NEW YORK STATE OF OPPORTUNITY | Department of Environmental Conservation

BROWNFIELD CLEANUP PROGRAM (BCP) APPLICATION FORM

DEC requires an application to request major changes to the description of the property set forth in a Brownfield Cleanup Agreement, or "*BCA*" (e.g., adding a significant amount of new property, or adding property that could affect an eligibility determination due to contamination levels or intended land use). Such application must be submitted and processed in the same manner as the original application, including the required public comment period. **Is this an application to amend an existing BCA?**

☐ **Yes** ☑ **No** **If yes, provide existing site number:** _____

PART A (note: application is separated into Parts A and B for DEC review purposes) ***BCP App Rev 11***

Section I. Requestor Information - See Instructions for Further Guidance

DEC USE ONLY
BCP SITE #:

NAME UR-ban Villages PFA, LLC

ADDRESS 925 7th North Street

CITY/TOWN Liverpool ZIP CODE 13088

PHONE 315.877.9112 | FAX 315.457.0728 | E-MAIL vittorio@pdm-llc.com

Is the requestor authorized to conduct business in New York State (NYS)? ☑ Yes ☐ No

- If the requestor is a Corporation, LLC, LLP or other entity requiring authorization from the NYS Department of State to conduct business in NYS, the requestor's name must appear, exactly as given above, in the NYS Department of State's Corporation & Business Entity Database. A print-out of entity information from the database must be submitted to the New York State Department of Environmental Conservation (DEC) with the application to document that the requestor is authorized to do business in NYS. **Please note:** If the requestor is an LLC, the members/owners names need to be provided on a separate attachment.

Do all individuals that will be certifying documents meet the requirements detailed below? ☑ Yes ☐ No

- Individuals that will be certifying BCP documents, as well as their employers, meet the requirements of Section 1.5 of *DER-10: Technical Guidance for Site Investigation and Remediation* and Article 145 of New York State Education Law. **Documents that are not properly certified will be not approved under the BCP**.

Section II. Project Description

1. What stage is the project starting at? ☑ Investigation ☐ Remediation

NOTE: If the project is proposed to start at the remediation stage, a Remedial Investigation Report (RIR) at a minimum is required to be attached, resulting in a 30-day public comment period. If an Alternatives Analysis and Remedial Work Plan are also attached (see DER-10 / Technical Guidance for Site Investigation and Remediation for further guidance) then a 45-day public comment period is required.

2. If a final RIR is included, please verify it meets the requirements of Environmental Conservation Law (ECL) Article 27-1415(2): ☐ Yes ☐ No

3. Please attach a short description of the overall development project, including:

- the date that the remedial program is to start; and
- the date the Certificate of Completion is anticipated.

Section III. Property's Environmental History

All applications **must include** an Investigation Report (per ECL 27-1407(1)). The report must be sufficient to establish that the site requires remediation and contamination of environmental media on the site above applicable Standards, Criteria and Guidance (SCGs) based on the reasonably anticipated use of the property. To the extent that existing information/studies/reports are available to the requestor, please attach the following (***please submit the information requested in this section in electronic format only***):

1. **Reports:** an example of an Investigation Report is a Phase II Environmental Site Assessment report prepared in accordance with the latest American Society for Testing and Materials standard (ASTM E1903). **Please submit a separate electronic copy of each report in Portable Document Format (PDF). Please do not submit paper copies of supporting documents.**

2. SAMPLING DATA: INDICATE KNOWN CONTAMINANTS AND THE MEDIA WHICH ARE KNOWN TO HAVE BEEN AFFECTED. LABORATORY REPORTS SHOULD BE REFERENCED AND COPIES INCLUDED.

Contaminant Category	Soil	Groundwater	Soil Gas
Petroleum			
Chlorinated Solvents			
Other VOCs	X	X	
SVOCs	X	X	
Metals	X		
Pesticides			
PCBs			
Other*			

***Please describe:** _____

3. FOR EACH IMPACTED MEDIUM INDICATED ABOVE, INCLUDE A SITE DRAWING INDICATING:

- **SAMPLE LOCATION**
- **DATE OF SAMPLING EVENT**
- **KEY CONTAMINANTS AND CONCENTRATION DETECTED**
- **FOR SOIL, HIGHLIGHT IF ABOVE REASONABLY ANTICIPATED USE**
- **FOR GROUNDWATER, HIGHLIGHT EXCEEDANCES OF 6NYCRR PART 703.5**
- **FOR SOIL GAS/ SOIL VAPOR/ INDOOR AIR, HIGHLIGHT IF ABOVE MITIGATE LEVELS ON THE NEW YORK STATE DEPARTMENT OF HEALTH MATRIX**

THESE DRAWINGS ARE TO BE REPRESENTATIVE OF ALL DATA BEING RELIED UPON TO MAKE THE CASE THAT THE SITE IS IN NEED OF REMEDIATION UNDER THE BCP. DRAWINGS SHOULD NOT BE BIGGER THAN 11" X 17". THESE DRAWINGS SHOULD BE PREPARED IN ACCORDANCE WITH ANY GUIDANCE PROVIDED.

ARE THE REQUIRED MAPS INCLUDED WITH THE APPLICATION?* ☑ **Yes** ☐ **No**
(*answering No will result in an incomplete application)

4. INDICATE PAST LAND USES (CHECK ALL THAT APPLY):

☐ Coal Gas Manufacturing	☑ Manufacturing	☐ Agricultural Co-op	☐ Dry Cleaner
☐ Salvage Yard	☐ Bulk Plant	☐ Pipeline	☐ Service Station
☐ Landfill	☐ Tannery	☐ Electroplating	☐ Unknown

Other:_____

Section IV. Property Information - See Instructions for Further Guidance

PROPOSED SITE NAME Urban Villages

ADDRESS/LOCATION 100 Buckley Road

CITY/TOWN Salina ZIP CODE 13088

MUNICIPALITY(IF MORE THAN ONE, LIST ALL): Town of Salina

COUNTY Onondaga SITE SIZE (ACRES) 11.41

LATITUDE (degrees/minutes/seconds)	LONGITUDE (degrees/minutes/seconds)
43 ° 04 ‘ 47.5 “	-76 ° 10 ‘ 32.1 “

Complete tax map information for all tax parcels included within the proposed site boundary. If a portion of any lot is proposed , please indicate as such by inserting “P/O” in front of the lot number in the appropriate box below, and only include the acreage for that portion of the tax parcel in the corresponding far right column.ATTACH REQUIRED MAPS PER THE APPLICATION INSTRUCTIONS.

Parcel Address	Section No.	Block No.	Lot No.	Acreage
100 Buckley Road, Salina, New York	086	01	15.2	11.41

1. Do the proposed site boundaries correspond to tax map metes and bounds? ☑ Yes ☐ No
   If no, please attach an accurate map of the propsed site.

2. Is the required property map attached to the application? ☑ Yes ☐ No
   (application will not be processed without map)

3. Is the property within a designated Environmental Zone (En-zone) pursuant to Tax Law 21(b)(6)?
   (See DEC's website for more information) Yes ☐ No ☑

   If yes, identify census tract : _____

   Percentage of property in En-zone (check one): ☐ 0-49% ☐ 50-99% ☐ 100%

4. Is this application one of multiple applications for a large development project, where the development project spans more than 25 acres (see additional criteria in BCP application instructions)? ☐ Yes ☑ No

   If yes, identify name of properties (and site numbers if available) in related BCP applications:_____

5. Is the contamination from groundwater or soil vapor solely emanating from property other than the site subject to the present application? ☐ Yes ☑ No

6. Has the property previously been remediated pursuant to Titles 9, 13, or 14 of ECL Article 27, Title 5 of ECL Article 56, or Article 12 of Navigation Law? ☐ Yes ☑ No
   If yes, attach relevant supporting documentation.

7. Are there any lands under water? ☐ Yes ☑ No
   If yes, these lands should be clearly delineated on the site map.

Section IV. Property Information (continued)

8. Are there any easements or existing rights of way that would preclude remediation in these areas? If yes, identify here and attach appropriate information. ☑ Yes ☐ No

Easement/Right-of-way Holder	Description
The County of Onondaga	12 ft. wide sanitary sewer easement - west side of site.

9. List of Permits issued by the DEC or USEPA Relating to the Proposed Site (type here or attach information)

Type	Issuing Agency	Description

10. Property Description and Environmental Assessment **– please refer to application instructions for the proper format of each narrative requested.**

Are the Property Description and Environmental Assessment narratives included in the **prescribed format**? ☑ Yes ☐ No

Note: Questions 11 through 13 only pertain to sites located within the five counties comprising New York City

11. Is the requestor seeking a determination that the site is eligible for tangible property tax credits? ☐ Yes ☐ No
If yes, requestor must answer questions on the supplement at the end of this form.

12. Is the Requestor now, or will the Requestor in the future, seek a determination that the property is Upside Down? ☐ Yes ☐ No

13. If you have answered *Yes* to Question 12, above, is an independent appraisal of the value of the property, as of the date of application, prepared under the hypothetical condition that the property is not contaminated, included with the application? ☐ Yes ☐ No

NOTE: If a tangible property tax credit determination is not being requested in the application to participate in the BCP, the applicant may seek this determination at any time before issuance of a certificate of completion by using the BCP Amendment Application, except for sites seeking eligibility under the underutilized category.

If any changes to Section IV are required prior to application approval, a new page, initialed by each requestor, must be submitted.

Initials of each Requestor: _____ _____ _____ _____ _____ _____

PROVIDE A LIST OF PREVIOUS PROPERTY OWNERS AND OPERATORS WITH NAMES, LAST KNOWN ADDRESSES AND TELEPHONE NUMBERS AS AN ATTACHMENT. DESCRIBE REQUESTOR'S RELATIONSHIP, TO EACH PREVIOUS OWNER AND OPERATOR, INCLUDING ANY RELATIONSHIP BETWEEN REQUESTOR'S CORPORATE MEMBERS AND PREVIOUS OWNER AND OPERATOR. IF NO RELATIONSHIP, PUT "NONE".

IF REQUESTOR IS NOT THE CURRENT OWNER, DESCRIBE REQUESTOR'S RELATIONSHIP TO THE CURRENT OWNER, INCLUDING ANY RELATIONSHIP BETWEEN REQUESTOR'S CORPORATE MEMBERS AND THE CURRENT OWNER.

Section VII. Requestor Eligibility Information (Please refer to ECL § 27-1407)

If answering "yes" to any of the following questions, please provide an explanation as an attachment.

1. Are any enforcement actions pending against the requestor regarding this site? ☐ Yes ☑ No
2. Is the requestor subject to an existing order for the investigation, removal or remediation of contamination at the site? ☐ Yes ☑ No
3. Is the requestor subject to an outstanding claim by the Spill Fund for this site? Any questions regarding whether a party is subject to a spill claim should be discussed with the Spill Fund Administrator. ☐ Yes ☑ No

Section VII. Requestor Eligibility Information (continued)

4. Has the requestor been determined in an administrative, civil or criminal proceeding to be in violation of i) any provision of the ECL Article 27; ii) any order or determination; iii) any regulation implementing Title 14; or iv) any similar statute, regulation of the state or federal government? If so, provide an explanation on a separate attachment. ☐ Yes ☑ No
5. Has the requestor previously been denied entry to the BCP? If so, include information relative to the application, such as name, address, DEC assigned site number, the reason for denial, and other relevant information. ☐ Yes ☑ No
6. Has the requestor been found in a civil proceeding to have committed a negligent or intentionally tortious act involving the handling, storing, treating, disposing or transporting of contaminants? ☐ Yes ☑ No
7. Has the requestor been convicted of a criminal offense i) involving the handling, storing, treating, disposing or transporting of contaminants; or ii) that involves a violent felony, fraud, bribery, perjury, theft, or offense against public administration (as that term is used in Article 195 of the Penal Law) under federal law or the laws of any state? ☐ Yes ☑ No
8. Has the requestor knowingly falsified statements or concealed material facts in any matter within the jurisdiction of DEC, or submitted a false statement or made use of or made a false statement in connection with any document or application submitted to DEC? ☐ Yes ☑ No
9. Is the requestor an individual or entity of the type set forth in ECL 27-1407.9 (f) that committed an act or failed to act, and such act or failure to act could be the basis for denial of a BCP application? ☐ Yes ☑ No
10. Was the requestor's participation in any remedial program under DEC's oversight terminated by DEC or by a court for failure to substantially comply with an agreement or order? ☐ Yes ☑ No
11. Are there any unregistered bulk storage tanks on-site which require registration? ☐ Yes ☑ No

THE REQUESTOR MUST CERTIFY THAT HE/SHE IS EITHER A PARTICIPANT OR VOLUNTEER IN ACCORDANCE WITH ECL 27-1405 (1) BY CHECKING ONE OF THE BOXES BELOW:

☐ PARTICIPANT

A requestor who either 1) was the owner of the site at the time of the disposal of hazardous waste or discharge of petroleum or 2) is otherwise a person responsible for the contamination, unless the liability arises solely as a result of ownership, operation of, or involvement with the site subsequent to the disposal of hazardous waste or discharge of petroleum.

☑ VOLUNTEER

A requestor other than a participant, including a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site subsequent to the disposal of hazardous waste or discharge of petroleum.

NOTE: By checking this box, a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site certifies that he/she has exercised appropriate care with respect to the hazardous waste found at the facility by taking reasonable steps to: i) stop any continuing discharge; ii) prevent any threatened future release; iii) prevent or limit human, environmental, or natural resource exposure to any previously released hazardous waste.

If a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site, submit a statement describing why you should be considered a volunteer – be specific as to the appropriate care taken.

Section VII. Requestor Eligibility Information (continued)

Requestor Relationship to Property (check one):
☐ Previous Owner ☑ Current Owner ☐ Potential /Future Purchaser ☐ Other_____

If requestor is not the current site owner, **proof of site access sufficient to complete the remediation must be submitted**. Proof must show that the requestor will have access to the property before signing the BCA and throughout the BCP project, including the ability to place an easement on the site Is this proof attached?

☐ Yes ☐ No

Note: a purchase contract does not suffice as proof of access.

Section VIII. Property Eligibility Information - See Instructions for Further Guidance

1. Is / was the property, or any portion of the property, listed on the National Priorities List? If yes, please provide relevant information as an attachment. ☐ Yes ☑ No
2. Is / was the property, or any portion of the property, listed on the NYS Registry of Inactive Hazardous Waste Disposal Sites pursuant to ECL 27-1305? ☐ Yes ☑ No
   If yes, please provide: Site #_____ Class # _____
3. Is / was the property subject to a permit under ECL Article 27, Title 9, other than an Interim Status facility? ☐ Yes ☑ No
   If yes, please provide: Permit type:_____ EPA ID Number:_____
   Date permit issued:_____ Permit expiration date:_____
4. If the answer to question 2 or 3 above is yes, is the site owned by a volunteer as defined under ECL 27-1405(1)(b), or under contract to be transferred to a volunteer? Attach any information available to the requestor related to previous owners or operators of the facility or property and their financial viability, including any bankruptcy filing and corporate dissolution documentation. ☐ Yes ☐ No
5. Is the property subject to a cleanup order under Navigation Law Article 12 or ECL Article 17 Title 10? If yes, please provide: Order #_____ ☐ Yes ☑ No
6. Is the property subject to a state or federal enforcement action related to hazardous waste or petroleum? If yes, please provide explanation as an attachment. ☐ Yes ☑ No

Section IX. Contact List Information

To be considered complete, the application must include the Brownfield Site Contact List in accordance with *DER-23 / Citizen Participation Handbook for Remedial Programs*. Please attach, at a minimum, the names and addresses of the following:

1. The chief executive officer and planning board chairperson of each county, city, town and village in which the property is located.
2. Residents, owners, and occupants of the property and properties adjacent to the property.
3. Local news media from which the community typically obtains information.
4. The public water supplier which services the area in which the property is located.
5. Any person who has requested to be placed on the contact list.
6. The administrator of any school or day care facility located on or near the property.
7. The location of a document repository for the project (e.g., local library). **If the site is located in a city with a population of one million or more, add the appropriate community board as an additional document repository**. In addition, attach a copy of an acknowledgement from each repository indicating that it agrees to act as the document repository for the site.

Section X. Land Use Factors

1. What is the current municipal zoning designation for the site? RROD (Repurposing and R

   What uses are allowed by the current zoning? (Check boxes, below)

   ☑ Residential ☑ Commercial ☐ Industrial

   If zoning change is imminent, please provide documentation from the appropriate zoning authority.

2. Current Use: ☐ Residential ☑ Commercial ☐ Industrial ☑ Vacant ☐ Recreational (check all that apply)

   Attach a summary of current business operations or uses, with an emphasis on identifying possible contaminant source areas. If operations or uses have ceased, provide the date.

3. Reasonably anticipated use Post Remediation: ☑ Residential ☑ Commercial ☐ Industrial (check all that apply) **Attach a statement detailing the specific proposed use.**

   If residential, does it qualify as single family housing? ☐ Yes ☑ No

4. Do current historical and/or recent development patterns support the proposed use?	☑ Yes ☐ No
5. Is the proposed use consistent with applicable zoning laws/maps? Briefly explain below, or attach additional information and documentation if necessary.	☑ Yes ☐ No
6. Is the proposed use consistent with applicable comprehensive community master plans, local waterfront revitalization plans, or other adopted land use plans? Briefly explain below, or attach additional information and documentation if necessary.	☑ Yes ☐ No

XI. Statement of Certification and Signatures

(By requestor who is an individual)

If this application is approved, I hereby acknowledge and agree: (1) to execute a Brownfield Cleanup Agreement (BCA) within 60 days of the date of DEC's approval letter; (2) to the general terms and conditions set forth in the *DER-32, Brownfield Cleanup Program Applications and Agreements*; and (3) that in the event of a conflict between the general terms and conditions of participation and the terms contained in a site-specific BCA, the terms in the site-specific BCA shall control. Further, I hereby affirm that information provided on this form and its attachments is true and complete to the best of my knowledge and belief. I am aware that any false statement made herein is punishable as a Class A misdemeanor pursuant to section 210.45 of the Penal Law.

Date: _____ Signature: _____

Print Name: _____

(By a requestor other than an individual)

I hereby affirm that I am MANAGER (title) of URBAN VILLAGES PFA, LLC (entity); that I am authorized by that entity to make this application and execute the Brownfield Cleanup Agreement (BCA) and all subsequent amendments; that this application was prepared by me or under my supervision and direction. If this application is approved, I acknowledge and agree: (1) to execute a BCA within 60 days of the date of DEC's approval letter; (2) to the general terms and conditions set forth in the *DER-32, Brownfield Cleanup Program Applications and Agreements*; and (3) that in the event of a conflict between the general terms and conditions of participation and the terms contained in a site-specific BCA, the terms in the site-specific BCA shall control. Further, I hereby affirm that information provided on this form and its attachments is true and complete to the best of my knowledge and belief. I am aware that any false statement made herein is punishable as a Class A misdemeanor pursuant to Section 210.45 of the Penal Law.

Date: 8/17/21 Signature: _____

Print Name: VITTORIO PASCARELLA

SUBMITTAL INFORMATION:

- **Two (2)** copies, one paper copy of the application form with original signatures and table of contents, and one complete electronic copy in final, non-fillable Portable Document Format (PDF), must be sent to:
    - Chief, Site Control Section
    - New York State Department of Environmental Conservation
    - Division of Environmental Remediation
    - 625 Broadway
    - Albany, NY 12233-7020

PLEASE DO NOT SUBMIT PAPER COPIES OF SUPPORTING DOCUMENTS. Please provide a hard copy of ONLY the application form and a table of contents.

FOR DEC USE ONLY
BCP SITE T&A CODE: _____ **LEAD OFFICE:** _____

Supplemental Questions for Sites Seeking Tangible Property Credits in New York City ONLY. Sufficient information to demonstrate that the site meets one or more of the criteria identified in ECL 27 1407(1-a) must be submitted if requestor is seeking this determination.

BCP App Rev 11

Property is in Bronx, Kings, New York, Queens, or Richmond counties. ☐ Yes ☐ No
Requestor seeks a determination that the site is eligible for the tangible property credit component of the brownfield redevelopment tax credit. ☐ Yes ☐ No
Please answer questions below and provide documentation necessary to support answers.
1. Is at least 50% of the site area located within an environmental zone pursuant to NYS Tax Law 21(b)(6)? Please see DEC's website for more information. ☐ Yes ☐ No
2. Is the property upside down or underutilized as defined below? Upside Down? ☐ Yes ☐ No Underutilized? ☐ Yes ☐ No **From ECL 27-1405(31):** "Upside down" shall mean a property where the projected and incurred cost of the investigation and remediation which is protective for the anticipated use of the property equals or exceeds seventy-five percent of its independent appraised value, as of the date of submission of the application for participation in the brownfield cleanup program, developed under the hypothetical condition that the property is not contaminated. **From 6 NYCRR 375-3.2(l) as of August 12, 2016:** (Please note: Eligibility determination for the underutilized category can only be made at the time of application) 375-3.2: (l) "Underutilized" means, as of the date of application, real property on which no more than fifty percent of the permissible floor area of the building or buildings is certified by the applicant to have been used under the applicable base zoning for at least three years prior to the application, which zoning has been in effect for at least three years; and (1) the proposed use is at least 75 percent for industrial uses; or (2) at which: (i) the proposed use is at least 75 percent for commercial or commercial and industrial uses; (ii) the proposed development could not take place without substantial government assistance, as certified by the municipality in which the site is located; and (iii) one or more of the following conditions exists, as certified by the applicant: (a) property tax payments have been in arrears for at least five years immediately prior to the application; (b) a building is presently condemned, or presently exhibits documented structural deficiencies, as certified by a professional engineer, which present a public health or safety hazard; or (c) there are no structures. "Substantial government assistance" shall mean a substantial loan, grant, land purchase subsidy, land purchase cost exemption or waiver, or tax credit, or some combination thereof, from a governmental entity.

Supplemental Questions for Sites Seeking Tangible Property Credits in New York City (continued)

3. If you are seeking a formal determination as to whether your project is eligible for Tangible Property Tax Credits based in whole or in part on its status as an affordable housing project (defined below), you must attach the regulatory agreement with the appropriate housing agency (typically, these would be with the *New York City Department of Housing, Preservation and Development*; *the New York State Housing Trust Fund Corporation*; the *New York State Department of Housing and Community Renewal*; or the *New York State Housing Finance Agency*, though other entities may be acceptable pending Department review). **Check appropriate box, below**:

☐ Project is an Affordable Housing Project - Regulatory Agreement Attached;

☐ Project is Planned as Affordable Housing, But Agreement is Not Yet Available* (*Checking this box will result in a "pending" status. The Regulatory Agreement will need to be provided to the Department and the Brownfield Cleanup Agreement will need to be amended prior to issuance of the CoC in order for a positive determination to be made.);

☐ This is Not an Affordable Housing Project.

From 6 NYCRR 375- 3.2(a) as of August 12, 2016:

(a) "Affordable housing project" means, for purposes of this part, title fourteen of article twenty seven of the environmental conservation law and section twenty-one of the tax law only, a project that is developed for residential use or mixed residential use that must include affordable residential rental units and/or affordable home ownership units.

(1) Affordable residential rental projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which defines (i) a percentage of the residential rental units in the affordable housing project to be dedicated to (ii) tenants at a defined maximum percentage of the area median income based on the occupants' households annual gross income.

(2) Affordable home ownership projects under this subdivision must be subject to a federal, state, or local government housing agency's affordable housing program, or a local government's regulatory agreement or legally binding restriction, which sets affordable units aside for home owners at a defined maximum percentage of the area median income.

(3) "Area median income" means, for purposes of this subdivision, the area median income for the primary metropolitan statistical area, or for the county if located outside a metropolitan statistical area, as determined by the United States department of housing and urban development, or its successor, for a family of four, as adjusted for family size.

Email: vittorio@pdm-llc.com

New York State Department of State Corporation & Business Entity Database printout for the Volunteer is provided in **Attachment A.** The sole member of UR-ban Villages PFA, LLC is Pascarella Family Associates, LLC. The members of Pascarella Family Associates, LLC are as follows:

- Florindo Pascarella
- Vittorio Pascarella

An executed corporate resolution from UR-ban Villages PFA, LLC authorizing Mr. Vittorio Pascarella to act as representative in BCP application is also located in **Attachment A**.

Section II – Project Description

The proposed project will involve the cleanup and redevelopment of the former Will & Baumer Candle Co., Inc. site located at 100 Buckley Road in the Town of Salina, Onondaga County, New York. The Site includes one tax parcel of 11.68 acres in land area. The site is developed with eleven former buildings (currently vacant and unused, except for one building that is leased by a local furniture retailer and used for temporary storage of office furniture inventory) that were associated with the operations of the Will & Baumer Candle Co. throughout its history at the property. The eleven buildings were historically used as offices, manufacturing spaces, a laboratory, press and pan rooms, multiple sheds, a digester house, still house, a store room, a machine shop, a bleach house, a bleach yard, an oil house, and packaging and decorating areas. Multiple storage tanks including grease and oil as well as an acid tank and a fuel oil tank were identified on historic maps in the southeastern portions of the Site. Railroad spurs run between the site buildings on the eastern portion of the Site running north and south from at least 1911 until at least 1990. In addition, a refinery building was located adjacent south in at least 1911.

The metes and bounds description of the proposed Brownfield Cleanup Program Site ("BCP Site") boundary is as follows:

BEGINNING AT A POINT*, said point being the following courses and distances from the intersection of the westerly line of Interstate Route 81 and the northerly line of Park Street, North28 degrees 23 minutes 00 seconds East a distance of 11.58' & North 03 degrees 15 minutes 40 seconds West for a distance of 102.78 feet to the northerly line of the City of Syracuse and the southerly line of the Town of Salina.*

THENCE *North 58 degrees 08 minutes 30 seconds West for a distance of 265.25 feet along the southerly line of the Town of Salina to a point;*

THENCE *North 42 degrees 19 minutes 10 seconds West for a distance of 139.24 feet along the southerly line of the Town of Salina to a point on the northeasterly line of Buckley Road;*

THENCE *South 47 degrees 32 minutes 35 seconds East for a distance of 93.97 feet along the easterly line of the town of Salina to a point;*

THENCE *North 20 degrees 00 minutes 00 seconds West for a distance of 8.87 feet to a point;*

THENCE *North 26 degrees 45 minutes 00 seconds West for a distance of 247.42 feet to a point;*

THENCE *North 01 degrees 09 minutes 02 seconds West for a distance of 17.16 feet to a point;*

THENCE *North 01 degrees 51 minutes 38 seconds East for a distance of 409.02 feet along the northeasterly line of Buckley Road to a point;*

THENCE *South 59 degrees 53 minutes 50 seconds East for a distance of 235.97 feet to a point;*

THENCE *North 29 degrees 32 minutes 00 seconds East for a distance of 350.27 feet to a point;*

THENCE *South 58 degrees 56 minutes 10 seconds East for a distance of 488.12 feet to a point on the westerly line of Interstate Route 81;*

THENCE *South 14 degrees 19 minutes 35 seconds West for a distance of 210.22 feet along the westerly line of Interstate Route 81 to a point;*

THENCE *South 20 degrees 05 minutes 22 seconds West for a distance of 300.19 feet continuing along the westerly line of Interstate Route 81 to a point;*

THENCE *South 27 degrees 51 minutes 43 seconds West for a distance of 320.89 feet continuing along the westerly line of Interstate Route 81* ***TO THE POINT AND PLACE OF BEGINNING****.*

Together with and subject to covenants, easements, and restrictions of record.

Said property contains 11.68 acres more or less.

The current survey map of the parcel is provided in **Attachment D. Figure 1** depicts the proposed Brownfield Cleanup Program Site ("BCP Site") on a USGS 7.5 minute quadrangle map.

The project will consist of the rehabilitation and reuse of the eleven abandoned factory buildings on the 11.68-acre parcel. The new site will see the transformation of the above-mentioned parcel from a factory and warehouse site to a mixed-use multi-family / commercial site. The redeveloped site will house approximately 250 apartment units, indoor and covered parking, site offices, recreational facilities, a banquet house, a brew house, and common areas. The construction will happen in three (3) phases, the first of which will accommodate all site improvements, the second of which will encompass rehabilitation of the existing structures, and the third of which will include the construction of two (2) to three (3) new buildings.

The Conceptual Development Plan is included with this application as **Attachment E.** Based on the planned use, it is believed that Restricted-Residential Use Soil Cleanup Objectives (SCOs) are applicable to the redevelopment project and, as such, have been applied in this application.

The site is bounded to the north by medical offices, to the south by the convergence of several roadways (Buckley Road, Park Street, Old Liverpool Road, and Onondaga Lake Parkway), followed by Onondaga Lake, east by Interstate Route 81 and its Exit 22/23A/23B interchange, and northwest by Buckley Road, followed by single-family residential parcels. Properties surrounding the Site are a mix of residential and commercial in nature.

The Site was the subject of recent environmental investigations, which demonstrated that the Site has been affected by past uses and may be a candidate for inclusion in the BCP. The results of the recent investigations are discussed in Section III.

<u>Estimated Project Schedule</u>:

October 2021	Brownfield Cleanup Program (BCP) Application Submission
December 2021	Brownfield Cleanup Agreement (BCA) Executed and RIWP Submitted
December 2021	Remedial Investigation Work Plan (RIWP) Submission
February/March 2022	Remedial Investigation (RI) commenced
Summer 2022	Decision Document
Fall 2023	Certificate of Completion (COC) Issued

Section III - Property's Environmental History

Environmental Reports

Environmental information currently exists for the Site from a Phase I Environmental Site Assessment (ESA) completed at the Site by LaBella in April 2020, a Phase II ESA completed at the Site by LaBella in May 2020, and a Supplemental Historic Fill Investigation completed at the Site by C & S in May 2021. The following summarizes those efforts. These reports are provided in **Attachment B**.

LaBella Phase I ESA Report –August 2020

The April 2020 Phase I ESA report prepared by LaBella identified the following RECs:

- **Historic Operations and Regulatory Listings at the Site:** "Based on historical records reviewed, it appears that the Site has historically been used by the Will & Baumer Candle Co. as a bees wax and candle manufacturing facility since at least 1911 to approximately 2010. The Site included offices, a candle factory, a laboratory, press and pan rooms, multiple sheds, a digester house, still house, a store room, a machine shop, a bleach house, a bleach yard, an oil house, and packaging and decorating areas. Multiple storage tanks including grease and oil as well as an acid tank and a fuel oil tank were identified on historic maps in the southeastern portions of the Site. Railroad spurs run between the site buildings on the eastern portion of the Site running north and south from at least 1911 until at least 1990. In addition, a refinery building was located adjacent south in at least 1911.

  Regulatory listings were identified for the Site including former aboveground storage tanks (ASTs) containing fuel oil and gasoline, and a chemical AST of unknown nature. These tanks are listed as having been removed from the Site. An inactive NYSDEC spill is associated with the Site (Spill #9200872), indicates contamination of fuel oil was found while decommissioning old ASTs. No additional information was made available regarding this spill. In addition, hazardous waste generation was identified at the Site from at least 1982 through at least 2010. Wastes generated include spent non halogenated solvents, ignitable wastes, corrosive wastes, chromium, methyl ethyl ketone, lead, benzene, chloroform, spent halogenated solvents, mercury, and cresol.

  A prior soil and groundwater investigation completed in 2010 included the installation of six soil borings which were converted to temporary groundwater monitoring wells at the Site. Laboratory analytical results indicated the presence of several constituents in shallow fill and groundwater with concentrations generally low and below applicable standards, with the exception of toluene which was identified at concentrations above groundwater standards at three locations. These exceedances were attributed to residual impacts from the historic ASTs in the southeast portion of the Site and prior Spill incidents closed by NYSDEC.

  While no further work was recommended as a result of this 2010 investigation, the prior work was limited in scope and appears insufficient to assess potential environmental impacts based on the industrial history and nature of the Site."

- **Drums of Unknown Nature located at the Site:** Six 55-gallon drums of what appeared to be soil were identified to the north of Building #7. Three of these drums were tipped over spilling their contents to the ground surface. The origin and nature of this material is unknown.

LaBella Phase II ESA – May 2020

The Phase II ESA (i.e., Investigation) was completed to obtain an overview of the environmental and subsurface conditions and resolve possible issues identified in the Phase I ESA. The LaBella report indicates that the Investigation was performed consistent with ASTM E1903-19 *Standard Practice for Environmental Site Assessments: Phase II Environmental Site Assessment Process*. The investigation included the following:

- Completion of a geophysical survey;
- A subsurface investigation, which included the advancement of twenty-one (21) direct-push soil borings and installation of seven (7) temporary groundwater monitoring wells;
- The collection of subsurface soil and groundwater samples; and
- Laboratory analysis of the soil and groundwater samples.

The following table summarizes the areas investigated, as well as the number and types of samples collected during the LaBella Phase II ESA.

Area	Sampling Method(s)	No. of Samples	Analysis
Site Exterior Sub-Surface Soil	Geoprobe Borings (21)	7	VOC, SVOC, PCBs, Metals
Site Groundwater	Temporary Monitoring Wells	7	VOC, SVOC

Field observations made during the investigation indicated the presence of petroleum odors in two of the soil borings. Elevated PID headspace screening results were also observed at these two locations, with headspace readings up to 161 parts-per-million detected. Additionally, historic fill material (HFM) was encountered in the upper five feet of soil at the majority of the boring locations.

The principle contaminants detected at the site through the Phase II ESA are VOCs, SVOCs (PAHs – polycyclic aromatic hydrocarbons), and metals, as follows:

- Acetone (a VOC) was detected at concentrations greater than the Unrestricted Use SCO in four of the seven soil samples submitted for laboratory analysis. Other VOCs, including 2-butanone, benzene, carbon disulfide, ethylbenzene, n-butylbenzene, n-propylbenzene, naphthalene, o-xylene, p-isopropyltoluene, m & p-xylene, and toluene were detected in several of the soil samples at concentrations below the respective Unrestricted Use SCOs.
- SVOCs, including benzo(a)anthracene, benzo(b)fluoranthene, chrysene, fluoranthene, phenanthrene, and pyrene were detected at concentrations below the corresponding Unrestricted Use SCOs at three of the seven soil sampling locations.

- Lead was detected at concentrations greater than the Unrestricted Use SCO in two of the seven soil samples.
- Acetone was detected in six of the seven groundwater samples at concentrations below the groundwater standard of 50 ug/L. 2-butanone was detected in one groundwater sample at a concentration below the groundwater standard of 50 ug/L, and vinyl chloride was detected in one groundwater sample at a concentration below the groundwater standard of 2 ug/L.
- SVOCs, including benzo(a)anthracene, benzo(a)pyrene, benzo(b)fluoranthene, benzo(k)fluoranthene, chrysene, and indeno(1,2,3-cd)pyrene were detected in six of the seven groundwater samples at concentrations greater than the respective groundwater standards. Other SVOCs were also detected, but at concentrations less than the corresponding groundwater standards. The Labella report noted that "these detections may not be representative of actual groundwater conditions but rather particulate matter within the sample". No additional sampling (i.e., filtered sample analysis) was performed to verify this assertion.

Summaries of the laboratory data associated with the LaBella Phase II ESA are provided as **Tables 1 through 6**, attached to this application.

C & S Supplemental Historic Fill Investigation – June 2021

The conditions encountered within the soil borings conducted during the LaBella Phase II ESA indicated that HFM containing black material, brick, ash, etc., was encountered in the upper five feet of soil in the majority of the soil borings. Only one of the soil samples collected during the Phase II ESA for laboratory analysis was obtained from the intervals containing HFM. As such, C & S conducted a supplemental investigation to further assess the nature of the HFM and to determine if certain contaminants that are common to HFM of similar nature were present above currently recognized SCOs established by NYSDEC. The supplemental investigation included the following:

- The advancement of sixteen (16) machine-excavated test pits across the eastern portion of the site where HFM was most prominent;
- The collection of surface soil samples at two (2) locations adjacent to a former transformer house positioned at the western side of the former machine shop;
- The collection of surface soil samples at six (6) locations where former rail spurs traversed the east side of the site; and
- Laboratory analysis of the HFM and surface soil samples.

The following table summarizes the areas investigated, as well as the number and types of samples collected during the C&S Investigation.

Area	Sampling Method(s)	No. of Samples	Analysis
Site Exterior Shallow Sub-Surface Soil (HFM)	Test Pits (16)	7	SVOC, PCB, Metals
Site Exterior Surface Soil	Manual	2	PCB
Site Exterior Surface Soil	Manual	6	SVOC, PCB, Metals

Field observations made during the investigation indicated the presence of HFM in all test pits. The HFM contained assorted materials, including concrete, brick, coal debris/dust, ash, slag, metal shavings, railroad ties, and plastic bottles. In most locations, the HFM extended to depths of 4.5 to 5 feet below grade. Elevated PID headspace screening results were also observed at two locations, with headspace readings up to 36 parts-per-million detected.

The principle contaminants detected at the site through the Phase II ESA are VOCs, SVOCs (PAHs – polycyclic aromatic hydrocarbons), PCBs, pesticides, and metals, as follows:

- Various SVOCs were detected at concentrations greater than the Industrial SCOs in two (2) of the seven (7) test pit soil samples, and in two (2) of the six (6) surface soil samples submitted for laboratory analysis. SVOCs were detected at concentrations greater than Restricted Residential SCOs in two (2) of seven (7) test pit/HFM samples and in five (5) of six (6) surface soil samples collected. The same PAHs were detected at concentrations above the Protection of Groundwater SCOs in two (4) of the seven (7) test pit samples and two (2) of the six (6) surface samples collected.
- PCBs were detected at concentrations above Unrestricted Use SCOs in surface soil (0-2 inches in depth) at the two locations adjacent to the former transformer house, and at one (1) additional surface soil sample location.
- Two (2) pesticides (4,4'-DDE and 4,4'-DDT) were detected in two (2) surface soil samples at concentrations exceeding Unrestricted Use SCOs.
- Various metals, including zinc, arsenic, nickel, and lead were detected at concentrations exceeding Unrestricted Use SCOs in various surface soil samples. Arsenic was present at concentrations exceeding Industrial SCOs in four (4) of seven (7) test pit/HFM samples, zinc was detected at concentrations exceeding Industrial SCOs in two (2) of seven (7) test pit/HFM samples, and lead was detected at a concentration exceeding Industrial SCOs in one (1) of seven (7) test pit/HFM samples. Cadmium and copper were detected at concentrations exceeding Commercial SCOs in one (1) of seven (7) test pit/HFM samples. Other metals, including copper, arsenic, mercury, zinc, and lead were also detected in other test pit/HFM samples at concentrations exceeding Unrestricted Use SCOs.

Summaries of the laboratory data associated with the HFM investigation are provided as **Tables 7 through 10**, attached to this application.

Site Figures

Numerous figures have been generated depicting pertinent details concerning the site and adjacent properties. These figures are referenced throughout this document and include:

Figure Number	Information Depicted
1	Site Location, USGS 7.5" Topographic Format
2	Site Layout, Aerial Format
3	Subject and Adjacent Land Ownership
4	Existing Land Use in Vicinity
5	Existing Surface Soil Data (Exceedances of SCOs)
6	Existing Subsurface Soil Data (Exceedances of SCOs)
7	Existing Groundwater Data (Exceedances of Standards)

Past Land Uses:

Available historical information compiled by LaBella in connection with the Phase I ESA indicates that the Site has been used as a bees wax and candle manufacturing facility by Will & Baumer Candle Co., Inc. (and/or its predecessors and successors) from at least 1911 (and possibly as early as 1904) until 2010. Other than the use of one building for temporary storage of office furniture by Sustainable Office Solutions, LLC, the site has remained vacant and unused since that time. Historic city directories indicate that CNY Logistics and Light Four Life Candles, LLC were present at the site address (100 Buckley Road) in 2014 and Light Four Life Candles, LLC was present in 2018. These are believed to have been lessees under the ownership of Syracuse Gateway Holdings, LLC.

Adjacent Usage:

The site is bounded to the north by medical offices, to the south by the convergence of several roadways (Buckley Road, Park Street, Old Liverpool Road, and Onondaga Lake Parkway), followed by Onondaga Lake, east by Interstate Route 81 and its Exit 22/23A/23B interchange, and northwest by Buckley Road, followed by single-family residential parcels. Properties surrounding the Site are a mix of residential and commercial in nature.

Section IV - Property Information

The Former Will & Baumer Candle Co., Inc. Brownfield Cleanup Program Site is located at 100 Buckley Road (SBL: 086.-01-15.2).

1. Tax Map Boundaries

The proposed BCP Site boundary corresponds to the existing parcel boundary. A metes and bounds description of the BCP Site boundary, a copy of the Onondaga County Tax Map associated with the Site, and a Site Survey Map are provided in **Attachment D.**

2. Property Base Map

A map showing the proposed BCP Site on an aerial photograph is included as **Figure 2. Figure 3** shows parcel lines, tax map parcel numbers and owner information for adjacent parcels. **Figure 4** depicts land use for the local area**.**

3. En-Zone

Designation of En-Zones is limited to eligible 2013 Census Tracts with a poverty rate of at least 20% according to the 2013 American Community Survey five-year estimates and an unemployment rate of at least 125% of the New York State average, or a poverty rate of at least double the rate for the county in which the tract is located.

The BCP Site is not within a designated En-Zone.

4. Multiple Applications

The proposed project is a stand-alone project and is not the subject of multiple applications.

5. Property Description Narrative

5.1 Location

The Site is on the south end of the Town of Salina, immediately north of its border with the City of Syracuse. Interstate Route 81 is located immediately east of the Site, and Onondaga Lake is located approximately 750 feet southwest of the Site. The site is bounded to the north by medical offices, to the south by the convergence of several roadways (Buckley Road, Park Street, Old Liverpool Road, and Onondaga Lake Parkway), followed by Onondaga Lake, east by Interstate Route 81 and its Exit 22/23A/23B interchange, and northwest by Buckley Road, followed by single-family residential parcels. Properties surrounding the Site are a mix of residential and commercial in nature.

5.2 Site Features

The site is developed with eleven former buildings (currently vacant and unused, except for one building that is leased by a local furniture retailer and used for temporary storage of office furniture inventory) that were associated with the operations of the Will & Baumer Candle Co. throughout its history at the property. The eleven buildings were historically used as offices, manufacturing spaces, a laboratory, press and pan rooms, multiple sheds, a digester house, still house, a store room, a machine shop, a bleach house, a bleach yard, an oil house, and packaging and decorating areas. Multiple storage tanks including grease and oil as well as an acid tank and a fuel oil tank were identified on historic maps in the southeastern portions of the Site. Railroad spurs run between the site buildings on the eastern portion of the Site running north and south from at least 1911 until at least 1990. In addition, a refinery building was located adjacent south in at least 1911. A metes and bounds description and survey of the BCP Site boundary is provided in **Attachment D**.

The Site is located at approximately 376 feet above mean sea level (amsl) and slopes gently to the south towards Onondaga Lake, which lies approximately 1,300 feet south of the Site.

5.3 Current Zoning and Land Use

The Site is currently zoned by the Town of Salina as *Repurposing and Reuse Floating Overlay District*. The properties surrounding the Site are zoned for a mix of commercial or residential uses.

5.4 Past Use of the Site

Available historical information compiled by LaBella in connection with the Phase I ESA indicates that the Site has been used as a bees wax and candle manufacturing facility by Will & Baumer Candle Co., Inc. (and/or its predecessors and successors) from at least 1911 (and possibly as early as 1904) until 2010. Other than the use of one building as an office furniture warehouse under Syracuse Gateway Holdings, LLC, the site has remained vacant and unused since that time. Historic city directories indicate that CNY Logistics and Light Four Life Candles, LLC were present at the site address (100 Buckley Road) in 2014 and Light Four Life Candles, LLC was present in 2018. These are believed to have been lessees under the ownership of Syracuse Gateway Holdings, LLC.

5.5 Site Geology and Hydrogeology

The Site contains HFM (containing black material, brick, ash, etc.) across a significant portion of the Site from grade to approximately five feet bgs. Underlying soil consists of grey and brown silt and clay. Groundwater was previously observed at depths ranging from 0.4 to 7.2 feet below grade in the temporary wells installed during the LaBella Phase II ESA. Groundwater flow direction and gradient has not previously been studied, but groundwater flow is expected to be toward the south to southwest, in the direction of Onondaga Lake.

5.6 Environmental Assessment

Based on the Investigation, the known contaminants of concern are generally present in surface soil and the HFM across the site. Documented contaminants of concern include SVOCs, PCBs,

pesticides, and metals. Impacts generally appear to be present from grade to depths of approximately five feet bgs within the HFM. Groundwater impacts by SVOC and acetone have also been documented to exist at the site.

The following tables indicates the number of samples that contained contaminants at concentrations greater than a respective SCO.

Soil Sample Type	Restricted-Residential	Commercial	Industrial
Surface Soil	4 of 8	3 of 8	2 of 8
Subsurface Soil	3 of 20	1 of 20	1 of 20

Soil Assessment

Acetone was detected in subsurface soil at concentrations equal to or greater than Unrestricted Use SCOs and greater than Protection of Groundwater SCOs at five (5) of seven (7) sampling locations. 2-Butanone was detected in low concentrations in all seven (7) soil samples subjected to VOC analysis, but at concentrations below both Unrestricted Use and Protection of Groundwater SCOs. Vinyl chloride, though detected in low concentrations in groundwater, was not detected in any of the seven subsurface soil samples subjected to VOC analysis.

PAHs were detected at concentrations greater than the Industrial SCOs in two (2) of the seven (7) test pit soil samples, and in two (2) of the six (6) surface soil samples submitted for laboratory analysis. SVOCs were detected at concentrations greater than Restricted Residential SCOs in two (2) of seven (7) test pit/HFM samples and in five (5) of six (6) surface soil samples collected. The same PAHs were detected at concentrations above the Protection of Groundwater SCOs in two (4) of the seven (7) test pit samples and two (2) of the six (6) surface samples collected.

Pesticides (4,4'-DDE and 4,4'-DDT) were detected in two (2) surface soil samples at concentrations exceeding Unrestricted Use SCOs.

PCBs were detected in surface soil samples at three locations at concentrations greater than Unrestricted Use SCOs at three (3) locations.

Various metals, including zinc, arsenic, nickel, and lead were detected at concentrations exceeding Unrestricted Use SCOs in various surface soil samples. Arsenic was present at concentrations exceeding Industrial SCOs in four (4) of seven (7) test pit/HFM samples, zinc was detected at concentrations exceeding Industrial SCOs in two (2) of seven (7) test pit/HFM samples, and lead was detected at a concentration exceeding Industrial SCOs in one (1) of seven (7) test pit/HFM samples. Cadmium and copper were detected at concentrations exceeding Commercial SCOs in one (1) of seven (7) test pit/HFM samples. Other metals, including copper, arsenic, mercury, zinc, and lead were also detected in other test pit/HFM samples at concentrations exceeding Unrestricted Use SCOs.

The various soil data collected during the LaBella Phase II ESA and the supplemental HFM investigation completed by C & S are summarized in comparison to the SCOs established in Part 375 in attached Tables 1 through 4 and 7 through 10.

Sub-Slab Soil Vapor Assessment

No soil vapor intrusion assessment has been performed to date.

Groundwater Assessment

Comparison of the groundwater analytical data to the TOGs 1.1.1 Class GA Ambient Water Quality Standards indicates:

- Various SVOCs (including benzo(a)anthracene, benzo(a)pyrene, benzo(b)fluoranthene, benzo(k)fluoranthene, chrysene, and indeno(1,2,3-cd)pyrene) were detected at concentrations greater than TOGS 1.1.1 Class GA Ambient Water Quality Standards during the LaBella Phase II ESA in May 2020. The Labella report noted that "these detections may not be representative of actual groundwater conditions but rather particulate matter within the sample". No additional sampling (i.e., filtered sample analysis) was performed to verify this assertion.

- Acetone, 2-butanone, and vinyl chloride were detected, but concentrations were below the corresponding TOGS 1.1.1 Class GA Ambient Water Quality Standards.

The groundwater data collected during the LaBella Phase II ESA are summarized in comparison to the SCOs established in Part 375 in attached Tables 5 and 6.

There is no indication that current operations have contributed to the existing contamination at the property. Investigation data collected to date suggests that the existing contamination is associated with historic fill material that has been placed across a large portion of the eastern section of the site, and past handling and storage of petroleum products, coal, coal combustion by-products, and other materials in the vicinity of the former boiler house and an adjacent rail spur on the eastern portion of the site.

Section V - Additional Requestor Information

No additional information is required.

Requestor's Authorized Representative:	Mr. Vittorio Pascarella UR-ban Villages PFA, LLC 925 7th North Street Liverpool, New York, 13088 Phone: 315-877-9112 vittorio@pdm-llc.com
Requestor's Consultant:	Nevin Bradford, P.E. C&S Engineers, Inc. 499 Colonel Eileen Collins Blvd. Syracuse, NY 13212 Phone: 315-703-4284 Fax: 315-703-9667 nbradford@cscos.com
Requestor's Attorney:	Thomas J. Fucillo, Esq. Hancock Estabrook, LLP 1800 AXA Tower I 100 Madison Street Syracuse, New York 13202 Office: 315-565-4503 Fax: 315-565-4603 tfucillo@hancocklaw.com

Section VI – Current Property Owner/Operator Information

The Former Will & Baumer Candle Co., Inc. proposed Brownfield Cleanup Program Site includes Onondaga County Tax Parcel 086.-01-15.2. For the purpose of this application, the proposed site address is 100 Buckley Road, Liverpool, Onondaga County, New York 13088.

1. Parcel owner name and information are provided below:

Parcel SBL:	086.-01-15.2
Parcel Address:	100 Buckley Road, Salina, Onondaga County, New York 13088
Owner / Operator:	UR-ban Villages PFA, LLC
Ownership Start Date:	June 21, 2021
Owner Address:	925 7th North Street, Liverpool, Onondaga County, New York 130088
Phone:	(315) 877-9112
Fax:	(315) 457-0728
Email:	vittorio@pdm-llc.com

2. Previous Property owners, occupants, and information are provided below:

OWNER OF RECORD	DATE ACQUIRED	DATE SOLD
UR-ban Villages PFA, LLC 925 7th North Street Liverpool, New York 13088	June 21, 2021	-
PDM Estates, LLC 925 7th North Street Liverpool, New York 13088	April 7, 2021	June 21, 2021
Syracuse Gateway Holdings, LLC c/o Syracuse Gateway Holdings Canada, Inc. 93 Lamay Crescent Scarborough, Ontario, Canada M1 X1 J4	September 24, 2010	April 7, 2021

1963*	**100 Buckley Road** –Reschke Fredk A, Mc Nulty Edw, Wilborn LeRoy B, Hall Edna Mrs		

*__NOTE:__ 100 Buckley Road address believed to have been assigned to westerly neighboring residential property at this time.

Neither the requestor nor its members have any relationship with or prior connection to any of the past owners or operators of the site.

Section VII – Requestor Eligibility Information (ECL §27-1407)

The Requestor, UR-ban Villages PFA, LLC, qualifies as a Volunteer with respect to the Site as it did not own or operate the Site at the time of the release or disposal of media that resulted in the contamination and did not otherwise contribute to or exacerbate the contamination at the Site. The Requestor performed all appropriate inquiries into the Site's history and condition prior to its purchase through retaining a qualified environmental consultant to conduct a Phase I Environmental Site Assessment (Phase I ESA), a subsequently a Phase II Environmental Site Assessment (Phase II ESA), pursuant to currently recognized industry standards and practices. UR-ban Villages PFA, LLC is voluntarily applying to be accepted into the New York State Brownfield Cleanup Program with the intent of remediating contamination at the Site to a level that is suitable for the intended future use.

There is no indication that current operations have contributed to the existing contamination at the property. Investigation data collected to date suggests that the existing contamination is associated with historic fill material that has been placed across a large portion of the eastern section of the site, and past handling and storage of petroleum products, coal, coal combustion by-products, and other materials in the vicinity of the former boiler house and an adjacent rail spur on the eastern portion of the site.

Section VIII - Property Eligibility Information (ECL §27-1405)

The Site is not on the National Priorities List, not on the NYS Registry of Inactive Hazardous Waste Disposal Sites, not subject to permitting under ECL Article 27-16305, not subject to a cleanup order under Navigation Law Article 12 or ECL Article 17 Title 10, and not subject to current state or federal enforcement actions related to hazardous waste or petroleum.

The anticipated post remediation use of the site is a mixed-use residential / commercial development. The completed project is expected to realize the rehabilitation and reuse of the eleven abandoned factory buildings on the 11.68-acre parcel. The redeveloped site will house approximately 250 apartment units, indoor and covered parking, site offices, recreational facilities, a banquet house, a brew house, and common areas. The construction will happen in three (3) phases, the first of which will accommodate all site improvements, the second of which will encompass rehabilitation of the existing structures, and the third of which will include the construction of two (2) to three (3) new buildings. In order to do so, the Volunteer must remediate the Property to Restricted-Residential Soil Clean-up levels (Track 4) under 6 NYCRR Part 375.

In addition to the above, the Phase I and II ESAs and supplemental investigations have documented contamination and historical uses of the Property that complicate the redevelopment of the site for residential purposes, and also creates a financial burden for the Volunteer.

Section IX – Site Contact List

1. Local Government – Town of Salina and Onondaga County

Colleen A. Gunnip
Town of Salina Supervisor
201 School Road

7. Document Repositories:

The Liverpool Public Library was identified as a document repository due to its proximity to the Site and flexible hours. The address is 310 Tulip Street, Liverpool, New York 13088. C&S requested repository duties from the Liverpool Public Library on April 6, 2021. The Liverpool Public Library agreed to repository duties on the same date. A copy of the correspondence with the Liverpool Public Library indicating that they agree to act as the repository for the project is provided in **Attachment C.**

Section X - Land Use Factors

1. *Current Zoning*

The Site was recently re-zoned by the Town of Salina as *Repurposing and Reuse Floating Overlay District.* This zoning classification was created to facilitate the mixed-use development planned by UR-ban Villages PFA, LLC.

2. *Current Uses: Summary of Business Operations*

Other than a commercial tenant occupying a portion of Building 5 at the northern end of the Site, the former Will & Baumer Candle Co., Inc. site is currently vacant and unused, with plans for redevelopment pending. The commercial tenant that occupies a portion of Building 5 is Sustainable Office Solutions, LLC, a retailer of office furniture (pre-owner/used, new, and custom furniture). This firm uses the space in Building 5 for temporary storage of office furniture inventory.

There is no indication that current operations have contributed to the existing contamination at the property. Investigation data collected to date suggests that the existing contamination is associated with historic fill material that has been placed across a large portion of the eastern section of the site, and past handling and storage of petroleum products, coal, coal combustion by-products, and other materials in the vicinity of the former boiler house and an adjacent rail spur on the eastern portion of the site.

3. *Intended Use – Post Remediation*

UR-ban Villages PFA, LLC plans to complete the rehabilitation and reuse of 11 abandoned factory buildings on the 11.68-acre parcel. The new site will see the transformation of the above-mentioned parcel from a factory and warehouse site to a mixed-use apartment / commercial site. The redeveloped site will house approximately 250 apartment units, indoor and covered parking, site offices, recreational facilities, a banquet house, a brew house, and common areas. The construction will happen in three (3) phases, the first of which will accommodate all site improvements, the second of which will encompass rehabilitation of the existing structures, and the third of which will include the construction of two (2) to three (3) new buildings.

4. *Current, Historical and/or Recent Development Patterns*

UR-ban Villages PFA, LLC is currently working with Onondaga County and Town of Salina stakeholders to ensure the proposed site improvements are in concert with larger strategic development plans for the Town.

5. *Consistency with Zoning*

The Site was recently re-zoned by the Town of Salina as *Repurposing and Reuse Floating Overlay District.* This zoning classification was created to facilitate the mixed-use development planned by UR-ban Villages PFA, LLC. As such, the planned development is consistent with local zoning.

NOTES:

All values are in mg/Kg.

SCO = Soil Cleanup Objective established in 6 NYCRR Part 375.

J indicates an estimated value.

U indicates compound was not detected above laboratory detection limits.

Yellow highlighted cells indicate compound concentration above 6 NYCRR Part 375 Unrestricted Use SCO.

Pink highlighted cells indicate compound concentration above 6 NYCRR Part 375 Residential SCO.

Green highlighted cells indicate compound concentration above 6 NYCRR Part 375 Restricted Residential SCO.

Blue highlighted cells indicate compound concentration above 6 NYCRR Part 375 Commercial SCO.

Purple highlighted cells indicate compound concentration above 6 NYCRR Part 375 Industrial SCO.

Cells outlined in **RED** indicate compound concentration above 6 NYCRR Part 375 Protection of Groundwater SCO.

NO TES:
All values displayed in micrograms per liter (ug/L) or parts per billion (ppb)
"<" - Indicates compound was not detected above the indicated laboratory method detection limit (MDL).
Yellow highlight indicates that the compound was detected at a concentration above its respective 6 NYCRR Part 703 Groundwater Quality Standard or Technical and Operational Guidance Series (TOGS 1.1.1) Guidance Value
VOCs analyzed by USEPA Method 8260
NL indicates Not Listed
J indicates an estimated value
U indicates the analyte was not detected above laboratory MDLs

NOTES:

All values are in mg/Kg.

SCO = Soil Cleanup Objective established in 6 NYCRR Part 375.

NL = Not Listed.

ND = Not Detected.

Yellow Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Unrestricted Use SCO.

Pink Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Residential SCO.

Green Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Restricted Residential SCO.

Blue Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Commercial SCO.

Purple Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Industrial SCO.

Cells outlined in **RED** indicate compound concentrations above 6 NYCRR Part 375 Protection of Groundwater SCO.

NOTES:

All values are in mg/Kg.

SCO = Soil Cleanup Objective established in 6 NYCRR Part 375.

NL = Not Listed.

ND = Not Detected.

Yellow Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Unrestricted Use SCO.

Pink Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Residential SCO.

Green Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Restricted Residential SCO.

Blue Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Commercial SCO.

Purple Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Industrial SCO.

Cells outlined in **RED** indicate compound concentrations above 6 NYCRR Part 375 Protection of Groundwater SCO.

NOTES:

All values are in mg/Kg.

SCO = Soil Cleanup Objective established in 6 NYCRR Part 375.

ND = Not Detected.

Yellow Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Unrestricted Use SCO.

Pink Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Residential SCO.

Green Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Restricted Residential SCO.

Blue Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Commercial SCO.

Purple Highlighted Cells indicate compound concentrations above 6 NYCRR Part 375 Industrial SCO.

Cells outlined in **RED** indicate compound concentrations above 6 NYCRR Part 375 Protection of Groundwater SCO.

ARTICLES OF ORGANIZATION

OF

UR-ban Villages PFA, LLC

Under Section 203 of the Limited Liability Company Law

FIRST: The name of the Limited Liability Company is:

UR-ban Villages PFA, LLC

SECOND: The County within this State in which the office of the Limited Liability Company is to be located is Onondaga County.

THIRD: The Secretary of State is designated as agent of the Limited Liability Company upon whom process against it may be served. The post office address within or without this State to which the Secretary of State shall mail a copy of any process against the Limited Liability Company served upon him or her is:

925 7th North Street
Office
Liverpool, New York 13088

FOURTH: The Articles of Organization shall be effective upon the filing of these Articles of Organization with the Secretary of State of New York.

FIFTH: The Limited Liability Company is to be managed by one or more managers.

SIXTH: The limited liability company's members may be divided into two (2) classes consisting of Voting Members and Non-Voting Members. The relative rights, preferences, and limitations of the Voting Members and the Non-Voting Members are to be the same, except that the Voting Members shall exclusively possess voting power for all purposes, and the Non-Voting Members shall not be entitled to vote on any matter except as otherwise provided for in the Operating Agreement or as required by law.

IN WITNESS WHEREOF, this Certificate has been subscribed this 14th day of October, 2020, by the undersigned who affirms that the statements made herein are true under the penalties of perjury.

UR-Ban Villages PFA, LLC AUTHORIZATION TO COMPLETE REMEDIAL REQUIREMENTS

The undersigned, being all of the members of **UR-Ban Villages PFA, LLC**, a New York limited liability company (the "Company") hereby certify as of 07/08/2021, as follows and adopt the following resolutions and authorize the Company to authorize and direct Vittorio Pascarella (the "Authorized Signatory") to take the following actions on behalf of the Company:

WHEREAS, the Company desires to undertake actions necessary to redevelop 2336-2358 Park Street described as tax parcel ID 001.2-02-23.0 & 100 Buckley Road described as tax parcel ID 086.-01-15.2 (the "Property" or the "Site").

WHEREAS, in connection with the redevelopment of the Property, the Company has or will prepare and submit an application to participate in the New York State Brownfield Cleanup Program ("BCP") and, if accepted into the BCP, enter into a Brownfield Cleanup Agreement ("BCA"); file related documents with the New York State Department of Environmental Conservation ("DEC") to participate in the BCP; and undertake certain environmental remediation work related thereto consistent with applicable laws, regulations and guidance under the BCP (collectively referred to as the "Remedial Program Requirements");

NOW THEREFORE, BE IT

RESOLVED, the Authorized Signatory be, and hereby is, authorized and directed, in the name of and on behalf of the Company, to execute and to deliver all applications, documents and instruments required to effectuate the BCA (including execution of the BCA), and make any filings required to comply with the BCA consistent with the Remedial Program Requirements; and be it further;

RESOLVED, that this Authorization may be signed in any number of counterparts, including but not limited to electronic, and shall become effective as of the date herein below written when each person named below shall have signed a copy hereof; and

RESOLVED, the Authorized Signatory is authorized to bind the Company as an Authorized Signatory for the purposes set forth in this Authorization, the signature set forth opposite his name below is his actual signature:

Authorized Signatory	Title	Signature
Vittorio Pascarella	Member	

IN WITNESS WHEREOF, the undersigned have signed and sealed this Member Consent on 7/8/2021

Nevin
The library would be happy to serve as repository.
Please put my name on any binder or other items that you are sending along, and I will make sure they make it to the proper location.

Subject: Request for Document Repository

Good morning. We are submitting an application under the New York State Brownfield Program for the former Will & Baumer Candle Co. property located at 100 Buckley Road in the Town of Salina. As part of this application, we need to identify a location that will serve as the document repository at which the public may readily access project-related documents produced throughout the project. This would generally involve maintaining a large binder or set of documents throughout the duration of the project, expected to be 1 to 1.5 years.

I am reaching out to your Library to inquire as to whether you may be willing to serve as the document repository for this effort. If so, could you please indicate your assent by replying to this email?

We appreciate your time and consideration.

Please feel free to contact me if there are any questions or concerns.

Thank you,
Nevin

WARRANTY DEED

THIS INDENTURE, made the 21st day of June, 2021.

BETWEEN, **PDM Estates, LLC**
with an office at 925 7th North Street, Syracuse, NY 13088 **Grantor**,

and

R+R → **UR-ban Villages PFA, LLC**,
with an office at 925 7th North Street, Syracuse, NY 13088 **Grantee**.

WITNESSETH, that the Grantor, in consideration of One Dollar ($1.00) lawful money of the United States, and for other good and valuable consideration, paid by the Grantee, does hereby grant and release unto the Grantee, the heirs or successors and assigns of the Grantee forever,

ALL THOSE TRACTS OR PARCELS OF LAND, situate in the Town of Salina and City of Syracuse, County of Onondaga and State of New York, being more particularly set forth and described on Schedule "A" incorporated by references herein.

Subject to easements, covenants and restrictions of record, if any.

Premises Known as: 100 Buckley Road, Liverpool, New York 13088 & 2336-58 Park Street, Syracuse, New York 13208.

THESE being the same properties conveyed by Will & Baumer, Inc. to Syracuse Gateway Holdings, LLC by Warranty Deed dated September 24, 2010 and recorded September 28, 2010 in the Onondaga County Clerk's Office in Book 5140 of Deeds at page 247.

Said properties are also the same as conveyed by Syracuse Gateway Holdings, LLC to PDM Estates, LLC by Warranty Deed dated February 16, 2021 and recorded in the Onondaga County Clerk's Office on April 12, 2021 as Instrument No. 2021-00015508.

PDM Estates, LLC (the Grantor herein) and UR-ban Villages PFA, LLC (the Grantee herein) are both subsidiaries of and controlled by the same member, Pascarella Family Associates, LLC. The $1 million purchase price paid on behalf of PDM Estates, LLC to purchase the above parcels from Syracuse Gateway Holdings, LLC was advanced by UR-ban Villages PFA, LLC. This conveyance is given without additional consideration to modify and/or supplement the prior deed—upon which the name of the Grantee could not be changed to UR-ban Villages PFA, LLC because paperwork necessary to accomplish the modification and amendment of a certain Easement recorded in the Onondaga County Clerk's Office on February 5, 2014 in Book 5269 of Deeds at page 584 had already been drafted showing PDM Estates, LLC as a party and had already been executed by LMRK PropCo LLC, the other party thereto. The resulting First Amendment to Easement and Assignment of Lease Agreement was thereafter recorded in the Onondaga County Clerk's Office on May 7, 2021 as Instrument No. 2021-00019827.

TOGETHER with the appurtenances and all the estate and rights of the Grantor in and to said premises, **TO HAVE AND TO HOLD** the premises herein granted unto the Grantee, the heirs and assigns of the Grantee forever. **AND** said Grantor covenants as follows:
FIRST, That the Grantee shall quietly enjoy the said premises;
SECOND, That the Grantor will forever warrant the title to the said premises;

ELITE ABSTRACT SERVICES, LLC
TITLE FILE # 4051-286926

THIRD, That in compliance with Section 13 of the Lien Law, the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the same for any other purpose.

The words "grantor" and "grantee" shall be construed to read in the plural whenever the sense of this deed so requires.

IN WITNESS WHEREOF, the Grantor has hereunto set his/her/their/its hand(s) and seal(s) the day and year first above written.

THENCE South 20 degrees 05 minutes 22 seconds West for a distance of 300.19 feet continuing along the westerly line of Interstate Route 81 to a point;

THENCE South 27 degrees 51 minutes 43 seconds West for a distance of 320.89 feet continuing along the westerly line of Interstate Route 81 **TO THE POINT AND PLACE OF BEGINNING**.

Said property contains 11.41 acres more or less.

ALSO,

Parcel II: [2336-58 Park Street, Syracuse, NY 13208 – City of Syracuse SBL # 001.2-02-23.0]

ALL THAT TRACT OR PARCEL OF LAND, situate in the City of Syracuse, County of Onondaga and State of New York, bounded and described as follows:

BEGINNING AT A POINT, said point being the intersection of the westerly line of Interstate Route 81 and the northerly line of Park Street.

THENCE North 67 degrees 45 minutes 02 seconds West for a distance of 315.40 feet along the northerly line of Park Street to a point;

THENCE North 54 degrees 30 minutes 36 seconds West for a distance of 119.00 feet continuing along the northerly line of Park Street to the point of intersection with the northeasterly line of Buckley Road;

THENCE North 15 degrees 25 minutes 30 seconds East for a distance of 61.42 feet along the northeasterly line of Buckley Road to a point;

THENCE North 20 degrees 00 minutes 00 seconds West for a distance of 56.34 feet continuing along the northeasterly line of Buckley Road to a point;

THENCE North 26 degrees 45 minutes 00 seconds West for a distance of 247.42 feet continuing along the northeasterly line of Buckley Road to a point;

THENCE North 01degrees 09 minutes 02 seconds West for a distance of 17.16 feet continuing along the northeasterly line of Buckley Road to a point on the northerly line of the City of Syracuse and the southerly line of the Town of Salina;

THENCE South 44 degrees 10 minutes 24 seconds East for a distance of 398.69 feet along the northerly line of the City Syracuse to a point;

THENCE South 58 degrees 08 minutes 30 seconds East for a distance of 265.25 feet continuing along the northerly line of the City Syracuse to a point on the westerly line of Interstate Route 81;

THENCE South 03 degrees 15 minutes 40 seconds East for a distance of 102.78 feet westerly line of Interstate Route 81 to a point;

THENCE South 28 degrees 23 minutes 00 seconds West for a distance of 11.58 feet continuing along the westerly line of Interstate Route 81 **TO THE POINT AND PLACE OF BEGINNING.**

Said property contains 1.63 acres more or less.

A modern perimeter description of both parcels prepared in accordance with a survey map by D. W. Hannig, L.S., P.C. dated May 1, 2020 is as follows:

ALL THAT TRACT OR PARCEL OF LAND, situate in the Town of Salina and City of Syracuse, County of Onondaga and State of New York, being part of Farm Lots 130 and 132 and part of 15 Acre Marsh Lots 14, 15 and 22, bounded and described as follows:

BEGINNING AT A POINT, said point being the intersection of the westerly line of Interstate Route 81 and the northerly line of Park Street.

THENCE North 67 degrees 45 minutes 02 seconds West for a distance of 315.40 feet along the northerly line of Park Street to a point;

THENCE North 54 degrees 30 minutes 36 seconds West for a distance of 119.00 feet continuing along the northerly line of Park Street to the point of intersection with the northeasterly line of Buckley Road;

THENCE North 15 degrees 25 minutes 30 seconds East for a distance of 61.42 feet along the northeasterly line of Buckley Road to a point;

THENCE North 20 degrees 00 minutes 00 seconds West for a distance of 56.34 feet continuing along the northeasterly line of Buckley Road to a point;

THENCE North 26 degrees 45 minutes 00 seconds West for a distance of 247.42 feet continuing along the northeasterly line of Buckley Road to a point;

THENCE North 01degrees 09 minutes 02 seconds West for a distance of 17.16 feet continuing along the northeasterly line of Buckley Road to a point on the northerly line of the City of Syracuse and the southerly line of the Town of Salina;

THENCE North 01 degrees 51 minutes 38 seconds East for a distance of 409.02 feet along the northeasterly line of Buckley Road to a point;

THENCE South 59 degrees 53 minutes 50 seconds East for a distance of 235.97 feet to a point;

THENCE North 29 degrees 32 minutes 00 seconds East for a distance of 350.27 feet to a point;
