Re: General Cable Site
Rome, New York

Dear Mr. Ouderkirk:

Please find attached the Petroleum Spill Investigation Work Plan for the Rod Mill Parcel.

The Rod Mill Remedial Work Plan attached to the VRA states all sampling and analysis and cleanup standards will be according to STARS Memo #1. I have developed this investigation work plan according to the STARS Memo #1 requirements stated in the VRA work plan. If different analysis or cleanup standards are required by your department, please notify me what these standards and cleanup requirements are.

Any changes to this work plan will be amended in a letter format. Please contact me to discuss.

Sincerely,

JACK EISENBACH ENGINEERING, P.C.
