Plattsburgh, NY 12901

Dear Ms. Schoonmaker:

The New York State Departments of Health and Environmental Conservation have reviewed the C.T. Male Associates February 3, 2004 Voluntary Cleanup Program Site Investigation Work Plan and the March 26, 2004 letter amendment. Except as specifically modified below, this letter is to formally approve the amended Work Plan.

The approval is expressly conditioned upon the following changes to your Scope of Work:

The appropriate figures contained within the Work Plan must be revised to include the locations proposed for the collection of soil gas samples. Actual field sampling locations and results must be documented and presented in the remedial investigation report.

In addition, you are reminded that any modifications to the Work Plan require prior Agency approval. Please place a copy of the approved work plan in the document repository. Feel free to contact me if you have any questions.

Sincerely,

Russell D. Huyek, P.E.
Environmental Engineer 2
