

April 7, 2017

Mr. Timothy Dieffenbach, Project Manager  
NYS Department of Environmental Conservation  
270 Michigan Ave.  
Buffalo, NY 14203-2915

Re: Site No. C932157 - Tract I - 3123 Highland Ave, Niagara Falls, NY  
Periodic Review Report and IC/EC Certification Submittal

Dear Mr. Dieffenbach,

We are in receipt of your letter dated April 6, 2017 and respond as follows:

1. The requested change has been made.
2. As stated in the report, Brightfields understands that the properties transferred between Brightfields and Brightfields II in no way change the boundaries of the Tract I and Tract II sites. A copy of the updated survey is attached.
3. Enclosure 2 has been replaced as instructed.

The revised PRR is attached for your review.

Please note that in Section VII of the supporting documentation, we have requested a reduction in the reporting frequency for the site.

Please feel free to contact me at 716-856-3333 or [jmwilliams@oscinc.com](mailto:jmwilliams@oscinc.com) if you have any questions or concerns.

Best Regards,

Jon M. Williams  
President

Enclosures

## I. Executive Summary

This document provides the Periodic Review Report (PRR) for the Tract I Site (Site No. 932157) located at 3123 Highland Avenue in Niagara Falls, New York. The remediation of the Site to the restricted commercial standard in soil was completed in November of 2014. The Certificate of Completion for the Site was issued by the NYSDEC on December 23, 2014.

During the last year, the site was re-developed and a new manufacturing facility was constructed on the property. The proper notifications were made to the NYSDEC for this activity. The SMP required an annual inspection of the site, which is documented in this report. The Site is currently in compliance with the Institutional controls and no engineering controls or operation & maintenance was required. The selected remedy for the Site remains effective.

## II. Site Overview

Brightfields Corp. (Brightfields) has prepared this Periodic Review Report (PRR) for the Tract I Site (Site) located at 3123 Highland Avenue in the City of Niagara Falls, Niagara County, New York. This document is a required element of the remedial program under the New York State (NYS) Brownfield Cleanup Program (BCP) administered by New York State Department of Environmental Conservation (NYSDEC). The Site was remediated in accordance with Brownfield Cleanup Agreement (BCA) Index #C932157-03-12, Site # C932157, which was executed on April 5, 2012.

The Site is located in the City of Niagara Falls, County of Niagara, New York and is identified as Block 144.06-2-27 and Lot 34 on the City of Niagara Falls Tax Map. The Site is an approximately 5.9-acre area bounded by Tulip Corporation to the north, the Tract II Property to the south, the Tract II Property to the east, and Highland Avenue to the west (see **Figure 1**).

The Site was the location of a lead/acid battery manufacturing plant from approximately 1910 through the 1950s. In the early 1950s, the plant was retooled to produce hard rubber battery casings and for the filling and charging of lead/acid batteries. Manufacturing activities ceased in the 1970s and the Site was used as a warehouse and automotive body shop until the 1980s. By the late 1980s, the Site had been abandoned and various portions were in disrepair. At that time, the City of Niagara Falls (the City) acquired the property via tax foreclosure. In early 1999, the City initiated investigations at the Site under the New York State Environmental Restoration Program (ERP) in order to redevelop the property; the Site was assigned the ERP number B00160. The initial Site characterization was conducted by Ecology and Environment, Inc. (E&E), and presented in a May 2000 Site investigation report. Results from this investigation indicated that lead, PAHs, and PCBs were detected in Site media exceeding the applicable SCOs. The E&E report concluded that additional sampling would be necessary to delineate the extent of these constituents. In late 2007, the NYSDEC contracted EA Engineering, P.C. (EA) to perform additional Site characterization, the results of which, were presented in a May 2009 report. The EA investigation focused on debris inside of the building, and the results indicated that lead, arsenic, mercury, zinc, and PAHs were present in the building in concentrations exceeding the applicable SCOs. Upon completion of the E&E and EA remedial investigations, the City withdrew the Site from the ERP, and in 2011, Brightfields purchased Tract I. In July 2011, Amec implemented a Pre-Design Work Plan to refine the extent of lead identified in surface soil at the site; the results of which were incorporated into the Consolidated Remedial Investigation Report (CRIR). In December 2011, a BCP application was

submitted concurrently with the Draft Interim Remedial Measures Work Plan (IRM WP) for the demolition and decontamination of the building.

In July/August 2012 and February 2013, Amec implemented a Supplemental Remedial Investigation (SRI) Work Plan to complete the site characterization. Results of the SRI were presented in the Supplemental Remedial Investigation Report (SRIR). The SRI defined the nature and extent of the impacted soil and debris on the Site. The majority of the impacted soil was located on the exterior of the former PCW building footprint. This area contained lead and other metals, PAHs, and PCBs, in soil in concentrations above their respective Commercial SCOs. An area of soil containing similar constituents exceeding their respective Commercial SCOs also existed under the northern portion of the former PCW slab. Approximately 42 percent of the lead-impacted soil contained lead at concentrations that also exceeded the Toxicity Characteristic Leaching Procedure (TCLP) standard of 5 milligrams per liter (mg/L). An isolated area underlying the southeastern portion of the slab also contained concentrations of chromium above its Commercial SCO.

In addition to the impacts to Site soil, evaluation of historical documents from the Site indicated that underground storage tanks (USTs) may have been present on the southeastern corner of the building. Subsequent investigation confirmed the presence of the USTs; the removal of which was incorporated into the IRM.

The remedial action at the Site consisted of the excavation and off-site disposal of soils exceeding the restricted commercial SCO throughout the soil column. The remedial action was completed in November of 2014. The Site Management Plan (SMP) and the Final Engineering Report (FER) were approved in November and December of 2015, respectively. On December 23, 2014, the NYSDEC issued the Certificate of Completion for the Site. The COC requires the implementation of the SMP and the submittal of this PRR.

### **III. Evaluate Remedy Performance, Effectiveness, and Protectiveness**

The remedy at the Tract I site was to demolish the buildings, and remove and dispose of all soil that exceeded the Commercial SCOs or the TCLP lead standard. Soil that exceeded the TCLP standard of 5.0 mg/L lead was treated prior to off-site disposal. The excavated areas of the site were backfilled with either crushed construction debris that meets the commercial SCO, or imported fill that meets the applicable Allowable Constituent Levels for Imported Fill or Soil published in 6 NYCRR Part 375. No demarcation layer was required on the Site. After completion of the remediation, the soil met the Commercial SCOs throughout the soil column. A deed restriction was placed on the property forbidding its use for all but commercial and industrial purposes.

In preparation for redevelopment a 15 foot wide strip of land containing 0.302 acre was transferred from Brightfields II Corp. to Brightfields Corp. to accommodate the proposed construction. A copy of the 15 foot strip land survey and associated environmental easement is attached for your records. It is understood that this action in no way changes the BCP boundary.

In March of 2016, notification was sent to the DEC indicating that the redevelopment of the property was commencing. A copy of the Site Plan was provided along with confirmation that the SMP would be adhered to and air monitoring would be performed. During construction, a surplus of spoils was generated which were characterized and shipped off-site to a licensed disposal facility. A copy of those records is attached.

Construction was complete in November 2016. The site has been completely restored except for some minor grading and lawn restoration on the east side. A copy of the Site Plan and Certificate of Occupancy is attached for your records.

#### **IV. IC/EC Plan Compliance Report**

##### **A. IC/EC Compliance Report**

The only institutional control (IC) on the Site is a deed restriction filed with the Niagara County Recorder of Deeds for the Tract I property. The IC limits the use of the Site to commercial and/or industrial uses and prohibits its use for residential or unrestricted purposes. The objective of the IC is to limit human exposure to the constituents present exceeding the Unrestricted SCO. The performance of the IC is evaluated by comparing the current use(s) to those specified in the NYSDEC DER-10 Technical Guidance document. The Tract I Site is currently unused, and, as such, meets the requirements of the IC. The IC is fully in place, remains effective, and no corrective measures are required. No changes to the ICs are recommended at this time.

No engineering controls (ECs) were necessary for the Tract I remediation.

##### **B. IC/EC Certification**

#### **V. Monitoring Plan Compliance Report**

The Monitoring Plan requirements for the Site were limited to annual inspection. The Annual Inspection Form was included in the SMP as Appendix F. The annual inspection monitoring was completed once on February 2, 2016. The results of the annual inspection revealed that the Site continues to meet the remedial objectives. The completed Annual Inspection Form is provided in **Attachment 1**.

#### **VI. Operation & Maintenance Plan Compliance Report**

The Tract I remedy required no Operation & Maintenance Plan.

#### **VII. Overall PRR Conclusions and Recommendations**

The conclusions of the PRR are that the Site remains in compliance with the ICs, and that annual monitoring has confirmed that the remedy remains effective. The Site was unused during the past year; however, redevelopment for industrial purposes is planned to begin in the Spring of 2016. Given that the planned use of the Site will be industrial, and that the Site meets the Commercial SCOs throughout

the soil column, we recommend that the submittal of future PRRs be limited to once every five years or upon discovery, via the annual Site inspection, that the Site use has changed. If a five year PRR cycle is approved by the NYSDEC, the Site inspections would still be conducted annually; however, the compiled information would be submitted in a five-year PRR unless the Site use changes.

**Periodic Review Report (PRR) Certification Statements**

1. I certify by checking "YES" below that:

- a) the Periodic Review report and all attachments were prepared under the direction of, and reviewed by, the party making the certification;
- b) to the best of my knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program, and generally accepted engineering practices; and the information presented is accurate and complete.

YES NO

☒ ☐

2. If this site has an IC/EC Plan (or equivalent as required in the Decision Document), for each Institutional or Engineering control listed in Boxes 3 and/or 4, I certify by checking "YES" below that all of the following statements are true:

- (a) the Institutional Control and/or Engineering Control(s) employed at this site is unchanged since the date that the Control was put in-place, or was last approved by the Department;
- (b) nothing has occurred that would impair the ability of such Control, to protect public health and the environment;
- (c) access to the site will continue to be provided to the Department, to evaluate the remedy, including access to evaluate the continued maintenance of this Control;
- (d) nothing has occurred that would constitute a violation or failure to comply with the Site Management Plan for this Control; and
- (e) if a financial assurance mechanism is required by the oversight document for the site, the mechanism remains valid and sufficient for its intended purpose established in the document.

Environment & Infrastructure - Pittsburgh  
800 North Bell Avenue  
Carnegie, Pennsylvania 15106

SITE LOCATION MAP

Figure: 1

**ENVIRONMENTAL EASEMENT GRANTED PURSUANT TO ARTICLE 71, TITLE 36  
OF THE NEW YORK STATE ENVIRONMENTAL CONSERVATION LAW**

**THIS INDENTURE** made this 7<sup>th</sup> day of MARCH, 2017 between Owner(s) Brightfields Corporation, having an office at 333 Ganson Street, Buffalo, New York 14203, County of Erie, State of New York (the "Grantor"), and The People of the State of New York (the "Grantee."), acting through their Commissioner of the Department of Environmental Conservation (the "Commissioner", or "NYSDEC" or "Department" as the context requires) with its headquarters located at 625 Broadway, Albany, New York 12233,

**WHEREAS**, the Legislature of the State of New York has declared that it is in the public interest to encourage the remediation of abandoned and likely contaminated properties ("sites") that threaten the health and vitality of the communities they burden while at the same time ensuring the protection of public health and the environment; and

**WHEREAS**, the Legislature of the State of New York has declared that it is in the public interest to establish within the Department a statutory environmental remediation program that includes the use of Environmental Easements as an enforceable means of ensuring the performance of operation, maintenance, and/or monitoring requirements and the restriction of future uses of the land, when an environmental remediation project leaves residual contamination at levels that have been determined to be safe for a specific use, but not all uses, or which includes engineered structures that must be maintained or protected against damage to perform properly and be effective, or which requires groundwater use or soil management restrictions; and

**WHEREAS**, the Legislature of the State of New York has declared that Environmental Easement shall mean an interest in real property, created under and subject to the provisions of Article 71, Title 36 of the New York State Environmental Conservation Law ("ECL") which contains a use restriction and/or a prohibition on the use of land in a manner inconsistent with engineering controls which are intended to ensure the long term effectiveness of a site remedial program or eliminate potential exposure pathways to hazardous waste or petroleum; and

**WHEREAS**, Grantor, is the owner of real property located at the address of 3201 Highland Avenue in the City of Niagara Falls, County of Niagara and State of New York, known and designated on the tax map of the County Clerk of Niagara as tax map parcel numbers: a portion of Section 144.06 Block 2 Lot 27.1, being the same as that property conveyed to Grantor by deed dated April 7, 2016 and recorded in the Niagara County Clerk's Office in Instrument No. 2016-05895. The property subject to this Environmental Easement (the "Controlled Property") comprises approximately 0.302 +/- acres, and is hereinafter more fully described in the Land Title Survey dated February 14, 2014 and last revised October 31, 2016 prepared by Kenneth L. Slaughenhoupt, L.L.S. of Niagara Boundary and Mapping Services, which will be attached to the Site Management Plan. The Controlled Property description is set forth in and attached hereto as Schedule A; and

**WHEREAS**, the Department accepts this Environmental Easement in order to ensure the protection of public health and the environment and to achieve the requirements for remediation

established for the Controlled Property until such time as this Environmental Easement is extinguished pursuant to ECL Article 71, Title 36; and

**NOW THEREFORE**, in consideration of the mutual covenants contained herein and the terms and conditions of Order on Consent Index Number: B9-0777-08-03, Grantor conveys to Grantee a permanent Environmental Easement pursuant to ECL Article 71, Title 36 in, on, over, under, and upon the Controlled Property as more fully described herein ("Environmental Easement").

1. Purposes. Grantor and Grantee acknowledge that the Purposes of this Environmental Easement are: to convey to Grantee real property rights and interests that will run with the land in perpetuity in order to provide an effective and enforceable means of encouraging the reuse and redevelopment of this Controlled Property at a level that has been determined to be safe for a specific use while ensuring the performance of operation, maintenance, and/or monitoring requirements; and to ensure the restriction of future uses of the land that are inconsistent with the above-stated purpose.

2. Institutional and Engineering Controls. The controls and requirements listed in the Department approved Site Management Plan ("SMP") including any and all Department approved amendments to the SMP are incorporated into and made part of this Environmental Easement. These controls and requirements apply to the use of the Controlled Property, run with the land, are binding on the Grantor and the Grantor's successors and assigns, and are enforceable in law or equity against any owner of the Controlled Property, any lessees and any person using the Controlled Property.

A. (1) The Controlled Property may be used for:

**Commercial as described in 6 NYCRR Part 375-1.8(g)(2)(iii) and Industrial as described in 6 NYCRR Part 375-1.8(g)(2)(iv)**

(2) All Engineering Controls must be operated and maintained as specified in the Site Management Plan (SMP);

(3) All Engineering Controls must be inspected at a frequency and in a manner defined in the SMP;

(4) The use of groundwater underlying the property is prohibited without necessary water quality treatment as determined by the NYSDOH or the Niagara County Department of Health to render it safe for use as drinking water or for industrial purposes, and the user must first notify and obtain written approval to do so from the Department;

(5) Groundwater and other environmental or public health monitoring must be performed as defined in the SMP;

(6) Data and information pertinent to Site Management of the Controlled Property must be reported at the frequency and in a manner defined in the SMP;

(7) All future activities on the property that will disturb remaining

contaminated material must be conducted in accordance with the SMP;

(8) Monitoring to assess the performance and effectiveness of the remedy must be performed as defined in the SMP;

(9) Operation, maintenance, monitoring, inspection, and reporting of any mechanical or physical components of the remedy shall be performed as defined in the SMP;

(10) Access to the site must be provided to agents, employees or other representatives of the State of New York with reasonable prior notice to the property owner to assure compliance with the restrictions identified by this Environmental Easement.

B. The Controlled Property shall not be used for Residential or Restricted Residential purposes as defined in 6NYCRR 375-1.8(g)(2)(i) and (ii), and the above-stated engineering controls may not be discontinued without an amendment or extinguishment of this Environmental Easement.

C. The SMP describes obligations that the Grantor assumes on behalf of Grantor, its successors and assigns. The Grantor's assumption of the obligations contained in the SMP which may include sampling, monitoring, and/or operating a treatment system, and providing certified reports to the NYSDEC, is and remains a fundamental element of the Department's determination that the Controlled Property is safe for a specific use, but not all uses. The SMP may be modified in accordance with the Department's statutory and regulatory authority. The Grantor and all successors and assigns, assume the burden of complying with the SMP and obtaining an up-to-date version of the SMP from:

Site Control Section  
Division of Environmental Remediation  
NYSDEC  
625 Broadway  
Albany, New York 12233  
Phone: (518) 402-9553

D. Grantor must provide all persons who acquire any interest in the Controlled Property a true and complete copy of the SMP that the Department approves for the Controlled Property and all Department-approved amendments to that SMP.

E. Grantor covenants and agrees that until such time as the Environmental Easement is extinguished in accordance with the requirements of ECL Article 71, Title 36 of the ECL, the property deed and all subsequent instruments of conveyance relating to the Controlled Property shall state in at least fifteen-point bold-faced type:

**This property is subject to an Environmental Easement held  
by the New York State Department of Environmental Conservation**

**pursuant to Title 36 of Article 71 of the Environmental Conservation Law.**

F. Grantor covenants and agrees that this Environmental Easement shall be incorporated in full or by reference in any leases, licenses, or other instruments granting a right to use the Controlled Property.

G. Grantor covenants and agrees that it shall, at such time as NYSDEC may require, submit to NYSDEC a written statement by an expert the NYSDEC may find acceptable certifying under penalty of perjury, in such form and manner as the Department may require, that:

(1) the inspection of the site to confirm the effectiveness of the institutional and engineering controls required by the remedial program was performed under the direction of the individual set forth at 6 NYCRR Part 375-1.8(h)(3).

(2) the institutional controls and/or engineering controls employed at such site:

(i) are in-place;

(ii) are unchanged from the previous certification, or that any identified changes to the controls employed were approved by the NYSDEC and that all controls are in the Department-approved format; and

(iii) that nothing has occurred that would impair the ability of such control to protect the public health and environment;

(3) the owner will continue to allow access to such real property to evaluate the continued maintenance of such controls;

(4) nothing has occurred that would constitute a violation or failure to comply with any site management plan for such controls;

(5) the report and all attachments were prepared under the direction of, and reviewed by, the party making the certification;

(6) to the best of his/her knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program, and generally accepted engineering practices; and

(7) the information presented is accurate and complete.

3. Right to Enter and Inspect. Grantee, its agents, employees, or other representatives of the State may enter and inspect the Controlled Property in a reasonable manner and at reasonable times to assure compliance with the above-stated restrictions.

4. Reserved Grantor's Rights. Grantor reserves for itself, its assigns, representatives, and successors in interest with respect to the Property, all rights as fee owner of the Property, including:

A. Use of the Controlled Property for all purposes not inconsistent with, or limited by the terms of this Environmental Easement;

B. The right to give, sell, assign, or otherwise transfer part or all of the underlying fee interest to the Controlled Property, subject and subordinate to this Environmental Easement;

5. Enforcement

A. This Environmental Easement is enforceable in law or equity in perpetuity by Grantor, Grantee, or any affected local government, as defined in ECL Section 71-3603, against the owner of the Property, any lessees, and any person using the land. Enforcement shall not be defeated because of any subsequent adverse possession, laches, estoppel, or waiver. It is not a defense in any action to enforce this Environmental Easement that: it is not appurtenant to an interest in real property; it is not of a character that has been recognized traditionally at common law; it imposes a negative burden; it imposes affirmative obligations upon the owner of any interest in the burdened property; the benefit does not touch or concern real property; there is no privity of estate or of contract; or it imposes an unreasonable restraint on alienation.

B. If any person violates this Environmental Easement, the Grantee may revoke the Certificate of Completion with respect to the Controlled Property.

C. Grantee shall notify Grantor of a breach or suspected breach of any of the terms of this Environmental Easement. Such notice shall set forth how Grantor can cure such breach or suspected breach and give Grantor a reasonable amount of time from the date of receipt of notice in which to cure. At the expiration of such period of time to cure, or any extensions granted by Grantee, the Grantee shall notify Grantor of any failure to adequately cure the breach or suspected breach, and Grantee may take any other appropriate action reasonably necessary to remedy any breach of this Environmental Easement, including the commencement of any proceedings in accordance with applicable law.

D. The failure of Grantee to enforce any of the terms contained herein shall not be deemed a waiver of any such term nor bar any enforcement rights.

6. Notice. Whenever notice to the Grantee (other than the annual certification) or approval from the Grantee is required, the Party providing such notice or seeking such approval shall identify the Controlled Property by referencing the following information:

County, NYSDEC Site Number, NYSDEC Brownfield Cleanup Agreement, State Assistance Contract or Order Number, and the County tax map number or the Liber and Page or computerized system identification number.

Parties shall address correspondence to:      Site Number: 932136  
Office of General Counsel  
NYSDEC  
625 Broadway  
Albany New York 12233-5500

With a copy to:      Site Control Section  
Division of Environmental Remediation  
NYSDEC  
625 Broadway  
Albany, NY 12233

All notices and correspondence shall be delivered by hand, by registered mail or by Certified mail and return receipt requested. The Parties may provide for other means of receiving and communicating notices and responses to requests for approval.

7. Recordation. Grantor shall record this instrument, within thirty (30) days of execution of this instrument by the Commissioner or her/his authorized representative in the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

8. Amendment. Any amendment to this Environmental Easement may only be executed by the Commissioner of the New York State Department of Environmental Conservation or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

9. Extinguishment. This Environmental Easement may be extinguished only by a release by the Commissioner of the New York State Department of Environmental Conservation, or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

10. Joint Obligation. If there are two or more parties identified as Grantor herein, the obligations imposed by this instrument upon them shall be joint and several.

**Remainder of Page Intentionally Left Blank**

**IN WITNESS WHEREOF**, Grantor has caused this instrument to be signed in its name.

**\*\*\*PLEASE NOTE INDEMNIFICATION AGREEMENT\*\*\***

The Customer agrees to indemnify, defend and hold harmless the Contractor against all claims, damages, suits, judgments, penalties, fines and other liability or injury or death to persons or loss or damage to property arising out of the Customer's use, operation or possession of the equipment or arising out of the Customer's breach of any warranty created hereunder by the Customer. The Customer shall not overload the equipment nor use it for incineration purposes or make alterations without the contractor's written approval.
