

(Fact Sheet Begins Next)

Act Now to Continue Receiving Information About This Site!

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites electronically by email.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

You must sign up for the DER email listserv:

www.dec.ny.gov/chemical/61092.html

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

Why You Should Go “Paperless”:

- ☒ Get site information faster and share it easily;
- ☒ Receive information about all sites in a chosen county - read what you want, delete the rest;
- ☒ It helps the environment and stretches your tax dollars.

If “paperless” is not an option for you, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

FACT SHEET

Brownfield Cleanup Program

Kensico Drive and Kisco Avenue
Properties
15 Kensico Dr, 19 Kensico Dr, and 275
Kisco Ave
Mount Kisco, Westchester County

June 2024

SITE No. C360243
NYSDEC REGION 3

Draft Investigation Work Plan for Brownfield Site Available for Public Comment

The public is invited to comment on a draft work plan being reviewed by the New York State Department of Environmental Conservation (NYSDEC) to investigate the Kensico Drive and Kisco Avenue Properties site ("site") located at 15 Kensico Drive, 19 Kensico Drive, and 275 Kisco Avenue, Mount Kisco, Westchester County. Please see the map for the site location.

Draft Investigation Work Plan: The draft investigation work plan, called a "Remedial Investigation Work Plan," (RIWP) was submitted to NYSDEC under New York's Brownfield Cleanup Program. The investigation will be performed by 275 Kisco, LLC, 19 Kensico Drive, LLC, and 15 Kensico, LLC ("applicants") with oversight by NYSDEC and the New York State Department of Health (NYSDOH).

How to Comment: NYSDEC is accepting written comments about the Draft RIWP for 30 days, from **June 26 through July 26, 2024**.

- Access the RIWP and other project documents online through the DECinfo Locator: <https://extapps.dec.ny.gov/data/DecDocs/C360243/>
- Documents also are available at the locations identified at left under "Where to Find Information."
- Please submit comments to the NYSDEC project manager listed under Project-Related Questions in the "Who to Contact" area at left.

Highlights of the Proposed Site Investigation: The investigation will define the nature and extent of contamination in soil, groundwater, soil vapor and any other parts of the environment that may be affected.

Previous investigations have detected volatile and semi-volatile organic compounds (VOCs and SVOCs), metals, and PCBs in soil and groundwater on site.

Key components of the investigation work include:

- Drilling and sampling of soil borings to identify possible on-site sources of contamination;
- Collection of soil vapor, sub-slab soil vapor, and indoor air samples; and
- Installation and sampling of groundwater monitoring wells to assess the nature of groundwater contamination both on-site and off-site areas.

BROWNFIELD CLEANUP PROGRAM

Next Steps: NYSDEC will consider public comments, revise the plan as necessary, and approve the work plan.

NYSDOH must concur with the plan. After the work plan is approved, the activities detailed in the work plan will be implemented.

When the investigation is completed, a report will be prepared and submitted to NYSDEC that summarizes the results. NYSDEC will review the report, make any necessary revisions and, if appropriate, approve the report.

After the investigation, a proposed cleanup plan, called a "Draft Remedial Action Work Plan" will be developed. The cleanup plan will include an evaluation of the proposed site remedy, or recommend a no action alternative. The goal of the cleanup plan is to ensure the protection of public health and the environment. NYSDEC will present the proposed cleanup plan to the public for its review and comment during a 45-day comment period.

NYSDEC will keep the public informed throughout the investigation and cleanup of the site.

Site Description: The site is 7.40 acres, comprising of three lots bound by Kisco Avenue to the west, Holiday Inn Drive and Suburban Propane to the north, Metro North's Harlem Line to the east, and a Toyota dealership and Halstead-Quinn propane facility to the south. It is currently developed with a car dealership and service center at 275 Kisco Avenue, a commercial woodworking and cabinetry facility at 15 Kensico Drive, and a car wash and storage facility at 19 Kensico Drive inactive since 2021. Previous site uses include manufacturing of copper pipe at 275 Kisco from 1953 to 2011 and at 19 Kensico Drive from 1949 to 1971, an auto service center at 15 Kensico Drive from 1981 to 2004, and a beverage and bottling facility at 19 Kensico Drive from 1972 to 2005.

The planned redevelopment is car maintenance and storage facilities at 15 and 19 Kensico Drive, and continuation of the car dealership at 275 Kisco Avenue. The anticipated cleanup standard is to commercial and industrial use based on current and future site use and zoning.

Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C3600243) at:

https://extapps.dec.ny.gov/cfm/extapps/derexternal/index.cfm?pa_geid=3

Brownfield Cleanup Program: New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by DEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit:

<https://dec.ny.gov/environmental-protection/site-cleanup/brownfield-and-state-superfund-programs/brownfield>

We encourage you to share this fact sheet with neighbors and tenants, and/or post this fact sheet in a prominent area of your building for others to see.
