1.0 EXECUTIVE SUMMARY

Brydges Engineering in Environment and Energy (BE3) has prepared this Periodic Review Report (PRR) on behalf of Howden North America, Inc. and SAAKC Buffalo Forge, LLC to summarize the post-remedial status of the New York State Department of Environmental Conservation (NYSDEC) Brownfield Cleanup Program (BCP) Former Buffalo Forge Property, Site No. C915280 (i.e., the "Site").

This PRR has been prepared in accordance with NYSDEC Department of Environmental Remediation (DER)-10 *Technical Guidance for Site Investigation and Remediation* (May 2010). The applicable NYSDEC Institutional and Engineering Controls (IC/ECs) Certification Form has been completed and is provided in **Appendix A**.

This PRR has also been completed per the requirements stipulated in the approved Site Management Plan (SMP) dated November 2019 and describes any post-remedial activities on site during the April 30, 2023, through April 30, 2024 reporting period.

1.1 SITE BACKGROUND

The 12.426-acre BCP site located in the City of Buffalo, Erie County, New York, is comprised of the following seven parcels:

- 498 Broadway Street – SBL No. 111.41-5-31.1
- 233 Mortimer Street – SBL No. 111.41-8-26
- 213 Mortimer Street – SBL No. 111.41-4-1.1
- 187 Mortimer Street – SBL No. 111.41-5-1.1
- 516 Spring Street – SBL No. 111.41-7-12.1
- 498 Spring Street – SBL No. 111.41-7-17.1
- 490 Broadway Street – SBL No. 111.41-6-1.1

As noted in the IC/ECs Certification Form provided in **Appendix A**, the site is under the ownership of Lower West Side Housing Development Fund Corporation which is the nominal owner of the real property (essentially holding it for the benefit of SAAKC Buffalo Forge, LLC) to enable the project to obtain real property and sales tax incentives under Private Housing Finance Law Article XI. This process is similar to how Industrial Development Agencies assist development projects.

The parcel and site boundaries are shown on the Alta survey map provided in **Appendix B** – **Environmental Easement**. The **Figure - As-Built Topographic Survey** is provided under the Construction/As-Built Figures. The City of Buffalo Green Code, adopted by the City of Buffalo and made effective April 3, 2017, restricts uses to residential and mixed residential-commercial use on the various parcels comprising the site. All of the parcels are currently vacant with the exception of 490 Broadway, which is occupied by The Forge Apartments. This affordable housing development contains 158 units of mixed income multi-family homes with amenities including an indoor gym, green roof, playground and running track. The surrounding area is used for a combination of residential, commercial, light industrial, and utility Right-of-Ways. The Site is immediately surrounded by residential developments.

Until the early 1990s, the site was used for manufacturing including foundry operations. Prior uses that appear to have led to site contamination include a machine shop, blacksmith/foundry, and numerous underground storage tanks (USTs). Former investigations noted black foundry sand intermixed with fill from approximately 0.5 to 3.0 feet below ground surface (bgs). Prior to decommissioning and

demolition of site buildings in 2006 and 2007, all USTs identified were removed, in addition to limited contaminated soil.

It should be noted that excavation for new development (building, roadways, etc.) took place concurrently with remedial activities.

1.2 Compliance/Recommendations

All elements of the IC/ECs Plan outlined in the SMP were in compliance for the April 30, 2023, through April 30, 2024 reporting period. No changes to the SMP are recommended at this time.

2.0 SITE OVERVIEW AND REMEDIATION

2.1 Description of Selected Final Remedy

Contaminated Materials Removal

A Track 4 cleanup was implemented based on the parcel-specific intended land use. Specific areas of impacted materials as denoted on **Figure 26A - As-built Remediation Site Plan** and discussed below were removed and disposed of at the approved landfill (Tonawanda Landfill). It should be noted that excavation for new development (building, roadways, etc.) took place concurrently with remediation activities. In many cases the removal of impacted material areas coincided with removal requirements for new development and additional non impacted material (unsuitable for foundations) was removed from areas to accommodate the new development foundations. All material excavated was stockpiled together and sent to the approved landfill.

Grossly Contaminated Media (GCM) – Areas designated A through K on **Figure 26A**. Impacted soil was removed from each of these areas until clean soil was retained based on visual observation and photoionization detector (PID) readings as appropriate. Confirmation samples were then collected from excavation sidewalls and bottom to confirm all impacted material was removed. Upon excavation of areas E, F and H no impacted material was observed visually or by PID readings and with the consent of the DEC project manager no material was removed, and the excavations backfilled with the material that had been excavated.

Site Specific Action Level (SSAL) Areas – Areas designated 1 through 8 on **Figure 26A**. A 20-foot by 20-foot area was excavated for each SSAL area to a depth of one foot below the sample depth indicated on **Figure 26A**. Soil in these areas and below the cover system exceeding the SSAL soil cleanup objectives (SCOs) as noted below was removed for landfill disposal.

- arsenic - 30 parts per million (ppm), cadmium - 60 ppm, lead - 2200 ppm, and manganese - 10,000 ppm.

Additionally, a SSAL of 500 ppm total polycyclic aromatic hydrocarbons (PAHs) for subsurface soil was employed in lieu of achieving all of the individual PAH-specific SCOs as defined in 6 NYCRR Part 375-6. This cleanup level has been previously determined by NYSDEC to be feasible and protective in its various remedial programs and was stipulated in the Remedial Action Work Plan (RAWP). Confirmation samples were collected as noted under the above GCM areas.

Black Sand Material - Black sand material that was co-mixed with GCM or soil above SSALs was removed during the remedial excavations and excavations for site redevelopment (i.e., construction of buildings, sidewalks, paved areas, etc.) and transported off-site for disposal.

Slag Material Mortimer Property – A layer of slag material was removed from the 233 Mortimer property during the remedial excavations and transported off-site for disposal at the Triad Recycling and Energy facility, a NYSDEC permitted facility, for recycling of concrete, soil, stone, etc.

Contaminated Water Removed – A Baker tank was brought on site to store impacted groundwater/rainwater from excavation areas. Approximately 11,000 gallons of petroleum non-hazardous water from Area A GCM excavation and a new development parking structure pier excavation was pumped to the Baker tank and sent to a recycling facility.

Cover [or Cap] System

Exposure to remaining contamination in soil/fill at the site is prevented by a cover system placed over the site. This cover system is comprised of a minimum of 12 inches (Commercial Area) or 24 inches (Restricted Residential Area) of clean soil, asphalt pavement, concrete-covered sidewalks, and concrete building slabs. **Figure C-101** shows the new development site plan for the 490 Broadway property. The 498 Broadway (one (1) foot cover commercial), Mortimer Street and Spring Street properties of the BCP site are covered as shown on **Figure 26A**. **Figure 26A** also shows each remedial cover type used on the site. The final as-built topographic survey of the site depicting final grades is also provided as an attachment.

2.2 Nature and Extent of Contamination Remaining at Site

Figure 26A shows the cover system (hardscape or clean fill) placed across the entire site and the following figures from the Remedial Investigation (RI) provide sample locations exceeding Restricted Residential or Commercial SCOs at selected depths.

- **Figure 16** - Sample Locations Exceeding Restricted Residential SCOs (0-2 Feet)
- **Figure 17** - Sample Locations Exceeding Restricted Residential SCOs (>2 Feet)
- **Figure 18** - Sample Locations Commercial SCOs (0-2 Feet)

These figures illustrate what contaminants remain at the site below the cover system.

Table 5 and the above Figures summarize the analytical results of all soil samples representing soils remaining at the site after completion of the Remedial Action (RA) that show all exceedances of unrestricted to commercial SCOs.

Since contaminated soil remains beneath the site after completion of the RA, IC/ECs are required to protect human health and the environment. These IC/ECs are described in the following section.

3.0 ENGINEERING AND INSTITUTIONAL CONTROLS

3.1 General

Since remaining contamination exists at the site, IC/ECs are required to protect human health and the environment. The IC/ECs Plan is one component of the SMP/Environmental Easement (EE) and is subject to revision by NYSDEC.

3.2 INSTITUTIONAL CONTROLS

A series of ICs is required by the Decision Document (DD) to: (1) implement, maintain and monitor EC systems; (2) prevent future exposure to remaining contamination; and, (3) limit the use and development of the site to restricted residential, commercial and industrial uses only with the exception of 498 Broadway which is only allowed for commercial and industrial use. Adherence to these ICs on the site is required by the EE and implemented under the SMP. ICs identified in the EE may not be discontinued without an amendment to or extinguishment of the EE. The ICs identified are provided in **Appendix B** - Environmental Easement which includes the Boundary Survey Map (Alta) dated September 19, 2018, and the As-Built Topographic Survey dated October 10, 2019.

3.3 ENGINEERING CONTROLS

3.3.1 Cover System

The cover system is the only EC required under the remedy. Exposure to remaining contamination at the site is prevented by a cover system placed over the site which consists of a minimum of 24 inches of clean soil in restricted residential areas and a minimum of 12 inches of clean soil in commercial areas. The cover system also includes hardscape composed of asphalt pavement, concrete-covered sidewalks, and concrete building slabs. Additional details of the cover system are provided in Section 2.1 above.

4.0 SITE EVALUATION

4.1 SITE WIDE INSPECTION

A Site Wide Inspection was completed by BE3 on May 1, 2024, to evaluate the integrity and performance of the site cover system installed. The site appears relatively unchanged since the previous reporting period. All aspects of the cover system including asphalt parking lots, roadways, concrete sidewalks and greenspace areas are in good condition. No overt ruts, bare sports, or erosion rills were noted in softscape areas and no cracks or damage was observed on hardscape surfaces. No development activities (i.e., demolition, excavation, etc.) have occurred during the reporting period that would impact the integrity of the cover system. No compliance issues were noted regarding the IC/ECs at the site. BE3's Site Wide Inspection Form and site photographs are provided in **Appendix C**.

5.0 CONCLUSIONS

During the April 30, 2023, through April 30, 2024, reporting period, all components of the SMP (IC/ECs) are in compliance.

The only EC at the site is the cover system which has not been disturbed since initial placement. Concrete and asphalt areas are in good condition. Soil and grass areas are generally well maintained. No corrective measures are warranted at this time.

6.0 CERTIFICATION OF ENGINEERING AND INSTITUTIONAL CONTROLS

Below is the signed certification as required by section 7.2 of the SMP.

For each institutional or engineering control identified for the site, I certify that all of the following statements are true:

- The inspection of the site to confirm the effectiveness of the institutional and engineering controls required by the remedial program was performed under my direction;
- The institutional control and/or engineering control employed at this site is unchanged from the date the control was put in place, or last approved by the Department;
- Nothing has occurred that would impair the ability of the control to protect the public health and environment;
- Nothing has occurred that would constitute a violation or failure to comply with any site management plan for this control;
- Access to the site will continue to be provided to the Department to evaluate the remedy, including access to evaluate the continued maintenance of this control;
- If a financial assurance mechanism is required under the oversight document for the site, the mechanism remains valid and sufficient for the intended purpose under the document;
- Use of the site is compliant with the environmental easement;
- The engineering control systems are performing as designed and are effective;
- To the best of my knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program and generally accepted engineering practices; and
- The information presented in this report is accurate and complete.
- I certify that all information and statements in this certification form are true. I understand that a false statement made herein is punishable as a Class “A” misdemeanor, pursuant to Section 210.45 of the Penal Law. I, Jason M. Brydges, PE of BE3 Corp 960 Busti Avenue, Buffalo New York 14213, is certifying as Owner’s Designated Site Representative for the site.

SBL NO. 111.41–5–1.1
187 MORTIMER ST.

ALL THAT TRACT OR PARCEL OF LAND situate in the City of Buffalo, County of Erie and State of New York, being part of Outer Lot No. 119 in said City, bounded and described as follows:

BEGINNING at the intersection of the northerly line of Ray Street with the easterly line of Mortimer Street; thence easterly along the northerly line of Ray Street, a distance of 370.26 feet to a point; thence northerly at interior angle of 106°30'58", a distance of 85.35 feet to a point; thence westerly at interior angle of 90°05'50", a distance of 81.63 feet to a point; thence northerly at exterior angle of 95°18'00", a distance of 96.72 feet to a point in the southerly line George Street; thence westerly along the southerly line George Street, a distance of 31.00 feet to a point; thence southerly at interior angle of 95°34'27", a distance of 89.09 feet to a point; thence westerly at interior angle of 78°57'39", a distance of 21.79 feet to a point; thence southerly at interior angle of 73°15'37", a distance of 17.56 feet to a point; thence westerly at exterior angle of 89°52'24", a distance of 28.00 feet to a point; thence northerly at exterior angle of 90°07'36", a distance of 100.00 feet to a point feet to a point in the southerly line of George Street; thence westerly along the southerly line of George Street, a distance of 247.00 feet to point in the easterly line of Mortimer Street; thence southerly along the easterly line of Mortimer Street, a distance of 200.00 feet to the True Point and Place of Beginning.

This parcel containing 1.505 Acres more or less.

ENVIRONMENTAL EASEMENT AREA DESCRIPTION
SAME AS THE SURVEYOR'S LEGAL DESCRIPTION

THE ENGINEERING AND INTUITIONAL CONTROLS FOR THIS EASEMENT ARE SET FORTH IN THE SITE MANAGEMENT PLAN (SMP). A COPY OF THE SMP MUST BE OBTAINED BY ANY PARTY WITH AN INTEREST IN THE PROPERTY. THE SMP CAN BE OBTAINED FROM NYS DEPARTMENT OF ENVIRONMENTAL CONSERVATION, DIVISION OF ENVIRONMENTAL REMEDIATION, SITE CONTROL SECTION, 625 BROADWAY, ALBANY, N.Y. 12233 OR AT derweb@gw.dec.state.ny.us

ENVIRONMENTAL EASEMENT AREA ACCESS THE DEC OR THEIR AGENT MAY ACCESS THE ENVIRONMENTAL EASEMENT AREA AS SHOWN HEREON THROUGH ANY EXISTING STREET ACCESS OR BUILDING INGRESS/EGRESS ACCESS POINT

ENGINEERING / INSTITUTIONAL CONTROLS

- Groundwater Use – the use or withdrawal of Site groundwater for drinking, irrigation or other consumptive purposes will be prohibited.
- Vapor Intrusion – The vapor intrusion for future buildings will be evaluated in accordance with New York laws, regulations and guidance.
- Sub–Slab Depressurization System (SSDS) – Maintenance of the active SSD System.
- Soil Cover System – Maintenance of site wide soil cover system consisting of a combination of 12" soil fill, pavement and existing/new buildings.
- Site Management Plan (SMP)–– Adherence to SMP.
- Land Use – future land use will be restricted to Commercial or Industrial purposes.

This property is subject to an Environmental Easement held by the New York State Department of Environmental Conservation pursuant to Title 36 of Article 71 of the New York Environmental Conservation Law.

NOTE: Total Acreage of all 7 BCP Parcels is 12.426 acres

INSTRUMENT(S) UTILIZED IN DETERMINING LOCATION OF BOUNDARY LINES: MAP IN LIBER 17 OF DEEDS PG. 71, MAP IN LIBER 85 OF DEEDS PG. 239, MAP COVER 155

THIS SURVEY WAS PREPARED WITHOUT THE BENEFIT OF A CURRENT ABSTRACT OF TITLE AND IS SUBJECT TO ANY STATE OF FACTS THAT MAY BE REVEALED IN SAID ABSTRACT.

THIS SURVEY MAP WAS PREPARED IN ACCORDANCE WITH THE CURRENT STANDARDS FOR LAND SURVEYS ADOPTED BY THE BAR ASSOCIATION OF ERIE COUNTY AT THE REQUEST OF Kulback's Inc.

Notes:

< = Compound not detected at concentrations above the laboratory reporting detection limit. The laboratory reporting detection limit is shown.

NA = Not analyzed

NS = No Soil Cleanup Objective

Units are in mg/kg = milligrams per kilogram

ft = feet

NY375 1UNRES = 6NYCRR P375 Unrestricted SCO.

NY375 2RPGW = 6NYCRR P375 Restricted SCO-Protection of GW.

NY375 3RRES = 6NYCRR P375 Restricted SCO-Residential.

NY375 4RRRES = 6NYCRR P375 Restricted SCO-Restricted Residential.

NY375 5RCOMM = 6NYCRR P375 Restricted SCO-Commercial.

NY375 6RINDU = 6NYCRR P375 Restricted SCO-Industrial.

Notes:

< = Compound not detected at concentrations above the laboratory reporting detection limit. The laboratory reporting detection limit is shown.

NA = Not analyzed

NS = No Soil Cleanup Objective

Units are in mg/kg = milligrams per kilogram

ft = feet

NY375 1UNRES = 6NYCRR P375 Unrestricted SCO.

NY375 2RPGW = 6NYCRR P375 Restricted SCO-Protection of GW.

NY375 3RRES = 6NYCRR P375 Restricted SCO-Residential.

NY375 4RRRES = 6NYCRR P375 Restricted SCO-Restricted Residential.

NY375 5RCOMM = 6NYCRR P375 Restricted SCO-Commercial.

NY375 6RINDU = 6NYCRR P375 Restricted SCO-Industrial.

Notes:

< = Compound not detected at concentrations above the laboratory reporting detection limit. The laboratory reporting detection limit is shown.

NA = Not analyzed

NS = No Soil Cleanup Objective

Units are in mg/kg = milligrams per kilogram

ft = feet

NY375 1UNRES = 6NYCRR P375 Unrestricted SCO.

NY375 2RPGW = 6NYCRR P375 Restricted SCO-Protection of GW.

NY375 3RRES = 6NYCRR P375 Restricted SCO-Residential.

NY375 4RRRES = 6NYCRR P375 Restricted SCO-Restricted Residential.

NY375 5RCOMM = 6NYCRR P375 Restricted SCO-Commercial.

NY375 6RINDU = 6NYCRR P375 Restricted SCO-Industrial.

NYSDEC SMP PRR CERTIFICATION FORM

Enclosure 2
NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION
Site Management Periodic Review Report Notice
Institutional and Engineering Controls Certification Form

Site Details **Box 1**

Site No. C915280

Site Name Former Buffalo Forge Property

Site Address: 490 Broadway Street Zip Code: 14204
City/Town: Buffalo
County: Erie
Site Acreage: 12.426

Reporting Period: April 30, 2023 to April 30, 2024

	YES	NO
1. Is the information above correct?	X	☐
If NO, include handwritten above or on a separate sheet.		
2. Has some or all of the site property been sold, subdivided, merged, or undergone a tax map amendment during this Reporting Period?	☐	X
3. Has there been any change of use at the site during this Reporting Period (see 6NYCRR 375-1.11(d))?	☐	X
4. Have any federal, state, and/or local permits (e.g., building, discharge) been issued for or at the property during this Reporting Period?	☐	X
If you answered YES to questions 2 thru 4, include documentation or evidence that documentation has been previously submitted with this certification form.		
5. Is the site currently undergoing development?	☐	X

Box 2

	YES	NO
6. Is the current site use consistent with the use(s) listed below?	X	☐
7. Are all ICs in place and functioning as designed?	X	☐

IF THE ANSWER TO EITHER QUESTION 6 OR 7 IS NO, sign and date below and DO NOT COMPLETE THE REST OF THIS FORM. Otherwise continue.

A Corrective Measures Work Plan must be submitted along with this form to address these issues.

Signature of Owner, Remedial Party or Designated Representative Date

	Box 2A	
	YES	NO
8. Has any new information revealed that assumptions made in the Qualitative Exposure Assessment regarding offsite contamination are no longer valid?	☐	☒
If you answered YES to question 8, include documentation or evidence that documentation has been previously submitted with this certification form.		
9. Are the assumptions in the Qualitative Exposure Assessment still valid? (The Qualitative Exposure Assessment must be certified every five years)	☒	☐
If you answered NO to question 9, the Periodic Review Report must include an updated Qualitative Exposure Assessment based on the new assumptions.

Periodic Review Report (PRR) Certification Statements

1. I certify by checking "YES" below that:

   a) the Periodic Review report and all attachments were prepared under the direction of, and reviewed by, the party making the Engineering Control certification;

   b) to the best of my knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program, and generally accepted engineering practices; and the information presented is accurate and compete.

YES	NO
X	☐

2. For each Engineering control listed in Box 4, I certify by checking "YES" below that all of the following statements are true:

   (a) The Engineering Control(s) employed at this site is unchanged since the date that the Control was put in-place, or was last approved by the Department;

   (b) nothing has occurred that would impair the ability of such Control, to protect public health and the environment;

   (c) access to the site will continue to be provided to the Department, to evaluate the remedy, including access to evaluate the continued maintenance of this Control;

   (d) nothing has occurred that would constitute a violation or failure to comply with the Site Management Plan for this Control; and

   (e) if a financial assurance mechanism is required by the oversight document for the site, the mechanism remains valid and sufficient for its intended purpose established in the document.

YES	NO
X	☐

IF THE ANSWER TO QUESTION 2 IS NO, sign and date below and DO NOT COMPLETE THE REST OF THIS FORM. Otherwise continue.

COUNTY RECORDER

ENVIRONMENTAL EASEMENT GRANTED PURSUANT TO ARTICLE 71, TITLE 36 OF THE NEW YORK STATE ENVIRONMENTAL CONSERVATION LAW

THIS INDENTURE made this 1st day of November, 2019, between Owner(s) Lower West Side Homes II Housing Development Fund Corp., (the "Grantor Fee Owner") having an office at 300 Perry Street, Buffalo, New York 14204, and SAAKC Buffalo Forge, LLC (the "Grantor Beneficial Owner), having an office at c/o Stuart Alexander and Associates, Inc., 150 SE 2nd Avenue, Suite 300, Miami, Florida 33131, (collectively, the "Grantor"), and The People of the State of New York (the "Grantee."), acting through their Commissioner of the Department of Environmental Conservation (the "Commissioner", or "NYSDEC" or "Department" as the context requires) with its headquarters located at 625 Broadway, Albany, New York 12233,

WHEREAS, the Legislature of the State of New York has declared that it is in the public interest to encourage the remediation of abandoned and likely contaminated properties ("sites") that threaten the health and vitality of the communities they burden while at the same time ensuring the protection of public health and the environment; and

WHEREAS, the Legislature of the State of New York has declared that it is in the public interest to establish within the Department a statutory environmental remediation program that includes the use of Environmental Easements as an enforceable means of ensuring the performance of operation, maintenance, and/or monitoring requirements and the restriction of future uses of the land, when an environmental remediation project leaves residual contamination at levels that have been determined to be safe for a specific use, but not all uses, or which includes engineered structures that must be maintained or protected against damage to perform properly and be effective, or which requires groundwater use or soil management restrictions; and

WHEREAS, the Legislature of the State of New York has declared that Environmental Easement shall mean an interest in real property, created under and subject to the provisions of Article 71, Title 36 of the New York State Environmental Conservation Law ("ECL") which contains a use restriction and/or a prohibition on the use of land in a manner inconsistent with engineering controls which are intended to ensure the long term effectiveness of a site remedial program or eliminate potential exposure pathways to hazardous waste or petroleum; and

WHEREAS, Grantor, is the owner of real property located at the address of 516 Spring Street in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 7 Lot 12.1, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, Grantor, is the owner of real property located at the address of 498 Spring Street in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 7 Lot 17.1, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, Grantor, is the owner of real property located at the address of 490 Broadway in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 6 Lot 1.1, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, Grantor, is the owner of real property located at the address of 233 Mortimer Street in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 8 Lot 26, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, Grantor, is the owner of real property located at the address of 213 Mortimer Street in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 4 Lot 1.1, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, Grantor, is the owner of real property located at the address of 187 Mortimer Street in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 5 Lot 1.1, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, Grantor, is the owner of real property located at the address of 498 Broadway in the City of Buffalo, County of Erie and State of New York, known and designated on the tax map of the County Clerk of Erie as tax map parcel number: Section 111.41 Block 5 Lot 31.1, being a portion of the property conveyed to Grantor by deed dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

WHEREAS, the seven (7) lots which comprise of the property subject to this Environmental Easement (the "Controlled Property") contain a combined area of approximately 12.425 +/- acres, and are hereinafter more fully described in the Land Title Survey dated September 19, 2018 as last revised on July 22, 2019 prepared by Francis C. Delles of Millard, MacKay & Delles Land Surveyors, LLP, which will be attached to the Site Management Plan. The Controlled Property description is set forth in and attached hereto as Schedule A;

WHEREAS, Grantor Beneficial Owner, is the owner of the beneficial interest in the Controlled Property being the same as a portion of that beneficial interest conveyed to Grantor Beneficial Owner by means of a Declaration of Interest and Nominee Agreement dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4014 ; and

WHEREAS, the Department accepts this Environmental Easement in order to ensure the protection of public health and the environment and to achieve the requirements for remediation established for the Controlled Property until such time as this Environmental Easement is extinguished pursuant to ECL Article 71, Title 36; and

NOW THEREFORE, in consideration of the mutual covenants contained herein and the terms and conditions of Brownfield Cleanup Agreement Index Number: C915280-09-13, Grantor conveys to Grantee a permanent Environmental Easement pursuant to ECL Article 71, Title 36 in, on, over, under, and upon the Controlled Property as more fully described herein ("Environmental Easement").

1. Purposes. Grantor and Grantee acknowledge that the Purposes of this Environmental Easement are: to convey to Grantee real property rights and interests that will run with the land in perpetuity in order to provide an effective and enforceable means of encouraging the reuse and redevelopment of this Controlled Property at a level that has been determined to be safe for a specific use while ensuring the performance of operation, maintenance, and/or monitoring requirements; and to ensure the restriction of future uses of the land that are inconsistent with the above-stated purpose.

2. Institutional and Engineering Controls. The controls and requirements listed in the Department approved Site Management Plan ("SMP") including any and all Department approved amendments to the SMP are incorporated into and made part of this Environmental Easement. These controls and requirements apply to the use of the Controlled Property, run with the land, are binding on the Grantor and the Grantor's successors and assigns, and are enforceable in law or equity against any owner of the Controlled Property, any lessees and any person using the Controlled Property.

A. (1) The Controlled Properties located at 490 Broadway, 187 Mortimer Street, 213 Mortimer Street, 233 Mortimer Street, 498 Spring Street and 516 Spring Street may be used for:

Restricted Residential as described in 6 NYCRR Part 375-1.8(g)(2)(ii), Commercial as described in 6 NYCRR Part 375-1.8(g)(2)(iii) and Industrial as described in 6 NYCRR Part 375-1.8(g)(2)(iv)

(2) The Controlled Property located at 498 Broadway may be used for:

Commercial as described in 6 NYCRR Part 375-1.8(g)(2)(iii) and Industrial as described in 6 NYCRR Part 375-1.8(g)(2)(iv)

(3) All Engineering Controls must be operated and maintained as specified in the Site Management Plan (SMP);

(4) All Engineering Controls must be inspected at a frequency and in a manner defined in the SMP;

(5) The use of groundwater underlying the property is prohibited without necessary water quality treatment as determined by the NYSDOH or the Erie County Department of Health to render it safe for use as drinking water or for industrial purposes, and the user must first notify and obtain written approval to do so from the Department;

(6) Groundwater and other environmental or public health monitoring must be performed as defined in the SMP;

(7) Data and information pertinent to Site Management of the Controlled Property must be reported at the frequency and in a manner defined in the SMP;

(8) All future activities on the property that will disturb remaining contaminated material must be conducted in accordance with the SMP;

(9) Monitoring to assess the performance and effectiveness of the remedy must be performed as defined in the SMP;

(10) Operation, maintenance, monitoring, inspection, and reporting of any mechanical or physical components of the remedy shall be performed as defined in the SMP;

(11) Access to the site must be provided to agents, employees or other representatives of the State of New York with reasonable prior notice to the property owner to assure compliance with the restrictions identified by this Environmental Easement.

B. The Controlled Properties located at 490 Broadway, 187 Mortimer Street, 213 Mortimer Street, 233 Mortimer Street, 498 Spring Street and 516 Spring Street shall not be used for Residential purposes as defined in 6NYCRR 375-1.8(g)(2)(i), and the above-stated engineering controls may not be discontinued without an amendment or extinguishment of this Environmental Easement.

C. The Controlled Property located at 498 Broadway shall not be used for Residential or Restricted Residential purposes as defined in 6NYCRR 375-1.8(g)(2)(i) and (ii), and the above-stated engineering controls may not be discontinued without an amendment or extinguishment of this Environmental Easement

D. The SMP describes obligations that the Grantor assumes on behalf of Grantor, its successors and assigns. The Grantor's assumption of the obligations contained in the SMP which may include sampling, monitoring, and/or operating a treatment system, and providing certified reports to the NYSDEC, is and remains a fundamental element of the Department's determination that the Controlled Property is safe for a specific use, but not all uses. The SMP may be modified in accordance with the Department's statutory and regulatory authority. The Grantor and all successors and assigns, assume the burden of complying with the SMP and obtaining an up-to-date version of the SMP from:

Site Control Section
Division of Environmental Remediation
NYSDEC
625 Broadway
Albany, New York 12233
Phone: (518) 402-9553

E. Grantor must provide all persons who acquire any interest in the Controlled Property a true and complete copy of the SMP that the Department approves for the Controlled Property and all Department-approved amendments to that SMP.

F. Grantor covenants and agrees that until such time as the Environmental Easement

is extinguished in accordance with the requirements of ECL Article 71, Title 36 of the ECL, the property deed and all subsequent instruments of conveyance relating to the Controlled Property shall state in at least fifteen-point bold-faced type:

This property is subject to an Environmental Easement held by the New York State Department of Environmental Conservation pursuant to Title 36 of Article 71 of the Environmental Conservation Law.

G. Grantor covenants and agrees that this Environmental Easement shall be incorporated in full or by reference in any leases, licenses, or other instruments granting a right to use the Controlled Property.

H. Grantor covenants and agrees that it shall, at such time as NYSDEC may require, submit to NYSDEC a written statement by an expert the NYSDEC may find acceptable certifying under penalty of perjury, in such form and manner as the Department may require, that:

(1) the inspection of the site to confirm the effectiveness of the institutional and engineering controls required by the remedial program was performed under the direction of the individual set forth at 6 NYCRR Part 375-1.8(h)(3).

(2) the institutional controls and/or engineering controls employed at such site:

(i) are in-place;

(ii) are unchanged from the previous certification, or that any identified changes to the controls employed were approved by the NYSDEC and that all controls are in the Department-approved format; and

(iii) that nothing has occurred that would impair the ability of such control to protect the public health and environment;

(3) the owner will continue to allow access to such real property to evaluate the continued maintenance of such controls;

(4) nothing has occurred that would constitute a violation or failure to comply with any site management plan for such controls;

(5) the report and all attachments were prepared under the direction of, and reviewed by, the party making the certification;

(6) to the best of his/her knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program, and generally accepted engineering practices; and

(7) the information presented is accurate and complete.

3. Right to Enter and Inspect. Grantee, its agents, employees, or other representatives of the State may enter and inspect the Controlled Property in a reasonable manner and at reasonable times to assure compliance with the above-stated restrictions.

4. Reserved Grantor's Rights. Grantor reserves for itself, its assigns, representatives, and successors in interest with respect to the Property, all rights as fee owner of the Property,

including:

A. Use of the Controlled Property for all purposes not inconsistent with, or limited by the terms of this Environmental Easement;

B. The right to give, sell, assign, or otherwise transfer part or all of the underlying fee interest to the Controlled Property, subject and subordinate to this Environmental Easement;

5. Enforcement

A. This Environmental Easement is enforceable in law or equity in perpetuity by Grantor, Grantee, or any affected local government, as defined in ECL Section 71-3603, against the owner of the Property, any lessees, and any person using the land. Enforcement shall not be defeated because of any subsequent adverse possession, laches, estoppel, or waiver. It is not a defense in any action to enforce this Environmental Easement that: it is not appurtenant to an interest in real property; it is not of a character that has been recognized traditionally at common law; it imposes a negative burden; it imposes affirmative obligations upon the owner of any interest in the burdened property; the benefit does not touch or concern real property; there is no privity of estate or of contract; or it imposes an unreasonable restraint on alienation.

B. If any person violates this Environmental Easement, the Grantee may revoke the Certificate of Completion with respect to the Controlled Property.

C. Grantee shall notify Grantor of a breach or suspected breach of any of the terms of this Environmental Easement. Such notice shall set forth how Grantor can cure such breach or suspected breach and give Grantor a reasonable amount of time from the date of receipt of notice in which to cure. At the expiration of such period of time to cure, or any extensions granted by Grantee, the Grantee shall notify Grantor of any failure to adequately cure the breach or suspected breach, and Grantee may take any other appropriate action reasonably necessary to remedy any breach of this Environmental Easement, including the commencement of any proceedings in accordance with applicable law.

D. The failure of Grantee to enforce any of the terms contained herein shall not be deemed a waiver of any such term nor bar any enforcement rights.

6. Notice. Whenever notice to the Grantee (other than the annual certification) or approval from the Grantee is required, the Party providing such notice or seeking such approval shall identify the Controlled Property by referencing the following information:

County, NYSDEC Site Number, NYSDEC Brownfield Cleanup Agreement, State Assistance Contract or Order Number, and the County tax map number or the Liber and Page or computerized system identification number.

Parties shall address correspondence to:

Site Number: C915280
Office of General Counsel
NYSDEC
625 Broadway
Albany New York 12233-5500

With a copy to:

Site Control Section
Division of Environmental Remediation
NYSDEC
625 Broadway
Albany, NY 12233

All notices and correspondence shall be delivered by hand, by registered mail or by Certified mail and return receipt requested. The Parties may provide for other means of receiving and communicating notices and responses to requests for approval.

7. Recordation. Grantor shall record this instrument, within thirty (30) days of execution of this instrument by the Commissioner or her/his authorized representative in the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

8. Amendment. Any amendment to this Environmental Easement may only be executed by the Commissioner of the New York State Department of Environmental Conservation or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

9. Extinguishment. This Environmental Easement may be extinguished only by a release by the Commissioner of the New York State Department of Environmental Conservation, or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

10. Joint Obligation. If there are two or more parties identified as Grantor herein, the obligations imposed by this instrument upon them shall be joint and several.

11. Consistency with the SMP. To the extent there is any conflict or inconsistency between the terms of this Environmental Easement and the SMP, regarding matters specifically addressed by the SMP, the terms of the SMP will control.

TERMINATION AND RELEASE OF ENVIRONMENTAL EASEMENT

This Termination and Release of Environmental Easement is made as of this 15 day of November 2019, by and between The People of the State of New York, acting through their Commissioner of the Department of Environmental Conservation ("NYSDEC" or the "Department") with its headquarters located at 625 Broadway, Albany, New York 12233, Owner(s) Lower West Side Homes II Housing Development Fund Corp., (the "Grantor Fee Owner") having an office at 300 Perry Street, Buffalo, New York 14204, and SAAKC Buffalo Forge, LLC (the "Grantor Beneficial Owner), having an office at c/o Stuart Alexander and Associates, Inc., 150 SE 2nd Avenue, Suite 300, Miami, Florida 33131, (collectively, the "Grantor").

RECITALS

1. Grantor Fee Owner is the owner of certain land known and designated on the tax map of the Erie County Clerk as tax map parcel numbers: Section 111.41 Block 7 Lot 12.1, Section 111.41 Block 7 Lot 17.1, Section 111.41 Block 6 Lot 1.1, Section 111.41 Block 8 Lot 26, Section 111.41 Block 4 Lot 1.1, Section 111.41 Block 5 Lot 1.1 and Section 111.41 Block 5 Lot 31.1, being the same as that property conveyed to Grantor Fee Owner by deed, dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4007.

2. Grantor Beneficial Owner is the owner of the beneficial interest in the above-referenced property by means of a Declaration of Interest and Nominee Agreement dated October 25, 2018 and recorded in the Erie County Clerk's Office in Liber and Page D11336/4014.

3. The Department and Grantor entered into that certain Environmental Easement ("Easement Agreement") dated as of September 17, 2019 and recorded in the Erie County Clerk's Office in Liber and Page D11350/8933. Capitalized terms used herein without definition have the meanings ascribed to them in the Environmental Easement Agreement. The property comprises approximately 12.425 +/- acres, and hereinafter more fully described in Schedule A.

4. Pursuant to Section 1, 2, 3, 4, and 5 of the Easement Agreement, Grantor granted the Department rights and interests that run with the land in perpetuity in order to provide an effective and enforceable means of encouraging the reuse and redevelopment of the Controlled Property at a level that has been determined to be safe for a specific use while ensuring the performance of maintenance, monitoring or operation requirements; and to ensure the potential restriction of future uses of the land that are inconsistent with the stated purpose.

5. Section 2.A. of the Easement Agreement erroneously stated that the entirety of the Controlled Property may be used for Restricted-Residential, Commercial and Industrial uses described in 6 NYCRR §375-1.8(g) and may only be used consistent with controls set out in that Section 2.A. of the Easement Agreement.

6. Section 2.A. of the Easement Agreement should have stated that a portion of the Controlled Property may be used only for Commercial and Industrial uses described in 6 NYCRR §375-1.8(g) and may only be used consistent with controls set out in that Section 2.A. of the Easement Agreement.

7. In order to correct the previous error, the Parties do hereby agree that a new Environmental Easement will be filed contemporaneously with this Termination in order to address the site management needs of the now remediated site.

8. Pursuant to Section 9 of the Easement Agreement, the Department agrees to terminate and release the Easement Agreement, dated September 17, 2019.

TERMINATION AND RELEASE OF ENVIRONMENTAL EASEMENT

A. The above recitals are hereby incorporated into this Termination and Release of Environmental Easement.

B. The Department confirms that the date hereof is the "Termination Date" and the Department accordingly hereby terminates and releases the property as described in Schedule A.

C. This Termination and Release of Environmental Easement inures to and binds the parties hereto and their respective successors and assigns.

D. This Termination and Release of Environmental Easement shall be governed by and interpreted in accordance with the laws of the State of New York.

APPENDIX C

SITE WIDE INSPECTION FORM AND SITE PHOTOS

BE3 Corp.
960 Busti Ave. Suite B-150
Buffalo, New York

SITE WIDE INSPECTION FORM

Date: 5/1/2024

Site Name: Former Buffalo Forge Property (Site No. C915280)

Location: 490 Broadway and 6 adjacent parcels, Buffalo, NY 14204

General Site Conditions: The site appears unchanged since the previous reporting period. All parcels remain undeveloped with the exception of 490 Broadway which contains the Buffalo Forge apartment complex. All components of the cover system (i.e., grass areas, concrete sidewalk and asphalt parking lots) are in good condition. No other ECs are maintained at the site.

Weather Conditions: 55°F and partly cloudy.

Compliance/Evaluation ICs and ECs: The site is in compliance with all ICs and ECs. The only functioning EC is the cover system which is composed of both hard scape (sidewalks and parking lots) and soft scape (soil and grass). Overall, the cover system is in tact and functioning as designed. There are no substantial ruts, bare spots or erosion rills in green space areas and no cracks were noted in hard scape areas. No excavation has occurred into the cover system. Property uses are consistent with that allowable under the SMP.

Site Management Activities (Sampling, H&S Inspection, etc.): The cover system is in good condition. No development or excavation into the cover system has occured that would warrant sampling activities and no annual sampling is required under the SMP.

Compliance with Permits and O&M Plan: The site is in compliance with all ECs and ICs. No permits have been issued and no site activity has occured within the reporting period.

Records Compliance: No activity occurred at the site that would require reporting/recording.

General Comments: The site is in compliance with all ECs and ICs. No corrective measures are warranted at this time.

Inspector: Alexis Palumbo-Compton - Project Engineer

Description of Work Performed (continued) **IC/EC BY Parcel**

213 Mortimer - 111.41-4-1.1:

Parcel is a vacant grass property. Soil and grass cover system on site are intact. No overt ruts or marks were noted. No excavation has occurred into the cover system.

187 Mortimer – 111.41-5-1.1:

Parcel is a vacant grass property. Soil and grass cover system on site are intact. No overt ruts or marks were noted. No excavation has occurred into the cover system.

233 Mortimer – 111.41-8-26:

Parcel is a vacant grass property. Soil and grass cover system on site are intact. No overt ruts or marks were noted. No excavation has occurred into the cover system.

498 Broadway – 111.41-5-31.1:

Parcel is a vacant grass property. Soil and grass cover system on site are intact. No overt ruts or marks were noted. No excavation has occurred into the cover system.
