DECEMBER 2010

CERTIFICATIONS

I, Mark Stelmack, am currently a registered professional engineer licensed by the State of New York. I had primary direct responsibility for implementation of the remedial program activities, and I certify that the Remedial Design was implemented and that all construction activities were completed in substantial conformance with the Department-approved Remedial Design.

I certify that the data submitted to the Department with this Final Engineering Report demonstrates that the remediation requirements set forth in the Remedial Design have been achieved.

I certify that all use restrictions, Institutional Controls, Engineering Controls, and/or any operation and maintenance requirements applicable to the Site are contained in an environmental easement created and recorded pursuant ECL 71-3605 and that all affected local governments, as defined in ECL 71-3603, have been notified that such easement has been recorded.

I certify that a Site Management Plan has been submitted for the continual and proper operation, maintenance, and monitoring of all Engineering Controls employed at the Site, including the proper maintenance of all remaining groundwater monitoring wells, and that such plan has been approved by Department.

I certify that all information and statements in this certification form are true. I understand that a false statement made herein is punishable as a Class "A" misdemeanor, pursuant to Section 210.45 of the Penal Law. I, Mark Stelmack, of Mactec Engineering and Consulting, Inc., 511 Congress Street, Portland, Maine, am certifying as Owner's Designated Site Representative for the site.

Mr. Mike Gullo
Modern Landfill, Inc.
P.O. Box 209
Model City, New York 14107

Dear Mr. Gullo:

South Buffalo Development, LLC
224 Elk Street
Buffalo, New York 14210
Application No. M09-2321
Non Hazardous Debris From Former Buffalo Color Site and Buildings

Department has reviewed your application requesting permission to dispose of the above waste. Based on the information supplied and discussions with NYSDEC's Kevin Glaser and Linda Ross this waste minus the filter bags **is acceptable for disposal in your landfill as a one time occurrence.**: Variable non hazardous components of this waste will be documented using a on-site approval log book to be kept for review at the scale house Other waste will be reviewed under separate applications.

In the event that significant changes in the information presented in this application occurs, you will immediately notify the Department in writing.

Enclosed is a copy of the approved application. If you have any question, please contact me at (716) - 851-7220/(716)-754-8226 ext. 233.

Sincerely,

Diana K. Hare

P.O. Box 209
Model City, New York 14107-0209

Dear Mr. Hanaka:

East Side Transfer Station, # 15T04
South Ogden Street, Buffalo
Waste Approval; South Buffalo Development

This is in response to your submittal dated July 23, 2009 requesting approval to accept waste generated from the South Buffalo Development property (former Buffalo Color facility) at the City of Buffalo's East Side Transfer Station (ESTS). Your application indicates that approximately 3,000 tons per year of waste will be delivered to the transfer station.

The application form (47-19-7) indicates that only general plant trash and debris are to be handled at the ESTS and you have specifically noted that sludge or other special waste streams generated at the plant will **not** be accepted that the ESTS.

The application is hereby approved. The waste must be handled in accordance with all of the requirements of the transfer station's permit to operate. Specifically, it must be insured that all waste is tipped and loaded into trailers within the confines of the transfer building.

Also, please be advised that this approval is based upon the East Side facility demonstrating that acceptance of this additional waste stream will not have an adverse impact upon the facility's operations. Should the Department determine that this is not the case, we reserve the right to immediately revoke this approval at our discretion.

Thank you for your attention to this matter and if you have any questions regarding this, please call me at 851-7220.

Sincerely,

Dennis Weiss, P.E.
Environmental Engineer II
