PROJECT DESCRIPTION

BUFFALO COLOR REDEVELOPMENT

South Buffalo Development LLC (SBD) proposes to redevelop the former Buffalo Color Corporation Property. SBD has viewed the property as two parcels (Areas A/B and Areas C/E). Although we have envisioned distinctly different developments on each, the end uses mesh well and result in a total redevelopment that benefits both the community and its residents.

As a first step towards redevelopment of the site, SBD will demolish site structures to grade. All piping and vessels will be properly decontaminated and asbestos will be property abated. Demolition is expected to take approximately 18 months.

Where possible, existing slabs and foundations will be reused and planned structures will be built with “slab-on-grade” construction. We will work with Honeywell to ensure that the ultimate remedy for the site will support and mesh with the proposed redevelopment. This will enable the site to be put back into productive use in an efficient and cost effective manner that is protective of human health and the environment.

Following is a discussion of the intended development on each parcel:

Areas A and B (South Park Avenue)

This property is contiguous to the Buffalo River and, as such, provides access to it and ultimately to Lake Erie. We are proposing an end use that would benefit both the community and recreational users. This property location is also very important; together, Areas A and B are a large link in the chain that will establish pedestrian access to the lake. The area of this recreational piece will be approximately 12.7 acres in total (Area A is approximately 10.2 acres in size and Area B is approximately 2.5 acres in size). Conceptual plans for Area A include picnic areas and a pavilion. Area B will be enhanced for use as community green space. The estimated start time for this phase is sixteen months after the completion of the demolition. An estimated project schedule is attached.

Areas C and E (Elk Street)

Equally important is our proposed redevelopment of Areas C and E. Development of these parcels will create jobs and revitalize the economics of the area. Construction on these parcels will likely begin first and will consist of a blend of non-residential structures. These parcels are approximately 23 acres in size and will contain build outs in excess of 500,000 square feet. The estimated construction start is 12-16 months after the start of demolition. An estimated project schedule is attached.

We have attached a conceptual drawing showing our vision of the redevelopment. Our phased redevelopment plan will be presented in detail in the Brownfields Cleanup Agreement. It is important to note that we have had substantive discussions with City, County, and state officials and everyone is excited about the impact that this redevelopment will have on the local community.

SECTION IX. LAND USE FACTORS

ITEM 12.

The Property, located in an industrial area in the City of Buffalo, Erie County, New York, consists of Areas A and B that together occupy approximately 12.7 acres along South Park Avenue. Area A is located to the south of South Park Avenue and occupies approximately 10.2 acres. Area B is located to the north of South Park Avenue and occupies approximately 2.5 acres. The Buffalo River adjoins the eastern border of Area A at the Property. The area surrounding the Property is generally zoned for heavy industry and has been utilized for heavy industrial activity since the mid-1800s. CSX railroad tracks are located to the west of the Property. Buffalo Color Area C is located to the north of Area B, and PVS Chemicals, Inc. is located to the south and east of the Property. The former Exxon Mobil refinery and bulk petroleum terminal is located to the east of PVS Chemicals. An unused railroad embankment borders the south side of Area A, beyond which further to the south is Buffalo Color Area D (vacant). The nearest residential areas are located approximately 1,500 feet north and east of the Property.

ITEM 13.

The subject property is situated regionally in the Lake Erie and Niagara River drainage basin. The subject property does not appear to have any open water bodies or surficial water bodies located on-site. Surface drainage appears to flow in a direction toward the lowest elevated points on-site and/or toward storm drains on-site.

Groundwater is found within two aquifers underlying the Property. The first aquifer, known as the Shallow Aquifer, is a saturated and unconfined system within the fill and sediments above glaciolacustrine clay. The second aquifer is the Confined Aquifer and occurs within the Basal Tills and the weathered upper surface of the limestone bedrock. The groundwater in the Shallow Aquifer tends to flow towards the Buffalo River, but many utilities (sewer lines and process water lines) and other subsurface structures tend to influence the local groundwater flow.

ITEM 14.

The Property is located within the Erie-Ontario Lowland physiographic province of New York State. The Erie-Ontario Lowland is underlain by layers of sedimentary bedrock which are largely overlain with unconsolidated deposits. The bedrock consists mainly of shale, limestone and dolomite. The bedrock units are comprised of fine-grained sediments deposited in seas

during the Silurian and Devonian Periods, and are bedded or layered. The Onondaga Limestone is the uppermost bedrock unit at the Property. The limestone is typically heavily jointed and exhibits a high degree of secondary porosity. The unconsolidated deposits overlying the bedrock in the vicinity of the Property are mostly glacial deposits consisting of glacial till, which is a nonsorted mixture of clay, silt, sand and stones deposited directly from the lake sheet; lake deposits, which are bedded clay, silt, and sand that settled out in lakes fed by the melting ice; and sand and gravel deposits associated with glacial streams. The unconsolidated deposits generally are less than 50 feet thick in the vicinity of the Property, excluding fill materials. Fill material that is mostly comprised of clay, silt, crushed stone, brick and miscellaneous building demolition debris is found over most of the surface of the Property. The thickness of the fill layer ranges from 0 to 20 feet, and the maximum thickness of the fill layer occurs near the Buffalo River.

TAX MAPS, DEED WITH LEGAL DESCRIPTION

197780015090

THIS INDENTURE, made the 24th day of June
nineteen hundred and seventy-seven, between ALLIED CHEMICAL
CORPORATION, a New York corporation having its principal
office at Columbia Road and Park Avenue, Morris Township,
New Jersey, party of the first part; and BUFFALO COLOR COR-
PORATION, a Delaware corporation having a place of business
at 340 Elk Street , Buffalo, New York,
party of the second part.

W I T N E S S E T H :

THAT the party of the first part, in consideration of
TEN (\$10.00) DOLLARS and other good and valuable consideration
paid by the party of the second part, does hereby grant and
release unto the party of the second part, the successors and
assigns of the party of the second part forever,

ALL those certain plots, pieces or tracts of land, with
the buildings and improvements thereon erected, situate, lying
and being in the City of Buffalo, County of Erie and State of
New York, more particularly described in Exhibit A attached
hereto and made a part hereof.

TOGETHER WITH a permanent, non-exclusive easement for
the benefit of Tract F, 25.91 feet in width contiguous to
and extending the length of the eastern-most line of Tract F,
for the purpose of installing, maintaining, replacing and
removing utility lines to service Tract F. All costs of
installation, repairs, maintenance or removal of such utilities
shall be at the sole cost and expense of Grantee, and Grantee
shall indemnify and hold Grantor, its successors and assigns,
harmless from and against any and all claims by any person

arising out of Grantee's exercise of any rights herein granted.

Grantee shall exercise the rights granted hereby only in such manner as to not unreasonably interfere with the operations or rights of Grantor or others in the easement area, and shall promptly restore the surface of the easement area to its condition previous to the exercise of any such rights upon completion of their exercise.

RESERVING TO THE GRANTOR, its successors and assigns, a permanent easement 10 feet in width over, under, upon and across Tract F, as shown on the drawing attached hereto and marked "Schedule B" for the maintenance, repair and replacement of sewer lines between Elk Street and lands retained by Grantor, together with reasonable rights of ingress and egress across lands of Grantee necessary for the exercise of the rights reserved herein.

ALSO RESERVING to the Grantor, its successors and assigns an easement over, under, upon and across that portion of Tract E described as follows:

BEGINNING at the point of intersection of the northerly line of former Prenatt Street with the easterly line of former Maurice Street and running thence northerly along the easterly line of former Maurice Street a distance of 144.0 feet to a point, and running thence westerly at right angles to the line of former Maurice Street a distance of 25.0 feet to a point, and running thence, southerly on a course parallel to the side line of former Maurice Street a distance of 164.0 feet to the lands of Buffalo Creek Railroad, and running thence easterly along land of Buffalo Creek Railroad and parallel to the second course a distance of 25.0 feet to a point and running thence, northerly and parallel to the third course herein, a distance of 20.0 feet to the point and place of BEGINNING.

For the purpose of constructing, operating and maintaining a pipebridge, effluent line and monitoring facilities, together with reasonable rights of ingress and egress to the easement

area through the bed of former Maurice Street from Elk Street.
Grantor shall indemnify and hold Grantee harmless from
and against any and all claims arising out of Grantor's
exercise of the rights herein reserved.

This conveyance is subject to:

- (a) Easement Agreement between Grantor and the City of Buffalo recorded in Liber 6930 of Deeds at Page 220, amended in Liber of Deeds 7309 at Page 393 and in Liber of Deeds 7309 at Page 489, affecting Tracts A, B, C, D and G.
- (b) Rights reserved to the Erie Railroad Company and the Lehigh Valley Railroad Company in deed recorded in Liber 4272 of Deeds at Page 527, affecting Tract D.
- (c) Conditions, obligations and reservations with respect to right of way as set forth in Liber 1454 of Deeds at Page 106, affecting Tract D.
- (d) Rights of the City of Buffalo with respect to utilities in, above and below surface of former Maurice Street, affecting Tract E.
- (e) Easement granted to Niagara-Mohawk Power Corporation recorded in Liber of Deeds 7724 at Page 149, affecting Tract E.
- (f) Easement granted to Onondaga County Industrial Development Agency recorded in Liber 8239 at Page 351, affecting Tract E. Grantor represents that this easement was created in error, it having been the intention of Grantor and the Development Agency to create an easement on other lands of Grantor south of Tract E. Grantor represents and warrants to Grantee that it shall take reasonable efforts to secure the discharge or release of the above-mentioned easement by the Onondaga County Industrial Development Agency, and that if successful, Grantor will, at its cost and expense, record the instrument of discharge or release.
- (g) Rights of ingress and egress granted to Buffalo Creek Railroad by unrecorded easement dated January 30, 1956 affecting Tract G.
- (h) Possible encroachments by City of Buffalo by virtue of viaducts and retaining walls as shown on surveys of Ray L. Sonnenberger, Land Surveyor, dated December 31, 1976 and April 5, 1977, affecting Tracts B, C and E.
- (i) Lien of 1977-1978 city taxes not yet due and payable.

LIBER 8524 PAGE 443

TOGETHER with all right, title and interest, if any, of the party of the first part in and to any streets and roads abutting the above described premises to the center lines thereof;

TOGETHER with the appurtenances and all the estate and rights of the party of the first part in and to said premises; TO HAVE AND TO HOLD the premises herein granted unto the party of the second part, the heirs or successors and assigns of the party of the second part forever.

AND the party of the first part covenants that the party of the first part has not done or suffered anything whereby the said premises have been encumbered in any way whatever, except as aforesaid.

AND the party of the first part, in compliance with Section 13 of the Lien Law, covenants that the party of the first part will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the total of the same for any other purpose.

The word "party" shall be construed as if it read "parties" whenever the sense of this indenture so requires.

IN WITNESS WHEREOF, the party of the first part has duly executed this deed the day and year first above written.
