The New York State Department of Environmental Conservation (NYSDEC) administers the Brownfield Cleanup Program (BCP) pursuant to State Environmental Conservation Law (ECL) 27-1400 et seq. The BCP was created to encourage the remediation and redevelopment of contaminated properties known as brownfields. The requestor indicated above has submitted a BCP application for investigation and remediation of the site indicated above.

NYSDEC will accept public comments concerning the application. A copy of the application and other appropriate documents (application package) is available in the site document repository located at the address indicated below. The documents which are part of the application are the draft Brownfield Application, the draft Subsurface Site Investigation Report and the draft Interim Remedial Measures Work Plan.

NYSDEC will review the application package and public comments received and then make a determination on the eligibility of the application.
