RE: **July through September 2021 Quarterly Progress Report**  
**Index # B8-0735-07-01**  
**DuPont Rochester Driving Park Site (#C828142)**

Dear Mr. Caffoe:

On behalf of Corteva Agriscience (formerly DuPont), Parsons is pleased to provide this quarterly progress report summarizing project activities for July through September 2021 pursuant to the requirements of the Brownfield Site Cleanup Agreement for the 666 Driving Park Site located in the City of Rochester, NY.

Site inspections, as requested by New York State Department of Environmental Conservation (NYSDEC), began on June 2, 2008 and continue to be conducted weekly on behalf of Corteva to assess site conditions and maintain the site as needed. Reports from the 13 weekly inspections completed during July, August, and September 2021 are attached. Site security measures continue to remain intact.

Contact me at (315) 552-9717 or Nancy Grosso of Corteva at (302) 485-3015 with any questions.

Sincerely,

Attachment: Site Inspection Reports (13)
