Has EPA or DEC officially modified the handlers status? If so, attach correspondence.

NO

2. Status Identification:

This handler should be inspected as a (check each appropriate category after considering exemptions).

A. ___ Transporter - complete Appendix B

B. Generator Status Identification 372.1

1. ✓ Category 1 generator - small quantity generator - generates less than 100 kg/mo and stores less than 100 kg. - 372.1(e)(1)(vii)(a) Complete Part II, 1A.

2. ___ Category 2 generator - small quantity generator - generates less than 100 kg/mo and stores more than 100 kg but less than 1,000 kg. - 372.1(e)(1)(vii)(b) - Complete Part II, 1B.

3. ___ Category 3 generator - small quantity generator - generates more than 100 kg/mo but less than 1,000 kg/mo and stores less than 1,000 kg. - 372-1.(e)(1)(viii) - Complete Part II, 1B and 1C.

4. ___ Category 5 generator - generated 1,000 kilograms or more per month or generated acute hazardous waste in quantities greater than those specified in Part 372.1(e)(1)(v). Complete Part II. Generators over sole source aquifers also complete Appendix A.

5. ___ Category 6 generator - stores 1,000 kilograms or more or stores acute hazardous waste in quantities greater than those specified in Part 372.1(e)(1)(v). Complete Part II. Generators over sole source aquifers also complete Appendix A.

C. Treatment, Storage or Disposal Facility Status

1. Is hazardous waste generated and stored on-site? If so:

(a) ___ Has hazardous waste been stored on-site longer than 90 days? 373-1.1(d)(1)(iii) - If yes, complete Appendix A.

(b) ___ Has more than 8,800 gallons of hazardous waste been stored in containers? 373-1.1(d)(iii)(a) - If yes, complete Appendix A.

(c) ___ Has more than 20,000 gallons of hazardous waste been stored in tanks? 373-1.1(d)(iii)(b) - If yes, complete Appendix A.

Part II

Generator Inspection Section

Refer to questions based upon category checked in Part I.

Indicate:		Indicate:	
X	Violations	X	Satisfactory
		NA	Not Applicable

1. Requirements for Category 1-3 Generators:

A. If Category 1, the generator has:

___ disposed of hazardous waste in a solid waste facility - 372.1(e)(1)(vii)(a)(2). ✓

___ made a hazardous waste determination - 372.1(e)(1)(vii)(a)(1) ✓

B. If Category 2 or 3, the generator has met the following:

___ made a hazardous waste determination - 372.1(e)(1)(vii)(b)(1) ___

___ disposed of in authorized hazardous waste facility - 372.1(e)(1)(vii)(b)(2) ___

___ used appropriate containers; properly packaged, labeled and marked during storage and shipment - 372.1(e)(1)(vii)(b)(4) ___

___ had containers and tanks stored properly; not open, not handled or stored in a way which may cause it to leak; inspected at least quarterly - 372.1(e)(1)(vii)(b)(5) ___

___ had tanks designed, constructed and operated in accordance with regulations - 372.1(e)(1)(vii)(b)(6) ___

___ had tanks properly sheltered and protected - 372.1(e)(1)(vii)(b)(7) ___

C. If Category 3 generator, has:

___ annual report prepared and sent to DEC - 372.1(e)(1)(viii)(f) and ___

___ obtained an EPA Identification Number - 372.1(e)(1)(viii)(b) ___

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by TurnKey Environmental Restoration, LLC. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1925 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.
