

**(Fact Sheet Begins Next)**

# **Act Now to Continue Receiving Information About This Site!**

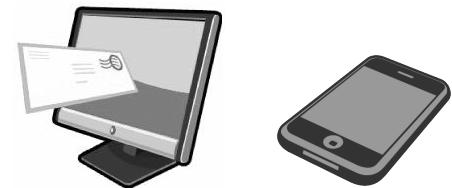

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites electronically by email.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

**You must sign up for the DER email listserv:**

<https://dec.ny.gov/environmental-protection/site-cleanup/regional-remediation-project-information/environmental-cleanup-email-newsletters>

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

**Why You Should Go “Paperless”:**

- Get site information faster and share it easily;
- Receive information about all sites in a chosen county - read what you want, delete the rest;
- It helps the environment and stretches your tax dollars.

**If “paperless” is not an option for you**, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

# 3200 Clinton Street

Brownfield Cleanup Program  
Site No. C915404  
West Seneca, Erie County

Department of  
Environmental  
Conservation

November 2025

## Interim Remedial Measures Completed; No Further Action Required at Brownfield Site; Public Comment Period Announced

The public is invited to comment on a proposed no further action cleanup for the 3200 Clinton Street site ("site") located at 160 Empire Drive, West Seneca, Erie County. Please see the map for the site location.

The New York State Department of Environmental Conservation (NYSDEC), in consultation with the New York State Department of Health (NYSDOH), is reviewing a report that recommends no further action at the site. The report, called a Draft Remedial Investigation/Interim Remedial Measures/Alternatives Analysis Report (RI/IRM/AAR), was prepared and submitted to NYSDEC by Rosina Food Products, Inc. ("applicant") dated September 2025.

### How to Comment

NYSDEC is accepting written comments about the Draft RI/IRM/AAR for 45 days, from **November 5 through December 20, 2025**.

- Access the RI/IRM/AAR and other project documents online through the DECinfo Locator: <https://extapps.dec.ny.gov/data/DecDocs/C915404/>
- Documents also are available at the location(s) identified under "Where to Find Information."
- Please submit comments to the NYSDEC project manager listed under Project-Related Questions in the "Who to Contact" area.

### Proposed No Further Action Cleanup

The no further action proposal is based on the completion of expedited cleanups known as Interim Remedial Measures (IRMs). The IRMs were conducted in conjunction with the Remedial Investigation and the scope of work presented in the RI-IRM Work Plan. The completed IRMs included:

- Removing impacted soil/fill at depths ranging from ground surface to approximately 8.5 feet below ground surface for a total of 60,524 tons
- Offsite disposal of excavated impacted soil/fill

During the RI-IRM work, end point samples were collected to confirm that remaining soil meets unrestricted soil cleanup objectives. The applicant has submitted a Final Engineering Report for NYSDEC review, to document that cleanup requirements have been achieved to fully protect public health and the environment for the proposed site use.

### Next Steps

NYSDEC will consider public comments, make any necessary revisions and, if appropriate, approve the report and its no further action recommendation. The approved report will be made available to the public under "Where to Find Information" on Page 1 of this fact sheet.

When the report and other final documents are approved, NYSDEC will issue a "Certificate of Completion" (COC) to the applicants. Upon receiving the COC, the applicants would be eligible for tax credits to offset the costs of performing cleanup activities and for redevelopment of the site.

## Site Description

The site is a 6.73-acre lot located in a mixed-use commercial/industrial area at 160 Empire Drive in the Town of West Seneca. The site is currently vacant with a building under construction which will be used for frozen food production and storage. The site was previously used as railroad tracks/yards from the early 1900s to the 1950s. The site has been vacant since the 1950s. Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C915404) at:

<https://appfactory.dec.ny.gov/DERExternalSearch/ERDSearch>

## Brownfield Cleanup Program

New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses may include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by DEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit:

<https://dec.ny.gov/environmental-protection/site-cleanup/brownfield-and-state-superfund-programs/brownfield>

## Stay Informed with DEC Delivers

We encourage you to share this fact sheet with neighbors and tenants, and/or post this fact sheet in a prominent area of your building for others to see.
