June 26, 2006

Mr. Scott Clary, President
Horizon Environmental Services, Inc.
590A Callery Road
Cranberry Township, Pennsylvania 16066

Re: Shenango Steel Mold Site Remedial Action Project - NYSDEC Site No. 9-15-172,
Contract No. D005660, Change Order (CO) #1

Dear Mr. Clary:

Enclosed are six (6) copies of Change Order (CO) #1 and backup documentation signed by Ecology and Environment Engineering, P.C. (EEEEPC) for the Shenango Steel Mold Remedial Action Project. The change order consists of the details of negotiated potential change orders (PCOs), over and under bid quantities from the final evaluation bid quantities delivered to the project, and reimbursement of engineer's cost from the delays in substantial completion.

The change order needs to be signed, notarized, and returned to Mr. Dave Chiusano, Project Manager at NYSDEC for final execution and processing. Once the CO is approved, a Contractor's Application for Payment (CAP) will be processed less the required contract 5% retention. All waivers of liens for subcontractors involved with the project must be submitted. In 30 days the final CAP for the release of retention can be submitted to EEEPC for final processing.

If you have any questions regarding the change order, please contact Mr. Dave Chiusano at 518-402-9814.

Very truly yours,
Ecology and Environment Engineering, P. C.

Michael G. Steffan
Project Manager

Cc: D. Chiusano, NYSDEC – Albany Office
D. Miller, EEEPC – Buffalo
J. Kohler – EEEPC – Buffalo
CTF – 002700.DC03.01

Shenango Steel Mold Site Remedial Action
State Contract No. D005660
Site No. 9-15-172

Change Order No. 1

Change Order Amount Increase: \$330,469.50

Date of Issue: June 15, 2006

Contractor: Horizon Environmental Services, Inc.
590A Callery Road
Cranberry Twp., PA 16066

Engineer: Ecology and Environment Engineering, P.C.(EEEPC)
368 Pleasant View Drive
Lancaster, New York 14086

Department: New York State Department of Environmental Conservation
Division of Environmental Remediation
Remedial Bureau E
625 Broadway, 12 th Floor
Albany, New York 12233-7017

Change Order Items: This Change Order comprises fourteen (14) items as discussed below:

I. CHANGE ORDER ITEMS:

A. Site Services

Description of Change: This item is associated with an increase of \$500 to the Contract Price for the cost of 5 additional days of site services. The contractor mobilized and activated site services within three days of Notice to Proceed and closed field services two days prior to substantial completion.

Drawing Reference: None

Specification Reference: 01040 - Coordination, 01050 - Surveys, 01200 - Fencing, 01520 - Temporary Facilities and Controls, 01540 - Security, 01560 - Erosion and Surface Water Controls, 01580 - Project Sign, 01591 - Engineer's Field Office, 02221 - Pipe Plug

Contract Pay Items: Increase: Pay Item 2: Site Services.

Reason for Change: This item is for 5 additional days in the performance of site services in 2006. This increases the initial contract amount from \$5,000 to \$5,500.

Cost: The cost of this item is a \$500 increase in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Increase Pay Item 2: Site Services @ \$100 per day for 55 days = \$5,500.

Time: 0 calendar days.

B. Payment Item 3 - Health and Safety

Description of Change: This item is associated with a decrease to the Contract Price of (\$562.50) for the cost of 7.5 less days for health and safety services. The field work was completed by the Contractor ahead of schedule.

Drawing Reference: None

Specification Reference: 00003 - Minimum Requirements For Health and Safety, 01100 - Decontamination Station and 01425 - Sampling

Contract Pay Items: Decrease: Pay Item 3 - Health and Safety.

Reason for Change: This item is for 7.5 less days in the performance of Health and Safety services in 2006. This decreases the initial contract amount from \$3,375 to \$2,812.50.

Cost: The cost of this item is a (\$562.50) decrease in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Decrease Pay Item 3: Health and Safety @ \$75 per day for 7.5 days = (\$562.50)

Time: 0 calendar days.

C. Excavation and Off-site Disposal of Hazardous Soils and Wastes

Description of Change: This item is associated with a decrease to the Contract Price of (\$51,250) for the cost of 500 tons of additional PCB soils that did not require excavation and disposal as originally specified.

Drawing Reference: Sheets -001 and 002

Specification Reference: 02140 - Dewatering, , 02150 - Demolition, 02220 - Excavation, and 02223 - Transportation and Disposal

Contract Pay Items: Decrease: Pay Item 4A: Excavation and Disposal of Hazardous Materials

Reason for Change: This item is for the decrease in the quantity of hazardous soils and wastes specified to be excavated and disposed of at the project site. Based on analytical characterization of the proposed hazardous soils conducted by the Contractor after award of the contract, it was determined that the soils could be classified as non-hazardous, solid wastes. This decreases the initial contract amount from \$51,250 to \$0.

Cost: The cost of this item is a (\$51,250) decrease in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Decrease Pay Item 4A: Excavation and Disposal of Hazardous Soils and Wastes @ \$102.50 per ton for 500 tons = (\$51,250).

Time: 0 calendar days.

D. Excavation and Off-site Disposal of Non-Hazardous Soils and Wastes

Description of Change: This item is associated with an increase to the Contract Price of \$318,391.50 for the cost of 5181.31 tons of additional non-hazardous soils and wastes that required excavation and disposal at a Part 360 permitted landfill.

Drawing Reference: Sheets 001, 002, and 003

Specification Reference: 02140 - Dewatering, , 02150 - Demolition, 02220 - Excavation, and 02223 - Transportation and Disposal

Contract Pay Items: Increase: Pay Item 4B: Excavation and Disposal of Non-Hazardous Soils and Wastes

Reason for Change: This item is for the additional quantity of non-hazardous soils and wastes required to be excavated and disposed of at the project site. The additional quantity required was based on analytical and the Engineer's visual clearance inspection criteria followed in the Supplementary Specifications - Section 02220, Figure 02220-1. As a part of the clearance criteria in the scope of work for the project, additional soils exceeded the regulatory and visual clearance limits requiring these soils to be disposed as non-hazardous soils and wastes. The additional excavation work was completed within the contract time for substantial completion. This increases the initial contract item amount from \$353,337.50 to \$671,729.

Cost: The cost of this item is a \$318,391.50 increase in the Contract Price and is calculated from the original unit price by the Contractor. A copy of the Contractor's approval for the extension of additional quantities at the original contracted unit price is provided as *Attachment A*.

Unit Quantity Increase for Pay Item 4B: Excavation and Disposal of

Non-Hazardous Soils and Wastes @ \$61.45 per ton for 5,181.31 tons =
\$318,391.50.

Time: 0 calendar days.

E. Excavation and off-site disposal of Non-Hazardous Concrete

Description of Change: This item is associated with a decrease to the Contract Price of (\$7,325.36) for the cost of 523.24 tons of non-hazardous concrete that did not require excavation and disposal.

Drawing Reference: Sheet 003

Specification Reference: 02150 - Demolition, 02220 - Excavation, and 02223 - Transportation and Disposal

Contract Pay Items: Decrease: Pay Item 5: Excavation and off-site disposal of Non-Hazardous Concrete

Reason for Change: This item is for the decrease in the quantity of non-hazardous concrete required to be excavated and disposed of at the project site. This decreases the initial contract amount from \$7,490 to \$164.64.

Cost: The cost of this item is a (\$7,325.36) decrease in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Decrease Pay Item 5: Excavation and Disposal of Non-Hazardous Concrete @ \$14 per ton for 523.24 tons = **(\$7,325.36).**

Time: 0 calendar days.

F. Site Restoration - Clean Offsite Backfill of Excavated Areas

Description of Change: This item is associated an increase to the Contract Price of \$62,738 for the cost of 2,413 cubic yards of additional backfill that was required to fill the waste excavations

Drawing Reference: Sheet 001, 002, and 003

Specification Reference: 02224 - Backfilling and Grading Materials

Contract Pay Items: Increase: Pay Item 8: Site Restoration - Clean Off-site Backfill of Excavated Areas

Reason for Change: This item is for the additional quantity of backfilling grading materials required to fill the excavations in accordance with contract specifications and associated with the removals of non-hazardous soils and wastes at the project site. Pursuant to the contract the actual quantity is based on the post excavation survey of each area excavated compared to the final in-place volume survey upon completion of the backfilling, compaction, and

grading. The additional backfilling work was completed within the contract time for substantial completion. This increases the initial contract amount from \$104,000 to \$166,738..

Cost: The cost of this item is a \$62,738 increase in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer. A copy of the Contractor's request for the extension of additional quantities at the original contracted unit price is provided as *Attachment B*.

Unit Quantity Increase Pay Item 8: Site Restoration - Clean Off-site Backfill of Excavated Areas @ \$26 per cubic yard for 2413 cubic yards = \$62,738.

Time: 0 calendar days.

G. Sampling and Analyses of Soils - Method - 8082 - PCBs in soils

Description of Change: This item is associated with an increase to the Contract Price of \$4,392 for the cost of additional PCB analysis in soils that were required for the characterization and post excavation clearance of soils for the project.

Drawing Reference: None

Specification Reference: 01400 - Quality Control and 01425 - Sampling

Contract Pay Items: Increase: Pay Item 9A: Sampling and Analyses of Soils - Method - 8082 - PCBs in soils.

Reason for Change: This item is for the additional quantity of PCB analyses performed and required to characterize soils for landfill disposal approval and to confirm closure of the excavated areas at the project site. This increases the initial contract amount from \$4,880 to \$9,272.

Cost: The cost of this item is a \$4,392 increase in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Increase Pay Item 9A - Sampling and Analyses of Soils - Method - 8082 - PCBs in soils @ \$122 per sample for 36 samples = \$4,392.

Time: 0 calendar days.

H. Sampling and Analyses of Soils - Method - 8270C - SVOCs in soils

Description of Change: This item is associated with an increase to the Contract Price of \$3,809 for the cost of additional SVOCs analysis in soils that were required for the characterization and post excavation confirmation sampling of soils for the project.

Drawing Reference: None

Specification Reference: 01400 - Quality Control and 01425 - Sampling

Contract Pay Items: Increase: Pay Item 9B: Sampling and Analyses of Soils - Method - 8270C - SVOCs in soils.

Reason for Change: This item is for the additional quantity of SVOC analyses performed and required to characterize of soils for landfill disposal and to confirm closure of the excavated areas at the project site. This increases the initial contract amount from \$11,720 to \$15,529.

Cost: The cost of this item is a \$3,809 increase in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Increase Pay Item 9B - Sampling and Analyses of Soils - Method - 8270C - SVOCs in soils @ \$293 per sample for 13 samples = \$3,809.

Time: 0 calendar days.

I. Sampling and Analyses of Soils - Method - 8270C - TCLP SVOCs in soils

Description of Change: This item is associated an increase to the Contract Price of \$6,588 for the cost of collection and analysis of additional TCLP SVOCs analysis in soils that were required for the characterization and post excavation clearance for the project.

Drawing Reference: None

Specification Reference: 01400 - Quality Control and 01425 - Sampling

Contract Pay Items: Increase: Pay Item 9C: Sampling and Analyses of Soils - Method - 8270C - TCLP SVOCs in soils

Reason for Change: This item is for the additional quantity of TCLP SVOC analyses performed and required to properly characterize soils for landfill disposal and to confirm closure of the excavated areas at the project site. This increases the initial contract amount from \$3,660 to \$10,614.

Cost: The cost of this item is a \$6,954 increase in the Contract Price and is calculated from the unit price established in the Contract by the Contractor and accepted by the Engineer.

Unit Quantity Increase Pay Item 9C - Sampling and Analyses of Soils - Method - 8270C - SVOCs in soils @ \$366 per sample for 19 samples = \$6,954.

Time: 0 calendar days.

J. Additional Sampling and Analysis for TCLP Metals - Target Grid Area and Infiltration Basin

Description of Change: This item is an increase to the Contract Price of \$1,035 associated with the cost to collect and analyze five (5) waste characterization samples of on-site soils not addressed by the Supplementary Specifications of the Contract Documents.

Drawing Reference: None

Specification Reference: 01400 - Quality Control and 01425 - Sampling

Contract Pay Items: Increase to Pay Item #10.

Reason for Change: Additional waste characterization analysis requested by the disposal facility required TCLP metals analysis to be reviewed prior to transport and disposal.

Cost: The cost of this item is \$1,035 based on the quote provided by Horizon Environmental Services, Inc. dated February 24, 2006. Copy of the Potential Change Order (PCO) #1 and the Contractor's cost estimate is provided as *Attachment C*.

Lump Sum Price Increase Pay Item 10: Additional Sampling and Analysis for TCLP Metals - Target Grid Area and Infiltration Basin - \$1,035.

Time: Two (2) calendar days of additional time.

K. Additional Sampling and Analysis - Infiltration Basin Soils

Description of Change: This item is an increase to the Contract Price of \$15,083.54 associated with the cost for the collection and analysis of fourteen (14) additional waste characterization samples within the constructed infiltration basin soils not addressed by the Supplementary Specifications of the Contract Documents.

Drawing Reference: None

Specification Reference: 01400 - Quality Control and 01425 - Sampling

Contract Pay Items: Increase. Pay Item #11.

Reason for Change: Additional investigations and characterizations of soils within the infiltration basin to define the nature and extent of levels of contamination. Additional waste characterization analysis requested by the disposal facility required TCLP metals, TAL Metals, and SVOCs analysis to be performed.

Cost: **Lump Sum Price Increase** Pay Item 11: Additional Sampling and Analysis for TCLP Metals, TAL Metals, and SVOCs within the constructed infiltration basin - **\$15,083.54**. Copy of the PCO #2 and Contractor's cost estimate is provided as ***Attachment D***.

Time: Four (4) calendar days of additional time.

L. Plugging of Manholes and Specialty Equipment Use

Description of Change: This item is an increase to the Contract Price of \$3,035.69 associated with for the cost of permanently plugging manholes in addition to the use of specialty construction equipment in the breaking of subsurface slag materials different from anticipated original site conditions.

Drawing Reference: None

Specification Reference: None

Contract Pay Items: Increase. Pay Item #12.

Reason for Change: Department requested the permanent plugging of manholes was required to prevent the potential migration of residual soil contamination from the site into the Union Ship canal.

Cost: **Lump Sum Price Increase** Pay Item 12: Additional Plugging of manholes and use of specialty breaking equipment - **\$3,035.69**. Copy of the PCO #3 and the Contractor's cost estimate is provided as ***Attachment E***.

Time: Two (2) calendar days of additional time.

M. Elimination of the Construction Zone Entrance and Exit Ramp

Description of Change: This item is decrease to the Contract Price of (\$789.37) associated with the cost of eliminating the construction of the stone entrance/exit into the project site.

Drawing Reference: 001

Specification Reference: None

Contract Pay Items: Decrease. Pay item #13

Reason for Change: The access road to the project was a paved surface which was decided not to be disturbed by the installation of a new constructed stone entrance and exit ramp into the remedial site. As a result, the construction entrance was eliminated from the original project scope of work.

Cost: **Lump Sum Price Increase Lump Sum Price Increase** Pay Item 13:
The cost of this item is a (\$789.37) decrease in the Contract Price. Copy of Contractor's backup is included as *Attachment F*.

Time: 0 calendar days.

N. NEW PAYMENT ITEM 14 (REIMBURSEMENT OF ENGINEER'S COSTS)

Description of Change: As stipulated within the Contract, the work was required to be substantially completed by the Contractor within sixty (60) calendar days from the date established in the Notice to Proceed (NTP). The date of Substantial Completion required by the Contract was March 31, 2006 based on the NTP date of January 30, 2006. The contract period associated with substantial completion is being extended eight (8) calendar days by this Change Order No. 1. The revised date of Substantial Completion is now April 8, 2006. The final date of Substantial Completion, as certified by the Engineer and Department, was May 24, 2006. Consequently, the Contractor exceeded the Substantial Completion date by forty-six (46) calendar days.

Drawing Reference: Not Applicable

Specification: SECTION VI, Article 6

Contract Pay Items: *NEW CONTRACT PAYMENT ITEM No.: 14 - "Reimbursement of Engineer's Costs"*

Reason for Change: This change order item is necessary because additional calendar days were required by the Contractor to reach Substantial Completion of the Contract.

Cost: **Lump Sum Decrease** *New Payment Item 14. Reimbursement of Engineer's costs are being assessed recover actual engineering and administrative costs incurred by the Engineer after April 8, 2006 through June 10, 2006. The hours expended as a results of the contractor's delay in final project deliverables are provided by week per each EEEPC personnel in Attachment G. The costs are based on EEEPC contract labor rates, overhead, and fixed fees under the NYSDEC Standby Contract (D004442) and are detailed as follows:*

D. Miller - Construction Manager - 13 hours	\$ 1,833.00
M. Steffan - Project Manager - 105 hours	\$ 11,786.00
J. Kohler - Site Representative - 106 hours	\$ 9,929.00
G. Jones - Site Representative - 25 hours	<u>\$ 1,994.00</u>
Totals	\$25,542.00

Total credit to the Department is (\$25,542).

Time: 0 Calendar Days

II. CHANGE ORDER NO. 3 SUMMARY

A.	Pay Item 2 - Site Services - Increase in days of Site Services	\$	500.00
B.	Pay Item 3 - Health and Safety - Decrease in days of Health and Safety	(\$	562.50)
C.	Pay Item 4A - Excavation and Disposal of Hazardous Soils - Decrease in Volume	(\$	51,250.00)
D.	Pay Item 4B - Excavation & Disposal of Non-Hazardous Soils - Increase in Volume	\$	318,391.50
E.	Pay Item 5 - Disposal of Non-Hazardous Concrete - Decrease in Volume	(\$	7,325.36)
F.	Pay Item 8 - Restoration Backfill - Increase in Volume	\$	62,738.00
G.	Pay Item 9A - Sampling and Analysis - PCBs in Soils - Increase in Units	\$	4,392.00
H.	Pay Item 9B - Sampling and Analysis - SVOCs in Soils - Increase in Units	\$	3,809.00
I.	Pay Item 9C - Sampling and Analysis - TCLP - SVOCs in Soils - Increase in Units	\$	6,954.00
J.	Pay Item 10 - PCO #1 - Additional Sampling and Analysis of Soils - TGA	\$	1,035.00
K.	Pay Item 11 - PCO #2 - Additional Sampling and Analysis of Soils - Infiltration Basin	\$	15,083.54
L.	Pay Item 12 - PCO #3 - Plugging of Manholes and Specialty Equipment Use	\$	3,035.69
M.	Pay Item 13 - Negative Impact PCO - Reduction in Access Control	(\$	789.37)
N.	Pay Item 14 - Reimbursement of Engineer's Costs - Decrease	(\$	25,542.00)
	TOTAL:	\$	330,469.50

III. CHANGE IN CONTRACT PRICE

Original Contract Price:	\$630,087.50
Contract Price after previous approved Change Orders:	\$630,087.50
Net Increase due to this Change Order:	\$330,469.50
New Contract Price including this Change Order:	\$ 960,557.00

IV. CHANGE IN CONTRACT TIME

	<u>CALENDAR DAYS</u>	<u>FINAL COMPLETION DATE</u>
Original Contract Time:	120	May 30, 2006
Contract Time after previous Change Order:	0	May 29, 2006
Net due to this Change Order:	8	June 7, 2006
New Contract Time including this Change Order:	128	June 7, 2006

It is understood and agreed that, unless expressly so stated above, the work herein authorized will not extend the time for the completion of the contract.

It is understood and agreed that this change order represents full and complete compensation for all work described herein.

This work is to be performed in accordance with the terms of the contract and original plans and specifications, except as herein modified. It is understood and agreed that this order shall be deemed executory only to the extent of moneys available and no liability shall be incurred by the State beyond the moneys available for the purpose.

CONTRACT NUMBER D005660

IN WITNESS WHEREOF, representatives of the Department and the Contractor have executed this Contract on the day and year written beneath their respective signatures. The signatory for the Department provides the following Agency Certification: "In addition to the acceptance of this contract, I also certify that original copies of this signature page will be attached to all other exact copies of this contract."

Project - Potential Change Order (PCO)

Project: Shenango Steel Mold Site PCO No. 004

1750 Fuhrmann Blvd, Buffalo, New York 14203 From: M. Steffan *M. H. S.*

To: S. Clary, President Date: March 23, 2006

Horizon Environmental Services, Inc. EEEPC Project No. 000699.NV28.03

Re: Infiltration Basin Soils Removal and Disposal NYSDEC Contract#: D005660

This PCO is requested for the purpose of a potential change order on a specific item(s) in the project work from the Contract Documents. The PCO for review should be specific to the Contract Documents by indicating the location in the specifications or drawings where potential change is occurring.

Once the Contractor has knowledge of a potential PCO it should be submitted within three days to the Site Representative with follow-up documentation (costs or time) due in 15 days. Provide adequate information for discussion and determination. All project PCOs submitted shall be consecutively numbered and will request a determination on only one issue.

If the Department and Contractor agree that the work is a change to the project scope, but cannot agree on price, the Contractor is still required to carry on with the work involved and adhere to the progress schedule. The Contractor has 30 days from issuance of Department response to submit a notice of intent to appeal. After that time the Department's position becomes final.

Specification Section: 02220 & 02223 Paragraph: _____ Drawing Ref. 001 Detail: _____

Description:

First Item:

Horizon to provide labor, equipment, and support material costs including additional time in which to excavate, transport and dispose of heavy metal contaminated soils from selected areas of the on-site constructed infiltration basin as analyzed under PCO #2.

The location of the heavy metal contaminated soils are shown in the following grid areas on the attached drawing (Attachment A). A waste profile has been issued and accepted by ENSOL, Niagara Falls, NY to accept and dispose of material as a non-hazardous waste. Copy of the submittal to ENSOL is provided as Attachment B.

The volume of non-hazardous waste approved for disposal at the ENSOL facility is estimated at 3500 tons. The volume anticipated from the area based on the analytical results is estimated at about 1000 tons.

No confirmation sampling and analysis will be performed upon completion of the excavation. The balance of the infiltration basin soils will be placed back into the basin in accordance with the demobilization requirements of specification section 02225.

Where the unit price extension of the additional quantities of non-hazardous (Bid Item 4B) is acceptable, Horizon shall provide written acceptance of the unit price extension. If the unit price per ton is not acceptable, Horizon shall provide written documentation on the rationale and reasons for increased costs for review and acceptance by NYSDEC.

Specification Section: Section XI - 02223 & 01400 Paragraph: _____ Drawing Ref. 002 Detail: Table 01400-1

Description:

First Item:

Horizon to provide labor, equipment and support material costs in which to sample, analyze the concrete in TGA which to determine the required treatment and disposal option.

The concrete materials exposed or being excavated in the Tight Grid Area (TGA) are a concern because PCB contamination may remain on the surfaces or have permeated into porous areas of the concrete. Composite sampling and analysis of the concrete is requested for PCBs using TCLP analytical methodology (USEPA Method 8082). A maximum of the five (5) samples will be utilized, but may not be required to characterize the suspected concrete. Turnaround time on the samples shall be 24 hours from receipt of sample at the laboratory. Level of reporting shall be NYS Category B.

Second Item:

Horizon to provide labor, equipment and support material costs in which to sample, analyze the soils from the infiltration basin in which to determine if treatment and disposal is required.

The excavated materials from the construction of the infiltration basin may be a concern because contamination may remain in the area. To allow NYSDEC to assess if contamination is present and if disposal is required, perform four (4) composite soil samples of the excavated spoil materials from the infiltration basin piles. Sampling to be performed from each of the individual bermed areas. Analytical method for confirmatory soil in Section 01400 -Table 01400-1 are to be used plus the addition of TCLP Metals. Turnaround time on the samples shall be 24 hours from receipt of sample at the laboratory. Level of reporting shall be NYS Category B.

Project - Potential Change Order (PCO)

(Continued)

Third Item,

Horizon to provide labor, equipment and support material costs in which to sample, analyze the soils from the Target Grid Area (TGA) for TCLP Metals (USEPA Method 6010B) in which to determine treatment and disposal requirements. A total of five (5) samples shall be priced and taken at the direction of the Engineer/Department. Turnaround time on the samples shall be 24 hours from receipt of sample at the laboratory. Level of reporting shall be NYS Category B.

PCO 001 is written for sampling and analytical only.

Based on review of the analytical results, if requested by NYSDEC, the contractor shall perform removal and disposal of the contaminated materials. A separate PCO will be written for the contractor to provide labor, equipment, and support (transport and disposal) costs to perform the disposal of the separate waste streams: PCB (>50PPM) contaminated concrete and spoils from the infiltration basin construction.

Review and Approval is only for conformance with the design concept of the project and compliance with the information given in the Contract Documents. Contractor is responsible for dimensions to be confirmed and correlated at the job site; for information that pertains solely to the fabrication process or to the means and methods of construction; and for coordination of the work of all trades.

Project - Potential Change Order (PCO)

Project: Shenango Steel Mold Site PCO No. 002

1750 Fuhrmann Blvd, Buffalo, New York 14203 From: M. Steffan *M. S. S.*

To: S. Clary, President Date: March 9, 2006

Horizon Environmental Services, Inc. Project No. D005660

Re: Sampling & Analysis - Infiltration Basin Contract: _____

This PCO is requested for the purpose of a potential change order on a specific item(s) in the project work from the Contract Documents. The PCO for review should be specific to the Contract Documents by indicating the location in the specifications or drawings where potential change is occurring.

Once the Contractor has knowledge of a potential PCO it should be submitted within three days to the Site Representative with follow-up documentation (costs or time) due in 15 days. Provide adequate information for discussion and determination. All project PCOs submitted shall be consecutively numbered and will request a determination on only one issue.

If the Department and Contractor agree that the work is a change to the project scope, but cannot agree on price, the Contractor is still required to carry on with the work involved and adhere to the progress schedule. The Contractor has 30 days from issuance of Department response to submit a notice of intent to appeal. After that time the Department's position becomes final.

Specification Section: Section XI - 02223 & 01400 Paragraph: _____ Drawing Ref. 002 Detail: Table 01400-1

Description:

First Item:

Horizon to provide labor, equipment, and support material costs including additional time in which to sample and analyze soils in and around the constructed infiltration basin to determine the required treatment and disposal options.

The excavated and remaining in-place basin soils are a concern as a result of analyses received February 22, 2006 and sampled on February 21, 2006 (Attachment A). The east portion of the bermed soils from the basin were high in lead and mercury and above historical background levels (Map included as Attachment B).

To further characterize the bermed soils and infiltration basin soils, the following sampling plan has been discussed and provided in which Horizon shall perform.

The attached site plan approximates a grid system in which to perform a sampling program to characterize the soils for the infiltration basin location. (Attachment C).

Sampling shall consist of:

- 1) Four (4) - 5 point composite samples of the infiltration basin floor below the new construction materials. The grid areas B, C, F, and G on the map in Attachment C. These will be taken approximately 4 feet below the existing newly constructed floor of the basin. The analyses to be performed are TCLP metals (USEPA Method - 6010B), TAL metals, and SVOC (USEPA Method - 8270).

Project - Potential Change Order (PCO)

(Continued)

- 2) Six (6) - 5 point composite samples of the infiltration walls in the grid areas shown on Attachment C. The wall grid areas include B', B'', C', C'', F', and G'. The analyses to be performed are TCLP metals (USEPA Method - 6010B), TAL metals, and SVOC (USEPA Method - 8270).

- 3) Four (4) - 5 point composite samples of the berms created from the construction of the infiltration basin. These grid areas are shown as A, D, E, and H on Attachment C. These samples will be taken from excavations below the existing surfaces of each bermed pile. The analyses to be performed are TCLP metals (USEPA Method - 6010B), TAL metals, and SVOC (USEPA Method - 8270).

Required turnaround time shall be 24 hours from receipt of the sample at the approved laboratory for the project. All sampling, analytical, and QA/QC shall follow the Supplementary Technical Specifications (Section XI) requirements per the Contract Documents. Level of reporting shall be NYS Category B.

PCO 002 is written for sampling and analytical services only.

Based on review of the analytical results, if requested by NYSDEC, the contractor shall perform removal and disposal of the contaminated materials. A separate PCO will be written for the contractor to provide labor, equipment, and support (transport and disposal) costs to perform the disposal of the separate waste streams: heavy metals contaminated soils from the infiltration basin construction.

NYSDEC Contract No. D005660

Response to PCO
PCO No. 2

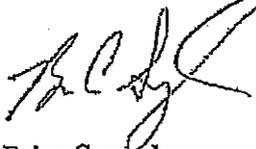

RECEIVED
BY M. H. P. DATE 3/20/06

The cost to provide labor, equipment, services and materials to sample and analyze soils in and around the infiltration basin in accordance with PCO No. 2 dated March 9, 2006 is as follows:

Item	Task	Units	Rate	Markup	Total
Labor	Sampling Prep	1	\$56.13	15%	\$64.55
Labor	Sampling	1.5	\$56.13	15%	\$96.83
Labor	Operator, Excavator	1.5	\$56.13	15%	\$96.83
Labor	Sample prep & delivery for shipment	1.5	\$56.13	15%	\$96.83
Excavator, JD 200*	Sampling	1.5	\$92.70	10%	\$152.96
Laboratory analysis & reporting	TCLP Metals	14	\$154.00	10%	\$2,156.00
Laboratory analysis & reporting	TAL Metals	14	\$396.00	10%	\$6,597.36
Laboratory analysis & reporting	SVOC's	14	\$346.50	10%	\$5,772.69
UPS Ground Shipping	Samples	1	\$45.00	10%	\$49.50
Total					\$15,083.54

* Blue Book hourly rate rental rate plus Blue Book hourly operating cost

Attached is the Blue Book cost sheet along with pricing from the laboratory.

Project - Potential Change Order (PCO)

Project: Shenango Steel Mold Site PCO No. 003

1750 Fuhrmann Blvd, Buffalo, New York 14203 From: M. Steffan *M.H.J.*

To: S. Clary, President Date: March 23, 2006

Horizon Environmental Services, Inc. EEEPC Project No. 000699.NV28.03

Re: Manhole Sealing and TGA Slag Busting Equipment NYSDEC Contract#: D005660

This PCO is requested for the purpose of a potential change order on a specific item(s) in the project work from the Contract Documents. The PCO for review should be specific to the Contract Documents by indicating the location in the specifications or drawings where potential change is occurring.

Once the Contractor has knowledge of a potential PCO it should be submitted within three days to the Site Representative with follow-up documentation (costs or time) due in 15 days. Provide adequate information for discussion and determination. All project PCOs submitted shall be consecutively numbered and will request a determination on only one issue.

If the Department and Contractor agree that the work is a change to the project scope, but cannot agree on price, the Contractor is still required to carry on with the work involved and adhere to the progress schedule. The Contractor has 30 days from issuance of Department response to submit a notice of intent to appeal. After that time the Department's position becomes final.

Specification Section: 02221 & Addendum #1 Paragraph: Drawing Ref. 001 & Addendum #1 - SK-1 Detail:

Description:

First Item:

Horizon to provide labor, equipment, and support material costs including additional time in which to seal and plug to reduce down stream infiltration from the previously plugged manholes MH-3 and MH-2/3 as shown on the contract drawings.

Horizon can leave or remove the plugs installed under the contract. The intent is to reduce infiltration from the remedial site and drain lines into the manholes for further discharge into the Union Ship Canal drain.

Concrete, bentonite, or other grout shall be used to plug the upstream and downstream lines in both manholes. If pumping of groundwater from the manholes is required to allow firm setup of the concrete, bentonite, or grout that pumping shall be performed. Plug materials shall be placed at a minimum one foot above the crown of the lowest downstream discharge line in each manhole.

Upon completion the information shall be placed on the record drawings for future information to be passed on to the next property developers.

Copy of the Addendum drawing SK-1 is provided as Attachment A.

Project - Potential Change Order (PCO)

(Continued)

Second Item:

Horizon to provide labor, equipment, and support material costs including additional time in which to break hard slag materials located in the Target Grid area of the project. In addition, to continue to utilize the equipment to excavate until the required excavation limits (vertically and horizontally) as shown on the contract drawing or until negative confirmation results are achieved in accordance with the project remedial objectives.

 NYSDEC Contract No, D005660

Response to PCO
 PCO No. 3 (3rd amended)

The cost to provide labor, equipment, services and materials to place concrete in manholes MH-3 and MH-2/3 in accordance with PCO No. 3:

Item	Task	Units	Rate	Markup	Total
Horizon Labor	Placing concrete in manholes	3	\$56.13	15%	\$193.66
Horizon Labor	Pump mobilization/demob. and operation	2	\$56.13	15%	\$129.10
Pump Rental	Pump operation (rental)	1	\$25.00	10%	27.50
Cost of concrete	Placing concrete in manholes	1	\$681.33	10%	\$749.46
Total					\$1099.72

The cost to provide labor, equipment and services to break up highly extremely hard slag material located in the Tight Grid area in accordance with PCO No. 3:

Item	Task	Units	Rate	Markup	Total
Delivery/Pickup charge	Breaker	2	\$80	10%	176.00
Horizon Labor	Operator of excavator and breaker (no charge for swap-outs of bucket/breaker)	5	\$56.13	15%	\$322.75
Rental Excavator, JD 200*	Breaking slag	5	\$92.70	10%	\$533.03
Rental	Breaker	2	\$411.00	10%	\$904.20
Total					\$1,935.97

* Blue Book hourly rate rental rate plus Blue Book hourly operating cost
