WHEREAS, the ILDC, in accordance with Article 8 of the New York Environmental Conservation Law and the regulations promulgated thereto in 6 N.Y.C.R.R. Part 617 (collectively referred to as the "State Environmental Quality Review Act" and/or "SEQR") has determined that the Project is classified as "Type 1 Action" as defined by SEQR for which coordinated review is required, and undertook coordinated review with respect to the Project, and

WHEREAS, to properly undertake the Project, it will be necessary for the ILDC to enter into certain Brownfield Site Cleanup Agreements (the "BCP Agreements") affecting the entirety of the Real Property to ensure that the ILDC can obtain the benefits of the New York State Brownfield Cleanup Program; and

WHEREAS, upon taking title to the Real Property, the ILDC, as a condition of the Real Property transfer, will enter into a temporary license agreement with Tecumseh to continue to permit Tecumseh to access private infrastructure improvements existing on the Real Property that benefit adjacent property owners, said license agreement to

terminate upon the completion of construction work to be undertaken by Erie County to remove, relocate, and construct rail track and related utilities and infrastructure adjacent to and within the Real Property.

NOW, THEREFORE, BE IT RESOLVED BY THE BUFFALO AND ERIE COUNTY INDUSTRIAL LAND DEVELOPMENT CORPORATION AS FOLLOWS:

Section 1. Based upon a review of the Project and the Full Environmental Assessment Form (the "EAF") prepared for the Project, the ILDC hereby:

Exhibit C

Brownfield Cleanup Program

Application to Amend Brownfield Cleanup Agreement and Amendment

Section IV. Eligibility Information for New Requestor

Volunteer Certification: The Buffalo and Erie County Industrial Land Development Corporation (the "New Requestor") has appropriately answered "no" to all the eligibility questions within this section, and hereby certifies that it is a volunteer and that its liability arises solely as a result of ownership, current operation of and involvement with the site subsequent to the disposal of hazardous waste or discharge of petroleum.

New Requestor has and had no current or prior direct or indirect ownership interest or any other interest in any prior owner or operator of the property. New Requestor acquired its fee title interest in the property on July 25, 2017. The property was purchased from Tecumseh Redevelopment, Inc. ("Tecumseh"), and Tecumseh is currently a volunteer with respect to the Brownfield Cleanup Agreement affecting the property that is the subject of this Application to Amend Brownfield Cleanup Agreement and Amendment.

Tecumseh has, prior to New Requestor obtaining title to the property, and at the insistence of New Requestor as a condition of taking title to the property, undertaken certain remedial activities on the property, and also, prior to taking title to the property, the New Requestor secured a letter from the New York State Department of Environmental Conservation, dated June 28, 2017 (as attached hereto) confirming that all interim remedial measures required by the Decision Documents for the property have been completed and also confirming that placement of the cover system, as described in the related Site Management Plan for the property, as amended, is the only remaining action required to be undertaken for the property to obtain a Certificate of Completion ("COC"). Since taking title, New Requestor has not undertaken any activity on the property resulting in soil disturbance or otherwise undertaken any activity affecting the soil or groundwater, has taken appropriate care to ensure that there are not continuing releases of contamination on the property, that there are no threatened future releases of contamination on the property, and has prevented human, environmental, or natural resource exposure to any previously released contamination. New Requestor, since taking title to the property, anticipates undertaking a master planning process with respect to the property and adjacent real property that will culminate in the completed remediation of the site and ultimate issuance of a COC.

As such, New Requestor confirms that its liability arises solely as a result of ownership, current operation of and involvement with the site subsequent to the disposal of hazardous waste or discharge of petroleum, and affirms and confirms that New Requestor should be considered a "volunteer" as that term is defined under Section 27-1405(1)(b) of the New York Environmental Conservation Law.
