

October 5, 2012

Mr. Eugene W. Melnyk, P.E.
Project Manager
New York State Department of Environmental Conservation
Division of Environmental Remediation, Region 9
270 Michigan Avenue
Buffalo, NY 14203-2915

Re: BCP #C915208
275 Franklin Street Site
Buffalo, Erie Co., New York

Dear Mr. Melnyk:

We have prepared this letter to inform you that Buffalo Development Corporation (BDC) intends to implement the planned additional Interim Remedial Measures (IRM) at the referenced Site starting on Tuesday, October 9, 2012. As we have previously discussed, BDC has agreed to complete two additional injection points to the east along Asbury Alley and two additional injection points to the north along Franklin Street. A revised figure is attached for your reference.

Three consecutive post-injection groundwater sampling events are planned for December 2012, February 2013 and April 2013.

We respectfully request your approval to proceed. Please contact us if you have any questions.

Sincerely,
Benchmark Environmental Engineering & Science, PLLC

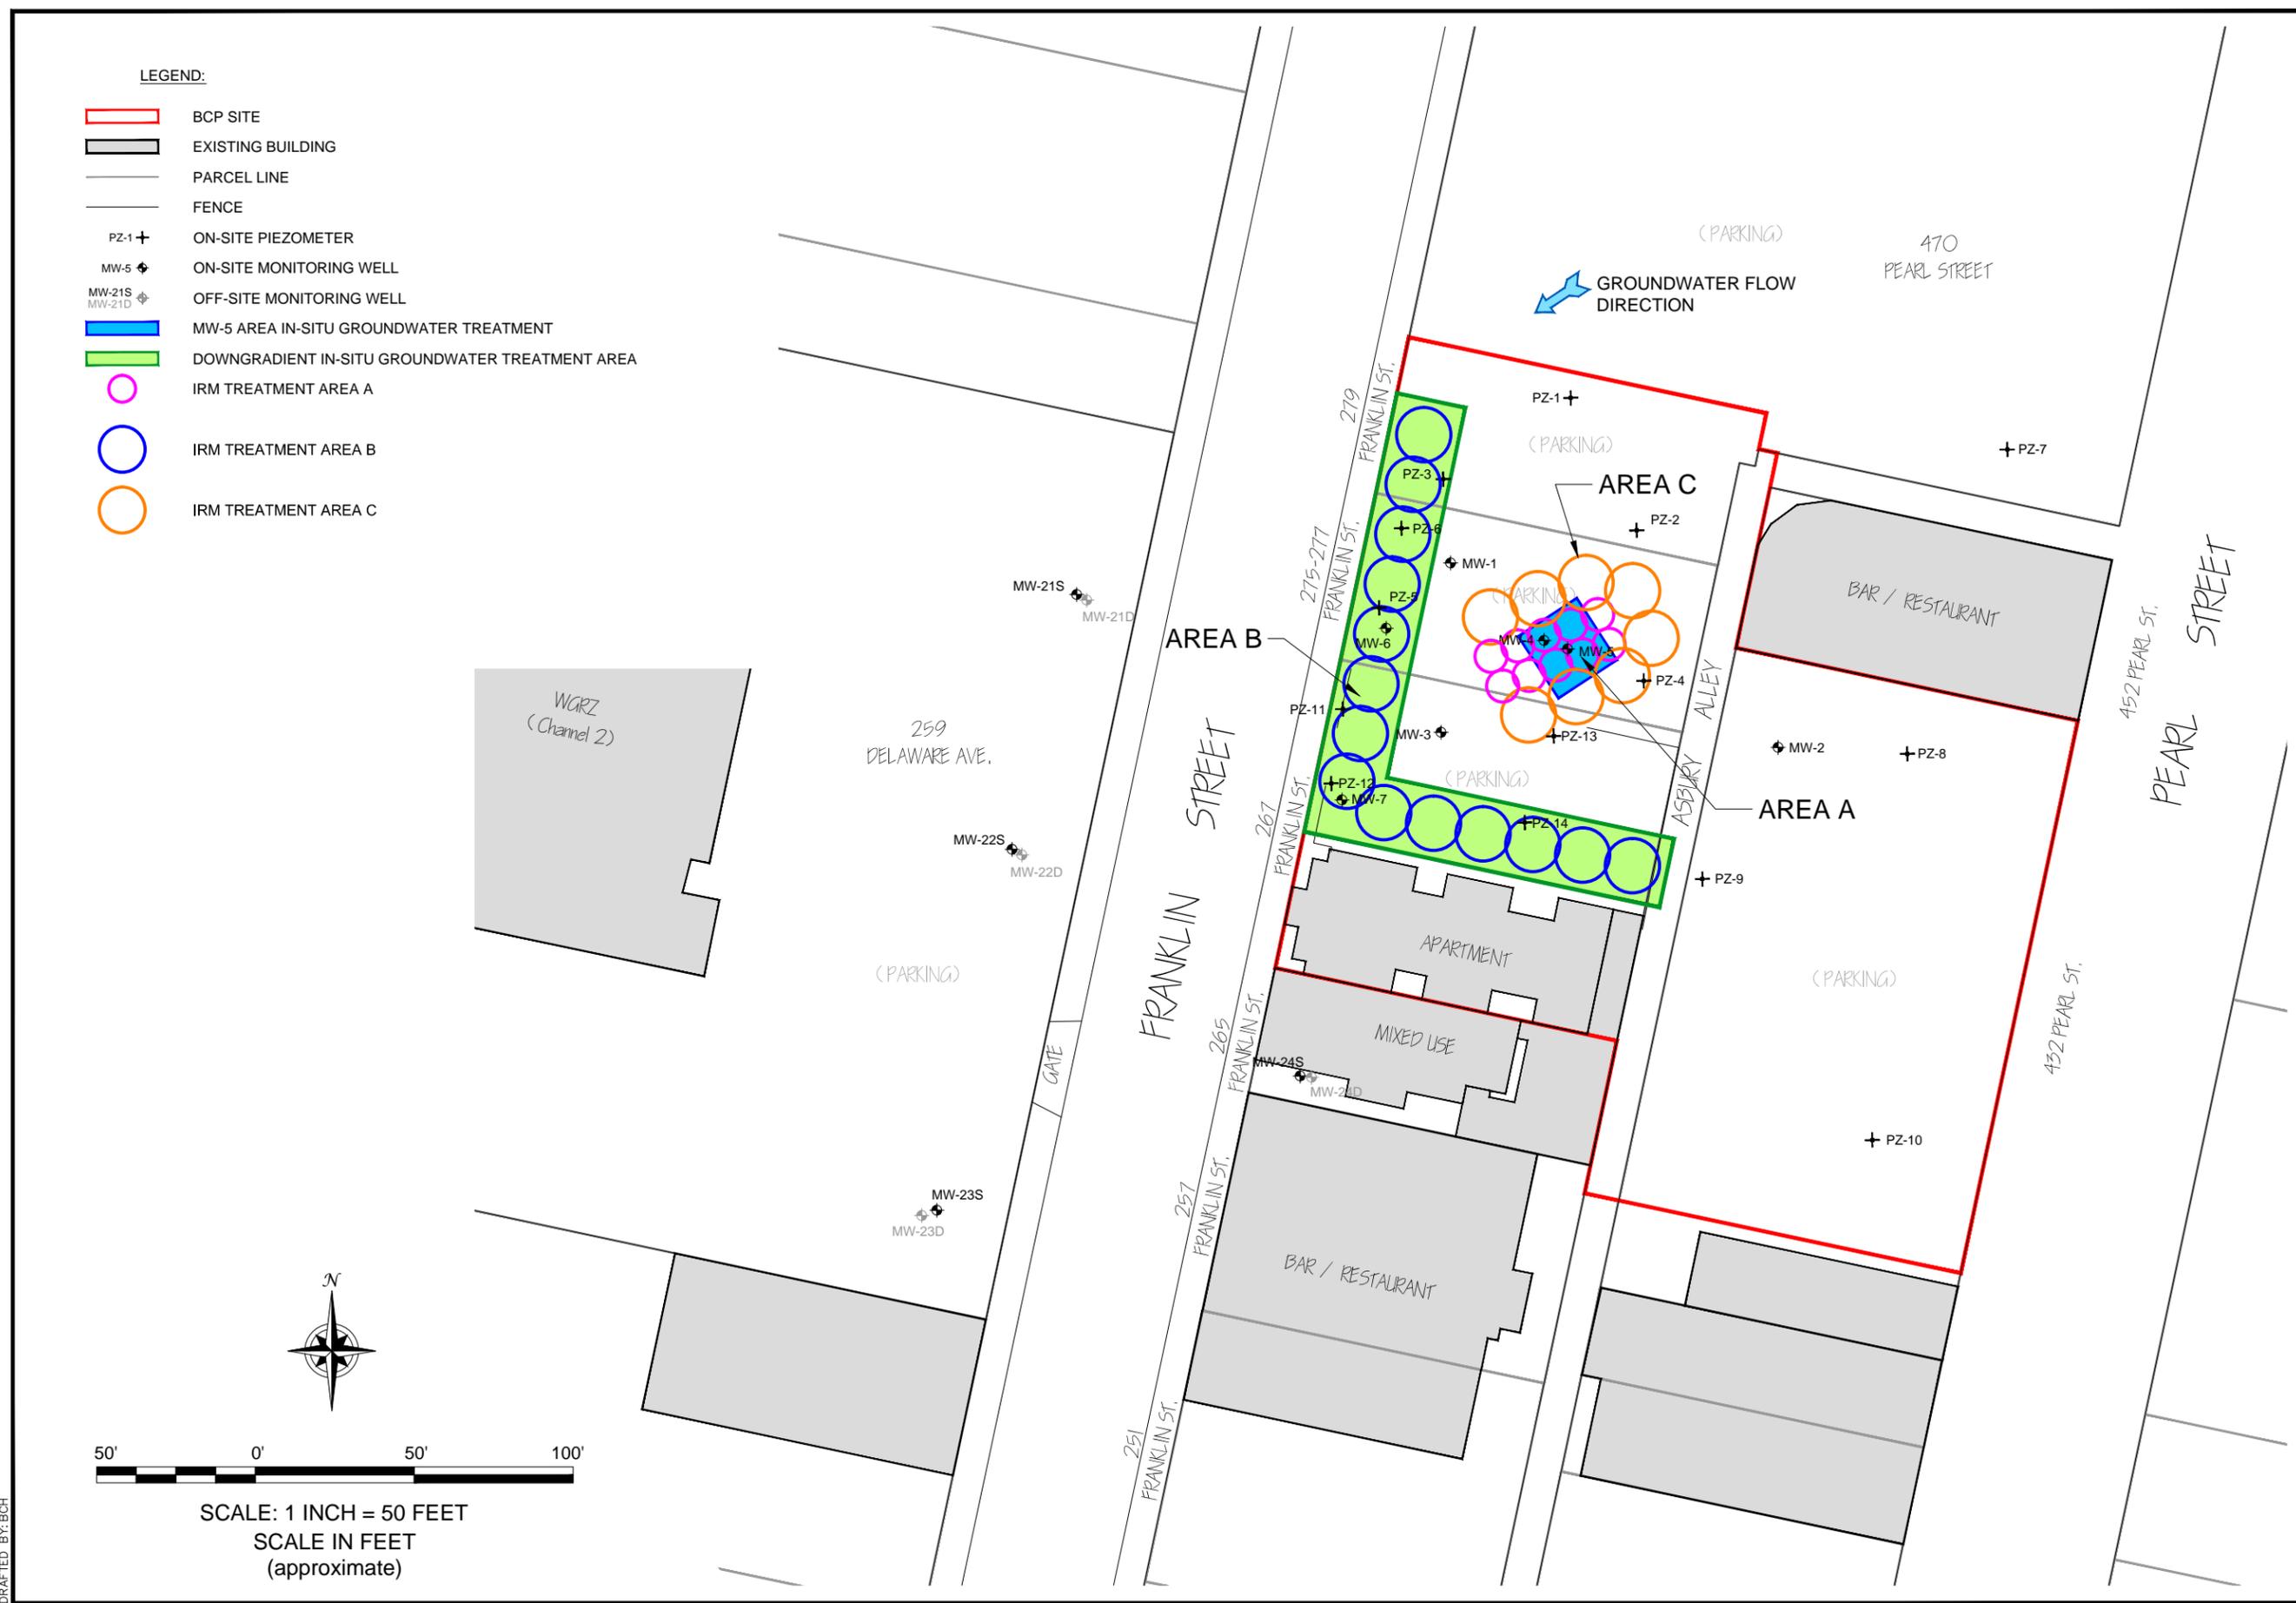

Michael A. Lesakowski
Project Manager
