BCP ID C828125

Dear Mr. Grossed:

The New York State Department of Environmental Conservation (Department) is in receipt of your application for participation in the Brownfield Cleanup Program (BCP) pursuant to ECL Section 27-1400 et seq. As you know, the BCP is a cooperative approach between the Department and lenders, developers, and current and prospective owners. The program fosters private-sector remediation of brownfields and reduces development pressures on "greenfields." We are pleased to advise you that your application has been determined to be complete.

Pursuant to ECL Section 27-1407(5), a thirty-day public comment period is to be commenced upon the Department's determination that an application is complete. The party seeking to participate in the BCP is required under the BCP to notify in writing the chief executive officer and zoning board of each county, city, town and village in which the proposed brownfield site is located, as well as residents of the site, the public water supplier which services the area, any person who has requested to be placed on the brownfield site contact list, and the administrator of any school or day care facility located adjacent to or near the site. Further, the Department will publish a similar notice in the Environmental Notice Bulletin.

In order to facilitate the notifications, the Department has prepared the enclosed Public Notice for you to utilize and the instructions for placing and mailing the notifications as well as the document repository location and contents. As the applicant you are responsible for making available a copy of the application and copies of all other related attached documents such as any assessment and investigation reports and/or investigation or remedial work plans. Also, you must use this Department-approved Public Notice form and cannot provide any other or additional information when fulfilling your obligation to provide notice of the application and comment period. The enclosed form should be provided to a local newspaper servicing the area including the brownfield site for publication no later than August 4, 2004. Additionally, all of the above-mentioned mailings should be completed no later than August 3, 2004. To the extent that the mailings and publications are not completed in accordance

with these time frames, the Department will extend the comment period for a period sufficient to comply with the required thirty-day notice requirement running from the latest of the mailings or publication.

A certificate of mailing, on the enclosed form, is required to be submitted within three days of the mailing. Further, the proof of publication provided by the newspaper must be submitted within three days of your receipt of such document. These documents should be submitted to the Department's project manager at:

New York State Department of Environmental Conservation
Region 8 Office
6274 E. Avon-Lima Road
Avon, New York 14414
ATTN: Mr. Kelly Cloyd

The Department will make every effort to determine your eligibility and status under the BCP by September 11, 2004. We look forward to working cooperatively with you to address the environmental conditions at the brownfield site and to return this property back to productive use.

Sincerely,

Kelly A. Lewandowski, P.E.

Instructions to Applicant Regarding Placing and Mailing of Notification Regarding Completeness Determination

- 1) The enclosed notice must be provided, without modification, by the applicant to a local newspaper of general circulation servicing the area including the brownfield site for publication no later than the date specified in the cover letter. The notice must be located prominently in the community bulletin section or similar local section of the newspaper. The notice must be published in English and in any other language spoken by significant numbers of people within the community.
- 2) The enclosed notice must be mailed, without modification, by the applicant to the brownfield site contact list as identified in the applicant's application. The mailing must be performed by the date specified in the cover letter. No other materials can be mailed with this notice.
- 3) The applicant must complete and submit to the Department the attached certificate of mailing within the time frame specified in the cover letter.
- 4) The applicant must forward to the Department proof of publication by the newspaper of the newspaper notice within the time frame specified in the cover letter.
- 5) The applicant must make available a copy of the application and all other related documents (i.e., Phase Assessment Reports, Remedial Investigation Work Plans and Reports and Remedial Design Work Plans) at the document repository specified in the public notice.

Instructions to Newspapers Regarding Printing the Public Notice

The enclosed notice announces the receipt of an application by the New York State Department of Environmental Conservation to the Department's Brownfield Cleanup Program. Pursuant to ECL Section 27-1407(5), the notice must be located prominently in the community bulletin section or similar local section of the newspaper. The notice must be published in English and in any other language spoken by significant numbers of people within the community.

Instructions to Individuals Receiving the Public Notice

The enclosed notice announces the receipt of an application by the New York State Department of Environmental Conservation to the Department's Brownfield Cleanup Program (BCP). Pursuant to ECL Section 27-1407(5), upon the Department's determination that a BCP application is complete, the applicant must send notice of the application to individuals on a site contact list. Please read the enclosed notice for further information and instructions.

City of Rochester , Monroe County
State of New York

NOTICE **Pursuant to ECL 27-1407 and 1417**

The New York State Department of Environmental Conservation (Department) administers the Brownfield Cleanup Program pursuant to ECL 27-1400 et seq. The Brownfield Cleanup Program is designed to encourage the remediation of contaminated properties known as brownfields for reuse and redevelopment. Hamilton LLC and Erie Harbor, LLC have submitted two applications to participate in the Brownfield Cleanup Program. The applications were determined to be complete by the Department on July 27, 2004. The property described in the application is comprised of two sites to be subdivided into two separate parcels and are located at 185 Mt. Hope Avenue and 225-405 Mt. Hope Avenue. The application proposes that the applicant will conduct investigation and/or remedial activities at the site. The application proposes that the site will be used for residential purposes.

The Department will receive public comments concerning the application for thirty days from August 4, 2004 through September 3, 2004. After review of the application and any public comments received, the Department will determine whether to accept the Applicant's request to participate in the Brownfield Cleanup Program. If the Department accepts the Applicant's request to participate, it will execute a Brownfield Cleanup Agreement (BCA) with the Applicant. By executing a BCA, the Applicant would commit to undertake certain remedial activities under the Department's oversight. A copy of the application as well as copies of Phase I and Phase II Environmental Assessment Reports are available in the document repository for the site located at the Rochester Public Library, 115 Court Street, Rochester, NY 14604.

The referenced documents are draft and have not been reviewed by the Department staff prior to their release for public comment. The Department, in conjunction with the New York State Department of Health will review these documents during the public comment period.

All citizens are encouraged to offer comments in writing to and refer questions to:

Re: Brownfield Cleanup Program
205-425 Mt. Hope Avenue, Rochester, NY

Dear Mr. Desnoyers:

The proposal by Conifer Realty to redevelop the site at the referenced address has full support of the City of Rochester. The development currently exists as a pre-existing nonconforming use in the zoning district and can legally continue in that use unless it is substantially destroyed. The City is in full support of this rehabilitation proposal.

It is the intent of Conifer and the City to rezone this area, including the subject property, thereby allowing the redevelopment to occur.

Please feel free to contact me if you have any questions or concerns about the proposal.

Sincerely,

Larry O. Stid
Deputy Commissioner

Brownfield Cleanup Program Application Support Information Erie Harbor LLC 225-405 Mt. Hope Avenue

Project Description

Item 1: Purpose and Scope of the Project

The "Site" is known as 225-405 Mt. Hope Avenue. It is the southerly portion of a parcel of a 7.15 acre parcel of land located at 185-405 Mt Hope Avenue, the "Parcel". The Site was developed as five 4-story apartment buildings in 1975. The units are two, three and four bedroom units. Over thirty years the condition of the units has deteriorated and the number of vacancies has increased.

A Phase 1 Environmental Assessment ("EA") report by Day Environmental, Inc. dated October 2000 included the Parcel of land, which the Site is part of, and some contiguous properties owned by the City of Rochester. Some of the previous uses identified in the EA may have taken place on the Site. They include residential, warehouse, canal use, a workshop, auto repair, car sales, a wagon shop, iron cutting, a brick storage yard, a tannery, a coal yard, and railyards. An adjoining parcel of land south of the Site, currently owned by the City of Rochester, had formerly been occupied by a gas station. A Phase 2 report by Day Environmental, Inc. on the Site indicates a petroleum spill associated with this gas station has affected the southern portion of the Site. In addition, it is possible that gasoline tanks associated with this gas station may have been located on the Site. The City of Rochester is scheduled to remediate the former gas station parcels in 2005/2006. Testing at other locations on the site indicate the need for additional investigation.

It has been determined that the design and condition of the existing buildings has made them obsolete. Plans call for the assisted relocation of existing tenants to suitable replacement dwellings and demolition of the existing structures. It is the intention to redevelop the site as multi-family residential rental units in a manner consistent with the City of Rochester Comprehensive Plan. This would include enhanced access to the Genesee River. In order to complete the Site redevelopment, investigation of contamination should be performed and remediation executed, if necessary.

Note: Contradictory municipal records assign the number 425 to both the city owned property south of the Site and to a portion of the Site. This discrepancy has been repeated in some of the previously conducted investigative reports. For clarity and the purpose of this application all new references to addresses will be:

**225-405 Mt Hope Avenue, the Site, AKA the southern portion of the Parcel
185-405 Mt. Hope Avenue, the Parcel**

185 Mount Hope Avenue, the northern portion of the Parcel
425 Mt. Hope Avenue, the city owned lot located south of the Parcel

Preexisting references of addresses identified in previously conducted investigative reports will not be changed.

Item 3: Environmental Data

A Phase I Environmental Site Assessment (Phase I ESA) report dated October 24, 2000 was prepared by Day Environmental, Inc. (DAY). A copy of this report is included with the application. The Phase I ESA covered property addressed as 151 to 435 Mt. Hope Avenue and 562 Ford Street, Rochester, New York, which includes the Site that is known as 225-405 Mt. Hope Avenue. The Phase I ESA identified asbestos and historical uses of the Site and adjoining properties as environmental concerns.

A Phase II Environmental Study Data Package dated October 2000 (Phase II) was prepared by DAY. A copy of this report is included with the application. The Phase II covered property addressed as 151 to 435 Mt. Hope Avenue and 562 Ford Street, Rochester, New York, which includes the Site that is known as 225-405 Mt. Hope Avenue. The Phase II identified petroleum and metals contamination in subsurface soil and groundwater on the Site. As a result, the New York State Department of Environmental Conservation (NYSDEC) assigned a spill number to property addressed

as 185-425 Mt. Hope Avenue, which includes the Site (NYSDEC Spill #0070556). Petroleum contamination was also encountered on properties to the north and south, which are to be addressed by the City of Rochester under a separate NYSDEC Spill file (i.e., NYSDEC Spills #0070377 and #0070378, respectively).

URS Corporation (URS) prepared a Phase II report dated June 2003. The Phase II covered property addressed as 185 to 425 Mt. Hope Avenue, Rochester, New York, which includes the Site that is known as 225-405 Mt. Hope Avenue. The scope of work included the installation of two groundwater monitoring wells on the Site. Analytical laboratory test results for soil and groundwater samples from one of the two new well locations exhibited petroleum-related contaminant concentrations that exceed regulatory cleanup criteria. This supplemental data is useful in delineating the extent of petroleum contamination in the southern portion of the Site.

A recent review of Sanborn Maps suggests up to three buried gas tanks may be present on the Site (refer to the 1938, 1950, and 1971 Sanborn Maps included in Appendix C of the Phase I ESA report). The studies provided above did not evaluate the presence or absence of these tanks.

Item 4: Owners and operators

The subject property is currently owned by Genesee Gateway Houses, Inc.

The following information concerning historic owners or operators at the Site were referenced from the Phase I ESA report dated October 24, 2000:

Deed Information (Applies to entire parcel including the Site)

According to the deed information reviewed for the Site (addressed as 205-425 Mt. Hope Avenue), potential past commercial/corporate owners included: the Lehigh Valley Railway Company; the State of New York; the Rochester and Honeoye Valley Railroad Company; the Riverside Rowing Club; the Lorensop Corporation; the Moldun Corporation; Davis Warehouse, Inc. (NY State Corporation); the Rochester Urban Renewal Agency; the New York State Urban Development Corporation; and Genesee Gateway Houses, Inc. At the time of the Phase I ESA report, the Site (i.e., 205-425 Mt. Hope Avenue) was owned by Genesee Gateway Houses, Inc. Additional commercial/corporate owners and/or lessees of 205-425 Mt. Hope Avenue include the Silver Lake Ice Company and the Warren Scharf Asphalt Paving Company in December 1890.

In addition, the deed information for the portion of the Site and adjoining property to the north (addressed as 185-405 Mt. Hope Ave.) indicate that various easements, including easements for sanitary sewer lines, were granted from at least 1918 through at least 1919.

Polk Directories (Applies to Site only)

A review of City of Rochester Polk Directories between 1935 and 2000 results in the following listings with addresses between 205-425 Mt. Hope Avenue:

209 Mt. Hope Ave	1935; 1935-65	Vacant; Warehouse.
221 Mt. Hope Ave	1935; 1935-56	Rochester Materials Corp; Vacant.
225 Mt. Hope Ave	1935-60; 1960-65; 1965-81	Rochester Grocery Co., Inc., Rochester Grocers Co-Operative, Inc.; Vacant; Ontario Builders Supply Co, Inc.
227 Mt. Hope Ave	1946-65	William Brown Company, Inc. (junk yard and scrap iron) William Brown Metals, Inc.
393 Mt. Hope Ave	1935-46; 1946-65; 1971-81	Union Coal Co.; Fire-King Fuel Corp.; Weckesser Buick Co.; Lehigh Fuel Service, Vacant.
399 Mt. Hope Ave	1951-60; 1960-81	Fire King Fuel Corp.; Campbell Elevator Co.
407 Mt. Hope Ave	1935-56; 1956-60; 1960-81	Genesee Station, Inc. (gasoline station); Yates Amoco; Ames Motors; Ames Amoco Sevice.
411 Mt. Hope Ave	1935-46; 1946-51; 1951- 60; 1960-71; 1971-81	Whiting Buick, Inc.; Vacant; Yates Motors; University Motors; Ames Motors (Used Cars).
205-425 Mt. Hope Ave	1981-91	River Park Commons Apartments.

As identified in the Phase I ESA, street addresses have changed with time, and some of the old Polk Directory listings for addresses such as 407 and 411 Mt. Hope Ave. appear to actually have been located south of the Site.

Plat Books (Applies to Site only)

A review of a 1910 City of Rochester Plat Book indicates the following owners, occupants or uses at or adjoining the Site: Lehigh Valley Railroad; and unnamed residential dwellings along Mt. Hope Avenue.

A review of a 1926 City of Rochester Plat Book indicates the following owners, occupants or uses at or adjoining the Site: Lehigh Valley Railroad; Carey Company; Rochester Grocery Company; and Concrete Material Corporation.

Sanborn Maps (Applies to Site only)

A review of the 1892 Sanborn Map indicates the following owners, occupants or uses at or adjoining the Site: An old vacant tannery, canal feeder, and unnamed residential dwellings.

A review of the 1912 Sanborn Map indicates the following owners, occupants or uses at or adjoining the Site: Lehigh Valley Railroad, and unnamed residential dwellings along Mt. Hope Avenue.

A review of a 1938, 1951 and 1971 Sanborn maps indicates the following owners, occupants or uses at or adjoining the Site: Lehigh Valley Railroad, a roofing warehouse, a coal yard, auto repair, iron cutting, a grocery, a scrap iron yard, brick storage yard, and possibly portions of a gasoline station with potential gas tanks.

Item 6: Land Use Factors

2. Is the proposed use consistent with applicable zoning laws/maps?

The proposed use is consistent with City Master Plans. A new zoning code was adopted by the City of Rochester effective January 1, 2003 resulting in new classifications and map changes throughout the City. The site was among others erroneously mapped. The City of Rochester has advised the applicant that a residential zoning classification correction is planned and that the current residential use is grandfathered and permissible. "See attached letter from City of Rochester"

4. Is the proposed use consistent with applicable comprehensive community master plans, local waterfront revitalization plans, other adopted land use plans?

Yes, the proposed development is consistent with the Renaissance 2010 Campaign Comprehensive Plan of the City of Rochester. This document highlights the importance of riverfront development and connectivity to Downtown.

5. Are there any federal or state land use designations relating to this site?

Not at this time. However, an application is pending for the site to be included in a Local Waterfront Revitalization Plan. This is a State designation. The proposed use is consistent with that plan.

13. Describe on attachment the proximity to real property currently used for residential use, and to urban, commercial, industrial, agricultural, and recreational areas.

The Site is a part of a 7.15 acre Parcel that is multi-family residential. West of the Site there is city-owned public parkland which is part of a linear park running alongside the Genesee River. North and South of the Parcel are public parklands, associated with the linear park described earlier. East of the site along Mt. Hope there is a mix of commercial, light industrial and retail uses. The streets across the street from Riverpark Commons are low density residential, with a mix of residential frame dwellings.

14. Describe on attachment the potential vulnerability of groundwater to contamination that might migrate from the site, including proximity to wellhead protection and groundwater recharge areas.

Environmental studies performed at the Site have identified petroleum contamination in groundwater. Contaminated groundwater at the Site has the potential to migrate off-site; however, there are no potable groundwater wells, process groundwater wells or groundwater recharge areas in proximity to the Site. Information obtained to date

suggests groundwater at the Site flows eastward (i.e., away from the nearby Genesee River located west of the Site).

15. Describe on attachment the geography and geology of the site.

The Site is located in a mixed-use urban area of the City of Rochester, County of Monroe, New York. The Site and surrounding area are relatively level. There are no surface water bodies on the Site; however, the Genesee River is located less than 0.1 mile west of the Site. Based upon previous environmental studies, groundwater in the area of the Site appears to flow eastward in the direction of Mt. Hope Avenue. It is possible that this flow direction may be modified locally due to buried utilities, seasonal conditions or other factors. Fill material consisting of silt, sand, gravel, clay, brick, ash, cinders and wood has been documented at the Site from the ground surface to depths ranging from approximately 3.5 feet to 14.0 feet below ground surface during previous environmental studies. Native soils on the property consist primarily of sand with lesser amounts of silt, gravel and rock fragments.
