) grids associated with this report (excluding WC-C3 (0-7'), WC-C4 (0-7'), WC-F3 (0-7'), WC-F3 (7-14'), and WC-D3 (14-21')) were reviewed for acceptance;*
 - The following laboratory analytical reports and excel analytical results summary tables prepared by SGS North America Inc. (of Dayton, NJ) were associated with seventy-two (72) composite samples and seventy-two (72) grab samples collected on June 14 and 15, 2021.
 - Project No. JD26724, dated June 28, 2021;
 - Project No. JD26578, dated October 26, 2021;
 - Project No. JD36809, dated December 29, 2021;
 - Project No. JD36969, dated January 7, 2022;
 - Project No. JD36974, dated January 7, 2022;
- Remedial Investigation/Interim Remedial Measures Work Plan, dated August 2021, prepared by SESI Consulting Engineers (of Pine Brook, NJ);
- Five (5) laboratory analytical reports (Project Nos. JD36811, JD36983, JD36983R, JD36984, and JD36984R) prepared by SGS North America Inc. (of Dayton, NJ) were associated with remedial investigation conducted in December 2021.

Our review of this information indicates that

- All of the samples, with the exception of seven (7) samples, WC-A3 (0-7'), WC-B2 (0-7'), WC-C3 (7-14'), WC-E2 (0-7'), WC-E3 (0-7'), WC-F2 (0-7'), and WC-F4 (0-7'), associated with this application, meet the requirements of the MAP.

The total conditionally approved quantity that meets the Clean Tested Soil requirements (below Residential Ingestion-Dermal and Inhalation Soil Remediation Standards (RID/RI SRS), but not below the Migration to Groundwater (MGW SRS)) of the MAP is 13,433 cy. This total approved quantity as indicated above is

PART 364
WASTE TRANSPORTER REGISTRATION NO. NJ-992

Pursuant to Article 27, Titles 3 and 15 of the Environmental Conservation Law and 6 NYCRR 364

REGISTRATION ISSUED TO:

LUCAS TRUCKING, LLC
18 EYLAND PLACE
SUCCASUNNA, NJ 07876

CONTACT NAME: CESAR BEDOYA
COUNTY: OUT OF STATE
TELEPHONE NO: (973)725-1420

REGISTRATION TYPE:

☐ NEW
☒ RENEWAL
☐ MODIFICATION

EFFECTIVE DATE: 10/28/2021
EXPIRATION DATE: 10/27/2022

WASTE TYPES TO BE TRANSPORTED

The Registrant is Authorized to Transport the Following Waste Type(s):

Construction and Demolition Debris [364-3.1(d)]

Commercial Solid Waste [364-3.1(c)]

6 NYCRR Part 364 Registrations do not specify vehicles or receiving facilities.

NOTE: By acceptance of this registration, the registrant agrees that the registration is contingent upon strict compliance with the Environmental Conservation Law, and all applicable regulations.

ADDRESS:

6 NYCRR PART 364 WASTE TRANSPORTER REGISTRATION

GENERAL CONDITIONS

The registrant must:

1. Carry a copy of this waste transporter registration in each vehicle used to transport waste. Failure to produce a copy of the registration upon request is a violation of the registration.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter registration number on both sides and rear of each vehicle containing waste. The displayed name and registration number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Deliver waste only to receiving facilities authorized to accept such waste. Registrant must demonstrate that facilities are so authorized if requested to do so.
4. Submit to the Department a modification application for any change to the registration.
5. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
6. Comply with all requirements of Subpart 364-5 pertaining to the use of waste tracking documents.
7. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department by March 1 of each year.
8. This registration is not transferrable. A change of ownership will invalidate this registration.
9. This registration does not relieve the registrant from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
10. Renewal applications must be submitted no less than 30 days prior to the expiration date of the registration to:

**New York State Department of Environmental Conservation
Division of Materials Management, Waste Transporter Program
625 Broadway, 9th Floor
Albany, NY 12233-7251**

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle used to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for any change to the permit.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department by March 1 of each year.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle used to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for any change to the permit.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department by March 1 of each year.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

**New York State Department of Environmental Conservation
Division of Materials Management, Waste Transporter Program

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

**New York State Department of Environmental Conservation
Division of Materials Management, Waste Transporter Program
625 Broadway, 9th Floor

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle used to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for any change to the permit.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department by March 1 of each year.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle used to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for any change to the permit.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department by March 1 of each year.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle used to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for any change to the permit.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department by March 1 of each year.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:
