RE: **July through September 2025 Quarterly Progress Report**
Index # B8-0735-07-01
DuPont Rochester Driving Park Site (#C828142)

Dear Mr. Ramsey:

On behalf of Corteva Agriscience (formerly known as E.I. DuPont de Nemours and Company), Parsons is pleased to provide this quarterly progress report summarizing project activities for July through September 2025 pursuant to the requirements of the Brownfield Site Cleanup Agreement for the 666 Driving Park Site located in the City of Rochester, NY.

Weekly site inspections, as requested by New York State Department of Environmental Conservation (NYSDEC), began on June 2, 2008 to assess site conditions and maintain the site as needed. On December 7, 2023, NYSDEC approved reducing the monitoring frequency from weekly to monthly inspections. Reports from the three inspections completed in July, August and September are attached. No security issues or maintenance needs were identified in the third quarter. A Remedial Action Work Plan (RAWP) was submitted to NYSDEC on May 29, 2025 and is currently under review.

Please contact me at (513) 317-2984 or Doug Fletcher of Corteva at (980) 262-4443 with any questions.

Sincerely,

Karen Fields
