OK Brian,

Thanks,

Also just realized there is one additional Item that would be helpful for the spill closure reports. Your records for discharge to the City Sanitary Sewer.

Dates and associated spill numbers would be great if you have them.

Thanks,

Nathan J. Shaffer, I.E.

Subject: Receipts needed for tank removals.

Brian,

As discussed today for each of the tank removals we will need each of the following where applicable:

For any liquid skimmed off the top of the tank and disposed of we will need:

- 1) Waste oil manifest*
- 2) Disposal receipt*

For flow able fill/concrete removed and disposed of:

- 3) Waste fill/concrete manifest*
- 4) Disposal receipt*

For the tank cleanings we will need:

- 5) Drum waste manifest*
- 6) Drum waste disposal receipt*
- 7) Tank closure certification from contractor*

**(note Tank ID Number; ok to combine tanks 001 and 002. Keep tank 003 separate)*

For contaminated soils removed we will need:

- 8) Waste soil manifest (note Spill ID Number):
- 9) Disposal receipt (note Spill ID Number):

Scrap metal disposal receipts should not be necessary as we will note that the metal was combined with other scrap metal on the site....however...if tanks are going off the site in individual loads due to size please provide a disposal receipt from your scrap hauler if feasible.

I have been labeling the outsides of the tanks with their ID#'s in orange paint as they are being removed, in the order of removal.

So the two tanks removed today are tanks 001 and 002.

Tank 003 is the vertical tank.

Tanks 004 and 005 are the two tanks to be vacuumed by precision around December 15 and then removed.

Will provide a figure with each of the tanks once completed.

Thanks,

Nathan J. Shaffer, I.E.

Services

The following Services shall be provided at the following rates:

Thermal Treatment & Recycling

Transportation Included: ☐

\$ 48.00 per ton of Polychlorinated Biphenyls contaminated soils. Project Tonnage: 100 tons.

Handling of non-conforming waste materials:

Soils with moisture content in excess of 18% per ASTM Standard Test Method D 2216-05, will be subject to a surcharge of one dollar (\$1) per ton per percent moisture content above 18%. Silt and clay content in excess of 25% may be subject to a surcharge. A 7.00% New York State Sales Tax is not included in the above pricing and will be added to the customer's Invoice, unless the customer provides ESMI of New York with a correct NYS Tax Exempt Certificate.

Disposition of treated materials:

ESMI shall manage the treated materials as the property of ESMI of New York.

Payment Terms:

Customer shall pay ESMI of New York for services provided 30-Day following delivery of waste materials to ESMI of New York. This is not a paid when paid contract. A 2% Service Charge will be added to all past due accounts. ESMI is not responsible for transporter delays or demurrage charges at project site and/or off-loading at ESMI's facility.

NOTICE: I, as an authorized representative of the customer, have read the entire agreement and accept the agreement in its entirety, including the terms, payment terms and conditions printed hereunder, attached, referenced and incorporated therein.

John,

Please find attached the soil manifests relative to tank 003, and spill number 1408544.

I believe, the only outstanding disposal items we need receipts for should be the soil relative to spill 1407234 which has yet to leave the site.

Let me know any questions.

Thank you,

Nathan J. Shaffer, I.E.

John,

Please find attached the soil, flowable fill, and fluids manifests relative to tanks 001, 002 and associated spill number 1408926. Also relative to tanks 004 and 005.

Keep in mind when viewing the flow fill manifests that the flow fill for tanks 004 and 005 was disposed of with the flow fill for 001 and 002.

Let me know any questions.

Thanks,

Nathan J. Shaffer, I.E.
