**RE: SOIL DISPOSAL SUMMARY REPORT  
ROUTE 342, WATERTOWN, NEW YORK  
NYS DEC SPILL ID #97-04043**

Dear Mr. Warner:

On July 11, 2000, a composite soil sample (WC) was collected from the staged soil at the above referenced site for waste characterization analyses (See Appendix A). All standard sample collection and handling protocols were followed throughout the event. Upon approval for disposal at the Solid Waste Management Facility located in Rodman, New York, Clemett began arrangements for disposal of the petroleum-impacted soil.

Between November 28, 2000 and December 1, 2000, Clemett loaded and transported a total of **491.51** tons of petroleum-impacted soil to Rodman Landfill. Straight Bills of Lading and Landfill Weight Tickets are presented in Appendix B.

If you have any questions, please contact me at (315) 454-4435.

Sincerely,

Jamie L. Costello  
Project Manager
