Subject: NYSDEC Site #E828144 - Andrews St 12/13/10 demolition progress

Charlotte,

At-grade and below-grade demolition work was not conducted on 12/13/10 at the 300, 304-308 and 320 Andrews Street and 25 Evans Street Site. It is currently anticipated that the contractor will remove hard debris from the Site and import CR2 backfill later this week (i.e., 12/16/10 or 12/17/10). At-grade and sub-grade demolition work is scheduled to resume Monday December 20, 2010. The NYSDEC will be kept update as this schedule is finalized.

Subject: NYSDEC Site #E828144 - Andrews St 12/16/10 demolition progress

Charlotte,

At-grade and below-grade demolition work was not conducted on 12/16/10 at the 300, 304-308 and 320 Andrews Street and 25 Evans Street Site. Due to the accumulation of water and snow and the generation of ice within the basements of the demolished buildings, meeting the backfill compaction requirements has become a concern. As such, Foundation Design will be evaluating the Site conditions and provide recommended options to meet the compaction requirements under the current Site condition the week of December 20, 2010. Following Foundation Design's evaluation, the contractor may resume work at the Site and import CR2 backfill the week of December 20, 2010. At-grade and sub-grade demolition work may also resume the week of December 20, 2010. The proposed schedule is dependent on weather conditions. The NYSDEC will be kept up to date as this schedule is finalized.
