

RESTORE NEW YORK COMMUNITIES INITIATIVE ROUND III PROJECT DESCRIPTIONS

CAPITAL REGION

TOTAL GRANT MONIES: \$15,083,996

- **City of Albany – Arbor Hill Reclamation Project**

Grant Total: \$5,000,000

The Arbor Hill Reclamation Project proposes to redevelop anchor properties along two commercial corridors in the Arbor Hill neighborhood. This includes the rehabilitation of the former St. Joseph's Academy (41,448 square feet) on North Swan Street into a cultural art center, business incubator and 25 artist apartments. The project also includes the rehabilitation of four residential homes and two mixed use buildings (first floor commercial, second floor apartments) along Henry Johnson Boulevard and Clinton Avenue. All housing units will be offered at affordable rents.

- **City of Glen Falls – Empire Square Project**

Grant Total: \$500,000

Jobs Created: 100

The Empire Square Project involves the rehabilitation of 55,000 square feet of vacant warehouse space into 24 loft-style apartments and 25,000 square feet of retail and Class A office space within the Glens Falls central business district. The building, which covers an entire block along the Warren Street gateway, is targeted for redevelopment under the city's Master Plan, the Empire Zone program, and an Environmental Protection Agency-funded Brownfield Assessment Program. This project will transform the former "Empire Automotive" sales and warehouse facility into a retail, office and residential center. Restore NY funding will add to New York Main Street funding and bank financing to help create 100 or more jobs within the downtown.

- **City of Schenectady – ALCO Industrial Site Redevelopment**

Grant Total: \$4,000,000

The ALCO Industrial Site Redevelopment Project site is located at the former 60-acre ALCO manufacturing facility adjacent to downtown Schenectady and the Mohawk River. The project will entail the demolition of existing dilapidated industrial structures, the redevelopment and renovation of vacant and underutilized industrial buildings, significant site infrastructure improvements, the construction of a new mixed use commercial and residential complex and the creation of a waterfront public park.

- **City of Troy – Proctors Theater Redevelopment**

Grant Total: \$4,000,000

Jobs Created: 300

Proctors Theatre, vacant since 1977, together with adjoining structures located immediately to the north of this building, form a critical anchor to the Fourth Street area of Troy's historic downtown. Through this Restore NY project, the historic Proctors facade will be restored, abandoned auditorium and office space will be demolished and reconstructed and hazardous materials will be removed. Facade restoration and rehabilitation activities will also be undertaken in a vacant commercial office building located at 70-76 Fourth Street. The project will yield more than 100,000 square feet of retail, office, incubator, and technology space and will utilize the existing dramatic entrance of Proctor's Theatre. The project will create more than 300 new jobs.

- **Village of Tannersville – Tannersville Theater District Project**

Grant Total: \$1,083,996

The Tannersville Theater District Project involves the rehabilitation of two prominent Main Street buildings in the immediate vicinity of the Orpheum Theater project. The Orpheum, currently undergoing a multi-million dollar renovation, is destined to become a major visitor attraction. To take advantage of that new anchor, the Theater District Project will rehabilitate nearly 14,000 square feet of multi-use space that will provide opportunities for activities supportive and complementary of the theater. These may include restaurants, nightclubs, office space and artist/performer housing. The project will continue an ongoing renaissance on the Tannersville downtown, establishing it as a vibrant attraction in the heart of the Catskill Mountains.

- **Village of Hudson Falls – First National Bank Building Redevelopment**

Grant Total: \$500,000

The First National Bank Building Project involves the rehabilitation of a vacant three-story, 15,000 square foot former First National Bank building in the Village center at 124-130 Main Street. Renovations will include first floor commercial space and two upper floors of first class office space. The project includes site work on adjacent property to provide needed parking. This is identified as a key project in the Village's current Brownfield Opportunities Area program and plan, is within the Washington County Empire Zone, and would have a significant impact on the economic viability of the downtown and Village.

CENTRAL NEW YORK REGION

TOTAL GRANT MONIES: \$14,987,020

- **Village of Canastota – Zupan’s Auto & Salvage**

Grant Total: \$1,685,000

Jobs Created: 80 jobs within two years

Working along with the Village of Canastota, Zupan’s Auto & Salvage proposes a project to will rehabilitate a nine acre site which was once occupied by multiple derelict and fire ravaged buildings. Zupan’s Auto & Salvage acquired the property and subsequently remediated the site by demolishing a 200,000 square foot building and leaving a 48,000 square foot building and a 5,600 square foot building to rehabilitate. The project comprises the rehabilitation of both the 48,000 square foot and the 5,600 square foot steel structured buildings. The buildings will be leased to a commercial tenant proposing to create 80 jobs within two years.

- **Town of Sullivan – The Pottery**

Grant Total: \$900,000

The project will result in the rehabilitation of the historic Chittenango Pottery Company site located at 11-13 Pottery Street, adjacent to the Village of Chittenango on the Erie Canal. The 1.6-acre site is currently in the process of being listed on the State and National Registers of Historic Places and it is located in the Erie Canalway National Heritage Corridor. The buildings are the only remaining structures that reflect the Canal’s past industrial heritage in the vicinity of Chittenango. Two large circa 1898 brick buildings at the site are currently vacant and in poor condition. The buildings (approximately 15,800 square feet combined) will be renovated into a mixed-use project of loft-style rental housing and several commercial uses. The proposed mixed use of the property will complement the recreational activities along the Canal and the ongoing public programming at the Chittenango Landing Canal Boat Museum.

- **City of Oswego – The Stevedore**

Grant Total: \$1,600,000

This project develops the Oswego Stevedore Building, 317 West First Street, a vacant warehouse located on the Erie Canal Heritage Corridor and in the Oswego Empire Zone. The Stevedore building is listed on the national Register of Historic Places as the “Standard Yarn Company Factory.” The Stevedore Project developer proposes to transform the vacant warehouse space into a mixed use building, creating 33 market rate residential units and five commercial retail/office spaces in the building. Oswego County nominated this property for the City of Oswego Brownfields Opportunity Area Program. Development of the Oswego Stevedore is consistent with the Oswego 2020 Vision Plan and local waterfront revitalization program addressing the need for market rate housing, job creation and economic development in Oswego’s downtown waterfront district.

- **City of Syracuse – Connective Corridor: Building Upwards**

Grant Total: \$6,300,000

The Connective Corridor is an ongoing community project to connect Syracuse University with cultural institutions and Downtown Syracuse via a comprehensive streetscape and transportation improvement plan. The project seeks to build on this effort by focusing on residential, commercial and retail mixed-development projects along the Downtown component of the Connective Corridor. The overall project consists of five properties, including renovations to four existing buildings and demolition of three adjoining properties to be reconstructed into one new 40,000 square foot facility.

The City of Syracuse recognizes that a successful urban center requires a strong mix of residents, workers and visitors. This project will make a significant impact in achieving this goal.

- **Village of Liverpool – First Street Redevelopment**

Grant Total: \$883,302

The Village of Liverpool will redevelop First Street, its historic “Main Street.” Funding will assist a developer, working with village officials, to complete the rehabilitation of a strategically situated, historic three-story structure of 11,200 square feet at 401-403 First Street, which is currently vacant and in extremely poor structural condition. The developer has received site plan approval and submitted construction documents for a mixed use building permit (nine apartments and two retail spaces). Completion of this project is essential to the fulfillment of the Village’s Comprehensive Plan for revitalization.

- **Village of Camillus – Downtown Urban Redevelopment Initiative**

Grant Total: \$2,500,000

The project consists of the demolition and rehabilitation/reconstruction of two properties along the main street in the Village of Camillus: (1) the former Camillus Cutlery Building located at 52-54 Genesee Street in the Village Center and (2) 55 Genesee Street, across the street from Camillus Cutlery. The Camillus Cutlery property is situated adjacent to the Nine Mile Creek feeder canal, making it an attractive redevelopment opportunity. This portion of the project consists of the redevelopment of 134,500 square feet of the former Camillus Cutlery multi-building complex situated on four acres. Site restoration will include a multi-use creekside development with a mix of professional/business offices, commercial/retail space, residential units and adjacent green areas. The project will entail hazardous substance remediation, demolition and new renovation/construction. The Kirk Building (55 Genesee Street) portion of the project consists of a partial demolition, remediation of hazardous substances and renovation of the premises to a mixed commercial/retail and residential space. The premises include a two-story, 6,000 square foot building situated on less than half an acre, and is conspicuously located in an existing line of attached historically significant buildings. Camillus Cutlery, which historically represented the Village’s life blood, employing hundreds of people that patronized village businesses, now sits vacant. Its closure and dilapidated state has contributed to the deterioration of both the village center and village generally. In the same vein, the 55 Main Street property has been condemned by Village Code Enforcement and represents a dilapidated eyesore surrounded by viable premises. The village’s Comprehensive Plan, completed in 2007, recognized the need for rehabilitation, reoccupation and use of the Camillus Cutlery, and vacant and deteriorated Village Center buildings in order to create momentum for the rebirth of the Village of Camillus.

- **Village of Pulaski – North Jefferson Street Revitalization Project**

Grant Total: \$818,718

The North Jefferson Street Revitalization Project will rehabilitate and renovate three, historically significant buildings located on North Jefferson Street in the Historic District of the Village of Pulaski, along the escarpment of the Salmon River. Renovations will be made to the interior of one and the interior, exterior and site of two buildings to establish a mix of commercial and residential uses. The project will encourage new business enterprises, increase occupancy, add to the tax base, attract new residents and visitors, support a diversity of activity and compliment other restoration and revitalization work currently underway in the village. This project is consistent with the goals and recommendations of the 2009 Town of Richland and Village of Pulaski Comprehensive Plan.

- **Town of Cortlandville – Cortlandville Cultural Gateway Project**

Grant Total: \$300,000

The project includes renovations to the 23,000 square foot main building of the future home of the Central New York Living History Center. The complex of vacant commercial buildings will house a Brockway Trucks Museum and the collections of Ken Eaton, including 160 years of war and railroad memorabilia. Funding will allow the museum to open in late 2010, improves the gateway to the Town of Cortlandville and establishes a visitor center along the banks of the Tioughnioga River.

Renovations will also be made to the 16,000 square foot vacant, former Grossman's Outlet building as a home for the Cortland Repertory Theater. The site is located directly across Route 11 from the History Center. This regional theater would gain increased space for winter productions, set construction, costume storage and office space. In tandem with the museum, it establishes a gateway in the Town.

FINGER LAKES REGION

TOTAL GRANT MONIES: \$ 17,144,300

- **Village of Fairport – Parker Street/Southeast Docking/Towpath Park**

Grant Total: \$156,714

Restore NY funds will be used to demolish and remove five buildings (wood frame, metal garages, concrete block) as part of a redevelopment and reuse project of the vacant Department of Public Works site (1.62 acres) along the Erie Canal in the heart of Fairport's business district. A mixed-use development concept has been proposed by a private developer that includes construction of 33 market rate condominiums/apartments and a 5,000 square foot commercial building that will feature a gourmet pizza bar and wines from Casa Larga. The redevelopment and reuse of this parcel is part of the Village's 2007 Comprehensive Plan Land Use and Design Report and received an Environmental Protection Fund Local Waterfront Revitalization Program grant in November 2008 for \$534,000 for a public access component along the waterfront.

- **City of Rochester – Center City Commercial and Mixed Use Initiative**

Grant Total: \$6,000,000

The market for downtown living has experienced unprecedented growth in the past eight years. Restore NY funds will be used to create 80 new market-rate housing units and the renovation of 220,493 square feet of commercial space in five downtown buildings. These proposed redevelopment projects are in conformance with the Center City Master Plan and they will have significant benefits for the city's tax base.

- **City of Rochester – Development Site Clearance Project**

Grant Total: \$3,500,000

Two privately-owned sites will utilize Restore NY funds for demolition to create shovel-ready sites: an 8.14 acre deteriorated industrial complex for new housing units and phase I of a 6.4 acre site (formerly occupied by the Genesee Hospital). Restore NY funds will also be used to demolish 96 city-owned residential and commercial buildings as part of the ongoing strategy to right-size the housing stock, assemble sites for development and implement focused demolition of obsolete properties.

- **Village of Penn Yan – Mixed Use Redevelopment**

Grant Total: \$2,500,000

The Downtown Penn Yan Revitalization project includes the rehabilitation of three buildings totaling 56,470 square feet. These buildings are vacant or substantially vacant and are located in the heart of the village along the Keuka Outlet. They are within the Yates County Empire Zone and part of the recently completed Waterfront Development Plan area. Upon completion, the former Garrett Winery Building will be used for a restaurant, office and retail space and the Water Street Warehouse Buildings will be used for retail, office and apartments. The Warehouse buildings are included in the State and National Historic District. The successful rehabilitation of these blighted buildings will be truly transformational for Penn Yan, both visually and economically.

- **Village of Medina – Pearl & Main Revitalization**

Grant Total: \$304,109

The project focuses on four structures in the Pearl Street/Main Street neighborhood near the Village's downtown. This rehabilitation will help to rejuvenate downtown Medina and its historic charm.

- **Village of Mount Morris – New Family Theater**

Grant Total: \$433,477

The New Family Theater is a circa 1920's Art Deco movie theater that has been abandoned, vacant and deteriorating in downtown Mount Morris for more than 25 years. The village plans to demolish the +/- 4,000 square foot rear auditorium due to its advanced state of decay. The front 1,500 square foot original building and its Main Street facade will be renovated so that it can be marketed to a private developer for new commercial use. The building was the primary focus of a recently completed Downtown Strategic Plan. Renovating the building for new commercial use will significantly further the Village's downtown revitalization efforts.

- **Village of Seneca Falls – Seneca Falls Canal Corridor Revitalization**

Grant Total: \$2,500,000

The Village of Seneca Falls, in collaboration with the Town of Seneca Falls, will rehabilitate the Seneca Knit Mill and demolish two surrounding structures, providing a safe and spacious facility for the National Women's Hall of Fame. Located adjacent to the Erie Barge Canal in the Village of Seneca Falls, the birthplace of Women's Rights, the Seneca Knit Mill, a 34,456 square foot vacated industrial building, will increase visibility for the Hall of Fame and its more than 15,000 annual visitors. Additionally, the village will demolish two vacated buildings to improve the aesthetic and commercial environment on the south side of the Canal and provide much needed waterfront space. This project will allow the village to implement the integral first phase of redevelopment along the Canal Corridor, immediately encouraging economic investment in this fiscally distressed community.

- **City of Batavia – Masse Gateway Redevelopment**

Grant Total: \$1,500,000

The project will include demolition and reconstruction within an area that will become a gateway to the Batavia Industrial Center (BIC). The BIC is an underutilized complex of almost one million square feet within the City of Batavia's core industrial area. Batavia's Central Corridor Plan has identified redevelopment of this Empire Zone site as a priority. The project will demolish portions (39,600 square feet) of three interconnected buildings now blocking access into the site from Main Street via Masse Place. The Project will also rehabilitate and reconstruct buildings remaining within the gateway area (120,000 square feet) in order to provide updated, more marketable business incubator and flex-space within a campus setting having direct visual, pedestrian and vehicular connections to Main Street. The \$3.1 million project cost will include related site, utilities, infrastructure, parking and exterior lighting improvements and is anticipated to lead to an additional \$5 million in investments by tenants.

- **Village of Churchville – Luster Coate Redevelopment**

Grant Total: \$250,000

Luster Coate Brownfield site has old industrial buildings with contaminants. This four-acre site is proposed to be redeveloped by Lotus Green Development, LLC, as mixed-use with green housing units built along Black Creek. The grant request covers the demolition, creekside trail with lighting and site preparation. This demolition/site development project will expedite the housing development located along the water shore of Black Creek in the central part of the village. The village master plan has identified this central area as the village's central district and ideally suited for mixed

residential commercial usage. The abandoned industrial site is negatively affecting the neighborhood and future economic development. Some unique features of this sustainable green development are high energy efficiency, LED lighting, geothermal heating, ventilation and air conditioning (HVAC) system, solar panels and onsite shared gardening area. Construction of a public walkway trail, along the creek, will also enhance recreational opportunities at this location.

LONG ISLAND REGION

TOTAL GRANT MONIES: \$10,953,000

- **Town of Riverhead – East Main Street Revitalization Atlantis Marine World Aquarium**

Grant Total: \$2,400,000

The Atlantis Marine World Aquarium Project encompasses demolition, reconstruction and expansion of anchor buildings in Riverhead's downtown. The project will reconstruct two demolished underutilized properties into a five-story, 101-room Hyatt Place hotel (66,082 square feet) and add a two-story changing exhibit gallery and catering hall (26,901 square feet). The town proposes the enhancement of the existing aquarium to a 6.5-acre site (a New York State Empire Zone), to strategically advance the Town of Riverhead's East Main Street Urban Renewal Plan objectives. The expansion will add approximately 140 permanent employees (107 Part-Time and 33 Full-Time) and 150 construction jobs for approximately 12-18 months. Aquarium affiliated businesses (marina, restaurant) project an additional 20 jobs. Hotel occupancy projections are 72-74 percent year-round, extending the 4-month tourist season that fuels the Eastern Long Island economy. Improvements will eliminate blight and revitalize this waterfront getaway to attract visitors (projected to increase 20 percent to 480,000 year) from the Tri-state area and beyond.

- **Town of Hempstead – Elmont Hempstead Turnpike Commercial Renovations**

Grant Total: \$2,412,000

The town will demolish and reconstruct 12 mixed use properties (retail & residential), totaling 59,908 square feet. The project, supported by the Visioning Plan and created with the community's help and input, includes the continued revitalization of Elmont's downtown by demolishing, rehabilitating, and reconstructing deteriorated vacant and abandoned commercial and mixed-use properties located on Hempstead Turnpike, west of the proposed Argo theater project which was the subject of a Restore 2 grant. This project will boost the town's ability to attract a qualified developer for the supermarket (a crucial anchor enterprise) proposed on the Argo theater site.

Furthermore, it will enhance ESDC's plans for the redevelopment of Belmont Park located just west of this proposed project. It will contribute to a coherent and aesthetic downtown, increase local employment opportunities, generate investment, revamp abandoned and underutilized properties and create a positive image and attitude in the community.

- **Town of Huntington – Plaza Retail Center**

Grant Total: \$1,170,000

The town will demolish a vacant, deteriorated 4,200 square foot auto body shop for construction of a mixed-used building that will foster economic and job growth in Huntington Station. The project is part of the "Take Back the Blocks" initiative. The project site is close proximity to the town's major transportation hub serving 11,000 commuters daily and is a transit oriented development project. The owner will act as developer.

The proposed project will include four one-bedroom residential unites on the second floor and 3,600 square feet of commercial space on the first floor as well as 18 on-site parking spaces.

- **Town of Patchogue – 31 West @ New Village**

Grant Total: \$ 2,471,000

The town proposes the development of a transit oriented urban renewal project consisting of a 9,500 square foot retail and 17,000 square foot office. The building rehabilitation includes; a facade renovation, the reintroduction of the cornice at the top of the building, new storefronts, new office space, a new main entrance and lobby core, and an upgraded elevator, bathrooms and hallways. The project is expected to generate 81 construction and construction-related jobs during the six-month construction period and more than 150 permanent full-time equivalent jobs. The project is registered with the US Green Building Council Building.

- **Valley Stream – Sun Valley Towers**

Grant Total: \$2,500,000

The project will demolish three under-utilized vacant residential and commercial buildings totaling 20,000 square feet, to reconstruct a 92,000 square foot, five-story residential and commercial building. The first floor will provide four commercial units, totaling at 80,000 square feet (13,000 square feet for parking/20,000 square feet lower level parking). Floors two through five will provide 64 residential condos. The Valley Stream Long Island Rail Road station market analysis predicts that this development will not only improve area housing stock, but its economic ripple effect will induce greater commercial investment into the district.

MID-HUDSON REGION

TOTAL GRANT MONIES: \$ 17,205,000

- **City of Yonkers – Yonkers Former Main Street Library**

Grant Total: \$5,434,000

This project will rehabilitate a vacant and surplus library into a retail and office building. Since the City of Yonkers successfully completed its new Riverfront Library in 2002, its former downtown library at 5-7 Main Street has sat vacant in an otherwise healthy central business district known as Getty Square. The city has identified a developer who will purchase this three-story, 45,000 square foot building, completely renovate it and convert it into first floor retail and upper level professional offices. The building will once again be placed on the tax roll and become a productive part of our downtown, which is a designated Empire Zone. The project will revitalize a portion of Yonkers' urban core along its Main Street and induce commercial investment.

- **Town of Dover – The Knolls of Dover**

Grant Total: \$2,500,000

Dover is seeking Restore NY Funding for demolition of a portion of the former Harlem Valley Psychiatric Center (HVPC). The HVPC consists of 2 million square feet of vacant and contaminated space in 80 buildings on 850 acres. For decades, it housed over 5,000 patients with over 5,000 employees, and it was an integral part of the community. When state operations ceased in 1994, the town lost its major employer and was left with deteriorating buildings which exert a blighting influence on the community. After comprehensive studies, adopting flexible mixed use zoning and securing Empire Zone status for part of the site, a private partner for redevelopment of the HVPC was found. Dover Knolls purchased the state property in 2003 and is proposing to revitalize the site into a Town Center with approximately 250,000 square feet of commercial space.

- **City of Poughkeepsie – Academy Street Initiative**

Grant Total: \$2,395,000

The City of Poughkeepsie has identified Academy Street, between Main and Cannon Street, as a crucial component to the continued success of the revitalization of the existing Central Business District. This section of Academy Street includes the \$17 million renovation of the historic Luckey Platt Building; a private development consisting of 138 residential units and 25,000 square feet of commercial space. Rental and lease up efforts have been severely hindered by the recent spike in murders and shootings in the target area. To counteract the violent crime issue, the Academy Street Initiative will focus on the rehabilitation and reconstruction of a prominent, distressed and posted unsafe mixed-use building at 23 Academy Street.

Upon completion, 23 Academy Street Initiative will produce eleven residential units and an adjoining commercial space, all of which will benefit from green technology (sustainable finishes, geothermal and photovoltaic systems).

- **Village of Monticello – Monticello Downtown Revitalization Project**

Grant Total: \$1,750,000

Jobs Created: 70

The project is in the urban core of the Village, Census Tract #9518 and the Sullivan County Empire Zone. The project will include the demolition, rehabilitation and reconstruction of vacant and under

utilized structures on Broadway in the heart of the downtown business district. All parcels are within walking distance to each other. The project includes eight buildings, which consist of 33,000 square feet of new retail space and 15,000 square feet of new professional office space, 12,000 square feet of commercial and residential space to be rehabilitated and 48,000 square feet of commercial and mixed use space to be rehabilitated and reconstructed. The total project includes over 98,000 square feet of space to be occupied and will create an estimated 70 jobs after reconstruction. Over 250 linear feet of new building facades will be created. Tenants for many of the new spaces have been identified. Total private sector investment in this project is \$10 million. Planning and zoning approvals to be in-place by May 2009. The project is adjacent to an \$8 million New York State Department of Transportation road reconstruction initiative. The Sullivan County Industrial Development Agency to provide tax incentive assistance and the project is consistent with local Downtown Revitalization Plan and Sullivan County 2020 Strategic Plan.

- **Village of New Square – Heritage Park Industrial Complex**
Grant Total: \$1,621,000

The Village of New Square will reconstruct a new 26,250 square feet kosher poultry processing facility to be operated by Adir Poultry Inc., at 806 North Main Street—a 7.8 acre lot—near the entrance to the Village of New Square.

Currently, a small kosher poultry plant—measuring 5,000 square feet—operates on 830 North Main Street, adjacent to the proposed site. The Village has recently completed a rezoning process and the lot of the existing poultry plant was rezoned for residential use. This poultry facility will be closed down and, as it will not be serviceable in a residential area, it will be deemed surplus and no longer usable. ZD Realty, the owner of both lots, will donate the adjacent commercially zoned lot at 806 North Main Street to construct the new facility in order to ensure that the economic and social benefits of this local enterprise remain within the municipality.

- **City of Yonkers – Yonkers Philipse Manor Historic District Rehabilitation**
Grant Total: 3,505,000

This project will transform a block of 13 deteriorated, predominantly vacant, late 19th century buildings into nineteen residential units and approximately 16,000 square feet of retail space in Yonkers' downtown. A portion of the project is owned by Greyston Foundation and includes the demolition of the rear portion of six vacant buildings, while restoring the historic facades and rehabilitating the buildings' front portions into nine residential units and 4,000 square feet of retail. Greyston's project also includes the new construction of approximately 100 additional housing units behind this site on vacant land. The remaining seven properties will be rehabilitated with the facades restored resulting in ten new residential units and 12,000 square feet of retail. This project will revitalize Yonkers' urban core, induce commercial investment and improve the housing stock.

MOHAWK VALLEY REGION

TOTAL GRANT MONIES: \$12,475,255

- **City of Oneonta – Bresee Block Redevelopment Project**

Grant Total: \$2,200,000

The City of Oneonta proposes to comprehensively revitalize the heart of the downtown area by implementing the Bresee Block Redevelopment project. This project includes the demolition of over 50,000 square feet of vacant, dilapidated buildings; restoration of the vacant, historic Bresee's Building to 1906 vintage; rehabilitation of two adjacent mostly vacant mixed use buildings; and development of supporting access and parking facilities. Project funding includes state City-by-City, state Capital Assistance Program and Community Development Block grants; city funds and in-kind services; and private financing. The project will create 11,800 square feet of new retail and commercial space; 27 new housing units; and parking for 75 cars. The project will support the recently completed Water Street Revitalization and Clarion Hotel and Conference Center projects, as well as the Foothills Performing Arts Center scheduled for completion this summer.

- **City of Gloversville – Estee School Condominium Project**

Grant Total: \$2,500,000

The Estee School is a very prominent building at the north end of the downtown Main Street district in the City of Gloversville. The building was vacated by the Gloversville School District approximately 12 years ago. The east wing of the school was rehabilitated as upscale apartments 2 years ago by the Crossroads Incubator Corporation, a subsidiary of the Fulton County Economic Development Corporation, and has been very successful, with an occupancy rate over 90 percent. The proposed project to be assisted with Restore NY funds would rehabilitate the remainder of the school, into condominiums. The project would result in a multi-million dollar investment in downtown Gloversville, put a prominent vacant building back into productive use, make a substantial contribution to the City's tax base and bring residents back into downtown. This project will involve the rehabilitation of the former Estee School on Main Street in Gloversville into 25 condominiums and entails rehab of a total of 46,312 square feet of space.

- **City of Johnstown – Collingwood Ave and North Perry Housing Project**

Grant Total: \$420,000

The city has demolished two old commercial and industrial buildings on a 1.1 acre, 3 parcel site near the city center. The city will transfer ownership to a private developer who plans to construct three duplex townhouses. Each of the six housing units is approximately 1,355 square feet for a total of 8,130 square feet. These homes will be constructed to conform to the current market and neighborhood needs. Access to two of the duplex townhouses will be off of Collingwood Avenue and the third townhouse will be off of North Perry St. This project fulfills the objectives and needs identified in the city's "Comprehensive Plan." This project will also leverage the City's Brownfields Opportunity Area program.

- **Village of Cherry Valley – 29 Main Street Cherry Valley**

Grant Total: \$225,000

The project involves the renovation and restoration of the only vacant and abandoned mixed use building located on Main Street, in the historic Village of Cherry Valley. The building was erected circa 1856 and is approximately 6,400 square feet, including three floors and a basement. The goal is to return the structure to working form to offer space to businesses with local interests, thereby

providing a much needed economic boost to the village. The project will provide commercial space on the first floor, two as well as housing units for local residents on the second floor. The building will have parking facilities.. The exterior facade of the building will be restored in keeping with the surrounding architecture. The intention is to employ local businesses for the project. Local contractors will be employed for project construction.

- **Town of Richmondville – Maranatha Family Center**

Grant Total: \$2,314,600

The Maranatha Family Center project will demolish existing, vacant and unsafe barn space and rehabilitate the historic Dutch barn for future use. After demolition and rehabilitation, the reconstruction of a recreational/medical/fitness complex will commence. Phase I of the re-use of this building will entail a mix of office spaces and other types of facilities. At the project's completion, it will comprise the currently existing Maranatha Physical Therapy and Maranatha Fit-for-Life Fitness Center; leasable office space; meeting rooms; and a children's activity center. This multi-faceted complex will provide a much-needed recreational venue for the region. Additionally, it will offer leased business space to complimentary businesses, thus generating economic growth. The project is commensurate with several objectives in the Town of Richmondville Comprehensive Plan, as well as in the Schoharie Long Range Economic Development Strategy.

- **City of Rome – From Brown to Green Rome BOA Implementation Strategy**

Grant Total: \$1,690,000

This catalyst project, identified in Rome's Brownfield Opportunity Area (BOA) will rehabilitate three critical properties in Rome's downtown, bringing them from negative value to extremely marketable conditions. The Old City Hall building, located in the Bellamy-Gansevoort Historic District, will undergo exterior historic preservation, interior rehabilitation, and LEED certification, for future commercial uses. The Grand Hotel will undergo gut rehabilitation and energy-star rehabilitation to create modern residential and commercial space. The Nolan Building will undergo deconstruction, gut rehabilitation and reconstruction activities to provide flexible, energy-efficient commercial space. Supported by the City's comprehensive master plan, urban design plan, Main Street Development Assessment and the BOA nomination study this Restore NY initiative will energize our local tax base, leverage private investment and position Rome for prosperity in the new economy.

- **City of Utica – Genesee Street West Project**

Grant Total: \$2,125,655

The West side of Genesee Street in downtown Utica is in the heart of our targeted business district revitalization target area. The Genesee Street Corridor Improvement Project will assist (3) properties all located in the 100 and 200 block of Genesee Street. Genesee Street is the City of Utica's "Main Street" as it runs through the heart of the downtown and connects the residential area and the Utica Thruway exit of North Utica to the residential neighborhood in South Utica.

The City proposes to rehab three buildings that are all more than 50% vacant and unimproved. These include: the Winston Building rehabilitation of 3 floors of professional office space and 2 floors of loft-style residential space, 170-172 Genesee Street rehabilitation for the expansion of an existing software development company, and 180 Genesee Street rehabilitation for future commercial space.

- **Village of Sharon Springs – The Imperial Spa by Sharon Springs, Inc.**

Grant Total: \$1,000,000

Jobs Created: 100 jobs

The project aims to rehabilitate the historic Imperial Bathhouse (circa 1927) into a modern luxury spa, which will re-establish Sharon Springs as a spa destination. The Village of Sharon Springs has a rich history as a health spa destination that can count former presidents and captains of industry as guests, due to its unparalleled natural mineral waters. The rehabilitation will create spa and therapy areas of 41,200 square feet and 6,400 square feet for outdoor bathing facilities. The total renovated square footage, including all amenities such as restaurants and gift shops, will be 50,000 square feet. In conjunction with numerous nearby tourist attractions in Schoharie and Otsego Counties, the Imperial expects 40,000 day-trippers annually. In addition, with its exclusive relationship with DongBu Tour and Travel, the largest Korean travel agency on the east coast, the Imperial will, yearly, attract over 80,000 visitors. Based on the estimated revenue of \$190 per square foot for a luxury spa (International Spa Association in 2007), gross revenues for the Imperial Baths for the first full year of operation will be \$10.3 million and will create over 100 new jobs.

NEW YORK CITY REGION

TOTAL GRANT MONIES: \$10,000,000

- **New York City –Bush Terminal Site 39/40, 45**

Grant Total: \$10,000,000

Bush Terminal campus includes the demolition and reconstruction of the surplus municipal building. Currently 37,100 square feet of industrial buildings are situated on a 130,000 square foot site zoned to accommodate 260,000 square feet. The site is located in an Empire Zone, a Brownfields Opportunity Area study area, NYC industrial Business Zone and a new market tax credit eligible area. EDC would prepare the site for a new building to be constructed and/or used by private sector. Restore NY funds will be used for demolition, asbestos removal, utility upgrades and new construction. EDC is in discussions with interested industrial owner operators. A redeveloped site will generate private investment, jobs and taxes.

NORTH COUNTRY REGION

TOTAL GRANT MONIES: \$12,611,002

- **City of Watertown – Woolworth Hotel**

Grant Total: \$2,500,000

The historic Woolworth Building sits at the top of Public Square in downtown Watertown. The building will be rehabilitated to create a boutique hotel with 100 guest rooms on the 2nd through 6th floors, meeting rooms, restaurant and retail spaces on the ground floor and a new pool and fitness center in the basement and includes 72,850 square feet. This building, located in the center of downtown, has been abandoned for several years and is located in an Empire Zone. A multi-story parking garage will be built opposite the hotel on vacant property where deteriorated structures were recently demolished by the city.

- **Village of Malone – Flanagan Hotel**

Grant Total: \$2,164,751

The project includes the rehabilitation of the currently vacant Flanagan Hotel building located on Main Street in Downtown Malone into a 101 room hotel with street level commercial space. The building is located in an Empire Zone, is six stories tall and totals 93,100 square feet of space. The hotel first opened in 1914 in Downtown Malone, and since that time has served as an icon for the community. The Hotel suffered a fire in 1997 and has been vacant since that time. The community has identified downtown revitalization as a priority economic development strategy and the hotel's high visibility and connection to local history make it a key component to the success of downtown.

- **Heuvelton – Pickens Hall Phase IV**

Grant Total: \$490,000

This project includes funding for the restoration of the third floor of Pickens Hall, the Opera House Auditorium, which will provide performance space and rooms for the Heuvelton Historical Association's museum. This will complete the restoration of this historic jewel which serves as an anchor to the Heuvelton community.

- **City of Plattsburgh – Imperial Industrial Park—New Homes For Business**

Grant Total: \$2,500,000

The Imperial Park, site of the former Imperial Wallcoverings factory, which in the 1990's employed about 600 workers, is located on 46 acres in the City of Plattsburgh's Empire Zone. There is approximately 550,000 square feet of floor space under 10 acres of roof. The facility's current tenant occupancy is 35.2 percent. The Restore NY Grant will be used to rehabilitate the existing site, including replacing and insulating an approximately 200,000 square foot roof; restoring two rail spurs to the facility, constructing demising walls and installing energy efficient lighting to create smaller, more efficient manufacturing and warehouse spaces for new tenants. There has been communication with several possible tenants, including vendors for Bombardier and Nova Bus, which are very interested in locating to the facility if their facility needs can be met. This will potentially add hundreds of new jobs to the Plattsburgh area. This project is "Shovel Ready."

- **Keeseville – Ausable Horse Nail Co. Complex**

Grant Total: \$630,000

This project will revitalize the vacant but historic former Ausable Horse Nail Company complex along the Ausable River through an initiative by Adirondack Architectural heritage (AARCH), the private nonprofit historic preservation organization for the Adirondack region. The project will result in the creation of an architectural heritage center, rental office and apartment spaces, as well as four studio/living spaces for working artists. The revitalization of the mill has been a high priority community revitalization project in the village for the past decade.

- **Village of Carthage – Medical Office Complex**

Grant Total: \$579,136

This project includes construction on vacant land in the center of downtown Carthage, a 6,400 square foot two-story brick facade commercial medical office building for lease to Pediatrics and Family Primary Care Practices. The project will be constructed on, and adjacent to, the Carthage fire site (site of a five building fire in 2001). Two dilapidated buildings were demolished in February 2009 adjacent to the fire site to make room for this project. The project will result in the creation of 12 high paying jobs. The facility will generate more than 8,000 patient visits per year to downtown, which is critical to the sustainability of downtown businesses. The Carthage Area Hospital will be able to address expanded healthcare needs of the region associated with Fort Drum so that the area may remain economically competitive. This project will continue efforts recommended in the 2001 Carthage/West Carthage Downtown Revitalization Plan

- **Village of Cape Vincent – Roxy Hotel**

Grant Total: \$1,532,286

The Roxy Hotel (Roxy's), built in 1894, is literally the cornerstone of the business district in the Village of Cape Vincent. Listed on the New York State Historic Register, Roxy's is a three-story brick building located at the corners of Broadway (Main) and Market streets. The rear top two floors of the 15,000 square foot building overlook the beautiful St. Lawrence River, but are in the process of being condemned. The building is part of the downtown revitalization plan which was developed with the assistance of a 2006 New York State Strategic Planning Technical Assistance Grant and has been included for facade renovation in the New York State Main Street Grant which the Cape Vincent Improvement League and Cape Vincent LDC received in 2007. The rehabilitated building will be a mixed-use facility with the majority of space dedicated to commercial use. An attached motel unit will be demolished and replaced with 4-6 apartments.

- **Village of Harrisville – Riverside Neighborhood**

Grant Total: \$276,475

Dooley's Drug Store on Main Street is located in the center of the downtown commercial district of Harrisville and is in the Lewis County Empire Zone and the Housing and Urban Development (HUD) Riverside Targeted Area. The vacant drug store was condemned by Lewis County Code Enforcement on February 20, 2009 (7,460 square feet) and will be restored to contain commercial space on the ground floor and two apartments on the second floor.

- **Village of Sackets – Historic Madison Barracks**

Grant Total: \$735,000

The subject of the Village of Sackets Harbor's Restore NY grant application is the Historic Madison Barracks Rehabilitation Project. This project proposes to restore an architecturally and historically significant abandoned, dilapidated vacant building that is not currently on the tax roles. The former administration building is listed on the National Register of Historic places and is located in the

community's locally targeted Madison Barracks Historic Planned Development District. The site will be rehabilitated into a hotel. The project will require new infrastructure which should stimulate further development in the area.

- **Village of Clayton – Riverwalk District Revitalization**

Grant Total: \$1,203,354

Building 1, located at 419 Riverside Drive, has been cleared and is now ready for development. Planned is a three story mixed used building including retail, office and living space. Building 2, located at 690 Riverside Drive, is an underused building that with renovations would result in office space and expanded marine repair facility. Both sites reach from the main street to the St. Lawrence River. Both sites are in the Riverwalk District and will encompass the intended Riverwalk and comply with the community's Comprehensive Plan, as well as its Local Waterfront Revitalization Plan. Both plans will result in job creation. Building 1 at 419 Riverside Dr. is the preferred project, should a reduction in the grant be necessary.

SOUTHERN TIER REGION

TOTAL GRANT MONIES: \$15,901,598

- **City of Hornell – Federation Building Renovation Project**

Grant Total: \$1,500,000

The renovation of the Federation Building (29,000 square feet), located in the central commercial/downtown district is proposed to include the construction of 18 market rate residential units overlooking the city, as well as renovation to the first floor to accommodate mixed-use retail/business uses. Renovations specifically include repair of exterior masonry, installation of structural floor system in existing auditorium, window replacement, new exit stairs for code compliance, upgraded elevator for compliance with the Americans with Disabilities Act, installation of fire protection system, replacement of heating, ventilating, and air conditioning (HVAC), plumbing and electrical systems, and general architectural improvements and fit out to construct the apartment units. Asbestos and lead paint surveys will be conducted and all construction will be required to meet the approval of Office of Parks, Recreation, and Historic Preservation (OPRHP) review.

- **City of Binghamton – Neighborhood Impact Program**

Grant Total: \$2,220,000

Restore NY funds will be used to continue the strategic implementation of the Binghamton Healthy Neighborhood Initiative which concentrates on resources, partnerships and investments in developing livable, marketable and sustainable neighborhoods over the long-term. Building upon its Restore 1 and 2 projects, the City of Binghamton will continue its citywide collaborative effort to eliminate and redevelop blighted properties, especially in transitional neighborhoods. Activities will include demolition, reconstruction, rehabilitation and or deconstruction of 48 vacant, distressed and or condemned residential structures. Reuse activities will be identified based on neighborhood density, character, marketability, and potential impact on future investment. Reuse activities may include green space development, new construction at demolition sites, and rehabilitation. The city will continue building upon its collaborations with Broome County, local and regional housing development agencies, and residents in meeting its development goals. The city will strive to meet energy efficiency and universal design standards to the highest extent possible.

- **City of Binghamton – Targeted Commercial Catalysts**

Grant Total: \$1,275,510

Restore III funds will be used to redevelop commercial sites that strategically build on earlier Restore funding and will catalyze investment in the targeted downtown and north side neighborhoods.

- **Village of Corning – East End Redevelopment Project**

Grant Total: \$1,470,000

The East End Redevelopment Project involves the total rehabilitation of 25,700 square feet of commercial space in two historic anchor buildings located within a two-block area. They form the bookends of a major redevelopment effort in Corning's downtown Business Improvement District (Corning Gaffer District). The project is a joint redevelopment effort being undertaken by the city, the BID, Restore NY and New York Main Street funding and private developer investment. The Project involves the rehabilitation of 12,500 square feet of poor quality and undeveloped space in the 3-story mixed-use building located at 54-58 East Market Street. The Project is located in a designated Historic District and an Empire Zone. It will result in the retention of an anchor retail tenants and 11-13 new commercial businesses.

- **City of Ithaca – Downtown Commons Upper Story Housing**

Grant Total: \$1,150,000

The Downtown Commons Upper Story Housing project involves the redevelopment of vacant, downtown buildings located on “The Commons” for retail/housing and mixed use. The project implements the Downtown Ithaca Development Strategy and is located within the Empire Zone.

- **Village of Whitney Point – Downtown Building Renovation Project**

Grant Total: \$410,000

The proposed project includes the renovation of three vacant mixed use buildings on the same block in downtown Whitney Point. The three-story brick Oakland Hotel (+/- 8,000 square feet) will be redeveloped to house a restaurant and commercial space on the first floor and commercial space and an Inn on the upper floors. The nearby Johnson building is a two-story, 3,000 square foot brick structure that will be renovated for commercial use on the first floor and market rate residential housing on the upper floor. The former Reporter Building will be renovated and a new addition will be constructed to house a new primary care facility for Lourdes Hospital. The Village completed a Downtown Strategic Plan in 2008. The creation of new commercial space, market rate housing and the renovation of the Oakland Hotel were important strategies in this plan.

- **Village of Johnson City – JC BOA Redevelopment & Revitalization**

Grant Total: \$914,000

The Village of Johnson City's Restore NY project will involve the demolition of deteriorated commercial and mixed use buildings and be the catalyst for the redevelopment and stabilization of priority sites within the Endicott Johnson Industrial Spine Brownfield Opportunity Area. The project will involve the demolition of a mixed use building of 8,500 square feet, stabilization and rehabilitation of the vacant National Register listed Goodwill Theatre of approximately 25,000 square feet along with the rehabilitation and redevelopment of vacant industrial buildings. The project is located within the Triple Cities Empire Zone and is adjacent to the Central Business District of the Village.

- **Village of Montour Falls – Rural Urban Center**

Grant Total: \$766,500

Funding will be used to renovate and rehabilitate the former Rural Urban Center at 208 West Broadway Street into three professional/commercial spaces and 10 residential units. The Rural Urban Center, a 15,000 square foot former school building currently owned by Schuyler County, was most recently used by the County as an office building and is currently vacant and surplus. It is immediately adjacent to the Route 14/Catherine Street commercial corridor and the West Main Street commercial and historic district. Renovation will be done by the Nelson Development Group who will take title, develop the project, returning the property to the tax rolls and adding an important component to the Village's revitalization by providing much-needed professional/commercial office space and market housing. The developer will provide the project match required by Restore NY.

- **City of Elmira – Federal Building Redevelopment**

Grant Total: \$1,250,000

The City of Elmira currently owns what is being referred to as the Federal Building, which is vacant, surplus property that once served as a United States Post Office and Court House. The property

located at 200 East Church Street is in the heart of the city's Central Business District on the corner of Church Street and Clemens Center Parkway. The building is located on 2.13 acres which includes a vacant lot for additional parking needs. Built in 1902, the building is listed on the National Register of Historic Places. There is approx. 59,492 square feet of gross building area including the basement, and approx. 43,000 square feet of rentable space. The city has entered into a Development and Option Agreement with a developer to rehabilitate this commercial property to accommodate a mix of retail and office space.

- **Town of Stamford – Main Street Revitalization**

Grant Total: \$865,512

The Main Street Revitalization project involves the rehabilitation of two vacant properties on historically significant Main Streets in the villages of Hobart and Stamford in the Town of Stamford. Building A was and will be mixed use commercial; Building B was and will be commercial. Local revitalization plans call for the rehabilitation and reuse of these historically important structures in NY Main Street and Community Development Block Grant (CDBG) Target Areas. Building A is a vacant four-story Queen Anne Victorian with 13,750 square feet to be rehabilitated into 1st floor retail, 2nd floor offices and 3rd floor apartments for tenants in the Village of Stamford. Retail client is in place. Building B is 5,200 feet and will be rehabbed as a bookstore and book warehouse as part of the Book Village of the Catskills revitalization; the building will be occupied and operated by an established bookseller.

- **Village of Horseheads – South Avenue Redevelopment Project**

Grant Total: \$380,576

The South Avenue Redevelopment Project involves the demolition of a 71,000 square foot surplus, vacant industrial building. The building is located in the center of a residential area and within a half mile of the newly constructed I86 project in the Village. This demolition will allow the lands to be utilized for a mixed use of neighborhood commercial and residential uses.

- **Village of Owego – Historic Central Business Restoration**

Grant Total: \$969,500

The project entails rehabilitation of mixed use structures within the central business historic district. Currently all of the structures have either the second or third floors vacant. Some of these have first floor commercial space vacant as well. By creating more residential units and rehabilitating the first floor commercial space in the mixed-use structures, the central business historic district will see a more pronounced vitality and a greater economic stimulus.

- **Village of Watkins Glen – Magee Point Landing**

Grant Total: \$1,190,000

The Magee Point Landing project will rehabilitate the former public works building at 65 Salt Point Road in the Village of Watkins Glen, a property declared surplus by the Village. The project will convert the existing 11,500 square foot four-level brick building into eight apartments and a lakeside restaurant while enhancing the historic character of the building. The Seneca Lake site is close to the central business district, allowing residents and restaurant patrons to shop and support commercial investments in downtown Watkins Glen. The restaurant will offer indoor dining, lakeside dining, and dockside service for the hundreds of boaters on Seneca Lake serving the local community as well as the visiting tourist trade. The project will encourage further development of lakeside properties enhancing the tourist industry which is crucial to the local economy.

- **City of Norwich – Norwich Frames Unlimited Building Rehabilitation**

Grant Total: \$200,000

The City of Norwich proposes to rehabilitate a vacant mixed use building, most recently used as a picture frame shop and rooming house, located at 24 East Main Street in the city's central business district. The two-story, wood-frame building, measuring approximately 3,300 square feet in floor area, will receive extensive exterior and interior rehabilitation to reestablish a new commercial/retail space on the first floor and residential use of the second floor, most likely two one bedroom apartments. Upon completion of the project, the city will sell the property to a private party through a bid or other lawful process. The proposed project is consistent with the city's Comprehensive Plan, adopted in December 2003, as well as the program objectives of the Norwich Business Improvement District.

- **Village of Bath – Masonic Temple Restoration**

Grant Total: \$1,180,000

The Village of Bath, in collaboration with Johnson-Schmidt & Associates Architects, will conduct a restoration project of the Masonic Temple building in the Village of Bath. Built in 1832, the building is in a rapid state of deterioration and is in need of structural repairs. Funds will be used to make structural repairs and to renovate the building's 14,200 square feet in an effort to reuse the structure with a mix of commercial and residential tenancy. The building is located in the heart of the downtown area of the Village and its restoration is in line with the Village Comprehensive Plan strategies of improving community appearance (while maintaining historic character) and encouraging economic development. This project will allow the Village to increase its tax base, thereby improving municipal finances and the wherewithal to further grow the municipality's tax and resource base, lessening its dependence on state aid.

- **Town of New Berlin – Downtown Revitalization Project**

Grant Total: \$160,000

The Village proposes demolition of a three-story brick building at 2-10 Main Street, at the main intersection of the New Berlin Business District. On one corner is a three-story brick building at 2-10 Main St, which is currently vacant. The building is falling into itself, causing a public safety concern to pedestrian and vehicular traffic and neighboring buildings.

WESTERN NEW YORK REGION

TOTAL GRANT MONIES: \$27,243,000

- **City of Dunkirk – Alumax/Roblin/Edgewood Brownfield Redevelopment**

Grant Total: \$2,500,000

This site, commonly referred to as “Progress Park,” encompasses approximately 27.14 acres over three contiguous brownfield sites located along the eastern side of Roberts Road. The proposed development would include two structures that will encompass in excess of 200,000 square feet of new manufacturing and warehousing facilities. This project will include the leveraging of federal funds to construct a new road through this site, connecting the primary industrial corridor of the City of Dunkirk to the manufacturing center of the Town of Dunkirk. . Primary objectives of this plan are: to provide new and expanded manufacturing and commercial facilities that are complimentary to and compatible with existing local businesses, thus retaining and creating jobs and increasing the commercial and residential tax base; to convert a blighted and underutilized brownfield property to a productive use; and to coordinate the redevelopment with the construction of “Millennium Parkway,” serving the transportation needs of existing and new businesses.

- **City of Niagara Falls – Niagara Lofts**

Grant Total: \$5,000,000

The project involves the green rehabilitation of the vacant, historic, blighted former South Junior High School into Niagara City Lofts, 52 market rate live/work and commercial spaces located in the heart of the city amid the Niagara Falls Memorial Medical Center, Niagara Arts & Cultural Center and Seneca Niagara Casino. This project will restore the core of the city’s sustainability, revitalize the Memorial Park neighborhood in accordance with its residents’ plan and attract new people associated with the hospital, the NACC and the Casino to downtown. Restore NY funds are crucial to fill the gap between the costs of asbestos cleanup and rehabilitation and income from rental rates. These funds will complement private investment from developer and historic rehabilitation tax credits equity and a mortgage. Design, financing and construction can occur in 18 months. The project will provide more than 100 construction jobs during that time frame.

- **City of Buffalo –Neighborhood Revitalization**

Grant Total: \$7,635,526

Buffalo has developed a comprehensive plan to address the revitalization of its neighborhoods. The plan includes housing rehabilitation and strategic demolition of blighted properties. Strategic demolitions enable the city to redevelop the property or landbank for future use. Demolitions will closely follow Mayor Brown’s 2007 5 in 5 program that seeks to lower Buffalo’s structural vacancy rate to five percent within five years. Within the past two Restore grant cycles, the City has invested over \$24 million of its own funds in this program, proving our commitment and the importance of this program. The requested funding will be used for vacant structures, which pose a threat to public safety or are in proximity to schools, as well as in areas where the most substantial economic impact can be made. A swift demolition process is key for successful neighborhood revitalization in Buffalo.

- **City of Jamestown – Jamestown Connector Stabilization Project**

Grant Total: \$1,000,000

The Project will encompass the deconstruction of a number of blighted and vacant multistory manufacturing buildings, one of which is in imminent danger of collapsing into the Chadakoin River and causing flooding in the City’s industrial corridor. This blight and threat has been a deterrent to

redevelopment of an approximate eight acre site formally occupied by Dahlstrom Manufacturing. Once cleared, this site will offer potential for new development to occur and become part of the Jamestown Urban Connector System.

- **City of Buffalo – Commercial & Mixed Use Urban Center**
Grant Total: \$6,684,474

The City of Buffalo's application for commercial and mixed use projects will focus on the renovation of historic properties and adaptive reuse opportunities within Buffalo's legacy-built environment per plans and strategies that have identified redevelopment priorities. The urban center will be revitalized to support cultural tourism and mixed use development. The City will partner with community development organizations and private developers to redevelop six critical commercial properties and several residential units.

- **City of Tonawanda – Spaulding Fibre Site Demolition**
Grant Total: \$663,000

ESD provided a \$2.5 million RESTORE II grant for the demolition of 580,000 square feet of vacant above-ground structures at this Brownfield, which once housed the 860,000 square foot manufacturing operation of the now-liquidated Spaulding Fibre Company. During the RESTORE II demolition process, which was completed in 2008, below-grade concrete structures & slabs were discovered that will need to be demolished and removed so Tonawanda can complete site remediation and prepare this 47 acre site for future commercial re-use. Whatever amount we can give them will help move them toward final clean-up. At this time, the City does not have any additional funding to complete the final phase of the project.

- **City of Niagara Falls – Redevelopment of City Buildings**
Grant Total: \$1,300,000

The former 39th Street School is located at 555 39th Street in the City of Niagara Falls. The project consists of a one story brick building built in 1954. The school closed in 1984 and a child clothing manufacturer leased the space for a few years. It has been abandoned and the target of vandals for 20 years. The building will be converted to 35 to 40 patio-style apartments for an aging population. This solid, middle class neighborhood of empty nester and snow birds are looking to downsize from multi-story homes to single-story apartments. Providing this style living accommodations will free up the housing market in the area for a younger population. Building will be mixed use and include residential and commercial space. Funds will be used for asbestos abatement, remediation of the leaking bunker oil tank, stabilization of the roof, trash and debris removal.

The former Municipal Building, at 520 Hyde Park Boulevard, was built in 1961. The existing building is a three story, 63,937 square foot structure and sits on 4.4 acres in the city. The 3rd floor is used exclusively for mechanicals. The current use of the property is for the local police station and State Court Building. The property was scheduled to be vacated in the spring of 2009. The building will be mixed use and include the operation of an assisted living facility and commercial space. Restore NY funds will be used for asbestos abatement along with the removal of all affected mechanicals. The radio tower on the building will remain. The site needs to be prepared for project redevelopment.

- **Village of Gowanda – Historic Hollywood Theater**
Grant Total: \$660,000

Located in the center of Gowanda's Historic District, the Hollywood Theater stands vacant. It is on both the State and National registers of historic places. All economic and feasibility studies independently confirm that Gowanda's Historic Hollywood Theater is a key catalyst for economic redevelopment in Gowanda's main business district. Restoration could spur complementary efforts to capitalize on the Village's history and architecture and encourage new business development. We propose to rehabilitate and restore this historic property. A Schematic Design Report for the 12,600 square foot building has been completed with New York State Historic Preservation Office approval. The goal is to reopen the Hollywood Theater as a regional Center for the visual and performing arts.

- **Town of Grand Island – Grand Island Gateway Center**

Grant Total: \$1,000,000

The Town of Grand Island, in collaboration with private developers, will rehabilitate the currently vacant Dunlop Building, a commercial building complex of 74,000 square feet and immediately adjacent to the I-190 thruway, a high traffic area connecting the cities of Buffalo and Niagara Falls. To ensure that the Dunlop Building is safely available for reuse, the town will conduct asbestos abatement throughout the entire structure, replace all windows, renovate the building exterior and install sanitary sewers to the project site. As a result, a long vacant, blighted building will be returned to market ready status, attracting new business to Grand Island.

- **City of Lackawanna – City of Lackawanna Redevelopment Plan**

Grant Total: \$800,000

The City of Lackawanna is requesting funding for a comprehensive revitalization project that will fulfill the goals of its citywide redevelopment plan. All actions are integral to the redevelopment of business and housing sites at the most visible locations within the City. Efforts to immediately improve commercial and residential property include: Asbestos abatement of the 96,100 square foot vacant Bethlehem Steel office building which will be evaluated for potential re-use. In addition, assistance to Catholic Health Systems for the Our Lady of Victory (OLV) Senior Complex will enable them to complete the final and most visible phase of construction, a new entrance and commercial space.
